

\$200,000,000**X3 Acquisition Corp. Ltd.****20,000,000 Units**

X3 Acquisition Corp. Ltd. is a blank check company incorporated as a Cayman Islands exempted company and formed for the purpose of effecting a merger, amalgamation, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses, which we refer to throughout this prospectus as our initial business combination. We have not selected any business combination target and we have not, nor has anyone on our behalf, engaged in any substantive discussions, directly or indirectly, with any business combination target. Although we currently intend to focus on target businesses in the financial services industry, we may pursue an acquisition opportunity in any business, industry, sector or geographical location.

This is an initial public offering of our securities. Each unit has an offering price of \$10.00 and consists of one Class A ordinary share and one-half of one redeemable warrant. Each whole warrant entitles the holder thereof to purchase one Class A ordinary share at a price of \$11.50 per share, subject to adjustment as described herein. Only whole warrants are exercisable. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. The warrants will become exercisable 30 days after the completion of our initial business combination and will expire five years after the completion of our initial business combination or earlier upon redemption or our liquidation, as described herein. The underwriters have a 45-day option from the date of this prospectus to purchase up to an additional 3,000,000 units to cover over-allotments, if any.

We will provide our public shareholders with the opportunity to redeem, regardless of whether they abstain, vote for, or vote against, our initial business combination, all or a portion of their Class A ordinary shares that were sold as part of the units in this offering, which we refer to collectively as our public shares, upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account described below as of two business days prior to the consummation of our initial business combination, including interest earned on the funds held in the trust account, less taxes payable, divided by the number of then outstanding public shares, subject to the limitations and on the conditions described herein. The proceeds placed in the trust account and the interest earned thereon will not be used to pay for possible excise tax or any other similar fees or taxes that may be levied on us pursuant to any current, pending or future rules or laws, including without limitation any excise tax due under the Inflation Reduction Act of 2022, for any redemptions or repurchases by us. See **“Summary — The Offering — Redemption rights for public shareholders upon completion of our initial business combination”** and **“Summary — The Offering — Redemption of public shares and distribution and liquidation if no initial business combination”** for more information.

Notwithstanding the foregoing redemption rights, if we seek shareholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated memorandum and articles of association provide that a public shareholder, together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a “group” (as defined under Section 13 of the U.S. Securities Exchange Act of 1934, as amended (the “Exchange Act”), will be restricted from redeeming its shares with respect to more than an aggregate of 15% of the shares sold in this offering without our prior consent. However, we would not be restricting our shareholders’ ability to vote all of their shares (including all shares held by those shareholders that hold more than 15% of the shares sold in this offering) for or against our initial business combination. See **“Summary — The Offering — Limitation on redemption rights of shareholders holding 15% or more of the shares sold in this offering if we hold shareholder vote”** for further discussion of certain limitations on redemption rights.

Our sponsor, X3 Acquisition Management LLC, has committed to purchase an aggregate of 5,000,000 private warrants (or 5,450,000 private warrants if the over-allotment option is exercised in full) at a price of \$1.00 per warrant for an aggregate purchase price of \$5,000,000 (or \$5,450,000 if the over-allotment option is exercised in full). Each private warrant will be identical to the public warrants sold as part of the units in this offering, except as described in this prospectus. The private warrants will be sold in a private placement that will close simultaneously with the closing of this offering, including the over-allotment option, as applicable.

On August 18, 2025, the Company issued to our sponsor 5,750,000 Class B ordinary shares for an aggregate purchase price of \$25,000, or \$0.004 per share, up to 750,000 of which are subject to forfeiture by the holders thereof depending on the extent to which the underwriters' over-allotment option is exercised. The Class B ordinary shares will automatically convert into Class A ordinary shares concurrently with or immediately following the consummation of our initial business combination, or at any time prior thereto at the option of the holder thereof, on a one-for-one basis, subject to adjustment as provided herein. Because our sponsor acquired the Class B ordinary shares at a nominal price, our public shareholders will incur an immediate and substantial dilution upon the closing of this offering, assuming no value is ascribed to the warrants included in the units. In the case that additional Class A ordinary shares, or equity-linked securities (as described herein), are issued or deemed issued in excess of the amounts issued in this offering and related to the closing of our initial business combination, the ratio at which the Class B ordinary shares will convert into Class A ordinary shares will be adjusted (unless the holders of a majority of the issued and outstanding Class B ordinary shares agree to waive such anti-dilution adjustment with respect to any such issuance or deemed issuance) so that the number of Class A ordinary shares issuable upon conversion of all Class B ordinary shares will equal, in the aggregate, approximately 20% of the sum of (i) the total number of all Class A ordinary shares outstanding upon the completion of this offering (including any Class A ordinary shares issued pursuant to the underwriters' over-allotment option), plus (ii) all Class A ordinary shares and equity-linked securities issued or deemed issued, in connection with the closing of the initial business combination (excluding any shares or equity-linked securities issued, or to be issued, to any seller in the initial business combination and any units issued to our sponsor or any of its affiliates or to our officers or directors upon conversion of working capital loans) minus (iii) any redemptions of Class A ordinary shares by public shareholders in connection with an initial business combination; provided that such conversion of founder shares will never occur on a less than one-for-one basis. As a result, the Class A ordinary shares issuable in connection with the conversion of the founder shares may result in material dilution to our public shareholders due to the anti-dilution rights of our founder shares that may result in an issuance of Class A ordinary shares on a greater than one-to-one basis upon conversion.

Prior to the closing of our initial business combination, only holders of our Class B ordinary shares (i) will have the right to vote to appoint and remove directors prior to the completion of our initial business combination; and (ii) will be entitled to vote on continuing our company in a jurisdiction outside the Cayman Islands (including any special resolution required to adopt new constitutional documents as a result of our approving a transfer by way of continuation in a jurisdiction outside the Cayman Islands). On any other matters submitted to a vote of our shareholders prior to or in connection with the completion of our initial business combination, holders of the Class B ordinary shares and holders of the Class A ordinary shares will vote together as a single class, except as required by law. See **"Summary — Sponsor Information," "Summary — The Offering — Founder Shares," "Summary — The Offering — Transfer Restrictions on Founder Shares," and "Summary — The Offering — Founder Shares Conversion and Anti-Dilution Rights"** and **"Risk Factors — Risks Relating to Our Securities — The nominal purchase price paid by our sponsor for the founder shares may result in significant dilution to the implied value of your public shares upon the consummation of our initial business combination, and our sponsor is likely to make a substantial profit on its investment in us in the event we consummate an initial business combination, even if the business combination causes the trading price of our ordinary shares to materially decline"** for further discussion of our sponsor's and our affiliates' securities and compensation.

The low price that our sponsor, executive officers and directors (directly or indirectly) paid for the founder shares creates an incentive whereby our officers and directors could potentially make a substantial profit even if we select an acquisition target that subsequently declines in value and is unprofitable for public shareholders. If we are unable to complete our initial business combination within 24 months from the closing of this offering (as may be extended by shareholder approval to amend our amended and restated memorandum and articles of association to extend the date by which we must consummate our initial business combination), or by such earlier liquidation date as our board of directors may approve, the founder shares and private warrants will expire worthless, except to the extent they receive liquidating distributions from assets outside the trust account, which could create an incentive for our sponsor, executive officers and directors to complete a transaction even if we select an acquisition target that subsequently declines in value and is unprofitable for public shareholders. Further, each of our officers and directors may have a conflict of interest with respect to evaluating a particular business combination if the retention or resignation of any such officers and directors was included by a target business as a condition to any agreement with respect to our initial business combination. Our public shareholders may experience material dilution from the exercise of the 5,000,000 private warrants into 5,000,000 Class A ordinary shares (or up to 5,450,000 private warrants exercisable into 5,450,000 Class A ordinary shares if the underwriters' over-allotment option is exercised in full). Additionally, our public shareholders may experience material dilution if the \$1,500,000 in working capital loans is fully advanced by the sponsor and the sponsor elects to convert the working capital loans into private warrants at \$1.00 per warrant, resulting in the sponsor receiving an additional 1,500,000 private warrants. The private warrants are exercisable on a cashless basis and, if exercised on such cashless basis, may result in material dilution to our public shareholders. Upon consummation of this offering or thereafter, we will repay up to \$400,000 in loans made to us by our sponsor to cover offering-related and organizational expenses, and we will begin paying an affiliate of our sponsor \$10,000 per month (the "administrative services fee") for office space, utilities and secretarial and administrative support. In the event that following this offering we obtain working capital loans from our sponsor or any of its affiliates or from our officers or directors to finance transaction costs related to our initial business combination, up to \$1,500,000 of such loans may be convertible into private warrants of the post-business combination entity at a price of \$1.00 per warrant at the option of our sponsor.

If we agree to pay our sponsor, officers or directors, advisors, or our or their affiliates a finder's fee, advisory fee, consulting fee or success fee in order to effectuate the completion of our initial business combination, such persons may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination as any such fee may not be paid unless we consummate such business combination. We may also engage our sponsor or an affiliate of our sponsor as an advisor or otherwise in connection with our initial business combination and certain other transactions and pay such person or entity a salary or fee in an amount that constitutes a market standard for comparable transactions. Any such salary or fee would be paid using available working capital funds (including proceeds from any promissory notes issued by us and funds released from the trust account upon completion of our initial business combination), but would not in any event be paid out of the administrative services fee. As of the date of this prospectus, no arrangements are currently in place with respect to the payment of any finder's fee, advisory fee, consulting fee or success fee in order to effectuate the completion of our initial business combination, or with respect to the payment of a salary or other fee to our sponsor or an affiliate of our sponsor as an advisor or otherwise in connection with our initial business combination or any other transaction. Additionally, following consummation of a business combination, members of our management team will be entitled to reimbursement for any out-of-pocket expenses related to identifying, investigating and completing an initial business combination. As a result, there may be actual or potential material conflicts of interest between members of our management team, our sponsor and its affiliates on the one hand, and purchasers in this offering on the other. In addition to the foregoing, our officers and directors will receive indirect interests in the founder shares held by the sponsor as compensation for their services as officers and directors of the Company. Our Chairman and Chief Executive Officer, Andrew J. Redleaf, will receive an indirect interest in up to 3,913,000 founder shares through membership interests in our sponsor, our Chief Operating Officer and Chief Financial Officer, Kenneth J. Weiller, will receive an indirect interest in up to 335,400 founder shares through membership interests in our sponsor, our Executive Vice President and Secretary, Chris Bemis, will receive an indirect interest in up to 335,400 founder shares through membership interests in our sponsor, and our Head of Capital Markets, Toby Maitland Hudson, will receive an indirect interest in up to 838,500 founder shares through membership interests in our sponsor. In addition, our independent directors will receive for their services as a director an indirect interest in the founder shares through membership interests in our sponsor. William N. Goetzmann, David H. Lui, Nicholas H. Smith and Jeffrey H. von Gillern will each receive an indirect interest in 40,000 founder shares through membership interests in our sponsor. As a result of their indirect interest in the founder shares through membership interests in our sponsor, our management team may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination. As a result, there may be actual or potential material conflicts of interest between our sponsor and its affiliates on the one hand, and purchasers in this offering on the other hand. **See "Summary — Sponsor Information," "Summary — Conflicts of Interest," "Risk Factors — Risks Relating to Our Search for, and Consummation of or Inability to Consummate, a Business Combination — Since our sponsor, officers and directors, and any other holders of our founder shares may lose their entire investment in us if our initial business combination is not completed (other than with respect to public shares they may acquire during or after this offering), a conflict of interest may arise in determining whether a particular business combination target is appropriate for our initial business combination" and "Management — Conflicts of Interest" for more information.**

We have until the date that is 24 months from the closing of this offering (as may be extended by shareholder approval to amend our amended and restated memorandum and articles of association to extend the date by which we must consummate our initial business combination) or until such earlier liquidation date as our board of directors may approve, to consummate our initial business combination. If we anticipate that we may be unable to consummate our initial business combination within such 24-month period, we may seek shareholder approval to amend our amended and restated memorandum and articles of association to extend the date by which we must consummate our initial business combination. There are no limitations on the number of times we may seek shareholder approval for an extension or the length of time of any such extension. However, if we seek shareholder approval for an extension, holders of public shares will be offered an opportunity to redeem their shares at a per share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned thereon (less taxes payable), divided by the number of then issued and outstanding public shares, subject to applicable law. If we are unable to complete our initial business combination within 24 months from the closing of this offering, or by such earlier liquidation date as our board of directors may approve, we will redeem 100% of the public shares at a per share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned thereon (less taxes payable and up to \$100,000 of interest income to pay dissolution expenses), divided by the number of then issued and outstanding public shares, subject to applicable law as further described herein.

We have been approved to list our units on the Global Market tier of The Nasdaq Stock Market LLC, or Nasdaq, under the symbol “XCBEU,” promptly after the date of this prospectus. We expect the Class A ordinary shares and warrants comprising the units to begin separate trading on the 52nd day following the date of this prospectus unless Stifel, Nicolaus & Company, Incorporated (“Stifel”), the lead representative of the underwriters, informs us of its decision to allow earlier separate trading, subject to our satisfaction of certain conditions as described further herein. Once the securities comprising the units begin separate trading, we expect that the Class A ordinary shares and warrants will be listed on Nasdaq under the symbols “XCBE” and “XCBEW,” respectively.

We are an “emerging growth company” and a “smaller reporting company” under applicable federal securities laws and will be subject to reduced public company reporting requirements. Investing in our securities involves a high degree of risk. See “Risk Factors” beginning on page 40 for a discussion of information that should be considered in connection with an investment in our securities. Investors will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings.

Neither the U.S. Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

No offer or invitation, whether directly or indirectly, is being or may be made to the public in the Cayman Islands to subscribe for any of our securities.

	Per Unit		Total
Public offering price	\$	10.00	\$ 200,000,000
Underwriting discounts and commissions ⁽¹⁾	\$	0.40	\$ 8,000,000
Proceeds, before expenses, to us	\$	9.60	\$ 192,000,000

- (1) Includes \$0.15 per unit, or \$3,000,000 in the aggregate (or \$3,450,000 in the aggregate if the underwriters’ over-allotment option is exercised in full), payable to the underwriters upon the closing of this offering. Also includes \$0.25 per unit, or up to \$5,000,000 in the aggregate (or \$5,750,000 in the aggregate if the underwriters’ over-allotment option is exercised in full), payable to the underwriters based on the total amount of funds remaining in the trust account after redemptions of public shares; provided that the underwriters have agreed to waive their rights to the deferred underwriting commissions if the trust account is less than \$70 million on the closing date of the initial business combination. See “Underwriting” for a description of compensation and other items of value payable to the underwriters.

Of the proceeds we receive from this offering and the sale of the private warrants described in this prospectus, \$200,000,000, or \$230,000,000 if the underwriters' over-allotment option is exercised in full (\$10.00 per unit in either case), will be placed in a U.S.-based trust account with Continental Stock Transfer & Trust Company acting as trustee.

The following table illustrates the difference between the public offering price per unit and our net tangible book value per share ("NTBV"), as adjusted to give effect to this offering and assuming the redemption of our public shares at varying levels and the exercise in full and no exercise of the over-allotment option. See **"Dilution" for more information.**

Our sponsor and members of our management team will directly or indirectly own our securities following this offering, and accordingly, they may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination. Additionally, each of our officers and directors presently has, and any of them in the future may have additional, fiduciary, contractual or other obligations or duties to one or more other entities pursuant to which such officer or director is or will be required to present a business combination opportunity to such entities. As a result, there may be actual or potential material conflicts of interest between our sponsor and our management team and their respective affiliates on the one hand, and purchasers in this offering on the other. See **"Summary — Conflicts of Interest," "Proposed Business — Sourcing of Potential Business Combination Targets" and "Management — Conflicts of Interest" for more information.**

The underwriters are offering the units for sale on a firm commitment basis. The underwriters expect to deliver the units to the purchasers on or about January 22, 2026.

SUMMARY

This summary only highlights the more detailed information appearing elsewhere in this prospectus. As this is a summary, it does not contain all of the information that you should consider in making an investment decision. You should read this entire prospectus carefully, including the information under "Risk Factors" and our financial statements and the related notes included elsewhere in this prospectus, before investing.

Unless otherwise stated in this prospectus or the context otherwise requires, references to:

- *"we," "us," "company" or "our company" are to X3 Acquisition Corp. Ltd., a Cayman Islands exempted company;*
- *"amended and restated memorandum and articles of association" are to the amended and restated memorandum and articles of association that the company has adopted prior to the consummation of this offering;*
- *"Stifel" are to Stifel, Nicolaus & Company, Incorporated, the sole book-running manager for the offering;*
- *"Class A ordinary shares" are to our Class A ordinary shares in the capital of the company with a par value of \$0.0001 per share;*
- *"Class B ordinary shares" are to our Class B ordinary shares in the capital of the company with a par value of \$0.0001 per share;*
- *"Companies Act" are to the Companies Act (As Revised) of the Cayman Islands;*
- *"completion window" are to (i) the period ending on the date that is 24 months from the closing of this offering, or such earlier liquidation date as our board of directors may approve, in which we must complete an initial business combination or (ii) such other time period in which we must complete an initial business combination pursuant to an amendment and restatement to our amended and restated memorandum and articles of association. Our shareholders can also vote at any time to amend and restate our amended and restated memorandum and articles of association to modify the amount of time we will have to complete an initial business combination, in which case our public shareholders will be offered an opportunity to redeem their public shares;*
- *"founder shares" are to Class B ordinary shares initially purchased by our sponsor in a private placement prior to this offering and the Class A ordinary shares that will be issued upon the automatic conversion of the Class B ordinary shares concurrently with or immediately following the consummation of our initial business combination or earlier at the option of the holders thereof as described herein (for the avoidance of doubt, such Class A ordinary shares will not be "public shares");*
- *"initial shareholders" are to our sponsor and any other holders of our founder shares immediately prior to this offering;*
- *"Investment Company Act" are to the U.S. Investment Company Act of 1940, as amended;*
- *"management" or our "management team" are to our officers and directors;*
- *"ordinary resolution" are to a resolution of the company passed by a simple majority of the shareholders as, being entitled to do so, vote in person or, where proxies are allowed, by proxy at a general meeting of the company, or a unanimous written resolution of all of the shareholders entitled to vote on such matter (or such lower threshold as may be allowed under the Companies Act from time to time);*
- *"ordinary shares" are to our Class A ordinary shares and our Class B ordinary shares;*
- *"over-allotment option" are to the underwriters' 45-day option to purchase up to an additional 3,000,000 units to cover over-allotments, if any;*
- *"private warrants" are to the warrants issued to our sponsor in a private placement simultaneously with the closing of this offering;*

- “public shares” are to Class A ordinary shares sold as part of the units in this offering (whether they are purchased in this offering or thereafter in the open market), and does not include any founder shares;
- “public shareholders” are to the holders of our public shares, including our initial shareholders and our management team to the extent our initial shareholders or members of our management team purchase public shares, provided that the each initial shareholder’s or member of our management team’s status as a “public shareholder” will only exist with respect to such public shares;
- “public warrants” are to the warrants sold as part of the units in this offering (whether they are purchased in this offering or thereafter in the open market);
- “special resolution” are to a resolution of the company approved by either (i) the affirmative vote of at least two-thirds (2/3) (or such higher approval threshold as specified in the company’s amended and restated memorandum and articles of association) of the company’s shareholders who, being entitled to do so, attend and vote (whether in person or by proxy) at a general meeting of the company of which notice specifying the intention to propose the resolution as a special resolution has been duly given, or (ii) a unanimous written resolution of all of the company’s shareholders entitled to vote on such matter;
- “SPACs” are to special purpose acquisition companies;
- “sponsor” are to X3 Acquisition Management LLC, a Delaware limited liability company, which was recently formed to invest in our company; X Cubed Capital Management LLC is the sole member of the sponsor; X Cubed Capital Management LLC is controlled by Andrew J. Redleaf;
- “warrants” are to our public warrants, private warrants and working capital warrants, if any;
- “warrant exercise date” are to the date on which the warrants will become exercisable, which is 30 days after the completion of our initial business combination;
- “warrant expiration date” are to the date on which the warrants expire, which is five years after the completion of our initial business combination or earlier upon redemption or liquidation; and
- “working capital warrants” are to the warrants issuable upon conversion of working capital loans; and

Any conversion of the Class B ordinary shares described in this prospectus will take effect as a compulsory redemption of Class B ordinary shares and an issuance of Class A ordinary shares as a matter of Cayman Islands law.

Any forfeiture of shares, and all references to forfeiture of shares, described in this prospectus shall take effect as a surrender of shares for no consideration as a matter of Cayman Islands law. Any share dividend described in this prospectus will take effect as a share capitalization as a matter of Cayman Islands law (that is, an issuance of shares from share premium).

Unless we tell you otherwise, the information in this prospectus assumes that the underwriters will not exercise their over-allotment option.

OUR COMPANY

Overview

We are a newly organized blank check company incorporated as an exempt company under the laws of the Cayman Islands for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization, or similar business combination with one or more businesses, which we refer to throughout this prospectus as our initial business combination. To date, our efforts have been limited to organizational activities as well as activities related to this offering. We have not selected any specific business combination target and we have not, nor has anyone on our behalf, engaged in any substantive discussions, directly or indirectly, with any business combination target.

While we may pursue an acquisition in any industry or sector, we intend to focus our efforts on identifying businesses within the financial services industry. This includes a broad range of opportunities, such as traditional financial institutions, community and regional banks, asset and wealth management firms, specialty finance companies, and other businesses providing critical financial products and services. We may also consider companies that are leveraging technology to enhance or transform financial services. However, we remain flexible and open to evaluating opportunities outside of these areas if we believe they present compelling value for our shareholders.

Our Strategy

Our strategy is to identify and partner with a business that is well-positioned to benefit from the capital, strategic guidance, and public market access that we can provide. We aim to work closely with management teams to accelerate growth, enhance operational performance, and position the business for long-term success.

We are particularly focused on companies at an inflection point—those undergoing transformation, adapting to evolving market dynamics, or pursuing strategic initiatives to scale. Our team's deep expertise in financial services, capital markets, and operational execution positions us to support businesses through these transitions and help them thrive as public companies.

Target Business Criteria

We intend to focus on businesses that exhibit strong fundamentals, scalable business models, and the potential for long-term value creation. Specifically, we will prioritize companies that meet one or more of the following criteria:

- **Established Market Presence:** Companies with a proven operating history, strong customer relationships, and a defensible competitive position.
- **Strong people, processes and culture**
- **Attractive Financial Profile:** Businesses with recurring revenue streams, robust cash flow generation, and potential for margin expansion.
- **Scalable Business Model:** Opportunities for growth through organic initiatives, strategic acquisitions, or operational improvements.
- **Will benefit from having a public currency to enhance its ability to grow organically or through M&A**
- **Sector Relevance:** Operations within or adjacent to the financial services industry, including traditional institutions and technology-driven platforms.
- **May benefit from X Cubed public markets experience and market data**

While our primary focus is on financial services, we remain open to evaluating opportunities in other sectors that meet our investment criteria and offer significant potential for value creation.

Industry Opportunity

The financial services industry represents a significant and evolving segment of the global economy, and continues to undergo significant transformation driven by shifting consumer expectations, technological innovation, regulatory developments, and industry consolidation.

Community and regional banks, for example, are navigating increased competition, margin compression, and the imperative for digital transformation. Similarly, asset and wealth management firms are consolidating to achieve scale, diversify offerings, and enhance profitability. Specialty finance and fintech companies are leveraging technology to disrupt traditional models and capture market share.

We believe the ongoing transformation of the financial services industry presents a compelling and diverse pipeline of potential business combination opportunities. Structural shifts—driven by technological innovation, evolving customer expectations, regulatory developments, and industry consolidation—are creating fertile ground for companies that are agile, forward-thinking, and well-positioned to capitalize on these changes. Our approach is not limited to a single segment of the financial services ecosystem. We intend to evaluate a wide spectrum of businesses, including traditional financial institutions, asset and wealth management firms, specialty finance providers, and technology-enabled financial platforms. By maintaining a broad perspective, we aim to identify and partner with businesses that demonstrate strong fundamentals, scalable business models, and the potential to generate long-term value as public entities.

Management and Competitive Strengths

Our management team brings over a century of collective experience across blue chip financial institutions, hedge funds, academia, and regulatory bodies. This diverse background equips us with a unique combination of investment acumen, operational expertise, and strategic vision to identify, evaluate, and execute on complex opportunities in the financial services and technology sectors.

Our team's collective experience includes leadership roles at leading institutions such as Millennium, JP Morgan, Credit Suisse, Saba Capital, Whitebox, SAC Capital, Citicorp, Bankers Trust, and the Federal Reserve Bank of New York. This breadth of experience provides us with a robust network and a deep understanding of market structure, risk management, and investment strategy.

We believe our structural advantage lies in our cross-asset focus and our ability to identify opportunities in the seams between markets—areas often overlooked by segmented credit pods at large multi-managers and specialist credit managers. Our approach is anchored in a deep quantitative understanding of dislocations within and across capital structures, enabling us to offer consistent, alpha-driven, and diversifying capital appreciation.

Our Management Team

Our management team is led by Andrew J. Redleaf, our Chairman and Chief Executive Officer, Kenneth J. Weiller, our Chief Operating Officer and Chief Financial Officer, Chris Bemis, our Executive Vice President and Secretary, and Toby Maitland Hudson, our Head of Capital Markets.

Andrew J. Redleaf is Chairman and Chief Executive Officer of the Company. Mr. Redleaf's career spans several decades from his early work pioneering the use of quantitative methodologies to trade options. He focused his attention on the applied understanding of pricing between markets rather than in isolation to identify opportunities in market structure and behavioral eccentricities, which has become the cornerstone of his investment philosophy. Mr. Redleaf has served as Founder and Head of Portfolio Allocation and Strategy of X Cubed Capital Management LLC since 2021. He has launched funds including Deephaven Market Neutral Fund, which grew to \$300 million under management, and Whitebox Advisors, which grew to become a \$5.5-billion fund with offices in Minneapolis, Austin, London and Sydney. Mr. Redleaf is an active investor in private companies. He is the controlling shareholder of Park Financial Group, a bank holding company. During his ten-year tenure as principal owner, Park State Bank has consistently been a top performing community bank across multiple categories including return on equity and efficiency ratio. Assets have grown from \$30 million to \$1.4 billion. Mr. Redleaf earned a Master's degree in mathematics from Yale University.

Kenneth J. Weiller is Chief Operating Officer and Chief Financial Officer of the Company. Mr. Weiller has worked in the hedge fund industry for over 25 years. He has served as Chief Operating Officer of X Cubed Capital Management LLC since 2022. He was a consultant at CoinFund Management LLC from March 2021 to November 2021. From November 2019 to May 2020, Mr. Weiller was Partner and COO at Econometrics Capital Management LLC, where he was responsible for setting up the fund and all non-investment functions. Other experience includes: COO roles at Westfield Investment and EVA Capital, where he also served as CCO; COO roles at Claren Road Asset Management and Saba Capital Management, where he also served as the Risk Manager during the firm's first two years of operation; and SAC Capital, where over his six years there he served as the Director of Risk Management, Director of Operations and Director of Trading Administration. Mr. Weiller began his career at the Federal Reserve Bank of New York and worked in Treasury and Risk at both Citicorp and Bankers Trust. Mr. Weiller earned his PhD in Economics at Harvard University, an MA in Economics at Tufts University, and a Bachelor's in Economics at St. Lawrence University.

Chris Bemis, PhD is Executive Vice President and Secretary of the Company. Mr. Bemis has served as Co-Founder and Managing Partner of X Cubed Capital Management LLC since 2021. Mr. Bemis focuses on alpha-driven portfolio construction across various asset classes. He joined X Cubed after serving as head of Whitebox Advisors' quant group. Mr. Bemis' work has yielded several systematic credit strategies, most recently in corporate credit. Mr. Bemis earned his PhD in applied mathematics from the University of Minnesota, where his thesis involved modelling and optimization for portfolios of risky assets. Mr. Bemis remains as affiliated faculty in their math finance program.

Toby Maitland Hudson is Head of Capital Markets of the Company. A former attorney, Mr. Hudson's expertise spans origination, structuring and trading in the corporate, structured and direct lending markets. Throughout his 25-year career, he has synthesized quantitative and qualitative analysis to identify the optimal part of the capital structure in which to invest. His experience encompasses corporate bonds, credit derivatives, ABS, RMBS, CMBS, CLO and equities. Mr. Hudson joined X Cubed Capital Management LLC in 2021 from Pinelands Capital Management (now a division of Millennium Management) where he was a senior member of a business focused on IG corporate and mortgage credit from 2017 to 2021. Prior to Millennium, Mr. Hudson led the CRE/CMBS business at Saba Capital, managing investments in commercial mortgage conduits, mezzanine loans, and related derivatives. His prior experience includes roles senior PM/Managing Director roles in mortgage exotics at JPMorgan and mortgage credit trading at Bear Stearns. Mr. Hudson holds a Bachelor of Laws (LLB) in English and French Law from King's College London and the Universite Paris I (Pantheon Sorbonne).

Our Board of Directors

Our Board of Directors includes seven (7) members. The board is led by our Chairman and Chief Executive Officer, Andrew J. Redleaf, our Executive Vice President and Secretary, Chris Bemis, and our Head of Capital Markets, Toby Maitland Hudson, and consists of industry leaders and experienced investors. Each brings diversity of experience, perspective and industry contacts that when combined create a distinguished Board of Directors. In addition to Messrs. Redleaf, Bemis and Hudson, our Board of Directors is comprised of:

William N. Goetzmann serves as a member of our board of directors. Mr. Goetzmann is the Edwin J. Beinecke Professor of Finance and Management Studies and faculty director of the International Center for Finance at the Yale School of Management and faculty director of its Executive MBA program in Asset Management. Mr. Goetzmann is widely recognized for his research in the field of investments and is currently the Executive Editor of the *Financial Analysts Journal*, the leading journal for the practice of investment management. His professional experience includes eight years on the board of the investment company Commonfund, current service on the board of the Jeffrey Company, and past consultation with the Norwegian Pension Fund Global. Mr. Goetzmann has written and co-authored a number of books, including *Modern Portfolio Theory and Investment Analysis* (Wiley, 2014) and *Money Changes Everything: How Finance Made Civilization Possible* (Princeton, 2016). He is a recognized academic expert in the field of investment management and alternative asset classes and the recipient of the James R. Vertin Award from the CFA Institute Research Foundation "for a body of research notable for its relevance and enduring value to investment professionals." Mr. Goetzmann holds a PhD in Operations Research from Yale University and an MBA from Yale School of Management.

David H. Lui serves as a member of our board of directors. Mr. Lui's lifelong professional focus has been the creation of processes in the financial services industry which mirror the ethical needs of the industry's clientele. He has been Chief Compliance Officer for some of America's largest investment advisers, including Charles Schwab Investment Management, Franklin Templeton Advisers, U.S. Bancorp Asset Management and a \$100 billion subsidiary of Wells Fargo. He was named a Principal of that Wells Fargo subsidiary and was responsible for the oversight of the negotiation of \$80 billion of investment contracts. By virtue of these relationships, Mr. Lui has held positions as an officer of the board of some of the largest mutual funds in the United States. During the financial crisis, Mr. Lui was Chair of the National Society of Compliance Professionals, the industry trade group covering Securities Compliance for U.S. investment advisers. As Chair during that troubled time, he was responsible for the creation of numerous industry regulatory liaisons with the Office of Compliance, Inspections and Examinations of the U.S. Securities and Exchange Commission, and the House Financial Services Committee. After completing his role as Chair, Mr. Lui partnered with the former Chief Counsel of the Office of Compliance Inspections and Examinations at the Securities and Exchange Commission to write the nation's leading treatise on Securities Compliance—a two Volume, 1,600-page work called *Modern Compliance: Best Practices in Securities and Finance*. That work is in use at many institutions in the United States, and is the most widely distributed work on securities compliance in the nation. Mr. Lui is a graduate of Brown University in Providence, Rhode Island with Honors in History and received his Juris Doctor degree from the University of California, Hastings College of the Law. He is an attorney admitted to practice in Minnesota and California. He is a frequent speaker at national conferences related to Securities Compliance.

Nicholas H. Smith serves as a member of our board of. Mr. Smith is the Founder and CEO of Rice Park Capital Management LP, an alternative investment firm focused on mortgage finance and structured credit. He has nearly 25 years of experience across capital markets, mortgage credit, structured products, operating companies and Fintech. Before founding Rice Park in 2019, Mr. Smith was CEO and Chief Investment Officer of Blackstone's (NYSE: BX) private residential mortgage REIT, Podium Mortgage Capital, from 2017 to 2018 and Co-Founder and CIO of Finance of America Companies (NYSE: FOA) from 2015 to 2017. From 2012 to 2015, Mr. Smith was Managing Director and Head of Residential Mortgage Investment Business of Pine River Capital Management. He previously served as Managing Director at Two Harbors Investment Corp. (NYSE: TWO), where he led the firm's MSR and whole loan investment platform and held senior investment and corporate development roles at Green Tree Investment Management and GMAC ResCap. Mr. Smith studied economics as an undergraduate at the University of Minnesota and pursued graduate studies at Northeastern University and the University of London in quantitative finance. He is a member of the CFA Institute and CFA Society of Minnesota. Mr. Smith has served on a variety of public, private, and philanthropic boards. He currently serves on the advisory boards of Capacity and First American Financial (NYSE: FAF).

Jeffrey H. von Gillern serves as a member of our board of directors. Mr. von Gillern is the former Vice Chairman of Technology and Operations Services at U.S. Bancorp, a position he held from 2010 until his retirement in 2023. As a member of the Managing Committee, he reported directly to the Chairman and CEO, overseeing a significant annual investment portfolio and leading a global team of approximately 25,000 staff. He joined U.S. Bancorp in 2001 as Executive Vice President and served as Chief Information Officer from 2007 to 2010, where he led major technology upgrades, supported numerous bank acquisitions, and directed complex portfolio conversions. Prior to U.S. Bancorp, Mr. von Gillern served as CIO of IronPlanet, an early online marketplace for used heavy equipment, from 2000 to 2001. Before that, he spent 12 years at Visa International, where he was Senior Vice President of Processing Services. Mr. von Gillern currently serves on the Board of Directors of NCR Atleos (since 2023) and is Treasurer and a Board Director for Children's Hospital of Minnesota (since 2022). His prior board roles include Lead Director of ViewPointe LLC (2010–2015), Board Director of Syncada LLC (2010–2014), and Chair of the Board of Governors for the Children's Theatre Company in Minneapolis (2014–2017). Mr. von Gillern earned a Bachelor of Science in Business from the University of Arizona and also studied at the University of London.

With respect to the above, past performance of any member of our management team or our advisor or any of their respective affiliates is not a guarantee of (i) success with respect to a business combination that may be consummated, (ii) the ability to successfully identify and execute a transaction or (iii) the ability to assess the risk of potential transactions. You should not rely on the historical performance record of any member of our management team or their affiliates as indicative of our future performance. Our officers and directors may have conflicts of interest with other entities to which they owe fiduciary or contractual obligations with respect to initial business combination opportunities. For a list of our officers and directors and entities for which a conflict of interest may or does exist between such persons and us, as well as the priority and preference that such entity has with respect to performance of obligations and presentation of business opportunities to us, please refer to the table and subsequent explanatory paragraph under "*Management — Conflicts of Interest.*"

Competitive Strengths

Alternative Path to Becoming Public

We believe our structure will make us an attractive business combination partner to prospective target businesses that desire to become a publicly listed company. A merger with us will offer a target business an alternative process to a public listing rather than the traditional initial public offering process. We believe that target businesses may favor this alternative, which we believe is less expensive, while offering greater certainty of execution than the traditional initial public offering. Furthermore, once a proposed business combination is approved by our shareholders and the transaction is consummated, the target business will have effectively become public, whereas an initial public offering is always subject to the underwriters' ability to complete the offering, as well as general market conditions that could prevent the offering from occurring. Once public, we believe the target business would have greater access to capital and additional means of creating management incentives that are better aligned with shareholders' interests than it would as a private company. A public company can offer further benefits by augmenting a company's profile among potential new customers and vendors and aid in attracting talented management. With public company corporate governance standards, a target business may become attractive to the public investors.

Strong and Stable Financial Position with Flexibility.

With funds in the trust account of \$200,000,000 (or \$230,000,000 if the over-allotment option is exercised in full) available to use for a business combination, we offer a target business a variety of options such as providing the owners of a target business with shares in a public company and a public means to sell such shares, providing capital for the potential growth and expansion of its operations or strengthening its balance sheet by reducing its debt ratio. Because we are able to consummate our initial business combination using our cash, debt or equity securities, or a combination of the foregoing, we have the flexibility to use the most efficient combination that will allow us to tailor the consideration to be paid to the target business to fit its needs and desires. However, since we have no specific business combination under consideration, we have not taken any steps to secure third party financing and there can be no assurance that it will be available to us.

Our Acquisition Process

In evaluating a prospective target business, we expect to conduct a due diligence review which may encompass, among other things, meetings with incumbent management and employees, document reviews, interviews of customers and suppliers, inspection of facilities, as applicable, as well as a review of financial, operational, legal and other information about the target and its industry which will be made available to us. If we determine to move forward with a particular target, we will proceed to structure and negotiate the terms of the business combination transaction.

The time required to select and evaluate a target business and to structure and complete our initial business combination, and the costs associated with this process, are not currently ascertainable with any degree of certainty. Any costs incurred with respect to the identification and evaluation of, and negotiation with, a prospective target business with which our initial business combination is not ultimately completed will result in our incurring losses and will reduce the funds available for us to use to complete another business combination.

Initial Business Combination

We are not presently engaged in, and we will not engage in, any operations for an indefinite period of time following this offering. We intend to effectuate our initial business combination using cash from the proceeds of this offering and the private placement of the private warrants, the proceeds of the sale of our shares in connection with our initial business combination (including pursuant to forward purchase agreements or backstop agreements we may enter into following the consummation of this offering or otherwise), shares issued to the owners of the target, debt issued to bank or other lenders or the owners of the target, other securities issuances, or a combination of the foregoing. We may seek to complete our initial business combination with a company or business that may be financially unstable or in its early stages of development or growth, which would subject us to the numerous risks inherent in such companies and businesses.

We will provide our public shareholders with the opportunity to redeem all or a portion of their Class A ordinary shares upon the completion of our initial business combination either (i) in connection with a general meeting called to approve the business combination or (ii) without a shareholder vote by means of a tender offer. If we seek shareholder approval, we will complete our initial business combination only if we receive an ordinary resolution under Cayman Islands law and our amended and restated memorandum and articles of association, which requires the affirmative vote of a majority of the shareholders as, being entitled to do so, attend and vote (whether in person or by proxy) at a general meeting of the company. The decision as to whether we will seek shareholder approval of a proposed business combination or conduct a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors such as the timing of the transaction and whether the terms of the transaction would require us to seek shareholder approval under applicable law or stock exchange listing requirement.

We have until the date that is 24 months from the closing of this offering (as may be extended by shareholder approval to amend our amended and restated memorandum and articles of association to extend the date by which we must consummate our initial business combination) or until such earlier liquidation date as our board of directors may approve, to consummate our initial business combination. If we anticipate that we may be unable to consummate our initial business combination within such 24-month period, we may seek shareholder approval to amend our amended and restated memorandum and articles of association to extend the date by which we must consummate our initial business combination. There are no limitations on the number of times we may seek shareholder approval for an extension or the length of time of any such extension. However, if we seek shareholder approval for an extension, holders of public shares will be offered an opportunity to redeem their shares at a per share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned thereon (less taxes payable), divided by the number of then issued and outstanding public shares, subject to applicable law.

If we are unable to complete our initial business combination within 24 months from the closing of this offering and do not hold a shareholder vote to amend our amended and restated memorandum and articles of association to extend the amount of time we will have to consummate an initial business combination, or by such earlier liquidation date as our board of directors may approve, from the closing of this offering, we will redeem 100% of the public shares at a per share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned thereon (less taxes payable and up to \$100,000 of interest income to pay dissolution expenses), divided by the number of then issued and outstanding public shares, subject to applicable law and certain conditions as further described herein. We expect the pro rata redemption price to be approximately \$10.00 per public share (whether or not the underwriters exercise their over-allotment option), without taking into account any interest or other income earned on such funds. However, we cannot assure you that we will in fact be able to distribute such amounts as a result of claims of creditors, which may take priority over the claims of our public shareholders.

If we do not complete our initial business combination within the completion window, while we do not currently intend to seek shareholder approval to amend our amended and restated memorandum and articles of association to extend the amount of time we will have to consummate an initial business combination, we may elect to do so in the future. There is no limit on the number of extensions that we may seek; however, we do not expect that it will be necessary to extend the time period to consummate our initial business combination beyond 36 months from the closing of this offering. If we determine not to or are unable to extend the time period to consummate our initial business combination or fail to obtain shareholder approval to extend the completion window, our sponsor's investment in our founder shares and our private warrants will be worthless, except to the extent they receive liquidating distributions from assets outside the trust account.

Nasdaq rules require that we must complete one or more business combinations having an aggregate fair market value of at least 80% of the value of the assets held in the trust account (excluding the deferred underwriting commissions and taxes payable on the interest earned on the trust account) at the time of the agreement to enter into the initial business combination. Our board of directors will make the determination as to the fair market value of our initial business combination. If our board of directors is not able to independently determine the fair market value of our initial business combination, we will obtain an opinion from an independent investment banking firm or another independent entity that commonly renders valuation opinions with respect to the satisfaction of such criteria. While we consider it likely that our board of directors will be able to make an independent determination of the fair market value of our initial business combination, it may be unable to do so if it is less familiar or experienced with the business of a particular target or if there is a significant amount of uncertainty as to the value of the target's assets or prospects. Additionally, pursuant to Nasdaq rules, any initial business combination must be approved by a majority of our independent directors.

We anticipate structuring our initial business combination so that the post-transaction company in which our public shareholders own shares will own or acquire 100% of the equity interests or assets of the target business or businesses. We may, however, structure our initial business combination such that the post-transaction company owns or acquires less than 100% of such interests or assets of the target business in order to meet certain objectives of the target management team or shareholders or for other reasons, but we will only complete such business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act of 1940, as amended, or the Investment Company Act. Even if the post-transaction company owns or acquires 50% or more of the voting securities of the target, our shareholders prior to the business combination may collectively own a minority interest in the post-transaction company, depending on valuations ascribed to the target and us in the business combination. For example, we could pursue a transaction in which we issue a substantial number of new shares in exchange for all of the outstanding capital stock, shares or other equity interests of a target. In this case, we would acquire a 100% controlling interest in the target. However, as a result of the issuance of a substantial number of new shares, our shareholders immediately prior to our initial business combination could own less than a majority of our issued and outstanding shares subsequent to our initial business combination. If less than 100% of the equity interests or assets of a target business or businesses are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or acquired is what will be taken into account for purposes of the 80% of net assets test described above. If the business combination involves more than one target business, the 80% of net assets test will be based on the aggregate value of all of the target businesses.

