Filed Pursuant to Rule 424(b)(2). Registration No.: 333-136815. A filing fee of \$16,740 calculated in accordance with Rule 457(r), has been transmitted to the SEC in connection with the securities offered by means of this prospectus supplement and the accompanying prospectus from the registration statement filed August 22, 2006. This paragraph shall be deemed to update the “Calculation of Registration Fee” table in the registration statement referred to above.

### **Prospectus Supplement (To Prospectus Dated August 22, 2006)**

**\$300,000,000**

**DTE Energy**

# **DTE Energy Company**

**2009 Series A**

**7.625% Senior Notes due 2014**

We will pay interest on the notes on May 15 and November 15 of each year beginning November 15, 2009 at the rate of 7.625% per year.

The notes will mature on May 15, 2014. We may redeem the notes at our option, in whole or in part, at any time at the redemption price set forth in this prospectus supplement. There is no sinking fund for the notes. The notes will be unsecured and unsubordinated obligations and will rank equally with all of our other unsecured and unsubordinated indebtedness from time to time outstanding.

**Investment in the notes involves risks. You should read carefully the entire prospectus and this prospectus supplement, including the section entitled “Risk Factors” that begins on page S-6 of this prospectus supplement, which describes some of these risks.**

	<b>Price to Public</b>	<b>Underwriting Discount</b>	<b>Proceeds to Us Before Expenses</b>
Per Note	100%	0.60%	99.40%
Total	\$300,000,000	\$1,800,000	\$298,200,000

Interest on the notes will accrue from the date of original issuance. Purchasers of the notes must pay the accrued interest if settlement occurs after that date.

Delivery of the notes, in book-entry form only, will be made on or about May 13, 2009.

**Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if the prospectus supplement or the prospectus to which it relates is truthful or complete. Any representation to the contrary is a criminal offense.**

### **CAUTIONARY STATEMENTS REGARDING FORWARD-LOOKING STATEMENTS**

This prospectus supplement, the accompanying prospectus and the documents incorporated by reference in this prospectus supplement or the accompanying prospectus contain “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933 (the “Securities Act”) and Section 21E of the Securities Exchange Act of 1934 (the “Exchange Act”), with respect to the financial condition, results of operations and business of DTE Energy. You can find many of these statements by looking for words such as “believes,” “expects,” “anticipates,” “estimates” or similar expressions in this prospectus supplement, the accompanying prospectus or in documents incorporated herein or therein. You are cautioned not to place undue reliance on such statements, which speak only as of the date of this prospectus supplement or the date of any document incorporated by reference.

These forward-looking statements are subject to numerous assumptions, risks and uncertainties. Our actual results may differ from those expected due to a number of variables as described in our public filings with the SEC, including our Annual Report on Form 10-K for the year ended December 31, 2008 and our Quarterly Report on Form 10-Q for the quarter ended March 31, 2009, which are incorporated by reference herein.

All subsequent written and oral forward-looking statements attributable to us or any person acting on our behalf are expressly qualified in their entirety by the cautionary statements contained or referred to in this section. We undertake no obligation to release publicly any revisions to the forward-looking statements to reflect events or circumstances after the date of this document or to reflect the occurrence of unanticipated events.

### **PROSPECTUS SUPPLEMENT SUMMARY**

*This summary highlights important information about DTE Energy Company and this offering. It does not contain all the information that is important to you in connection with your decision to invest in the notes. We encourage you to read this prospectus supplement and the accompanying prospectus in their entirety as well as the information we incorporate by reference before making an investment decision.*

#### **DTE Energy Company**

DTE Energy Company (“DTE Energy”) is a Michigan corporation engaged in utility operations through its wholly owned subsidiaries, The Detroit Edison Company (“Detroit Edison”) and Michigan Consolidated Gas Company (“MichCon”). We also have non-utility operations that are engaged in a variety of energy related businesses.

Detroit Edison is a Michigan public utility engaged in the generation, purchase, distribution and sale of electricity to approximately 2.2 million customers in southeastern Michigan.

MichCon is a Michigan public utility engaged in the purchase, storage, transmission, distribution and sale of natural gas to approximately 1.2 million customers throughout Michigan.

Our non-utility operations consist primarily of Gas Midstream, Unconventional Gas Production, Power and Industrial Projects and Energy Trading. Gas Midstream primarily consists of natural gas pipelines and storage. Unconventional Gas Production primarily consists of unconventional gas exploration, development and production. Power and Industrial Projects primarily consists of on-site energy services, steel-related projects, power generation and coal transportation and marketing. Energy Trading primarily consists of energy marketing and trading operations.

The mailing address of DTE Energy’s principal executive offices is One Energy Plaza, Detroit, Michigan, 48226-1279, and its telephone number is (313) 235-4000.

#### **The Offering**

*For a more complete description of the terms of the notes, see “Description of Notes.”*

The Issuer	DTE Energy Company.
Offered Securities	\$300,000,000 aggregate principal amount of 2009 Series A 7.625% Senior Notes due 2014.
Maturity	The notes will mature on May 15, 2014.
Interest Payment Dates	We will pay interest on the notes in arrears on May 15 and November 15 of each year, beginning November 15, 2009.
Redemption	The notes may be redeemed at our option, in whole or in part, at any time at the redemption price set forth in this prospectus supplement. The notes will not be entitled to the benefit of any sinking fund. See “Description of Notes — Redemption.”
Ranking	The notes will be our unsecured and unsubordinated obligations and will rank on a parity in right of payment with all of our other unsecured and unsubordinated indebtedness from time to time outstanding. The notes are our obligations exclusively, and are not the obligations of any of our subsidiaries. Because we are a holding company, our obligations on the notes will be effectively subordinated to existing and future liabilities of our subsidiaries. See “Risk Factors — We rely on cash flows from subsidiaries” and “Description of Notes — Ranking”

## Table of Contents

	herein, and “Description of Debt Securities — Ranking” in the accompanying prospectus.
Further Issues of the Notes	Initially, the notes will be issued in one series limited to \$300 million in aggregate principal amount, except as provided in the indenture. We may, subject to the provisions of the indenture, “reopen” the series of notes and issue additional notes without the consent of the holders of the notes. See “Description of Notes — General” herein.
Use of Proceeds	Net proceeds from the sale of the notes, after expenses and underwriting discount, are expected to be approximately \$298 million. We expect to use the proceeds to repay short-term borrowings, which have an average interest rate of approximately 1.0% and maturities under 30 days.
Ratings	Our senior unsecured debt is rated Baa2 by Moody’s Investors Service, Inc., BBB— by Standard & Poor’s Ratings Services, a division of The McGraw-Hill Companies, Inc., and BBB by Fitch Ratings. For a description of factors affecting our credit ratings, see “Risk Factors.” Ratings reflect only the rating agencies’ views and are not recommendations to buy, sell or hold the notes. Any rating agency may revise or withdraw its rating on the notes, and, accordingly, there can be no assurance that the ratings assigned to the notes upon initial issuance or at any other time will not be lowered or withdrawn by a rating agency at any time thereafter.
Risk Factors	Your investment in the notes will involve risks. You should carefully consider the discussion of risks in “Risk Factors” in this prospectus supplement and the other information in this prospectus supplement and the accompanying prospectus, including “Cautionary Statements Regarding Forward-Looking Statements” on page S-2 of this prospectus supplement, before deciding whether an investment in the notes is suitable for you.

## Table of Contents

### Summary Consolidated Financial Data

The following table sets forth our summary consolidated financial data on a historical basis for the three months ended March 31, 2009 and March 31, 2008 and each of the three years ended December 31, 2008, 2007 and 2006. The year-end financial data have been derived from our audited financial statements which have been audited by Deloitte & Touche LLP, an independent registered public accounting firm. See "Experts" in the Prospectus Supplement. As previously disclosed on our Form 8-K filed October 24, 2008, we have engaged PricewaterhouseCoopers LLP as our independent registered public accounting firm beginning with the fiscal year ending December 31, 2009. The financial data for the interim periods have been derived from our unaudited condensed consolidated financial statements and include, in the opinion of our management, all adjustments, consisting of normal recurring adjustments, except as otherwise disclosed in the notes to the interim financial statements, necessary for a fair presentation of the financial data. Financial results for the interim periods are not necessarily indicative of results that may be expected for any other interim period or for the fiscal year. The information below should be read in conjunction with "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the year ended December 31, 2008, our Quarterly Report on Form 10-Q for the quarter ended March 31, 2009 and our financial statements and the related notes and the other financial or statistical information that we include or incorporate by reference in this prospectus supplement and the accompanying prospectus. See "Information Incorporated by Reference" and "Where You Can Find More Information" in the accompanying prospectus.

	Three Months Ended March 31, 2009		2008		2008		Year Ended(1) December 31, 2007		2006	
	(In millions, except per share amounts)									
<b>Income Statement Data</b>										
Operating Revenues		\$ 2,255		\$ 2,570		\$ 9,329		\$ 8,475		\$ 8,157
Net Income(3)		\$ 179		\$ 213		\$ 546		\$ 971		\$ 433
<b>Earnings Per Common Share</b>										
Basic		\$ 1.09		\$ 1.30		\$ 3.37		\$ 5.73		\$ 2.44
Diluted		\$ 1.09		\$ 1.29		\$ 3.36		\$ 5.70		\$ 2.43
<b>Dividends Declared Per Share of Common Stock</b>		\$ 0.53		\$ 0.53		\$ 2.12		\$ 2.12		\$ 2.075
<b>Balance Sheet Data</b>										
Total Assets		\$ 24,188		\$ 23,148		\$ 24,590		\$ 23,742		\$ 23,679
Long-Term Debt, net of current portion(2)		\$ 7,495		\$ 6,645		\$ 7,741		\$ 6,971		\$ 7,474

- (1) The year-end financial data do not reflect the effects of our adoption, as of January 1, 2009, of SFAS 160, *Noncontrolling Interests in Consolidated Financial Statements — an Amendment of ARB No. 51* and FSP EITF 03-6-1, *Determining Whether Instruments Granted in Shared-Based Payment Transactions are Participating Securities*. The Company has determined that adoption of SFAS 160 will not have a material effect on the Company's consolidated financial statements. The Company expects that adoption of FSP EITF 03-6-1 will result in a reduction of Basic and Diluted Earnings Per Share of \$0.02 and \$0.01 or less, respectively.
- (2) Includes securitization bonds issued in March 2001 by The Detroit Edison Securitization Funding LLC, which were outstanding in the amounts of \$861 million at March 31, 2009, \$932 million at December 31, 2008, \$996 million at March 31, 2008, \$1.065 billion at December 31, 2007, and \$1.185 billion at December 31, 2006.
- (3) Net income attributable to DTE Energy (which excludes net income attributable to the noncontrolling interests) for the three months ended March 31, 2009 was \$178 million, and for the three months ended March 31, 2008 was \$212 million.

## [Table of Contents](#)

## **RISK FACTORS**

An investment in the notes involves risks. You should carefully consider the following information, together with the other information in this prospectus supplement, the accompanying prospectus and the documents that are incorporated by reference in this prospectus supplement and the prospectus (including the "Risk Factors" set forth in the Company's Annual Report on Form 10-K for the year ended December 31, 2008), about risks concerning the notes, before buying any notes. See also "Cautionary Statements Regarding Forward-Looking Statements" in this prospectus supplement.

There are various risks associated with the operations of DTE Energy's utility and non-utility businesses. To provide a framework to understand the operating environment of DTE Energy, we are providing a brief explanation of the more significant risks associated with our businesses. Although we have tried to identify and discuss key risk factors, others could emerge in the future. Each of the following risks could affect our performance.

### ***Regional and national economic conditions can have an unfavorable impact on us.***

Our utility and non-utility businesses follow the economic cycles of the customers we serve. Our utilities and certain non-utility businesses provide services to the domestic automotive industry which are under considerable financial distress, exacerbating the decline in regional economic conditions. Should national or regional economic conditions further decline, reduced volumes of electricity and gas, and demand for energy services we supply, collections of accounts receivable and potentially higher levels of lost or stolen gas will result in decreased earnings and cash flow.

### ***Adverse changes in our credit ratings may negatively affect us.***

Regional and national economic conditions, increased scrutiny of the energy industry and regulatory changes, as well as changes in our economic performance, could result in credit agencies reexamining our credit rating. While credit ratings reflect the opinions of the credit agencies issuing such ratings and may not necessarily reflect actual performance, a downgrade in our credit rating could restrict or discontinue our ability to access capital markets and could result in an increase in our borrowing costs, a reduced level of capital expenditures and could impact future earnings and cash flows. In addition, a reduction in credit rating may require us to post collateral related to various physical or financially settled contracts for the purchase of energy-related commodities, products and services, which would impact our liquidity.

### ***Our ability to access capital markets at attractive interest rates is important.***

Our ability to access capital markets is important to operate our businesses. In recent months, the global financial markets have experienced unprecedented instability. This systemic marketplace distress is impacting our access to capital and the cost of capital. This recent turmoil in credit markets has constrained, and may again in the future constrain, our ability as well as the ability of our subsidiaries to issue new debt, including commercial paper, and refinance existing debt. We cannot predict the length of time the current worldwide credit situation will continue or the impact on our future operations and our ability to issue debt at reasonable interest rates. In addition, the level of borrowing by other energy companies and the market as a whole could limit our access to capital markets. We have substantial amounts of short-term credit facilities that expire in 2009. We intend to seek to renew the facilities on or before the expiration dates. However, we cannot predict the outcome of these efforts, which could result in a decrease in amounts available and/or an increase in our borrowing costs and negatively impact our financial performance.

### ***Poor investment performance of pension and other postretirement benefit plan holdings and other factors impacting benefit plan costs could unfavorably impact our liquidity and results of operations.***

Our costs of providing non-contributory defined benefit pension plans and other postretirement benefit plans are dependent upon a number of factors, such as the rates of return on plan assets, the level of interest rates used to measure the required minimum funding levels of the plans, future government regulation, and our required or voluntary contributions made to the plans. The performance of the capital markets affects the value of assets that are

## Table of Contents

held in trust to satisfy future obligations under our plans. We have significant benefit obligations and hold significant assets in trust to satisfy these obligations. These assets are subject to market fluctuations and will yield uncertain returns, which may fall below our projected return rates. A decline in the market value of the pension and postretirement benefit plan assets, as was experienced in 2008, will increase the funding requirements under our pension and postretirement benefit plans if the actual asset returns do not recover these declines in the foreseeable future. Additionally, our pension and postretirement benefit plan liabilities are sensitive to changes in interest rates. As interest rates decrease, the liabilities increase, potentially increasing benefit expense and funding requirements. Also, if future increases in pension and postretirement benefit costs as a result of reduced plan assets are not recoverable from Detroit Edison or MichCon customers, the results of operations and financial position of our company could be negatively affected. Without sustained growth in the plan investments over time to increase the value of our plan assets, we could be required to fund our plans with significant amounts of cash. Such cash funding obligations could have a material impact on our cash flows, financial position, or results of operations.

### ***If our goodwill becomes impaired, we may be required to record a charge to earnings.***

We annually review the carrying value of goodwill associated with acquisitions made by the Company for impairment. Factors that may be considered for purposes of this analysis include any change in circumstances indicating that the carrying value of our goodwill may not be recoverable such as a decline in stock price and market capitalization, future cash flows, and slower growth rates in our industry. We cannot predict the timing, strength or duration of any economic slowdown or subsequent recovery, worldwide or in the economy or markets in which we operate, however, when events or changes in circumstances indicate that the carrying value of these assets may not be recoverable, the Company may take a non-cash impairment charge, which could potentially materially impact our results of operations and financial position.

### ***Our participation in energy trading markets subjects us to risk.***

Events in the energy trading industry have increased the level of scrutiny on the energy trading business and the energy industry as a whole. In certain situations we may be required to post collateral to support trading operations, which could be substantial. If access to liquidity to support trading activities is curtailed, we could experience decreased earnings potential and cash flows.

### ***We are exposed to credit risk of counterparties with whom we do business.***

Adverse economic conditions affecting, or financial difficulties of, counterparties with whom we do business could impair the ability of these counterparties to pay for our services or fulfill their contractual obligations, or cause them to delay such payments or obligations. We depend on these counterparties to remit payments on a timely basis. Any delay or default in payment could adversely affect our cash flows, financial position, or results of operations.

### ***We may not be fully covered by insurance.***

We have a comprehensive insurance program in place to provide coverage for various types of risks, catastrophic damage as a result of acts of God, terrorism, war or a combination of other significant unforeseen events that could impact our operations. Economic losses might not be covered in full by insurance or our insurers may be unable to meet contractual obligations.

### ***We are subject to rate regulation.***

Electric and gas rates for our utilities are set by the MPSC and the FERC and cannot be increased without regulatory authorization. We may be negatively impacted by new regulations or interpretations by the MPSC, the FERC or other regulatory bodies. Our ability to recover costs may be impacted by the time lag between the incurrence of costs and the recovery of the costs in customers' rates. New legislation, regulations or interpretations could change how our business operates, impact our ability to recover costs through rate increases or require us to incur additional expenses.

## Table of Contents

### ***Michigan's electric Customer Choice program could negatively impact our financial performance.***

The electric Customer Choice program, as originally contemplated in Michigan, anticipated an eventual transition to a totally deregulated and competitive environment where customers would be charged market-based rates for their electricity. The State of Michigan currently experiences a hybrid market, where the MPSC continues to regulate electric rates for our customers, while alternative electric suppliers charge market-based rates. In addition, such regulated electric rates for certain groups of our customers exceed the cost of service to those customers. Due to distorted pricing mechanisms during the initial implementation period of electric Customer Choice, many commercial customers chose alternative electric suppliers. MPSC rate orders and recent energy legislation enacted by the State of Michigan are phasing out the pricing disparity over five years and have placed a cap on the total potential Customer Choice related migration. Recent higher wholesale electric prices have also resulted in some former electric Customer Choice customers migrating back to Detroit Edison for electric generation service. However, even with the electric Customer Choice-related relief received in recent Detroit Edison rate orders and the legislated 10 percent cap on participation in the electric Customer Choice program, there continues to be financial risk associated with the electric Customer Choice program. Electric Customer Choice migration is sensitive to market price and bundled electric service price increases.

### ***Weather significantly affects operations.***

Deviations from normal hot and cold weather conditions affect our earnings and cash flow. Mild temperatures can result in decreased utilization of our assets, lowering income and cash flow. Ice storms, tornadoes, or high winds can damage the electric distribution system infrastructure and require us to perform emergency repairs and incur material unplanned expenses. The expenses of storm restoration efforts may not be fully recoverable through the regulatory process.

### ***Operation of a nuclear facility subjects us to risk.***

Ownership of an operating nuclear generating plant subjects us to significant additional risks. These risks include, among others, plant security, environmental regulation and remediation, and operational factors that can significantly impact the performance and cost of operating a nuclear facility. While we maintain insurance for various nuclear-related risks, there can be no assurances that such insurance will be sufficient to cover our costs in the event of an accident or business interruption at our nuclear generating plant, which may affect our financial performance.

