Stifel Financial Corp. Reports Unaudited First Quarter Results Net Revenues Increase 7% Net Income Increases 8%

St. Louis, Missouri, May 1, 2002 - Stifel Financial Corp. (NYSE: "SF") today reported unaudited quarterly net income of \$1.7 million, or \$0.21 per diluted share on net revenues of \$47.8 million for the quarter ended March 31, 2002, compared to net income of \$1.6 million, or \$0.20 per diluted share, on net revenues of \$44.8 million for the comparable quarter of 2001. At March 31, 2002, the Company's equity was \$81.1 million, resulting in book value per share of \$11.30.

Chairman and Chief Executive Officer, Ronald J. Kruszewski, commented, "While overall market conditions remain difficult for the securities industry, we are pleased with our quarterly results. The Company's first quarter performance reflects increases in both net revenues and net income. Net revenues increased 7% and 6% and net income increased 8% and 45%, both as compared to the prior year first quarter and the fourth quarter of 2001, respectively. Our results are indicative of the Company's balanced growth strategy. In particular, our Equity Capital Markets Group recorded outstanding results with net revenues and operating contribution up 53% and 123%, respectively, over the comparable first quarter of 2001. The Company's Private Client Group recorded increases in net revenues and operating contribution, as compared to the prior year quarter, of 8% and 30%, respectively. These segments offset declines in net revenues and contribution for Fixed Income Capital Markets. Also, to support future growth initiatives, the Company completed a \$34.5 million 9% trust preferred offering in April of 2002."

Net revenues for the quarter increased 7% to \$47.8 million from \$44.8 million in the prior year first quarter and increased 6% from the fourth quarter of 2001. Commission and principal transaction revenues increased 2% to \$28.0 million from \$27.5 million in the same period last year and increased 3% from the fourth quarter of 2001. Investment banking revenues increased 32% to \$10.8 million in the first quarter of 2002 from \$8.2 million in the prior year first quarter and increased 6% from the fourth quarter of 2001. Other income of \$6.6 million increased 4% from the first quarter of 2001 and increased 14% from the preceding fourth quarter of 2001. Net interest declined 15% to \$2.4 million from \$2.8 million in the prior year first quarter, but increased 8% over the fourth quarter of 2001.

Total non-interest expenses in the 2002 first quarter were \$45.0 million, up 6% from \$42.2 million in the same period of 2001, and up 4% from the fourth quarter of 2001. Employee compensation and benefits increased 9% to \$33.1 million from \$30.4 million in the prior year first quarter and increased 7% from the fourth quarter of 2001. As a percentage of net revenues, compensation totaled 69.3% in the first quarter of 2002, 67.7% in the 2001 comparable quarter, and 68.6% in the fourth quarter of 2001. A significant portion of the increase in compensation and benefits is due to transition amounts paid in connection with the company's expansion effort. Excluding these expenses, compensation as a percentage of net revenues totaled 64.3% in the first quarter of 2002, 63.4% in the 2001 comparable quarter, and 63.3% in the fourth quarter 2001. Non-interest expenses, excluding compensation and benefits, remained unchanged as compared to the prior year first quarter, and decreased 3% from the fourth quarter of 2001.