We are not prohibited from pursuing an initial business combination with a company that is affiliated with our sponsor, officers or directors, or completing the business combination through a joint venture or other form of shared ownership with our sponsor, officers or directors. In the event we seek to complete our initial business combination with a company that is affiliated (as defined in our amended and restated memorandum and articles of association) with our sponsor (including its members), officers or directors, we, or a committee of independent directors, will obtain an opinion from an independent investment banking firm or another independent entity that commonly renders valuation opinions, stating that the consideration to be paid by us in such an initial business combination is fair to our company from a financial point of view. We are not required to obtain such an opinion in any other context.

Members of our management team and our independent directors will directly or indirectly own founder shares and/or private warrants following this offering and, accordingly, may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination. The low price that our sponsor, executive officers and directors (directly or indirectly) paid for the founder shares creates an incentive whereby our officers and directors could potentially make a substantial profit even if we select an acquisition target that subsequently declines in value and is unprofitable for public shareholders. If we are unable to complete our initial business combination within the completion window, the founder shares and private warrants will expire worthless, except to the extent they receive liquidating distributions from assets outside the trust account, which could create an incentive for our sponsor, executive officers and directors to complete a transaction even if we select an acquisition target that subsequently declines in value and is unprofitable for public shareholders. Further, each of our officers and directors may have a conflict of interest with respect to evaluating a particular business combination if the retention or resignation of any such officers and directors was included by a target business as a condition to any agreement with respect to our initial business combination.

Each of our officers and directors presently has, and any of them in the future may have additional, fiduciary, contractual or other obligations or duties to one or more other entities pursuant to which such officer or director is or will be required to present a business combination opportunity to such entities. See “*Management — Conflicts of Interest*” for more information. Accordingly, if any of our officers or directors becomes aware of a business combination opportunity which is suitable for an entity to which he or she has then current fiduciary or contractual obligations, he or she may be required to honor his or her fiduciary or contractual obligations to present such business combination opportunity to such other entity. Our amended and restated memorandum and articles of association provide that, to the fullest extent permitted by law: (i) no individual serving as a director or an officer, among other persons, shall have any duty, except and to the extent expressly assumed by contract, to refrain from engaging directly or indirectly in the same or similar business activities or lines of business as us, and (ii) we renounce any interest or expectancy in, or in being offered an opportunity to participate in, any potential transaction or matter which (a) may be a corporate opportunity for any director or officer, on the one hand, and us, on the other or (b) the presentation of which would breach an existing legal obligation of a director or officer to any other entity. As a result, the fiduciary duties or contractual obligations of our officers or directors could materially affect our ability to complete our initial business combination.

In addition, our sponsor and our officers and directors may sponsor or form other special purpose acquisition companies similar to ours or may pursue other business or investment ventures during the period in which we are seeking an initial business combination. As a result, our sponsor, officers and directors could have conflicts of interest in determining whether to present business combination opportunities to us or to any other special purpose acquisition company with which they may become involved. Any such companies, businesses or investments may present additional conflicts of interest in pursuing an initial business combination target, which could materially affect our ability to complete our initial business combination. The other entities to which our officers and directors currently owe fiduciary duties or contractual obligations are not themselves in the business of engaging in business combinations. In order to minimize potential conflicts of interest which may arise from multiple affiliations with SPACs, unless a business combination opportunity is expressly offered to us or to one of our directors or officers solely in his or her capacity as our director and/or officer and such opportunity is one we are permitted to undertake and would otherwise be reasonable for us to pursue, subject to their other legal obligations, we expect that our officers and directors who are also officers and/or directors of other SPACs will present suitable target businesses to us and the other applicable SPACs based on which SPAC went public first and taking into account any contractual restrictions applicable to each such SPAC and other reasonable considerations (including but not limited to the relative sizes of the SPACs and the amount in trust compared to the sizes of the targets, the need or desire for additional financings, the amount of time required to complete a business combination and the relevant experience of the directors and officers involved with a particular blank check company).

On or prior to the date of this prospectus, we have filed a Registration Statement on Form 8-A with the SEC to voluntarily register our securities under Section 12 of the Securities Exchange Act of 1934, as amended, or the Exchange Act. As a result, we are subject to the rules and regulations promulgated under the Exchange Act. We have no current intention of filing a Form 15 to suspend our reporting or other obligations under the Exchange Act prior or subsequent to the consummation of our initial business combination.

Competition

In identifying, evaluating and selecting a target business for our initial business combination, we may encounter significant competition from other entities having a business objective similar to ours (including other special purpose acquisition companies, private equity groups and leveraged buyout funds, public companies and operating businesses seeking strategic acquisitions), which competition may impact the attractiveness of the acquisition terms that we will be able to negotiate. Many of these entities are well-established and have extensive experience identifying and effecting business combinations directly or through affiliates. Moreover, many of these competitors possess financial, technical, human and other resources that are similar to or greater than us. Our ability to acquire larger target businesses will be limited by our available financial resources. This inherent limitation gives others an advantage in pursuing the acquisition of a target business. Furthermore, our obligation to pay cash in connection with the exercise of redemption rights by our public shareholders may reduce the resources available to us for our initial business combination and our issued and outstanding warrants, and the future dilution they potentially represent, may not be viewed favorably by certain target businesses. Either or both of these factors may place us at a competitive disadvantage in successfully negotiating an initial business combination. See *“Risk Factors — Risks Relating to Our Search for, and Consummation of or Inability to Consummate, a Business Combination — Because of our limited resources and the significant competition for business combination opportunities, it may be more difficult for us to complete our initial business combination. If we are unable to complete our initial business combination, our public shareholders may receive only their pro rata portion of the funds in the trust account that are available for distribution to public shareholders, and our warrants will expire worthless.”*

Potential Additional Financings

We may need to obtain additional financing to complete our initial business combination, either because the transaction requires more cash than is available from the proceeds held in our trust account or because we become obligated to redeem a significant number of our public shares upon completion of the business combination, in which case we may issue additional securities or incur debt in connection with such business combination. If we raise additional funds through equity or convertible debt issuances, our public shareholders may suffer significant dilution and these securities could have rights that rank senior to our public shares. If we raise additional funds through the incurrence of indebtedness, such indebtedness would have rights that are senior to our equity securities and could contain covenants that restrict our operations. Further, as described above, due to the anti-dilution rights of our founder shares, our public shareholders may incur material dilution. In addition, we intend to target businesses with enterprise values that are greater than we could acquire with the net proceeds of this offering and the sale of the private warrants, and, as a result, if the cash portion of the purchase price exceeds the amount available from the trust account, net of amounts needed to satisfy any redemptions by public shareholders, we may be required to seek additional financing to complete such proposed initial business combination. We may also obtain financing prior to the closing of our initial business combination to fund our working capital needs and transaction costs in connection with our search for and completion of our initial business combination. There is no limitation on our ability to raise funds through the issuance of equity or equity-linked securities or through loans, advances or other indebtedness in connection with our initial business combination, including pursuant to forward purchase agreements or backstop agreements we may enter into following consummation of this offering. Subject to compliance with applicable securities laws, we would only complete such financing simultaneously with the completion of our initial business combination. If we are unable to complete our initial business combination because we do not have sufficient funds available to us, we will be forced to liquidate the trust account. In addition, following our initial business combination, if cash on hand is insufficient, we may need to obtain additional financing in order to meet our obligations.

Sponsor Information

Our sponsor is a Delaware limited liability company, which was recently formed in July 2025 to invest in our company. Although our sponsor is permitted to undertake any activities permitted under the Delaware Limited Liability Company Act and other applicable law, our sponsor's business is focused on investing in our company. X Cubed Capital Management LLC is the sole member of our sponsor, X3 Acquisition Management LLC. X Cubed Capital Management LLC is controlled by Andrew J. Redleaf, who holds voting and investment discretion with respect to the securities held by the sponsor. As of the date of this prospectus, other than Mr. Redleaf, no other person has a direct or indirect material interest in our sponsor. Our Chief Operating Officer and Chief Financial Officer, Kenneth J. Weiller, will receive an indirect interest in up to 335,400 founder shares through membership interests in our sponsor, our Executive Vice President and Secretary, Chris Bemis, will receive an indirect interest in up to 335,400 founder shares through membership interests in our sponsor, and our Head of Capital Markets, Toby Maitland Hudson, will receive an indirect interest in up to 838,500 founder shares through membership interests in our sponsor. In addition, our independent directors will receive for their services as a director an indirect interest in the founder shares through membership interests in our sponsor. William N. Goetzmann, David H. Lui, Nicholas H. Smith and Jeffry H. von Gillern will each receive an indirect interest in 40,000 founder shares through membership interests in our sponsor. Other than members of our management team who are members of our sponsor, none of the other members of our sponsor will participate in our company's activities.

The following table sets forth the payments to be received by our sponsor and its affiliates from us prior to or in connection with the completion of our initial business combination and the securities issued and to be issued by us to our sponsor or its affiliates:

Entity/Individual	Amount of Compensation to be Received or Securities Issued or to be Issued	Consideration Paid or to be Paid
X3 Acquisition Management LLC	\$10,000 per month (the "administrative services fee")	Office space, utilities and secretarial and administrative support
	5,750,000 Class B ordinary shares	\$25,000
	5,000,000 private warrants to be purchased simultaneously with the closing of this offering (or 5,450,000 private warrants if the over-allotment option is exercised in full)	\$5,000,000 (or \$5,450,000 if the over-allotment option is exercised in full)

	Up to \$400,000 in loans	Repayment of loans made to us to cover offering related and organizational expenses
	Up to \$1,500,000 in working capital loans, which loans may be convertible into private warrants of the post-business combination entity at a price of \$1.00 per warrant at the option of the lender	Working capital loans to finance transaction costs in connection with an initial business combination
	Reimbursement for any out-of-pocket expenses related to identifying, investigating and completing an initial business combination	Services in connection with identifying, investigating and completing an initial business combination
Holders of Class B ordinary shares	Anti-dilution protection upon conversion into Class A ordinary shares at a greater than one-to-one ratio	Issuance of the Class A ordinary shares issuable in connection with the conversion of the founder shares on a greater than one-to-one basis upon conversion
X3 Acquisition Management LLC, our officers, directors, advisors or our or their affiliates	Finder's fees, advisory fees, consulting fees or success fees ⁽¹⁾	Any services in order to effectuate the completion of our initial business, which, if made prior to the completion of our initial business combination, will be paid from funds held outside the trust account
X3 Acquisition Management LLC, or its affiliates	Salary or fee in an amount that constitutes a market standard for comparable transactions ⁽²⁾	Any services provided as an advisor or otherwise in connection with our initial business combination and certain other transactions
(1) As of the date of this prospectus, no such arrangements are currently in place. (2) As of the date of this prospectus, no such arrangements are currently in place. Any such salary or fee would be paid using available working capital funds (including proceeds from any promissory notes issued by us and funds released from the trust account upon completion of our initial business combination), but would not in any event be paid out of the administrative services fee. Because our sponsor acquired the founder shares at a nominal price (\$0.004 per share), our public shareholders will incur immediate and substantial dilution upon the closing of this offering, assuming no value is ascribed to the warrants included in the units. Further, the Class A ordinary shares issuable in connection with the conversion of the founder shares may result in material dilution to our public shareholders due to the anti-dilution rights of our founder shares that may result in an issuance of Class A ordinary shares on a greater than one-to-one basis upon conversion. Additionally, our public shareholders may experience dilution from the exercise of the 5,000,000 private warrants (5,450,000 private warrants if the underwriters' over-allotment option is exercised in full) to be purchased by our sponsor simultaneously with the closing of this offering as well as conversion of any working capital loans into warrants, if elected by the sponsor or by another person or entity who made such working capital loans. The exercise of the warrants would cause the actual dilution to the public shareholders to be higher, particularly where a cashless exercise is utilized. See <i>"Risk Factors — Risks Relating to Our Securities — The nominal purchase price paid by our sponsor for the founder shares may result in significant dilution to the implied value of your public shares upon the consummation of our initial business combination, and our sponsor is likely to make a substantial profit on its investment in us in the event we consummate an initial business combination, even if the business combination causes the trading price of our ordinary shares to materially decline"</i> and <i>"Dilution."</i>		

The founder shares will automatically convert into Class A ordinary shares concurrently with or immediately following the consummation of our initial business combination, or at any time prior thereto at the option of the holder thereof, on a one-for-one basis, subject to adjustment as provided herein. In the case that additional Class A ordinary shares, or equity-linked securities, are issued or deemed issued in excess of the amounts sold in this offering and related to the closing of our initial business combination, the ratio at which Class B ordinary shares shall convert into Class A ordinary shares will be adjusted (unless the holders of a majority of the outstanding Class B ordinary shares agree to waive such anti-dilution adjustment with respect to any such issuance or deemed issuance) so that the number of Class A ordinary shares issuable upon conversion of all Class B ordinary shares will equal, in the aggregate, on an as-converted basis, approximately 20% of sum of (i) the total number of all Class A ordinary shares outstanding upon the completion of this offering (including any Class A ordinary shares issued pursuant to the underwriters' over-allotment option), plus (ii) all Class A ordinary shares and equity-linked securities issued or deemed issued, in connection with the closing of the initial business combination (excluding any shares or equity-linked securities issued, or to be issued, to any seller in the initial business combination and any units issued to our sponsor or any of its affiliates or to our officers or directors upon conversion of working capital loans) minus (iii) any redemptions of Class A ordinary shares by public shareholders in connection with an initial business combination; provided that such conversion of founder shares will never occur on a less than one-for-one basis. Our public shareholders may incur material dilution due to such anti-dilution adjustments that result in the issuance of Class A ordinary shares on a greater than one-to-one basis upon conversion.

If we raise additional funds through equity or convertible debt issuances, our public shareholders may suffer significant dilution. This dilution would increase to the extent that the anti-dilution provision of the founder shares result in the issuance of Class A shares on a greater than one-to-one basis upon conversion of the founder shares at the time of our initial business combination. In addition, the cashless exercise of the private warrants would further increase the dilution to our public shareholders.

Pursuant to a letter agreement entered into with us, each of our sponsor, directors and officers has agreed to restrictions on its ability to transfer, assign, or sell the founder shares and private warrants, as summarized in the table below.

Subject Securities	Expiration Date	Natural Persons and Entities Subject to Restrictions	Exceptions to Transfer Restrictions
Founder Shares	180 days after the completion of our initial business combination	X3 Acquisition Management LLC Andrew J. Redleaf Kenneth J. Weiller Toby Maitland Hudson Chris Bemis William N. Goetzmann David H. Lui Nicholas H. Smith Jeffry H. von Gillern	Transfers permitted (a) to our officers, directors, advisors or consultants, any affiliate or family member of any of our officers, directors, advisors or consultants, any members or partners of the sponsor or their respective affiliates and funds and accounts advised by such members or partners, any affiliates of the sponsor, or any employees of such affiliates; (b) in the case of an individual, as a gift to such person's immediate family or to a trust, the beneficiary of which is a member of such person's immediate family, an affiliate of such person or to a charitable organization; (c) in the case of an individual, by virtue of laws of descent and distribution upon death of such person; (d) in the case of an individual, pursuant to a qualified domestic relations order; (e) by private sales or transfers made in connection with any forward purchase agreement or similar arrangement, in connection with an extension of the completion window or in connection with the consummation of a business combination at prices no greater than the price at which the shares or warrants were originally purchased; (f) pro rata distributions from our sponsor to its respective members, partners or shareholders pursuant to our sponsor's limited liability company agreement or other charter documents; (g) by virtue of the laws of the State of Delaware or our sponsor's limited liability company agreement upon dissolution of our sponsor; (h) in the event of our liquidation prior to our consummation of our initial business combination; (i) to a nominee or custodian of a person or entity to whom a transfer would be permissible under clauses (a) through (g); (j) to us for no value for cancellation in connection with the consummation of our initial business combination; or (k) in the event that, subsequent to our consummation of an initial business combination, we complete a liquidation, merger, share exchange or other similar transaction which results in all of our shareholders having the right to exchange their Class A ordinary shares for cash, securities or other property; provided, however, that in the case of clauses (a) through (g) and clause (i) these permitted transferees must enter into a written

agreement agreeing to be bound by these transfer restrictions and the other restrictions contained in the letter agreements.

Private warrants (including the underlying securities)	30 days after the completion of our initial business combination	X3 Acquisition Management LLC Andrew J. Redleaf Kenneth J. Weiller Toby Maitland Hudson Chris Bemis William N. Goetzmann David H. Lui Nicholas H. Smith Jeffry H. von Gillern	Same as above.
Any units, warrants, ordinary shares or any other securities convertible into, or exercisable or exchangeable for, any units, ordinary shares, founder shares or warrants	180 days	X3 Acquisition Management LLC Andrew J. Redleaf Kenneth J. Weiller Toby Maitland Hudson Chris Bemis William N. Goetzmann David H. Lui Nicholas H. Smith Jeffry H. von Gillern	The 180 day lock-up period is pursuant to the underwriting agreement and can be waived with the prior written consent of Stifel. See “ <i>Underwriting — Lock-up.</i> ” Our sponsor, officers and directors are also subject to separate transfer restrictions on their founder shares and private warrants pursuant to the letter agreement described in the immediately preceding paragraphs.

Up to 750,000 of the founder shares will be surrendered for no consideration depending on the extent to which the underwriters’ over-allotment option is exercised. In addition, in order to facilitate our initial business combination or for any other reason determined by our sponsor in its sole discretion, our sponsor may surrender or forfeit, transfer or exchange our founder shares, private warrants or any of our other securities, including for no consideration, as well as subject any such securities to earn-outs or other restrictions, or otherwise amend the terms of any such securities or enter into any other arrangements with respect to any such securities. We may also issue Class A ordinary shares upon conversion of the Class B ordinary shares at a ratio greater than one-to-one at the time of our initial business combination as a result of the anti-dilution provisions as set forth herein.

Corporate Information

Our executive offices are located at 3033 Excelsior Blvd, Suite 343, Minneapolis, MN 55416, and our telephone number is 612-457-0070. We are a Cayman Islands exempted company. Exempted companies are Cayman Islands companies conducting business mainly outside the Cayman Islands and, as such, are exempted from complying with certain provisions of the Companies Act. As an exempted company, we have applied for and received a tax exemption undertaking from the Cayman Islands government that, in accordance with Section 6 of the Tax Concessions Act (As Revised) of the Cayman Islands, for a period of 30 years from the date of the undertaking, no law which is enacted in the Cayman Islands imposing any tax to be levied on profits, income, gains or appreciations will apply to us or our operations and, in addition, that no tax to be levied on profits, income, gains or appreciations or which is in the nature of estate duty or inheritance tax will be payable (i) on or in respect of our shares, debentures or other obligations or (ii) by way of the withholding in whole or in part of a payment of dividends or other distribution of income or capital by us to our shareholders or a payment of principal or interest or other sums due under a debenture or other obligation of us.

We are an “emerging growth company,” as defined in Section 2(a) of the U.S. Securities Act of 1933, as amended (the “Securities Act”), as modified by the U.S. Jumpstart Our Business Startups Act of 2012 (the “JOBS Act”). As such, we are eligible to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not “emerging growth companies” including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002, or the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a non-binding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved. If some investors find our securities less attractive as a result, there may be a less active trading market for our securities and the prices of our securities may be more volatile.

In addition, Section 107 of the JOBS Act also provides that an “emerging growth company” can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. In other words, an “emerging growth company” can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We intend to take advantage of the benefits of this extended transition period.

We will remain an emerging growth company until the earlier of (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of this offering, (b) in which we have total annual gross revenue of at least \$1.235 billion, or (c) in which we are deemed to be a large accelerated filer, which means the market value of our Class A ordinary shares that are held by non-affiliates exceeds \$700 million as of the prior June 30th, and (2) the date on which we have issued more than \$1.0 billion in non-convertible debt securities during the prior three-year period. References herein to “emerging growth company” will have the meaning associated with it in the JOBS Act.

Additionally, we are a “smaller reporting company” as defined in Item 10(f)(1) of Regulation S-K. Smaller reporting companies may take advantage of certain reduced disclosure obligations, including, among other things, providing only two years of audited financial statements. We will remain a smaller reporting company until the last day of the fiscal year in which (1) the market value of our ordinary shares held by non-affiliates is equal to or exceeds \$250 million as of the prior June 30, or (2) our annual revenues equaled or exceeded \$100 million during such completed fiscal year and the market value of our ordinary shares held by non-affiliates is equal to or exceeds \$700 million as of the prior June 30.

In addition, after completion of this offering and prior to the consummation of a business combination, only holders of our Class B ordinary shares will have the right to vote on the appointment or removal of directors. As a result, Nasdaq will consider us to be a “controlled company” within the meaning of Nasdaq corporate governance standards. Under Nasdaq corporate governance standards, a company of which more than 50% of the voting power for the appointment of directors is held by an individual, group or another company is a “controlled company” and may elect not to comply with certain corporate governance requirements. We currently do not intend to rely on the “controlled company” exemption, but may do so in the future. Accordingly, if we choose to do so, you will not have the same protections afforded to shareholders of companies that are subject to all of the Nasdaq corporate governance requirements.

THE OFFERING

In making your decision on whether to invest in our securities, you should take into account not only the backgrounds of the members of our management team, but also the special risks we face as a blank check company and the fact that this offering is not being conducted in compliance with Rule 419 promulgated under the Securities Act. You will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings. You should carefully consider these and the other risks set forth in the section below entitled "Risk Factors."

Securities offered: 20,000,000 units, at \$10.00 per unit, each unit consisting of:

- one Class A ordinary share; and
- one-half of one redeemable warrant.

Nasdaq symbols: Units: "XCBEU"

Class A Ordinary Shares: "XCBE"

Warrants: "XCBEW"

Trading commencement and separation of Class A ordinary shares and warrants:

We expect the units to begin trading promptly after the date of this prospectus. The Class A ordinary shares and warrants comprising the units will begin separate trading on the 52nd day following the date of this prospectus unless Stifel informs us of its decision to allow earlier separate trading, subject to our having filed the Current Report on Form 8-K described below and issued a press release announcing when such separate trading will begin. Once the Class A ordinary shares and warrants commence separate trading, holders will have the option to continue to hold units or separate their units into the component securities. Holders will need to have their brokers contact our transfer agent in order to separate the units into Class A ordinary shares and warrants. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. Accordingly, unless you purchase at least two units, you will not be able to receive or trade a whole warrant.

Separate trading of the Class A ordinary shares and warrants is prohibited until we have filed a Current Report on Form 8-K:

In no event will the Class A ordinary shares and warrants be traded separately until we have filed with the SEC a Current Report on Form 8-K which includes an audited balance sheet reflecting our receipt of the gross proceeds at the closing of this offering. We will file the Current Report on Form 8-K promptly after the closing of this offering. If the over-allotment option is exercised following the initial filing of such Current Report on Form 8-K, a second or amended Current Report on Form 8-K will be filed to provide updated information to reflect the exercise of the over-allotment option.

Units:

Number outstanding before this offering	0
Number to be sold in a private placement simultaneously with this offering ⁽¹⁾	0
Number outstanding after this offering ⁽¹⁾	20,000,000

Ordinary shares:

Number outstanding before this offering⁽²⁾ 5,750,000

Number to be
sold in a private placement simultaneously with
this offering⁽¹⁾ 0

Number outstanding after this offering⁽³⁾⁽⁴⁾ 25,000,000

Warrants:

Number of private warrants to be sold in a private
placement simultaneously with this offering 5,000,000

Number of warrants to be outstanding after this
offering and the private placement⁽⁵⁾ 15,000,000

Exercisability: Each whole warrant offered in this offering is exercisable to purchase one Class A ordinary share. Only whole warrants are exercisable. No fractional warrants will be issued upon separation of the units and only whole warrants will trade.

We have structured each unit to contain one-half of one warrant, with each whole warrant exercisable for one Class A ordinary share, as compared to units issued by some other similar special purpose acquisition companies which contain whole warrants exercisable for one share, in order to reduce the dilutive effect of the warrants upon completion of a business combination as compared to units that each contain a whole warrant to purchase one share, thus making us, we believe, a more attractive business combination partner for target businesses.

-
- (1) Assumes no exercise of the underwriters' over-allotment option.
- (2) Includes up to 750,000 founder shares that will be surrendered to us for no consideration depending on the extent to which the underwriters' over-allotment option is exercised.
- (3) Comprised of 20,000,000 Class A ordinary shares included in the units to be sold in this offering and 5,000,000 Class B ordinary shares (or founder shares). Founder shares are currently classified as Class B ordinary shares, which shares will automatically convert into Class A ordinary shares concurrently with or immediately following the consummation of our initial business combination or earlier at the option of the holder on a one-for-one basis, subject to adjustment as described below adjacent to the caption "*Founder shares conversion and anti-dilution rights.*"
- (4) Assumes surrender of 750,000 founder shares. Up to 750,000 founder shares will be surrendered to us for no consideration depending on the extent to which the underwriters' over-allotment option is exercised.
- (5) Comprised of 10,000,000 public warrants included in the units to be sold in this offering (assuming no exercise of the underwriters' over-allotment option) and 5,000,000 private warrants to be sold in the private placement.

Exercise price:

\$11.50 per share, subject to adjustments as described herein.

In addition, if (x) we issue additional Class A ordinary shares or equity-linked securities for capital raising purposes in connection with the closing of our initial business combination at an issue price or effective issue price of less than \$9.20 per Class A ordinary share (with such issue price or effective issue price to be determined in good faith by our board of directors and, in the case of any such issuance to our initial shareholders or their affiliates, without taking into account any founder shares held by our initial shareholders or such affiliates, as applicable, prior to such issuance) (the “Newly Issued Price”), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds (including from such issuances and this offering), and interest thereon, available for the funding of our initial business combination on the date of the consummation of our initial business combination (net of redemptions), and (z) the volume weighted average trading price of our Class A ordinary shares during the 20 trading day period starting on the trading day prior to the day on which we consummate our initial business combination (such price, the “Market Value”) is below \$9.20 per share, then the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, and the \$18.00 per share redemption trigger prices described below under “— *Redemption of warrants when the price per Class A ordinary share equals or exceeds \$18.00*” will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the Newly Issued Price.

Exercise period:

The warrants will become exercisable 30 days after the completion of our initial business combination, provided that we have an effective registration statement under the Securities Act covering the Class A ordinary shares issuable upon exercise of the warrants and a current prospectus relating to them is available and such shares are registered, qualified or exempt from registration under the securities, or blue sky, laws of the state of residence of the holder (or we permit holders to exercise their warrants on a cashless basis under the circumstances specified in the warrant agreement). If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws.

We are registering the Class A ordinary shares issuable upon exercise of the warrants in the registration statement of which this prospectus forms a part because the warrants will become exercisable 30 days after the completion of our initial business combination, which may be within one year of this offering. However, because the warrants will be exercisable until their expiration date of up to five years after the completion of our initial business combination, in order to comply with the requirements of Section 10(a)(3) of the Securities Act following the consummation of our initial business combination, we have agreed that as soon as practicable, but in no event later than 20 business days after the closing of our initial business combination, we will use our commercially reasonable efforts to file with the SEC a new registration statement and have an effective registration statement covering the Class A ordinary shares issuable upon exercise of the warrants and to maintain a current prospectus relating to those Class A ordinary shares until the warrants expire or are redeemed, as specified in the warrant agreement.

If a registration statement covering the Class A ordinary shares issuable upon exercise of the warrants is not effective by the 60th business day after the closing of our initial business combination, warrant holders may, until such time as there is an effective registration statement and during any period when we will have failed to maintain an effective registration statement, exercise warrants on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act or another exemption. Notwithstanding the above, if our Class A ordinary shares are at the time of any exercise of a warrant not listed on a national securities exchange such that they satisfy the definition of a “covered security” under Section 18(b)(1) of the Securities Act, we may, at our option, require holders of public warrants who exercise their warrants to do so on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act and, in the event we so elect, we will not be required to file or maintain in effect a registration statement.

The warrants will expire at 5:00 p.m., New York City time, five years after the completion of our initial business combination or earlier upon redemption or liquidation. On the exercise of any warrant, the warrant exercise price will be paid directly to us and not placed in the trust account.

Redemption of warrants when the price per Class A ordinary share equals or exceeds \$18.00

We may redeem the outstanding warrants:

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon a minimum of 30 days’ prior written notice of redemption, which we refer to as the 30-day redemption period; and
- if, and only if, the last reported sale price (the “closing price”) of our Class A ordinary shares equals or exceeds \$18.00 per share (as adjusted for adjustments to the number of shares issuable upon exercise or the exercise price of a warrant as described under the heading “*Description of Securities — Warrants — Public Warrants — Redemption Procedures — Anti-dilution Adjustments*”) for any 20 trading days within a 30-trading day period commencing once the warrants become exercisable and ending on the third trading day prior to the date on which we send the notice of redemption to the warrant holders.

We will not redeem the warrants as described above unless a registration statement under the Securities Act covering the issuance of the Class A ordinary shares issuable upon exercise of the warrants is then effective and a current prospectus relating to those Class A ordinary shares is available throughout the measurement period. If and when the warrants become redeemable by us, we may not exercise our redemption right if the issuance of ordinary shares upon exercise of the warrants is not exempt from registration or qualification under applicable state blue sky laws or we are unable to effect such registration or qualification. We will use our best efforts to register or qualify such ordinary shares under the blue sky laws of the state of residence in those states in which the warrants were offered by us in this offering.

Founder shares:

On August 18, 2025, the Company issued to our sponsor 5,750,000 Class B ordinary shares for an aggregate purchase price of \$25,000, or \$0.004 per share, up to 750,000 of which are subject to forfeiture by the holders thereof depending on the extent to which the underwriters' over-allotment option is exercised.

Prior to the initial investment in the company of \$25,000 by the sponsor, the company had no assets, tangible or intangible. The per share price of the founder shares was determined by dividing the amount of cash contributed to the company by the number of founder shares issued. The number of founder shares outstanding was determined based on the expectation that the total size of this offering would be a maximum of 23,000,000 units if the underwriters' over-allotment option is exercised in full, and therefore that such founder shares would represent approximately 20% of the outstanding shares after this offering. Our public shareholders may incur material dilution due to such anti-dilution adjustments that result in the issuance of Class A ordinary shares on a greater than one-to-one basis upon conversion. Up to 750,000 of the founder shares will be surrendered for no consideration depending on the extent to which the underwriters' over-allotment option is not exercised. Any conversion of Class B ordinary shares described herein will take effect as a compulsory redemption of Class B ordinary shares and an issuance of Class A ordinary shares as a matter of Cayman Islands law.

The founder shares are identical to the Class A ordinary shares included in the units being sold in this offering, except that:

- prior to the closing of our initial business combination, only holders of our Class B ordinary shares have the right to vote on the appointment or removal of directors and on continuing the company in a jurisdiction outside the Cayman Islands (as further described herein), prior to the consummation of our initial business combination;
- the founder shares are subject to certain transfer restrictions, as described in more detail below;
- the founder shares are entitled to registration rights;
- the founder shares are automatically convertible into our Class A ordinary shares concurrently with or immediately following the consummation of our initial business combination or earlier at the option of the holder on a one-for-one basis, subject to adjustment pursuant to certain anti-dilution rights, as described below adjacent to the caption "*— Founder shares conversion and anti-dilution rights*";

- our sponsor, officers and directors have entered into a letter agreement with us, pursuant to which they have agreed to (i) waive their redemption rights with respect to their founder shares and public shares in connection with the completion of our initial business combination; (ii) waive their redemption rights with respect to their founder shares and public shares in connection with a shareholder vote to approve an amendment to our amended and restated memorandum and articles of association (A) to modify the substance or timing of our obligation to allow redemption in connection with our initial business combination or to redeem 100% of our public shares if we have not consummated an initial business combination within the completion window or (B) with respect to any other material provisions relating to shareholders' rights or pre-initial business combination activity; (iii) waive their rights to liquidating distributions from the trust account with respect to their founder shares if we fail to complete our initial business combination within the completion window, although they will be entitled to liquidating distributions from the trust account with respect to any public shares they hold if we fail to complete our initial business combination within the prescribed time frame and to liquidating distributions from assets outside the trust account; and (iv) vote any founder shares held by them and any public shares purchased during or after this offering (including in open market and privately-negotiated transactions) in favor of our initial business combination (except that any public shares such parties may purchase in compliance with the requirements of Rule 14e-5 under the Exchange Act would not be voted in favor of approving the business combination transaction).

Transfer restrictions on founder shares:

Our initial shareholders have agreed not to transfer, assign or sell any of their founder shares and any Class A ordinary shares issuable upon conversion thereof until the earlier to occur of: (i) 180 days after the completion of our initial business combination or (ii) the date on which we complete a liquidation, merger, share exchange or other similar transaction after our initial business combination that results in all of our shareholders having the right to exchange their Class A ordinary shares for cash, securities or other property; except to certain permitted transferees and under certain circumstances as described herein under "*Principal Shareholders — Restrictions on Transfers of Founder Shares and Private Warrants.*" Any permitted transferees will be subject to the same restrictions and other agreements of our initial shareholders with respect to any founder shares. We refer to such transfer restrictions throughout this prospectus as the lock-up.

Except in certain limited circumstances, no member of the sponsor may sell, transfer, assign, pledge, mortgage, charge, hypothecate, exchange or otherwise dispose, directly or indirectly, all or any portion of its membership interests in the sponsor. For more information, see "*Principal Shareholders — Restrictions on Transfers of Founder Shares and Private Warrants.*"

Founder shares conversion and anti-dilution rights:

The founder shares will automatically convert into Class A ordinary shares concurrently with or immediately following the consummation of our initial business combination or earlier at the option of the holder on a one-for-one basis, subject to adjustment for share sub-divisions, share capitalizations, reorganizations, recapitalizations and the like, and subject to further adjustment as provided herein. In the case that additional Class A ordinary shares, or any other equity-linked securities, are issued or deemed issued in excess of the amounts sold in this offering and related to or in connection with the closing of the initial business combination, the ratio at which Class B ordinary shares convert into Class A ordinary shares will be adjusted (unless the holders of a majority of the outstanding Class B ordinary shares agree to waive such adjustment with respect to any such issuance or deemed issuance) so that the number of Class A ordinary shares issuable upon conversion of all Class B ordinary shares will equal, in the aggregate, approximately 20% of the sum of (i) the total number of all Class A ordinary shares outstanding upon the completion of this offering (including any Class A ordinary shares issued pursuant to the underwriters' over-allotment option), plus (ii) all Class A ordinary shares and equity-linked securities issued or deemed issued, in connection with the closing of the initial business combination (excluding any shares or equity-linked securities issued, or to be issued, to any seller in the initial business combination and any units issued to our sponsor or any of its affiliates or to our officers or directors upon conversion of working capital loans) minus (iii) any redemptions of Class A ordinary shares by public shareholders in connection with an initial business combination; provided that such conversion of founder shares will never occur on a less than one-for-one basis.

Appointment and removal of directors and continuing the company outside of the Cayman Islands; Voting Rights:

Except as set forth below, holders of record of our Class A ordinary shares and Class B ordinary shares are entitled to one vote for each share held on all matters to be voted on by shareholders. Unless specified in our amended and restated memorandum and articles of association or as required by the Companies Act or stock exchange rules, an ordinary resolution under Cayman Islands law and our amended and restated memorandum and articles of association, which requires the affirmative vote of a majority of the company's shareholders as, being entitled to do so, attend and vote (whether in person or by proxy) at a general meeting of the company is generally required to approve any matter voted on by our shareholders. Approval of certain actions requires a special resolution under Cayman Islands law, which (except as specified below) requires the affirmative vote of at least two-thirds of the company's shareholders as, being entitled to do so, attend and vote (whether in person or by proxy) at a general meeting, and pursuant to our amended and restated memorandum and articles of association, such actions include amending our amended and restated memorandum and articles of association and approving a statutory merger or consolidation with another company. There is no cumulative voting with respect to the appointment of directors, meaning, following our initial business combination, the holders of more than 50% of our ordinary shares voted for the appointment of directors can elect all of the directors. Prior to the consummation of our initial business combination, only holders of our Class B ordinary shares will (i) have the right to vote on the appointment and removal of directors and (ii) be entitled to vote on continuing our company in a jurisdiction outside the Cayman Islands (including any special resolution required to amend our constitutional documents or to adopt new constitutional documents, in each case, as a result of our approving a transfer by way of continuation in a jurisdiction outside the Cayman Islands). Holders of our Class A ordinary shares will not be entitled to vote on these matters during such time. These provisions of our amended and restated memorandum and articles of association may only be amended if approved by a special resolution passed by the affirmative vote of the holders representing at least 90% of the issued Class B ordinary shares.

With respect to any other matter submitted to a vote of our shareholders prior to or in connection with the completion of our initial business combination, including any vote in connection with our initial business combination, except as required by law, holders of the founder shares and holders of our public shares will vote together as a single class, with each share entitling the holder to one vote. If we seek shareholder approval of our initial business combination, we will complete our initial business combination only if we receive an ordinary resolution under Cayman Islands law and our amended and restated memorandum and articles of association, which requires the affirmative vote of a majority of the company's shareholders as, being entitled to do so, attend and vote (whether in person or by proxy) at a general meeting of the company. However, if our initial business combination is structured as a statutory merger or consolidation with another company under Cayman Islands law, the approval of our initial business combination will require a special resolution, which requires the affirmative vote of at least two-thirds of the company's shareholders as, being entitled to do so, attend and vote (whether in person or by proxy) at a general meeting of the company. A quorum for such meeting will be present if the holders of at least one-third of issued and outstanding shares entitled to vote at the meeting are represented in person or by proxy.

In such case, our sponsor, officers and directors have agreed to vote their founder shares and any public shares purchased during or after this offering (including in open market and privately-negotiated transactions) in favor of our initial business combination (except that any public shares such parties may purchase in compliance with the requirements of Rule 14e-5 under the Exchange Act would not be voted in favor of approving the business combination transaction). As a result, in addition to our founder shares, we would need 7,500,001 public shares, or 37.5% of the 20,000,000 public shares sold in this offering, to be voted in favor of an initial business combination in order to have our initial business combination approved, assuming all outstanding shares are voted, the over-allotment option is not exercised and the parties to the letter agreement do not acquire any Class A ordinary shares. Assuming that only the holders of one-third of our issued and outstanding ordinary shares, representing a quorum under our amended and restated memorandum and articles of association, vote their shares at a general meeting of the company, we will not need any public shares in addition to our founder shares to be voted in favor of an initial business combination in order to approve an initial business combination.

Private warrants:

Our sponsor, X3 Acquisition Management LLC, has committed to purchase an aggregate of 5,000,000 private warrants (or 5,450,000 private warrants if the over-allotment option is exercised in full) at a price of \$1.00 per warrant, for an aggregate purchase price of \$5,000,000 (or \$5,450,000 if the over-allotment option is exercised in full). A portion of the purchase price of the private warrants will be added to the proceeds from this offering to be held in the trust account such that at the time of closing of this offering \$200,000,000 (or \$230,000,000 if the underwriters exercise their over-allotment option in full) will be held in the trust account. The private warrants will be identical to the public warrants sold as part of the units in this offering except that, so long as they are held by our sponsor or its permitted transferees, the private warrants (including the underlying securities) (i) may not, subject to certain limited exceptions, be transferred, assigned or sold by the holders until 30 days after the completion of our initial business combination and (ii) will be entitled to registration rights. If we do not complete our initial business combination within the completion window, the private warrants will expire worthless.

Transfer restrictions on private warrants:

The private warrants (including the underlying securities) will not be transferable, assignable or saleable until 30 days after the completion of our initial business combination, except as described herein under "*Principal Shareholders — Restrictions on Transfers of Founder Shares and Private Warrants.*"

Proceeds to be held in trust account:

Nasdaq rules provide that at least 90% of the gross proceeds from this offering and the sale of the private warrants be deposited in a trust account. Of the net proceeds we will receive from this offering and the sale of the private warrants described in this prospectus, \$200,000,000, or \$230,000,000 if the underwriters' over-allotment option is exercised in full (\$10.00 per unit in either case), will be deposited into a segregated U.S. based trust account with Continental Stock Transfer & Trust Company acting as trustee, and initially be invested only in U.S. government treasury obligations with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations; the holding of these assets in this form is intended to be temporary and for the sole purpose of facilitating the intended business combination. To mitigate the risk that we might be deemed to be an investment company for purposes of the Investment Company Act, which risk increases the longer that we hold investments in the trust account, we may, at any time (based on our management team's ongoing assessment of all factors related to our potential status under the Investment Company Act), instruct the trustee to liquidate the investments held in the trust account and instead to hold the funds in the trust account in cash or in an interest bearing demand deposit account at a bank. The proceeds to be placed in the trust account include \$5,000,000 (or \$5,750,000 if the underwriters' over-allotment option is exercised in full) in deferred underwriting commissions.

Except with respect to interest earned on the funds held in the trust account that may be released to us to pay our taxes, if any, the proceeds from this offering and the sale of the private warrants will not be released from the trust account until the earliest of (i) the completion of our initial business combination, (ii) the redemption of our public shares if we are unable to complete our initial business combination within the completion window, or (iii) the redemption of our public shares properly submitted in connection with a shareholder vote to amend our amended and restated memorandum and articles of association to (A) modify the substance or timing of our obligation to allow redemption in connection with our initial business combination or to redeem 100% of our public shares if we have not consummated an initial business combination within the completion window or (B) with respect to any other material provisions relating to shareholders' rights or pre-initial business combination activity, subject to applicable law. The proceeds deposited in the trust account could become subject to the claims of our creditors, if any, which could have priority over the claims of our public shareholders.

Ability to extend time to complete business combination

We have until the date that is 24 months from the closing of this offering (as may be extended by shareholder approval to amend our amended and restated memorandum and articles of association to extend the date by which we must consummate our initial business combination) or until such earlier liquidation date as our board of directors may approve, to consummate our initial business combination. If we anticipate that we may be unable to consummate our initial business combination within such 24-month period, we may seek shareholder approval to amend our amended and restated memorandum and articles of association to extend the date by which we must consummate our initial business combination. There are no limitations on the number of times we may seek shareholder approval for an extension or the length of time of any such extension. However, if we seek shareholder approval for an extension, holders of public shares will be offered an opportunity to redeem their shares at a per share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned thereon (less taxes payable), divided by the number of then issued and outstanding public shares, subject to applicable law.

If we are unable to complete our initial business combination within 24 months from the closing of this offering, or by such earlier liquidation date as our board of directors may approve, we will redeem 100% of the public shares at a per share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned thereon (less taxes payable and up to \$100,000 of interest income to pay dissolution expenses), divided by the number of then issued and outstanding public shares, subject to applicable law and certain conditions as further described herein.

Anticipated expenses and funding sources:

Unless and until we complete our initial business combination, no proceeds held in the trust account (including the interest thereon) will be available for our use, except the withdrawal of interest to pay our taxes and/or to redeem our public shares in connection with an amendment to our amended and restated memorandum and articles of association, as described above. The proceeds held in the trust account will initially be invested only in U.S. government treasury obligations with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations; the holding of these assets in this form is intended to be temporary and for the sole purpose of facilitating the intended business combination. To mitigate the risk that we might be deemed to be an investment company for purposes of the Investment Company Act, which risk increases the longer that we hold investments in the trust account, we may, at any time (based on our management team's ongoing assessment of all factors related to our potential status under the Investment Company Act), instruct the trustee to liquidate the investments held in the trust account and instead to hold the funds in the trust account in cash or in an interest bearing demand deposit account at a bank. Unless and until we complete our initial business combination, we may pay our expenses only from the following funding sources:

- the net proceeds of this offering and the sale of the private warrants not held in the trust account, which initially will be approximately \$1,250,000 in working capital after the payment of approximately \$750,000 in expenses relating to this offering; and
- any loans or additional investments from our sponsor, members of our management team or their respective affiliates or other third parties, although they are under no obligation to advance funds or invest in us; provided that any such loans will not have any claim on the proceeds held in the trust account unless such proceeds are released to us upon completion of our initial business combination. Up to \$1,500,000 of such loans may be convertible into private warrants, at a price of \$1.00 per warrant, at the option of the applicable lender.