### ***The supply and price of fuel and other commodities and related transportation costs may impact our financial results.***

We are dependent on coal for much of our electrical generating capacity. Price fluctuations, fuel supply disruptions and increases in transportation costs could have a negative impact on our ability to profitably generate electricity. Our access to natural gas supplies is critical to ensure reliability of service for our utility gas customers. We have hedging strategies and regulatory recovery mechanisms in place to mitigate negative fluctuations in commodity supply prices, but there can be no assurances that our financial performance will not be negatively impacted by price fluctuations. The price of natural gas also impacts the market for our non-utility businesses that compete with utilities and alternative electric suppliers. Increased transportation costs could also impact our non-utility businesses.

### ***Unplanned power plant outages may be costly.***

Unforeseen maintenance may be required to safely produce electricity or comply with environmental regulations. As a result of unforeseen maintenance, we may be required to make spot market purchases of electricity that exceed our costs of generation. Our financial performance may be negatively affected if we are unable to recover such increased costs.

## Table of Contents

### ***Our estimates of gas reserves are subject to change.***

While we cannot provide absolute assurance that our estimates of our Barnett gas reserves are accurate, great care is exercised in utilizing historical information and assumptions to develop reasonable estimates of future production and cash flow. We estimate proved gas reserves and the future net cash flows attributable to those reserves. There are numerous uncertainties inherent in estimating quantities of proved gas reserves and cash flows attributable to such reserves, including factors beyond our control. Reserve engineering is a subjective process of estimating underground accumulations of gas that cannot be measured in an exact manner. The accuracy of an estimate of quantities of reserves, or of cash flows attributable to such reserves, is a function of the available data, assumptions regarding expenditures for future development and exploration activities, and of engineering and geological interpretation and judgment. Additionally, reserves and future cash flows may be subject to material downward or upward revisions, based upon production history, development and exploration activities and prices of gas. Actual future production, revenue, taxes, development expenditures, operating expenses, quantities of recoverable reserves and the value of cash flows from such reserves may vary significantly from the assumptions and underlying information we used.

### ***Our ability to utilize production tax credits may be limited.***

To reduce U.S. dependence on imported oil, the Internal Revenue Code provides production tax credits as an incentive for taxpayers to produce fuels and electricity from alternative sources. We have generated production tax credits from the synfuel, coke production, landfill gas recovery, biomass fired electric generation and gas production operations. We have received favorable private letter rulings on all of the synfuel facilities. All production tax credits taken after 2003 are subject to audit by the Internal Revenue Service (IRS). If our production tax credits were disallowed in whole or in part as a result of an IRS audit, there could be additional tax liabilities owed for previously recognized tax credits that could significantly impact our earnings and cash flows. We have also provided certain guarantees and indemnities in conjunction with the sales of interests in the synfuel facilities.

### ***We rely on cash flows from subsidiaries.***

DTE Energy is a holding company. Cash flows from our utility and non-utility subsidiaries are required to pay interest expenses and dividends on DTE Energy debt and securities. Should a major subsidiary not be able to pay dividends or transfer cash flows to DTE Energy, our ability to pay interest and dividends would be restricted.

### ***Environmental laws and liability may be costly.***

We are subject to numerous environmental regulations. These regulations govern air emissions, water quality, wastewater discharge, and disposal of solid and hazardous waste. Compliance with these regulations can significantly increase capital spending, operating expenses and plant down times. These laws and regulations require us to seek a variety of environmental licenses, permits, inspections and other regulatory approvals. Additionally, we may become a responsible party for environmental clean up at sites identified by a regulatory body. We cannot predict with certainty the amount and timing of future expenditures related to environmental matters because of the difficulty of estimating clean up costs. There is also uncertainty in quantifying liabilities under environmental laws that impose joint and several liability on potentially responsible parties.

We may also incur liabilities as a result of potential future requirements to address climate change issues. Proposals for voluntary initiatives and mandatory controls are being discussed both in the United States and worldwide to reduce greenhouse gases such as carbon dioxide, a by-product of burning fossil fuels. If increased regulation of greenhouse gas emissions are implemented, the operations of our fossil-fuel generation assets may be significantly impacted.

Since there can be no assurances that environmental costs may be recovered through the regulatory process, our financial performance may be negatively impacted as a result of environmental matters.

## Table of Contents

### ***Terrorism could affect our business.***

Damage to downstream infrastructure or our own assets by terrorism would impact our operations. We have increased security as a result of past events and further security increases are possible.

### ***Benefits of continuous improvement initiatives could be less than we expect.***

We have a continuous improvement program that is expected to result in significant cost savings. Actual results achieved through this program could be less than our expectations.

### ***A work interruption may adversely affect us.***

Unions represent approximately 5,000 of our employees. A union choosing to strike would have an impact on our business. We are unable to predict the effect a work stoppage would have on our costs of operation and financial performance.

### ***Failure to retain and attract key executive officers and other skilled professional and technical employees could have an adverse effect on our operations.***

Our business is dependent on our ability to recruit, retain, and motivate employees. Competition for skilled employees in some areas is high and the inability to retain and attract these employees could adversely affect our business and future operating results.

### ***There is no existing market for the notes and we cannot assure that such a market will develop.***

There is no existing market for the notes, and we do not intend to apply for listing of the notes on any securities exchange. We cannot assure that an active trading market for the notes will develop. There can be no assurances as to the liquidity of any market that may develop for the notes, the ability of noteholders to sell their notes or the price at which the noteholders may be able to sell their notes. Future trading prices of the notes will depend on many factors, including, among other things, prevailing interest rates, our operating results and the market for similar securities. Generally, the liquidity of, and trading market for, the notes may also be materially and adversely affected by declines in the market for similar debt securities. Such a decline may materially and adversely affect such liquidity and trading independent of our financial performance and prospects.

## **USE OF PROCEEDS**

Net proceeds from the sale of the notes, after expenses and underwriting discount, are expected to be approximately \$298 million. We expect to use the proceeds to repay short-term borrowings, which have an average interest rate of approximately 1.0% and maturities under 30 days.

## **RATIOS OF EARNINGS TO FIXED CHARGES**

Our ratios of earnings to fixed charges were as follows for the periods indicated in the table below:

	<b>Three Months Ended March 31, 2009</b>	<b>2008</b>	<b>Year Ended December 31,</b>	<b>2007</b>	<b>2006</b>	<b>2005</b>	<b>2004</b>
Ratios of Earnings to Fixed Charges		3.02		2.51	3.05	1.95	1.77

Our ratios of earnings to fixed charges were computed based on:

- “earnings,” which consist of consolidated income plus income taxes and fixed charges, except capitalized interest; and
- “fixed charges,” which consist of consolidated interest on indebtedness, including capitalized interest, amortization of debt discount and expense and the estimated portion of rental expense attributable to interest.

[Table of Contents](#)

**CAPITALIZATION**

The following table sets forth our cash, cash equivalents and restricted cash, short-term debt, current portion of long-term debt and capital lease obligations, total long-term debt, preferred securities of subsidiaries, common shareholders' equity and total capitalization at March 31, 2009 and as adjusted to give effect to the offering and application of the net proceeds of this offering and the April 15, 2009 maturity of the DTE Energy \$200 million 2002 Series A 6.65% Senior Notes due 2009, which was funded with short-term borrowings incurred after March 31, 2009. The information set forth below is only a summary and should be read in conjunction with our consolidated financial statements and the related notes in each case incorporated by reference in this prospectus supplement and the accompanying prospectus.

	As of March 31, 2009	
	Historical (Unaudited) (In millions)	As Adjusted (In millions)
Cash and cash equivalents	\$ 88	\$ 88
Restricted cash	\$ 22	\$ 22
Short-term borrowings	\$ 330	\$ 232
Current portion of long-term debt, including capital leases	\$ 518	\$ 318
Long-term debt (net of current portion):		
Mortgage bonds, notes and other	\$ 6,288	\$ 6,588
Securitization bonds	861	861
Trust preferred-linked securities	289	289
Capital lease obligations	57	57
Total long-term debt	\$ 7,495	\$ 7,795

## Table of Contents

### **DESCRIPTION OF NOTES**

*The following summary sets forth the specific terms and provisions of the notes. The following description of the specific terms of the notes supplements, and, to the extent inconsistent, replaces, the description of the general terms and provisions of the debt securities and the indenture governing the notes set forth in the accompanying prospectus under “Description of Debt Securities.” The following summary is qualified in its entirety by reference to the terms and provisions of the notes and the indenture, which are incorporated in this prospectus supplement and the accompanying prospectus by reference. Capitalized terms not otherwise defined in this section, or in the accompanying prospectus, have the meanings given to them in the notes and in the indenture.*

#### **General**

We will issue the notes as a series of our senior unsecured debt securities under the indenture described in the accompanying prospectus.

The indenture does not limit the amount of senior notes or other debt securities we may issue under it. As of March 31, 2009, approximately \$1.5 billion aggregate principal amount of Senior debt securities and \$289 million of subordinated securities related to the company’s Trust preferred-linked securities were issued and outstanding under the indenture.

We may also “reopen” the series of notes to issue additional notes having the same ranking, interest rate, maturity, and other terms (other than the date of issuance and, in some circumstances, interest accrual dates) as the notes, without the consent of the holders. Any such additional notes will, together with the existing notes of that series, constitute a single series of debt securities under the indenture.

The notes will trade through The Depository Trust Company (“DTC”). The notes will be represented by one or more global certificates and will be registered in the name of Cede & Co., as DTC’s nominee. DTC may discontinue providing its services as securities depositary with respect to the notes at any time by giving reasonable notice to us. Under those circumstances, in the event that a successor securities depositary is not obtained, securities certificates will be printed and delivered to the holders of record. Additionally, we may decide to discontinue use of the system of book entry transfers through DTC (or a successor depositary) with respect to the notes. Upon receipt of a withdrawal request from us, DTC will notify its participants of the receipt of a withdrawal request from us reminding participants that they may utilize DTC’s withdrawal procedures if they wish to withdraw their securities from DTC, and DTC will process withdrawal requests submitted by participants in the ordinary course of business. To the extent that the book-entry system is discontinued, certificates for the notes will be printed and delivered to the holders of record. We have no responsibility for the performance by DTC or its direct and indirect participants of their respective obligations as described in this prospectus supplement or under the rules and procedures governing their respective operations. See “Book-Entry Securities” in the accompanying prospectus.

The authorized denominations for the notes will be \$1,000 and integral multiples thereof.

#### **Ranking**

The notes will be our unsecured and unsubordinated obligations and will rank on a parity in right of payment with all of our other unsecured and unsubordinated indebtedness from time to time outstanding, including amounts, if any, outstanding under our \$1.2 billion in aggregate revolving credit agreements as well as our guarantees of non-regulated affiliate obligations. The notes are our obligations exclusively, and are not the obligations of any of our subsidiaries. Because we are a holding company that conducts substantially all of our operations through our subsidiaries, the notes will be effectively subordinated to claims of creditors and preferred stockholders of those subsidiaries, including their trade creditors, debtholders, secured creditors, taxing authorities and guarantee holders, if any.

At March 31, 2009, the total amount of DTE Energy’s outstanding unsecured and unsubordinated indebtedness (excluding guarantees, short-term borrowings and current maturities), on an unconsolidated basis, was approximately \$1.6 billion. At March 31, 2009, our principal subsidiaries, Detroit Edison and MichCon, had approximately \$4.8 billion of outstanding indebtedness (excluding guarantees, short-term borrowings and current maturities), consisting primarily of secured indebtedness, which would rank effectively senior to the notes. In

## Table of Contents

addition, at such date, Detroit Edison had approximately \$861 million of securitization bonds (excluding current maturities) of The Detroit Edison Securitization Funding LLC appearing on our balance sheet. We and our subsidiaries may incur additional indebtedness and other liabilities in the future.

### **Maturity and Payment**

The notes will mature on May 15, 2014 and will bear interest from the date of issuance at the rate of 7.625% per year. Interest will be payable in U.S. dollars semi-annually in arrears on May 15 and November 15 commencing November 15, 2009. Interest punctually paid will be paid to the persons in whose names the notes are registered at the close of business on the 15th calendar day (whether or not a business day) before each interest payment date. "Business day" means any day other than a Saturday or Sunday or a day on which commercial banks in the State of New York are required or authorized by law or executive order to be closed. Interest on the notes will be computed on the basis of a 360-day year consisting of twelve 30-day months.

If any interest payment date, redemption date or maturity date of a note falls on a day that is not a business day, the required payment of principal, premium, if any, and interest will be made on the next succeeding business day as if made on the date that the payment was due and no interest will accrue on that payment for the period from and after that interest payment date, redemption date or maturity date, as the case may be, to the date of payment on the next succeeding business day.

### **Redemption**

The notes may be redeemed at our option, in whole or in part, at any time at the redemption price set forth herein. The redemption price will be equal to the greater of the following amounts:

- 100% of the principal amount of the notes being redeemed on the redemption date; or
- the sum of the present values of the remaining scheduled payments of principal and interest on the notes being redeemed on that redemption date (not including any portion of any payments of interest accrued to the redemption date) until stated maturity, discounted to the redemption date on a semiannual basis at the Adjusted Treasury Rate (as defined below) plus 50 basis points as determined by the Reference Treasury Dealer (as defined below);

plus, in each case, accrued and unpaid interest thereon to the redemption date. Notwithstanding the foregoing, installments of interest on notes that are due and payable on interest payment dates falling on or prior to a redemption date will be payable on the interest payment date to the registered holders as of the close of business on the relevant record date according to the notes and the indenture. The redemption price will be calculated on the basis of a 360-day year consisting of twelve 30-day months.

If notice has been given as provided in the indenture and funds for the redemption of any notes called for redemption have been made available on the redemption date, such notes will cease to bear interest on the date fixed for redemption. Thereafter, the only right of the holders of such notes will be to receive payment of the redemption price.

Notice of any redemption will be given to holders at their addresses, as shown in the security register for such notes, not more than 60 nor less than 30 days prior to the date fixed for redemption. The notice of redemption will specify, among other items, the redemption price and the principal amount of the notes held by such holder to be redeemed.

We will notify the trustee at least 60 days prior to giving notice of redemption (or such shorter period as is satisfactory to the trustee) of the aggregate principal amount of notes to be redeemed and their redemption date. If less than all of the notes of a series are to be redeemed, the trustee shall select which notes are to be redeemed in a manner it deems to be fair and appropriate.

"Adjusted Treasury Rate" means, with respect to any redemption date, the rate per annum equal to the semiannual equivalent yield to maturity of the Comparable Treasury Issue, calculated on the third business day preceding the redemption date, assuming a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such redemption date.

## Table of Contents

“Comparable Treasury Issue” means the United States Treasury security selected by the Reference Treasury Dealer as having a maturity comparable to the remaining term of the notes to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of such notes.

“Comparable Treasury Price” means, with respect to any redemption date, (A) the average of the Reference Treasury Dealer Quotations for such redemption date, after excluding the highest and lowest such Reference Treasury Dealer Quotations, or (B) if the trustee obtains fewer than three such Reference Treasury Dealer Quotations, the average of all such quotations, or (C) if only one Reference Treasury Dealer Quotation is received, such quotation.

“Reference Treasury Dealer” means (i) Barclays Capital Inc., BNP Paribas Securities Corp. and J.P. Morgan Securities Inc. (or their respective affiliates which are Primary Treasury Dealers (as defined below)), and their respective successors; provided, however, that if any of the foregoing shall cease to be a primary U.S. government securities dealer in the United States (a “Primary Treasury Dealer”), we will substitute therefor another Primary Treasury Dealer, and (ii) any other Primary Treasury Dealer(s) selected by us.

“Reference Treasury Dealer Quotation” means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by us, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to us by such Reference Treasury Dealer at 5:00 p.m. (New York City time) on the third business day preceding such redemption date.

The notes will not be entitled to the benefit of any sinking fund.

### **Limitation on Secured Debt**

The limitation on secured debt set forth in the indenture (see Section 1009) and described in the accompanying prospectus will be applicable to the notes. See “Description of Debt Securities — Covenants — Limitation on Secured Debt” in the accompanying prospectus.

### **Defeasance**

We may defease a series of the notes or certain covenants relating to a series of the notes as described under “Description of Debt Securities — Discharge, Defeasance and Covenant Defeasance” in the accompanying prospectus.

### **Concerning the Trustee**

The Bank of New York Mellon Trust Company, N.A. is the successor trustee under the indenture. In addition to acting as trustee under the indenture and in certain other capacities as described in the accompanying prospectus, affiliates of The Bank of New York Mellon Trust Company, N.A. also act as a lender and provide other banking services in the ordinary course of business to DTE Energy and its affiliates.

## Table of Contents

### **UNDERWRITING**

Under the terms and subject to the conditions contained in an underwriting agreement dated May 6, 2009, each of the underwriters named below has agreed to purchase, severally and not jointly, and we have agreed to sell to such underwriters, for whom Barclays Capital Inc., BNP Paribas Securities Corp. and J.P. Morgan Securities Inc. are acting as representatives, the following respective principal amounts of notes:

<b>Underwriter</b>	<b>Principal Amount of Notes</b>
Barclays Capital Inc.	\$ 74,000,000
BNP Paribas Securities Corp.	74,000,000
J.P. Morgan Securities Inc.	74,000,000
Comerica Securities, Inc.	19,500,000
Deutsche Bank Securities Inc.	19,500,000
Scotia Capital (USA) Inc.	19,500,000
UBS Securities LLC	19,500,000
<b>Total</b>	<b>\$ 300,000,000</b>

The underwriting agreement provides that the obligation of the underwriters to purchase the notes included in this offering is subject to approval of certain legal matters by counsel and to certain other conditions. The underwriting agreement provides that the underwriters are obligated to purchase all of the notes if any are purchased. The underwriting agreement also provides that if an underwriter defaults, the purchase commitments of non-defaulting underwriters may be increased or the offering of notes may be terminated.

The underwriters propose to offer the notes initially at the public offering price on the cover page of this prospectus supplement and may offer the notes to dealers at that price less a selling concession of 0.35% of the principal amount per note. The underwriters and such dealers may allow a discount of 0.25% of the principal amount per note on sales to other broker/dealers. After the initial public offering, the representatives may change the public offering price and concession and discount to broker/dealers.

We estimate that our out of pocket expenses for this offering will be approximately \$200,000.

The notes are a new issue of securities with no established trading market. The notes will not be listed on any securities exchange or any automated dealer quotation system. One or more of the underwriters intends to make a secondary market for the notes. However, they are not obligated to do so and may discontinue making a secondary market for the notes at any time without notice. No assurance can be given as to how liquid the trading market for the notes will be.

In connection with the offering the underwriters, may engage in stabilizing transactions, over-allotment transactions, syndicate covering transactions and penalty bids in accordance with Regulation M under the Exchange Act.

- Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.
- Over-allotment involves sales by the underwriters of notes in excess of the principal amount of the notes the underwriters are obligated to purchase, which creates a syndicate short position.
- Syndicate covering transactions involve purchases of the notes in the open market after the distribution has been completed in order to cover syndicate short positions. A short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the notes in the open market after pricing that could adversely affect investors who purchase in the offering.
- Penalty bids permit the representatives to reclaim a selling concession from a syndicate member when the notes originally sold by the syndicate member are purchased in a stabilizing transaction or a syndicate covering transaction to cover syndicate short positions.

## Table of Contents

These stabilizing transactions, syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of the notes or preventing or retarding a decline in the market price of the notes. As a result the price of the notes may be higher than the price that might otherwise exist in the open market. These transactions, if commenced, may be discontinued at any time.

It is expected that delivery of the notes will be made on or about the date specified on the cover page of this prospectus supplement, which will be the fifth business day (T+5) following the date of this prospectus supplement. Under Rule 15c6-1 under the Exchange Act, trades in the secondary market generally are required to settle in three business days (T+3), unless the parties to any such trade expressly agree otherwise. Accordingly, the purchasers who wish to trade the notes on the date of this prospectus supplement or the next succeeding business day will be required to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement. Purchasers of the notes who wish to trade the notes on the date of this prospectus supplement or the next succeeding business day should consult their own advisors.

We have agreed to indemnify the underwriters against liabilities under the Securities Act or to contribute to payments which the underwriters may be required to make in that respect.

The underwriters and their affiliates have acted as lenders, and performed certain investment banking and advisory and general financing, trustee and banking services for DTE Energy and its affiliates from time to time for which they have received customary fees and expenses. The underwriters and their affiliates may, from time to time, engage in transactions with or perform services for DTE Energy and its affiliates in the ordinary course of their business.

## **EXPERTS**

The consolidated financial statements and the related financial statement schedules of DTE Energy Company (the "Company") incorporated in this prospectus supplement by reference from the Company's Annual Report on Form 10-K for the year ended December 31, 2008, and the effectiveness of the Company's internal control over financial reporting, have been audited by Deloitte & Touche LLP, an independent registered public accounting firm, as stated in their reports, which are incorporated herein by reference (which reports (1) express an unqualified opinion on the consolidated financial statements and related financial statement schedules and include an explanatory paragraph relating to the adoption of new accounting standards, and (2) express an unqualified opinion on internal control over financial reporting), and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

## **LEGAL MATTERS**

The validity of the notes and certain other legal matters relating to this offering will be passed upon for DTE Energy by Patrick B. Carey, Associate General Counsel. Mr. Carey beneficially owns shares of DTE Energy common stock and holds options to purchase additional shares. Certain legal matters relating to this offering will be passed upon for the underwriters by Dewey & LeBoeuf LLP, New York, New York. Dewey & LeBoeuf LLP will rely on the opinion of Mr. Carey with respect to Michigan law.

Dewey & LeBoeuf LLP has represented, and may in the future continue to represent, us and certain of our affiliates as to certain energy regulatory, commercial and other matters unrelated to this offering.

Debt Securities**

## **DTE Energy Trust III**

**Trust Preferred Securities**

**Guaranteed to the extent set forth in this prospectus by  
DTE Energy Company**

By this prospectus, DTE Energy Company may offer from time to time:

- common stock and related rights; and/or
- senior debt securities and/or subordinated debt securities, including debt securities convertible into common stock of DTE Energy or exchangeable for other securities.

DTE Energy Trust III, which is a Delaware statutory trust, may offer from time to time trust preferred securities guaranteed to the extent set forth in this prospectus by DTE Energy Company.

DTE Energy Company and DTE Energy Trust III will provide specific terms of the securities, including the offering prices, in supplements to this prospectus. The supplements may also add, update or change information contained in this prospectus. You should read this prospectus and any supplements carefully before you invest. This prospectus may not be used to consummate sales of any of these securities unless it is accompanied by a prospectus supplement that describes those securities.

We may offer these securities directly or through underwriters, agents or dealers. The supplements to this prospectus will describe the terms of any particular plan of distribution, including any underwriting arrangements. See the "Plan of Distribution" section beginning on page 37 of this prospectus for more information.

**See "Risk Factors" beginning on page 3 regarding risks associated with an investment in these securities.**

The mailing address of DTE Energy's and DTE Energy Trust III's principal executive offices is 2000 2<sup>nd</sup> Avenue, Detroit, Michigan 48226-1279, and their telephone number is (313) 235-4000.

DTE Energy's common stock is traded on the New York Stock Exchange under the symbol "DTE."

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.

This prospectus is dated August 22, 2006

You should rely only on the information contained or incorporated by reference in this prospectus and the applicable prospectus supplement or supplements. We have not authorized any person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. You should not assume that the information contained or incorporated in this prospectus is accurate as of any time after the date of this prospectus, or, if later, the date of an incorporated document, because our business, financial condition, results of operations and prospects may have changed since such dates.

We are not making an offer to sell these securities in any jurisdiction that prohibits the offer or sale of these securities.

In this prospectus references to “DTE Energy,” the “Company,” “we,” “us” and “our” refer to DTE Energy Company, unless the context indicates that the references are to DTE Energy Company and its consolidated subsidiaries, and references to the “DTE Energy Trust” and the “Trust” are to DTE Energy Trust III.

## ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that DTE Energy and the DTE Energy Trust filed with the Securities and Exchange Commission (“SEC”) utilizing a “shelf” registration process. Under this shelf registration process, DTE Energy and/or the DTE Energy Trust may sell any combination of the securities described in this prospectus in one or more offerings.

This prospectus provides you with a general description of the securities DTE Energy and/or the DTE Energy Trust may offer. Each time DTE Energy and/or the DTE Energy Trust sell securities, DTE Energy and/or the DTE Energy Trust will provide a prospectus supplement that will contain specific information about the terms of that offering. The prospectus supplement may also add, update or change information contained in this prospectus. You should read this prospectus and any prospectus supplement together with the additional information described below under the heading “Where You Can Find More Information.”

For more detailed information about the securities, you can read the exhibits to the registration statement. Those exhibits have been either filed with the registration statement or incorporated by reference to earlier SEC filings listed in the registration statement.

## [Table of Contents](#)

### **RISK FACTORS**

An investment in the securities involves risks. You should carefully consider the "Risk Factors" set forth in our Annual Report on Form 10-K for the year ended December 31, 2005 and our Quarterly Report on Form 10-Q for the quarter ended June 30, 2006, together with the other information in this prospectus, any applicable prospectus supplement, and the documents that are incorporated by reference in this prospectus, about risks concerning the securities, before buying any securities. See also "Cautionary Statements Regarding Forward-Looking Statements" in this prospectus.

### **CAUTIONARY STATEMENTS REGARDING FORWARD-LOOKING STATEMENTS**

This prospectus and the documents incorporated by reference in this prospectus contain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 (the "Securities Act") and Section 21E of the Securities Exchange Act of 1934 (the "Exchange Act"), with respect to the financial condition, results of operations and business of DTE Energy. You can find many of these statements by looking for words such as "believes," "expects," "anticipates," "estimates" or similar expressions in this prospectus or in documents incorporated herein. All forward-looking statements we make are expressly qualified in their entirety by the cautionary statements contained or referred to in this section.

Forward-looking statements are subject to numerous assumptions, risks and uncertainties that may cause actual future results to differ materially from those contemplated, projected, estimated or budgeted in such forward-looking statements. There are many factors that may impact forward-looking statements including, but not limited to, the following:

- the higher price of oil and its impact on the value of production tax credits, and the ability to utilize and/or sell interests in facilities producing such credits, or the potential requirement to refund proceeds received from synfuel partners;
- the uncertainties of successful exploration of gas shale resources and inability to estimate gas reserves with certainty;
- the effects of weather and other natural phenomena on operations and sales to customers, and purchases from suppliers;
- economic climate and population growth or decline in the geographic areas where we do business;
- environmental issues, laws, regulations, and the cost of remediation and compliance;
- nuclear regulations and operations associated with nuclear facilities;
- implementation of electric and gas Customer Choice programs;
- impact of electric and gas utility restructuring in Michigan, including legislative amendments;
- employee relations and the impact of collective bargaining agreements;
- unplanned outages;
- access to capital markets and capital market conditions and the results of other financing efforts which can be affected by credit agency ratings;
- the timing and extent of changes in interest rates;
- the level of borrowings;
- changes in the cost and availability of coal and other raw materials, purchased power and natural gas;
- effects of competition;
- impact of regulation by the Federal Energy Regulatory Commission, Michigan Public Service Commission, Nuclear Regulatory Commission and other applicable governmental proceedings and regulations;

## Table of Contents

- contributions to earnings by non-utility subsidiaries;
- changes in and application of federal, state and local tax laws and their interpretations, including the Internal Revenue Code, regulations, rulings, court proceedings and audits;
- the ability to recover costs through rate increases;
- the availability, cost, coverage and terms of insurance;
- the cost of protecting assets against, or damage due to, terrorism;
- changes in and application of accounting standards and financial reporting regulations;
- changes in federal or state laws and their interpretation with respect to regulation, energy policy and other business issues;
- uncollectible accounts receivable;
- litigation and related appeals; and
- changes in the economic and financial viability of our suppliers, customers and trading counterparties, and the continued ability of such parties to perform their obligations to the Company.

You are cautioned not to place undue reliance on such statements, which speak only as of the date of this prospectus or the date of any document incorporated by reference. We undertake no obligation to release publicly any revisions to such forward-looking statements to reflect events or circumstances after the date of this document or to reflect the occurrence of unanticipated events.

The factors discussed above and other factors are discussed more completely in our public filings with the SEC, including our annual report on Form 10-K for the year ended December 31, 2005 and our quarterly reports on Form 10-Q for the quarters ended March 31, 2006 and June 30, 2006.

### **DTE ENERGY COMPANY**

DTE Energy Company is a Michigan corporation engaged in utility operations through its wholly owned subsidiaries The Detroit Edison Company (“Detroit Edison”) and Michigan Consolidated Gas Company (“MichCon”). We also have non-utility operations that are engaged in a variety of energy related businesses.

Detroit Edison is a Michigan public utility engaged in the generation, purchase, distribution and sale of electricity to approximately 2.2 million customers in southeastern Michigan.

MichCon is a Michigan public utility engaged in the purchase, storage, transmission, distribution and sale of natural gas to approximately 1.3 million customers throughout Michigan.

Our non-utility operations consist primarily of Power and Industrial Projects, Unconventional Gas Production, and Fuel Transportation and Marketing. Power and Industrial Projects primarily consists of synfuel projects, on-site energy services, steel-related energy projects, power generation with services, and waste coal recovery operations. Unconventional Gas Production primarily consists of natural gas exploration, development and production. Fuel Transportation and Marketing primarily consists of energy marketing and trading operations, coal transportation and marketing, and gas pipelines, processing and storage.

### **DTE ENERGY TRUST**

DTE Energy Trust III is a Delaware statutory trust, created by way of a trust agreement and the filing of a certificate of trust with the Delaware Secretary of State. We will execute an amended and restated trust agreement for the DTE Energy Trust, referred to in this prospectus as the trust agreement, in connection with any issuance of trust securities. This trust agreement will state the terms and conditions for the DTE Energy Trust to issue and sell its trust preferred securities and trust common securities. We filed a form of amended and restated trust agreement as an exhibit to the registration statement of which this prospectus forms a part.

## Table of Contents

The DTE Energy Trust will exist solely to:

- issue and sell its trust preferred securities and trust common securities;
- use the proceeds from the sale of its trust preferred securities and trust common securities to purchase and hold DTE Energy's debt securities as trust assets; and
- engage in other activities that are necessary or incidental to the above purposes.

DTE Energy will hold directly or indirectly all of the trust common securities of the DTE Energy Trust. The trust common securities will represent an aggregate liquidation amount equal to at least 3% of the DTE Energy Trust's total capitalization. The trust preferred securities will represent the remaining percentage of the DTE Energy Trust's total capitalization. The trust preferred securities will be guaranteed by us as described in this prospectus and the applicable prospectus supplement.

The DTE Energy Trust may not borrow money, issue debt, execute mortgages or pledge any of its assets.

Unless otherwise specified in the applicable prospectus supplement, the following trustees will conduct the DTE Energy Trust's business and affairs:

- The Bank of New York Trust Company, N.A., as property trustee;
- The Bank of New York (Delaware), as Delaware trustee; and
- one or more of our officers, as administrative trustees.

Only we, as direct or indirect owner of the trust common securities, can remove or replace the administrative trustees. In addition, we can increase or decrease the number of administrative trustees. Also, we, as direct or indirect holder of the trust common securities, will generally have the sole right to remove or replace the property and Delaware trustees. However, if DTE Energy defaults on the debt securities owned by the DTE Energy Trust or another event of default under the trust agreement occurs, then, so long as that default is continuing, the holders of a majority in liquidation amount of the outstanding trust preferred securities of the Trust may remove and replace the property and Delaware trustees.

We will pay all fees and expenses related to the DTE Energy Trust and the offering of the trust preferred securities. We will also pay all ongoing costs and expenses of the DTE Energy Trust except the Trust's obligations under the trust preferred securities and trust common securities.

## **USE OF PROCEEDS**

Except as we may otherwise state in an accompanying prospectus supplement, DTE Energy expects to use the net proceeds from the sale of its securities for general corporate purposes, which may include, among other things:

- financing, development and construction of new facilities;
- additions to working capital; and
- repurchase or refinancing of securities.

The precise amount and timing of the application of such proceeds will depend upon our funding requirements, market conditions and the availability and cost of other funds. Pending the application of proceeds, we may also invest the funds temporarily in short-term investment grade securities.

The DTE Energy Trust will use all proceeds from the sale of the trust preferred securities to purchase debt securities of DTE Energy.

## [Table of Contents](#)

### **RATIOS OF EARNINGS TO FIXED CHARGES AND RATIOS OF EARNINGS TO COMBINED FIXED CHARGES AND PREFERRED STOCK DIVIDENDS**

DTE Energy's ratios of earnings to fixed charges and ratios of earnings to combined fixed charges and preferred stock dividends were as follows for the periods indicated in the table below:

	<b>Six Months Ended June 30, 2006</b>	<b>2005</b>	<b>Year Ended December 31, 2004</b>	<b>2003</b>	<b>2002</b>	<b>2001</b>
Ratio of earnings to fixed charges and ratio of earnings to combined fixed charges and preferred stock dividends(a)	0.90(b)	1.92	1.78	1.55	1.91	1.49

Our ratios of earnings to fixed charges were computed based on:

- "earnings," which consist of consolidated income plus income taxes and fixed charges, except capitalized interest; and
- "fixed charges," which consist of consolidated interest on indebtedness, including capitalized interest, amortization of debt discount and expense, and the estimated portion of rental expense attributable to interest.

(a) DTE Energy had no preferred stock outstanding during the periods indicated; therefore, the ratio of earnings to combined fixed charges and preferred stock dividends is the same as the ratio of earnings to fixed charges for each period.

(b) The earnings for the six months ended June 30, 2006 were not adequate to cover fixed charges. The amount of the deficiency was approximately \$29 million.

### **THE SECURITIES THAT WE MAY OFFER**

The descriptions of the securities contained in this prospectus, together with the applicable prospectus supplements, summarize certain terms and provisions of the various types of securities that DTE Energy and the DTE Energy Trust may offer. The particular terms of the securities offered by any prospectus supplement will be described in that prospectus supplement. If indicated in the applicable prospectus supplement, the terms of the securities may differ from the terms summarized below. The prospectus supplement will also contain information, where applicable, about material U.S. federal income tax considerations relating to the securities, and any securities exchange on which the securities may be listed.

We may sell from time to time, in one or more offerings:

- common stock and related preferred stock purchase rights; and/or
- senior or subordinated debt securities, including debt securities convertible into common stock of DTE Energy or exchangeable for other securities.

The DTE Energy Trust may offer and sell from time to time its trust preferred securities guaranteed by us.

In this prospectus, DTE Energy and the DTE Energy Trust refer to the common stock and related preferred stock purchase rights, senior debt securities, subordinated debt securities, trust preferred securities and our guarantees of the trust preferred securities collectively as "securities." We refer to the senior debt securities and the subordinated debt securities collectively as the "debt securities."

### **DESCRIPTION OF CAPITAL STOCK**

#### **Authorized Capital Stock**

The authorized capital stock of DTE Energy currently consists of 400,000,000 shares of DTE Energy common stock, without par value, and 5,000,000 shares of preferred stock, without par value. As of June 30, 2006 there were

## Table of Contents

177,761,367 shares of DTE Energy common stock issued and outstanding. All outstanding shares of common stock are, and the common stock offered hereby when issued and paid for will be, duly authorized, validly issued, fully paid and nonassessable. As of June 30, 2006, there were no shares of preferred stock issued and outstanding and five million shares of Series A Junior Participating Preferred Stock were reserved for issuance pursuant to the rights agreement, dated September 23, 1997, between DTE Energy and The Detroit Edison Company. Each outstanding share of DTE Energy common stock currently has attached to it one preferred stock purchase right, issued under the rights agreement.

Under the DTE Energy amended and restated articles of incorporation, which we refer to as the articles of incorporation, our board of directors may cause the issuance of one or more new series of the authorized shares of preferred stock, determine the number of shares constituting any such new series and fix the voting, distribution, dividend, liquidation and all other rights and limitations of the preferred stock. These rights may be superior to those of the DTE Energy common stock. To the extent any shares of DTE Energy's preferred stock have voting rights, no share of preferred stock may be entitled to more than one vote per share, except that with respect to election of directors, cumulative voting may be available.

### **Common Stock**

The following description of our common stock, together with the additional information included in any applicable prospectus supplement, summarizes the material terms and provisions of this type of security. We will describe the specific terms of any common stock we may offer in a prospectus supplement. If indicated in a prospectus supplement, the terms of any common stock offered under that prospectus supplement may differ from the terms described below. For the complete terms of our common stock, please refer to our articles of incorporation, bylaws and rights agreement that are incorporated by reference into the registration statement that includes this prospectus or may be incorporated by reference in this prospectus. The terms of our common stock may also be affected by the laws of the State of Michigan.

