Methodology

Forbes' America's Top Women Wealth Advisors, April 21, 2020. Rankings are based on the opinions of SHOOK Research, LLC, and were selected from a pool of 32,000 nominations. Advisors in the America's Top Women Wealth Advisors list are judged on individual contribution, but total team assets are shown, which can include one or more additional advisors. Qualifying advisors met the following basic requirements: a minimum of seven years as an advisor, a minimum of one year at their current firm, recommended and nominated by their firm, completion of an online survey, over 50% of their revenue/production must be with individuals, and an acceptable compliance record. The ranking algorithm is based on qualitative measures derived from telephone and in-person interviews and surveys; service models, investing process, client retention, experience levels, review of compliance records, firm nominations, etc.; and quantitative criteria, such as assets under management and revenue generated for their firms. Investment performance is not a criterion. Neither SHOOK Research nor *Forbes* receives compensation from the advisors or their firms in exchange for placement on a ranking. The ranking may not be representative of any one client's experience and is not indicative of the financial advisor's future performance. *Forbes* is a registered trademark of Forbes, Inc.