Conditions to completing our initial business combination:

Nasdaq rules require that we must complete one or more business combinations having an aggregate fair market value of at least 80% of the value of the assets held in the trust account (excluding the deferred underwriting commissions and taxes payable on the interest earned on the trust account) at the time of the agreement to enter into the initial business combination. Our board of directors will make the determination as to the fair market value of our initial business combination. If our board of directors is not able to independently determine the fair market value of our initial business combination, we will obtain an opinion from an independent investment banking firm or another independent entity that commonly renders valuation opinions with respect to the satisfaction of such criteria. While we consider it likely that our board of directors will be able to make an independent determination of the fair market value of our initial business combination, it may be unable to do so if it is less familiar or experienced with the business of a particular target or if there is a significant amount of uncertainty as to the value of the target's assets or prospects. Additionally, pursuant to Nasdaq rules, any initial business combination must be approved by a majority of our independent directors. We will complete our initial business combination only if the post-transaction company in which our public shareholders own shares will own or acquire 50% or more of the outstanding voting securities of the target or is otherwise not required to register as an investment company under the Investment Company Act. Even if the post-transaction company owns or acquires 50% or more of the voting securities of the target, our shareholders prior to our initial business combination may collectively own a minority interest in the post business combination company, depending on valuations ascribed to the target and us in the business combination transaction. For example, we could pursue a transaction in which we issue a substantial number of new shares in exchange for all of the outstanding capital stock, shares or other equity interests of a target. In this case, we would acquire a 100% controlling interest in the target. However, as a result of the issuance of a substantial number of new shares, our shareholders immediately prior to our initial business combination could own less than a majority of our issued and outstanding shares subsequent to our initial business combination.

If less than 100% of the equity interests or assets of a target business or businesses are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or acquired is what will be taken into account for purposes of the 80% of net assets test described above, provided that in the event that the business combination involves more than one target business, the aggregate value of all of the target businesses will be taken into account for purposes of the 80% fair market value test and we will treat the transactions together as our initial business combination for purposes of seeking shareholder approval or conducting a tender offer, as applicable.

Permitted purchases of public shares and public warrants by our affiliates:

If we seek shareholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our sponsor, initial shareholders, directors, officers, advisor or their respective affiliates may purchase shares or public warrants in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination. Additionally, at any time at or prior to our initial business combination, subject to applicable securities laws (including with respect to material nonpublic information), our sponsor, initial shareholders, directors, officers, advisor or their respective affiliates may enter into transactions with investors and others to provide them with incentives to acquire public shares, vote their public shares in favor of our initial business combination or not redeem their public shares. There is no limit on the number of shares our initial shareholders, directors, officers, advisor or their respective affiliates may purchase in such transactions, subject to compliance with applicable law and Nasdaq rules. However, they have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions. None of the funds held in the trust account will be used to purchase shares or public warrants in such transactions. If they engage in such transactions, they will not make any such purchases when they are in possession of any material nonpublic information not disclosed to the seller or if such purchases are prohibited by Regulation M under the Securities Exchange Act of 1934, as amended, or the Exchange Act. We do not currently anticipate that such purchases, if any, would constitute a tender offer subject to the tender offer rules under the Exchange Act or a going-private transaction subject to the going-private rules under the Exchange Act; however, if the purchasers determine at the time of any such purchases that the purchases are subject to such rules, the purchasers will comply with such rules. Any such purchases will be reported pursuant to Section 13 and Section 16 of the Exchange Act to the extent such purchasers are subject to such reporting requirements. See “*Effecting Our Initial Business Combination — Permitted Purchases of Our Securities*,” for a description of how our sponsor, initial shareholders, directors, officers, advisor or any of their affiliates will select which shareholders to purchase securities from in any private transaction. Our sponsor, directors, officers or any of their affiliates will not make any purchases if the purchases would violate Section 9(a)(2) or Rule 10b-5 of the Exchange Act.

Additionally, in the event our sponsor, initial shareholders, directors, officers, advisor or their respective affiliates were to purchase shares or warrants from public shareholders such purchases would be structured in compliance with the requirements of Rule 14e-5 under the Exchange Act including, in pertinent part, through adherence to the following:

- our registration statement/proxy statement filed for our business combination transaction would disclose the possibility that our sponsor, initial shareholders, directors, officers, advisor or their respective affiliates may purchase shares or warrants from public shareholders outside the redemption process, along with the purpose of such purchases;
- if our sponsor, initial shareholders, directors, officers, advisor or their respective affiliates were to purchase shares or warrants from public shareholders, they would do so at a price no higher than the price offered through our redemption process;
- our registration statement/proxy statement filed for our business combination transaction would include a representation that any of our securities purchased by our sponsor, initial shareholders, directors, officers, advisor or their respective affiliates would not be voted in favor of approving the business combination transaction;
- our sponsor, initial shareholders, directors, officers, advisor or their respective affiliates would not possess any redemption rights with respect to our securities or, if they do acquire and possess redemption rights, they would waive such rights; and

- we would disclose in a Form 8-K, before our security holder meeting to approve the business combination transaction, the following material items:
- the amount of our securities purchased outside of the redemption offer by our sponsor, initial shareholders, directors, officers, advisor or their respective affiliates, along with the purchase price;
- the purpose of the purchases by our sponsor, initial shareholders, directors, officers, advisor or their respective affiliates;
- the impact, if any, of the purchases by our sponsor, initial shareholders, directors, officers, advisor or their respective affiliates on the likelihood that the business combination transaction will be approved;
- the identities of our security holders who sold to our sponsor, initial shareholders, directors, officers, advisor or their respective affiliates (if not purchased on the open market) or the nature of our security holders (e.g., 5% security holders) who sold to our sponsor, initial shareholders, directors, officers, advisor or their respective affiliates; and
- the number of our securities for which we have received redemption requests pursuant to our redemption offer.

See “*Effecting Our Initial Business Combination — Permitted Purchases of Our Securities*” for a description of how such persons will determine from which shareholders to seek to acquire securities.

The purpose of any such transaction could be to (1) increase the likelihood of obtaining shareholder approval of the business combination, (2) reduce the number of public warrants outstanding and/or increase the likelihood of approval on any matters submitted to the public warrant holders for approval in connection with our initial business combination or (3) satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of our initial business combination, where it appears that such requirement would otherwise not be met.

Any such purchases of our securities may result in the completion of our initial business combination that may not otherwise have been possible. To the extent such securities are purchased, such public securities will not be voted as required by Tender Offers and Schedules Compliance and Disclosure Interpretations Question 166.01 promulgated by the SEC. In addition, if such purchases are made, the public “float” of our securities may be reduced and the number of beneficial holders of our securities may be reduced, which may make it difficult to maintain or obtain the quotation, listing or trading of our securities on a national securities exchange. See “*Risk Factors — Risks Relating to Our Search for, and Consummation of or Inability to Consummate, a Business Combination — If we seek shareholder approval of our initial business combination, our sponsor, initial shareholders, directors, officers, advisor and their respective affiliates may elect to purchase shares or public warrants from public shareholders, which may influence a vote on a proposed business combination and reduce the public “float” of our Class A ordinary shares or public warrants.*”

Redemption rights for public shareholders upon completion of our initial business combination:

We will provide our public shareholders with the opportunity to redeem, regardless of whether they abstain, vote for, or vote against, our initial business combination, all or a portion of their public shares upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account calculated as of two business days prior to the consummation of our initial business combination, including interest earned on the funds held in the trust account (less taxes payable), divided by the number of then outstanding public shares, subject to the limitations and on the conditions described herein. The amount in the trust account is initially anticipated to be \$10.00 per public share. The per share amount we will distribute to investors who properly redeem their shares will not be reduced by the deferred underwriting commissions we will pay to the underwriters. There will be no redemption rights upon the completion of our initial business combination with respect to our warrants. Our sponsor, officers and directors have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to their founder shares and any public shares they may acquire during or after this offering in connection with the completion of our initial business combination.

Manner of conducting redemptions:

We will provide our public shareholders with the opportunity to redeem all or a portion of their public shares, regardless of whether they abstain, vote for, or vote against, our initial business combination, upon the completion of our initial business combination either (i) in connection with a general meeting called to approve the initial business combination or (ii) without a shareholder vote by means of a tender offer. The decision as to whether we will seek shareholder approval of a proposed initial business combination or conduct a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors such as the timing of the transaction and whether the terms of the transaction would require us to seek shareholder approval under applicable law or stock exchange listing requirements. Asset acquisitions and share purchases would not typically require shareholder approval while direct mergers with our company (other than with a 90% subsidiary of ours) and any transactions where we issue more than 20% of our issued and outstanding Class A ordinary shares or seek to amend our amended and restated memorandum and articles of association would require shareholder approval. So long as we obtain and maintain a listing for our securities on Nasdaq, we will be required to comply with Nasdaq's shareholder approval rules.

The requirement that we provide our public shareholders with the opportunity to redeem their public shares by one of the two methods listed above are contained in provisions of our amended and restated memorandum and articles of association and will apply whether or not we maintain our registration under the Exchange Act or our listing on Nasdaq. Such provisions may be amended if approved by a special resolution, which requires the affirmative vote of at least two-thirds of the company's shareholders as, being entitled to do so, attend and vote (whether in person or by proxy) at a general meeting of the company of which notice specifying the intention to propose the resolution as a special resolution has been duly given, or a unanimous written resolution of all of the company's shareholders entitled to vote on such matter.

If we provide our public shareholders with the opportunity to redeem their public shares in connection with a general meeting, we will:

- conduct the redemptions in conjunction with a proxy solicitation pursuant to Regulation 14A of the Exchange Act, which regulates the solicitation of proxies, and not pursuant to the tender offer rules, and
- file proxy materials with the SEC.

If we seek shareholder approval, we will complete our initial business combination only if we receive an ordinary resolution under Cayman Islands law and our amended and restated memorandum and articles of association, which requires the affirmative vote of a majority of the company's shareholders as, being entitled to do so, attend and vote (whether in person or by proxy) at a general meeting of the company. A quorum for such meeting will be present if the holders of at least one-third of issued and outstanding shares entitled to vote at the meeting are represented in person or by proxy. Our initial shareholders will count toward this quorum and, pursuant to the letter agreement, our sponsor, officers and directors have agreed to vote their founder shares and any public shares purchased during or after this offering (including in open market and privately-negotiated transactions) in favor of our initial business combination (except that any public shares such parties may purchase in compliance with the requirements of Rule 14e-5 under the Exchange Act would not be voted in favor of approving the business combination transaction). For purposes of seeking approval of an ordinary resolution, non-votes will have no effect on the approval of our initial business combination once a quorum is obtained.

As a result, in addition to our founder shares, we would need 7,500,001 public shares, or 37.5% of the 20,000,000 public shares sold in this offering, to be voted in favor of an initial business combination in order to have our initial business combination approved, assuming all outstanding shares are voted, the over-allotment option is not exercised and the parties to the letter agreement do not acquire any Class A ordinary shares. Assuming that only the holders of one-third of our issued and outstanding ordinary shares, representing a quorum under our amended and restated memorandum and articles of association, vote their shares at a general meeting of the company, we will not need any public shares in addition to our founder shares to be voted in favor of an initial business combination in order to approve an initial business combination. However, if our initial business combination is structured as a statutory merger or consolidation of the company with another company under Cayman Islands law, the approval of our initial business combination will require a special resolution, which requires the affirmative vote of at least two-thirds of the company's shareholders as, being entitled to do so, attend and vote (whether in person or by proxy) at a general meeting of the company of which notice specifying the intention to propose the resolution as a special resolution has been duly given, or a unanimous written resolution of all of the company's shareholders entitled to vote on such matter. In addition, prior to the closing of our initial business combination, only holders of our Class B ordinary shares (i) will have the right to appoint and remove directors prior to, or in connection with, the completion of our initial business combination; and (ii) will be entitled to vote on continuing our company in a jurisdiction outside the Cayman Islands (including any special resolution required to amend our constitutional documents or to adopt new constitutional documents, in each case, as a result of our approving a transfer by way of continuation in a jurisdiction outside the Cayman Islands). These quorum and voting thresholds, and the voting agreements of our initial shareholders, may make it more likely that we will consummate our initial business combination. Each public shareholder may elect to redeem their public shares irrespective of whether they vote for or against the proposed transaction, or whether they do not vote or abstain from voting on the proposed transaction, or whether they were a public shareholder on the record date for the general meeting held to approve the proposed transaction.

If a shareholder vote is not required and we do not decide to hold a shareholder vote for business or other legal reasons, we will:

- conduct the redemptions pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, which regulate issuer tender offers, and
- file tender offer documents with the SEC prior to completing our initial business combination which contain substantially the same financial and other information about our initial business combination and the redemption rights as is required under Regulation 14A of the Exchange Act, which regulates the solicitation of proxies.

In the event we conduct redemptions pursuant to the tender offer rules, our offer to redeem will remain open for at least 20 business days, in accordance with Rule 14e-1(a) under the Exchange Act, and we will not be permitted to complete our initial business combination until the expiration of the tender offer period. In addition, the tender offer will be conditioned on public shareholders not tendering more than the number of shares we are permitted to redeem. If public shareholders tender more shares than we have offered to purchase, we will withdraw the tender offer and not complete such initial business combination.

Upon the public announcement of our initial business combination, if we elect to conduct redemptions pursuant to the tender offer rules, we or our sponsor will terminate any plan established in accordance with Rule 10b5-1 to purchase our Class A ordinary shares in the open market, in order to comply with Rule 14e-5 under the Exchange Act.

We intend to require our public shareholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in “street name,” to, at the holder’s option, either deliver their share certificates (if any) to our transfer agent or deliver their shares to our transfer agent electronically using the Depository Trust Company’s DWAC (Deposit/Withdrawal At Custodian) system, prior to the date set forth in the proxy materials or tender offer documents, as applicable. In the case of proxy materials, this date may be up to two business days prior to the scheduled vote on the proposal to approve the initial business combination. In addition, if we conduct redemptions in connection with a shareholder vote, we intend to require a public shareholder seeking redemption of its public shares to also submit a written request for redemption to our transfer agent two business days prior to the scheduled vote in which the name of the beneficial owner of such shares is included. The proxy materials or tender offer documents, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will indicate whether we are requiring public shareholders to satisfy such delivery requirements.

We believe that this will allow our transfer agent to efficiently process any redemptions without the need for further communication or action from the redeeming public shareholders, which could delay redemptions and result in additional administrative cost. If the proposed initial business combination is not approved and we continue to search for a target company, we will promptly return any certificates or shares delivered by public shareholders who elected to redeem their shares.

Our proposed initial business combination may impose a minimum cash requirement for (i) cash consideration to be paid to the target or its owners, (ii) cash for working capital or other general corporate purposes or (iii) the retention of cash to satisfy other conditions. In the event the aggregate cash consideration we would be required to pay for all Class A ordinary shares that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed initial business combination exceed the aggregate amount of cash available to us, we will not complete the initial business combination or redeem any shares, and all Class A ordinary shares submitted for redemption will be returned to the holders thereof. We may, however, raise funds through the issuance of equity-linked securities or through loans, advances or other indebtedness in connection with our initial business combination, including pursuant to forward purchase agreements or backstop arrangements we may enter into following consummation of this offering, in order to, among other reasons, satisfy such net tangible assets or minimum cash requirements.

Limitation on redemption rights of shareholders holding 15% or more of the shares sold in this offering if we hold shareholder vote:

Notwithstanding the foregoing redemption rights, if we seek shareholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated memorandum and articles of association provide that a public shareholder, together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from redeeming its shares with respect to more than an aggregate of 15% of the shares sold in this offering without our prior consent. We believe the restriction described above will discourage shareholders from accumulating large blocks of shares, and subsequent attempts by such holders to use their ability to redeem their shares as a means to force us or our management to purchase their shares at a significant premium to the then-current market price or on other undesirable terms. Absent this provision, a public shareholder holding more than an aggregate of 15% of the shares sold in this offering could threaten to exercise its redemption rights against a business combination if such holder’s shares are not purchased by us, our sponsor or our management at a premium to the then-current market price or on other undesirable terms. By limiting our shareholders’ ability to redeem to no more than 15% of the shares sold in this offering, we believe we will limit the ability of a small group of shareholders to unreasonably attempt to block our ability to complete our initial business combination, particularly in connection with a business combination with a target that requires as a closing condition that we have a minimum net worth or a certain amount of cash. However, we would not be restricting our shareholders’ ability to vote all of their shares (including all shares held by those shareholders that hold more than 15% of the shares sold in this offering) for or against our initial business combination.

Release of funds in trust account on closing of our initial business combination:

On the completion of our initial business combination, the funds held in the trust account will be used to pay amounts due to any public shareholders who exercise their redemption rights as described above under “— *Redemption rights for public shareholders upon completion of our initial business combination*,” to pay the underwriters their deferred underwriting commissions, to pay all or a portion of the consideration payable to the target or owners of the target of our initial business combination and to pay other expenses associated with our initial business combination. If our initial business combination is paid for using equity or debt securities, or not all of the funds released from the trust account are used for payment of the consideration in connection with our initial business combination, we may use the balance of the cash released to us from the trust account following the closing for general corporate purposes, including for maintenance or expansion of operations of post-transaction businesses, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, to fund the purchase of other companies or for working capital.

Redemption of public shares and distribution and liquidation if no initial business combination:

Our amended and restated memorandum and articles of association provide that we will have only the completion window to complete our initial business combination. If we have not completed our initial business combination within such time period, we will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter (and subject to lawfully available funds therefor), redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account (which interest shall be net of taxes and less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then-outstanding public shares, which redemption will completely extinguish public shareholders' rights as shareholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining shareholders and our board of directors, liquidate and dissolve, subject in each case to our obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to our warrants, which will expire worthless if we fail to complete our initial business combination within the completion window.

Our sponsor, officers and directors have entered into a letter agreement with us, pursuant to which they have waived their rights to liquidating distributions from the trust account with respect to any founder shares held by them if we fail to complete our initial business combination within the completion window, although they will be entitled to liquidating distributions from assets outside the trust account. However, if our initial shareholders or management team acquire public shares in or after this offering, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to complete our initial business combination within the completion window.

The underwriters have agreed to waive their rights to their deferred underwriting commission held in the trust account in the event we do not complete our initial business combination within the completion window and, in such event, such amounts will be included with the funds held in the trust account that will be available to fund the redemption of our public shares.

Our sponsor, officers and directors have agreed, pursuant to a letter agreement, that they will not propose any amendment to our amended and restated memorandum and articles of association (A) to modify the substance or timing of our obligation to allow redemption in connection with our initial business combination or to redeem 100% of our public shares if we do not complete our initial business combination within the completion window or (B) with respect to any other material provisions relating to shareholders' rights or pre-initial business combination activity, in each case unless we provide our public shareholders with the opportunity to redeem their Class A ordinary shares upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account (less taxes payable), divided by the number of then outstanding public shares. For example, our board of directors may propose such an amendment if it determines that additional time is necessary to complete our initial business combination. In such event, we will conduct a proxy solicitation and distribute proxy materials pursuant to Regulation 14A of the Exchange Act seeking shareholder approval of such proposal, and in connection therewith, provide our public shareholders with the redemption rights described above upon shareholder approval of such amendment.

Limited payments to insiders:

We are not prohibited from paying any fees (including advisory fees), reimbursements or cash payments to our sponsor, officers or directors, or our or their affiliates, for services rendered to us prior to or in connection with the completion of our initial business combination, including the following payments, all of which, if made prior to the completion of our initial business combination, will be paid from funds held outside the trust account:

- Repayment of up to an aggregate of \$400,000 in loans made to us by our sponsor to cover offering-related and organizational expenses;
- Reimbursement for office space, utilities and secretarial and administrative support made available to us by our sponsor or an affiliate thereof, in an amount equal to \$10,000 per month;
- Payment of consulting, success or finder fees to our sponsor, officers or directors, advisors, or our or their affiliates in connection with the consummation of our initial business combination;
- We may engage our sponsor or an affiliate of our sponsor as an advisor or otherwise in connection with our initial business combination and certain other transactions and pay such person or entity a salary or fee in an amount that constitutes a market standard for comparable transactions;
- Reimbursement for any out-of-pocket expenses related to identifying, investigating, negotiating and completing an initial business combination; and
- Repayment of loans which may be made by our sponsor or an affiliate of our sponsor or certain of our officers and directors to finance transaction costs in connection with an intended initial business combination. Up to \$1,500,000 of such loans may be convertible into warrants of the post-business combination entity at a price of \$1.00 per warrant at the option of the applicable lender. Such warrants would be identical to the private warrants. Except for the foregoing, the terms of such loans, if any, have not been determined and no written agreements exist with respect to such loans.

Audit committee:

We have established and will maintain an audit committee, which is composed entirely of independent directors as required by the rules of Nasdaq and Rule 10A of the Exchange Act. Among its responsibilities, the audit committee will review on a quarterly basis all payments that were made to our sponsor, officers or directors, or our or their affiliates and monitor compliance with the other terms relating to this offering. If any noncompliance is identified, then the audit committee will be charged with the responsibility to promptly take all action necessary to rectify such noncompliance or otherwise to cause compliance with the terms of this offering. For more information, see “*Management — Committees of the Board of Directors — Audit Committee.*”

Conflicts of Interest:

Each of our officers and directors presently has, and any of them in the future may have additional, fiduciary, contractual or other obligations or duties to one or more other entities pursuant to which such officer or director is or will be required to present a business combination opportunity to such entities. Accordingly, if any of our officers or directors becomes aware of a business combination opportunity which is suitable for an entity to which he or she has then current fiduciary or contractual obligations, he or she may be required to honor his or her fiduciary or contractual obligations to present such business combination opportunity to such other entity. Our amended and restated memorandum and articles of association provide that, to the fullest extent permitted by law: (i) no individual serving as a director or an officer, among other persons, shall have any duty, except and to the extent expressly assumed by contract, to refrain from engaging directly or indirectly in the same or similar business activities or lines of business as us, and (ii) we renounce any interest or expectancy in, or in being offered an opportunity to participate in, any potential transaction or matter which (a) may be a corporate opportunity for any director or officer, on the one hand, and us, on the other or (b) the presentation of which would breach an existing legal obligation of a director or officer to any other entity. As a result, the fiduciary duties or contractual obligations of our officers or directors could materially affect our ability to complete our initial business combination.

Our sponsor, officers or directors may sponsor or form other special purpose acquisition companies similar to ours or may pursue other business or investment ventures during the period in which we are seeking an initial business combination. As a result, our sponsor, officers and directors could have conflicts of interest in determining whether to present business combination opportunities to us or to any other special purpose acquisition company with which they may become involved. Any such companies, businesses or investments may present additional conflicts of interest in pursuing an initial business combination target, which could materially affect our ability to complete our initial business combination. The other entities to which our officers and directors currently owe fiduciary duties or contractual obligations are not themselves in the business of engaging in business combinations. In order to minimize potential conflicts of interest which may arise from multiple affiliations with SPACs, unless a business combination opportunity is expressly offered to us or to one of our directors or officers solely in his or her capacity as our director and/or officer and such opportunity is one we are permitted to undertake and would otherwise be reasonable for us to pursue, subject to their other legal obligations, we expect that our officers and directors who are also officers and/or directors of other SPACs will present suitable target businesses to us and the other applicable SPACs based on which SPAC went public first and taking into account any contractual restrictions applicable to each such SPAC and other reasonable considerations (including but not limited to the relative sizes of the SPACs and the amount in trust compared to the sizes of the targets, the need or desire for additional financings, the amount of time required to complete a business combination and the relevant experience of the directors and officers involved with a particular blank check company).

Our executive officers and our directors may have interests that differ from you in connection with the business combination, including the fact that they may lose their entire investment in us if our initial business combination is not completed, except to the extent they receive liquidating distributions from assets outside the trust account, and accordingly, may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination.

Our sponsor and members of our management team will directly or indirectly own our securities following this offering, and accordingly, they may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination, including the fact that they may lose their entire investment in us if our initial business combination is not completed, except to the extent they receive liquidating distributions from assets outside the trust account. Upon the closing of this offering, our sponsor will have invested in us an aggregate of \$5,025,000 (\$5,475,000 if the underwriters' over-allotment option is exercised in full), comprised of the \$25,000 purchase price for the founder shares (or approximately \$0.004 per share) and the \$5,000,000 purchase price (or \$5,450,000 if the underwriters' over-allotment option is exercised in full) for the private warrants (or \$1.00 per private warrant). Accordingly, our management team may be more willing to pursue a business combination with a riskier or less-established target business than would be the case if our sponsor had paid the same per share price for the founder shares as our public shareholders paid for their public shares in this offering, as our sponsor and members of our management team would likely not receive any financial benefit unless we consummated such business combination. These interests of our executive officers and directors may affect the consideration paid, terms, conditions and timing relating to a business combination in a way that conflicts with the interests of our public shareholders.

Additionally, the personal and financial interests of our directors and executive officers may influence their motivation in timely identifying and pursuing an initial business combination or completing our initial business combination. The different timelines of competing business combinations could cause our directors and executive officers to prioritize a different business combination over finding a suitable acquisition target for our business combination. For example, if two targets are being evaluated by our management team, and one is more stable and has a better risk or stability profile for our public shareholders, but may take a longer time to diligence and go through the business combination process, while the other has a less favorable risk or stability profile for our public shareholders, but would be easier, quicker and more certain to guide through the business combination process, our management team may decide to choose what they believe to be the quicker and more certain path despite its less favorable risk or stability profile for our public shareholders, as our management team would likely not receive any financial benefit unless we consummated a business combination. Additionally, if members of our management team form other special purpose acquisition companies similar to ours or pursue other business or investment ventures during the period in which we are seeking an initial business combination, the consideration paid, terms, conditions and timing relating to the business combinations of such other special purpose acquisition companies or ventures, and the level of attention paid to by members of our management team to them versus the level of attention paid to us may conflict in a way that is unfavorable to us. Consequently, our directors' and executive officers' discretion in identifying and selecting a suitable target business may result in a conflict of interest when determining whether the terms, conditions and timing of a particular business combination are appropriate and in our shareholders' best interest, which could negatively impact the timing for a business combination.

In addition to the above, our officers and directors are not required to commit any specified amount of time to our affairs, and, accordingly, may have conflicts of interest in allocating management time among various business activities, including selecting a business combination target and monitoring the related due diligence. See *"Risk Factors — Risks Relating to Our Management Team — Our officers and directors will allocate their time to other businesses thereby causing conflicts of interest in their determination as to how much time to devote to our affairs. This conflict of interest could have a negative impact on our ability to complete our initial business combination."*

Additionally, our sponsor and executive officers and directors have agreed to waive their redemption rights with respect to any founder shares and any public shares held by them in connection with the consummation of our initial business combination. Further, our sponsor and executive officers and directors have agreed to waive their redemption rights with respect to any founder shares held by them if we are unable to complete our initial business combination within 24 months from the closing of this offering or by such earlier liquidation date as our board of directors may approve. If we do not complete our initial business combination within such applicable time period, the proceeds of the sale of the private warrants held in the trust account will be used to fund the redemption of our public shares, and the private warrants will expire worthless. With certain limited exceptions, the founder shares will not be transferable, assignable or salable by our sponsor or its permitted transferees until 180 days after the completion of our

initial business combination. With certain limited exceptions, the private warrants (including the underlying securities) will not be transferable, assignable or salable by our sponsor or its permitted transferees until 30 days after the completion of our initial business combination. Since our sponsor and executive officers and directors may directly or indirectly own ordinary shares and warrants following this offering, our executive officers and directors may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination because of their financial interest in completing an initial business combination within 24 months from the closing of this offering or by such earlier liquidation date as our board of directors may approve.

Upon consummation of this offering or thereafter, we will repay up to \$400,000 in loans made to us by our sponsor to cover offering-related and organizational expenses, and we will begin paying an affiliate of our sponsor \$10,000 per month for office space, utilities and secretarial and administrative support. In the event that following this offering we obtain working capital loans from our sponsor or any of its affiliates or from our officers or directors to finance transaction costs related to our initial business combination, up to \$1,500,000 of such loans may be convertible into private warrants of the post-business combination entity at a price of \$1.00 per warrant at the option of our sponsor. In the event our sponsor or members of our management team provide loans to us to finance transaction costs and/or incur expenses on our behalf in connection with an initial business combination, such persons may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination as such loans may not be repaid and/or such expenses may not be reimbursed unless we consummate such business combination.

Similarly, if we agree to pay our sponsor, officers or directors, advisors, or our or their affiliates a finder's fee, advisory fee, consulting fee or success fee in order to effectuate the completion of our initial business combination, such persons may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination as any such fee may not be paid unless we consummate such business combination.

We are not prohibited from pursuing an initial business combination with a company that is affiliated with our sponsor, officers or directors, or completing the business combination through a joint venture or other form of shared ownership with our sponsor, officers or directors; accordingly, such affiliated person(s) may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination as such affiliated person(s) would have interests different from our public shareholders and would likely not receive any financial benefit unless we consummated such business combination.

Indemnity by the sponsor in the event of liquidation without a business combination:

Our sponsor has agreed that it will be liable to us if and to the extent any claims by a third party for services rendered or products sold to us, or a prospective target business with which we have entered into a written letter of intent, confidentiality or other similar agreement or business combination agreement (except for the Company's independent auditors), reduce the amount of funds in the trust account to below the lesser of (i) \$10.00 per public share and (ii) the actual amount per public share held in the trust account as of the date of the liquidation of the trust account, if less than \$10.00 per public share due to reductions in the value of the trust assets, less taxes paid or payable and up to \$100,000 to pay dissolution expenses, provided that such liability will not apply to any claims by a third party or prospective target business who executed a waiver of any and all rights to the monies held in the trust account (whether or not such waiver is enforceable) nor will it apply to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. However, we have not asked our sponsor to reserve for such indemnification obligations, nor have we independently verified whether our sponsor has sufficient funds to satisfy its indemnity obligations and we believe that our sponsor's only assets are securities of our company. Therefore, we cannot assure you that our sponsor would be able to satisfy those obligations. As a result, if any such claims were successfully made against the trust account, the funds available for our initial business combination and redemptions could be reduced to less than \$10.00 per public share.

SUMMARY FINANCIAL DATA

The following table summarizes the relevant financial data for our business and should be read with our financial statements, which are included in this prospectus. We have not had any significant operations to date, so only balance sheet data is presented.

	September 30, 2025	
	Actual	As Adjusted
Balance Sheet Data:		
Working capital (deficit) ⁽¹⁾	\$ (221,736)	\$ 913,880
Total assets ⁽²⁾	\$ 242,416	\$ 201,236,180
Total liabilities ⁽³⁾	\$ 256,236	\$ 5,322,300
Value of ordinary shares subject to possible redemption ⁽⁴⁾	\$ —	\$ 200,000,000
Shareholders' deficit ⁽⁵⁾	\$ (13,820)	\$ (4,086,120)

- (1) The "as adjusted" calculation includes \$1,250,000 held outside of trust, \$13,820 of actual shareholders' deficit on September 30, 2025, less \$322,300 of over-allotment liability.
- (2) The "as adjusted" calculation equals \$200,000,000 of cash held in trust from the proceeds of this offering, \$1,250,000 of cash held outside of trust for working capital, from the sale of the private warrants, plus \$13,820 of actual shareholders' deficit on September 30, 2025.
- (3) The "as adjusted" calculation equals \$5,000,000 of deferred underwriting commissions, assuming the over-allotment option is not exercised, plus the over-allotment liability of \$322,300.
- (4) The "as adjusted" calculation represents the 20,000,000 ordinary shares at \$10.00 per share sold in the offering.
- (5) The "as adjusted" calculation excludes 20,000,000 ordinary shares purchased in the offering which are subject to redemption in connection with our initial business combination. The "as adjusted" calculation equals the "as adjusted" total assets, less the "as adjusted" total liabilities, less the value of ordinary shares that may be converted in connection with our initial business combination (\$10.00 per share).

RISKS

We are a recently incorporated company that has conducted no operations and has generated no revenues. Until we complete our initial business combination, we will have no operations and will generate no operating revenues. In making your decision whether to invest in our securities, you should take into account not only the background of our management team, but also the special risks we face as a blank check company. This offering is not being conducted in compliance with Rule 419 promulgated under the Securities Act. Accordingly, you will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings. See “*Proposed Business — Comparison of This Offering to Those of Blank Check Companies Subject to Rule 419*” for additional information concerning how Rule 419 blank check offerings differ from this offering. You should carefully consider these and the other risks set forth in the section entitled “*Risk Factors*” in this prospectus.

Summary of Risk Factors

An investment in our securities involves a high degree of risk. The occurrence of one or more of the events or circumstances described in the section titled “*Risk Factors*,” alone or in combination with other events or circumstances, may materially adversely affect our business, financial condition and operating results. In that event, the trading price of our securities could decline, and you could lose all or part of your investment. Such risks include, but are not limited to:

- We are a blank check company with no operating history and no revenues, and you have no basis on which to evaluate our ability to achieve our business objective.
- Our public shareholders may not be afforded an opportunity to vote on our proposed initial business combination, and even if we hold a vote, holders of our founder shares will participate in such vote, which means we may complete our initial business combination even though a majority of our public shareholders do not support such a combination.
- Your only opportunity to effect your investment decision regarding a potential business combination may be limited to the exercise of your right to redeem your shares from us for cash.
- Our sponsor will control the appointment of our board of directors until consummation of our initial business combination and will hold a substantial interest in us. As a result, it will appoint all of our directors prior to the consummation of our initial business combination and may exert a substantial influence on actions requiring a shareholder vote, potentially in a manner that you do not support.
- If we seek shareholder approval of our initial business combination, our initial shareholders and management team have agreed to vote in favor of such initial business combination, regardless of how our public shareholders vote and, under certain circumstances, we may not need any public shares in addition to the founder shares to approve an initial business combination.
- The ability of our public shareholders to redeem their shares for cash may make our financial condition unattractive to potential business combination targets, which may make it difficult for us to enter into a business combination with a target.
- The ability of our public shareholders to exercise redemption rights with respect to a large number of our shares and the amount of deferred underwriting compensation may not allow us to complete the most desirable business combination or optimize our capital structure, and may substantially dilute your investment in us.
- The requirement that we complete our initial business combination within the completion window may give potential target businesses leverage over us in negotiating a business combination and may limit the time we have in which to conduct due diligence on potential business combination targets, in particular as we approach our dissolution deadline, which could undermine our ability to complete our initial business combination on terms that would produce value for our shareholders.

- If we seek shareholder approval of our initial business combination, our sponsor, initial shareholders, directors, officers, advisor and their respective affiliates may elect to purchase shares or public warrants from public shareholders, which may influence a vote on a proposed business combination and reduce the public “float” of our Class A ordinary shares or public warrants.
- You will not have any rights or interests in funds from the trust account, except under certain limited circumstances. Therefore, to liquidate your investment, you may be forced to sell your public shares or warrants, potentially at a loss.
- Nasdaq may delist our securities from trading on its exchange, which could limit investors’ ability to make transactions in our securities and subject us to additional trading restrictions.
- The nominal purchase price paid by our sponsor for the founder shares may result in significant dilution to the implied value of your public shares upon the consummation of our initial business combination, and our sponsor is likely to make a substantial profit on its investment in us in the event we consummate an initial business combination, even if the business combination causes the trading price of our ordinary shares to materially decline.
- The value of the founder shares following completion of our initial business combination is likely to be substantially higher than the nominal price paid for them, even if the trading price of our Class A ordinary shares at such time is substantially less than the \$10.00 per share initially placed into the trust account.
- You will not be entitled to protections normally afforded to investors of other blank check companies subject to Rule 419 of the Securities Act.
- Past performance by our management team, our advisor and their respective affiliates, including investments and transactions in which they have participated and businesses with which they have been associated, may not be indicative of future performance of an investment in the company.
- We may be a passive foreign investment company, or “PFIC,” which could result in adverse United States federal income tax consequences to U.S. investors.
- To mitigate the risk that we might be deemed to be an investment company for purposes of the Investment Company Act, which risk increases the longer that we hold investments in the trust account, we may, at any time (based on our management team’s ongoing assessment of all factors related to our potential status under the Investment Company Act), instruct the trustee to liquidate the investments held in the trust account and instead to hold the funds in the trust account in cash or in an interest bearing demand deposit account at a bank until the earlier of the consummation of our initial business combination or our liquidation. As a result, following the liquidation of investments in the trust account, we would likely receive less interest on the funds held in the trust account than we would have had the trust account remained as initially invested, such that our public shareholders would receive less upon any redemption or liquidation of the Company than what they would have received had the investments not been liquidated.
- If we are deemed to be an investment company under the Investment Company Act, we may be required to institute burdensome compliance requirements and our activities may be restricted, which may make it difficult for us to complete our initial business combination.
- Changes in laws or regulations, or a failure to comply with any laws and regulations, may adversely affect our business, including our ability to negotiate and complete our initial business combination, and results of operations.
- The outbreak of infectious diseases, endemics, pandemics and other public health crises and the impact on businesses and debt and equity markets could have a material adverse effect on our search for an initial business combination, and any target business with which we ultimately consummate an initial business combination.
- Military or other conflicts in Ukraine, the Middle East or elsewhere may lead to increased volume and price volatility for publicly traded securities, or affect the operations or financial condition of potential target companies, which could make it more difficult for us to consummate an initial business combination.
- An investment in this offering may result in uncertain U.S. federal income tax consequences.
- The other risks and uncertainties discussed in “*Risk Factors*” and elsewhere in this prospectus.

RISK FACTORS

An investment in our securities involves a high degree of risk. You should consider carefully all of the risks described below, together with the other information contained in this prospectus, before making a decision to invest in our units. If any of the following events occur, our business, financial condition and operating results may be materially adversely affected. In that event, the trading price of our securities could decline, and you could lose all or part of your investment.

Risks Relating to Our Search for, and Consummation of or Inability to Consummate, a Business Combination

Our public shareholders may not be afforded an opportunity to vote on our proposed initial business combination, and even if we hold a vote, holders of our founder shares will participate in such vote, which means we may complete our initial business combination even though a majority of our public shareholders do not support such a combination.

We may choose not to hold a shareholder vote to approve our initial business combination unless the business combination would require shareholder approval under applicable law or stock exchange listing requirements. In such case, the decision as to whether we will seek shareholder approval of a proposed business combination or will allow shareholders to sell their shares to us in a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors, such as the timing of the transaction and whether the terms of the transaction would otherwise require us to seek shareholder approval. Even if we seek shareholder approval, the holders of our founder shares will participate in the vote on such approval. Accordingly, we may complete our initial business combination even if holders of a majority of our ordinary shares do not approve of the business combination we complete. See “*Effecting Our Initial Business Combination — Shareholders May Not Have the Ability to Approve Our Initial Business Combination*” for additional information.

If we seek shareholder approval of our initial business combination, our initial shareholders and management team have agreed to vote in favor of such initial business combination, regardless of how our public shareholders vote and, under certain circumstances, we may not need any public shares in addition to the founder shares to approve an initial business combination.

Our initial shareholders (assuming they do not purchase any units in this offering) will own approximately 20% of our issued and outstanding ordinary shares immediately following the completion of this offering.

Our initial shareholders and management team also may from time to time purchase Class A ordinary shares prior to our initial business combination. Our amended and restated memorandum and articles of association provides that, if we seek shareholder approval of an initial business combination, such initial business combination will be approved if we receive an ordinary resolution under Cayman Islands law and our amended and restated memorandum and articles of association, which requires the affirmative vote of a majority of the company’s shareholders as, being entitled to do so, attend and vote (whether in person or by proxy) at a general meeting of the company. As a result, in addition to our founder shares, we would need 7,500,001 public shares, or 37.5% of the 20,000,000 public shares sold in this offering, to be voted in favor of an initial business combination in order to have our initial business combination approved, assuming all outstanding shares are voted, the over-allotment option is not exercised and the parties to the letter agreement do not acquire any Class A ordinary shares. Assuming that only the holders of one-third of our issued and outstanding ordinary shares, representing a quorum under our amended and restated memorandum and articles of association, vote their ordinary shares at a general meeting of the company, we will not need any public shares in addition to our founder shares to be voted in favor of an initial business combination in order to approve an initial business combination. However, if our initial business combination is structured as a statutory merger or consolidation of the company with another company under Cayman Islands law, the approval of our initial business combination will require a special resolution, which requires the affirmative vote of at least two-thirds of the company’s shareholders as, being entitled to do so, attend and vote (whether in person or by proxy) at a general meeting of the company of which notice specifying the intention to propose the resolution as a special resolution has been duly given, or a unanimous written resolution of all of the company’s shareholders entitled to vote on such matter. Accordingly, if we seek shareholder approval of our initial business combination, the agreement by our initial shareholders and management team to vote in favor of our initial business combination will increase the likelihood that an ordinary resolution will be passed, being the requisite shareholder approval for such initial business combination (subject to the business combination now being undertaken by statutory merger or consolidation of the company with another company under Cayman Islands law which will require a special resolution).

Your only opportunity to effect your investment decision regarding a potential business combination may be limited to the exercise of your right to redeem your shares from us for cash.

At the time of your investment in us, you will not be provided with an opportunity to evaluate the specific merits or risks of our initial business combination. Since our board of directors may complete a business combination without seeking shareholder approval, public shareholders may not have the right or opportunity to vote on the business combination, unless we seek such shareholder vote. Accordingly, your only opportunity to effect your investment decision regarding our initial business combination may be limited to exercising your redemption rights within the period of time (which will be at least 20 business days) set forth in our tender offer documents mailed to our public shareholders in which we describe our initial business combination. The amount of the deferred underwriting commissions payable to the underwriters will be adjusted for any shares that are redeemed in connection with an initial business combination. The per share amount we will distribute to shareholders who properly exercise their redemption rights will not be reduced by the deferred underwriting commission and after such redemptions, the per-share value of shares held by non-redeeming shareholders will reflect our obligation to pay the deferred underwriting commissions.

The ability of our public shareholders to redeem their shares for cash may make our financial condition unattractive to potential business combination targets, which may make it difficult for us to enter into a business combination with a target.

We may seek to enter into a business combination transaction agreement with a minimum cash requirement for (i) cash consideration to be paid to the target or its owners, (ii) cash for working capital or other general corporate purposes or (iii) the retention of cash to satisfy other conditions. If too many public shareholders exercise their redemption rights, we would not be able to meet such closing condition and, as a result, would not be able to proceed with the business combination. Consequently, if accepting all properly submitted redemption requests would not allow us to satisfy a closing condition as described above, we would not proceed with such redemption and the related business combination and may instead search for an alternate business combination. Prospective targets will be aware of these risks and, thus, may be reluctant to enter into a business combination transaction with us.

The ability of our public shareholders to exercise redemption rights with respect to a large number of our shares and the amount of deferred underwriting compensation may not allow us to complete the most desirable business combination or optimize our capital structure, and may substantially dilute your investment in us.