### **Dividends**

Holders of common stock are entitled to participate equally in respect to dividends as, when and if dividends are declared by our board of directors out of funds legally available for their payment. However, this dividend right is subject to any preferential dividend rights we may grant to future holders of preferred stock and to the prior rights of DTE Energy's debt holders and other creditors. As a Michigan corporation, we are subject to statutory limitations on the declaration and payment of dividends. Dividends on DTE Energy common stock will depend primarily on the earnings and financial condition of DTE Energy. DTE Energy is a holding company and its assets consist primarily of its investment in its operating subsidiaries. Thus, as a practical matter, dividends on common stock of DTE Energy will depend in the foreseeable future primarily upon the earnings, financial condition and capital requirements of Detroit Edison, MichCon and our other subsidiaries, and the distribution of such earnings to DTE Energy in the form of dividends. The subsidiaries are separate and distinct legal entities and have no obligation to make payments with respect to any of DTE Energy's securities, or to pay dividends to or make funds available to DTE Energy so that DTE Energy can make payments on its securities, including its common stock. In addition, existing or future covenants limiting the right of Detroit Edison, MichCon or our other subsidiaries to pay dividends on or make other distributions with respect to their common stock may affect DTE Energy's ability to pay dividends on our common stock. See "Description of Debt Securities — Ranking."

### **Voting**

Subject to any special voting rights that may vest in the holders of preferred stock, the holders of DTE Energy common stock are entitled to vote as a class and are entitled to one vote per share for each share held of record on all matters voted on by shareholders, except that with respect to the election of directors, cumulative voting is available. All questions other than election of directors are decided by a majority of the votes cast by the holders of shares entitled to vote on that question, unless a greater vote is required by the articles of incorporation or Michigan law. Directors are elected by a plurality of the votes cast.

## **Table of Contents**

We are subject to Chapter 7A of the Michigan Business Corporation Act, which we refer to as the Corporation Act, which provides that business combinations subject to Chapter 7A between a Michigan corporation and a beneficial owner of shares entitled to 10% or more of the voting power of such corporation generally require the affirmative vote of 90% of the votes of each class of stock entitled to vote, and not less than 2/3 of each class of stock entitled to vote (excluding voting shares owned by such 10% owner), voting as a separate class. These requirements do not apply if (1) the corporation's board of directors approves the transaction prior to the time the 10% owner becomes such or (2) the transaction satisfies certain fairness standards, certain other conditions are met and the 10% owner has been such for at least five years.

In addition, our bylaws provide that Chapter 7B of the Corporation Act does not apply to DTE Energy. Chapter 7B of the Corporation Act regulates shareholder rights when an individual's stock ownership reaches at least 20% of a Michigan corporation's outstanding shares. Accordingly, pursuant to DTE Energy's bylaws, a shareholder seeking control of DTE Energy cannot require the DTE Energy's board of directors to call a meeting to vote on issues related to corporate control within 10 days of such request, as stipulated by Chapter 7B of the Corporation Act.

### ***Board of Directors***

Our bylaws provide for a board of directors that is divided into three classes. Each class is to serve a three-year term and the classes are to be as nearly equal in size as possible. The number of directors is fixed by the board of directors from time to time. DTE Energy currently has 13 directors. Under our bylaws, the provision providing for the classification of the board of directors may not be amended or repealed without the vote of a majority of the shares of DTE Energy's common stock.

### ***Amendments to DTE Energy's Articles of Incorporation***

Under Michigan law, our articles of incorporation may be amended by the affirmative vote of the holders of a majority of the outstanding shares entitled to vote on the proposed amendment (which would include the common stock and any series of preferred stock which, by its terms or applicable law, was so entitled to vote), and, if any class or series of shares is entitled to vote as a class, then the proposed amendment must be approved by the required vote of each class or series of shares entitled to vote as a class.

### ***Liquidation Rights***

In the event of a liquidation, dissolution or winding-up of DTE Energy, holders of our common stock have the right to share in DTE Energy's assets remaining after satisfaction in full of the prior rights of creditors, and all liabilities and the aggregate liquidation preferences of any outstanding shares of DTE Energy preferred stock.

### ***Preemptive Rights***

The holders of DTE Energy common stock have no conversion or redemption rights, or any rights to subscribe for or purchase other stock of DTE Energy.

### ***Listing***

Our common stock is listed on the New York Stock Exchange under the symbol "DTE."

### ***Transfer Agent and Registrar***

The transfer agent and registrar for our common stock is The Bank of New York, 101 Barclay Street, 8W, New York, New York 10286.

## Table of Contents

### **Rights Agreement**

#### ***General***

The following is a description of the preferred stock purchase rights issued or to be issued under the DTE Energy rights agreement. This description does not purport to be complete and is subject to, and is qualified in its entirety by reference to, the text of the DTE Energy rights agreement, which is incorporated herein by reference and filed as an exhibit to the registration statement of which this prospectus is a part.

Our rights agreement provides for the issuance to holders of DTE Energy common stock of one preferred stock purchase right for each share of DTE Energy common stock. Subject to the conditions contained in DTE Energy's rights agreement, each right entitles the holder to purchase from DTE Energy one one-hundredth of a share of DTE Energy Series A Junior Participating Preferred Stock, without par value, at a purchase price of \$90.00, subject to adjustment as described below. The rights, which are attached to and trade with the shares of DTE Energy common stock until they are exercisable, may not be exercised until the close of business on the earlier of:

- the 10th calendar day after the first date of public announcement by DTE Energy that a person, together with its affiliates and associates, has acquired beneficial ownership of 10% or more of the outstanding shares of DTE Energy common stock, which we refer to as an "acquiring person"; or
- the 10th business day (or, unless the date specified in the bullet point above has previously occurred, such later date as may be specified by our board of directors) after the date that any person commences a tender offer or exchange offer, the consummation of which would result in beneficial ownership by such person of 10% or more of the outstanding shares of DTE Energy common stock.

We refer to the earlier of these two dates as the "distribution date."

DTE Energy, its subsidiaries, employee benefit or stock ownership plans, and affiliates or associates of DTE Energy are not acquiring persons. Rights beneficially owned by acquiring persons, or certain transferees of acquiring persons, are void.

#### ***"Flip-in"***

In the event that:

- any person becomes an acquiring person;
- any acquiring person merges into or combines with DTE Energy, and DTE Energy is the surviving corporation;
- any acquiring person effects certain other transactions with DTE Energy; or
- during such time as there is an acquiring person, DTE Energy effects certain transactions

then each unexercised right (other than those held by the acquiring person) will entitle its holder to purchase that number of shares of DTE Energy common stock or, under certain circumstances, an economically equivalent security of DTE Energy, which has a market value at that time of twice the purchase price.

#### ***"Flip-over"***

In the event that, at any time after a person has become an acquiring person:

- DTE Energy merges with or into any person and DTE Energy is not the surviving corporation;
- any person merges with or into DTE Energy and DTE Energy is the surviving corporation, but all or part of the DTE Energy common stock is exchanged for securities of any other person, cash or any other property; or
- 50% or more of DTE Energy's assets or earning power are sold

then each unexercised right would instead entitle its holder to purchase the acquiring company's common shares having a market value of twice the purchase price.

---

## Table of Contents

### **Exchange**

If a person or group acquires beneficial ownership of more than 10% but less than 50% of the outstanding shares of DTE Energy common stock, DTE Energy may exchange each outstanding right for one share of DTE Energy common stock.

### **Redemption**

DTE Energy may redeem the rights, at a redemption price of \$0.01 per right, subject to adjustment, at any time prior to the later of the first occurrence of any Flip-in event or Flip-over event and the distribution date.

### **Certain Adjustments**

The purchase price, and the number of shares of preferred stock or other securities issuable upon exercise of the right, will be adjusted to prevent dilution:

- in the event of a stock dividend on, or a subdivision, combination or reclassification of, the preferred stock;
- upon the grant to holders of the preferred stock of certain rights or warrants to subscribe for preferred stock at a price, or securities convertible into preferred stock with a conversion price, less than the then-current market price of the preferred stock; or
- upon the distribution to holders of the preferred stock of evidence of indebtedness, cash (excluding regular periodic cash dividends), assets, stock (excluding dividends payable in preferred stock) or subscription rights or warrants (other than those referred to above).

With certain exceptions, no adjustments in the purchase price will be required until cumulative adjustments amount to at least 1% of the purchase price. DTE Energy will not be required to issue fractional shares of preferred stock other than in integral multiples of one one-hundredth of a share. Instead, DTE Energy will make a cash payment, as provided in the rights agreement.

### **Amounts Outstanding**

DTE Energy distributed one right to shareholders of the company for each share of common stock owned of record by them at the close of business on October 6, 1997. Until the earliest of:

- the distribution date;
- October 6, 2007; or
- such time as all rights are redeemed or exchanged,

DTE Energy will issue one right with each share of DTE Energy common stock that is issued after October 6, 1997, so that each outstanding share of common stock will have a related right. DTE Energy has authorized and reserved 1,500,000 shares of Series A Junior Participating Preferred Stock for issuance upon exercise of the rights.

DTE Energy may amend the rights agreement without the approval of any holders of rights certificates, except that no amendment may be made that decreases the stated redemption price to an amount less than \$.01 per right.

### **Possible Anti-Takeover Effects**

Certain provisions of our articles of incorporation and bylaws may have the effect of discouraging unilateral tender offers or other attempts to take over and acquire the business of DTE Energy. As permitted by the Corporation Act, our bylaws restrict shareholders from bringing any business before a special meeting of shareowners, require prior written notice of any business to be brought by a shareowner before the annual meeting and require advance notice for shareowner nominations for directors. In addition, the articles of incorporation or bylaws authorize our board of directors to issue one or more series of preferred stock, provide for a staggered board of directors, and provide that Chapter 7B of the Corporation Act does not apply to DTE Energy, as discussed above. These provisions in our articles of incorporation or bylaws may limit the ability of individuals to bring matters before shareowner meetings, change the composition of the board of directors and pursue a merger, takeover,

## Table of Contents

business combination or tender offer involving DTE Energy, which, under certain circumstances, could encourage a potentially interested purchaser to negotiate with the board of directors rather than pursue a non-negotiated takeover attempt, including one that shareowners might favor, and could reduce the market value of our common stock.

In addition, the provisions of the DTE Energy rights agreement have certain anti-takeover effects. The preferred stock purchase rights may cause substantial dilution to a person or group that attempts to acquire DTE Energy on terms not approved by our board of directors, except pursuant to an offer conditional on a substantial number of preferred stock purchase rights being acquired or redeemed.

## **DESCRIPTION OF DEBT SECURITIES**

The following description, together with any applicable prospectus supplement, summarizes certain material terms and provisions of the debt securities we may offer under this prospectus and the related trust indenture. We will issue the debt securities under an amended and restated indenture, dated as of April 9, 2001, as supplemented or amended from time to time, which we refer to as the “indenture,” between DTE Energy and BNY Midwest Trust Company, as successor trustee. We refer to BNY Midwest Trust Company, or any successor or additional trustee, in its capacity as trustee under the indenture, as the “trustee” for purposes of this section. The indenture may, but need not, have separate trustees for senior and subordinated debt securities.

This summary of the indenture and the debt securities relates to terms and conditions applicable to the debt securities generally. The particular terms of any series of debt securities will be summarized in the applicable prospectus supplement. If indicated in the prospectus supplement, the terms of any series may differ from the terms summarized below.

Because the descriptions of provisions of the indenture below are summaries, they do not describe every aspect of the indenture. The summaries below are subject to, and are qualified in their entirety by reference to, all provisions of the indenture, including the definitions therein of certain terms. We have filed a copy of the indenture as an exhibit to the registration statement of which this prospectus is a part. We encourage you to read the indenture for provisions that may be important to you. Wherever we refer to particular articles, sections or defined terms of the indenture, those articles, sections or defined terms are incorporated herein by reference, and the statement in connection with which such reference is made is qualified in its entirety by such reference. The indenture contains, and the debt securities, when issued, will contain, additional important terms and provisions. We will describe the particular terms of the debt securities offered by any prospectus supplement and the extent, if any, to which such general provisions may apply to the debt securities so offered in the prospectus supplement relating to those debt securities.

The indenture does not limit the amount of debt securities we may issue under it, and it provides that additional debt securities of any series may be issued up to the aggregate principal amount that we may authorize from time to time. As of June 30, 2006, approximately \$2.0 billion aggregate principal amount of debt securities were issued and outstanding under the indenture.

Principal and any premium and interest in respect to the debt securities will be payable, and the debt securities will be transferable, at the corporate trust office of the trustee, unless we specify otherwise in the applicable prospectus supplement. At our option, however, payment of interest may be made by check mailed to the registered holders of the debt securities at their registered addresses.

We will describe special U.S. federal income tax and other considerations relating to debt securities denominated in foreign currencies or units of two or more foreign currencies in the applicable prospectus supplement.

Unless we otherwise specify in this prospectus or in the applicable prospectus supplement, we will issue debt securities in the form of global securities, deposited with and registered in the name of The Depository Trust Company, as depositary, which we refer to as “DTC,” or its nominee. Interests in the debt securities will be shown on, and transfers thereof will be effected only through, records maintained by DTC and its participants. See “Book-Entry Securities.”

## Table of Contents

### **General**

The prospectus supplement that accompanies this prospectus relating to the debt securities being offered will include specific terms relating to the offered debt securities. These terms may include some or all of the following:

- the title or designation of the debt securities;
- the aggregate principal amount of the debt securities;
- whether the debt securities are to represent senior or subordinated indebtedness and, if subordinated debt securities, the specific subordination provisions applicable thereto;
- in the case of subordinated debt securities, the relative degree, if any, to which such subordinated debt securities of the series will be senior to or be subordinated to other series of subordinated debt securities or other indebtedness of DTE Energy in right of payment, whether such other series of subordinated debt securities or other indebtedness is outstanding or not;
- whether the debt securities will be issued as registered securities, bearer securities or a combination of the two;
- the person to whom any interest on any registered security shall be payable, if other than the person in whose name that security is registered at the close of business on the record date, the manner in which, or the person to whom, any interest on any bearer security shall be payable, if other than upon presentation and surrender of coupons, and the extent to which, or the manner in which, any interest payable on a temporary global security will be paid if other than in the manner provided in the indenture;
- whether the debt securities will be issued in the form of one or more global securities;
- the date or dates on which the principal of (and premium, if any, on) the debt securities will be payable or the method or methods, if any, by which such date or dates will be determined;
- the rate or rates, at which the debt securities will bear any interest or the method or methods, if any, by which such rate or rates will be determined;
- the date or dates from which any interest will accrue or the method or methods, if any, by which such date or dates will be determined and the date or dates on which such interest will be payable;
- whether and under what circumstances we will pay “additional amounts,” as defined in the indenture, on the debt securities to any holder who is a “United States alien,” as defined in the indenture, in respect of certain taxes, assessments or governmental charges, and, if so, whether we will have the option to redeem the debt securities rather than pay the additional amounts; the term “interest,” as used in this prospectus, includes any additional amounts;
- the place or places where the principal of (and premium, if any) and interest on the debt securities will be payable, and where any registered securities may be surrendered for registration of transfer or exchange;
- a description of any provisions providing for redemption or repurchase of the debt securities, in whole or in part, at our option, a holder’s option or otherwise, and the terms and provisions of such a redemption or repurchase;
- any sinking fund or other mandatory redemption or similar terms;
- whether the debt securities will be convertible into shares of common stock of DTE Energy and/or exchangeable for other securities, whether or not issued by DTE Energy, property or cash, or a combination of any of the foregoing, and, if so, the terms and conditions of such conversion or exchange, either mandatory, at the option of the holder, or at the option of DTE Energy, and any deletions from or modifications or additions to the indenture to allow the issuance of such convertible or exchangeable debt securities;
- the authorized denominations of the debt securities, if other than denominations of \$1,000 and any integral multiple thereof (in the case of registered securities) or \$5,000 (in the case of bearer securities);

## Table of Contents

- if other than the principal amount thereof, the portion of the principal amount of the debt securities or any of them that shall be payable upon declaration of acceleration of the maturity in accordance with the indenture upon an event of default or the method by which such portion is to be determined;
- if other than U.S. dollars, the currency or currencies or currency unit or units of two or more currencies in which debt securities are denominated, for which they may be purchased, and in which principal and any premium and interest is payable;
- if the currency or currencies or currency unit or units for which debt securities may be purchased or in which principal and any premium and interest may be paid is at our election or at the election of a purchaser, the manner in which an election may be made and its terms;
- any index or other method used to determine the amount of payments of principal of, and any premium and interest on, the debt securities;
- if either or both of the sections of the indenture relating to defeasance and covenant defeasance are applicable to the debt securities, or if any covenants in addition to or other than those specified in the indenture shall be subject to covenant defeasance;
- any deletions from, or modifications or additions to, the provisions of the indenture relating to satisfaction and discharge in respect of the debt securities;
- if there is more than one trustee, the identity of the trustee and, if not the trustee, the identity of each security registrar, paying agent and/or authenticating agent with respect to the debt securities;
- whether the debt securities shall be issued as original issue discount securities;
- whether a credit facility or other form of credit support will apply to the debt securities;
- any deletions from, modifications of or additions to the events of default or covenants with respect to the debt securities whether or not such events of default or covenants are consistent with the events of default or covenants in the indenture, and whether the limitations on secured debt under the indenture will be applicable; and
- any other specific terms of the debt securities.

We are not obligated to issue all debt securities of any one series at the same time and all the debt securities of any one series need not bear interest at the same rate or mature on the same date.

Under the indenture, the terms of the debt securities of any series may differ and we, without the consent of the holders of the debt securities of any series, may reopen a previous series of debt securities and issue additional debt securities of such series or establish additional terms of such series.

Other than as described below under “— Covenants” with respect to any applicable series of debt securities and as may be described in the applicable prospectus supplement, the indenture does not limit our ability to incur indebtedness or afford holders of debt securities protection in the event of a decline in our credit quality or if we are involved in a takeover, recapitalization or highly leveraged or similar transaction. Accordingly, we could in the future enter into transactions that could increase the amount of indebtedness outstanding at that time or otherwise affect our capital structure or credit rating. You should refer to the prospectus supplement relating to a particular series of debt securities for information regarding the applicability of the covenant described below under “— Covenants — Limitation on Secured Debt” or any deletions from, modifications of or additions to the events of default described below or covenants contained in the indenture, including any addition of a covenant or other provisions providing event risk or similar protection.

## **Ranking**

Because DTE Energy is a holding company that conducts substantially all of its operations through subsidiaries, holders of debt securities and guarantees of DTE Energy will generally have a junior position to claims of creditors of those subsidiaries, including trade creditors, debtholders, secured creditors, taxing authorities, guarantee holders and preferred stockholders, if any. Our subsidiaries, principally Detroit Edison and MichCon, from

## Table of Contents

time to time incur debt to finance their business activities. Substantially all of the physical properties of Detroit Edison and MichCon are subject to the liens of their respective mortgage indentures as security for the payment of outstanding mortgage bonds.

Our assets consist primarily of investment in subsidiaries. Our ability to service indebtedness, including any debt securities and guarantees, depends on the earnings of our subsidiaries and the distribution or other payment from subsidiaries of earnings to us in the form of dividends, loans or advances, and repayment of loans and advances from us. The subsidiaries are separate and distinct legal entities and have no obligation, contingent or otherwise, to pay any amounts due under the debt securities or to make payments to us in order for us to pay our obligations under the debt securities.

