Forbes' Top Next-Gen Wealth Advisors rankings are based on the opinions of SHOOK Research, LLC and are selected from a pool of nominations. Advisors were rated based on an algorithm of qualitative criteria, mostly gained through telephone and in-person due diligence interviews, and quantitative data. Those advisors that are considered were born in 1982 or later and have a minimum of four years' experience, including at least one year at their current firm. The algorithm weighs factors like revenue trends, assets under management, compliance records, industry experience, and those that encompass the highest standards of best practices.