At the time we enter into an agreement for our initial business combination, we will not know how many shareholders may exercise their redemption rights, and therefore will need to structure the transaction based on our expectations as to the number of shares that will be submitted for redemption. If our initial business combination agreement requires us to use a portion of the cash in the trust account to pay the purchase price, or requires us to have a minimum amount of cash at closing, we will need to reserve a portion of the cash in the trust account to meet such requirements, or arrange for third party financing. In addition, if a larger number of shares are submitted for redemption than we initially expected, we may need to restructure the transaction to reserve a greater portion of the cash in the trust account or arrange for third party financing. Raising additional third party financing may involve dilutive equity issuances or the incurrence of indebtedness at higher than desirable levels. Furthermore, this dilution would increase to the extent that the anti-dilution provision of the Class B ordinary shares results in the issuance of Class A ordinary shares on a greater than one-to-one basis upon conversion of the Class B ordinary shares at the time of our initial business combination. The amount of the deferred underwriting compensation payable to the underwriters will be adjusted for any shares that are redeemed in connection with an initial business combination. The per share amount we will distribute to shareholders who properly exercise their redemption rights will not be reduced by the deferred underwriting compensation and after such redemptions, the amount held in trust will continue to reflect our obligation to pay the deferred underwriting compensation. The above considerations may limit our ability to complete the most desirable business combination available to us or optimize our capital structure. As a result, our obligations to redeem public shares for which redemption is requested and to pay the deferred underwriting commissions may not allow us to complete the most desirable business combination or optimize our capital structure.

In addition, raising additional third-party financing may involve dilutive equity issuances or the incurrence of indebtedness at higher than desirable levels. Furthermore, this dilution would increase to the extent that the anti-dilution provisions of the Class B ordinary shares result in the issuance of Class A ordinary shares on a greater than one-to-one basis upon conversion of the Class B ordinary shares at the time of our business combination. The above considerations may limit our ability to complete the most desirable business combination available to us or optimize our capital structure and may result in substantial dilution from your purchase of our Class A ordinary shares. The effect of this dilution will be greater for shareholders who do not redeem. The amount of the deferred underwriting compensation payable to the underwriters will be adjusted for any shares that are redeemed in connection with an initial business combination. The per-share amount we will distribute to shareholders who properly exercise their redemption rights will not be reduced by the deferred underwriting compensation and after such redemptions, the per-share value of shares held by non-redeeming shareholders will reflect our obligation to pay the deferred underwriting compensation. We may not be able to generate sufficient value from the completion of our initial business combination in order to overcome the dilutive impact of these and other factors, and, accordingly, you may incur a net loss on your investment. See “—*Risks Relating to Our Securities — The nominal purchase price paid by our sponsor for the founder shares may result in significant dilution to the implied value of your public shares upon the consummation of our initial business combination, and our sponsor is likely to make a substantial profit on its investment in us in the event we consummate an initial business combination, even if the business combination causes the trading price of our ordinary shares to materially decline.*”

The ability of our public shareholders to exercise redemption rights with respect to a large number of our shares could increase the probability that our initial business combination would be unsuccessful and that you would have to wait for liquidation in order to redeem your shares.

If our initial business combination agreement requires us to use a portion of the cash in the trust account to pay the purchase price, or requires us to have a minimum amount of cash at closing, the probability that our initial business combination would be unsuccessful is increased. If our initial business combination is unsuccessful, you would not receive your pro rata portion of the funds in the trust account until we liquidate the trust account. If you are in need of immediate liquidity, you could attempt to sell your shares in the open market; however, at such time our shares may trade at a discount to the pro rata amount per share in the trust account. In either situation, you may suffer a material loss on your investment or lose the benefit of funds expected in connection with your exercise of redemption rights until we liquidate or you are able to sell your shares in the open market.

The requirement that we complete our initial business combination within the completion window may give potential target businesses leverage over us in negotiating a business combination and may limit the time we have in which to conduct due diligence on potential business combination targets, in particular as we approach our dissolution deadline, which could undermine our ability to complete our initial business combination on terms that would produce value for our shareholders.

Any potential target business with which we enter into negotiations concerning a business combination will be aware that we must complete our initial business combination within the completion window. Consequently, such target business may obtain leverage over us in negotiating a business combination, knowing that if we do not complete our initial business combination with that particular target business, we may be unable to complete our initial business combination with any target business. This risk will increase as we get closer to the timeframe described above. In addition, we may have limited time to conduct due diligence and may enter into our initial business combination on terms that we would have rejected upon a more comprehensive investigation. The length of time it may take us to complete our diligence and negotiate a business combination may reduce the amount of time available for us to ultimately complete an initial business combination should such diligence or negotiations not lead to a consummated initial business combination.

We may engage one or more of our underwriters or one of their respective affiliates to provide additional services to us after this offering, which may include acting as M&A advisor in connection with an initial business combination or as placement agent in connection with a related financing transaction. Our underwriters are entitled to receive deferred underwriting commissions that will be released from the trust account only upon a completion of an initial business combination. These financial incentives may cause them to have potential conflicts of interest in rendering any such additional services to us after this offering, including, for example, in connection with the sourcing and consummation of an initial business combination.

We may engage one or more of our underwriters or one of their respective affiliates to provide additional services to us after this offering, including, for example, identifying potential targets, providing M&A advisory services, acting as a placement agent in a private offering or arranging debt financing transactions. We may pay such underwriter or its affiliate fair and reasonable fees or other compensation that would be determined at that time in an arm's length negotiation; provided that no agreement will be entered into with any of the underwriters or their respective affiliates and no fees or other compensation for such services will be paid to any of the underwriters or their respective affiliates prior to the date that is 60 days from the date of this prospectus, unless such payment would not be deemed underwriters' compensation in connection with this offering.

The underwriters are also entitled to receive deferred underwriting commissions that are conditioned on the completion of an initial business combination. The underwriters' or their respective affiliates' financial interests tied to the consummation of a business combination transaction may give rise to potential conflicts of interest in providing any such additional services to us, including potential conflicts of interest in connection with the sourcing and consummation of an initial business combination. The underwriters are under no obligation to provide any further services to us in order to receive all or any part of the deferred underwriting commissions.

We may not be able to complete our initial business combination within the completion window, in which case we would redeem our public shares.

We may not be able to find a suitable target business and complete our initial business combination within the completion window after the closing of this offering. Our ability to complete our initial business combination may be negatively impacted by general market conditions, volatility in the capital and debt markets and the other risks described herein. If we have not completed our initial business combination within such time period, we will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter (and subject to lawfully available funds therefor), redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account (which interest shall be net of taxes and less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then-outstanding public shares, which redemption will completely extinguish public shareholders' rights as shareholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining shareholders and our board of directors, liquidate and dissolve, subject in each case to our obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law. In such case, our public shareholders may only receive \$10.00 per share, or possibly less, and our warrants will expire without value to the holder. In certain circumstances, our public shareholders may receive less than \$10.00 per share on the redemption of their shares. See *"— If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by shareholders may be less than \$10.00 per share"* and other risk factors described in this *"Risk Factors"* section.

We may decide not to extend the term we have to consummate our initial business combination, in which case we would redeem our public shares, and the warrants would be worthless.

We have until the date that is 24 months from the closing of this offering (as may be extended by shareholder approval to amend our amended and restated memorandum and articles of association to extend the date by which we must consummate our initial business combination) or until such earlier liquidation date as our board of directors may approve, to consummate our initial business combination. If we anticipate that we may be unable to consummate our initial business combination within such period, we may seek shareholder approval to amend our amended and restated memorandum and articles of association to extend the date by which we must consummate our initial business combination. However, we may decide not to seek to extend the date by which we must consummate our initial business combination. If we do not seek to extend the date by which we must consummate our initial business combination, and we are unable to consummate our initial business combination within the applicable time period, we will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter (and subject to lawfully available funds therefor), redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account (which interest shall be net of taxes and less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then-outstanding public shares, which redemption will completely extinguish public shareholders' rights as shareholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining shareholders and our board of directors, liquidate and dissolve, subject in each case to our obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law. In such event, the warrants would be worthless.

If we seek shareholder approval of our initial business combination, our sponsor, initial shareholders, directors, officers, advisor and their respective affiliates may elect to purchase shares or public warrants from public shareholders, which may influence a vote on a proposed business combination and reduce the public “float” of our Class A ordinary shares or public warrants.

If we seek shareholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our sponsor, initial shareholders, directors, officers, advisor and their affiliates may purchase public shares or warrants in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination, although they are under no obligation or duty to do so. Such a purchase may include a contractual acknowledgment that such shareholder, although still the record holder of our shares is no longer the beneficial owner thereof and therefore agrees not to exercise its redemption rights. In the event that our sponsor, initial shareholders, directors, officers, advisor and their affiliates purchase shares in privately negotiated transactions from public shareholders who have already elected to exercise their redemption rights, such selling shareholders would be required to revoke their prior elections to redeem their shares. It is intended that, if Rule 10b-18 would apply to purchases by sponsor, initial shareholders, directors, officers, advisor and their affiliates, then such purchases will comply with Rule 10b-18 under the Exchange Act, to the extent it applies, which provides a safe harbor for purchases made under certain conditions, including with respect to timing, pricing and volume of purchases.

Additionally, at any time at or prior to our initial business combination, subject to applicable securities laws (including with respect to material nonpublic information), our sponsor, initial shareholders, directors, officers, advisor and their affiliates may enter into transactions with investors and others to provide them with incentives to acquire public shares, vote their public shares in favor of our initial business combination or not redeem their public shares. However, they have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions. None of the funds in the trust account will be used to purchase public shares or warrants in such transactions.

The purpose of any such transactions could be to (1) increase the likelihood of obtaining shareholder approval of the business combination, (2) reduce the number of public warrants outstanding and/or increase the likelihood of approval on any matters submitted to the public warrant holders for approval in connection with our initial business combination or (3) satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of our initial business combination, where it appears that such requirement would otherwise not be met. Any such purchases of our securities may result in the completion of our initial business combination that may not otherwise have been possible.

To the extent that any public shares are purchased such purchases will be in compliance with all of the requirements set forth in Tender Offers and Schedules Compliance and Disclosure Interpretations Question 166.01 promulgated by the SEC, including that such public shares will not be voted. In addition, if such purchases are made, the public “float” of our securities may be reduced and the number of beneficial holders of our securities may be reduced, which may make it difficult to maintain or obtain the quotation, listing or trading of our securities on a national securities exchange. Any such purchases will be reported pursuant to Section 13 and Section 16 of the Exchange Act to the extent such purchasers are subject to such reporting requirements. Additionally, in the event our sponsor, initial shareholders, directors, officers, advisor and their affiliates were to purchase public shares or warrants from public shareholders, such purchases would be structured in compliance with the requirements of Rule 14e-5 under the Exchange Act including, in pertinent part, through adherence to the following:

- our registration statement/proxy statement filed for our business combination transaction would disclose the possibility that our sponsor, initial shareholders, directors, officers, advisor and their affiliates may purchase public shares or warrants from public shareholders outside the redemption process, along with the purpose of such purchases;

- if our sponsor, initial shareholders, directors, officers, advisor and their affiliates were to purchase public shares or warrants from public shareholders, they would do so at a price no higher than the price offered through our redemption process;
- our registration statement/proxy statement filed for our business combination transaction would include a representation that any of our securities purchased by our sponsor, initial shareholders, directors, officers, advisor and their affiliates would not be voted in favor of approving the business combination transaction;
- our sponsor, initial shareholders, directors, officers, advisor and their affiliates would not possess any redemption rights with respect to our securities or, if they do acquire and possess redemption rights, they would waive such rights; and
- we would disclose in a Form 8-K, before our security holder meeting to approve the business combination transaction, the following material items:
 - the amount of our securities purchased outside of the redemption offer by our sponsor, initial shareholders, directors, officers, advisor and their affiliates, along with the purchase price;
 - the purpose of the purchases by our sponsor, initial shareholders, directors, officers, advisor and their affiliates;
 - the impact, if any, of the purchases by our sponsor, initial shareholders, directors, officers, advisor and their affiliates on the likelihood that the business combination transaction will be approved;
 - the identities of our security holders who sold to our sponsor, initial shareholders, directors, officers, advisor and their affiliates (if not purchased on the open market) or the nature of our security holders (e.g., 5% security holders) who sold to our sponsor, initial shareholders, directors, officers, advisor and their affiliates; and
 - the number of our securities for which we have received redemption requests pursuant to our redemption offer.

See “*Effecting Our Initial Business Combination — Permitted Purchases of Our Securities*” for a description of how such persons will determine from which shareholders to seek to acquire securities.

If a shareholder fails to receive notice of our offer to redeem our public shares in connection with our initial business combination, or fails to comply with the procedures for submitting or tendering its shares, such shares may not be redeemed.

We will comply with the proxy rules or tender offer rules, as applicable, when conducting redemptions in connection with our initial business combination. Despite our compliance with these rules, if a shareholder fails to receive our proxy materials or tender offer documents, as applicable, such shareholder may not become aware of the opportunity to redeem its shares. In addition, proxy materials or tender offer documents, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will describe the various procedures that must be complied with in order to validly tender or submit public shares for redemption. For example, we intend to require our public shareholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in “street name,” to, at the holder’s option, either deliver their share certificates (if any) to our transfer agent, or to deliver their shares to our transfer agent electronically prior to the date set forth in the proxy materials or tender offer documents, as applicable. In the case of proxy materials, this date may be up to two business days prior to the scheduled vote on the proposal to approve the initial business combination. In addition, if we conduct redemptions in connection with a shareholder vote, we intend to require a public shareholder seeking redemption of its public shares to also submit a written request for redemption to our transfer agent two business days prior to the scheduled vote in which the name of the beneficial owner of such shares is included. In the event that a shareholder fails to comply with these or any other procedures disclosed in the proxy or tender offer materials, as applicable, its shares may not be redeemed. See “*Effecting Our Initial Business Combination — Delivering Share Certificates (if any) in Connection with the Exercise of Redemption Rights*.”

You will not be entitled to protections normally afforded to investors of other blank check companies subject to Rule 419 of the Securities Act.

Since the net proceeds of this offering and the sale of the private warrants are intended to be used to complete one or more initial business combinations with a target business or businesses that have not been selected, we may be deemed to be a “blank check” company under the United States securities laws. However, because we will have net tangible assets in excess of \$5,000,000 upon the completion of this offering and the sale of the private warrants and will file a Current Report on Form 8-K, including an audited balance sheet demonstrating this fact, we are exempt from rules promulgated by the SEC to protect investors in blank check companies, such as Rule 419. Accordingly, investors will not be afforded the benefits or protections of those rules. Among other things, this means our units will be immediately tradable and we will have a longer period of time to complete our respective business combinations than do companies subject to Rule 419. Moreover, if this offering were subject to Rule 419, that rule would prohibit the release of any interest earned on funds held in the trust account to us unless and until the funds in the trust account were released to us or in connection with our completion of an initial business combination. For a more detailed comparison of our offering to offerings that comply with Rule 419, see *“Effecting Our Initial Business Combination — Comparison of This Offering to Those of Blank Check Companies Subject to Rule 419.”*

If we seek shareholder approval of our initial business combination and we do not conduct redemptions pursuant to the tender offer rules, and if you or a “group” of shareholders are deemed to hold in excess of 15% of our Class A ordinary shares, you may lose the ability to redeem all such shares in excess of 15% of our Class A ordinary shares.

If we seek shareholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated memorandum and articles of association provides that a public shareholder, together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from redeeming its shares with respect to more than an aggregate of 15% of the shares sold in this offering, which we refer to as the “Excess Shares,” without our prior consent. However, we would not be restricting our shareholders’ ability to vote all of their shares (including Excess Shares) for or against our initial business combination. Your inability to redeem the Excess Shares will reduce your influence over our ability to complete our initial business combination and you could suffer a material loss on your investment in us if you sell Excess Shares in open market transactions. Additionally, you will not receive redemption distributions with respect to the Excess Shares if we complete our initial business combination. And as a result, you will continue to hold that number of shares exceeding 15% and, in order to dispose of such shares, would be required to sell your shares in open market transactions, potentially at a loss.

Because of our limited resources and the significant competition for business combination opportunities, it may be more difficult for us to complete our initial business combination. If we are unable to complete our initial business combination, our public shareholders may receive only their pro rata portion of the funds in the trust account that are available for distribution to public shareholders, and our warrants will expire worthless.

We expect to encounter competition from other entities having a business objective similar to ours, including private investors (which may be individuals or investment partnerships), other blank check companies and other entities, domestic and international, competing for the types of businesses we intend to acquire. Many of these individuals and entities are well-established and have extensive experience in identifying and effecting, directly or indirectly, acquisitions of companies operating in or providing services to various industries. Many of these competitors possess technical, human and other resources that are similar to or greater than ours or more local industry knowledge than we do and our financial resources will be relatively limited when contrasted with those of many of these competitors. While we believe there are numerous target businesses we could potentially acquire with the net proceeds of this offering and the sale of the private warrants, our ability to compete with respect to the acquisition of certain target businesses that are sizable will be limited by our available financial resources. This inherent competitive limitation gives others an advantage in pursuing the acquisition of certain target businesses. Furthermore, we are obligated to offer holders of our public shares the right to redeem their shares for cash at the time of our initial business combination in conjunction with a shareholder vote or via a tender offer. Target companies will be aware that this may reduce the resources available to us for our initial business combination. Any of these obligations may place us at a competitive disadvantage in successfully negotiating a business combination. If we are unable to complete our initial business combination, our public shareholders may receive only their pro rata portion of the funds in the trust account that are available for distribution to public shareholders, and our warrants will expire worthless.

If the net proceeds of this offering and the sale of the private warrants not being held in the trust account are insufficient to allow us to operate for at least the duration of the completion window, it could limit the amount available to fund our search for a target business or businesses and complete our initial business combination, and we will depend on loans from our sponsor or management team to fund our search and to complete our initial business combination.

Of the net proceeds of this offering, only \$1,250,000 will be available to us initially outside the trust account to fund our working capital requirements. We believe that, upon closing of this offering, the funds available to us outside of the trust account will be sufficient to allow us to operate for at least the duration of the completion window; however, we cannot assure you that our estimate is accurate. Of the funds available to us, we could use a portion of the funds available to us to pay fees to consultants to assist us with our search for a target business. We could also use a portion of the funds as a down payment or to fund a “no-shop” provision (a provision in letters of intent or merger agreements designed to keep target businesses from “shopping” around for transactions with other companies or investors on terms more favorable to such target businesses) with respect to a particular proposed business combination, although we do not have any current intention to do so. If we entered into a letter of intent or merger agreement where we paid for the right to receive exclusivity from a target business and were subsequently required to forfeit such funds (whether as a result of our breach or otherwise), we might not have sufficient funds to continue searching for, or conduct due diligence with respect to, a target business.

In the event that our offering expenses exceed our estimate of \$750,000, we may fund such excess with funds not to be held in the trust account. In such case, the amount of funds we intend to be held outside the trust account would decrease by a corresponding amount. The amount held in the trust account will not be impacted as a result of such increase or decrease. Conversely, in the event that the offering expenses are less than our estimate of \$750,000, the amount of funds we intend to be held outside the trust account would increase by a corresponding amount. If we are required to seek additional capital, we would need to borrow funds from our sponsor, management team or other third parties to operate or may be forced to liquidate.

Neither our sponsor, members of our management team nor any of their affiliates is under any obligation to advance funds to us in such circumstances. Any such advances would be repaid only from funds held outside the trust account or from funds released to us upon completion of our initial business combination. Up to \$1,500,000 of such loans may be convertible into warrants of the post-business combination entity at a price of \$1.00 per warrant at the option of the applicable lender. Such warrants would be identical to the private warrants. Prior to the completion of our initial business combination, we do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account. If we are unable to complete our initial business combination because we do not have sufficient funds available to us, we will be forced to liquidate the trust account. Consequently, our public shareholders may only receive an estimated \$10.00 per share, or possibly less, on our redemption of our public shares, and our warrants will expire worthless.

If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by shareholders may be less than the \$10.00 per share initially placed into the trust account.

Our placing of funds in the trust account may not protect those funds from third party claims against us. Although we will seek to have all vendors, service providers, prospective target businesses and other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account for the benefit of our public shareholders, such parties may not execute such agreements, or even if they execute such agreements they may not be prevented from bringing claims against the trust account, including, but not limited to, fraudulent inducement, breach of fiduciary responsibility or other similar claims, as well as claims challenging the enforceability of the waiver, in each case in order to gain advantage with respect to a claim against our assets, including the funds held in the trust account. If any third party refuses to execute an agreement waiving such claims to the monies held in the trust account, our management will consider whether competitive alternatives are reasonably available to us and will only enter into an agreement with such third party if management believes that such third party’s engagement would be in the best interests of the company under the circumstances. WithumSmith+Brown, PC, our independent registered public accounting firm, and the underwriters of this offering will not execute agreements with us waiving such claims to the monies held in the trust account.

Examples of possible instances where we may engage a third party that refuses to execute a waiver include the engagement of a third-party consultant whose particular expertise or skills are believed by management to be significantly superior to those of other consultants that would agree to execute a waiver or in cases where management is unable to find a service provider willing to execute a waiver. In addition, there is no guarantee that such entities will agree to waive any claims they may have in the future as a result of, or arising out of, any negotiations, contracts or agreements with us and will not seek recourse against the trust account for any reason. Upon redemption of our public shares, if we are unable to complete our initial business combination within the prescribed timeframe, or upon the exercise of a redemption right in connection with our initial business combination, we will be required to provide for payment of claims of creditors that were not waived that may be brought against us within the 10 years following redemption. Accordingly, the per-share redemption amount received by public shareholders could be less than the \$10.00 per public share initially held in the trust account, due to claims of such creditors. Pursuant to the letter agreement the form of which is filed as an exhibit to the registration statement of which this prospectus forms a part, our sponsor has agreed that it will be liable to us if and to the extent any claims by a third party for services rendered or products sold to us (except for the Company's independent auditors), or a prospective target business with which we have entered into a written letter of intent, confidentiality or other similar agreement or business combination agreement, reduce the amount of funds in the trust account to below the lesser of (i) \$10.00 per public share and (ii) the actual amount per public share held in the trust account as of the date of the liquidation of the trust account, if less than \$10.00 per public share due to reductions in the value of the trust assets, less taxes paid or payable and up to \$100,000 to pay dissolution expenses, provided that such liability will not apply to any claims by a third party or prospective target business who executed a waiver of any and all rights to the monies held in the trust account (whether or not such waiver is enforceable) nor will it apply to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. However, we have not asked our sponsor to reserve for such indemnification obligations, nor have we independently verified whether our sponsor has sufficient funds to satisfy its indemnity obligations and we believe that our sponsor's only assets are securities of our company. Therefore, we cannot assure you that our sponsor would be able to satisfy those obligations. As a result, if any such claims were successfully made against the trust account, the funds available for our initial business combination and redemptions could be reduced to less than \$10.00 per public share. In such event, we may not be able to complete our initial business combination, and you would receive such lesser amount per share in connection with any redemption of your public shares. None of our officers or directors will indemnify us for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

Our directors may decide not to enforce the indemnification obligations of our sponsor, resulting in a reduction in the amount of funds in the trust account available for distribution to our public shareholders.

In the event that the proceeds in the trust account are reduced below the lesser of (i) \$10.00 per public share and (ii) the actual amount per public share held in the trust account as of the date of the liquidation of the trust account if less than \$10.00 per public share due to reductions in the value of the trust assets, in each case less taxes payable, and our sponsor asserts that it is unable to satisfy his obligations or that he has no indemnification obligations related to a particular claim, our independent directors would determine whether to take legal action against our sponsor to enforce its indemnification obligations. While we currently expect that our independent directors would take legal action on our behalf against our sponsor to enforce its indemnification obligations to us, it is possible that our independent directors in exercising their business judgment and subject to their fiduciary duties may choose not to do so in any particular instance if, for example, the cost of such legal action is deemed by the independent directors to be too high relative to the amount recoverable or if the independent directors determine that a favorable outcome is not likely. If our independent directors choose not to enforce these indemnification obligations, the amount of funds in the trust account available for distribution to our public shareholders may be reduced below \$10.00 per public share.

We may not have sufficient funds to satisfy indemnification claims of our directors and officers.

We have agreed to indemnify our officers and directors to the fullest extent permitted by law, including for any liability incurred in their capacities as such, except through their own actual fraud, willful default or willful neglect. However, our officers and directors have agreed to waive any right, title, interest or claim of any kind in or to any monies in the trust account and to not seek recourse against the trust account for any reason whatsoever. Accordingly, any indemnification provided will be able to be satisfied by us only if (i) we have sufficient funds outside of the trust account or (ii) we consummate an initial business combination. Our obligation to indemnify our officers and directors may discourage shareholders from bringing a lawsuit against our officers or directors. These provisions also may have the effect of reducing the likelihood of derivative litigation against our officers and directors, even though such an action, if successful, might otherwise benefit us and our shareholders. Furthermore, a shareholder's investment may be adversely affected to the extent we pay the costs of settlement and damage awards against our officers and directors pursuant to these indemnification provisions.

If, after we distribute the proceeds in the trust account to our public shareholders, we file a bankruptcy or insolvency petition or an involuntary bankruptcy or insolvency petition is filed against us that is not dismissed, a liquidator or a bankruptcy or other court may seek to recover such proceeds, and the members of our board of directors may be viewed as having breached their fiduciary duties to us or our creditors, thereby exposing the members of our board of directors and us to claims of punitive damages.

If, after we distribute the proceeds in the trust account to our public shareholders, we file a bankruptcy or insolvency petition or an involuntary bankruptcy or insolvency petition is filed against us that is not dismissed, any distributions received by shareholders could be viewed under applicable debtor/creditor and/or bankruptcy/insolvency laws as either a "preferential transfer" or a "fraudulent conveyance, preference or disposition." As a result, a liquidator or a bankruptcy or other court could seek to recover some or all amounts received by our shareholders. In addition, our board of directors may be viewed as having breached its fiduciary duty to us or our creditors and/or having acted in bad faith, thereby exposing itself and us to claims of punitive damages, by paying public shareholders from the trust account prior to addressing the claims of creditors.

If, before distributing the proceeds in the trust account to our public shareholders, we file a bankruptcy or insolvency petition or an involuntary bankruptcy or insolvency petition is filed against us that is not dismissed, the claims of creditors in such proceeding may have priority over the claims of our shareholders and the per-share amount that would otherwise be received by our shareholders in connection with our liquidation may be reduced.

If, before distributing the proceeds in the trust account to our public shareholders, we file a bankruptcy or insolvency petition or an involuntary bankruptcy or insolvency petition is filed against us that is not dismissed, the proceeds held in the trust account could be subject to applicable bankruptcy law, and may be included in our bankruptcy estate and subject to the claims of third parties with priority over the claims of our shareholders. To the extent any bankruptcy claims deplete the trust account, the per-share amount that would otherwise be received by our shareholders in connection with our liquidation may be reduced.

Changes in laws or regulations, or a failure to comply with any laws and regulations, may adversely affect our business, including our ability to negotiate and complete our initial business combination, and results of operations.

We are subject to laws and regulations enacted by national, regional and local governments. In particular, we will be required to comply with certain SEC and other legal requirements and numerous complex tax laws. Compliance with, and monitoring of, applicable laws and regulations may be difficult, time consuming and costly. Those laws and regulations and their interpretation and application may also change from time to time and those changes could have a material adverse effect on our business, investments and results of operations. In addition, a failure to comply with applicable laws or regulations, as interpreted and applied, could have a material adverse effect on our business, including our ability to negotiate and complete our initial business combination, and results of operations.

On January 24, 2024, the SEC adopted a series of new rules relating to SPACs (the "SPAC Rules") requiring, among other items, (i) additional disclosures relating to SPAC business combination transactions; (ii) additional disclosures relating to dilution and to conflicts of interest involving sponsors and their affiliates in both SPAC initial public offerings and de-SPAC transactions; (iii) the use of projections by SPACs in SEC filings in connection with proposed business combination transactions; and (iv) both the SPAC and the target company's status as co-registrants on de-SPAC registration statements.

In addition, the SEC's adopting release provided guidance describing circumstances in which a SPAC could become subject to regulation under the Investment Company Act, including its duration, asset composition, business purpose, and the activities of the SPAC and its management team in furtherance of such goals.

Compliance with the SPAC Rules and related guidance may increase the costs of, and the time needed to negotiate and complete an initial business combination and may constrain the circumstances under which we could complete an initial business combination.

If we are deemed to be an investment company under the Investment Company Act, we may be required to institute burdensome compliance requirements and our activities may be restricted, which may make it difficult for us to complete our initial business combination.

As described in the risk factor above entitled “Changes in laws or regulations, or a failure to comply with any laws and regulations, may adversely affect our business, including our ability to negotiate and complete our initial business combination, and results of operations,” the SEC’s adopting release with respect to the SPAC Rules provided guidance describing the extent to which SPACs could become subject to regulation under the Investment Company Act and the regulations thereunder. Whether a SPAC is an investment company will be a question of facts and circumstances. If our facts and circumstances change over time, we will update our disclosure to reflect how those changes impact the risk that we may be considered to be operating as an unregistered investment company. We can give no assurance that a claim will not be made that we have been operating as an unregistered investment company.

If we are deemed to be an investment company under the Investment Company Act, we may have to change our operations, wind down our operations, or register as an investment company under the Investment Company Act. Our activities may be restricted, including:

- restrictions on the nature of our investments; and
- restrictions on the issuance of securities, each of which may make it difficult for us to complete our initial business combination.

We may also have imposed upon us burdensome requirements, including:

- registration as an investment company;
- adoption of a specific form of corporate structure; and
- reporting, record keeping, voting, proxy and disclosure requirements and other rules and regulations.

In order not to be regulated as an investment company under the Investment Company Act, unless we can qualify for an exclusion, we must ensure that we are engaged primarily in a business other than investing, reinvesting or trading in securities and that our activities do not include investing, reinvesting, owning, holding or trading “investment securities” constituting more than 40% of our total assets (exclusive of U.S. government securities and cash items) on an unconsolidated basis. We are mindful of the SEC’s investment company definition and guidance and intend to identify and complete an initial business combination with an operating business, and not with an investment company, or to acquire minority interests in other businesses exceeding the permitted threshold.

We do not believe that our anticipated activities will subject us to the Investment Company Act. To this end, the proceeds held in the trust account will initially be invested only in U.S. government treasury obligations with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations; the holding of these assets in this form is intended to be temporary and for the sole purpose of facilitating the intended business combination. To mitigate the risk that we might be deemed to be an investment company for purposes of the Investment Company Act, which risk increases the longer that we hold investments in the trust account, we may, at any time (based on our management team’s ongoing assessment of all factors related to our potential status under the Investment Company Act), instruct the trustee to liquidate the investments held in the trust account and instead to hold the funds in the trust account in cash or in an interest bearing demand deposit account at a bank.

Pursuant to the trust agreement, the trustee is not permitted to invest in securities or assets other than as described above. By restricting the investment of the proceeds to these instruments, and by having a business plan targeted at acquiring and growing businesses for the long term (rather than on buying and selling businesses in the manner of a merchant bank or private equity fund), we intend to avoid being deemed an “investment company” within the meaning of the Investment Company Act. This offering is not intended for persons who are seeking a return on investments in government securities or investment securities. The trust account is intended solely as a temporary depository for funds pending the earliest to occur of: (i) the completion of our initial business combination; (ii) the redemption of any public shares properly submitted in connection with a shareholder vote to amend our amended and restated memorandum and articles of association (A) in a manner that would affect the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within the completion window; or (B) with respect to any other material provision relating to shareholders’ rights or pre-initial business combination activity; or (iii) absent an initial business combination within the completion window, from the closing of this offering, our return of the funds held in the trust account to our public shareholders as part of our redemption of the public shares.

We are aware of litigation claiming that certain SPACs should be considered to be investment companies. Although we believe that these claims were without merit, we cannot guarantee that we will not be deemed to be an investment company and thus subject to the Investment Company Act. If we were deemed to be subject to the Investment Company Act, compliance with these additional regulatory burdens would require additional expenses for which we have not allotted funds and may hinder our ability to complete an initial business combination or may result in our winding down our operations and our liquidation. If we are unable to complete our initial business combination, our public shareholders may receive only approximately \$10.00 per share on the liquidation of our trust account and our warrants will expire worthless, and our public shareholders would also lose the possibility of an investment opportunity in a target company as well as any potential price appreciation in the combined company following a business combination.

To mitigate the risk that we might be deemed to be an investment company for purposes of the Investment Company Act, which risk increases the longer that we hold investments in the trust account, we may, at any time (based on our management team’s ongoing assessment of all factors related to our potential status under the Investment Company Act), instruct the trustee to liquidate the investments held in the trust account and instead to hold the funds in the trust account in cash or in an interest bearing demand deposit account at a bank until the earlier of the consummation of an initial business combination or our liquidation. As a result, following the liquidation of investments in the trust account, we will likely receive less interest on the funds held in the trust account than we would have had the trust account remained as initially invested, such that our public shareholders would receive less upon any redemption or liquidation of the Company than what they would have received had the investments not been liquidated.

The funds to be held in the trust account will, following this offering, be initially held only in U.S. government treasury obligations with a maturity of 185 days or less, in money market funds investing solely in U.S. government treasury obligations and meeting certain conditions under Rule 2a-7 under the Investment Company Act and in cash or cash like items (including demand deposit accounts) at a bank. However, to mitigate the risk of us being deemed to be an unregistered investment company (including under the subjective test of Section 3(a)(1)(A) of the Investment Company Act) and thus subject to regulation under the Investment Company Act, we may, at any time (based on our management team’s ongoing assessment of all factors related to our potential status under the Investment Company Act), instruct Continental Stock Transfer & Trust Company, the trustee with respect to the trust account, to liquidate the U.S. government treasury obligations or money market funds held in the trust account and thereafter to hold all funds in the trust account in an interest bearing demand deposit account at a bank until the earlier of the consummation of our initial business combination or our liquidation. Following such liquidation, we will likely receive less interest on the funds held in the trust account than we would earn if the trust account remained invested in U.S. government treasury obligations with a maturity of 185 days or less or in money market funds investing solely in U.S. government treasury obligations and meeting certain conditions under Rule 2a-7 under the Investment Company Act. However, interest previously earned on the funds held in the trust account still may be released to us to pay our taxes, if any, and certain other expenses as permitted. As a result, any decision to liquidate the investments held in the trust account and thereafter to hold all funds in the trust account in an interest-bearing demand deposit at a bank could reduce the dollar amount our public shareholders would receive upon any redemption or liquidation of the Company as compared to what they would have received had the investments not been so liquidated.

Notwithstanding the measures set forth above, we may still be deemed to be an investment company. The longer that the funds in the trust account are held in short-term U.S. government treasury obligations or in money market funds invested exclusively in such securities, the greater the risk that we may be deemed to be an unregistered investment company, in which case we may be required to liquidate. If our facts and circumstances change over time, we will update our disclosure to reflect how those changes impact the risk that we may be considered to be operating as an unregistered investment company. As disclosed above, we may determine, in our discretion, to liquidate the securities held in the trust account at any time and instead hold all funds in the trust account in an interest bearing demand deposit account or as cash or cash items at a bank, which could further reduce the dollar amount our public shareholders would receive upon any redemption or liquidation of the Company as compared to what they would have received had the investments not been so liquidated. Were we to liquidate the Company, our warrants would expire worthless, and our securityholders would lose the investment opportunity associated with an investment in the target company with which we could have consummated an initial business combination. In addition, upon moving the funds from the trust account to a deposit account, we will maintain the cash items in bank accounts which, at times, may exceed federally insured limits as guaranteed by the FDIC. While we intend to place our deposits in high-quality banks, only a small portion of the funds in our trust account will be guaranteed by the FDIC.

The outbreak of infectious diseases, endemics, pandemics and other public health crises and the impact on businesses and debt and equity markets could have a material adverse effect on our search for an initial business combination, and any target business with which we ultimately consummate an initial business combination.

A significant outbreak of any infectious disease (such as COVID-19), including the resurgence or variants thereof, could result in a widespread health crisis that could adversely affect economies and financial markets worldwide, business operations and the conduct of commerce generally and could have a material adverse effect on the business of any potential target business with which we complete a business combination. Furthermore, we may be unable to complete a business combination if continued concerns relating to COVID-19 or other public health crises restrict travel, limit the ability to have meetings with potential investors or the target company's personnel, vendors and services providers are unavailable to negotiate and consummate a transaction in a timely manner or even to conduct requisite due diligence. In addition, countries or supranational organizations in our target markets may develop and implement legislation that makes it more difficult or impossible for entities outside such countries or target markets to acquire or otherwise invest in companies or businesses deemed essential or otherwise vital. The extent to which COVID-19 or other public health crises impact our search for a business combination will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity and new variants of COVID-19 and the actions to contain COVID-19 or treat its impact, among others. While vaccines for COVID-19 have been developed, there is no guarantee that such vaccines will be durable. The treatment or vaccine for COVID-19 and any potentially emerging variants may be ineffective or underutilized. If the disruptions posed by COVID-19 or other matters of global concern continue for an extensive period of time, our ability to consummate a business combination, or the operations of a target business with which we ultimately consummate a business combination, may be materially adversely affected. In addition, our ability to consummate a transaction may be dependent on the ability to raise equity and debt financing which may be impacted by COVID-19 and other public health events, including as a result of increased market volatility, decreased market liquidity and third-party financing being unavailable on terms acceptable to us or at all. Finally, the outbreak of COVID-19 or the emergence of new or other public health crises may also have the effect of heightening many of the other risks described in this "Risk Factors" section.

Our search for an initial business combination, and any target business with which we may ultimately consummate an initial business combination, may be materially adversely affected by current global geopolitical conditions resulting from the ongoing Russia-Ukraine conflict and the recent escalation of the conflict in the Middle East and Southwest Asia.

United States and global markets are experiencing volatility and disruption following the geopolitical instability resulting from the ongoing Russia-Ukraine conflict and the recent escalation of conflict in the Middle East and Southwest Asia. In response to the ongoing Russia-Ukraine conflict, the North Atlantic Treaty Organization ("NATO") deployed additional military forces to eastern Europe, and the United States, the United Kingdom, the European Union and other countries have announced various sanctions and restrictive actions against Russia, Belarus and related individuals and entities, including the removal of certain financial institutions from the Society for Worldwide Interbank Financial Telecommunication (SWIFT) payment system. Certain countries, including the United States, have also provided and may continue to provide military aid or other assistance to Ukraine and to Israel, or have undertaken or will undertake military strikes in Southwest Asia, increasing geopolitical tensions among a number of nations. The invasion of Ukraine by Russia and the escalation of the conflict in the Middle East and Southwest Asia and the resulting measures that have been taken, and could be taken in the future, by NATO, the United States, the United Kingdom, the European Union, Israel and its neighboring states and other countries have created global security concerns that could have a lasting impact on regional and global economies. Although the length and impact of the ongoing conflicts are highly unpredictable, they could lead to market disruptions, including significant volatility in commodity prices, credit and capital markets, as well as supply chain interruptions and increased cyber-attacks against U.S. companies. Additionally, any resulting sanctions could adversely affect the global economy and financial markets and lead to instability and lack of liquidity in capital markets.

Any of the abovementioned factors, or any other negative impact on the global economy, capital markets or other geopolitical conditions resulting from the Russian invasion of Ukraine, the escalation of the conflict in the Middle East and Southwest Asia and subsequent sanctions or related actions, could adversely affect our search for an initial business combination and any target business with which we may ultimately consummate an initial business combination.

The extent and duration of the ongoing conflicts, resulting sanctions and any related market disruptions are impossible to predict, but could be substantial, particularly if current or new sanctions continue for an extended period of time or if geopolitical tensions result in expanded military operations on a global scale. Any such disruptions may also have the effect of heightening many of the other risks described in this section. If these disruptions or other matters of global concern continue for an extended period of time, our ability to consummate an initial business combination, or the operations of a target business with which we may ultimately consummate an initial business combination, may be materially adversely affected.

Military or other conflicts in Ukraine, the Middle East and Southwest Asia or elsewhere may lead to increased volume and price volatility for publicly traded securities, or affect the operations or financial condition of potential target companies, which could make it more difficult for us to consummate an initial business combination.

Military or other conflicts in Ukraine, the Middle East, Southwest Asia or elsewhere may lead to increased volume and price volatility for publicly traded securities, or affect the operations or financial condition of potential target companies, and to other company or industry-specific, national, regional or international economic disruptions and economic uncertainty, any of which could make it more difficult for us to identify a business combination target and consummate an initial business combination on acceptable commercial terms, or at all.

If we are unable to consummate our initial business combination within the completion window, our public shareholders may be forced to wait beyond 24 months before redemption from our trust account.

If we are unable to consummate our initial business combination within the completion window, the proceeds then on deposit in the trust account, including interest earned on the funds held in the trust account (less taxes payable and up to \$100,000 of interest to pay dissolution expenses), will be used to fund the redemption of our public shares, as further described herein. Any redemption of public shareholders from the trust account will be effected automatically by function of our amended and restated memorandum and articles of association prior to any voluntary winding up. If we are required to wind-up, liquidate the trust account and distribute such amount therein, pro rata, to our public shareholders, as part of any liquidation process, such winding up, liquidation and distribution must comply with the applicable provisions of the Companies Act. In that case, investors may be forced to wait beyond the end of the completion window before the redemption proceeds of our trust account become available to them, and they receive the return of their pro rata portion of the proceeds from our trust account. We have no obligation to return funds to investors prior to the date of our redemption or liquidation unless we consummate our initial business combination prior thereto and only then in cases where investors have sought to redeem their Class A ordinary shares. Only upon our redemption or any liquidation will public shareholders be entitled to distributions if we are unable to complete our initial business combination.

Our shareholders may be held liable for claims by third parties against us to the extent of distributions received by them upon redemption of their shares.

If we are forced to enter into an insolvent liquidation, any distributions received by shareholders could be viewed as an unlawful payment if it was proved that immediately following the date on which the distribution was made, we were unable to pay our debts as they fall due in the ordinary course of business. As a result, a liquidator could seek to recover some or all amounts received by our shareholders. Furthermore, our directors may be viewed as having breached their fiduciary duties to us or our creditors and/or may have acted in bad faith, thereby exposing themselves and our company to claims, by paying public shareholders from the trust account prior to addressing the claims of creditors. We cannot assure you that claims will not be brought against us for these reasons. We and our directors and officers who knowingly and willfully authorized or permitted any distribution to be paid out of our share premium account while we were unable to pay our debts as they fall due in the ordinary course of business would be guilty of an offence and may be liable to a fine of approximately \$18,300 and to imprisonment for five years in the Cayman Islands.

We may not hold an annual general meeting until after the consummation of our initial business combination, which could delay the opportunity for our public shareholders to discuss company affairs with management, and the holders of our Class A ordinary shares will not have the right to vote on the appointment or removal of directors or continuing the company in a jurisdiction outside the Cayman Islands until after the consummation of our initial business combination.