### ***Senior Debt Securities***

Unless otherwise indicated in the applicable prospectus supplement, DTE Energy's obligation to pay the principal of, and any premium and interest on, the senior debt securities will be unsecured and will rank equally with all of our other unsecured unsubordinated indebtedness.

### ***Subordinated Debt Securities***

DTE Energy's obligation to pay the principal of, and any premium and interest on, any series of subordinated debt securities will be unsecured and will rank subordinate and junior in right of payment to all Senior Indebtedness (as defined below) to the extent provided in the supplemental indenture relating to the series and the terms of those subordinated debt securities, as described below and in any applicable prospectus supplement, which may make deletions from, or modifications or additions to, the subordination terms described below.

Upon any payment or distribution of assets or securities of DTE Energy to creditors upon any liquidation, dissolution, winding-up, reorganization, or any bankruptcy, insolvency, receivership or similar proceedings in connection with any insolvency or bankruptcy proceeding of DTE Energy, the holders of Senior Indebtedness will first be entitled to receive payment in full of the Senior Indebtedness before the holders of subordinated debt securities will be entitled to receive any payment or distribution in respect of the subordinated debt securities, and to that end the holders of Senior Indebtedness will be entitled to receive, for application to the payment thereof, any payment or distribution of any kind or character, whether in cash, property or securities, including any such payment or distribution that may be payable or deliverable by reason of the payment of any other Indebtedness of DTE Energy being subordinated to the payment of subordinated debt securities of such series, which may be payable or deliverable in respect of the subordinated debt securities of such series upon any such dissolution, winding-up, liquidation or reorganization or in any such bankruptcy, insolvency, receivership or other proceeding.

By reason of such subordination, in the event of liquidation or insolvency of DTE Energy, holders of Senior Indebtedness with respect to the subordinated debt securities of any series and holders of other obligations of DTE Energy that are not subordinated to such Senior Indebtedness may recover more, ratably, than the holders of the subordinated debt securities of such series.

Subject to the payment in full of all Senior Indebtedness with respect to the subordinated debt securities of any series, the rights of the holders of the subordinated debt securities of such series will be subrogated to the rights of the holders of Senior Indebtedness to receive payments or distributions of cash, property or securities of DTE Energy applicable to such Senior Indebtedness until the principal of, any premium and interest on, and any additional amounts with respect to, the subordinated debt securities of such series have been paid in full.

No payments on account of principal or any premium or interest in respect of the subordinated debt securities may be made if there has occurred and is continuing a default in any payment with respect to Senior Indebtedness or an event of default with respect to any Senior Indebtedness resulting in the acceleration of its maturity, or if any judicial proceeding is pending with respect to any default.

“Indebtedness” means:

- indebtedness for borrowed money;

## Table of Contents

- obligations for the deferred purchase price of property or services (other than trade payables not overdue by more than 60 days incurred in the ordinary course of business);
- obligations evidenced by notes, bonds, debentures or other similar instruments;
- obligations created or arising under any conditional sale or other title retention agreement with respect to acquired property;
- obligations as lessee under leases that have been or should be, in accordance with accounting principles generally accepted in the United States, recorded as capital leases;
- obligations, contingent or otherwise, in respect of acceptances, letters of credit or similar extensions of credit;
- obligations in respect of interest rate swap, cap or collar agreements, interest rate future or option contracts, currency swap agreements, currency future or option contracts and other similar agreements;
- guarantees of Indebtedness of others, directly or indirectly, or Indebtedness in effect guaranteed directly or indirectly through an agreement (1) to pay or purchase such Indebtedness or to advance or supply funds for the payment or purchase of such Indebtedness, (2) to purchase, sell or lease property, or to purchase or sell services, primarily for the purpose of enabling the debtor to make payment of such Indebtedness or to assure the holder of such Indebtedness against loss, (3) to supply funds to or in any other manner invest in the debtor or (4) otherwise to assure a creditor against loss; and
- Indebtedness described above secured by any Lien (as defined below) on property.

“Senior Indebtedness,” for purposes of subordinated debt securities of each series, means all Indebtedness, whether outstanding on the date of issuance of subordinated debt securities of the applicable series or thereafter created, assumed or incurred, except Indebtedness ranking equally with the subordinated debt securities or Indebtedness ranking junior to the subordinated debt securities. Senior Indebtedness does not include obligations to trade creditors or indebtedness of DTE Energy to its subsidiaries. Senior Indebtedness with respect to the subordinated debt securities of any particular series will continue to be Senior Indebtedness with respect to the subordinated debt securities of such series and be entitled to the benefits of the subordination provisions irrespective of any amendment, modification or waiver of any term of such Senior Indebtedness.

“Indebtedness ranking equally with the subordinated debt securities,” for purposes of subordinated debt securities of the applicable series, means Indebtedness, whether outstanding on the date of issuance of the subordinated debt securities or thereafter created, assumed or incurred, to the extent the Indebtedness specifically by its terms ranks equally with and not prior to the subordinated debt securities in the right of payment upon the happening of the dissolution, winding-up, liquidation or reorganization of DTE Energy. The securing of any Indebtedness otherwise constituting Indebtedness ranking equally with the subordinated debt securities will not prevent the Indebtedness from constituting Indebtedness ranking equally with the subordinated debt securities.

“Indebtedness ranking junior to the subordinated debt securities,” for purposes of subordinated debt securities of the applicable series, means any Indebtedness, whether outstanding on the date of issuance of the subordinated debt securities of the applicable series or thereafter created, assumed or incurred, to the extent the Indebtedness by its terms ranks junior to and not equally with or prior to:

- the subordinated debt securities, and
- any other Indebtedness ranking equally with the subordinated debt securities,

in right of payment upon the happening of the dissolution, winding-up, liquidation or reorganization of DTE Energy. The securing of any Indebtedness otherwise constituting Indebtedness ranking junior to the subordinated debt securities will not prevent the Indebtedness from constituting Indebtedness ranking junior to the subordinated debt securities.

## [Table of Contents](#)

### **Covenants**

The indenture contains covenants for the benefit of holders of debt securities of each series. The following covenant will apply to a series of debt securities only to the extent specified in the applicable prospectus supplement.

#### ***Limitation on Secured Debt***

If this covenant is made applicable to the debt securities of any particular series, we have agreed that we will not create, issue, incur or assume any Secured Debt (as defined below) without the consent of the holders of a majority in principal amount of the outstanding debt securities of all series with respect to which this covenant is made, considered as one class; provided, however, that the foregoing covenant will not prohibit the creation, issuance, incurrence or assumption of any Secured Debt if we either:

- secure all debt securities then outstanding with respect to which this covenant is made equally and ratably with the Secured Debt; or
- deliver to the trustee bonds, notes or other evidences of indebtedness secured by the Lien (as defined below) which secures the Secured Debt in an aggregate principal amount equal to the aggregate principal amount of the debt securities then outstanding with respect to which this covenant is made and meeting certain other requirements in the indenture.

“Debt” means:

- indebtedness for borrowed money evidenced by a bond, debenture, note or other written instrument or agreement by which we are obligated to repay such borrowed money; and
- any guaranty by DTE Energy of any such indebtedness of another person.

“Lien” means any mortgage, pledge, security interest, encumbrance, lien or charge of any kind (including, without limitation, any conditional sale or other title retention agreement or lease in the nature thereof or any agreement to give any security interest).

“Secured Debt” means Debt created, issued, incurred or assumed by DTE Energy that is secured by a Lien upon any shares of stock of any Significant Subsidiary, as defined in Regulation S-X of the rules and regulations under the Securities Act, whether owned at the date of the initial authentication and delivery of the debt securities of any series or thereafter acquired.

### **Consolidation, Merger and Sale of Assets**

DTE Energy may, without the consent of the holders of the debt securities, consolidate or merge with or into, or convey, transfer or lease our properties and assets as an entirety or substantially as an entirety to, any person or permit any person to consolidate with or merge into us or convey, transfer or lease its properties and assets substantially as an entirety to us, as long as:

- if DTE Energy merges into or consolidates with, or transfers its properties and assets as an entirety (or substantially as an entirety) to any person, such person is a corporation, partnership or trust, organized and validly existing under the laws of the United States of America, any state thereof or the District of Columbia;
- any successor person (if not DTE Energy) assumes by supplemental indenture, the due and punctual payment of the principal of, any premium and interest on and any additional amounts with respect to all the debt securities issued thereunder, and the performance of our obligations under the indenture and the debt securities issued thereunder, and provides for conversion or exchange rights in accordance with the provisions of the debt securities of any series that are convertible or exchangeable into common stock or other securities;
- no event of default under the indenture has occurred and is continuing after giving effect to the transaction;

## Table of Contents

- no event which, after notice or lapse of time or both, would become an event of default under the indenture has occurred and is continuing after giving effect to the transaction; and
- certain other conditions are met.

Upon any merger or consolidation described above or conveyance or transfer of the properties and assets of DTE Energy as or substantially as an entirety as described above, the successor person will succeed to DTE Energy's obligations under the indenture and, except in the case of a lease, the predecessor person will be relieved of such obligations.

The indenture does not prevent or restrict any conveyance or other transfer, or lease, of any part of the properties of DTE Energy which does not constitute the entirety, or substantially the entirety, thereof.

### **Events of Default**

Unless otherwise specified in the applicable prospectus supplement, an event of default with respect to any series of debt securities will be any of the following events:

(1) failure to pay interest on the debt securities of that series, or any additional amounts payable with respect thereto, for 30 days after payment is due;

(2) failure to pay principal or any premium on the debt securities of that series, or any additional amounts payable with respect thereto, when due;

(3) failure to pay any sinking fund installment or analogous payment when due;

(4) failure to perform, or breach, of any other covenant or warranty or obligation of DTE Energy in the indenture for 60 days after we are given written notice by the trustee or we and the trustee are given written notice by the registered owners of at least 25% in principal amount of the debt securities of that series;

(5) default occurs under any bond, note, debenture or other instrument evidencing any indebtedness for money borrowed by DTE Energy (including a default with respect to any other series of debt securities issued under the indenture), or under any mortgage, indenture or other instrument under which there may be issued or by which there may be secured or evidenced any indebtedness for money borrowed by DTE Energy (or the payment of which is guaranteed by DTE Energy), whether such indebtedness or guarantee exists on the date of the indenture or is issued or entered into following the date of the indenture, if:

- either:

- such default results from failure to pay any such indebtedness when due and such defaulted payment has not been made, waived or extended within 30 days of such payment default; or

- as a result of such default the maturity of such indebtedness has been accelerated prior to its expressed maturity and such indebtedness shall not have been discharged in full or such acceleration has not been rescinded or annulled within 30 days of such acceleration; and

- the principal amount of such indebtedness, together with the principal amount of any other such indebtedness in default for failure to pay any such indebtedness when due or the maturity of which has been so accelerated, aggregates to at least \$40 million;

(6) certain events of bankruptcy, insolvency, reorganization, receivership or liquidation relating to DTE Energy; or

(7) any other event of default provided with respect to debt securities of that series.

If an event of default with respect to the debt securities of any series occurs and is continuing, either the trustee or the holders of at least 25% in aggregate principal amount of the outstanding debt securities of that series may declare the principal amount of the debt securities of that series to be due and payable immediately. At any time after a declaration of acceleration has been made, but before a judgment or decree for payment of money has been obtained by the trustee, and subject to applicable law and certain other provisions of the indenture, the holders of a majority in aggregate principal amount of the debt securities of that series may, under certain circumstances, rescind

---

## Table of Contents

and annul the acceleration. If an event of default occurs pertaining to certain events of bankruptcy, insolvency or reorganization specified in the indenture as described in paragraph (6) above, the principal amount and accrued and unpaid interest and any additional amounts payable in respect of the debt securities of that series, or a lesser amount as provided for in the debt securities of that series, will be immediately due and payable without any declaration or other act by the trustee or any holder.

The indenture provides that within 90 days after the occurrence of any default under the indenture with respect to the debt securities of any series, the trustee must transmit to the holders of the debt securities of such series, in the manner set forth in the indenture, notice of the default known to the trustee, unless the default has been cured or waived. However, except in the case of a default in the payment of the principal of (or premium, if any) or interest or any additional amounts or in the payment of any sinking fund installment with respect to, any debt security of such series, the trustee may withhold such notice if and so long as the board of directors, the executive committee or a trust committee of directors or responsible officers of the trustee has in good faith determined that the withholding of such notice is in the interest of the holders of debt securities of such series. In addition, in the case of any event of default described in paragraph (4) above, no such notice to holders will be given until at least 30 days after the occurrence of the event of default.

If an event of default occurs and is continuing with respect to the debt securities of any series, the trustee may in its discretion proceed to protect and enforce its rights and the rights of the holders of debt securities of such series by all appropriate judicial proceedings.

The indenture further provides that, subject to the duty of the trustee during any default to act with the required standard of care, the trustee will be under no obligation to exercise any of its rights or powers under the indenture at the request or direction of any of the holders of debt securities, unless that requesting holder has offered to the trustee reasonable indemnity. Subject to such provisions for the indemnification of the trustee, and subject to applicable law and certain other provisions of the indenture, the holders of a majority in aggregate principal amount of the outstanding debt securities of a series will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee, or exercising any trust or power conferred on the trustee, with respect to the debt securities of such series.

The indenture provides that no holder of any debt security of a series will have any right to institute any proceeding with respect to the indenture for the appointment of a receiver or for any other remedy thereunder unless:

- that holder has previously given the trustee written notice of a continuing event of default;
- the holders of 25% in aggregate principal amount of the outstanding debt securities of that series have made written request to the trustee to institute proceedings in respect of that event of default and have offered the trustee reasonable indemnity against costs and liabilities incurred in complying with such request; and
- for 60 days after receipt of such notice, the trustee has failed to institute any such proceeding and no direction inconsistent with such request has been given to the trustee during such 60-day period by the holders of a majority in aggregate principal amount of outstanding debt securities of that series.

Furthermore, no holder will be entitled to institute any such action if and to the extent that such action would disturb or prejudice the rights of other holders.

However, each holder has an absolute and unconditional right to receive payment when due and to bring a suit to enforce that right.

Under the indenture, we are required to furnish to the trustee annually a statement as to our performance of certain of our obligations under the indenture and as to any default in such performance. We are also required to deliver to the trustee, within five days after occurrence thereof, written notice of any event that after notice or lapse of time or both would constitute an event of default.

## Table of Contents

### **Interest Rates and Discounts**

The debt securities will earn interest at a fixed or floating rate or rates for the period or periods of time specified in the applicable prospectus supplement. Unless otherwise specified in the applicable prospectus supplement, the debt securities will bear interest on the basis of a 360-day year consisting of twelve 30-day months.

We may sell debt securities at a substantial discount below their stated principal amount, bearing no interest or interest at a rate that at the time of issuance is below market rates. Material U.S. Federal income tax consequences and special considerations that apply to any series will be described in the applicable prospectus supplement.

### **Exchange, Registration and Transfer**

Registered securities of any series that are not global securities will be exchangeable for other registered securities of the same series and of like aggregate principal amount and tenor in different authorized denominations. In addition, if debt securities of any series are issuable as both registered securities and bearer securities, the holder may choose, upon written request, and subject to the terms of the indenture, to exchange bearer securities and the appropriate related coupons of that series into registered securities of the same series of any authorized denominations and of like aggregate principal amount and tenor. Bearer securities with attached coupons surrendered in exchange for registered securities between a regular record date or a special record date and the relevant date for interest payment shall be surrendered without the coupon relating to the interest payment date. Interest will not be payable with respect to the registered security issued in exchange for that bearer security. That interest will be payable only to the holder of the coupon when due in accordance with the terms of the indenture. Bearer securities will not be issued in exchange for registered securities.

Holders may present registered securities for registration of transfer, together with a duly executed form of transfer, at the office of the security registrar or at the office of any transfer agent designated by us for that purpose with respect to any series of debt securities and referred to in the applicable prospectus supplement. This may be done without service charge but upon payment of any taxes and other governmental charges as described in the indenture. The security registrar or the transfer agent will effect the transfer or exchange upon being satisfied with the documents of title and identity of the person making the request. We have appointed the trustee as security registrar for the indenture. If a prospectus supplement refers to any transfer agents initially designated by us with respect to any series of debt securities in addition to the security registrar, we may at any time rescind the designation of any of those transfer agents or approve a change in the location through which any of those transfer agents acts. However, if debt securities of a series are issuable solely as registered securities, we will be required to maintain a transfer agent in each place of payment for that series, and if debt securities of a series are issuable as bearer securities, we will be required to maintain a transfer agent in a place of payment for that series located outside the United States in addition to the security registrar. We may at any time designate additional transfer agents with respect to any series of debt securities.

In the event of any redemption, we will not be required to:

- issue, register the transfer of or exchange debt securities of any series during a period beginning at the opening of business 15 days before any selection of debt securities of that series to be redeemed and ending at the close of business on:
  - the day of the mailing of the relevant notice of redemption if the debt securities are issuable only as registered securities; or
  - the day of the first publication of the notice of redemption if the debt securities are issuable as bearer securities, or, if the debt securities are also issuable as registered securities and there is no publication, the mailing of the notice of redemption;
- register the transfer of or exchange any registered security, or portion thereof, selected for redemption, except the unredeemed portion of any registered security being redeemed in part;
- exchange any bearer security so selected for redemption, except to exchange such bearer security for a registered security of that series and like tenor that is simultaneously surrendered for redemption; or

## Table of Contents

- issue, register the transfer of or exchange any debt security that has been surrendered for repayment at the option of the holder, except the portion, if any, of such debt security not to be so repaid.

### **Payment and Paying Agents**

Unless we specify otherwise in the applicable prospectus supplement, payment of principal of, and any premium and interest on, bearer securities will be payable in accordance with any applicable laws and regulations, at the offices of those paying agents outside the United States that we may designate at various times. We will make interest payments on bearer securities and the attached coupons on any interest payment date only against surrender of the coupon relating to that interest payment date. No payment with respect to any bearer security will be made at any of our offices or agencies in the United States by check mailed to any U.S. address or by transfer to an account maintained with a bank located in the United States. If, however, but only if, payment in U.S. dollars of the full amount of principal of, and any premium and interest on, bearer securities denominated and payable in U.S. dollars at all offices or agencies outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions, then those payments will be made at the office of our paying agent in the Borough of Manhattan, The City of New York.

Unless we specify otherwise in the applicable prospectus supplement, payment of principal of, and any premium and interest on, registered securities will be made at the office of the paying agent or paying agents that we designate at various times. However, at our option, we may make interest payments by check mailed to the address, as it appears in the security register, of the person entitled to the payments. Unless we specify otherwise in the applicable prospectus supplement, we will make payment of any installment of interest on registered securities to the person in whose name that registered security is registered at the close of business on the regular record date for such interest.

