* Not all funds or share classes of funds from a manager may be offered for purchase at Stifel, or may not be available for purchase in certain account types.

Investors should consider a fund's investment objective, risks, charges, and expenses carefully before investing. The prospectus, which contains this and other important information, is available from your Financial Advisor and should be read carefully before investing. The investment return and principal value of an investment will fluctuate, so that an investor's shares, when redeemed, may be worth more or less than their original cost.