In accordance with Nasdaq corporate governance requirements, we are not required to hold an annual general meeting until no later than one year after our first fiscal year end following our listing on Nasdaq. There is no requirement under the Companies Act for us to hold annual or extraordinary general meetings to appoint directors. Until we hold an annual general meeting, public shareholders may not be afforded the opportunity to discuss company affairs with management. Our board of directors is divided into three classes with only one class of directors being appointed in each year and each class (except for those directors appointed prior to our first annual general meeting) serving a three-year term. In addition, as holders of our Class A ordinary shares, our public shareholders will not have the right to vote on the appointment or removal of directors or continuing the company in a jurisdiction outside the Cayman Islands until after the consummation of our initial business combination.

Because we are neither limited to evaluating a target business in a particular industry sector nor have we selected any target businesses with which to pursue our initial business combination, you will be unable to ascertain the merits or risks of any particular target business's operations.

Our efforts to identify a prospective initial business combination target will not be limited to a particular industry, sector or geographic region. While we may pursue an initial business combination opportunity in any industry or sector, we intend to capitalize on the ability of our management team to identify and acquire a business or businesses that can benefit from our management team's established global relationships and operating experience. Our management team has extensive experience in identifying and executing strategic investments globally and has done so successfully in a number of sectors. Our amended and restated memorandum and articles of association prohibits us from effectuating a business combination solely with another blank check company or similar company with nominal operations.

Because we have not yet selected any specific target business with respect to a business combination, there is no basis to evaluate the possible merits or risks of any particular target business's operations, results of operations, cash flows, liquidity, financial condition or prospects. To the extent we complete our initial business combination, we may be affected by numerous risks inherent in the business operations with which we combine. For example, if we combine with a financially unstable business or an entity lacking an established record of sales or earnings, we may be affected by the risks inherent in the business and operations of a financially unstable or a development stage entity. In recent years, stock prices of a number of target businesses have underperformed post-business combination. There are no assurances that the target business with which we consummate our initial business combination will perform as anticipated. Although our officers and directors will endeavor to evaluate the risks inherent in a particular target business, we cannot assure you that we will properly ascertain or assess all of the significant risk factors or that we will have adequate time to complete due diligence. Furthermore, some of these risks may be outside of our control and leave us with no ability to control or reduce the chances that those risks will adversely impact a target business. We also cannot assure you that an investment in our units will ultimately prove to be more favorable to investors than a direct investment, if such opportunity were available, in a business combination target. Accordingly, any shareholders who choose to remain shareholders following the business combination could suffer a reduction in the value of their securities. Such shareholders are unlikely to have a remedy for such reduction in value unless they are able to successfully claim that the reduction was due to the breach by our officers or directors of a duty of care or other fiduciary duty owed to them, or if they are able to successfully bring a private claim under securities laws that the proxy solicitation or tender offer materials, as applicable, relating to the business combination contained an actionable material misstatement or material omission.

We may seek business combination opportunities in industries or sectors that may be outside of our management's areas of expertise.

We will consider a business combination outside of our management's areas of expertise if a business combination candidate is presented to us and we determine that such candidate offers an attractive business combination opportunity for our company. Although our management will endeavor to evaluate the risks inherent in any particular business combination candidate, we cannot assure you that we will adequately ascertain or assess all of the significant risk factors. We also cannot assure you that an investment in our units will not ultimately prove to be less favorable to investors in this offering than a direct investment, if an opportunity were available, in a business combination candidate. In the event we elect to pursue a business combination outside of the areas of our management's expertise, our management's expertise may not be directly applicable to its evaluation or operation, and the information contained in this prospectus regarding the areas of our management's expertise would not be relevant to an understanding of the business that we elect to acquire. As a result, our management may not be able to ascertain or assess adequately all of the relevant risk factors. Accordingly, any shareholders who choose to remain shareholders following our initial business combination could suffer a reduction in the value of their shares. Such shareholders are unlikely to have a remedy for such reduction in value.

Although we have identified general criteria and guidelines that we believe are important in evaluating prospective target businesses, we may enter into our initial business combination with a target that does not meet such criteria and guidelines, and as a result, the target business with which we enter into our initial business combination may not have attributes entirely consistent with our general criteria and guidelines.

Although we have identified general criteria and guidelines for evaluating prospective target businesses, it is possible that a target business with which we enter into our initial business combination will not have all of these positive attributes. If we complete our initial business combination with a target that does not meet some or all of these guidelines, such combination may not be as successful as a combination with a business that does meet all of our general criteria and guidelines. In addition, if we announce a prospective business combination with a target that does not meet our general criteria and guidelines, a greater number of shareholders may exercise their redemption rights, which may make it difficult for us to meet any closing condition with a target business that requires us to have a minimum net worth or a certain amount of cash. In addition, if shareholder approval of the transaction is required by law, or we decide to obtain shareholder approval for business or other reasons, it may be more difficult for us to attain shareholder approval of our initial business combination if the target business does not meet our general criteria and guidelines. If we are unable to complete our initial business combination, our public shareholders may only receive their pro rata portion of the funds in the trust account that are available for distribution to public shareholders, and our warrants will expire worthless.

We are not required to obtain an opinion from an independent investment banking firm or from another independent entity that commonly renders valuation opinions, and consequently, you may have no assurance from an independent source that the price we are paying for the business is fair to our shareholders from a financial point of view.

Unless we complete our initial business combination with an affiliated entity or our board of directors cannot independently determine the fair market value of the target business or businesses (including with the assistance of financial advisors), we are not required to obtain an opinion from an independent investment banking firm or another independent entity that commonly renders valuation opinions that the price we are paying is fair to our shareholders from a financial point of view. If no opinion is obtained, our shareholders will be relying on the judgment of our board of directors, who will determine fair market value based on standards generally accepted by the financial community. Such standards used will be disclosed in our proxy materials or tender offer documents, as applicable, related to our initial business combination.

We may issue additional Class A ordinary shares or preference shares to complete our initial business combination or under an employee incentive plan after completion of our initial business combination. We may also issue Class A ordinary shares upon the conversion of the founder shares at a ratio greater than one-to-one at the time of our initial business combination as a result of the anti-dilution provisions contained therein. Any such issuances would dilute the interest of our shareholders and likely present other risks.

Our amended and restated memorandum and articles of association authorizes the issuance of up to 500,000,000 Class A ordinary shares, par value \$0.0001 per share, 50,000,000 Class B ordinary shares, par value \$0.0001 per share, and 5,000,000 preference shares, par value \$0.0001 per share. Immediately after this offering, there will be 480,000,000 and 45,000,000 (assuming in each case that the underwriters have not exercised their over-allotment option and 750,000 Class B ordinary shares are forfeited) authorized but unissued Class A ordinary shares and Class B ordinary shares, respectively, available for issuance which amount does not take into account shares reserved for issuance upon exercise of outstanding warrants or shares issuable upon conversion of the Class B ordinary shares. The Class B ordinary shares are automatically convertible into Class A ordinary shares (which such Class A ordinary shares delivered upon conversion will not have any redemption rights or be entitled to liquidating distributions from the trust account if we fail to consummate an initial business combination) concurrently with or immediately following the consummation of our initial business combination or earlier at the option of the holder, initially at a one-for-one ratio but subject to adjustment as set forth herein and in our amended and restated memorandum and articles of association, including in certain circumstances in which we issue Class A ordinary shares or equity-linked securities related to our initial business combination. Immediately after this offering, there will be no preference shares issued and outstanding.

We may issue a substantial number of additional Class A ordinary shares or preference shares to complete our initial business combination or under an employee incentive plan after completion of our initial business combination. We may also issue Class A ordinary shares upon conversion of the Class B ordinary shares at a ratio greater than one-to-one at the time of our initial business combination as a result of the anti-dilution provisions as set forth therein. However, our amended and restated memorandum and articles of association provide, among other things, that prior to our initial business combination, except in connection with the conversion of Class B ordinary shares into Class A ordinary shares where the holders of such shares have waived any rights to receive funds from the trust account, we may not issue additional shares that would entitle the holders thereof to (i) receive funds from the trust account or (ii) vote as a class with public shares on any initial business combination. These provisions of our amended and restated memorandum and articles of association, like all provisions of our amended and restated memorandum and articles of association, may be amended with a shareholder vote. The issuance of additional ordinary or preference shares:

- may significantly dilute the equity interest of investors in this offering, which dilution would increase if the anti-dilution provisions in the Class B ordinary shares resulted in the issuance of Class A ordinary shares on a greater than one-to-one basis upon conversion of the Class B ordinary shares;
- may subordinate the rights of holders of Class A ordinary shares if preference shares are issued with rights senior to those afforded our Class A ordinary shares;
- could cause a change in control if a substantial number of Class A ordinary shares are issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and could result in the resignation or removal of our present officers and directors;
- may have the effect of delaying or preventing a change of control of us by diluting the share ownership or voting rights of a person seeking to obtain control of us;
- may adversely affect prevailing market prices for our units, Class A ordinary shares and/or warrants; and
- may not result in adjustment to the exercise price of our warrants.

Unlike some other similarly structured special purpose acquisition companies, our initial shareholders will receive additional Class A ordinary shares if we issue certain shares to consummate an initial business combination.

The founder shares will automatically convert into Class A ordinary shares (which such Class A ordinary shares delivered upon conversion will not have any redemption rights or be entitled to liquidating distributions from the trust account if we fail to consummate an initial business combination) concurrently with or immediately following the consummation of our initial business combination or earlier at the option of the holder on a one-for-one basis, subject to adjustment for share sub-divisions, share capitalizations, reorganizations, recapitalizations and the like, and subject to further adjustment as provided herein. In the case that additional Class A ordinary shares, or any other equity-linked securities, are issued or deemed issued in excess of the amounts sold in this offering and related to or in connection with the closing of the initial business combination, the ratio at which Class B ordinary shares convert into Class A ordinary shares will be adjusted (unless the holders of a majority of the outstanding Class B ordinary shares agree to waive such adjustment with respect to any such issuance or deemed issuance) so that the number of Class A ordinary shares issuable upon conversion of all Class B ordinary shares will equal, in the aggregate, approximately 20% of the sum of (i) the total number of all Class A ordinary shares outstanding upon the completion of this offering (including any Class A ordinary shares issued pursuant to the underwriters' over-allotment option), plus (ii) all Class A ordinary shares and equity-linked securities issued or deemed issued, in connection with the closing of the initial business combination (excluding any shares or equity-linked securities issued, or to be issued, to any seller in the initial business combination and any units issued to our sponsor or any of its affiliates or to our officers or directors upon conversion of working capital loans) minus (iii) any redemptions of Class A ordinary shares by public shareholders in connection with an initial business combination; provided that such conversion of founder shares will never occur on a less than one-for-one basis.

We may issue our shares to investors in connection with our initial business combination at a price which is less than the prevailing market price of our shares at that time.

In connection with our initial business combination, we may issue ordinary or preference shares to investors in private placement transactions (so-called PIPE transactions) at a price of \$10.00 per share or lower, at a price that approximates the per-share amounts in our trust account at such time. The purpose of such issuances will be to enable us to provide sufficient liquidity and capital to the post-business combination entity and to complete the business combination. Such arrangements result in costs particular to the business combination process that would not generally be incurred in a traditional IPO. Such agreements may be structured in a way intended to ensure a return on investment to the investor in return for funds that would be used to facilitate the completion of the business combination. The price of the shares we issue may therefore be less, and potentially significantly less, than the market price for our shares at such time. Any such issuances of equity securities could dilute the interests of our existing shareholders and could result in dilution to our existing shareholders. If we are not able to secure such financing and there are significant redemptions from our trust account, it is possible that we might not be able to complete an initial business combination.

Since only holders of our Class B ordinary shares will have the right to vote on the appointment of directors, upon the listing of our shares on Nasdaq, Nasdaq will consider us to be a "controlled company" within the meaning of Nasdaq rules and, as a result, we may qualify for exemptions from certain corporate governance requirements.

After completion of this offering and prior to the consummation of a business combination, only holders of our Class B ordinary shares will have the right to vote on the appointment of directors. As a result, Nasdaq will consider us to be a "controlled company" within the meaning of Nasdaq corporate governance standards. Under Nasdaq corporate governance standards, a company of which more than 50% of the voting power for the appointment of directors is held by an individual, group or another company is a "controlled company" and may elect not to comply with certain corporate governance requirements, including the requirements that:

- we have a board that includes a majority of "independent directors," as defined under the rules of Nasdaq; and
- we have a compensation committee of our board that is comprised entirely of independent directors with a written charter addressing the committee's purpose and responsibilities.

We currently do not intend to rely on the "controlled company" exemption, but may do so in the future. Accordingly, if we choose to do so, you will not have the same protections afforded to shareholders of companies that are subject to all of the Nasdaq corporate governance requirements.

Resources could be wasted in researching business combinations that are not completed, which could materially adversely affect subsequent attempts to locate and acquire or merge with another business. If we are unable to complete our initial business combination, our public shareholders may only receive their pro rata portion of the funds in the trust account that are available for distribution to public shareholders, and our warrants will expire worthless.

We anticipate that the investigation of each specific target business and the negotiation, drafting and execution of relevant agreements, disclosure documents and other instruments will require substantial management time and attention and substantial costs for accountants, attorneys, consultants and others. If we decide not to complete a specific initial business combination, the costs incurred up to that point for the proposed transaction likely would not be recoverable. Furthermore, if we reach an agreement relating to a specific target business, we may fail to complete our initial business combination for any number of reasons including those beyond our control. Any such event will result in a loss to us of the related costs incurred which could materially adversely affect subsequent attempts to locate and acquire or merge with another business. If we are unable to complete our initial business combination, our public shareholders may only receive their pro rata portion of the funds in the trust account that are available for distribution to public shareholders, and our warrants will expire worthless.

We may engage in a business combination with one or more target businesses that have relationships with entities that may be affiliated with our sponsor, officers, directors or their respective affiliates or existing holders which may raise potential conflicts of interest.

In light of the involvement of our sponsor, its managing member, and our officers and directors with other entities, we may decide to acquire one or more businesses affiliated with or competitive with our sponsor, officers, directors or their respective affiliates or existing holders. Our directors also serve as officers and/or board members for other entities, including, without limitation, those described under “*Management — Conflicts of Interest.*” Such entities may compete with us for business combination opportunities. Our sponsor, officers and directors are not currently aware of any specific opportunities for us to complete our initial business combination with any entities with which they are affiliated, and there have been no substantive discussions concerning a business combination with any such entity or entities. Although we will not be specifically focusing on, or targeting, any transaction with any affiliated entities, we would pursue such a transaction if we determined that such affiliated entity met our criteria for a business combination as set forth in “*Effecting Our Initial Business Combination — Selection of a Target Business and Structuring of Our Initial Business Combination*” and such transaction was approved by a majority of our independent and disinterested directors. Despite our agreement to obtain an opinion from an independent investment banking firm or another independent entity that commonly renders valuation opinions regarding the fairness to our company from a financial point of view of a business combination with one or more domestic or international businesses affiliated with our sponsor, officers, directors or existing holders, potential conflicts of interest still may exist and, as a result, the terms of the business combination may not be as advantageous to our public shareholders as they would be absent any conflicts of interest.

Since our sponsor, officers and directors, and any other holders of our founder shares may lose their entire investment in us if our initial business combination is not completed (other than with respect to public shares they may acquire during or after this offering), a conflict of interest may arise in determining whether a particular business combination target is appropriate for our initial business combination.

On August 18, 2025, the Company issued to our sponsor 5,750,000 Class B ordinary shares for an aggregate purchase price of \$25,000, or \$0.004 per share, up to 750,000 of which are subject to forfeiture by the holders thereof depending on the extent to which the underwriters’ over-allotment option is exercised. Prior to the initial investment in the company of \$25,000 by the sponsor, the company had no assets, tangible or intangible. The purchase price of the founder shares was determined by dividing the amount of cash contributed to the company by the number of founder shares issued. The number of founder shares outstanding was determined based on the expectation that the total size of this offering would be a maximum of 23,000,000 units if the underwriters’ over-allotment option is exercised in full, and therefore that such founder shares would represent approximately 20% of the outstanding shares after this offering. Our public shareholders may incur material dilution due to such anti-dilution adjustments that result in the issuance of Class A ordinary shares on a greater than one-to-one basis upon conversion. Up to 750,000 of the founder shares will be surrendered for no consideration depending on the extent to which the underwriters’ over-allotment option is exercised. The founder shares will be worthless if we do not complete an initial business combination, except to the extent they receive liquidating distributions from assets outside of the trust account. In addition, our sponsor has committed to purchase an aggregate of 5,000,000 private warrants (\$5,450,000 if the underwriters’ over-allotment option is exercised in full) for an aggregate purchase price of \$5,000,000 (\$5,450,000 if the underwriters’ over-allotment option is exercised in full), or \$1.00 per private warrant. Each private warrant will be identical to the public warrants sold as part of the units in this offering, except as described in this prospectus. The private warrants will be sold in a private placement that will close simultaneously with the closing of this offering, including the over-allotment option, as applicable.

The private warrants will be worthless if we do not complete our initial business combination. The personal and financial interests of our officers and directors may influence their motivation in identifying and selecting a target business combination, completing an initial business combination and influencing the operation of the business following the initial business combination. This risk may become more acute as the end of the completion window nears, which is the deadline for our completion of an initial business combination.

We may issue notes or other debt securities, or otherwise incur substantial debt, to complete a business combination, which may adversely affect our leverage and financial condition and thus negatively impact the value of our shareholders' investment in us.

Although we have no commitments as of the date of this prospectus to issue any notes or other debt securities, or to otherwise incur outstanding debt following this offering, we may choose to incur substantial debt to complete our initial business combination. The incurrence of debt could have a variety of negative effects, including:

- default and foreclosure on our assets if our operating revenues after an initial business combination are insufficient to repay our debt obligations;
- acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the maintenance of certain financial ratios or reserves without a waiver or renegotiation of that covenant;
- our immediate payment of all principal and accrued interest, if any, if the debt security is payable on demand;
- our inability to obtain necessary additional financing if the debt security contains covenants restricting our ability to obtain such financing while the debt security is outstanding;
- using a substantial portion of our cash flow to pay principal and interest on our debt, which will reduce the funds available for expenses, capital expenditures, acquisitions and other general corporate purposes;
- limitations on our flexibility in planning for and reacting to changes in our business and in the industry in which we operate;
- increased vulnerability to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation; and
- limitations on our ability to borrow additional amounts for expenses, capital expenditures, acquisitions, debt service requirements, execution of our strategy and other purposes and other disadvantages compared to our competitors who have less debt.

We may only be able to complete one business combination with the proceeds of this offering and the sale of the private warrants, which will cause us to be solely dependent on a single business which may have a limited number of products or services. This lack of diversification may negatively impact our operations and profitability. The net proceeds from this offering and the private placement of the private warrants will provide us with \$195,000,000 (or \$224,250,000 if the underwriters' over-allotment option is exercised in full) that we may use to complete our initial business combination (after taking into account the \$5,000,000 of deferred underwriting commissions, or \$5,750,000 if the underwriters' over-allotment option is exercised in full, being held in the trust account).

We may effectuate our initial business combination with a single target business or multiple target businesses simultaneously or within a short period of time. However, we may not be able to effectuate our initial business combination with more than one target business because of various factors, including the existence of complex accounting issues and the requirement that we prepare and file pro forma financial statements with the SEC that present operating results and the financial condition of several target businesses as if they had been operated on a combined basis. By completing our initial business combination with only a single entity, our lack of diversification may subject us to numerous economic, competitive and regulatory developments. Further, we would not be able to diversify our operations or benefit from the possible spreading of risks or offsetting of losses, unlike other entities which may have the resources to complete several business combinations in different industries or different areas of a single industry. Accordingly, the prospects for our success may be:

- solely dependent upon the performance of a single business, property or asset, or
- dependent upon the development or market acceptance of a single or limited number of products, processes or services.

This lack of diversification may subject us to numerous economic, competitive and regulatory risks, any or all of which may have a substantial adverse impact upon the particular industry in which we may operate subsequent to our initial business combination.

We may attempt to simultaneously complete business combinations with multiple prospective targets, which may hinder our ability to complete our initial business combination and give rise to increased costs and risks that could negatively impact our operations and profitability.

If we determine to simultaneously acquire several businesses that are owned by different sellers, we will need for each of such sellers to agree that our purchase of its business is contingent on the simultaneous closings of the other business combinations, which may make it more difficult for us, and delay our ability, to complete our initial business combination. With multiple business combinations, we could also face additional risks, including additional burdens and costs with respect to possible multiple negotiations and due diligence investigations (if there are multiple sellers) and the additional risks associated with the subsequent assimilation of the operations and services or products of the acquired companies in a single operating business. If we are unable to adequately address these risks, it could negatively impact our profitability and results of operations.

We may attempt to complete our initial business combination with a private company about which little information is available, which may result in a business combination with a company that is not as profitable as we suspected, if at all.

In pursuing our business combination strategy, we may seek to effectuate our initial business combination with a privately held company. Very little public information generally exists about private companies, and we could be required to make our decision on whether to pursue a potential initial business combination on the basis of limited information, which may result in a business combination with a company that is not as profitable as we suspected, if at all.

We do not have a specified maximum redemption threshold. The absence of such a redemption threshold may make it possible for us to complete our initial business combination with which a substantial majority of our shareholders do not agree.

Our amended and restated memorandum and articles of association do not provide a specified maximum redemption threshold. Our proposed initial business combination may impose a minimum cash requirement for (i) cash consideration to be paid to the target or its owners, (ii) cash for working capital or other general corporate purposes or (iii) the retention of cash to satisfy other conditions. As a result, we may be able to complete our initial business combination even though a substantial majority of our public shareholders do not agree with the transaction and have redeemed their shares or, if we seek shareholder approval of our initial business combination and do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, have entered into privately negotiated agreements to sell their shares to our sponsor, officers, directors, advisor or any of their affiliates. In the event the aggregate cash consideration we would be required to pay for all Class A ordinary shares that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed business combination exceed the aggregate amount of cash available to us, we will not complete the business combination or redeem any shares, all Class A ordinary shares submitted for redemption will be returned to the holders thereof, and we instead may search for an alternate business combination.

In order to effectuate an initial business combination, special purpose acquisition companies have, in the recent past, amended various provisions of their charters and other governing instruments, including their warrant agreements. We cannot assure you that we will not seek to amend our amended and restated memorandum and articles of association or governing instruments in a manner that will make it easier for us to complete our initial business combination that our shareholders may not support.

In order to effectuate a business combination, special purpose acquisition companies have, in the recent past, amended various provisions of their charters and governing instruments, including their warrant agreements. For example, special purpose acquisition companies have extended the time to consummate an initial business combination and, with respect to their warrants, amended their warrant agreements to require the warrants to be exchanged for cash and/or other securities. Amending our amended and restated memorandum and articles of association will require a special resolution under Cayman Islands law, which requires the affirmative vote of at least two-thirds (or, in the scenarios described below, 90%) of the company's shareholders who, being entitled to do so, attend and vote (whether in person or by proxy) at a general meeting of the company of which notice specifying the intention to propose the resolution as a special resolution has been duly given, or a unanimous written resolution of all of the company's shareholders entitled to vote on such matter. Amending our warrant agreement will require a vote of holders of at least 50% of the public warrants and, solely with respect to any amendment to the terms of the private warrants or any provision of the warrant agreement with respect to the private warrants (including, for the avoidance of doubt, the forfeiture or cancellation of any private warrants), 50% of the then outstanding private warrants. In addition, our amended and restated memorandum and articles of association requires us to provide our public shareholders with the opportunity to redeem their public shares, regardless of whether they abstain, vote for, or vote against, our initial business combination, for cash if we propose an amendment to our amended and restated memorandum and articles of association (A) to modify the substance or timing of our obligation to allow redemption in connection with our initial business combination or to redeem 100% of our public shares if we do not complete an initial business combination within the completion window or (B) with respect to any other material provisions relating to shareholders' rights or pre-initial business combination activity. To the extent any of such amendments would be deemed to fundamentally change the nature of the securities offered through this registration statement, we would register, or seek an exemption from registration for, the affected securities. We cannot assure you that we will not seek to amend our charter or governing instruments or extend the time to consummate an initial business combination in order to effectuate our initial business combination.

The provisions of our amended and restated memorandum and articles of association that relate to our pre-business combination activity (and corresponding provisions of the agreement governing the release of funds from our trust account) may be amended with the approval of holders of not less than two-thirds of our shareholders who, being entitled to do so, attend and vote (whether in person or by proxy) at a general meeting of the company, which is a lower amendment threshold than that of some other special purpose acquisition companies. It may be easier for us, therefore, to amend our amended and restated memorandum and articles of association to facilitate the completion of an initial business combination that some of our shareholders may not support.

Our amended and restated memorandum and articles of association provide that any of its provisions related to pre-business combination activity (including the requirement to deposit proceeds of this offering and the private placement of the warrants into the trust account and not release such amounts except in specified circumstances, and to provide redemption rights to public shareholders as described herein, and other than amendments relating to the provisions regulating the appointment and removal of directors and continuing the company in a jurisdiction outside the Cayman Islands, which require a special resolution passed by the affirmative vote of the holders representing at least 90% of the issued Class B ordinary shares may be amended if approved by special resolution, under Cayman Islands law. Except as specified above with respect to matters requiring a 90% majority, a special resolution requires the affirmative vote of at least two-thirds of the company's shareholders as, being entitled to do so, attend and vote (whether in person or by proxy) at a general meeting of the company of which notice specifying the intention to propose the resolution as a special resolution has been duly given, or a unanimous written resolution of all of the company's shareholders entitled to vote on such matter. Our sponsor, who (assuming it does not purchase any units in this offering) will own approximately 20% of our ordinary shares upon the closing of this offering, will participate in any vote to amend our amended and restated memorandum and articles of association and/or trust agreement and will have the discretion to vote in any manner they choose. As a result, we may be able to amend the provisions of our amended and restated memorandum and articles of association which govern our pre-business combination behavior more easily than some other special purpose acquisition companies, and this may increase our ability to complete a business combination with which you do not agree.

Our sponsor, officers and directors have agreed, pursuant to a written agreement with us, that they will not propose any amendment to our amended and restated memorandum and articles of association (A) to modify the substance or timing of our obligation to allow redemption in connection with our initial business combination or to redeem 100% of our public shares if we do not complete our initial business combination within the completion window or (B) with respect to any other material provisions relating to shareholders' rights or pre-initial business combination activity, in each case unless we provide our public shareholders with the opportunity to redeem their Class A ordinary shares upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account (less taxes payable), divided by the number of then outstanding public shares. Our shareholders are not parties to, or third-party beneficiaries of, these agreements and, as a result, will not have the ability to pursue remedies against our sponsor, officers or directors for any breach of these agreements. As a result, in the event of a breach, our shareholders would need to pursue a shareholder derivative action, subject to applicable law.

We may be unable to obtain additional financing to complete our initial business combination or to fund the operations and growth of a target business, which could compel us to restructure or abandon a particular business combination.

We have not selected any specific business combination target but intend to target businesses with enterprise values that are greater than we could acquire with the net proceeds of this offering and the sale of the private warrants. As a result, if the cash portion of the purchase price exceeds the amount available from the trust account, net of amounts needed to satisfy any redemption by public shareholders, we may be required to seek additional financing to complete such proposed initial business combination. We cannot assure you that such financing will be available on acceptable terms, if at all. To the extent that additional financing proves to be unavailable when needed to complete our initial business combination, we would be compelled to either restructure the transaction or abandon that particular business combination and seek an alternative target business candidate. Further, we may be required to obtain additional financing in connection with the closing of our initial business combination for general corporate purposes, including for maintenance or expansion of operations of the post-transaction businesses, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, or to fund the purchase of other companies. If we are unable to complete our initial business combination, our public shareholders may only receive their pro rata portion of the funds in the trust account that are available for distribution to public shareholders, and our warrants will expire worthless. In addition, even if we do not need additional financing to complete our initial business combination, we may require such financing to fund the operations or growth of the target business. The failure to secure additional financing could have a material adverse effect on the continued development or growth of the target business. None of our officers, directors or shareholders is required to provide any financing to us in connection with or after our initial business combination.

Our sponsor will control the appointment of our board of directors until consummation of our initial business combination and will hold a substantial interest in us. As a result, it will appoint all of our directors prior to the consummation of our initial business combination and may exert a substantial influence on actions requiring a shareholder vote, potentially in a manner that you do not support.

Upon closing of this offering, our sponsor (assuming it does not purchase any units in this offering) will own approximately 20% of our issued and outstanding ordinary shares. Accordingly, they may exert a substantial influence on actions requiring a shareholder vote, potentially in a manner that you do not support, including amendments to our amended and restated memorandum and articles of association. This potential concentration of influence could be disadvantageous to other shareholders with interests different from those of our sponsor. In addition, the founder shares, all of which are held by our sponsor, will entitle the holders to appoint all of our directors prior to the consummation of our initial business combination. Holders of our public shares will have no right to vote on the appointment or removal of directors during such time. Further, prior to the closing of our initial business combination, only holders of our Class B ordinary shares will be entitled to vote on continuing our company in a jurisdiction outside the Cayman Islands (including any special resolution required to amend our constitutional documents or to adopt new constitutional documents, in each case, as a result of our approving a transfer by way of continuation in a jurisdiction outside the Cayman Islands). These provisions of our amended and restated memorandum and articles of association may only be amended if approved by a special resolution passed by the affirmative vote of the holders representing at least 90% of the issued Class B ordinary shares. As a result, you will not have any influence over the appointment or removal of directors prior to our initial business combination or any influence over our continuation in a jurisdiction outside the Cayman Islands prior to our initial business combination.

If our sponsor purchases any units in this offering or if our sponsor purchases any additional Class A ordinary shares in the aftermarket or in privately negotiated transactions, this would increase its control. Neither our sponsor nor, to our knowledge, any of our officers or directors, have any current intention to purchase additional securities, other than as disclosed in this prospectus. Factors that would be considered in making such additional purchases would include consideration of the current trading price of our Class A ordinary shares. In addition, our board of directors, whose members were appointed by our sponsor, is divided into three classes, each of which will generally serve for a term of three years with only one class of directors being appointed in each year. We may not hold an annual or extraordinary general meeting to appoint new directors prior to the completion of our initial business combination, in which case all of the current directors will continue in office until at least the completion of the business combination. If there is an annual general meeting, as a consequence of our “staggered” board of directors, only a minority of the board of directors will be considered for appointment and our sponsor, because of its ownership position, will have considerable influence regarding the outcome. In addition, since only holders of our Class B ordinary shares will have the right to vote on directors prior to our initial business combination, our initial shareholders will continue to exert control at least until the completion of our initial business combination. Accordingly, our sponsor will continue to exert control at least until the completion of our initial business combination.

We may not be able to complete an initial business combination because such initial business combination may be subject to regulatory review and approval requirements, including foreign investment regulations and review by government entities such as the Committee on Foreign Investment in the United States (“CFIUS”), or may be ultimately prohibited.

Our initial business combination may be subject to regulatory review and approval requirements by governmental entities, or ultimately prohibited. For example, CFIUS has authority to review direct or indirect foreign investments in U.S. companies. Among other things, CFIUS is empowered to require certain foreign investors to make mandatory filings, to charge filing fees related to such filings, and to self-initiate national security reviews of foreign direct and indirect investments in U.S. companies if the parties to that investment choose not to file voluntarily. In the case that CFIUS determines an investment to be a threat to national security, CFIUS has the power to unwind or place restrictions on the investment. Whether CFIUS has jurisdiction to review an acquisition or investment transaction depends on — among other factors — the nature and structure of the transaction, including the level of beneficial ownership interest and the nature of any information or governance rights involved. Our sponsor is a limited liability company formed in Delaware and is not controlled by, nor does it have substantial ties with, a non-U.S. person. Nevertheless, investments that result in “control” of a U.S. business by a foreign person are always subject to CFIUS jurisdiction. CFIUS’s expanded jurisdiction under the Foreign Investment Risk Review Modernization Act of 2018 and implementing regulations that became effective on February 13, 2020 further includes investments that do not result in control of a U.S. business by a foreign person but afford certain foreign investors certain information or governance rights in a U.S. business that has a nexus to “critical technologies,” “critical infrastructure” and/or “sensitive personal data.”

If a particular proposed initial business combination with a U.S. business falls within CFIUS’s jurisdiction, we may determine that we are required to make a mandatory filing or that we will submit to CFIUS review on a voluntary basis, or to proceed with the transaction without submitting to CFIUS and risk CFIUS intervention, before or after closing the transaction. CFIUS may decide to block or delay our proposed initial business combination, impose conditions with respect to such initial business combination or request the President of the United States to order us to divest all or a portion of the U.S. target business of our initial business combination that we acquired without first obtaining CFIUS approval, which may limit the attractiveness of, delay or prevent us from pursuing certain target companies that we believe would otherwise be beneficial to us and our shareholders. As a result, the pool of potential targets with which we could complete an initial business combination may be limited and we may be adversely affected in terms of competing with other special purpose acquisition companies which do not have any foreign ownership issues. In addition, certain federally licensed businesses may be subject to rules or regulations that limit foreign ownership.

The process of government review, whether by CFIUS or otherwise, could be lengthy. Because we have only a limited time to complete our initial business combination, our failure to obtain any required approvals within the requisite time period may require us to liquidate. If we are unable to consummate our initial business combination within the applicable time period required under our amended and restated memorandum and articles of association, including as a result of extended regulatory review of a potential initial business combination, we will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter (and subject to lawfully available funds therefor), redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account (which interest shall be net of taxes and less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then-outstanding public shares, which redemption will completely extinguish public shareholders' rights as shareholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining shareholders and our board of directors, liquidate and dissolve, subject in each case to our obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law. In such event, our shareholders would miss the opportunity to benefit from an investment in a target company and the appreciation in value of such investment. Additionally, our warrants would be worthless.

As the number of special purpose acquisition companies evaluating targets increases, attractive targets may become scarcer and there may be more competition for attractive targets or such attractive targets may not be interested to consummate a business combination with a SPAC due to a negative public perception of mergers involving SPACs. This could increase the cost of our initial business combination and could even result in our inability to find a target or to consummate an initial business combination.

In recent years, the number of special purpose acquisition companies that have been formed has increased substantially. Many potential targets for special purpose acquisition companies have already entered into an initial business combination, and there are still many special purpose acquisition companies preparing for an initial public offering, as well as many such companies currently in registration. As a result, at times, fewer attractive targets may be available to consummate an initial business combination.

In addition, because there are more special purpose acquisition companies seeking to enter into an initial business combination with available targets, the competition for available targets with attractive fundamentals or business models may increase, which could cause target companies to demand improved financial terms. Attractive deals could also become scarcer for other reasons, such as economic or industry sector downturns (including a negative public perception of mergers involving SPACs), geopolitical tensions, or increases in the cost of additional capital needed to close business combinations or operate targets post-business combination. This could increase the cost of, delay or otherwise complicate or frustrate our ability to find and consummate an initial business combination and may result in our inability to consummate an initial business combination on terms favorable to our investors altogether.

Adverse developments affecting the financial services industry, including events or concerns involving liquidity, defaults or non-performance by financial institutions, could adversely affect our business, financial condition or results of operations, or our prospects.

The funds in our operating account and our trust account will initially be held in banks or other financial institutions and will be invested only in U.S. government treasury obligations with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations; the holding of these assets in this form is intended to be temporary and for the sole purpose of facilitating the intended business combination. To mitigate the risk that we might be deemed to be an investment company for purposes of the Investment Company Act, which risk increases the longer that we hold investments in the trust account, we may, at any time (based on our management team's ongoing assessment of all factors related to our potential status under the Investment Company Act) instruct the trustee to liquidate the investments held in the trust account and instead to hold the funds in the trust account in cash or in an interest-bearing demand deposit account at a bank. Our cash held in these accounts may exceed any applicable Federal Deposit Insurance Corporation ("FDIC") insurance limits. Should events, including limited liquidity, defaults, non-performance or other adverse developments occur with respect to the banks or other financial institutions that hold our funds, or that affect financial institutions or the financial services industry generally, or concerns or rumors about any events of these kinds or other similar risks, the value of the assets in our trust account could be impaired, which could have a material impact on our operating results, liquidity, financial condition and prospects. For example, on March 10, 2023, the FDIC announced that Silicon Valley Bank had been closed by the California Department of Financial Protection and Innovation. We cannot guarantee that the banks or other financial institutions that will hold our funds will not experience similar issues.

Because we must furnish our shareholders with target business financial statements, we may lose the ability to complete an otherwise advantageous initial business combination with some prospective target businesses.

The federal proxy rules require that the proxy statement with respect to the vote on an initial business combination include historical and pro forma financial statement disclosure. We will include the same financial statement disclosure in connection with our tender offer documents, whether or not they are required under the tender offer rules. These financial statements may be required to be prepared in accordance with, or be reconciled to, accounting principles generally accepted in the United States of America ("GAAP") or international financial reporting standards as issued by the International Accounting Standards Board ("IFRS") depending on the circumstances and the historical financial statements may be required to be audited in accordance with the standards of the Public Company Accounting Oversight Board (United States) ("PCAOB"). These financial statement requirements may limit the pool of potential target businesses we may acquire because some targets may be unable to provide such financial statements in time for us to disclose such statements in accordance with federal proxy rules and complete our initial business combination within the prescribed time frame.

Compliance obligations under the Sarbanes-Oxley Act may make it more difficult for us to effectuate our initial business combination, require substantial financial and management resources, and increase the time and costs of completing an initial business combination.

Section 404 of the Sarbanes-Oxley Act requires that we evaluate and report on our system of internal controls beginning with our Annual Report on Form 10-K for the year ending December 31, 2027. Only in the event we are deemed to be a large accelerated filer or an accelerated filer, and no longer qualify as an emerging growth company, will we be required to comply with the independent registered public accounting firm attestation requirement on our internal control over financial reporting. Further, for as long as we remain an emerging growth company, we will not be required to comply with the independent registered public accounting firm attestation requirement on our internal control over financial reporting. The fact that we are a blank check company makes compliance with the requirements of the Sarbanes-Oxley Act particularly burdensome on us as compared to other public companies because a target business with which we seek to complete our initial business combination may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding adequacy of its internal controls. The development of the internal control of any such entity to achieve compliance with the Sarbanes-Oxley Act may increase the time and costs necessary to complete any such business combination.

Risks Relating to the Post-Business Combination Company

Subsequent to our completion of our initial business combination, we may be required to take write-downs or write-offs, restructuring and impairment or other charges that could have a significant negative effect on our financial condition, results of operations and the price of our securities, which could cause you to lose some or all of your investment.

Even if we conduct due diligence on a target business with which we combine, we cannot assure you that this diligence will identify all material issues that may be present within a particular target business, that it would be possible to uncover all material issues through a customary amount of due diligence, or that factors outside of the target business and outside of our control will not later arise. As a result of these factors, we may be forced to later write-down or write-off assets, restructure our operations, or incur impairment or other charges that could result in our reporting losses. Even if our due diligence successfully identifies certain risks, unexpected risks may arise and previously known risks may materialize in a manner not consistent with our preliminary risk analysis. Even though these charges may be non-cash items and not have an immediate impact on our liquidity, the fact that we report charges of this nature could contribute to negative market perceptions about us or our securities. In addition, charges of this nature may cause us to violate net worth or other covenants to which we may be subject as a result of assuming pre-existing debt held by a target business or by virtue of our obtaining debt financing to partially finance the initial business combination or thereafter. Accordingly, any shareholders who choose to remain shareholders following the business combination could suffer a reduction in the value of their securities. Such shareholders are unlikely to have a remedy for such reduction in value unless they are able to successfully claim that the reduction was due to the breach by our officers or directors of a duty of care or other fiduciary duty owed to them, or if they are able to successfully bring a private claim under securities laws that the proxy solicitation or tender offer materials, as applicable, relating to the business combination contained an actionable material misstatement or material omission.

The officers and directors of an acquisition candidate may resign upon completion of our initial business combination. The loss of a business combination target's key personnel could negatively impact the operations and profitability of our post-combination business.

The role of an acquisition candidate's key personnel upon the completion of our initial business combination cannot be ascertained at this time. Although we contemplate that certain members of an acquisition candidate's management team will remain associated with the acquisition candidate following our initial business combination, it is possible that members of the management of an acquisition candidate will not wish to remain in place.

Our management may not be able to maintain control of a target business after our initial business combination. We cannot provide assurance that, upon loss of control of a target business, new management will possess the skills, qualifications or abilities necessary to profitably operate such business.

We may structure our initial business combination so that the post-transaction company in which our public shareholders own shares will own less than 100% of the equity interests or assets of a target business, but we will only complete such business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for us not to be required to register as an investment company under the Investment Company Act. We will not consider any transaction that does not meet such criteria. Even if the post-transaction company owns 50% or more of the voting securities of the target, our shareholders prior to the business combination may collectively own a minority interest in the post business combination company, depending on valuations ascribed to the target and us in the business combination. For example, we could pursue a transaction in which we issue a substantial number of new Class A ordinary shares in exchange for all of the outstanding capital stock, shares or other equity interests of a target. In this case, we would acquire a 100% interest in the target. However, as a result of the issuance of a substantial number of new Class A ordinary shares, our shareholders immediately prior to such transaction could own less than a majority of our issued and outstanding Class A ordinary shares subsequent to such transaction. In addition, other minority shareholders may subsequently combine their holdings resulting in a single person or group obtaining a larger share of the company's shares than we initially acquired. Accordingly, this may make it more likely that our management will not be able to maintain control of the target business.

We may have a limited ability to assess the management of a prospective target business and, as a result, may effect our initial business combination with a target business whose management may not have the skills, qualifications or abilities to manage a public company.

When evaluating the desirability of effecting our initial business combination with a prospective target business, our ability to assess the target business's management may be limited due to a lack of time, resources or information. Our assessment of the capabilities of the target business's management, therefore, may prove to be incorrect and such management may lack the skills, qualifications or abilities we suspected. Should the target business's management not possess the skills, qualifications or abilities necessary to manage a public company, the operations and profitability of the post-combination business may be negatively impacted. Accordingly, any shareholders who choose to remain shareholders following the business combination could suffer a reduction in the value of their shares. Such shareholders are unlikely to have a remedy for such reduction in value unless they are able to successfully claim that the reduction was due to the breach by our officers or directors of a duty of care or other fiduciary duty owed to them, or if they are able to successfully bring a private claim under securities laws that the proxy solicitation or tender offer materials, as applicable, relating to the business combination contained an actionable material misstatement or material omission.

We may seek business combination opportunities with a high degree of complexity that require significant operational improvements, which could delay or prevent us from achieving our desired results.

We may seek business combination opportunities with large, highly complex companies that we believe would benefit from operational improvements. While we intend to implement such improvements, to the extent that our efforts are delayed or we are unable to achieve the desired improvements, the business combination may not be as successful as we anticipate.

To the extent we complete our initial business combination with a large complex business or entity with a complex operating structure, we may also be affected by numerous risks inherent in the operations of the business with which we combine, which could delay or prevent us from implementing our strategy. Although our management team will endeavor to evaluate the risks inherent in a particular target business and its operations, we may not be able to properly ascertain or assess all of the significant risk factors until we complete our business combination. If we are not able to achieve our desired operational improvements, or the improvements take longer to implement than anticipated, we may not achieve the gains that we anticipate. Furthermore, some of these risks and complexities may be outside of our control and leave us with no ability to control or reduce the chances that those risks and complexities will adversely impact a target business. Such combination may not be as successful as a combination with a smaller, less complex organization.

The share price of the combined company may decline after our initial business combination below the initial value of the units sold in this offering.