Unless we specify otherwise in the applicable prospectus supplement, the corporate trust office of the trustee in the Borough of Manhattan, The City of New York, will be designated:

- as our sole paying agent for payments with respect to debt securities that are issuable solely as registered securities; and
- as our paying agent in the Borough of Manhattan, The City of New York, for payments with respect to debt securities, subject to the limitation described above in the case of bearer securities, that are issuable solely as bearer securities or as both registered securities and bearer securities.

We will name any paying agents outside the United States and any other paying agents in the United States initially designated by us for the debt securities in the applicable prospectus supplement. We may at any time designate additional paying agents or rescind the designation of any paying agent or approve a change in the office through which any paying agent acts. However, if debt securities of a series are issuable solely as registered securities, we will be required to maintain a paying agent in each place of payment for that series. If debt securities of a series are issuable as bearer securities, we will be required to maintain:

- a paying agent in the Borough of Manhattan, The City of New York, for payments with respect to any registered securities of the series and for payments with respect to bearer securities of the series in the circumstance described above, but not otherwise; and
- a paying agent in a place of payment located outside the United States where debt securities of that series and any attached coupons may be presented and surrendered for payment.

However, if the debt securities of that series are listed on The Stock Exchange of the United Kingdom and the Republic of Ireland, the Luxembourg Stock Exchange or any other stock exchange located outside the United States, and if the stock exchange requires it, we will maintain a paying agent in London or Luxembourg or any other required city located outside the United States for those debt securities.

All monies we pay to a paying agent for the payment of principal of, and any premium or interest on, any debt security or coupon that remains unclaimed at the end of two years after becoming due and payable will be repaid to us. After that time, the holder of the debt security or coupon may look only to us for payments out of those repaid amounts.

## Table of Contents

### **Global Securities**

The debt securities of a series may be issued in whole or in part in the form of one or more global certificates that we will deposit with a depository identified in the applicable prospectus supplement. Global securities may be issued in either registered or bearer form and in either temporary or permanent form. Unless and until it is exchanged in whole or in part for the individual debt securities it represents, a global security may not be transferred except as a whole:

- by the applicable depository to a nominee of the depository;
- by any nominee to the depository itself or another nominee; or
- by the depository or any nominee to a successor depository or any nominee of the successor.

To the extent not described below and under the heading “Book-Entry Securities,” we will describe the terms of the depository arrangement with respect to a series of debt securities in the applicable prospectus supplement. We anticipate that the following provisions will generally apply to depository arrangements.

As long as the depository for a global security, or its nominee, is the registered owner of that global security, the depository or nominee will be considered the sole owner or holder of the debt securities represented by the global security for all purposes under the indenture. Except as provided under “Book-Entry Securities” or in any applicable prospectus supplement, owners of beneficial interests in a global security:

- will not be entitled to have any of the underlying debt securities registered in their names;
- will not receive or be entitled to receive physical delivery of any of the underlying debt securities in definitive form;
- will not be considered the owners or holders under the indenture relating to those debt securities; and
- will not be able to transfer or exchange the global debt securities, except in the limited circumstances as described in this prospectus or any supplement.

The laws of some states require that certain purchasers of securities take physical delivery of securities in definitive form. These laws may impair the owner’s ability to transfer beneficial interests in a global security.

Payments of principal of, and any premium and interest on, individual debt securities represented by a global security registered in the name of a depository or its nominee will be made to the depository or its nominee as the registered owner of the global security representing such debt securities. Neither we, the trustee, any paying agent nor the registrar for the debt securities will be responsible for any aspect of the records relating to or payments made by the depository or any participants on account of beneficial interests of the global security.

For a description of the depository arrangements for global securities held by The Depository Trust Company, see “Book-Entry Securities.”

### **Discharge, Defeasance and Covenant Defeasance**

We may discharge certain obligations to holders of any series of debt securities that have not already been delivered to the trustee for cancellation and that:

- have become due and payable;
- will become due and payable within one year; or
- are scheduled for redemption within one year.

To discharge the obligations with respect to a series of debt securities, we must deposit with the trustee, in trust, an amount of funds in U.S. dollars or in the foreign currency in which those debt securities are payable. The deposited amount must be sufficient to pay the entire amount of principal of, and any premium, interest and additional amounts on, those debt securities to the date of the deposit if those debt securities have become due and payable or to the maturity or redemption date of the debt securities, as the case may be; *provided, however*, we have

---

## Table of Contents

paid all other sums payable under the indenture with respect to the debt securities, and certain other conditions are met.

Unless we specify otherwise in the applicable prospectus supplement, we may elect:

- to defease and be discharged from any and all obligations with respect to those debt securities, which we refer to as “defeasance”; or
- with respect to any debt securities, to be released from certain covenant obligations as described in the related prospectus supplement, as may be provided for under Section 301 of the indenture, which we refer to as “covenant defeasance.”

In the case of defeasance we will still retain some obligations in respect of the debt securities, including our obligations:

- to pay additional amounts, if any, upon the occurrence of certain events of taxation, assessment or governmental charge with respect to payments on the debt securities;
- to register the transfer or exchange of the debt securities;
- to replace temporary or mutilated, destroyed, lost or stolen debt securities; and
- to maintain an office or agency with respect to the debt securities and to hold monies for payment in trust.

After a covenant defeasance, any omission to comply with the obligations or covenants that have been defeased shall not constitute a default or an event of default with respect to the debt securities.

To elect either defeasance or covenant defeasance we must deposit with the trustee, in trust, an amount, in U.S. dollars or in the foreign currency in which the relevant debt securities are payable at stated maturity, or in government obligations, as defined below, or both, applicable to such debt securities. The deposit will provide through the scheduled payment of principal and interest in accordance with their terms, money in an amount sufficient to pay the principal of and any premium and interest on (and, to the extent that (1) the debt securities of such series provide for the payment of additional amounts and (2) we may reasonably determine the amount of any such additional amounts at the time of deposit (in the exercise of our sole discretion), any such additional amounts with respect to) such debt securities, and any mandatory sinking fund or analogous payments thereon, on their scheduled due dates.

In addition, we can only elect defeasance or covenant defeasance if, among other things:

- the defeasance or covenant defeasance does not result in a breach or violation of, or constitute a default under, the indenture or any other material agreement or instrument to which we are a party or by which we are bound;
- no event of default or event that with notice or lapse of time or both would become an event of default with respect to the debt securities to be defeased will have occurred and be continuing on the date of the deposit of funds with the trustee and, with respect to defeasance only, at any time during the period ending on the 123rd day after the date of the deposit of funds with the trustee; and
- we have delivered to the trustee an opinion of counsel to the effect that the holders of the debt securities will not recognize income, gain or loss for U.S. federal income tax purposes as a result of the defeasance or covenant defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if the defeasance had not occurred, and the opinion of counsel, in the case of defeasance, must refer to and be based upon a letter ruling of the Internal Revenue Service received by us, a Revenue Ruling published by the Internal Revenue Service or a change in applicable U.S. federal income tax law occurring after the date of the indenture.

The indenture deems a foreign currency to be any currency, currency unit or composite currency including, without limitation, the euro, issued by the government of one or more countries other than the United States or by any recognized confederation or association of governments.

## Table of Contents

The indenture defines government obligations as securities that are not callable or redeemable at the option of the issuer or issuers and are:

- direct obligations of the United States or the government or governments in the confederation that issued the foreign currency in which the debt securities of a particular series are payable, for the payment of which its full faith and credit is pledged; or
- obligations of a person or entity controlled or supervised by and acting as an agency or instrumentality of the United States or the government or governments that issued the foreign currency in which the debt securities of a particular series are payable, the timely payment of which is unconditionally guaranteed as a full faith and credit obligation by the United States or that other government or governments.

Government obligations also include a depositary receipt issued by a bank or trust company as custodian with respect to any government obligation described above or a specific payment of interest on or principal of or any other amount with respect to any government obligation held by that custodian for the account of the holder of such depositary receipt, as long as, except as required by law, that custodian is not authorized to make any deduction from the amount payable to the holder of the depositary receipt from any amount received by the custodian with respect to the government obligation or the specific payment of interest on or principal of or any other amount with respect to the government obligation evidenced by the depositary receipt.

Unless otherwise specified in the applicable prospectus supplement, if, after we have deposited funds and/or government obligations to effect defeasance or covenant defeasance with respect to debt securities of any series, either:

- the holder of a debt security of that series is entitled to, and does, elect to receive payment in a currency other than that in which such deposit has been made in respect of that debt security; or
- a conversion event, as defined below, occurs in respect of the foreign currency in which the deposit has been made,

the indebtedness represented by that debt security shall be deemed to have been, and will be, fully discharged and satisfied through the payment of the principal of, and any premium and interest on, and additional amounts, if any, with respect to, that debt security as that debt security becomes due out of the proceeds yielded by converting the amount or other properties so deposited in respect of that debt security into the currency in which that debt security becomes payable as a result of the election or conversion event based on:

- in the case of payments made pursuant to the first of the two items in the list above, the applicable market exchange rate for the currency in effect on the second business day prior to the date of the payment; or
- with respect to a conversion event, the applicable market exchange rate for such foreign currency in effect, as nearly as feasible, at the time of the conversion event.

The indenture defines a “conversion event” as the cessation of use of:

- a foreign currency both by the government of the country or the confederation that issued such foreign currency and for the settlement of transactions by a central bank or other public institutions of or within the international banking community; or
- any currency unit or composite currency for the purposes for which it was established.

Unless otherwise provided in the applicable prospectus supplement, all payments of principal of, and any premium and interest on, any debt security that are payable in a foreign currency that ceases to be used by the government or confederation of issuance shall be made in U.S. dollars.

If we effect a covenant defeasance with respect to any debt securities and the debt securities are declared due and payable because of the occurrence of any event of default other than an event of default with respect to which there has been covenant defeasance, the amount in the foreign currency in which the debt securities are payable, and government obligations on deposit with the trustee, will be sufficient to pay amounts due on the debt securities at the time of the stated maturity but may not be sufficient to pay amounts due on the debt securities at the time of the

## Table of Contents

acceleration resulting from the event of default. However, we would remain liable for payment of the amounts due at the time of acceleration.

The applicable prospectus supplement may further describe the provisions, if any, permitting defeasance or covenant defeasance, including any modifications to the provisions described above, with respect to the debt securities of or within a particular series.

### **Modification and Waiver**

DTE Energy and the trustee may generally modify certain provisions of the indenture with the consent of the holders of not less than a majority in aggregate principal amount of the debt securities of each series affected by the modification, except that no such modification or amendment may, without the consent of the holder of each debt security affected thereby:

- change the stated maturity of the principal of, or any installment of principal of, or any premium or interest on, or any additional amounts with respect to, any debt security issued under the indenture;
- reduce the principal amount of, or premium or interest on, or any additional amounts with respect to, any debt security issued under the indenture;
- change the place of payment, coin or currency in which any debt security issued under that indenture or any premium or any interest on that debt security or any additional amounts with respect to that debt security is payable;
- reduce the percentage in principal amount of the outstanding debt securities, the consent of whose holders is required under the indenture in order to take certain actions;
- change any of our obligations to maintain an office or agency in the places and for the purposes required by the indenture;
- if the debt securities are convertible or exchangeable, modify the conversion or exchange provision in a manner adverse to holders of that debt security;
- in the case of a subordinated debt security, modify any of the subordination provisions in a manner adverse to holders of that debt security;
- impair the right to institute suit for the enforcement of any payment on or after the stated maturity of any debt securities issued under that indenture or, in the case of redemption, exchange or conversion, if applicable, on or after the redemption, exchange or conversion date or, in the case of repayment at the option of any holder, if applicable, on or after the date for repayment; or
- modify any of the above provisions or certain provisions regarding the waiver of past defaults or the waiver of certain covenants, with limited exceptions.

In addition, we and the trustee may, without the consent of any holders, modify provisions of the indenture for certain purposes, including, among other things:

- evidencing the succession of another person to DTE Energy and the assumption by any such successor of the covenants of DTE Energy in the indenture and in the debt securities;
- adding to the covenants of DTE Energy for the benefit of the holders of debt securities (and if such covenants are to be for the benefit of less than all series of debt securities, stating that such covenants are expressly being included solely for the benefit of such series) or surrendering any right or power herein conferred upon DTE Energy with respect to the debt securities;
- adding any additional events of default with respect to the debt securities (and, if such event of default is applicable to less than all series of debt securities, specifying the series to which such event of default is applicable);
- adding to or changing any provisions of the indenture to provide that bearer debt securities may be registrable, changing or eliminating any restrictions on the payment of principal of (or premium, if any) or

## Table of Contents

interest on or any additional amounts with respect to bearer debt securities, permitting bearer debt securities to be issued in exchange for registered debt securities, permitting bearer debt securities to be issued in exchange for bearer debt securities of other authorized denominations or facilitating the issuance of debt securities in uncertificated form provided that any such action shall not adversely affect the interests of the holders of the debt securities in any material respect;

- establishing the form or terms of debt securities of any series;
- evidencing and providing for the acceptance of appointment of a successor trustee and adding to or changing any of the provisions of the indenture to facilitate the administration of the trusts;
- curing any ambiguity, correcting or supplementing any provision in the indenture that may be defective or inconsistent with any other provision therein, or making or amending any other provisions with respect to matters or questions arising under the indenture which shall not adversely affect the interests of the holders of debt securities of any series in any material respect;
- modifying, eliminating or adding to the provisions of the indenture to maintain the qualification of the indenture under the Trust Indenture Act as the same may be amended from time to time;
- adding to, deleting from or revising the conditions, limitations and restrictions on the authorized amount, terms or purposes of issue, authentication and delivery of debt securities, as therein set forth;
- modifying, eliminating or adding to the provisions of any security to allow for such security to be held in certificated form;
- securing the debt securities;
- making provisions with respect to conversion or exchange rights of holders of securities of any series;
- amending or supplementing any provision contained therein or in any supplemental indenture, provided that no such amendment or supplement will adversely affect the interests of the holders of any debt securities then outstanding in any material respect; or
- modifying, deleting or adding to any of the provisions of the indenture other than as contemplated above.

The holders of at least 662/3% in aggregate principal amount of debt securities of any series issued under the indenture may, on behalf of the holders of all debt securities of that series, waive our compliance with certain restrictive provisions of the indenture. The holders of not less than a majority in aggregate principal amount of debt securities of any series issued under the indenture may, on behalf of all holders of debt securities of that series, waive any past default and its consequences under the indenture with respect to the debt securities of that series, except:

- payment default with respect to debt securities of that series; or
- a default of a covenant or provision of the indenture that cannot be modified or amended without the consent of the holder of each debt security of that series.

## **Enforcement of Certain Rights by Holders of Trust Preferred Securities**

The following applies only in the event that debt securities are held by the DTE Energy Trust.

To the extent that any action under any debt securities held by the DTE Energy Trust is entitled to be taken by the holders of at least a specified percentage of those debt securities, and unless otherwise specified in the applicable prospectus supplement, holders of the trust preferred securities issued by the DTE Energy Trust may take action if the action is not taken by the property trustee of the DTE Energy Trust. Notwithstanding the foregoing, if an event of default under those debt securities has occurred and is continuing and is attributable either to:

- the failure of DTE Energy to pay the principal of, or any premium or interest on, those debt securities on the due date; or
- the failure by DTE Energy to deliver the required securities or other property upon an appropriate conversion or exchange election, if any,

## Table of Contents

and an event of default has occurred and is continuing under the applicable trust agreement, a holder of the related trust preferred securities may institute a direct action.

A “direct action” is a legal proceeding directly against DTE Energy for enforcement of payment to the holder of trust preferred securities issued by the DTE Energy Trust of the principal of or any premium or interest on the debt securities held by that trust having a principal amount equal to the liquidation amount of those trust preferred securities held by that holder or for enforcement of any conversion or exchange rights, as the case may be. DTE Energy may not amend an indenture to remove this right to bring a direct action without the prior written consent of the holders of all of the trust preferred securities outstanding that have an interest in the related debt securities. If the right to bring a direct action is removed, the DTE Energy Trust may become subject to the reporting obligations under the Exchange Act. Notwithstanding any payments made to a holder of trust preferred securities by DTE Energy in connection with a direct action, DTE Energy will remain obligated to pay the principal of, and any premium and interest on, the related debt securities, and DTE Energy will be subrogated to the rights of the holders of those trust preferred securities with respect to payments on the trust preferred securities to the extent of any payments made by DTE Energy to the holder in any direct action.

The holders of the trust preferred securities will not be able to exercise directly any remedies, other than those set forth in the preceding paragraph, available to the holders of the related debt securities unless an event of default has occurred and is continuing under the applicable trust agreement. See “Description of Trust Preferred Securities — Events of Default; Notice” below.

### **Resignation and Removal of the Trustee; Deemed Resignation**

The trustee may resign at any time with respect to the debt securities of one or more series by giving written notice thereof to us.

The trustee may also be removed with respect to the debt securities of any series by act of the holders of a majority in principal amount of the then outstanding debt securities of such series.

No resignation or removal of such trustee and no appointment of a successor trustee will become effective until the acceptance of appointment by a successor trustee in accordance with the requirements of the indenture.

Under certain circumstances, we may appoint a successor trustee and if the successor accepts, the retiring trustee will be deemed to have resigned.

### **Governing Law**

The indenture is governed by, and will be construed in accordance with, the laws of the State of New York.

### **Concerning the Trustees**

BNY Midwest Trust Company is the successor trustee under the indenture. The Bank of New York Trust Company, N.A., an affiliate of BNY Midwest Trust Company, acts as the property trustee under the trust agreement and the guarantee trustee under the guarantee as described in this prospectus. The Bank of New York (Delaware), an affiliate of BNY Midwest Trust Company, acts as the Delaware trustee under the trust agreement as described in this prospectus. The Bank of New York, an affiliate of BNY Midwest Trust Company, acts as trustee with respect to the securitization bonds issued by The Detroit Edison Securitization Funding LLC. In addition to acting as trustees under the indenture and in certain other capacities as described in this prospectus, the trustees and their affiliates may act as trustee under various other indentures, trusts and guarantees of DTE Energy and its affiliates and may act as a lender and provide other banking, trust and investment services for DTE Energy and its affiliates in the ordinary course of business.

The Trust Indenture Act contains limitations on the rights of the trustee, should it become a creditor of DTE Energy, to obtain payment of claims in certain cases or to realize on certain property received by it in respect of any such claims, as security or otherwise. The trustee is permitted to engage in other transactions with DTE Energy and its subsidiaries from time to time, provided that if the trustee acquires any conflicting interest it must eliminate such conflict upon the occurrence of an event of default under the indenture, or else resign.

