The Acquisition of 55 UBS Financial Services Inc. Branches by Stifel Nicolaus
This presentation contains “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995 that involve significant risks, assumptions and uncertainties, including statements relating to the market opportunity and future business prospects of Stifel Financial Corp. and Stifel, Nicolaus and Company, Inc. and its other subsidiaries (collectively, “SF” or the “Company”). These statements can be identified by the use of the words “may,” “will,” “should,” “could,” “would,” “plan,” “potential,” “estimate,” “project,” “believe,” “intend,” “anticipate,” “expect” and similar expressions. In particular, these statements may refer to our goals, intentions and expectations, our business plans and growth strategies, our ability to integrate and manage our acquired businesses, estimates of our risks and future costs and benefits, and forecasted demographic and economic trends relating to our industry.

You should not place undue reliance on any forward-looking statements, which speak only as of the date they were made. We will not update these forward-looking statements, even though our situation may change in the future, unless we are obligated to do so under federal securities laws.

Actual results may differ materially and reported results should not be considered as an indication of future performance. Factors that could cause actual results to differ are included in the Company’s annual and quarterly reports and from time to time in other reports filed by the Company with the Securities and Exchange Commission and include, among other things changes in general economic and business conditions, actions of competitors, regulatory actions, changes in legislation and technology changes.

To supplement our financial statements presented in accordance with GAAP, management uses certain non-GAAP measures of financial performance and liquidity. These non-GAAP measures are in addition to results prepared by the Company in accordance with GAAP, and should only be considered together with the Company’s GAAP results.

(1) Before retention payments/amortization.
What are we paying?

“The transaction is structured as an asset purchase for cash at a premium over certain balance sheet items, subject to adjustments. The payments to UBS include:

• An upfront cash payment of up to approximately $27 million based on the actual number of branches and Financial Advisors acquired by Stifel Nicolaus;

• Annual earn-out payments for the two-year period following the closing of the transaction principally based on the performance of the UBS Financial Advisors who become Stifel Nicolaus employees; and

• Aggregate payments of approximately $19 million for net fixed assets and employee forgivable loans.

The above payments are variable based upon the number of Financial Advisors and branches acquired by Stifel Nicolaus.”
Key Takeaways

- Adds significant capability and an attractive geographic complement to Stifel’s Private Client Business
- Solid Financial terms
- Extends our geographic presence
- Strengthens our brokerage position
- Enhances and accelerates Stifel Bank and Trust strategy
- Accretive in first year