Each unit in this offering, which has an offering price of \$10.00, consists of one Class A ordinary share and one-half of one redeemable warrant. Of the proceeds we receive from this offering and from the sale of the private warrants described in this prospectus, \$200,000,000, or \$230,000,000 if the underwriters' over-allotment option is exercised in full (\$10.00 per unit in either case), will be placed in our trust account. We will provide our public shareholders with the opportunity to redeem all or a portion of their Class A ordinary shares in connection with the completion of our initial business combination, and potentially upon the occurrence of certain other events prior to our initial business combination. We expect that the pro rata redemption price in any redemption will be approximately \$10.00 per public share, without taking into account any interest or other income earned on such funds (less any withdrawals from such interest or income for taxes paid), although the per shares redemption price may be less in certain circumstances. As a result, public shareholders who purchase units in this offering can anticipate receiving at least \$10.00 per share (without taking into account interest or income earned on the amounts held in the trust account, less any withdrawals from such interest or income for taxes paid) at the time of redemption for each share that they choose to redeem.

After our initial business combination, however, there can be no assurance that shareholders would be able to sell their shares for \$10.00 per share. The target business with which we consummate our initial business combination will likely be subject to many material risks. Since we have not yet identified a target, the exact nature of those risks is not clear at this time. However, if any of those risks materialize, or for other reasons, that target business may not perform as anticipated, and the share price of the combined company may decline as a result. Even if the financial performance of the target business is not less than anticipated, the share price of the combined company may decline anyway due to market conditions or other factors. In recent years, the share prices of many companies have fallen following a business combination. As a result, if you continue to hold our shares through our initial business combination without redeeming such shares, we cannot assure you that the sale price following our initial business combination will be greater than the initial value of the units sold in this offering.

Our initial business combination and our structure thereafter may not be tax-efficient to our shareholders and warrant holders. As a result of our business combination, our tax obligations may be more complex, burdensome and/or uncertain.

Although we will attempt to structure our initial business combination in a tax-efficient manner, tax structuring considerations are complex, the relevant facts and law are uncertain and may change, and we may prioritize commercial and other considerations over tax considerations. For example, in connection with our initial business combination and subject to any requisite shareholder approval and applicable law, we may: structure our business combination in a manner that requires shareholders and/or warrant holders to recognize gain or income for tax purposes; effect a business combination with a target company in another jurisdiction; reincorporate in a different jurisdiction (including, but not limited to, the jurisdiction in which the target company or business is located), or transfer by way of continuation. We do not intend to make any cash distributions to shareholders or warrant holders to pay taxes in connection with our business combination or thereafter. Accordingly, a shareholder or a warrant holder may need to satisfy any liability resulting from our initial business combination with cash from its own funds or by selling all or a portion of the shares or warrants received. In addition, shareholders and warrant holders may also be subject to additional income, withholding or other taxes with respect to their ownership of us after our initial business combination.

In addition, we may effect a business combination with a target company that has business operations outside of the United States, and possibly, business operations in multiple jurisdictions. If we effect such a business combination, we could be subject to significant income, withholding and other tax obligations in a number of jurisdictions with respect to income, operations and subsidiaries related to those jurisdictions. Due to the complexity of tax obligations and filings in other jurisdictions, we may have a heightened risk related to audits or examinations by U.S. federal, state, local and non-U.S. taxing authorities. This additional complexity and risk could have an adverse effect on our after-tax profitability and financial condition.

Risks Relating to Acquiring and Operating a Business in Foreign Countries

If we effect our initial business combination with a company located outside of the United States, we would be subject to a variety of additional risks that may adversely affect us.

If we pursue a target company with operations or opportunities outside of the United States for our initial business combination, we may face additional burdens in connection with investigating, agreeing to and completing such initial business combination, and if we effect such initial business combination, we would be subject to a variety of additional risks that may negatively impact our operations.

If we pursue a target a company with operations or opportunities outside of the United States for our initial business combination, we would be subject to risks associated with cross-border business combinations, including in connection with investigating, agreeing to and completing our initial business combination, conducting due diligence in a foreign jurisdiction, having such transaction approved by any local governments, regulators or agencies and changes in the purchase price based on fluctuations in foreign exchange rates.

If we effect our initial business combination with such a company, we would be subject to any special considerations or risks associated with companies operating in an international setting, including any of the following:

- costs and difficulties inherent in managing cross-border business operations;
- rules and regulations regarding currency redemption;
- complex corporate withholding taxes on individuals;
- laws governing the manner in which future business combinations may be effected;
- exchange listing and/or delisting requirements;
- tariffs and trade barriers;
- regulations related to customs and import/export matters;
- local or regional economic policies and market conditions;
- unexpected changes in regulatory requirements;
- challenges in managing and staffing international operations;
- longer payment cycles;
- tax issues, such as tax law changes and variations in tax laws as compared to the United States;
- currency fluctuations and exchange controls;
- rates of inflation;
- challenges in collecting accounts receivable;

- cultural and language differences;
- employment regulations;
- underdeveloped or unpredictable legal or regulatory systems;
- corruption;
- protection of intellectual property;
- social unrest, crime, strikes, riots and civil disturbances;
- regime changes and political upheaval;
- terrorist attacks, natural disasters, widespread health emergencies and wars; and
- deterioration of political relations with the United States.

We may not be able to adequately address these additional risks. If we were unable to do so, we may be unable to complete such initial business combination, or, if we complete such initial business combination, our operations might suffer, either of which may adversely impact our business, financial condition and results of operations.

We may reincorporate in, or transfer by way of continuation to, another jurisdiction, which may result in taxes imposed on shareholders or warrant holders.

We may, in connection with our initial business combination or otherwise and, to the extent applicable, subject to requisite shareholder approval by special resolution under the Companies Act (with respect to which only holders of Class B ordinary shares will be entitled to vote prior to our initial business combination), and requirements of the Cayman Islands' Registrar of Companies, reincorporate in, or transfer by way of continuation to, the jurisdiction in which the target company or business is located or in another jurisdiction. The transaction may require a shareholder or warrant holder to recognize taxable income in the jurisdiction in which the shareholder or warrant holder is a tax resident or in which its members are resident if it is a tax transparent entity (or may otherwise result in adverse tax consequences). We do not intend to make any cash distributions to shareholders or warrant holders to pay such taxes. Shareholders or warrant holders may be subject to withholding taxes or other taxes with respect to their ownership of our Class A ordinary shares or warrants after the reincorporation, or transfer by way of continuation.

We may reincorporate in or transfer by way of continuation to another jurisdiction in connection with our initial business combination, and the laws of such jurisdiction may govern some or all of our future material agreements and we may not be able to enforce our legal rights.

In connection with our initial business combination, and subject to obtaining requisite shareholder approval under the Companies Act, we may relocate the home jurisdiction of our company from the Cayman Islands to another jurisdiction. If we determine to do this, the laws of such jurisdiction may govern some or all of our future material agreements. The system of laws and the enforcement of existing laws in such jurisdiction may not be as certain in implementation and interpretation as in the United States. The inability to enforce or obtain a remedy under any of our future agreements could result in a significant loss of business, business opportunities or capital.

We are subject to changing law and regulations regarding regulatory matters, corporate governance and public disclosure that have increased both our costs and the risk of non-compliance.

We are subject to rules and regulations by various governing bodies, including, for example, the Securities and Exchange Commission, which are charged with the protection of investors and the oversight of companies whose securities are publicly traded, and to new and evolving regulatory measures under applicable law. Our efforts to comply with new and changing laws and regulations have resulted in and are likely to continue to result in, increased general and administrative expenses and a diversion of management time and attention from revenue-generating activities to compliance activities.

Moreover, because these laws, regulations and standards are subject to varying interpretations, their application in practice may evolve over time as new guidance becomes available. This evolution may result in continuing uncertainty regarding compliance matters and additional costs necessitated by ongoing revisions to our disclosure and governance practices. If we fail to address and comply with these regulations and any subsequent changes, we may be subject to penalty and our business may be harmed.

If our management following our initial business combination is unfamiliar with United States securities laws, they may have to expend time and resources becoming familiar with such laws, which could lead to various regulatory issues.

Following our initial business combination, our management may resign from their positions as officers or directors of the company and the management of the target business at the time of the business combination will remain in place. Management of the target business may not be familiar with United States securities laws. If new management is unfamiliar with United States securities laws, they may have to expend time and resources becoming familiar with such laws. This could be expensive and time-consuming and could lead to various regulatory issues which may adversely affect our operations.

Exchange rate fluctuations and currency policies may cause a target business' ability to succeed in the international markets to be diminished.

In the event we acquire a non-U.S. target, all revenues and income would likely be received in a foreign currency, and the dollar equivalent of our net assets and distributions, if any, could be adversely affected by reductions in the value of the local currency. The value of the currencies in our target regions fluctuate and are affected by, among other things, changes in political and economic conditions. Any change in the relative value of such currency against our reporting currency may affect the attractiveness of any target business or, following consummation of our initial business combination, our financial condition and results of operations. Additionally, if a currency appreciates in value against the dollar prior to the consummation of our initial business combination, the cost of a target business as measured in dollars will increase, which may make it less likely that we are able to consummate such transaction.

After our initial business combination, substantially all of our assets may be located in a foreign country and substantially all of our revenue may be derived from our operations in such country. Accordingly, our results of operations and prospects will be subject, to a significant extent, to the economic, political and legal policies, developments and conditions in the country in which we operate.

After our initial business combination, substantially all of our assets may be located in a foreign country and substantially all of our revenue may be derived from our operations in such country. The economic, political and social conditions, as well as government policies, of the country in which our operations are located could affect our business. Economic growth could be uneven, both geographically and among various sectors of the economy and such growth may not be sustained in the future. If in the future such country's economy experiences a downturn or grows at a slower rate than expected, there may be less demand for spending in certain industries. A decrease in demand for spending in certain industries could materially and adversely affect our ability to find an attractive target business with which to consummate our initial business combination and if we effect our initial business combination, the ability of that target business to become profitable.

Risks Relating to Our Management Team

We are dependent upon our officers and directors and their loss, or a reduction in the amount of time they can dedicate to our initial business combination, could adversely affect our ability to operate.

Our operations are dependent upon a relatively small group of individuals and, in particular, our officers and directors. We believe that our success depends on the continued service of our officers and directors, at least until we have completed our initial business combination. In addition, our officers and directors are not required to commit any specified amount of time to our affairs and, accordingly, will have conflicts of interest in allocating their time among various business activities, including identifying potential business combinations and monitoring the related due diligence. We do not have an employment agreement with, or key-man insurance on the life of, any of our directors or officers. The unexpected loss of the services of one or more of our directors or officers could have a detrimental effect on us.

The ownership interest of our sponsor may change, and our sponsor may divest its ownership interest in us before identifying a business combination, which could deprive us of key personnel and advisors.

Our sponsor is a limited liability company of which X Cubed Capital Management LLC is the sole member. X Cubed Capital Management LLC is controlled by Andrew J. Redleaf, who holds voting and investment discretion with respect to the founder shares held of record by the sponsor, and all our officers and directors own individual economic interests in our sponsor. However, this may change as there is no contractual restriction on the sponsor or the managing members' ability to share, sell or otherwise dispose of part or all of the interests in our sponsor or held by our sponsor. As a result, there is a risk that our sponsor (or the managing members) may divest its (or their or our officers' and directors') ownership or economic interests in us or in the sponsor before a business combination target is identified, which would likely result in the Company's loss of certain key personnel, including Andrew J. Redleaf, Kenneth J. Weiller, Chris Bemis and Toby Maitland Hudson. In addition, there can be no assurance that any replacement sponsor, key personnel or advisors would successfully identify a business combination target for us or, even if one is one so identified, successfully complete such business combination.

Our ability to successfully effect our initial business combination and to be successful thereafter will be dependent upon the efforts of our key personnel, some of whom may join us following our initial business combination. The loss of key personnel could negatively impact the operations and profitability of our post-combination business.

Our ability to successfully effect our initial business combination is dependent upon the efforts of our key personnel. The role of our key personnel in the target business, however, cannot presently be ascertained. Although some of our key personnel may remain with the target business in senior management or advisory positions following our initial business combination, it is likely that some or all of the management of the target business will remain in place. While we intend to closely scrutinize any individuals we engage after our initial business combination, we cannot assure you that our assessment of these individuals will prove to be correct. These individuals may be unfamiliar with the requirements of operating a company regulated by the SEC, which could cause us to have to expend time and resources helping them become familiar with such requirements.

Our key personnel may negotiate employment or consulting agreements with a target business in connection with a particular business combination, and a particular business combination may be conditioned on the retention or resignation of such key personnel. These agreements may provide for them to receive compensation following our initial business combination and as a result, may cause them to have conflicts of interest in determining whether a particular business combination is the most advantageous.

Our key personnel may be able to remain with our company after the completion of our initial business combination only if they are able to negotiate employment or consulting agreements in connection with the business combination. Such negotiations would take place simultaneously with the negotiation of the business combination and could provide for such individuals to receive compensation in the form of cash payments and/or our securities for services they would render to us after the completion of the business combination. Such negotiations also could make such key personnel's retention or resignation a condition to any such agreement. The personal and financial interests of such individuals may influence their motivation in identifying and selecting a target business, subject to their fiduciary duties under Cayman Islands law.

Our officers and directors will allocate their time to other businesses thereby causing conflicts of interest in their determination as to how much time to devote to our affairs. This conflict of interest could have a negative impact on our ability to complete our initial business combination.

Our officers and directors are not required to, and will not, commit their full time to our affairs, which may result in a conflict of interest in allocating their time between our operations and our search for a business combination and their other businesses. We do not intend to have any full-time employees prior to the completion of our initial business combination. Each of our officers is engaged in other business endeavors for which he may be entitled to substantial compensation, and our officers are not obligated to contribute any specific number of hours per week to our affairs. Our independent directors also serve as officers and board members for other entities. If our officers' and directors' other business affairs require them to devote substantial amounts of time to such affairs in excess of their current commitment levels, it could limit their ability to devote time to our affairs which may have a negative impact on our ability to complete our initial business combination. Any such companies, businesses or investments may present additional conflicts of interest in pursuing an initial business combination target, which could materially affect our ability to complete our initial business combination. For a complete discussion of our officers' and directors' other business affairs, see "*Management — Officers and Directors.*"

Our officers and directors presently have, and any of them in the future may have additional, fiduciary or contractual obligations to other entities, including other blank check companies, and, accordingly, may have conflicts of interest in allocating their time and in determining to which entity a particular business opportunity should be presented.

Following the completion of this offering and until we consummate our initial business combination, we intend to engage in the business of identifying and combining with one or more businesses. Our sponsor, its managing member, and our officers and directors are, or may in the future become, affiliated with entities (such as operating companies or investment vehicles) that are engaged in a similar business. We do not have employment contracts with our officers and directors that will limit their ability to work at other businesses. In addition, our sponsor, officers and directors may participate in the formation of, or become an officer or director of, any other blank check company prior to completion of our initial business combination. Our sponsor, officers and directors have complete discretion, subject to applicable fiduciary duties, as to which blank check company they choose to pursue a business combination and the order in which they pursue business combinations for any of their existing or future blank check companies. As a result, our sponsor, officers and directors may pursue business combinations for blank check companies that it has sponsored in any order, which could result in its more recent blank check companies completing business combinations prior to its blank check companies that were launched earlier. As a result, our sponsor, officers and directors could have conflicts of interest in determining whether to present business combination opportunities to us or to any other blank check company with which they may become involved. Each of our officers and directors presently has, and any of them in the future may have additional, fiduciary, contractual or other obligations or duties to one or more other entities pursuant to which such officer or director is or will be required to present a business combination opportunity to such entities. Accordingly, if any of our officers or directors becomes aware of a business combination opportunity which is suitable for an entity to which he or she has then current fiduciary or contractual obligations, he or she may be required to honor his or her fiduciary or contractual obligations to present such business combination opportunity to such other entity. Our amended and restated memorandum and articles of association provide that, to the fullest extent permitted by law: (i) no individual serving as a director or an officer, among other persons, shall have any duty, except and to the extent expressly assumed by contract, to refrain from engaging directly or indirectly in the same or similar business activities or lines of business as us, and (ii) we renounce any interest or expectancy in, or in being offered an opportunity to participate in, any potential transaction or matter which (a) may be a corporate opportunity for any director or officer, on the one hand, and us, on the other or (b) the presentation of which would breach an existing legal obligation of a director or officer to any other entity. As a result, the fiduciary duties or contractual obligations of our officers or directors could materially affect our ability to complete our initial business combination.

For a complete discussion of our officers' and directors' business affiliations and the potential conflicts of interest that you should be aware of, see "*Management — Officers and Directors*," "*Management — Conflicts of Interest*" and "*Certain Relationships and Related Party Transactions*."

Our officers, directors, security holders and their respective affiliates may have competitive pecuniary interests that conflict with our interests.

We have not adopted a policy that expressly prohibits our directors, officers, security holders or affiliates from having a direct or indirect pecuniary or financial interest in any investment to be acquired or disposed of by us or in any transaction to which we are a party or have an interest. In fact, we may enter into a business combination with a target business that is affiliated with our sponsor or one or more of our directors or officers, although we do not intend to do so. Nor do we have a policy that expressly prohibits any such persons from engaging for their own account in business activities of the types conducted by us. Accordingly, such persons or entities may have a conflict between their interests and ours. Any such companies, businesses or investments may present additional conflicts of interest in pursuing an initial business combination target, which could materially affect our ability to complete our initial business combination.

The personal and financial interests of our directors and officers may influence their motivation in timely identifying and selecting a target business and completing a business combination. Consequently, our directors' and officers' discretion in identifying and selecting a suitable target business may result in a conflict of interest when determining whether the terms, conditions and timing of a particular business combination are appropriate and in our shareholders' best interest. If this were the case, it would be a breach of their fiduciary duties to us as a matter of Cayman Islands law and we or our shareholders might have a claim against such individuals for infringing on our shareholders' rights. See "*Description of Securities — Certain Differences in Corporate Law — Shareholder Suits*" for further information on the ability to bring such claims. However, we might not ultimately be successful in any claim we may make against them for such reason.

Members of our management team and board of directors have significant experience as founders, board members, officers, executives or employees of other companies. Certain of those persons have been, are currently, or may become, involved in litigation, investigations or other proceedings, including related to those companies or otherwise. This may have an adverse effect on us, which may impede our ability to consummate an initial business combination.

During the course of their careers, members of our management team and board of directors have had significant experience as founders, board members, officers, executives or employees of other companies. As a result of their involvement and positions in these companies, certain of those persons have been, may be or may in the future become involved in litigation, investigations or other proceedings, including relating to the business affairs of such companies, transactions entered into by such companies, or otherwise. Individual members of our management team and board of directors also may become involved in litigation, investigations or other proceedings involving claims or allegations related to or as a result of their personal conduct, either in their capacity as a corporate officer or director or otherwise, and may be personally named in such actions and potentially subject to personal liability. Any liability from such proceedings may or may not be covered by insurance and/or indemnification, depending on the facts and circumstances. The defense or prosecution of these matters could be time-consuming. Any litigation, investigations or other proceedings and the potential outcomes of such actions may divert the attention and resources of our management team and board of directors away from identifying and selecting a target business or businesses for our initial business combination and may negatively affect our reputation, which may impede our ability to complete an initial business combination.

Members of our management team and affiliated companies may have been, and may in the future be, involved in civil disputes or governmental investigations unrelated to our business.

Members of our management team have been (and intend to be) involved in a wide variety of businesses. Such involvement has, and may lead to, media coverage and public awareness. As a result, members of our management team and affiliated companies may have been, and may in the future be, involved in civil disputes or governmental investigations unrelated to our business. Any such claims or investigations may be detrimental to our reputation and could negatively affect our ability to identify and complete an initial business combination and may have an adverse effect on the price of our securities.

Our letter agreement with our sponsor, officers and directors may be amended without shareholder approval.

Our letter agreement with our sponsor, officers and directors contain provisions relating to transfer restrictions of our founder shares and private warrants, indemnification of the trust account, waiver of redemption rights and participation in liquidating distributions from the trust account. The letter agreement may be amended without shareholder approval (although releasing the parties from the restriction not to transfer the founder shares for 185 days following the date of this prospectus will require the prior written consent of the underwriters). While we do not expect our board to approve any amendment to the letter agreement prior to our initial business combination, it may be possible that our board, in exercising its business judgment and subject to its fiduciary duties, chooses to approve one or more amendments to the letter agreement. Any such amendments to the letter agreement would not require approval from our shareholders and may have an adverse effect on the value of an investment in our securities.

Risks Relating to Our Securities

You will not have any rights or interests in funds from the trust account, except under certain limited circumstances. Therefore, to liquidate your investment, you may be forced to sell your public shares or warrants, potentially at a loss.

Our public shareholders will be entitled to receive funds from the trust account only upon the earliest to occur of: (i) our completion of an initial business combination, and then only in connection with those Class A ordinary shares that such shareholder properly elected to redeem, subject to the limitations and on the conditions described herein, (ii) the redemption of any public shares properly submitted in connection with a shareholder vote to amend our amended and restated memorandum and articles of association (A) to modify the substance or timing of our obligation to allow redemption in connection with our initial business combination or to redeem 100% of our public shares if we do not complete our initial business combination within the completion window or (B) with respect to any other material provisions relating to shareholders' rights or pre-initial business combination activity, and (iii) the redemption of our public shares if we are unable to complete an initial business combination within the completion window, subject to applicable law and as further described herein. In no other circumstances will a public shareholder have any right or interest of any kind in the trust account. Holders of warrants will not have any right to the proceeds held in the trust account with respect to the warrants. Accordingly, to liquidate your investment, you may be forced to sell your public shares or warrants, potentially at a loss.

Nasdaq may delist our securities from trading on its exchange, which could limit investors' ability to make transactions in our securities and subject us to additional trading restrictions.

We have been approved to list our units listed on Nasdaq. We expect that our units will be listed on Nasdaq promptly after the date of this prospectus. Following the date that the Class A ordinary shares and warrants are eligible to trade separately, we anticipate that the Class A ordinary shares and warrants will be separately listed on Nasdaq. Although after giving effect to this offering we expect to meet, on a pro forma basis, the minimum initial listing standards set forth in Nasdaq listing standards, we cannot assure you that our securities will be, or will continue to be, listed on Nasdaq in the future or prior to our initial business combination. In order to continue listing our securities on Nasdaq prior to our initial business combination, we must maintain certain financial, distribution and share price levels. Generally, we must maintain a minimum market value of listed securities (generally \$50,000,000) and a minimum number of holders of our securities (generally 400 public holders). Additionally, in connection with our initial business combination, we will be required to demonstrate compliance with Nasdaq's initial listing requirements, which are more rigorous than Nasdaq's continued listing requirements, in order to continue to maintain the listing of our securities on Nasdaq. For instance, unless we decide to list on a different Nasdaq tier such as the Nasdaq Capital Market which has different initial listing requirements, our share price would generally be required to be at least \$4.00 per share and we would be required to have a minimum of 400 round lot holders of our securities. We cannot assure you that we will be able to meet those initial listing requirements at that time.

If Nasdaq delists our securities from trading on its exchange and we are not able to list our securities on another national securities exchange, we expect our securities could be quoted on an over-the-counter market. If this were to occur, we could face significant material adverse consequences, including:

- a limited availability of market quotations for our securities;
- reduced liquidity for our securities;
- a determination that our Class A ordinary shares are a "penny stock" which will require brokers trading in our Class A ordinary shares to adhere to more stringent rules and possibly result in a reduced level of trading activity in the secondary trading market for our securities;
- a limited amount of news and analyst coverage; and
- a decreased ability to issue additional securities or obtain additional financing in the future.

The National Securities Markets Improvement Act of 1996, which is a federal statute, prevents or preempts the states from regulating the sale of certain securities, which are referred to as “covered securities.” Because we expect that our units and eventually our Class A ordinary shares and warrants will be listed on Nasdaq, our units, Class A ordinary shares and warrants will qualify as covered securities under the statute. Although the states are preempted from regulating the sale of our securities, the federal statute does allow the states to investigate companies if there is a suspicion of fraud, and, if there is a finding of fraudulent activity, then the states can regulate or bar the sale of covered securities in a particular case. While we are not aware of a state having used these powers to prohibit or restrict the sale of securities issued by blank check companies, other than the State of Idaho, certain state securities regulators view blank check companies unfavorably and might use these powers, or threaten to use these powers, to hinder the sale of securities of blank check companies in their states. Further, if we were no longer listed on Nasdaq, our securities would not qualify as covered securities under the statute and we would be subject to regulation in each state in which we offer our securities.

Our initial shareholders paid an aggregate of \$25,000, or approximately \$0.004 per founder share and, accordingly, you will experience immediate and substantial dilution from the purchase of our Class A ordinary shares.

The difference between the public offering price per share (allocating all of the unit purchase price to the Class A ordinary share and none to the warrant included in the unit) and the pro forma net tangible book value per share of our Class A ordinary shares after this offering constitutes the dilution to you and the other investors in this offering. Our initial shareholders acquired the founder shares at a nominal price, significantly contributing to this dilution. Upon closing of this offering, and assuming no value is ascribed to the warrants included in the units, you and the other public shareholders will incur an immediate and substantial dilution of approximately 98.20% (or \$9.82 per share, assuming no exercise of the underwriters’ over-allotment option), the difference between the pro forma net tangible book value per share after this offering of \$0.18 (assuming a maximum redemption scenario) and the initial offering price of \$10.00 per unit. This dilution would increase to the extent that the anti-dilution provisions of the founder shares result in the issuance of Class A ordinary shares on a greater than one-to-one basis upon conversion of the founder shares at the time of our initial business combination. In addition, because of the anti-dilution protection in the founder shares, any equity or equity-linked securities issued in connection with our initial business combination would be disproportionately dilutive to our Class A ordinary shares.

The nominal purchase price paid by our sponsor for the founder shares may result in significant dilution to the implied value of your public shares upon the consummation of our initial business combination, and our sponsor is likely to make a substantial profit on its investment in us in the event we consummate an initial business combination, even if the business combination causes the trading price of our ordinary shares to materially decline.

We are offering our units at an offering price of \$10.00 per unit and the amount in our trust account is initially anticipated to be \$10.00 per public share, implying an initial value of \$10.00 per public share. However, prior to this offering, our sponsor paid a nominal aggregate purchase price of \$25,000 for the founder shares, or approximately \$0.004 per share. As a result, the value of your public shares may be significantly diluted upon the consummation of our initial business combination, when the founder shares are converted into public shares.

The following table shows the public shareholders’ and our sponsor’s investment per share and how these compare to the implied value of one Class A ordinary share upon the completion of our initial business combination. The following table assumes that (i) our valuation is \$195,000,000 (which is the amount we would have in the trust account for our initial business combination assuming the underwriters’ over-allotment option is not exercised and following payment of the underwriters’ deferred fee), (ii) no interest is earned on the funds held in the trust account, (iii) no public shares are redeemed in connection with our initial business combination and (iv) all founder shares are held by our initial shareholders upon completion of our initial business combination, and does not take into account other potential impacts on our valuation at the time of the initial business combination, such as (i) the value of our public and private warrants, (ii) the trading price of our Class A ordinary shares, (iii) the initial business combination transaction costs (other than the payment of \$5,000,000 of deferred underwriting commissions), (iv) any equity issued or cash paid to the target’s sellers, (v) any equity issued to other third party investors, or (vi) the target’s business itself.

Public shares	20,000,000
Founder shares	5,000,000
Total shares	25,000,000
Total funds in trust available for initial business combination	\$ 195,000,000
Public shareholders' investment per Class A ordinary share ⁽¹⁾	\$ 10.00
Sponsor's investment per Class B ordinary share ⁽²⁾	\$ 1.005
Initial implied value per public share ⁽³⁾	\$ 9.75
Implied value per share upon consummation of initial business combination ⁽⁴⁾	\$ 7.80

- (1) While the public shareholders' investment is in both the public shares and the public warrants, for purposes of this table the full investment amount is ascribed to the public shares only.
- (2) The total investment in the equity of the company by the sponsor is \$5,025,000, consisting of (i) \$25,000 paid by the sponsor for the founder shares, and (ii) \$5,000,000 paid by the sponsor for 5,000,000 private warrants. For purposes of this table, the full investment amount is ascribed to the founder shares only.
- (3) Initial implied value per public share is defined as the funds available for the initial business combination (assuming the underwriters' over-allotment option is not exercised and following payment of the underwriters' deferred fee) divided by the public shares issued of 20,000,000 (assuming the underwriters' over-allotment option is not exercised).
- (4) All founder shares would automatically convert into Class A ordinary shares upon completion of our initial business combination or earlier at the option of the holder.

Based on these assumptions, each Class A ordinary share would have an implied value of \$7.80 per share upon completion of our initial business combination, representing an approximately 20.0% decrease from the initial implied value of \$9.75 per public share. While the implied value of \$7.80 per Class A ordinary share upon completion of our initial business combination would represent a dilution to our public shareholders, this would represent a significant increase in value for our sponsor relative to the price it paid for each founder share. At \$10.00 per Class A ordinary share, the 5,000,000 Class A ordinary shares that the sponsor would own upon completion of our initial business combination (after automatic conversion of the 5,000,000 founder shares) would have an aggregate implied value of \$50,000,000. As a result, even if the trading price of our Class A ordinary share significantly declines, the value of the founder shares held by our sponsor will be significantly greater than the amount our sponsor paid to purchase such shares. In addition, our sponsor could potentially recoup its entire investment in our company even if the trading price of our Class A ordinary shares after the initial business combination is as low as \$1.005 per share. As a result, our sponsor is likely to earn a substantial profit on its investment in us upon disposition of its Class A ordinary shares even if the trading price of our Class A ordinary shares declines after we complete our initial business combination. Our sponsor may therefore be economically incentivized to complete an initial business combination with a riskier, weaker-performing or less-established target business than would be the case if our sponsor had paid the same per share price for the founder shares as our public shareholders paid for their public shares.

This dilution would increase to the extent that the anti-dilution provisions of the founder shares result in the issuance of Class A ordinary shares on a greater than one-to-one basis upon conversion of the founder shares at the time of our initial business combination and would become exacerbated to the extent that public shareholders seek redemptions from the trust for their public shares. In addition, because of the anti-dilution protection in the founder shares, any equity or equity-linked securities issued in connection with our initial business combination would be disproportionately dilutive to our Class A ordinary shares.

The value of the founder shares following completion of our initial business combination is likely to be substantially higher than the nominal price paid for them, even if the trading price of our Class A ordinary shares at such time is substantially less than \$10.00 per share initially placed into the trust account.

Upon the closing of this offering and assuming no exercise of the over-allotment option, our sponsor will have invested in us an aggregate of \$5,025,000 (\$5,475,000 if the underwriters' over-allotment option is exercised in full), comprised of the \$25,000 purchase price for the founder shares and the \$5,000,000 purchase price (or \$5,450,000 if the underwriters' over-allotment option is exercised in full) for the private warrants (or \$1.00 per private warrant). Assuming a trading price of \$10.00 per public share (the amount per share initially placed in trust) upon consummation of our initial business combination, the 5,000,000 founder shares (5,750,000 founder shares if the underwriters' over-allotment option is exercised in full) would have an aggregate implied value of \$50,000,000 (\$57,500,000 if the underwriters' over-allotment option is exercised in full). Even if the trading price of our ordinary shares were as low as \$1.005 per share, assuming no exercise of the underwriters' over-allotment option, the value of the founder shares would be equal to our sponsor's aggregate initial investment in us (without ascribing value to the private warrants and the underlying securities). As a result, our sponsor is likely to be able to make a substantial profit on its investment in us at a time when our public shares have lost significant value. Accordingly, members of our management team, who own interests in our sponsor, may be more willing to pursue a business combination with a riskier or less-established target business than would be the case if our sponsor had paid the same per share price for the founder shares as our public shareholders paid for their public shares.

The determination of the offering price of our units and the size of this offering is more arbitrary than the pricing of securities and size of an offering of an operating company in a particular industry. You may have less assurance, therefore, that the offering price of our units properly reflects the value of such units than you would have in a typical offering of an operating company.

Prior to this offering there has been no public market for any of our securities. The public offering price of the units and the terms of the warrants were negotiated between us and the underwriters. In determining the size of this offering, management held customary organizational meetings with the representative of the underwriters, both prior to our inception and thereafter, with respect to the state of capital markets, generally, and the amount the underwriters believed they reasonably could raise on our behalf. Factors considered in determining the size of this offering, prices and terms of the units, including the Class A ordinary shares and warrants underlying the units, include:

- the history and prospects of companies whose principal business is the acquisition of other companies;
- prior offerings of those companies;
- our prospects for acquiring an operating business at attractive values;
- a review of debt to equity ratios in leveraged transactions;
- our capital structure;
- an assessment of our management and their experience in identifying operating companies;
- general conditions of the securities markets at the time of this offering; and
- other factors as were deemed relevant.

Although these factors were considered, the determination of our offering size, price and terms of the Units is more arbitrary than the pricing of securities of an operating company in a particular industry since we have no historical operations or financial results.

Prior to this offering, there has been no market for our securities and a market for our securities may not develop, which would adversely affect the liquidity and price of our securities.

Prior to this offering, there has been no market for our securities. Shareholders therefore have no access to information about prior market history on which to base their investment decision. Following this offering, the price of our securities may vary significantly due to one or more potential business combinations and general market or economic conditions, including as a result of geopolitical events like the conflicts in Ukraine, the Middle East and Southwest Asia, and economic impacts such as inflation or any public health crises (such as COVID-19). Furthermore, an active trading market for our securities may never develop or, if developed, it may not be sustained. You may be unable to sell your securities unless a market can be established and sustained.

Because we are incorporated under the laws of the Cayman Islands, you may face difficulties in protecting your interests, and your ability to protect your rights through the U.S. Federal courts may be limited.

We are an exempted company incorporated under the laws of the Cayman Islands. As a result, it may be difficult for investors to effect service of process within the United States upon our directors or officers, or enforce judgments obtained in the United States courts against our directors or officers.

Our corporate affairs are governed by our amended and restated memorandum and articles of association, the Companies Act (as the same may be supplemented or amended from time to time) and the common law of the Cayman Islands. We are also subject to the federal securities laws of the United States. The rights of shareholders to take action against the directors, actions by minority shareholders and the fiduciary responsibilities of our directors to us under Cayman Islands law are to a large extent governed by the common law of the Cayman Islands. The common law of the Cayman Islands is derived in part from comparatively limited judicial precedent in the Cayman Islands as well as from English common law, the decisions of whose courts are of persuasive authority, but are not binding on a court in the Cayman Islands.

The rights of our shareholders and the fiduciary responsibilities of our directors under Cayman Islands law are different from what they would be under statutes or judicial precedent in some jurisdictions in the United States. In particular, the Cayman Islands has a different body of securities laws as compared to the United States, and certain states, such as Delaware, may have more fully developed and judicially interpreted bodies of corporate law. In addition, Cayman Islands companies may not have standing to initiate a shareholders derivative action in a Federal court of the United States.

Shareholders of Cayman Islands exempted companies have no general rights under Cayman Islands law to inspect corporate records or to obtain copies of the register of members of these companies. Our directors have discretion under our amended and restated memorandum and articles of association to determine whether or not, and under what conditions, our corporate records may be inspected by our shareholders, but are not obliged to make them available to our shareholders. This may make it more difficult for you to obtain the information needed to establish any facts necessary for a shareholder motion or to solicit proxies from other shareholders in connection with a proxy contest.

We have been advised by Maples and Calder (Cayman) LLP, our Cayman Islands legal counsel, that the courts of the Cayman Islands are unlikely (i) to recognize or enforce against us judgments of courts of the United States predicated upon the civil liability provisions of the federal securities laws of the United States or any state; and (ii) in original actions brought in the Cayman Islands, to impose liabilities against us predicated upon the civil liability provisions of the federal securities laws of the United States or any state, so far as the liabilities imposed by those provisions are penal in nature. In those circumstances, although there is no statutory enforcement in the Cayman Islands of judgments obtained in the United States, the courts of the Cayman Islands will recognize and enforce a foreign money judgment of a foreign court of competent jurisdiction without retrial on the merits based on the principle that a judgment of a competent foreign court imposes upon the judgment debtor an obligation to pay the sum for which judgment has been given provided certain conditions are met. For a foreign judgment to be enforced in the Cayman Islands, such judgment must be final and conclusive and for a liquidated sum, and must not be in respect of taxes or a fine or penalty, inconsistent with a Cayman Islands judgment in respect of the same matter, impeachable on the grounds of fraud or obtained in a manner, or be of a kind the enforcement of which is, contrary to natural justice or the public policy of the Cayman Islands (awards of punitive or multiple damages may well be held to be contrary to public policy). A Cayman Islands Court may stay enforcement proceedings if concurrent proceedings are being brought elsewhere.

As a result of all of the above, public shareholders may have more difficulty in protecting their interests in the face of actions taken by management, members of the board of directors or controlling shareholders than they would as public shareholders of a United States company.

After our initial business combination, it is possible that a majority of our directors and officers will live outside the United States and all of our assets will be located outside the United States; therefore, investors may not be able to enforce federal securities laws or their other legal rights.

It is possible that after our initial business combination, a majority of our directors and officers will reside outside of the United States and all of our assets will be located outside of the United States. As a result, it may be difficult, or in some cases not possible, for investors in the United States to enforce their legal rights, to effect service of process upon all of our directors or officers or to enforce judgments of United States courts predicated upon civil liabilities and criminal penalties on our directors and officers under United States laws.

If our initial business combination involves a company organized under the laws of the United States (or any subdivision thereof), it is possible a U.S. federal excise tax could be imposed on us in connection with any redemptions of our ordinary shares after or in connection with such initial business combination.

The Inflation Reduction Act of 2022, which, among other things, imposes a 1% U.S. federal excise tax on certain repurchases (including redemptions) of shares by publicly traded U.S. corporations after December 31, 2022 (the “Excise Tax”), subject to certain exceptions. If applicable, the amount of the Excise Tax is generally 1% of the aggregate fair market value of any shares repurchased by the corporation during a taxable year, net of the aggregate fair market value of certain new share issuances by the repurchasing corporation during the same taxable year.

As a Cayman Islands exempted company, the Excise Tax is currently not expected to apply to redemptions of our ordinary shares (absent any regulations or other additional guidance that may be issued in the future).

However, in connection with an initial business combination involving a company organized under the laws of a state of the United States, it is possible that we domesticate and continue as a corporation organized under the laws of a state of the United States prior to certain redemptions. Because we expect that, following such a domestication, our securities would continue to trade on a national securities exchange, in such a case, we could be subject to the Excise Tax with respect to any subsequent redemptions (including redemptions in connection with an extension vote or the initial business combination). Whether and to what extent we would be subject to the Excise Tax in connection with a business combination, extension vote or otherwise would depend on a number of factors, including (i) the fair market value of the redemptions and repurchases in connection with the business combination, extension vote or otherwise, (ii) the structure of a business combination, (iii) the nature and amount of any “PIPE” or other equity issuances in connection with a business combination (or otherwise issued not in connection with a business combination but issued within the same taxable year of a business combination) and (iv) the content of final regulations and other additional guidance from the U.S. Department of the Treasury. On June 28, 2024, the Treasury finalized certain of the proposed regulations (those relating to procedures for reporting and paying the Excise Tax). The remaining regulations (largely relating to the computation of the Excise Tax) remain in proposed form. The Treasury intends to finalize these proposed regulations at a later date and, until such time, taxpayers may continue to rely on the proposed regulations.

Any Excise Tax that becomes payable as a result of any redemptions of our ordinary shares (or other shares into which such ordinary shares may be converted) would be payable by us and not by the redeeming holder. However, we will not use the proceeds placed in the trust account, or the interest earned on the proceeds placed in the trust account, to pay for possible excise tax or any other fees or taxes that may be levied on the Company on any redemptions or share buybacks by the Company pursuant to any current, pending or further rules or laws, including without limitation any Excise Tax, prior to release of such funds from the trust account following our initial business combination. To the extent the Excise Tax is applicable, the amount of cash available to transfer to the target business in connection with our initial business combination may be reduced, which could result in our inability to meet conditions in the agreement relating to our initial business combination related to a minimum cash requirement, if any, or otherwise result in the shareholders of the combined company (including any of our shareholders who do not exercise their redemption rights in connection with the initial business combination) to economically bear the impact of the Excise Tax. Consequently, the Excise Tax may make a transaction with us less appealing to potential business combination targets. Finally, subject to certain exceptions, the Excise Tax should not apply in the event of our complete liquidation.

Provisions in our amended and restated memorandum and articles of association may inhibit a takeover of us, which could limit the price investors might be willing to pay in the future for our Class A ordinary shares and could entrench management.

Our amended and restated memorandum and articles of association contain provisions that may discourage unsolicited takeover proposals that shareholders may consider to be in their best interests. These provisions include a staggered board of directors and the ability of the board of directors to designate the terms of and issue new series of preference shares, which may make the removal of management more difficult and may discourage transactions that otherwise could involve payment of a premium over prevailing market prices for our securities.

Our amended and restated memorandum and articles of association provide that the courts of the Cayman Islands will be the exclusive forums for certain disputes between us and our shareholders, which could limit our shareholders’ ability to obtain a favorable judicial forum for complaints against us or our directors, officers or employees.

Our amended and restated memorandum and articles of association provide that unless we consent in writing to the selection of an alternative forum, the courts of the Cayman Islands shall have exclusive jurisdiction over any claim or dispute arising out of or in connection with our amended and restated memorandum and articles of association or otherwise related in any way to each shareholder’s shareholding in us, including but not limited to (i) any derivative action or proceeding brought on our behalf, (ii) any action asserting a claim of breach of any fiduciary or other duty owed by any of our current or former directors, officers or other employees to us or our shareholders, (iii) any action asserting a claim arising pursuant to any provision of the Companies Act or our amended and restated memorandum and articles of association, or (iv) any action asserting a claim against us governed by the internal affairs doctrine (as such concept is recognized under the laws of the United States of America) and that each shareholder irrevocably submits to the exclusive jurisdiction of the courts of the Cayman Islands over all such claims or disputes. The forum selection provision in our amended and restated memorandum and articles of association will not apply to actions or suits brought to enforce any liability or duty created by the Securities Act, Exchange Act or any claim for which the federal district courts of the United States of America are, as a matter of the laws of the United States of America, the sole and exclusive forum for determination of such a claim.

Our amended and restated memorandum and articles of association also provide that, without prejudice to any other rights or remedies that we may have, each of our shareholders acknowledges that damages alone would not be an adequate remedy for any breach of the selection of the courts of the Cayman Islands as exclusive forum and that accordingly we shall be entitled, without proof of special damages, to the remedies of injunction, specific performance or other equitable relief for any threatened or actual breach of the selection of the courts of the Cayman Islands as exclusive forum.

This choice of forum provision may increase a shareholder's cost and limit the shareholder's ability to bring a claim in a judicial forum that it finds favorable for disputes with us or our directors, officers or other employees, which may discourage lawsuits against us and our directors, officers and other employees. Any person or entity purchasing or otherwise acquiring any of our shares or other securities, whether by transfer, sale, operation of law or otherwise, shall be deemed to have notice of and have irrevocably agreed and consented to these provisions. There is uncertainty as to whether a court would enforce such provisions, and the enforceability of similar choice of forum provisions in other companies' charter documents has been challenged in legal proceedings. It is possible that a court could find this type of provisions to be inapplicable or unenforceable, and if a court were to find this provision in our amended and restated memorandum and articles of association to be inapplicable or unenforceable in an action, we may incur additional costs associated with resolving the dispute in other jurisdictions, which could have adverse effect on our business and financial performance.