## [Table of Contents](#)

### **DESCRIPTION OF TRUST PREFERRED SECURITIES**

The DTE Energy Trust will issue under its trust agreement only one series of trust preferred securities, which will represent beneficial interests in the DTE Energy Trust. The DTE Energy Trust will qualify its trust agreement under the Trust Indenture Act. The trust agreement is subject to, and governed by, the Trust Indenture Act. This summary of certain terms and provisions of the trust preferred securities and the trust agreement does not purport to be complete and is subject to, and is qualified in its entirety by reference to, all of the provisions of the trust preferred securities and the trust agreement, including the definitions of certain terms, and those made a part of the trust agreement by the Trust Indenture Act. A form of trust agreement, including a form of trust securities, is filed as an exhibit to the registration statement that includes this prospectus. If indicated in the applicable prospectus supplement, the terms of the DTE Energy Trust may differ from the terms summarized below.

#### **General**

The trust preferred securities of the DTE Energy Trust will rank equally, and payments will be made on the trust preferred securities proportionately, with the trust common securities of the DTE Energy Trust except as described under “— Subordination of Trust Common Securities.” The DTE Energy Trust will use the proceeds from the sale of trust preferred securities and trust common securities to purchase an aggregate principal amount of debt securities of DTE Energy equal to the aggregate liquidation amount of the trust preferred securities and trust common securities. The property trustee of the DTE Energy Trust will hold legal title to the debt securities for the benefit of the holders of the related trust securities. In addition, DTE Energy will execute a guarantee for the benefit of the holders of the related trust preferred securities. The guarantee will not guarantee payment of distributions or amounts payable or securities or other property deliverable, if any, on redemption, repayment, conversion or exchange of the trust preferred securities or liquidation of the DTE Energy Trust when the trust does not have funds or other property legally available for payment or delivery. See “Description of Trust Preferred Securities Guarantees.”

The revenue of the DTE Energy Trust available for distribution to holders of its trust preferred securities will be limited to payments under the related debt securities and any other assets held by the DTE Energy Trust. If DTE Energy fails to make a required payment in respect of those debt securities or any other assets, the DTE Energy Trust will not have sufficient funds to make the related payments, including distributions, in respect of its trust preferred securities.

The DTE Energy Trust will describe the specific terms of the trust preferred securities it is offering in the applicable prospectus supplement, including:

- the designation, number, purchase price and liquidation amount, if any, of the trust preferred securities;
- the distribution rate, or method of calculation of the distribution rate, for the trust preferred securities and, if applicable, any deferral provisions;
- whether the distributions on the trust preferred securities will be cumulative and, if so, the dates from which and upon which distributions will accumulate and be payable and the record dates;
- if other than U.S. dollars, the currency in which cash payments are payable;
- the liquidation amount per trust preferred security that will be paid out of the assets of the DTE Energy Trust to the holders upon voluntary or involuntary dissolution and liquidation of the trust;
- the obligation or right, if any, of the DTE Energy Trust to purchase or redeem its trust preferred securities, whether pursuant to a sinking fund or otherwise, and the price or prices at which, the date or dates on which or period or periods within which and the terms and conditions upon which, it will or may purchase or redeem, in whole or in part, the trust preferred securities pursuant to its obligation or right to purchase or redeem;
- the terms and conditions, if any, upon which the trust preferred securities may be converted or exchanged, in addition to the circumstances described herein, into other securities or property, or a combination of the foregoing;

## Table of Contents

- the obligation or right, if any, of DTE Energy, the DTE Energy Trust or any other party to liquidate the DTE Energy Trust and any terms and conditions of such liquidation;
- the voting rights, if any, of the holders;
- if applicable, any securities exchange upon which the trust preferred securities will be listed;
- if applicable, a description of any remarketing, auction or other similar arrangements;
- whether the trust preferred securities are issuable in book-entry only form and, if so, the identity of the depositary and disclosure relating to the depositary arrangements; and
- any other rights, preferences, privileges, limitations or restrictions of the trust preferred securities consistent with the trust agreement or with applicable law, which may differ from those described herein.

The DTE Energy Trust will also describe certain material United States federal income tax considerations applicable to any offering of trust preferred securities in the applicable prospectus supplement.

### **Subordination of Trust Common Securities**

The DTE Energy Trust will pay distributions on, and the applicable redemption price of, and any other amounts payable or property deliverable under, the trust securities it issues equally among its trust preferred securities and its trust common securities based on its liquidation amounts. However, if on any distribution date, redemption date, repayment date or conversion or exchange date, or upon liquidation or if an event of default under the debt securities held by the DTE Energy Trust or any other event of default under the trust agreement has occurred and is continuing, the DTE Energy Trust will not pay any distribution on, or applicable redemption or repayment price of, or convert or exchange any of, its trust common securities. Further, it will not make any other payment on account of the redemption, repayment, conversion, exchange, liquidation or other acquisition of the trust common securities, unless payment in full in cash of all accumulated distributions on all of the outstanding trust preferred securities of the DTE Energy Trust for all distribution periods terminating on or before the redemption, repayment, conversion, exchange, liquidation or other acquisition, and, in the case of payment of the applicable redemption or repayment price, the full amount of the redemption or repayment price, will have been made or provided for. Also, in the case of conversion or exchange, no such payments will be made unless the trust preferred securities have been converted or exchanged in full and other amounts payable have been paid. The property trustee will apply all available funds first to the payment in full in cash of all distributions on, or the applicable redemption price of, the trust preferred securities issued by the DTE Energy Trust then due and payable.

Until any event of default under the trust agreement for the DTE Energy Trust has been cured, waived or otherwise eliminated, the property trustee will act solely on behalf of the holders of the trust preferred securities of the DTE Energy Trust and not on behalf of DTE Energy as the direct or indirect trust common securities owner, and only the holders of the trust preferred securities issued by the DTE Energy Trust will have the right to direct the property trustee to act on their behalf.

### **Events of Default; Notice**

The occurrence of an event of default under the debt securities held by the DTE Energy Trust will constitute an event of default under the trust agreement for the DTE Energy Trust. Within 90 days after the occurrence of an event of default actually known to the property trustee, the property trustee will transmit notice of that event of default to the holders of the trust preferred securities of the DTE Energy Trust, unless the event of default shall have been cured or waived. However, except with respect to a default in the payment of principal of (or premium, if any) or interest on, or in the delivery of any cash, securities or other property in exchange for or upon conversion or redemption of or otherwise in accordance with the terms of, any debt securities held by the DTE Energy Trust or the trust preferred securities or trust common securities issued by the DTE Energy Trust, the property trustee may withhold such notice if and so long as the property trustee in good faith determines that the withholding of such notice is in the interests of the holders of the trust preferred securities.

For a discussion of the limited circumstances in which holders of trust preferred securities may bring a direct action against DTE Energy under the debt securities, see “Description of Debt Securities — Enforcement of Certain

## Table of Contents

Rights by Holders of Trust Preferred Securities.” The applicable prospectus supplement may describe additional events of default under the trust agreement.

### **Removal of Trustees**

Unless an event of default under the debt securities held by the DTE Energy Trust has occurred and is continuing, DTE Energy, as the direct or indirect owner of trust common securities of the DTE Energy Trust, may remove the property trustee, the Delaware trustee and the administrative trustees at any time. If an event of default under the debt securities held by the DTE Energy Trust has occurred and is continuing, only the holders of a majority in liquidation amount of the outstanding trust preferred securities of the DTE Energy Trust may remove and replace the property trustee and the Delaware trustee for the DTE Energy Trust. In no event will the holders of the trust preferred securities have the right to vote to appoint, remove or replace the administrative trustees, which voting rights are vested exclusively in DTE Energy as the direct or indirect trust common securities owner. No resignation or removal of a property or Delaware trustee, and no appointment of a successor to that trustee, will be effective until the acceptance of appointment by the successor trustee in accordance with the provisions of the applicable trust agreement.

### **Merger or Consolidation of Property or Delaware Trustees**

Any person into which the property trustee or the Delaware trustee may be merged or converted or with which it may be consolidated, or any person resulting from any merger, conversion or consolidation to which the property trustee or the Delaware trustee will be a party, or any person succeeding to all or substantially all of the corporate trust business of the property trustee or the Delaware trustee, will be the successor of the property trustee or the Delaware trustee under the trust agreement, provided that the person will be otherwise qualified and eligible.

### **Mergers, Conversions, Consolidations, Amalgamations or Replacements of the DTE Energy Trust**

The DTE Energy Trust may not merge with or into, convert into, consolidate, amalgamate, or be replaced by, or convey, transfer or lease its properties and assets as an entirety or substantially as an entirety, to any other person, except as described below or as otherwise described in the applicable prospectus supplement. The DTE Energy Trust may, at the request of DTE Energy, as sponsor, with the consent of the administrative trustees but without the consent of the holders of its trust preferred securities, the Delaware trustee or the property trustee, merge with or into, convert into, consolidate, amalgamate, or be replaced by a trust organized as such under the laws of any state of the United States, provided that:

- the successor entity expressly assumes all of the obligations of the DTE Energy Trust under any agreement to which the trust is a party and either:
  - expressly assumes all of the obligations of the DTE Energy Trust with respect to the trust securities of the DTE Energy Trust, or
  - substitutes for the trust securities of the DTE Energy Trust other securities having substantially the same terms as those trust securities, so long as the successor trust securities rank the same as the trust securities rank with respect to distributions and payments upon liquidation, redemption and otherwise;
- DTE Energy expressly appoints a trustee of the successor entity possessing substantially the same powers and duties as the property trustee with respect to the debt securities held by the DTE Energy Trust;
- the successor securities are listed, or any successor securities will be listed upon notification of issuance, if applicable, on each national securities exchange or other organization on which the trust securities of the DTE Energy Trust are then listed, if any;
- the merger, conversion, consolidation, amalgamation or replacement does not cause the trust securities, including any successor securities, of the DTE Energy Trust to be downgraded or placed under surveillance or review by any nationally recognized statistical rating organization;

## Table of Contents

- the merger, conversion, consolidation, amalgamation or replacement does not adversely affect the rights, preferences and privileges of the holders of the trust securities, including any successor securities, of the DTE Energy Trust in any material respect;
- the successor entity has a purpose substantially identical to that of the DTE Energy Trust;
- prior to the merger, conversion, consolidation, amalgamation or replacement, DTE Energy has received an opinion from a nationally recognized independent counsel experienced in these matters and representing the DTE Energy Trust, to the effect that:
  - the merger, conversion, consolidation, amalgamation or replacement does not adversely affect the rights, preferences and privileges of the holders of the trust securities, including any successor securities, of the DTE Energy Trust in any material respect,
  - following the merger, conversion, consolidation, amalgamation or replacement, neither the DTE Energy Trust nor the successor entity, if any, will be required to register as an investment company under the Investment Company Act of 1940, as amended, and
  - following the merger, conversion, consolidation, amalgamation or replacement, the DTE Energy Trust or the successor entity, as the case may be, will continue to be classified as a grantor trust for United States federal income tax purposes;
- DTE Energy or any permitted successor or assignee directly or indirectly owns all of the common securities of the successor entity and guarantees the obligations of the successor entity under the successor securities at least to the extent provided by the applicable guarantee; and
- the property trustee has received an officer's certificate of DTE Energy and an opinion of counsel, each to the effect that all conditions precedent to the transaction as set forth in the trust agreement have been satisfied.

Despite the foregoing, the DTE Energy Trust may not, without the consent of holders of 100% in liquidation amount of the trust securities, consolidate, amalgamate, merge with or into, or be replaced by any other entity or permit any other entity to consolidate, amalgamate, merge with or into, or replace it, if the consolidation, amalgamation, merger or replacement would cause the DTE Energy Trust or the successor entity to be classified as other than a grantor trust for United States federal income tax purposes.

### **Voting Rights; Amendment of Trust Agreement**

Except as provided under “— Mergers, Conversions, Consolidations, Amalgamations or Replacements of the DTE Energy Trust” and “Description of Trust Preferred Securities Guarantees — Amendments and Assignment” and as otherwise required by law and the trust agreement or specified in the applicable prospectus supplement, the holders of trust preferred securities will have no voting rights.

DTE Energy, the property trustee, the Delaware trustee and the administrative trustees may amend from time to time the trust agreement for the DTE Energy Trust, without the consent of the holders of the trust securities of the DTE Energy Trust, to:

- cure any ambiguity, or correct or supplement any provisions in the trust agreement that may be defective or inconsistent with any other provision;
- add to the covenants, restrictions or obligations of the sponsor;
- conform to any change in the Investment Company Act or Trust Indenture Act or the rules promulgated thereunder, or any written change in interpretation of such acts or rules by any governmental authority; or
- cause the DTE Energy Trust to continue to be classified for United States federal income tax purposes as a grantor trust;

*provided, however,* that any such modification that will adversely affect the rights of the holders of the trust securities issued by the DTE Energy Trust requires the consent of the holders of a majority in liquidation amount of each class of trust securities affected.

## Table of Contents

Without the consent of each holder of trust securities issued by the DTE Energy Trust, the trust agreement for the DTE Energy Trust may not be amended to:

- change the distribution rate, or manner of calculation of the distribution rate, amount, timing or currency or otherwise adversely affect the method of any required payment;
- change its purpose;
- authorize the issuance of any additional beneficial interests;
- change the conversion, exchange or redemption provisions, if any;
- change the conditions precedent for DTE Energy to elect to dissolve the DTE Energy Trust and distribute the debt securities held by the DTE Energy Trust to the holders of the trust securities, if applicable;
- change the liquidation, distribution or other provisions relating to the distribution of amounts payable upon the dissolution and liquidation of the DTE Energy Trust;
- affect the limited liability of any holder of its trust securities; or
- restrict the right of a holder of its trust securities to institute suit for the enforcement of any required distribution on or, if applicable, after the due date therefor or for the conversion or exchange of the trust securities in accordance with their terms.

So long as the property trustee holds any debt securities for the DTE Energy Trust, the property trustee, the Delaware trustee and the administrative trustees for the DTE Energy Trust will not:

- direct the time, method and place of conducting any proceeding for any remedy available to the debt securities trustee, or execute any trust or power conferred on the property trustee, with respect to those debt securities;
- waive certain past defaults under the indenture;
- exercise any right to rescind or annul a declaration of acceleration of the maturity of the principal of those debt securities; or
- consent to any amendment, modification or termination of the indenture or those debt securities, where consent is required;

without, in each case, obtaining the prior approval of the holders of a majority in liquidation amount of all outstanding trust preferred securities of the DTE Energy Trust. However, where a consent under the indenture would require the consent of each holder of those debt securities affected thereby, the property trustee will not consent without the prior approval of each holder of the trust preferred securities issued by the DTE Energy Trust. The property trustee, the Delaware trustee and the administrative trustees may not revoke any action previously authorized or approved by a vote of the holders of trust preferred securities except by subsequent vote of the holders. The property trustee will notify each holder of trust preferred securities of any notice of default with respect to the applicable debt securities. In addition to obtaining approvals of holders of trust preferred securities referred to above, prior to taking any of the foregoing actions (other than directing the time, method and place of conducting any proceeding for any remedy available to the debt securities trustee), the property trustee will obtain an opinion of counsel experienced in these matters to the effect that the DTE Energy Trust will not be classified as other than a grantor trust for United States federal income tax purposes on account of such action.

Any required approval of holders of trust preferred securities may be given at a meeting of the holders convened for this purpose or by written consent without prior notice. The administrative trustees will cause a notice of any meeting at which holders of trust preferred securities are entitled to vote to be given to each holder of record of trust preferred securities in the manner set forth in the trust agreement.

Notwithstanding that holders of trust preferred securities are entitled to vote or consent under any of the circumstances referred to above, any trust preferred securities that are owned by DTE Energy or any affiliate of DTE Energy will, for purposes of this vote or consent, be treated as if they were not outstanding.

## Table of Contents

### **Global Trust Preferred Securities**

Unless otherwise specified in the applicable prospectus supplement, trust preferred securities will be represented by one or more global certificates deposited with, or on behalf of, DTC, or such other depository identified in the prospectus supplement, or a nominee of DTC or other depository, in each case for credit to an account of a participant in DTC or other depository. See “Book-Entry Securities.”

### **Payment and Paying Agent**

Payments in respect of any global certificate representing trust preferred securities will be made to Cede & Co. as nominee of DTC or other applicable depository or its nominee, which will credit the relevant accounts at DTC or other depository on the applicable payment dates, while payments in respect of trust preferred securities in certificated form will be made by check mailed to the address of the holder entitled thereto as the address will appear on the register. The paying agent will initially be the property trustee and any co-paying agent chosen by the property trustee and acceptable to the administrative trustees and DTE Energy. In the event that the property trustee will no longer be the paying agent, the administrative trustees will appoint a successor, which will be a bank or trust company acceptable to the administrative trustees and DTE Energy, to act as paying agent.

### **Registrar and Transfer Agent**

The property trustee will act as registrar and transfer agent for the trust preferred securities.

Registration of transfers of trust preferred securities will be effected without charge by or on behalf of the DTE Energy Trust, upon payment of any tax or other governmental charges that may be imposed in connection with any transfer or exchange. The DTE Energy Trust will not be required to register or cause to be registered the transfer of its trust preferred securities after they have been converted, exchanged, redeemed, repaid or called for redemption or repayment.

### **Information Concerning the Property Trustee**

The property trustee, other than during the occurrence and continuance of an event of default under the trust agreement, will undertake to perform only the duties that are specifically set forth in the trust agreement and, during the continuance of that event of default, must exercise the same degree of care and skill as a prudent person would exercise or use in the conduct of his or her own affairs. Subject to the foregoing, the property trustee will not be under any obligation to exercise any of the powers vested in it by the trust agreement at the request of any holder of the related trust securities unless the holder offers the property trustee reasonable indemnity satisfactory to it against the costs, expenses and liabilities that it might incur thereby.

### **Miscellaneous**

The administrative trustees are authorized and directed to conduct the affairs of and to operate the DTE Energy Trust in such a way that:

- the DTE Energy Trust will not be deemed to be an investment company required to be registered under the Investment Company Act;
- the DTE Energy Trust will be classified as a grantor trust for United States federal income tax purposes; and
- the debt securities held by the DTE Energy Trust will be treated as indebtedness of DTE Energy for United States federal income tax purposes.

DTE Energy and the administrative trustees are authorized to take any action, not inconsistent with applicable law, the certificate of trust of the DTE Energy Trust or each trust agreement, that the administrative trustees determine in their discretion to be necessary or desirable for those purposes, as long as that action does not materially adversely affect the interests of the holders of the related trust securities.

Holders of trust preferred securities will not have any preemptive or similar rights.

## Table of Contents

### **Accounting Treatment**

For financial reporting purposes, the accounts of the DTE Energy Trust will not be consolidated in our financial statements, but our common equity investment in the DTE Energy Trust as well as our obligation related to the debt securities will be reflected in our consolidated balance sheet. See FASB Interpretation No. 46-R, *Consolidation of Variable Interest Entities, an Interpretation of ARB No. 51* (FIN 46-R). Any required disclosures about the debt securities and the trust preferred securities will be included in the notes to our consolidated financial statements, and we will record payments that we make to the DTE Energy Trust for the debt securities as an expense in determining net income available to common stockholders in our consolidated statement of income. We do not expect that the DTE Energy Trust will be filing annual, quarterly or current reports with the SEC.