An investment in this offering may result in uncertain U.S. federal income tax consequences.

An investment in this offering, and certain subsequent transactions with respect to our securities, may result in uncertain or adverse U.S. federal income tax consequences for an investor. For instance, because there are no authorities that directly address the U.S. federal income tax implications of instruments similar to the units we are issuing in this offering, the allocation an investor makes with respect to the purchase price of a unit between the Class A ordinary share and the one-half of a warrant to purchase one Class A ordinary share included in each unit could be challenged by the U.S. Internal Revenue Service ("IRS") or courts. In addition, the U.S. federal income tax consequences of a cashless exercise of warrants included in the units we are issuing in this offering is unclear under current law. Finally, it is unclear whether the redemption rights with respect to our Class A ordinary shares suspend the running of a U.S. Holder's (as defined in section titled "*Taxation — Material United States Federal Income Tax Considerations — U.S. Holders*") holding period for purposes of determining whether any gain or loss realized by such holder on the sale or exchange of Class A ordinary shares is long-term capital gain or loss and for determining whether any dividend we pay would be considered "qualified dividend income" for U.S. federal income tax purposes. See "*Taxation — Material United States Federal Income Tax Considerations*" for a summary of the U.S. federal income tax considerations of an investment in our securities. Prospective investors are urged to consult their tax advisors with respect to these and other tax consequences applicable to their specific circumstances when acquiring, owning or disposing of our securities.

Whether a redemption of Class A ordinary shares will be treated as a sale of such Class A ordinary shares for U.S. federal income tax purposes will depend on a shareholder's specific facts.

The U.S. federal income tax treatment of a redemption of Class A ordinary shares will depend on whether the redemption qualifies as a sale of such Class A ordinary shares under Section 302(a) of the Internal Revenue Code of 1986, as amended (the "Code"), which will depend largely on the total number of our shares treated as held by the shareholder electing to redeem Class A ordinary shares (including any shares constructively owned by the holder as a result of owning warrants) relative to all of our shares outstanding both before and after the redemption. If such redemption is not treated as a sale of Class A ordinary shares for U.S. federal income tax purposes, the redemption will instead be treated as a corporate distribution of cash from us. For more information about the U.S. federal income tax treatment of the redemption of Class A ordinary shares, see "*Taxation — Material United States Federal Income Tax Considerations*."

We may amend the terms of the warrants in a manner that may be adverse to holders of public warrants with the approval by the holders of at least 50% of the then outstanding public warrants. As a result, the exercise price of your warrants could be increased, the exercise period could be shortened and the number of Class A ordinary shares purchasable upon exercise of a warrant could be decreased, all without your approval.

Our warrants will be issued in registered form under a warrant agreement between Continental Stock Transfer & Trust Company, as warrant agent, and us. The warrant agreement provides that the terms of the warrants may be amended without the consent of any holder for the purpose of (i) curing any ambiguity or to correct any defective provision or mistake, including to conform the provisions of the warrant agreement to the description of the terms of the warrants and the warrant agreement set forth in this prospectus, (ii) adjusting the provisions relating to cash dividends on ordinary shares as contemplated by and in accordance with the warrant agreement or (iii) adding or changing any provisions with respect to matters or questions arising under the warrant agreement as the parties to the warrant agreement may deem necessary or desirable and that the parties deem to not adversely affect the rights of the registered holders of the warrants, provided that the approval by the holders of at least 50% of the then-outstanding public warrants is required to make any change that adversely affects the interests of the registered holders of public warrants. Accordingly, we may amend the terms of the public warrants in a manner adverse to a holder of public warrants if holders of at least 50% of the then outstanding public warrants approve of such amendment. Although our ability to amend the terms of the public warrants with the consent of at least 50% of the then outstanding public warrants is unlimited, examples of such amendments could be amendments to, among other things, increase the exercise price of the warrants, convert the warrants into cash or shares, shorten the exercise period or decrease the number of Class A ordinary shares purchasable upon exercise of a warrant.

Our warrant agreement designates the courts of the State of New York or the United States District Court for the Southern District of New York as the sole and exclusive forum for certain types of actions and proceedings that may be initiated by holders of our warrants, which could limit the ability of warrant holders to obtain a favorable judicial forum for disputes with our company.

Our warrant agreement provides that, subject to applicable law, (i) any action, proceeding or claim against us arising out of or relating in any way to the warrant agreement, including under the Securities Act, will be brought and enforced in the courts of the State of New York or the United States District Court for the Southern District of New York, and (ii) that we irrevocably submit to such jurisdiction, which jurisdiction shall be the exclusive forum for any such action, proceeding or claim. We will waive any objection to such exclusive jurisdiction and that such courts represent an inconvenient forum. With respect to any complaint asserting a cause of action arising under the Securities Act or the rules and regulations promulgated thereunder, we note, however, that there is uncertainty as to whether a court would enforce this provision and that investors cannot waive compliance with the federal securities laws and the rules and regulations thereunder. Section 22 of the Securities Act creates concurrent jurisdiction for state and federal courts over all suits brought to enforce any duty or liability created by the Securities Act or the rules and regulations thereunder.

Notwithstanding the foregoing, these provisions of the warrant agreement do not apply to suits brought to enforce any liability or duty created by the Exchange Act or any other claim for which the federal district courts of the United States of America are the sole and exclusive forum. Any person or entity purchasing or otherwise acquiring any interest in any of our warrants shall be deemed to have notice of and to have consented to the forum provisions in our warrant agreement. If any action, the subject matter of which is within the scope the forum provisions of the warrant agreement, is filed in a court other than a court of the State of New York or the United States District Court for the Southern District of New York (a “foreign action”) in the name of any holder of our warrants, such holder shall be deemed to have consented to: (x) the personal jurisdiction of the state and federal courts located in the State of New York in connection with any action brought in any such court to enforce the forum provisions (an “enforcement action”), and (y) having service of process made upon such warrant holder in any such enforcement action by service upon such warrant holder’s counsel in the foreign action as agent for such warrant holder. This choice-of-forum provision may limit a warrant holder’s ability to bring a claim in a judicial forum that it finds favorable for disputes with our company, which may discourage such lawsuits. Alternatively, if a court were to find this provision of our warrant agreement inapplicable or unenforceable with respect to one or more of the specified types of actions or proceedings, we may incur additional costs associated with resolving such matters in other jurisdictions, which could materially and adversely affect our business, financial condition and results of operations and result in a diversion of the time and resources of our management and board of directors.

A provision of our warrant agreement may make it more difficult for us to consummate an initial business combination.

If (i) we issue additional ordinary shares or equity-linked securities for capital raising purposes in connection with the closing of our initial business combination at a Newly Issued Price of less than \$9.20 per Class A ordinary share, (ii) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of our initial business combination, and (iii) the Market Value of our Class A ordinary shares is below \$9.20 per share, then the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, and the \$18.00 per share redemption trigger prices described below under “*Description of Securities — Warrants — Public Warrants — Redemption of warrants when the price per Class A ordinary share equals or exceeds \$18.00*” will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the Newly Issued Price. This may make it more difficult for us to consummate an initial business combination with a target business.

We may redeem your unexpired warrants prior to their exercise at a time that is disadvantageous to you, thereby making your warrants worthless.

We have the ability to redeem outstanding warrants at any time prior to their expiration, at a price of \$0.01 per warrant, provided that the closing price of our Class A ordinary shares equals or exceeds \$18.00 per share (as adjusted for share sub-divisions, share capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within a 30 trading-day period commencing once the warrants become exercisable and ending on the third trading day prior to the date on which we give proper notice of such redemption to the warrants holders and provided certain other conditions are met. We will not redeem the warrants as described above unless a registration statement under the Securities Act covering the issuance of the Class A ordinary shares issuable upon exercise of the warrants is then effective and a current prospectus relating to those Class A ordinary shares is available throughout the measurement period. If and when the warrants become redeemable by us, we may not exercise our redemption right if the issuance of ordinary shares upon exercise of the warrants is not exempt from registration or qualification under applicable state blue sky laws or we are unable to effect such registration or qualification. We will use our best efforts to register or qualify such ordinary shares under the blue sky laws of the state of residence in those states in which the warrants were offered by us in this offering. Redemption of the outstanding warrants could force you to (i) exercise your warrants and pay the exercise price therefor at a time when it may be disadvantageous for you to do so, (ii) sell your warrants at the then-current market price when you might otherwise wish to hold your warrants or (iii) accept the nominal redemption price which, at the time the outstanding warrants are called for redemption, is likely to be substantially less than the market value of your warrants.

Our warrants may have an adverse effect on the market price of our Class A ordinary shares and make it more difficult to effectuate our initial business combination.

We will be issuing public warrants to purchase 10,000,000 of our Class A ordinary shares (or up to 11,500,000 Class A ordinary shares if the underwriters’ over-allotment option is exercised in full) as part of the units offered by this prospectus and, simultaneously with the closing of this offering, we will be issuing in a private placement an aggregate of 5,000,000 private warrants (5,450,000 private warrants if the underwriters’ over-allotment option is exercised in full), each exercisable for one Class A ordinary share at an exercise price of \$11.50 per Class A ordinary share. In addition, if the sponsor makes any working capital loans, it may convert those loans into up to an additional 1,500,000 private warrants, at the price of \$1.00 per warrant. To the extent we issue ordinary shares to effectuate a business transaction, the potential for the issuance of a substantial number of additional Class A ordinary shares upon exercise of these warrants could make us a less attractive acquisition vehicle to a target business. Such warrants, when exercised, will increase the number of issued and outstanding Class A ordinary shares and reduce the value of the Class A ordinary shares issued to complete the business transaction. Therefore, our warrants may make it more difficult to effectuate a business transaction or increase the cost of acquiring the target business.

Because each unit contains one-half of one warrant and only a whole warrant may be exercised, the units may be worth less than units of other special purpose acquisition companies.

Each unit contains one-half of one warrant. Pursuant to the warrant agreement, no fractional warrants will be issued upon separation of the units, and only whole units will trade. If, upon exercise of the warrants, a holder would be entitled to receive a fractional interest in a share, we will, upon exercise, round down to the nearest whole number the number of Class A ordinary shares to be issued to the warrant holder. This is different from other offerings similar to ours whose units include one ordinary share and one whole warrant to purchase one share. We have established the components of the units in this way in order to reduce the dilutive effect of the warrants upon completion of a business combination since the warrants will be exercisable in the aggregate for one-half of the number of shares compared to units that each contain a whole warrant to purchase one share, thus making us, we believe, a more attractive merger partner for target businesses. Nevertheless, this unit structure may cause our units to be worth less than if it included a whole warrant to purchase one share.

Holders of Class A ordinary shares will not be entitled to vote on continuing the company in a jurisdiction outside of the Cayman Islands.

As holders of our Class A ordinary shares, our public shareholders will not have the right to vote on continuing the company in a jurisdiction outside of the Cayman Islands (including any special resolution required to amend our constitutional documents or to adopt new constitutional documents, in each case, as a result of our approving a transfer by way of continuation in a jurisdiction outside of the Cayman Islands).

You will not be permitted to exercise your warrants unless we register and qualify the underlying Class A ordinary shares or certain exemptions are available.

If the issuance of the Class A ordinary shares upon exercise of the warrants is not registered, qualified or exempt from registration or qualification under the Securities Act and applicable state securities laws, holders of warrants will not be entitled to exercise such warrants and such warrants may have no value and expire worthless. In such event, holders who acquired their warrants as part of a purchase of units will have paid the full unit purchase price solely for the Class A ordinary shares included in the units.

We are registering the Class A ordinary shares issuable upon exercise of the warrants in the registration statement of which this prospectus forms a part because the warrants will become exercisable 30 days after the completion of our initial business combination, which may be within one year of this offering. However, because the warrants will be exercisable until their expiration date of up to five years after the completion of our initial business combination, in order to comply with the requirements of Section 10(a)(3) of the Securities Act following the consummation of our initial business combination, under the terms of the warrant agreement, we have agreed that, as soon as practicable, but in no event later than 20 business days, after the closing of our initial business combination, we will use our commercially reasonable efforts to file with the SEC a new registration statement covering the registration under the Securities Act of the Class A ordinary shares issuable upon exercise of the warrants and thereafter will use our commercially reasonable efforts to cause the same to become effective within 60 business days following our initial business combination and to maintain a current prospectus relating to the Class A ordinary shares issuable upon exercise of the warrants until the expiration of the warrants in accordance with the provisions of the warrant agreement. We cannot assure you that we will be able to do so if, for example, any facts or events arise which represent a fundamental change in the information set forth in the registration statement or prospectus, the financial statements contained or incorporated by reference therein are not current or correct or the SEC issues a stop order.

If the Class A ordinary shares issuable upon exercise of the warrants are not registered under the Securities Act, under the terms of the warrant agreement, holders of warrants who seek to exercise their warrants will not be permitted to do so for cash and, instead, will be required to do so on a cashless basis in accordance with Section 3(a)(9) of the Securities Act or another exemption.

In no event will warrants be exercisable for cash or on a cashless basis, and we will not be obligated to issue any shares to holders seeking to exercise their warrants, unless the issuance of the shares upon such exercise is registered or qualified under the securities laws of the state of the exercising holder, or an exemption from registration or qualification is available.

If our Class A ordinary shares are at the time of any exercise of a warrant not listed on a national securities exchange such that they satisfy the definition of “covered securities” under Section 18(b)(1) of the Securities Act, we may, at our option, not permit holders of warrants who seek to exercise their warrants to do so for cash and, instead, require them to do so on a cashless basis in accordance with Section 3(a)(9) of the Securities Act; in the event we so elect, we will not be required to file or maintain in effect a registration statement or register or qualify the shares underlying the warrants under applicable state securities laws.

In no event will we be required to net cash settle any warrant, or issue securities (other than upon a cashless exercise as described above) or other compensation in exchange for the warrants in the event that we are unable to register or qualify the shares underlying the warrants under the Securities Act or applicable state securities laws.

You may only be able to exercise your public warrants on a “cashless basis” under certain circumstances, and if you do so, you will receive fewer Class A ordinary shares from such exercise than if you were to exercise such warrants for cash.

The warrant agreement provides that in the following circumstances holders of warrants who seek to exercise their warrants will not be permitted to do so for cash and will, instead, be required to do so on a cashless basis in accordance with Section 3(a)(9) of the Securities Act: (i) if the Class A ordinary shares issuable upon exercise of the warrants are not registered under the Securities Act in accordance with the terms of the warrant agreement; (ii) if we have so elected and the Class A ordinary shares are at the time of any exercise of a warrant not listed on a national securities exchange such that they satisfy the definition of “covered securities” under Section 18(b)(1) of the Securities Act; and (iii) if we have so elected and we call the public warrants for redemption.

If you exercise your public warrants on a cashless basis, you would pay the warrant exercise price by surrendering the warrants for that number of Class A ordinary shares equal to the quotient obtained by dividing (x) the product of the number of Class A ordinary shares underlying the warrants, multiplied by the excess of the “fair market value” of our Class A ordinary shares (as defined in the next sentence) over the exercise price of the warrants by (y) the fair market value. The “fair market value” is the average reported closing price of the Class A ordinary shares for the 10 trading days ending on the third trading day prior to the date on which the notice of exercise is received by the warrant agent or on which the notice of redemption is sent to the holders of warrants, as applicable. As a result, you would receive fewer Class A ordinary shares from such exercise than if you were to exercise such warrants for cash.

The grant of registration rights to our sponsor, the underwriters and other holders of our private warrants (and the underlying securities) may make it more difficult to complete our initial business combination, and the future exercise of such rights may adversely affect the market price of our Class A ordinary shares.

Pursuant to an agreement entered into concurrently with the issuance and sale of the securities in this offering, our sponsor, the underwriters and their permitted transferees can demand that we register the Class A ordinary shares into which founder shares are convertible, holders of our private warrants and their permitted transferees can demand that we register such warrants and the underlying securities or holders of securities that may be issued upon conversion of working capital loans and their permitted transferees may demand that we register such warrants or the Class A ordinary shares issuable upon exercise of such warrants and any other securities of the company acquired by them prior to the consummation of our initial business combination. We will bear the cost of registering these securities. The registration and availability of such a significant number of securities for trading in the public market may have an adverse effect on the market price of our Class A ordinary shares. In addition, the existence of the registration rights may make our initial business combination more costly or difficult to conclude. This is because the shareholders of the target business may increase the equity stake they seek in the combined entity or ask for more cash consideration to offset the negative impact on the market price of our Class A ordinary shares that is expected when the ordinary shares owned by our initial shareholders, holders of our private warrants or holders of our working capital loans or their respective permitted transferees are registered.

General Risk Factors

We are a blank check company with no operating history and no revenues, and you have no basis on which to evaluate our ability to achieve our business objective.

We are a blank check company incorporated on July 31, 2025 under the laws of the Cayman Islands with no operating results, and we will not commence operations until obtaining funding through this offering. Because we lack an operating history, you have no basis upon which to evaluate our ability to achieve our business objective of completing our initial business combination. We have no plans, arrangements or understandings with any prospective target business concerning a business combination and may be unable to complete our initial business combination. If we fail to complete our initial business combination, we will never generate any operating revenues.

Past performance by our management team, our advisor and their respective affiliates, including investments and transactions in which they have participated and businesses with which they have been associated, may not be indicative of future performance of an investment in the company.

Information regarding our management team, our advisor and their respective affiliates, including investments and transactions in which they have participated and businesses with which they have been associated, is presented for informational purposes only. Any past experience and performance by our management team, our advisor and their respective affiliates and the businesses with which they have been associated, is not a guarantee that we will be able to successfully identify a suitable candidate for our initial business combination, that we will be able to provide positive returns to our shareholders, or of any results with respect to any initial business combination we may consummate. You should not rely on the historical experiences of our management team, our advisor and their respective affiliates, including investments and transactions in which they have participated and businesses with which they have been associated, as indicative of the future performance of an investment in us or as indicative of every prior investment by each of the members of our management team, our advisor or their respective affiliates. The market price of our securities may be influenced by numerous factors, many of which are beyond our control, and our shareholders may experience losses on their investment in our securities.

Cyber incidents or attacks directed at us could result in information theft, data corruption, operational disruption and/or financial loss.

We depend on digital technologies, including information systems, infrastructure and cloud applications and services, including those of third parties with which we may deal. Sophisticated and deliberate attacks on, or security breaches in, our systems or infrastructure, or the systems or infrastructure of third parties or the cloud, could lead to corruption or misappropriation of our assets, proprietary information and sensitive or confidential data. As an early stage company without significant investments in data security protection, we may not be sufficiently protected against such occurrences. We may not have sufficient resources to adequately protect against, or to investigate and remediate any vulnerability to, cyber incidents. It is possible that any of these occurrences, or a combination of them, could have adverse consequences on our business and lead to financial loss.

We may be a passive foreign investment company, or “PFIC,” which could result in adverse United States federal income tax consequences to U.S. investors.

If we are a PFIC for any taxable year (or portion thereof) that is included in the holding period of a U.S. Holder (as defined in the section of this prospectus captioned “*Taxation — Material United States Federal Income Tax Considerations — U.S. Holders*”) of our Class A ordinary shares or warrants, the U.S. Holder may be subject to adverse U.S. federal income tax consequences and may be subject to additional reporting requirements. Our PFIC status for our current and subsequent taxable years may depend on the status of an acquired company pursuant to a business combination and whether we qualify for the PFIC start-up exception (see “*Taxation — Material United States Federal Income Tax Considerations — U.S. Holders — Passive Foreign Investment Company Rules*”). Depending on the particular circumstances the application of the start-up exception may be subject to uncertainty, and there cannot be any assurance that we will qualify for the start-up exception. Accordingly, there can be no assurances with respect to our status as a PFIC for our current taxable year or any subsequent taxable year. Our actual PFIC status for any taxable year, however, will not be determinable until after the end of such taxable year. In addition, our U.S. counsel expresses no opinion with respect to our PFIC status for any taxable year.

Moreover, if we determine we are a PFIC for any taxable year, upon written request, we will endeavor to provide to a U.S. Holder such information as the IRS may require, including a PFIC annual information statement, in order to enable the U.S. Holder to make and maintain a “qualified electing fund” election, but there can be no assurance that we will timely provide such required information, and such election would likely be unavailable with respect to our warrants in all cases. We urge U.S. investors to consult their own tax advisors regarding the possible application of the PFIC rules. For a more detailed explanation of the tax consequences of PFIC classification to U.S. Holders, see “*Taxation — Material United States Federal Income Tax Considerations — U.S. Holders — Passive Foreign Investment Company Rules*.”

We are an emerging growth company and a smaller reporting company within the meaning of the Securities Act, and if we take advantage of certain exemptions from disclosure requirements available to emerging growth companies or smaller reporting companies, this could make our securities less attractive to investors and may make it more difficult to compare our performance with other public companies.

We are an “emerging growth company” within the meaning of the Securities Act, as modified by the JOBS Act, and we may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies, including, but not limited to, not being required to comply with the auditor internal controls attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved. As a result, our shareholders may not have access to certain information they may deem important. We could be an emerging growth company for up to five years, although circumstances could cause us to lose that status earlier, including if the market value of our Class A ordinary shares held by non-affiliates exceeds \$700 million as of any June 30th before that time, in which case we would no longer be an emerging growth company as of the following December 31st. We cannot predict whether investors will find our securities less attractive because we will rely on these exemptions. If some investors find our securities less attractive as a result of our reliance on these exemptions, the trading prices of our securities may be lower than they otherwise would be, there may be a less active trading market for our securities and the trading prices of our securities may be more volatile.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such an election to opt out is irrevocable. We have elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, we, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of our financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

Additionally, we are a “smaller reporting company” as defined in Item 10(f)(1) of Regulation S-K. Smaller reporting companies may take advantage of certain reduced disclosure obligations, including, among other things, providing only two years of audited financial statements. We will remain a smaller reporting company until the last day of the fiscal year in which (1) the market value of our ordinary shares held by non-affiliates is equal to or exceeds \$250 million as of the prior June 30th, or (2) our annual revenues equaled or exceeded \$100 million during such completed fiscal year and the market value of our ordinary shares held by non-affiliates is equal to or exceeds \$700 million as of the prior June 30. To the extent we take advantage of such reduced disclosure obligations, it may also make comparison of our financial statements with other public companies difficult or impossible.

Changes in the market for directors and officers liability insurance could make it more difficult and more expensive for us to negotiate and complete an initial business combination.

The market for directors and officers liability insurance for special purpose acquisition companies has changed in ways adverse to us and our management team. Fewer insurance companies are offering quotes for directors and officers liability coverage, the premiums charged for such policies have generally increased and the terms of such policies have generally become less favorable. These trends may continue into the future.

The increased cost and decreased availability of directors and officers liability insurance could make it more difficult and more expensive for us to negotiate an initial business combination. In order to obtain directors and officers liability insurance or modify its coverage as a result of becoming a public company, the post-business combination entity might need to incur greater expense, accept less favorable terms or both. However, any failure to obtain adequate directors and officers liability insurance could have an adverse impact on the post-business combination’s ability to attract and retain qualified officers and directors.

In addition, even after we were to complete an initial business combination, our directors and officers could still be subject to potential liability from claims arising from conduct alleged to have occurred prior to the initial business combination. As a result, in order to protect our directors and officers, the post-business combination entity may need to purchase additional insurance with respect to any such claims (“run-off insurance”). The need for run-off insurance would be an added expense for the post-business combination entity, and could interfere with or frustrate our ability to consummate an initial business combination on terms favorable to our investors.

Recent increases in inflation in the United States and elsewhere could make it more difficult for us to complete our initial business combination.

Recent increases in inflation in the United States and elsewhere may lead to increased price volatility for publicly traded securities, including ours, or other national, regional or international economic disruptions, any of which could make it more difficult for us to complete our initial business combination.

Changes in international trade policies, tariffs and treaties affecting imports and exports may have a material adverse effect on our search for an initial business combination target or the performance or business prospects of a post-business combination company.

There have recently been significant changes to international trade policies and tariffs affecting imports and exports. Any significant increases in tariffs on goods or materials or other changes in trade policy could negatively affect our search for a target and/or our ability to complete our initial business combination.

Recently, the U.S. has implemented a range of new tariffs and increases to existing tariffs. In response to the tariffs announced by the U.S., other countries have imposed, are considering imposing, and may in the future impose new or increased tariffs on certain exports from the United States. There is currently significant uncertainty about the future relationship between the United States and other countries with respect to trade policies, taxes, government regulations and tariffs, and we cannot predict whether, and to what extent, current tariffs will continue or trade policies will change in the future.

Tariffs, or the threat of tariffs or increased tariffs, could have a significant negative impact on certain businesses (either due to domestic businesses’ reliance on imported goods or dependence on access to foreign markets, or foreign businesses’ reliance on sales into the United States). In addition, retaliatory tariffs could have a significant negative impact on foreign businesses that rely on imports from the United States, and domestic businesses that rely on exporting goods internationally. These tariffs and threats of tariffs and other potential trade policy changes could negatively affect the attractiveness of certain initial business combination targets, or lead to material adverse effects on a post-business combination company. Among other things, historical financial performance of companies affected by trade policies and/or tariffs may not provide useful guidance as to the future performance of such companies, because future financial performance of those companies may be materially affected by new U.S. tariffs or foreign retaliatory tariffs, or other changes to trade policies. The business prospects of a particular target for a business combination could change even after we enter into a business combination agreement, as a result of tariffs or the threat of tariffs that may have a material impact on that target’s business, and it may be costly or impractical for us to terminate that business combination agreement. These factors could affect our selection of a business combination target.

We may not be able to adequately address the risks presented by these tariffs or other potential trade policy changes. As a result, we may deem it costly, impractical or risky to complete an initial business combination with a particular target or with a target in a particular industry or from a particular country. Consequently, the pool of potential target companies may be reduced, which could impair our ability to identify a suitable target and to complete an initial business combination. If we complete an initial business combination with such a target, the post-business combination company’s operations and financial results could be adversely affected as a result of tariffs or changes to trade policies, which may cause the market value of the securities of the post-business combination company to decline.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

Some of the statements contained in this prospectus may constitute “forward-looking statements” for purposes of the federal securities laws. Our forward-looking statements include, but are not limited to, statements regarding our or our management team’s expectations, hopes, beliefs, intentions or strategies regarding the future. In addition, any statements that refer to projections, forecasts or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking statements. The words “anticipate,” “believe,” “continue,” “could,” “estimate,” “expect,” “intend,” “may,” “might,” “plan,” “possible,” “potential,” “predict,” “project,” “should,” “would” and similar expressions may identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking.

Forward-looking statements in this prospectus may include, for example, statements about:

- our ability to select an appropriate target business or businesses;
- our ability to complete our initial business combination;
- our expectations around the performance of the prospective target business or businesses;
- our success in retaining or recruiting, or changes required in, our officers, key employees or directors following our initial business combination;
- our officers and directors allocating their time to other businesses and potentially having conflicts of interest with our business or in approving our initial business combination;
- our potential ability to obtain additional financing to complete our initial business combination;
- our pool of prospective target businesses;
- the adverse impacts of certain events (such as terrorist attacks, natural disasters or a significant outbreak of infectious diseases) on our ability to consummate an initial business combination;;
- the ability of our officers and directors to generate a number of potential business combination opportunities;
- our public securities’ potential liquidity and trading;
- the lack of a market for our securities;
- the use of proceeds not held in the trust account or available to us from interest income on the trust account balance;
- the trust account not being subject to claims of third parties; or
- our financial performance following this offering.

The forward-looking statements contained in this prospectus are based on our current expectations and beliefs concerning future developments and their potential effects on us. There can be no assurance that future developments affecting us will be those that we have anticipated. These forward-looking statements involve a number of risks, uncertainties (some of which are beyond our control) or other assumptions that may cause actual results or performance to be materially different from those expressed or implied by these forward-looking statements. These risks and uncertainties include, but are not limited to, those factors described under the heading “*Risk Factors*.” Should one or more of these risks or uncertainties materialize, or should any of our assumptions prove incorrect, actual results may vary in material respects from those projected in these forward-looking statements. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws.

In addition, statements that contain “we believe” and similar statements reflect our beliefs and opinions on the relevant subject. These statements are based on information available to us as of the date of this prospectus. Although we believe that this information provides a reasonable basis for these statements, this information may be limited or incomplete. Our statements should not be read to indicate that we have conducted an exhaustive inquiry into, or review of, all relevant information. These statements are inherently uncertain, and investors are cautioned not to unduly rely on these statements.

USE OF PROCEEDS

We are offering 20,000,000 units at an offering price of \$10.00 per unit. We estimate that the net proceeds of this offering together with the funds we will receive from the sale of the private warrants will be used as set forth in the following table.

	Without Over-allotment Option	Over-allotment Option Exercised
Gross proceeds		
Gross proceeds from units offered to public ⁽¹⁾	\$ 200,000,000	\$ 230,000,000
Gross proceeds from private warrants offered in the private placement	\$ 5,000,000	\$ 5,450,000
Total gross proceeds	\$ 205,000,000	\$ 235,450,000
Offering expenses⁽²⁾		
Underwriting commissions (1.5% of gross proceeds from units offered to public, excluding deferred portion) ⁽³⁾	\$ 3,000,000	\$ 3,450,000
Legal fees and expenses	400,000	400,000
Printing and engraving expenses	40,000	40,000
Trustee fees and expenses	40,000	40,000
Accounting fees and expenses	50,000	50,000
SEC/FINRA expenses	110,500	110,500
Nasdaq listing fees	80,000	80,000
Miscellaneous	29,500	29,500
Total offering expenses (other than underwriting commissions)	\$ 750,000	\$ 750,000
Proceeds after offering expenses	\$ 201,250,000	\$ 231,250,000
Held in trust account ⁽³⁾	\$ 200,000,000	\$ 230,000,000
% of public offering size	100%	100%
Not held in trust account	\$ 1,250,000	\$ 1,250,000

The following table shows the use of the approximately \$1,250,000 of net proceeds not held in the trust account⁽⁴⁾

	Amount	% of Total
Accounting, due diligence, travel, and other expenses in connection with any business combination	\$ 300,000	24.0%
Legal and accounting fees related to regulatory reporting obligations	300,000	24.0%
Reimbursement for office space and administrative support for 24 months	240,000	19.2%
Working capital to cover miscellaneous	410,000	32.8%
Total	\$ 1,250,000	100.0%

- (1) Includes amounts payable to public shareholders who properly redeem their shares in connection with our successful completion of our initial business combination.

- (2) A portion of the offering expenses have been paid from the proceeds of loans from our sponsor of up to \$400,000 as described in this prospectus. These loans will be repaid upon completion of this offering out of the \$750,000 of offering proceeds that has been allocated for the payment of offering expenses other than underwriting commissions. In the event that offering expenses are less than set forth in this table, any such amounts will be used for post-closing working capital expenses.
- (3) The underwriters have agreed to defer underwriting commissions equal to \$0.25 per unit on units sold, or up to \$5,000,000 in the aggregate (or up to \$5,750,000 in the aggregate if the underwriters' over-allotment option is exercised in full). Upon completion of our initial business combination, which constitutes the underwriters' deferred commissions will be paid to the underwriters from the funds held in the trust account, and the remaining funds, less amounts released to the trustee to pay redeeming shareholders, will be released to us and can be used to pay all or a portion of the purchase price of the business or businesses with which our initial business combination occurs or for general corporate purposes, including payment of principal or interest on indebtedness incurred in connection with our initial business combination, to fund the purchases of other companies, or for working capital. The underwriters will not be entitled to any interest accrued on the deferred underwriting discounts and commissions.
- (4) These expenses are estimates only. Our actual expenditures for some or all of these items may differ from the estimates set forth herein. For example, we may incur greater legal and accounting expenses than our current estimates in connection with negotiating and structuring our initial business combination based upon the level of complexity of such business combination. In the event we identify a business combination target in a specific industry subject to specific regulations, we may incur additional expenses associated with legal due diligence and the engagement of special legal counsel. In addition, our staffing needs may vary and as a result, we may engage a number of consultants to assist with legal and financial due diligence. We do not anticipate any change in our intended use of proceeds, other than fluctuations among the current categories of allocated expenses, which fluctuations, to the extent they exceed current estimates for any specific category of expenses, would not be available for our expenses. The amount in the table above does not include interest available to us from the trust account.

Nasdaq rules provide that at least 90% of the gross proceeds from this offering and the sale of the private warrants be deposited in a trust account. Of the \$205,000,000 in gross proceeds we receive from this offering and the sale of the private warrants described in this prospectus, or \$235,450,000 if the underwriters' over-allotment option is exercised in full, \$200,000,000 (\$10.00 per unit), or \$230,000,000 if the underwriters' over-allotment option is exercised in full (\$10.00 per unit), will be deposited into a trust account in the United States with Continental Stock Transfer & Trust Company acting as trustee, after deducting \$3,000,000 in underwriting discounts and commissions payable upon the closing of this offering and an aggregate of \$2,000,000 to pay fees and expenses in connection with the closing of this offering and for working capital following the closing of this offering. The proceeds held in the trust account will initially be invested only in U.S. government treasury obligations with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations; the holding of these assets in this form is intended to be temporary and for the sole purpose of facilitating the intended business combination. To mitigate the risk that we might be deemed to be an investment company for purposes of the Investment Company Act, which risk increases the longer that we hold investments in the trust account, we may, at any time (based on our management team's ongoing assessment of all factors related to our potential status under the Investment Company Act), instruct the trustee to liquidate the investments held in the trust account and instead to hold the funds in the trust account in cash or in an interest bearing demand deposit account at a bank. We expect that the interest earned on the trust account will be sufficient to pay taxes. We will not be permitted to withdraw any of the principal or interest held in the trust account, except for the withdrawal of interest to pay our taxes and up to \$100,000 to pay dissolution expenses, as applicable, if any, until the earliest of (i) the completion of our initial business combination, (ii) the redemption of our public shares if we are unable to complete our initial business combination within the completion window, or (iii) the redemption of our public shares properly submitted in connection with a shareholder vote to approve an amendment to our amended and restated memorandum and articles of association (A) to modify the substance or timing of our obligation to allow redemption in connection with our initial business combination or to redeem 100% of our public shares if we have not consummated our initial business combination within the completion window or (B) with respect to any other material provisions relating to shareholders' rights or pre-initial business combination activity, subject to applicable law.

The net proceeds released to us from the trust account upon the closing of our initial business combination may be used as consideration to pay the sellers of a target business with which we complete our initial business combination. If our initial business combination is paid for using equity or debt securities, or not all of the funds released from the trust account are used for payment of the consideration in connection with our initial business combination, we may use the balance of the cash released from the trust account following the closing for general corporate purposes, including for maintenance or expansion of operations of the post-transaction company, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, to fund the purchase of other companies or for working capital. There is no limitation on our ability to raise funds through the issuance of equity-linked securities or through loans, advances or other indebtedness in connection with our initial business combination, including pursuant to forward purchase agreements or backstop arrangements we may enter into following consummation of this offering. However, our amended and restated memorandum and articles of association provides that, following this offering and prior to the consummation of our initial business combination, except in connection with the conversion of Class B ordinary shares into Class A ordinary shares where the holders of such shares have waived any rights to receive funds from the trust account, we will be prohibited from issuing additional securities that would entitle the holders thereof to (i) receive funds from the trust account or (ii) vote as a class with public shares on any initial business combination.

We believe that amounts not held in trust will be sufficient to pay the costs and expenses to which such proceeds are allocated that are payable prior to the closing of our initial business combination. However, if our estimate of the costs of undertaking in-depth due diligence and negotiating a business combination that are payable is less than the actual amount necessary to do so, we may be required to raise additional capital, the amount, availability and cost of which is currently unascertainable. If we are required to seek additional capital, we could seek such additional capital through loans or additional investments from our sponsor, members of our management team or any of their affiliates, but such persons are not under any obligation to advance funds to, or invest in, us.

We will reimburse our sponsor or an affiliate thereof in an amount equal to \$10,000 per month for office space, utilities and secretarial and administrative support made available to us. Upon completion of our initial business combination or our liquidation, we will cease paying these monthly fees.

Prior to the closing of this offering, our sponsor has agreed to loan us up to \$400,000 to be used for a portion of the expenses of this offering. These loans are non-interest bearing, unsecured and are due at the earlier of November 1, 2026, the date on which the closing of this offering occurs or the date on which we determine not to conduct an initial public offering. The loan will be repaid upon the closing of this offering out of the \$750,000 of offering proceeds that has been allocated to the payment of offering expenses.

In addition, in order to finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete our initial business combination, we would repay such loaned amounts. In the event that our initial business combination does not close, we may use amounts held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used to repay such loaned amounts. Up to \$1,500,000 of such loans may be convertible into warrants of the post business combination entity at a price of \$1.00 per warrant at the option of the applicable lender. Such warrants would be identical to the private warrants. Except as set forth above, the terms of such loans, if any, have not been determined and no written agreements exist with respect to such loans. Prior to the completion of our initial business combination, we do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

We have until the date that is 24 months from the closing of this offering (as may be extended by shareholder approval to amend our amended and restated memorandum and articles of association to extend the date by which we must consummate our initial business combination) or until such earlier liquidation date as our board of directors may approve, to consummate our initial business combination. If we anticipate that we may be unable to consummate our initial business combination within such 24-month period, we may seek shareholder approval to amend our amended and restated memorandum and articles of association to extend the date by which we must consummate our initial business combination. There are no limitations on the number of times we may seek shareholder approval for an extension or the length of time of any such extension. However, if we seek shareholder approval for an extension, holders of public shares will be offered an opportunity to redeem their shares, regardless of whether they abstain, vote for, or vote against, our initial business combination, at a per share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned thereon (less taxes payable), divided by the number of then issued and outstanding public shares, subject to applicable law.

DIVIDEND POLICY

We have not paid any cash dividends on our ordinary shares to date and do not intend to pay cash dividends prior to the completion of our initial business combination. A Cayman Islands company may pay a dividend on its shares out of either profit, retained earnings and/or the share premium account, provided that in no circumstances may a dividend be paid if following such payment the company would be unable to pay its debts as they fall due in the ordinary course of business. Subject to applicable law, the payment of cash dividends in the future will be dependent upon our revenues and earnings, if any, capital requirements and general financial condition subsequent to completion of our initial business combination. The payment of any cash dividends subsequent to our initial business combination will be within the discretion of our board of directors at such time. In addition, our board of directors is not currently contemplating and does not anticipate declaring any other share dividends in the foreseeable future, except if we increase the size of this offering, in which case we will effect a share dividend or other appropriate mechanism immediately prior to the consummation of this offering in an amount necessary to maintain the number of founder shares at approximately 20% of our issued and outstanding ordinary shares upon the consummation of this offering. Further, if we incur any indebtedness in connection with our business combination, our ability to declare dividends may be limited by restrictive covenants we may agree to in connection therewith.

DILUTION

The difference between the public offering price per unit and the net tangible book value (“NTBV”) per Class A ordinary share after this offering constitutes the dilution to investors in this offering. NTBV per share is determined by dividing our NTBV, which is our total tangible assets less total liabilities (including the value of Class A ordinary shares that may be redeemed for cash), by the number of issued and outstanding Class A ordinary shares.

The below calculations (A) assume that (i) no ordinary shares are issued to shareholders of a potential business combination target as consideration or issuable by a post-business combination company, for instance under an equity or employee share purchase plan, (ii) no ordinary shares and convertible equity or debt securities are issued in connection with additional financing that we may seek in connection with an initial business combination, (iii) no working capital loans are converted into units, as further described in this prospectus and (iv) no value is attributed to the warrants (however, we may need to issue ordinary shares or convertible equity or debt securities in the circumstances described above, as we intend to target an initial business combination with a target company whose enterprise value is greater than the net proceeds of the offering and the sale of private warrants), and (B) assume the issuance of 20,000,000 Class A ordinary shares (or 23,000,000 Class A ordinary shares if the over-allotment option is exercised in full) and 5,750,000 founder shares (up to 750,000 of which are assumed to be forfeited in the scenario in which the over-allotment option is not exercised in full). Such calculations do not reflect any dilution associated with the exercise of warrants as the warrants are accounted for as equity and are only exercisable 30 days after the consummation of our initial business combination. The exercise of the warrants would cause the actual dilution to the public shareholders to be higher, particularly where a cashless exercise is utilized. Further, the issuance of additional ordinary or preference shares may significantly dilute the equity interest of public shareholders, which dilution would even further increase if the anti-dilution provisions in the Class B ordinary shares resulted in the issuance of Class A ordinary shares on a greater than one-to-one basis upon conversion of the Class B ordinary shares.

The following table illustrates the difference between the public offering price per unit and our NTBV per share, as adjusted to give effect to this offering and assuming redemption of our public shares at varying levels and the full exercise and no exercise of the over-allotment option:

As of September 30, 2025									
Offering Price of \$10.00	25% of Maximum Redemption		50% of Maximum Redemption		75% of Maximum Redemption		100% of Maximum Redemption		
		Difference between NTBV and Offering Price		Difference between NTBV and Offering Price		Difference between NTBV and Offering Price		Difference between NTBV and Offering Price	
NTBV	NTBV		NTBV		NTBV		NTBV		
Assuming Full Exercise of Over-Allotment Option									
\$ 7.84	\$ 7.37	\$ 2.63	\$ 6.57	\$ 3.43	\$ 5.11	\$ 4.89	\$ 0.21	\$ 9.79	
Assuming No Exercise of Over-Allotment Option									
\$ 7.84	\$ 7.36	\$ 2.64	\$ 6.56	\$ 3.44	\$ 5.09	\$ 4.91	\$ 0.18	\$ 9.82	

For each of the redemption scenarios above, the NTBIV was calculated as follows:

	As of September 30, 2025									
	0% Redemption		25% of Maximum Redemption		50% of Maximum Redemption		75% of Maximum Redemption		100% of Maximum Redemption	
	No Over-allotment	Full Over-allotment	No Over-allotment	Full Over-allotment	No Over-allotment	Full Over-allotment	No Over-allotment	Full Over-allotment	No Over-allotment	Full Over-allotment
Public offering price	\$ 10.00	\$ 10.00	\$ 10.00	\$ 10.00	\$ 10.00	\$ 10.00	\$ 10.00	\$ 10.00	\$ 10.00	\$ 10.00

- (1) Expenses applied against gross proceeds include offering expenses of approximately \$750,000 and underwriting commissions of \$0.15 per unit (including any units sold pursuant to the underwriters' option to purchase additional units), or \$3,000,000 in the aggregate (or up to \$3,450,000 if the underwriters' over-allotment option is exercised in full), payable to the underwriters (excluding deferred underwriting commissions). See "Use of Proceeds."
- (2) Upon the consummation of our initial business combination, the deferred underwriting commissions would be paid as follows: \$0.25 per unit on all units sold, or up to \$5,000,000 in the aggregate (or up to \$5,750,000 in the aggregate if the underwriters' over-allotment option is exercised in full) payable to the underwriters based on the total amount of funds remaining in the trust account after redemptions of public shares; provided that the underwriters have agreed to waive their rights to the deferred underwriting commissions if the trust account is less than \$70 million on the closing date of the initial business combination. See also "Underwriting" for a description of compensation and other items of value payable to the underwriters.
- (3) If we seek shareholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our sponsor, initial shareholders, directors, executive officers or their respective affiliates may purchase shares or public warrants in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination. In the event of any such purchases of our shares prior to the completion of our initial business combination, the number of ordinary shares subject to redemption will be reduced by the amount of any such purchases, increasing the pro forma net tangible book value per share. See "Effecting Our Initial Business Combination — Permitted Purchases of Our Securities."