### **DESCRIPTION OF TRUST PREFERRED SECURITIES GUARANTEE**

DTE Energy will execute and deliver a guarantee concurrently with the issuance by the DTE Energy Trust of its trust preferred securities for the benefit of the holders from time to time of those trust preferred securities. The guarantee will be held for those holders by a guarantee trustee. DTE Energy will qualify the guarantee as an indenture under the Trust Indenture Act. The guarantee will be subject to, and governed by, the Trust Indenture Act. This summary of certain terms and provisions of the guarantee does not purport to be complete and is subject to, and qualified in its entirety by reference to, all of the provisions of the guarantee, including the definitions of terms, and those made a part of the guarantee by the Trust Indenture Act. A form of guarantee is filed as an exhibit to the registration statement that includes this prospectus. If indicated in the applicable prospectus supplement, the terms of a particular guarantee may differ from the terms discussed below.

#### **General**

Pursuant to and to the extent set forth in the guarantee, DTE Energy will irrevocably and unconditionally agree to pay in full the guarantee payments to the holders of the related trust preferred securities, as and when due, regardless of any defense, right of set-off or counterclaim that the DTE Energy Trust may have or assert. The following payments constitute guarantee payments with respect to trust preferred securities and, to the extent not paid by or on behalf of the DTE Energy Trust, will be subject to the guarantee:

- any accumulated and unpaid distributions that are required to be paid on the applicable trust preferred securities, to the extent that the DTE Energy Trust has funds legally available therefor at such time;
- the applicable redemption or repayment price and all accumulated and unpaid distributions to the date of redemption or repayment with respect to the trust preferred securities called for redemption or repayment, to the extent that the DTE Energy Trust has funds legally available therefor at such time; or
- upon a voluntary or involuntary dissolution and liquidation of the DTE Energy Trust, other than in connection with the distribution of the debt securities to holders of its trust preferred securities or the redemption, repayment, conversion or exchange of its trust preferred securities, if applicable, the lesser of:
  - the aggregate of the liquidation amount and all accumulated and unpaid distributions on the trust preferred securities to the date of payment, to the extent the DTE Energy Trust has funds available therefor, and
  - the amount of assets of the DTE Energy Trust remaining available for distribution to holders of its trust preferred securities in liquidation of the DTE Energy Trust.

DTE Energy's obligation to make a guarantee payment may be satisfied by direct payment of the required amounts by DTE Energy to the holders of the applicable trust preferred securities entitled to those payments or by causing the DTE Energy Trust to pay those amounts to the holders.

If the trust preferred securities are exchangeable or convertible into other securities, DTE Energy will also irrevocably agree to cause the DTE Energy Trust to deliver to holders of those trust preferred securities those other securities in accordance with the applicable exchange or conversion provisions.

DTE Energy will, through the guarantee, the applicable trust agreement, the related debt securities and the applicable indenture, taken together, fully, irrevocably and unconditionally guarantee all of the DTE Energy Trust's

## Table of Contents

obligations under its trust preferred securities. No single document standing alone or operating in conjunction with fewer than all of the other documents constitutes a guarantee. It is only the combined operation of these documents that has the effect of providing a full, irrevocable and unconditional guarantee of the DTE Energy Trust's obligations under its trust preferred securities.

### **Ranking**

Unless otherwise specified in the applicable prospectus supplement, the guarantee will constitute an unsecured obligation of DTE Energy and will rank equal to the debt securities held by the DTE Energy Trust that issued the trust preferred securities covered by the guarantee and senior to DTE Energy common stock. The trust agreement provides that each holder of trust preferred securities, by acceptance of the trust preferred securities, agrees to the terms of the related guarantee, including any subordination provisions.

The guarantee will not limit the amount of secured or unsecured debt, including indebtedness under the indenture, that may be incurred by DTE Energy or any of its subsidiaries.

### **Guarantee of Payment**

The guarantee will constitute a guarantee of payment and not of collection. This means that the guaranteed party may institute a legal proceeding directly against DTE Energy to enforce its rights under the guarantee without first instituting a legal proceeding against any other person or entity. The guarantee will not be discharged except by payment of the related guarantee payments in full to the extent not paid by the DTE Energy Trust or upon distribution of the debt securities or other assets held by the DTE Energy Trust to the holders of the its trust preferred securities.

### **Amendments and Assignment**

Except with respect to any changes that do not materially adversely affect the rights of holders of the related trust preferred securities, in which case no approval will be required, the guarantee may not be amended without the prior approval of the holders of a majority of the liquidation amount of the outstanding trust preferred securities covered by that guarantee. The manner of obtaining any approval will be as set forth under "Description of Trust Preferred Securities — Voting Rights; Amendment of a Trust Agreement." The guarantee and all agreements contained in the guarantee will bind the successors, assigns, receivers, trustees and representatives of DTE Energy and will inure to the benefit of the holders of the related trust preferred securities then outstanding.

### **Events of Default**

An event of default under the guarantee will occur upon the failure of DTE Energy to perform any of its payment or other obligations under that guarantee. Within 90 days after the occurrence of an event of default actually known to the guarantee trustee, the guarantee trustee will transmit notice of that event of default to the holders of the trust preferred securities of the DTE Energy Trust, unless the event of default shall have been cured or waived. However, except with respect to a default in respect of any guarantee payment or delivery of any securities upon conversion or exchange, the guarantee trustee may withhold such notice if and so long as the guarantee trustee in good faith determines the withholding of such notice is in the interests of the holders of the related trust preferred securities. The holders of a majority in liquidation amount of the trust preferred securities covered by the guarantee will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the guarantee trustee in respect of that guarantee or to direct the exercise of any trust or power conferred upon the guarantee trustee under that guarantee.

If the guarantee trustee fails to enforce the guarantee, any holder of the related trust preferred securities may institute a legal proceeding directly against DTE Energy to enforce its rights under the guarantee without first instituting a legal proceeding against the DTE Energy Trust, the guarantee trustee or any other person or entity.

## Table of Contents

### **Termination**

The guarantee will terminate and be of no further force and effect upon full payment of the applicable redemption or repayment price of the related trust preferred securities, upon full payment of all amounts or delivery of all securities or other property due upon the dissolution and liquidation of the DTE Energy Trust or upon the conversion or exchange of all of the related trust preferred securities. The guarantee will continue to be effective or will be reinstated, as the case may be, if at any time any holder of the related trust preferred securities must restore payment of any sums paid or other property distributed under those trust preferred securities or the related guarantee.

### **Information Concerning the Guarantee Trustee**

The Bank of New York Trust Company, N.A. will be the guarantee trustee under the guarantee.

The guarantee trustee, other than during the occurrence and continuance of a default by DTE Energy in performance of the guarantee, will undertake to perform only the duties that are specifically set forth in the guarantee and, during the continuance of that default, must exercise the same degree of care and skill as a prudent person would exercise or use in the conduct of his or her own affairs. Subject to the foregoing, the guarantee trustee will not be under any obligation to exercise any of the powers vested in it by the guarantee at the request of any holder of the related trust preferred securities unless it is offered reasonable indemnity against the costs, expenses and liabilities that it might incur.

### **Rights Upon Dissolution**

Unless the debt securities held by the DTE Energy Trust are distributed to holders of the related trust preferred securities, upon any voluntary or involuntary dissolution and liquidation of the DTE Energy Trust, after satisfaction of the liabilities of its creditors as required by applicable law, the holders of those trust preferred securities will be entitled to receive, out of assets held by the DTE Energy Trust, the liquidation distribution in cash. Upon any voluntary or involuntary liquidation or bankruptcy of DTE Energy, the property trustee, as holder of the debt securities, would be a creditor of DTE Energy.

### **BOOK-ENTRY SECURITIES**

Unless we otherwise specify in the applicable prospectus supplement, the securities, other than our common stock, will be represented by one or more global securities. Each global security will be deposited with, or on behalf of, The Depository Trust Company (“DTC”) and registered in the name of a nominee of DTC.

Portions of the following information concerning DTC and DTC’s book-entry only system have been obtained from sources that we believe to be reliable. We make no representation as to the accuracy of such information.

DTC, the world’s largest depository, is a limited-purpose trust company organized under the New York Banking Law, a “banking organization” within the meaning of the New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code, and a “clearing agency” registered pursuant to the provisions of Section 17A of the Exchange Act. DTC holds and provides asset servicing for over 2.2 million issues of U.S. and non-U.S. equity, corporate and municipal debt issues, and money market instruments from over 100 countries that DTC’s participants (“Direct Participants”) deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities through electronic computerized book-entry transfers and pledges between Direct Participants’ accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (“DTCC”). DTCC, in turn, is owned by a number of Direct Participants of DTC and Members of the National Securities Clearing Corporation, Fixed Income Clearing Corporation, and Emerging Markets Clearing Corporation (NSCC, FICC, and EMCC, also subsidiaries of DTCC), as well as by the New York Stock Exchange, Inc., the American Stock Exchange LLC, and the National Association of Securities Dealers, Inc. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks,

## Table of Contents

trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (“Indirect Participants”). DTC has Standard & Poor’s highest rating: AAA. The DTC Rules applicable to its Participants are on file with the SEC. More information about DTC can be found at [www.dtcc.com](http://www.dtcc.com) and [www.dtc.org](http://www.dtc.org).

Purchases of securities under the DTC system must be made by or through Direct Participants, which will receive a credit for the securities on DTC’s records. The ownership interest of each actual purchaser of each security (“Beneficial Owner”) is in turn to be recorded on the Direct and Indirect Participants’ records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the securities are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in securities, except in the event that use of the book-entry system for the securities is discontinued.

To facilitate subsequent transfers, all securities deposited by Direct Participants with DTC are registered in the name of DTC’s partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of securities with DTC and their registration in the name of Cede & Co. or such other nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the securities; DTC’s records reflect only the identity of the Direct Participants to whose accounts such securities are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Redemption notices shall be sent to DTC. If less than all of the securities within an issue are being redeemed, DTC’s practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. (nor such other DTC nominee) will consent or vote with respect to the securities unless authorized by a Direct Participant in accordance with DTC’s Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to us as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.’s consenting or voting rights to those Direct Participants to whose accounts the Securities are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Redemption proceeds, distributions, and dividend payments on the securities will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC’s practice is to credit Direct Participants’ accounts, upon DTC’s receipt of funds and corresponding detail information from us on payable date in accordance with their respective holdings shown on DTC’s records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in “street name,” and will be the responsibility of such Participant and not of DTC nor its nominee, DTE Energy, the DTE Energy Trust, or the trustees, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of redemption proceeds, distributions, and dividend payments to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of DTE Energy, the DTE Energy Trust, or the relevant trustee, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as securities depository with respect to the securities at any time by giving reasonable notice to us or the trustee. Under such circumstances, in the event that a successor securities depository is not obtained, certificates representing the securities are required to be printed and delivered.

We may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, certificates representing the securities will be printed and delivered to DTC.

### **PLAN OF DISTRIBUTION**

DTE Energy and the DTE Energy Trust may sell the securities through agents, underwriters or dealers, or directly to one or more purchasers without using underwriters or agents.

DTE Energy and/or the DTE Energy Trust may designate one or more agents to sell the securities. Unless otherwise stated in a prospectus supplement, the agents will agree to use their reasonable efforts to solicit purchases for the period of their appointment or to sell securities on a continuing basis.

If DTE Energy and/or the DTE Energy Trust uses underwriters for a sale of securities, the underwriters will acquire the securities for their own account. The underwriters may resell the securities in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. The underwriters may sell the securities directly or through underwriting syndicates represented by managing underwriters. Unless otherwise stated in a prospectus supplement, the obligations of the underwriters to purchase the securities will be subject to the conditions set forth in the applicable underwriting agreement. The underwriters will be obligated to purchase all the securities offered if any of those securities are purchased. If DTE Energy or the DTE Energy Trust uses a dealer in the sale, it will sell the securities to the dealer as principal. The dealer may then resell those securities at varying prices determined at the time of resale. Any initial public offering price and any discounts or concessions allowed or re-allowed or paid to dealers will be described in the applicable prospectus supplement and may be changed from time to time.

Underwriters, dealers and agents that participate in the distribution of the securities may be underwriters as defined in the Securities Act and any discounts or commissions they receive from DTE Energy and/or the DTE Energy Trust and any profit on their resale of the securities may be treated as underwriting discounts and commissions under the Securities Act. The applicable prospectus supplement will identify any underwriters, dealers or agents and will describe their compensation. DTE Energy and the DTE Energy Trust may have agreements with the underwriters, dealers and agents to indemnify them against certain civil liabilities, including liabilities under the Securities Act. Underwriters, dealers and agents may engage in transactions with or perform services for us or our subsidiaries in the ordinary course of their businesses.

### **Trading Markets and Listing of Securities**

Unless otherwise specified in the applicable prospectus supplement, each class or series of securities will be a new issue with no established trading market, other than the common stock, which is listed on the New York Stock Exchange. DTE Energy and the DTE Energy Trust may elect to list any other class or series of securities on any exchange but is not obligated to do so. It is possible that one or more underwriters may make a market in a class or series of securities, but the underwriters will not be obligated to do so and may discontinue any market making at any time without notice. Neither DTE Energy nor the DTE Energy Trust can give any assurance as to the liquidity of the trading market for any of the securities.

### **Stabilization Activities**

Any underwriter may engage in over-allotment, stabilizing transactions, short-covering transactions and penalty bids in accordance with Regulation M under the Exchange Act. Over-allotment involves sales in excess of the offering size, which create a short position. Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum. Syndicate-covering transactions involve purchases of the securities in the open market after the distribution is completed to cover syndicate short positions. Penalty bids permit the underwriters to reclaim a selling concession from a dealer when the securities originally sold by the dealer are purchased in a covering transaction to cover syndicate short positions. These stabilizing activities may cause the price of the securities to be higher than it would otherwise be. If commenced, the underwriters may discontinue any of the activities at any time.

### **LEGAL MATTERS**

The validity of the DTE Energy securities and certain other legal matters will be passed upon for DTE Energy by Thomas A. Hughes, Associate General Counsel. Mr. Hughes beneficially owns shares of DTE Energy common

stock and holds options to purchase additional shares. The validity of the securities issued by the DTE Energy Trust and certain matters of Delaware law will be passed upon for the DTE Energy Trust by Richards, Layton & Finger, P.A., special Delaware counsel to the DTE Energy Trust. Except as otherwise set forth in a prospectus supplement, certain legal matters relating to the securities will be passed upon for any underwriters, dealers or agents by Dewey Ballantine LLP, New York, New York. Dewey Ballantine LLP will rely on the opinion of Mr. Hughes with respect to Michigan law and the opinion of Richards, Layton & Finger, P.A. with respect to Delaware law.

Dewey Ballantine LLP has represented, and may in the future continue to represent, us and/or certain of our affiliates as to certain energy regulatory, commercial and other matters unrelated to the offering of securities described in this prospectus.

## **EXPERTS**

The consolidated financial statements, the related financial statement schedule, and management's report on the effectiveness of internal control over financial reporting of DTE Energy Company (the "Company") incorporated in this prospectus by reference from the Company's Annual Report on Form 10-K for the year ended December 31, 2005 have been audited by Deloitte & Touche LLP, an independent registered public accounting firm, as stated in their reports, which are incorporated herein by reference (which reports (1) express an unqualified opinion on the consolidated financial statements and related financial statement schedule and include an explanatory paragraph related to the change in method of accounting for asset retirement obligations in 2005 and change in method of accounting for asset retirement obligations, energy trading contracts, and gas inventories in 2003, (2) express an unqualified opinion on management's assessment regarding the effectiveness of internal control over financial reporting, and (3) express an unqualified opinion on the effectiveness of internal control over financial reporting), and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

## **WHERE YOU CAN FIND MORE INFORMATION**

### **Available Information**

We file annual, quarterly and special reports, and other information with the Securities and Exchange Commission. Our SEC filings are available to the public over the Internet at the SEC's web site at <http://www.sec.gov>. You may also read and copy any document we file at the SEC's public reference room located at 100 F. Street, N.E., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information on the public reference room and copy charges.

You can also inspect reports and other information about DTE Energy at the offices of the New York Stock Exchange, 20 Broad Street, New York, New York 10005.

We maintain a web site at <http://www.dteenergy.com> (which is not intended to be an active hyperlink), that contains information about us. The information on our web site is not incorporated by reference into this prospectus and you should not consider it part of this prospectus.

### **Incorporation by Reference**

The SEC allows us to "incorporate by reference" the information we file with them, which means that we can disclose important information to you by referring you to those documents. The information incorporated by reference is an important part of this prospectus, and information that we file later with the SEC will automatically update and supersede this information. We incorporate by reference the documents listed below and any future filings we make with the SEC under Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act (other than information in such documents that is deemed not to be filed):

- Annual Report on Form 10-K for the year ended December 31, 2005 (including information specifically incorporated by reference into DTE Energy's Form 10-K from DTE Energy's definitive Proxy Statement for its 2006 annual meeting of shareholders filed on March 24, 2006);

## Table of Contents

- Quarterly Report on Form 10-Q for the quarter ended March 31, 2006;
- Quarterly Report on Form 10-Q for the quarter ended June 30, 2006;
- Current Reports on Form 8-K dated January 5, 2006, March 1, 2006, April 27, 2006 (filed May 3, 2006), May 15, 2006 (with respect to Item 8.01 only), May 17, 2006, May 23, 2006 and June 29, 2006;
- Description of DTE Energy common stock on Form 8-B, filed on January 2, 1996; and
- Description of the Rights Agreement on Form 8-A, filed on September 23, 1997.

Each of these documents is available from the SEC's web site and public reference rooms described above. We will provide without charge to each person, including any beneficial owner, to whom a copy of this prospectus is delivered, on the written or oral request of that person, a copy of any or all of the documents incorporated in this prospectus or in any related prospectus supplement by reference, excluding the exhibits to those documents unless the exhibits are specifically incorporated by reference therein. You may make such a request by writing or telephoning DTE Energy Investor Relations at:

DTE Energy Company  
Attention: Investor Relations, 819 WCB  
2000 2<sup>nd</sup> Avenue  
Detroit, Michigan 48226-1279  
(313) 235-8030

There are no separate financial statements of the DTE Energy Trust in this prospectus. We do not believe these financial statements would be material to investors because:

- the DTE Energy Trust is a wholly-owned subsidiary of DTE Energy, which files consolidated financial information under the Exchange Act;
- the DTE Energy Trust will not have any independent operations other than issuing trust preferred securities and trust common securities, purchasing debt securities of DTE Energy and other necessary or incidental activities as described in this prospectus;
- DTE Energy guarantees the trust preferred securities of the DTE Energy Trust;
- no other subsidiary of DTE Energy guarantees the trust preferred securities of the DTE Energy Trust; and
- the guarantee of the DTE Energy Trust by DTE Energy is full and unconditional.