CAPITALIZATION

The following table sets forth our capitalization at September 30, 2025, and as adjusted to give effect to the filing of our amended and restated memorandum and articles of association, the sale of our units in this offering and the sale of the private warrants and the application of the estimated net proceeds derived from the sale of such securities, assuming no exercise by the underwriters of their over-allotment option:

	September 30, 2025	
	Actual	As Adjusted
Notes payable to related party ⁽¹⁾	\$ 172,019	—
Deferred underwriting commissions	—	5,000,000
Over-allotment liability	—	322,300
Class A ordinary shares, subject to redemption, 0 and 20,000,000 shares which are subject to possible redemption, actual and as adjusted, respectively ⁽²⁾	—	200,000,000
Preference shares, \$0.0001 par value; 5,000,000 shares authorized; none issued and outstanding, actual and as adjusted	—	—
Class A ordinary shares, \$0.0001 par value, 500,000,000 shares authorized; none issued and outstanding, actual and as adjusted	—	—
Class B ordinary shares, \$0.0001 par value, 50,000,000 shares authorized; 5,750,000 and 5,000,000 shares issued and outstanding, actual and as adjusted, respectively ⁽³⁾	575	500
Additional paid-in capital	24,425	—
Accumulated deficit	(38,820)	(4,086,620)
Total shareholders' deficit	\$ (13,820)	(4,086,120)
Total capitalization	\$ 158,199	201,236,180

- (1) Our sponsor may loan us up to \$400,000 under an unsecured promissory note to be used for a portion of the expenses of this offering. The “as adjusted” information gives effect to the repayment of any loans received from our sponsor out of the proceeds from this offering and the sale of the private warrants. As of September 30, 2025, we had borrowed approximately \$172,019 under the promissory note with our sponsor.
- (2) Upon the completion of our initial business combination, we will provide our public shareholders with the opportunity to redeem their public shares, regardless of whether they abstain, vote for, or vote against, our initial business combination, for cash at a per share price equal to the aggregate amount then on deposit in the trust account calculated as of two business days prior to the consummation of our initial business combination, including interest earned on the funds held in the trust account (less taxes payable), divided by the number of then outstanding public shares, subject to any limitations (including, but not limited to, cash requirements) created by the terms of the proposed business combination.
- (3) Actual share amount is prior to any forfeiture of founder shares and as adjusted amount assumes no exercise of the underwriters' over-allotment option and forfeiture of an aggregate of 750,000 founder shares.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

We are a blank check company incorporated on July 31, 2025 as a Cayman Islands exempted company and formed for the purpose of effecting a merger, amalgamation, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses, which we refer to throughout this prospectus as our initial business combination. We have not selected any specific business combination target and we have not, nor has anyone on our behalf, engaged in any substantive discussions, directly or indirectly, with any business combination target. We may pursue an initial business combination in any business or industry. We intend to effectuate our initial business combination using cash from the proceeds of this offering and the private placement of the private warrants, the proceeds of the sale of our shares in connection with our initial business combination (pursuant to forward purchase agreements or backstop agreements we may enter into following the consummation of this offering or otherwise), shares issued to the owners of the target, debt issued to bank or other lenders or the owners of the target, other securities issuances, or a combination of the foregoing.

The issuance of additional shares in connection with a business combination to the owners of the target or other investors:

- may significantly dilute the equity interest of investors in this offering, which dilution would increase if the anti-dilution provisions in the Class B ordinary shares resulted in the issuance of Class A ordinary shares on a greater than one-to-one basis upon conversion of the Class B ordinary shares;
- may subordinate the rights of holders of Class A ordinary shares if preference shares are issued with rights senior to those afforded our Class A ordinary shares;
- could cause a change in control if a substantial number of our Class A ordinary shares are issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and could result in the resignation or removal of our present officers and directors;
- may have the effect of delaying or preventing a change of control of us by diluting the share ownership or voting rights of a person seeking to obtain control of us; and
- may adversely affect prevailing market prices for our Class A ordinary shares and/or warrants.

Similarly, if we issue debt securities or otherwise incur significant debt to bank or other lenders or the owners of a target, it could result in:

- default and foreclosure on our assets if our operating revenues after an initial business combination are insufficient to repay our debt obligations;
- acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the maintenance of certain financial ratios or reserves without a waiver or renegotiation of that covenant;
- our immediate payment of all principal and accrued interest, if any, if the debt security is payable on demand;
- our inability to obtain necessary additional financing if the debt security contains covenants restricting our ability to obtain such financing while the debt security is outstanding;
- using a substantial portion of our cash flow to pay principal and interest on our debt, which will reduce the funds available for expenses, capital expenditures, acquisitions and other general corporate purposes;
- limitations on our flexibility in planning for and reacting to changes in our business and in the industry in which we operate;
- increased vulnerability to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation; and
- limitations on our ability to borrow additional amounts for expenses, capital expenditures, acquisitions, debt service requirements, execution of our strategy and other purposes and other disadvantages compared to our competitors who have less debt.

As indicated in the accompanying financial statements, at September 30, 2025, we had no cash and deferred offering costs of \$207,916. Further, we expect to incur significant costs in the pursuit of our initial business combination. We cannot assure you that our plans to raise capital or to complete our initial business combination will be successful.

Results of Operations and Known Trends or Future Events

We have neither engaged in any operations nor generated any revenues to date. Our only activities since inception have been organizational activities and those necessary to prepare for this offering. Following this offering, we will not generate any operating revenues until after completion of our initial business combination. We will generate non-operating income in the form of interest income on cash and cash equivalents after this offering. There has been no significant change in our financial or trading position and no material adverse change has occurred since the date of our audited financial statements. After this offering, we expect to incur increased expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as for due diligence expenses. We expect our expenses to increase substantially after the closing of this offering.

Liquidity and Capital Resources

Our liquidity needs have been satisfied prior to the completion of this offering through \$25,000 paid by the sponsor to cover certain of our offering and formation costs in exchange for the issuance of the founder shares to our sponsor and \$400,000 in loans from our sponsor.

We estimate that the net proceeds from the sale of the units in this offering and the sale of the private warrants for an aggregate purchase price of \$5,000,000 (\$5,450,000 if the underwriters' over-allotment option is exercised in full), after deducting offering expenses of approximately \$750,000 and underwriting commissions of \$3,000,000 (\$3,450,000 if the underwriters' over-allotment option is exercised in full) (excluding deferred underwriting commissions of \$5,000,000, or \$5,750,000 if the underwriters' over-allotment option is exercised in full), will be \$201,250,000 (or \$231,250,000 if the underwriters' over-allotment option is exercised in full). \$200,000,000 (or \$230,000,000 if the underwriters' over-allotment option is exercised in full) will be held in the trust account, which includes deferred underwriting commissions of \$5,000,000 (or \$5,750,000 if the underwriters' over-allotment option is exercised in full). The proceeds held in the trust account will initially be invested only in U.S. government treasury obligations with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations; the holding of these assets in this form is intended to be temporary and for the sole purpose of facilitating the intended business combination. To mitigate the risk that we might be deemed to be an investment company for purposes of the Investment Company Act, which risk increases the longer that we hold investments in the trust account, we may, at any time (based on our management team's ongoing assessment of all factors related to our potential status under the Investment Company Act), instruct the trustee to liquidate the investments held in the trust account and instead to hold the funds in the trust account in cash or in an interest bearing demand deposit account at a bank. The remaining approximately \$1,250,000 will not be held in the trust account. In the event that our offering expenses exceed our estimate of \$750,000, we may fund such excess with funds not to be held in the trust account. In such case, the amount of funds we intend to be held outside the trust account would decrease by a corresponding amount. Conversely, in the event that the offering expenses are less than our estimate of \$750,000, the amount of funds we intend to be held outside the trust account would increase by a corresponding amount.

We intend to use substantially all of the funds held in the trust account, including any amounts representing interest earned on the trust account (excluding deferred underwriting commissions). We may withdraw interest to pay our taxes, if any. Our annual income tax obligations will depend on the amount of interest and other income earned on the amounts held in the trust account. We expect the interest earned on the amount in the trust account will be sufficient to pay our taxes. To the extent that our equity or debt is used, in whole or in part, as consideration to complete our initial business combination, the remaining proceeds held in the trust account will be used as working capital to finance the operations of the target business or businesses, make other acquisitions and pursue our growth strategies.

Prior to the completion of our initial business combination, we will have available to us the approximately \$1,250,000 of proceeds held outside the trust account (assuming our offering expenses are as expected). We will use these funds to primarily identify and evaluate target businesses, perform business due diligence on prospective target businesses, travel to and from the offices, plants or similar locations of prospective target businesses or their representatives or owners, review corporate documents and material agreements of prospective target businesses, and structure, negotiate and complete a business combination.

We do not believe we will need to raise additional funds following this offering in order to meet the expenditures required for operating our business prior to our initial business combination. However, if our estimates of the costs of identifying a target business, undertaking in-depth due diligence and negotiating an initial business combination are less than the actual amount necessary to do so, we may have insufficient funds available to operate our business prior to our initial business combination. In order to fund working capital deficiencies or finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete our initial business combination, we would repay such loaned amounts. In the event that our initial business combination does not close, we may use amounts held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used for such repayment. Up to \$1,500,000 of such loans may be convertible into warrants of the post business combination entity at a price of \$1.00 per warrant at the option of the applicable lender. Such warrants would be identical to the private warrants. The terms of such loans, if any, have not been determined and no written agreements exist with respect to such loans. Prior to the completion of our initial business combination, we do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

We expect our primary liquidity requirements during that period to include approximately \$300,000 for legal, accounting, due diligence, travel and other expenses associated with structuring, negotiating and documenting successful business combinations; approximately \$300,000 for legal and accounting fees related to regulatory reporting requirements; approximately \$240,000 for office space and administrative services; and approximately \$410,000 for general working capital that will be used for miscellaneous expenses and reserves.

These amounts are estimates and may differ materially from our actual expenses. In addition, we could use a portion of the funds not being placed in trust to pay commitment fees for financing, fees to consultants to assist us with our search for a target business or as a down payment or to fund a “no-shop” provision (a provision designed to keep target businesses from “shopping” around for transactions with other companies or investors on terms more favorable to such target businesses) with respect to a particular proposed business combination, although we do not have any current intention to do so. If we entered into an agreement where we paid for the right to receive exclusivity from a target business, the amount that would be used as a down payment or to fund a “no-shop” provision would be determined based on the terms of the specific business combination and the amount of our available funds at the time. Our forfeiture of such funds (whether as a result of our breach or otherwise) could result in our not having sufficient funds to continue searching for, or conducting due diligence with respect to, prospective target businesses.

Moreover, we may need to obtain additional financing to complete our initial business combination, either because the transaction requires more cash than is available from the proceeds held in our trust account or because we become obligated to redeem a significant number of our public shares upon completion of the business combination, in which case we may issue additional securities or incur debt in connection with such business combination. If we raise additional funds through equity or convertible debt issuances, our public shareholders may suffer significant dilution and these securities could have rights that rank senior to our public shares. If we raise additional funds through the incurrence of indebtedness, such indebtedness would have rights that are senior to our equity securities and could contain covenants that restrict our operations. Further, as described above, due to the anti-dilution rights of our founder shares, our public shareholders may incur material dilution. In addition, we intend to target businesses with enterprise values that are greater than we could acquire with the net proceeds of this offering and the sale of the private warrants, and, as a result, if the cash portion of the purchase price exceeds the amount available from the trust account, net of amounts needed to satisfy any redemptions by public shareholders, we may be required to seek additional financing to complete such proposed initial business combination. We may also obtain financing prior to the closing of our initial business combination to fund our working capital needs and transaction costs in connection with our search for and completion of our initial business combination. There is no limitation on our ability to raise funds through the issuance of equity or equity-linked securities or through loans, advances or other indebtedness in connection with our initial business combination, including pursuant to forward purchase agreements or backstop agreements we may enter into following consummation of this offering. Subject to compliance with applicable securities laws, we would only complete such financing simultaneously with the completion of our initial business combination. If we are unable to complete our initial business combination because we do not have sufficient funds available to us, we will be forced to liquidate the trust account. In addition, following our initial business combination, if cash on hand is insufficient, we may need to obtain additional financing in order to meet our obligations.

Controls and Procedures

We are not currently required to maintain an effective system of internal controls as defined by Section 404 of the Sarbanes-Oxley Act. We will be required to comply with the internal control requirements of the Sarbanes-Oxley Act for the fiscal year ending December 31, 2027. Only in the event that we are deemed to be a large accelerated filer or an accelerated filer and no longer an emerging growth company would we be required to comply with the independent registered public accounting firm attestation requirement. Further, for as long as we remain an emerging growth company as defined in the JOBS Act, we intend to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirement.

Prior to the closing of this offering, we have not completed an assessment, nor has our independent registered public accounting firm tested our systems, of internal controls. We expect to assess the internal controls of our target business or businesses prior to the completion of our initial business combination and, if necessary, to implement and test additional controls as we may determine are necessary in order to state that we maintain an effective system of internal controls. A target business may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding the adequacy of internal controls. Many small and mid-sized target businesses we may consider for our initial business combination may have internal controls that need improvement in areas such as:

- staffing for financial, accounting and external reporting areas, including segregation of duties;
- reconciliation of accounts;
- proper recording of expenses and liabilities in the period to which they relate;
- evidence of internal review and approval of accounting transactions;
- documentation of processes, assumptions and conclusions underlying significant estimates; and
- documentation of accounting policies and procedures.

Because it will take time, management involvement and perhaps outside resources to determine what internal control improvements are necessary for us to meet regulatory requirements and market expectations for our operation of a target business, we may incur significant expenses in meeting our public reporting responsibilities, particularly in the areas of designing, enhancing, or remediating internal and disclosure controls. Doing so effectively may also take longer than we expect, thus increasing our exposure to financial fraud or erroneous financing reporting.

Once our management's report on internal controls is complete, we will retain our independent registered public accounting firm to audit and render an opinion on such report when required by Section 404 of the Sarbanes-Oxley Act. The independent registered public accounting firm may identify additional issues concerning a target business's internal controls while performing their audit of internal control over financial reporting.

Quantitative and Qualitative Disclosures about Market Risk

The net proceeds of this offering and the sale of the private warrants held in the trust account will initially be invested only in U.S. government treasury obligations with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations; the holding of these assets in this form is intended to be temporary and for the sole purpose of facilitating the intended business combination. To mitigate the risk that we might be deemed to be an investment company for purposes of the Investment Company Act, which risk increases the longer that we hold investments in the trust account, we may, at any time (based on our management team's ongoing assessment of all factors related to our potential status under the Investment Company Act), instruct the trustee to liquidate the investments held in the trust account and instead to hold the funds in the trust account in cash or in an interest bearing demand deposit account at a bank. Due to the short-term nature of these investments, we believe there will be no associated material exposure to interest rate risk.

Related Party Transactions

On August 18, 2025, the Company issued to our sponsor 5,750,000 Class B ordinary shares for an aggregate purchase price of \$25,000, or \$0.004 per share, up to 750,000 of which are subject to forfeiture by the holders thereof depending on the extent to which the underwriters' over-allotment option is exercised.

The number of founder shares issued and outstanding was determined based on the expectation that the total size of this offering would be a maximum of 23,000,000 units if the underwriters' over-allotment option is exercised in full, and therefore that such founder shares would represent approximately 20% of the outstanding shares after this offering. Up to 750,000 of the founder shares will be surrendered for no consideration depending on the extent to which the underwriters' over-allotment option is exercised.

Our sponsor, X3 Acquisition Management LLC, has committed to purchase an aggregate of 5,000,000 private warrants (or 5,450,000 private warrants if the over-allotment option is exercised in full) each exercisable to purchase one Class A ordinary share at \$11.50 per share, at a price of \$1.00 per warrant, for an aggregate purchase price of \$5,000,000 (or \$5,450,000 if the over-allotment option is exercised in full). The private warrants will also be worthless if we do not complete our initial business combination. The private warrants will be identical to the public warrants sold as part of the units in this offering except that, so long as they are held by our sponsor or its permitted transferees, the private warrants (and the underlying securities) (i) may not, subject to certain limited exceptions, be transferred, assigned or sold by the holders until 30 days after the completion of our initial business combination and (ii) will be entitled to registration rights.

Prior to or in connection with the completion of our initial business combination, there may be payment by the company to our sponsor, officers or directors, advisors, or our or their affiliates, of a finder's fee, advisory fee, consulting fee or success fee for any services they render in order to effectuate the completion of our initial business, which, if made prior to the completion of our initial business combination, will be paid from funds held outside the trust account.

Our audit committee will review on a quarterly basis all payments that were made to our sponsor, officers, directors or our or their affiliates.

We will reimburse our sponsor or an affiliate thereof in an amount equal to \$10,000 per month for office space, utilities and secretarial and administrative support made available to us. Upon completion of our initial business combination or our liquidation, we will cease paying these monthly fees.

Prior to the closing of this offering, our sponsor may loan us funds in an aggregate amount of up to \$400,000 to be used for a portion of the expenses of this offering. These loans would be non-interest bearing, unsecured and are due at the earlier of November 1, 2026, the date on which the closing of this offering occurs or the date on which we determine not to conduct an initial public offering. As of September 30, 2025, we had borrowed \$172,019 under the promissory note with our sponsor.

In addition, in order to finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required on a non-interest basis. If we complete an initial business combination, we would repay such loaned amounts. In the event that the initial business combination does not close, we may use amounts held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used for such repayment. Up to \$1,500,000 of such loans may be convertible into warrants of the post business combination entity at a price of \$1.00 per warrant at the option of the applicable lender. Such warrants would be identical to the private warrants. Except as set forth above, the terms of such loans, if any, have not been determined and no written agreements exist with respect to such loans. Prior to the completion of our initial business combination, we do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

Any of the foregoing payments to our sponsor, repayments of loans from our sponsor or repayments of working capital loans prior to our initial business combination will be made using funds held outside the trust account.

After our initial business combination, members of our management team who remain with us may be paid consulting, management or other fees from the combined company with any and all amounts being fully disclosed to our shareholders, to the extent then known, in the proxy solicitation or tender offer materials, as applicable, furnished to our shareholders. It is unlikely the amount of such compensation will be known at the time of distribution of such tender offer materials or at the time of a general meeting held to consider our initial business combination, as applicable, as it will be up to the directors of the post-combination business to determine executive and director compensation.

We have entered into a registration rights agreement with respect to the founder shares and private warrants, which is described under the heading “*Principal Shareholders — Registration Rights.*”

Off-Balance Sheet Arrangements; Commitments and Contractual Obligations; Quarterly Results

As of September 30, 2025, we did not have any off-balance sheet arrangements as defined in Item 303(a)(4)(ii) of Regulation S-K and did not have any commitments or contractual obligations. No unaudited quarterly operating data is included in this prospectus as we have not conducted any operations to date.

JOBS Act

The JOBS Act contains provisions that, among other things, relax certain reporting requirements for qualifying public companies. We will qualify as an “emerging growth company” and under the JOBS Act will be allowed to comply with new or revised accounting pronouncements based on the effective date for private (not publicly traded) companies. We are electing to delay the adoption of new or revised accounting standards, and as a result, we may not comply with new or revised accounting standards on the relevant dates on which adoption of such standards is required for non-emerging growth companies. As a result, our financial statements may not be comparable to companies that comply with new or revised accounting pronouncements as of public company effective dates.

Additionally, we are in the process of evaluating the benefits of relying on the other reduced reporting requirements provided by the JOBS Act. Subject to certain conditions set forth in the JOBS Act, if, as an “emerging growth company,” we choose to rely on such exemptions we may not be required to, among other things, (i) provide an independent registered public accounting firm’s attestation report on our system of internal controls over financial reporting pursuant to Section 404, (ii) provide all of the compensation disclosure that may be required of non-emerging growth public companies under the Dodd-Frank Wall Street Reform and Consumer Protection Act, (iii) comply with any requirement that may be adopted by the PCAOB regarding mandatory audit firm rotation or a supplement to the report of the independent registered public accounting firm providing additional information about the audit and the financial statements (auditor discussion and analysis), and (iv) disclose certain executive compensation related items such as the correlation between executive compensation and performance and comparisons of the CEO’s compensation to median employee compensation. These exemptions will apply for a period of five years following the completion of this offering or until we are no longer an “emerging growth company,” whichever is earlier.

PROPOSED BUSINESS

Overview

We are a newly organized blank check company incorporated as an exempt company under the laws of the Cayman Islands for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization, or similar business combination with one or more businesses, which we refer to throughout this prospectus as our initial business combination. To date, our efforts have been limited to organizational activities as well as activities related to this offering. We have not selected any specific business combination target and we have not, nor has anyone on our behalf, engaged in any substantive discussions, directly or indirectly, with any business combination target.

While we may pursue an acquisition in any industry or sector, we intend to focus our efforts on identifying businesses within the financial services industry. This includes a broad range of opportunities, such as traditional financial institutions, community and regional banks, asset and wealth management firms, specialty finance companies, and other businesses providing critical financial products and services. We may also consider companies that are leveraging technology to enhance or transform financial services. However, we remain flexible and open to evaluating opportunities outside of these areas if we believe they present compelling value for our shareholders.

Our Strategy

Our strategy is to identify and partner with a business that is well-positioned to benefit from the capital, strategic guidance, and public market access that we can provide. We aim to work closely with management teams to accelerate growth, enhance operational performance, and position the business for long-term success.

We are particularly focused on companies at an inflection point—those undergoing transformation, adapting to evolving market dynamics, or pursuing strategic initiatives to scale. Our team's deep expertise in financial services, capital markets, and operational execution positions us to support businesses through these transitions and help them thrive as public companies.

Target Business Criteria

We intend to focus on businesses that exhibit strong fundamentals, scalable business models, and the potential for long-term value creation. Specifically, we will prioritize companies that meet one or more of the following criteria:

- **Established Market Presence:** Companies with a proven operating history, strong customer relationships, and a defensible competitive position.
- **Strong people, processes and culture**
- **Attractive Financial Profile:** Businesses with recurring revenue streams, robust cash flow generation, and potential for margin expansion.
- **Scalable Business Model:** Opportunities for growth through organic initiatives, strategic acquisitions, or operational improvements.
- **Will benefit from having a public currency to enhance its ability to grow organically or through M&A**
- **Sector Relevance:** Operations within or adjacent to the financial services industry, including traditional institutions and technology-driven platforms.
- **May benefit from X Cubed public markets experience and market data**

While our primary focus is on financial services, we remain open to evaluating opportunities in other sectors that meet our investment criteria and offer significant potential for value creation.

Industry Opportunity

The financial services industry represents a significant and evolving segment of the global economy, and continues to undergo significant transformation driven by shifting consumer expectations, technological innovation, regulatory developments, and industry consolidation.

Community and regional banks, for example, are navigating increased competition, margin compression, and the imperative for digital transformation. Similarly, asset and wealth management firms are consolidating to achieve scale, diversify offerings, and enhance profitability. Specialty finance and fintech companies are leveraging technology to disrupt traditional models and capture market share.

We believe the ongoing transformation of the financial services industry presents a compelling and diverse pipeline of potential business combination opportunities. Structural shifts—driven by technological innovation, evolving customer expectations, regulatory developments, and industry consolidation—are creating fertile ground for companies that are agile, forward-thinking, and well-positioned to capitalize on these changes. Our approach is not limited to a single segment of the financial services ecosystem. We intend to evaluate a wide spectrum of businesses, including traditional financial institutions, asset and wealth management firms, specialty finance providers, and technology-enabled financial platforms. By maintaining a broad perspective, we aim to identify and partner with businesses that demonstrate strong fundamentals, scalable business models, and the potential to generate long-term value as public entities.

Management and Competitive Strengths

Our management team brings over a century of collective experience across blue chip financial institutions, hedge funds, academia, and regulatory bodies. This diverse background equips us with a unique combination of investment acumen, operational expertise, and strategic vision to identify, evaluate, and execute on complex opportunities in the financial services and technology sectors.

Our team's collective experience includes leadership roles at leading institutions such as Millennium, JP Morgan, Credit Suisse, Saba Capital, Whitebox, SAC Capital, Citicorp, Bankers Trust, and the Federal Reserve Bank of New York. This breadth of experience provides us with a robust network and a deep understanding of market structure, risk management, and investment strategy.

We believe our structural advantage lies in our cross-asset focus and our ability to identify opportunities in the seams between markets—areas often overlooked by segmented credit pods at large multi-managers and specialist credit managers. Our approach is anchored in a deep quantitative understanding of dislocations within and across capital structures, enabling us to offer consistent, alpha-driven, and diversifying capital appreciation.

Our Management Team

Our management team is led by Andrew J. Redleaf, our Chairman and Chief Executive Officer, Kenneth J. Weiller, our Chief Operating Officer and Chief Financial Officer, Chris Bemis, our Executive Vice President and Secretary, and Toby Maitland Hudson, our Head of Capital Markets.

Andrew J. Redleaf is Chairman and Chief Executive Officer of the Company. Mr. Redleaf's career spans several decades from his early work pioneering the use of quantitative methodologies to trade options. He focused his attention on the applied understanding of pricing between markets rather than in isolation to identify opportunities in market structure and behavioral eccentricities, which has become the cornerstone of his investment philosophy. Mr. Redleaf has served as Founder and Head of Portfolio Allocation and Strategy of X Cubed Capital Management LLC since 2021. He has launched funds including Deephaven Market Neutral Fund, which grew to \$300 million under management, and Whitebox Advisors, which grew to become a \$5.5-billion fund with offices in Minneapolis, Austin, London and Sydney. Mr. Redleaf is an active investor in private companies. He is the controlling shareholder of Park Financial Group, a bank holding company. During his ten-year tenure as principal owner, Park State Bank has consistently been a top performing community bank across multiple categories including return on equity and efficiency ratio. Assets have grown from \$30 million to \$1.4 billion. Mr. Redleaf earned a Master's degree in mathematics from Yale University.

Kenneth J. Weiller is Chief Operating Officer and Chief Financial Officer of the Company. Mr. Weiller has worked in the hedge fund industry for over 25 years. He has served as Chief Operating Officer of X Cubed Capital Management LLC since 2022. He was a consultant at CoinFund Management LLC from March 2021 to November 2021. From November 2019 to May 2020, Mr. Weiller was Partner and COO at Econometrics Capital Management LLC, where he was responsible for setting up the fund and all non-investment functions. Other experience includes: COO roles at Westfield Investment and EVA Capital, where he also served as CCO; COO roles at Claren Road Asset Management and Saba Capital Management, where he also served as the Risk Manager during the firm's first two years of operation; and SAC Capital, where over his six years there he served as the Director of Risk Management, Director of Operations and Director of Trading Administration. Mr. Weiller began his career at the Federal Reserve Bank of New York and worked in Treasury and Risk at both Citicorp and Bankers Trust. Mr. Weiller earned his PhD in Economics at Harvard University, an MA in Economics at Tufts University, and a Bachelor's in Economics at St. Lawrence University.

Chris Bemis, PhD is Executive Vice President and Secretary of the Company. Mr. Bemis has served as Co-Founder and Managing Partner of X Cubed Capital Management LLC since 2021. Mr. Bemis focuses on alpha-driven portfolio construction across various asset classes. He joined X Cubed after serving as head of Whitebox Advisors' quant group. Mr. Bemis' work has yielded several systematic credit strategies, most recently in corporate credit. Mr. Bemis earned his PhD in applied mathematics from the University of Minnesota, where his thesis involved modelling and optimization for portfolios of risky assets. Mr. Bemis remains as affiliated faculty in their math finance program.

Toby Maitland Hudson is Head of Capital Markets of the Company. A former attorney, Mr. Hudson's expertise spans origination, structuring and trading in the corporate, structured and direct lending markets. Throughout his 25-year career, he has synthesized quantitative and qualitative analysis to identify the optimal part of the capital structure in which to invest. His experience encompasses corporate bonds, credit derivatives, ABS, RMBS, CMBS, CLO and equities. Mr. Hudson joined X Cubed Capital Management LLC in 2021 from Pinelands Capital Management (now a division of Millennium Management) where he was a senior member of a business focused on IG corporate and mortgage credit from 2017 to 2021. Prior to Millennium, Mr. Hudson led the CRE/CMBS business at Saba Capital, managing investments in commercial mortgage conduits, mezzanine loans, and related derivatives. His prior experience includes roles senior PM/Managing Director roles in mortgage exotics at JPMorgan and mortgage credit trading at Bear Stearns. Mr. Hudson holds a Bachelor of Laws (LLB) in English and French Law from King's College London and the Universite Paris I (Pantheon Sorbonne).

Our Board of Directors

Our Board of Directors includes seven (7) members. The board is led by our Chairman and Chief Executive Officer, Andrew J. Redleaf, our Executive Vice President and Secretary, Chris Bemis, and our Head of Capital Markets, Toby Maitland Hudson, and consists of industry leaders and experienced investors. Each brings diversity of experience, perspective and industry contacts that when combined create a distinguished Board of Directors. In addition to Messrs. Redleaf, Bemis and Hudson, our Board of Directors is comprised of:

William N. Goetzmann serves as a member of our board of directors. Mr. Goetzmann is the Edwin J. Beinecke Professor of Finance and Management Studies and faculty director of the International Center for Finance at the Yale School of Management and faculty director of its Executive MBA program in Asset Management. Mr. Goetzmann is widely recognized for his research in the field of investments and is currently the Executive Editor of the *Financial Analysts Journal*, the leading journal for the practice of investment management. His professional experience includes eight years on the board of the investment company Commonfund, current service on the board of the Jeffrey Company, and past consultation with the Norwegian Pension Fund Global. Mr. Goetzmann has written and co-authored a number of books, including *Modern Portfolio Theory and Investment Analysis* (Wiley, 2014) and *Money Changes Everything: How Finance Made Civilization Possible* (Princeton, 2016). He is a recognized academic expert in the field of investment management and alternative asset classes and the recipient of the James R. Vertin Award from the CFA Institute Research Foundation "for a body of research notable for its relevance and enduring value to investment professionals." Mr. Goetzmann holds a PhD in Operations Research from Yale University and an MBA from Yale School of Management.

David H. Lui serves as a member of our board of directors. Mr. Lui's lifelong professional focus has been the creation of processes in the financial services industry which mirror the ethical needs of the industry's clientele. He has been Chief Compliance Officer for some of America's largest investment advisers, including Charles Schwab Investment Management, Franklin Templeton Advisers, U.S. Bancorp Asset Management and a \$100 billion subsidiary of Wells Fargo. He was named a Principal of that Wells Fargo subsidiary and was responsible for the oversight of the negotiation of \$80 billion of investment contracts. By virtue of these relationships, Mr. Lui has held positions as an officer of the board of some of the largest mutual funds in the United States. During the financial crisis, Mr. Lui was Chair of the National Society of Compliance Professionals, the industry trade group covering Securities Compliance for U.S. investment advisers. As Chair during that troubled time, he was responsible for the creation of numerous industry regulatory liaisons with the Office of Compliance, Inspections and Examinations of the U.S. Securities and Exchange Commission, and the House Financial Services Committee. After completing his role as Chair, Mr. Lui partnered with the former Chief Counsel of the Office of Compliance Inspections and Examinations at the Securities and Exchange Commission to write the nation's leading treatise on Securities Compliance—a two Volume, 1,600-page work called *Modern Compliance: Best Practices in Securities and Finance*. That work is in use at many institutions in the United States, and is the most widely distributed work on securities compliance in the nation. Mr. Lui is a graduate of Brown University in Providence, Rhode Island with Honors in History and received his Juris Doctor degree from the University of California, Hastings College of the Law. He is an attorney admitted to practice in Minnesota and California. He is a frequent speaker at national conferences related to Securities Compliance.

Nicholas H. Smith serves as a member of our board of directors. Mr. Smith is the Founder and CEO of Rice Park Capital Management LP, an alternative investment firm focused on mortgage finance and structured credit. He has nearly 25 years of experience across capital markets, mortgage credit, structured products, operating companies and Fintech. Before founding Rice Park in 2019, Mr. Smith was CEO and Chief Investment Officer of Blackstone's (NYSE: BX) private residential mortgage REIT, Podium Mortgage Capital, from 2017 to 2018 and Co-Founder and CIO of Finance of America Companies (NYSE: FOA) from 2015 to 2017. From 2012 to 2015, Mr. Smith was Managing Director and Head of Residential Mortgage Investment Business of Pine River Capital Management. He previously served as Managing Director at Two Harbors Investment Corp. (NYSE: TWO), where he led the firm's MSR and whole loan investment platform and held senior investment and corporate development roles at Green Tree Investment Management and GMAC ResCap. Mr. Smith studied economics as an undergraduate at the University of Minnesota and pursued graduate studies at Northeastern University and the University of London in quantitative finance. He is a member of the CFA Institute and CFA Society of Minnesota. Mr. Smith has served on a variety of public, private, and philanthropic boards. He currently serves on the advisory boards of Capacity and First American Financial (NYSE: FAF).

Jeffrey H. von Gillern serves as a member of our board of directors. Mr. von Gillern is the former Vice Chairman of Technology and Operations Services at U.S. Bancorp, a position he held from 2010 until his retirement in 2023. As a member of the Managing Committee, he reported directly to the Chairman and CEO, overseeing a significant annual investment portfolio and leading a global team of approximately 25,000 staff. He joined U.S. Bancorp in 2001 as Executive Vice President and served as Chief Information Officer from 2007 to 2010, where he led major technology upgrades, supported numerous bank acquisitions, and directed complex portfolio conversions. Prior to U.S. Bancorp, Mr. von Gillern served as CIO of IronPlanet, an early online marketplace for used heavy equipment, from 2000 to 2001. Before that, he spent 12 years at Visa International, where he was Senior Vice President of Processing Services. Mr. von Gillern currently serves on the Board of Directors of NCR Atleos (since 2023) and is Treasurer and a Board Director for Children's Hospital of Minnesota (since 2022). His prior board roles include Lead Director of ViewPointe LLC (2010–2015), Board Director of Syncada LLC (2010–2014), and Chair of the Board of Governors for the Children's Theatre Company in Minneapolis (2014–2017). Mr. von Gillern earned a Bachelor of Science in Business from the University of Arizona and also studied at the University of London.

With respect to the above, past performance of any member of our management team or our advisor or any of their respective affiliates is not a guarantee of (i) success with respect to a business combination that may be consummated, (ii) the ability to successfully identify and execute a transaction or (iii) the ability to assess the risk of potential transactions. You should not rely on the historical performance record of our management team or their affiliates as indicative of our future performance. Our officers and directors may have conflicts of interest with other entities to which they owe fiduciary or contractual obligations with respect to initial business combination opportunities. For a list of our officers and directors and entities for which a conflict of interest may or does exist between such persons and us, as well as the priority and preference that such entity has with respect to performance of obligations and presentation of business opportunities to us, please refer to the table and subsequent explanatory paragraph under “*Management — Conflicts of Interest*.”

Sponsor Information

Our sponsor is a Delaware limited liability company, which was recently formed in July 2025 to invest in our company. Although our sponsor is permitted to undertake any activities permitted under the Delaware Limited Liability Company Act and other applicable law, our sponsor's business is focused on investing in our company. X Cubed Capital Management LLC is the sole member of our sponsor, X3 Acquisition Management LLC. X Cubed Capital Management LLC is controlled by Andrew J. Redleaf, who holds voting and investment discretion with respect to the securities held by the sponsor. As of the date of this prospectus, other than Mr. Redleaf, no other person has a direct or indirect material interest in our sponsor. Our Chief Operating Officer and Chief Financial Officer, Kenneth J. Weiller, will receive an indirect interest in up to 335,400 founder shares through membership interests in our sponsor, our Executive Vice President and Secretary, Chris Bemis, will receive an indirect interest in up to 335,400 founder shares through membership interests in our sponsor, and our Head of Capital Markets, Toby Maitland Hudson, will receive an indirect interest in up to 838,500 founder shares through membership interests in our sponsor. In addition, our independent directors will receive for their services as a director an indirect interest in the founder shares through membership interests in our sponsor. William N. Goetzmann, David H. Lui, Nicholas H. Smith and Jeffry H. von Gillern will each receive an indirect interest in 40,000 founder shares through membership interests in our sponsor. Other than members of our management team who are members of our sponsor, none of the other members of our sponsor will participate in our company's activities.

The following table sets forth the payments to be received by our sponsor and its affiliates from us prior to or in connection with the completion of our initial business combination and the securities issued and to be issued by us to our sponsor or its affiliates:

Entity/Individual	Amount of Compensation to be Received or Securities Issued or to be Issued	Consideration Paid or to be Paid
X3 Acquisition Management LLC	\$10,000 per month 5,750,000 Class B ordinary shares 5,000,000 private warrants to be purchased simultaneously with the closing of this offering (or 5,450,000 private warrants if the over-allotment option is exercised in full) private warrants Up to \$400,000 in loans Up to \$1,500,000 in working capital loans, which loans may be convertible into private warrants of the post-business combination entity at a price of \$1.00 per warrant at the option of the lender Reimbursement for any out-of-pocket expenses related to identifying, investigating and completing an initial business combination Anti-dilution protection upon conversion into Class A ordinary shares at a greater than one-to-one ratio	Office space, utilities and secretarial and administrative support \$25,000 \$5,000,000 (or \$5,450,000 if the over-allotment option is exercised in full) Repayment of loans made to us to cover offering related and organizational expenses Working capital loans to finance transaction costs in connection with an initial business combination Services in connection with identifying, investigating and completing an initial business combination Issuance of the Class A ordinary shares issuable in connection with the conversion of the founder shares on a greater than one-to-one basis upon conversion
Holder of Class B ordinary shares		

X3 Acquisition Management LLC, our officers, directors, advisors, or our or their affiliates	Finder's fees, advisory fees, consulting fees or success fees ⁽¹⁾	Any services in order to effectuate the completion of our initial business, which, if made prior to the completion of our initial business combination, will be paid from funds held outside the trust account
X3 Acquisition Management LLC, or its affiliates	Salary or fee in an amount that constitutes a market standard for comparable transactions ⁽²⁾	Any services provided as an advisor or otherwise in connection with our initial business combination and certain other transactions

-
- (1) As of the date of this prospectus, no such arrangements are currently in place.
- (2) As of the date of this prospectus, no such arrangements are currently in place. Any such salary or fee would be paid using available working capital funds (including proceeds from any promissory notes issued by us and funds released from the trust account upon completion of our initial business combination), but would not in any event be paid out of the administrative services fee.

Because our sponsor acquired the founder shares at a nominal price (\$0.004 per share), our public shareholders will incur immediate and substantial dilution upon the closing of this offering, assuming no value is ascribed to the warrants included in the units. Further, the Class A ordinary shares issuable in connection with the conversion of the founder shares may result in material dilution to our public shareholders due to the anti-dilution rights of our founder shares that may result in an issuance of Class A ordinary shares on a greater than one-to-one basis upon conversion. Additionally, our public shareholders may experience dilution from the exercise of the 5,000,000 private warrants (5,450,000 private warrants if the underwriters' over-allotment option is exercised in full) to be purchased by our sponsor simultaneously with the closing of this offering as well as conversion of any working capital loans into warrants, if elected by the sponsor or by another person or entity who made such working capital loans. The exercise of the warrants would cause the actual dilution to the public shareholders to be higher, particularly where a cashless exercise is utilized. See *"Risk Factors — Risks Relating to Our Securities — The nominal purchase price paid by our sponsor for the founder shares may result in significant dilution to the implied value of your public shares upon the consummation of our initial business combination, and our sponsor is likely to make a substantial profit on its investment in us in the event we consummate an initial business combination, even if the business combination causes the trading price of our ordinary shares to materially decline"* and *"Dilution."*

The founder shares will automatically convert into Class A ordinary shares concurrently with or immediately following the consummation of our initial business combination, or at any time prior thereto at the option of the holder thereof, on a one-for-one basis, subject to adjustment as provided herein. In the case that additional Class A ordinary shares, or equity-linked securities, are issued or deemed issued in excess of the amounts sold in this offering and related to the closing of our initial business combination, the ratio at which Class B ordinary shares shall convert into Class A ordinary shares will be adjusted (unless the holders of a majority of the outstanding Class B ordinary shares agree to waive such anti-dilution adjustment with respect to any such issuance or deemed issuance) so that the number of Class A ordinary shares issuable upon conversion of all Class B ordinary shares will equal, in the aggregate, on an as-converted basis, approximately 20% of sum of (i) the total number of all Class A ordinary shares outstanding upon the completion of this offering (including any Class A ordinary shares issued pursuant to the underwriters' over-allotment option), plus (ii) all Class A ordinary shares and equity-linked securities issued or deemed issued, in connection with the closing of the initial business combination (excluding any shares or equity-linked securities issued, or to be issued, to any seller in the initial business combination and any units issued to our sponsor or any of its affiliates or to our officers or directors upon conversion of working capital loans) minus (iii) any redemptions of Class A ordinary shares by public shareholders in connection with an initial business combination; provided that such conversion of founder shares will never occur on a less than one-for-one basis. Our public shareholders may incur material dilution due to such anti-dilution adjustments that result in the issuance of Class A ordinary shares on a greater than one-to-one basis upon conversion.

If we raise additional funds through equity or convertible debt issuances, our public shareholders may suffer significant dilution. This dilution would increase to the extent that the anti-dilution provision of the founder shares result in the issuance of Class A shares on a greater than one-to-one basis upon conversion of the founder shares at the time of our initial business combination. In addition, the cashless exercise of the private warrants would further increase the dilution to our public shareholders.

Pursuant to a letter agreement entered into with us, each of our sponsor, directors and officers has agreed to restrictions on its ability to transfer, assign, or sell the founder shares and private warrants, as summarized in the table below.

Subject Securities	Expiration Date	Natural Persons and Entities Subject to Restrictions	Exceptions to Transfer Restrictions
Founder Shares	180 days after the completion of our initial business combination	X3 Acquisition Management LLC Andrew J. Redleaf Kenneth J. Weiller Toby Maitland Hudson Chris Bemis William N. Goetzmann David H. Lui Nicholas H. Smith Jeffry H. von Gillern	Transfers permitted (a) to our officers, directors, advisors or consultants, any affiliate or family member of any of our officers, directors, advisors or consultants, any members or partners of the sponsor or their affiliates and funds and accounts advised by such members or partners, any affiliates of the sponsor, or any employees of such affiliates; (b) in the case of an individual, as a gift to such person's immediate family or to a trust, the beneficiary of which is a member of such person's immediate family, an affiliate of such person or to a charitable organization; (c) in the case of an individual, by virtue of laws of descent and distribution upon death of such person; (d) in the case of an individual, pursuant to a qualified domestic relations order; (e) by private sales or transfers made in connection with any forward purchase agreement or similar arrangement, in connection with an extension of the completion window or in connection with the consummation of a business combination at prices no greater than the price at which the shares or warrants were originally purchased; (f) pro rata distributions from our sponsor to its respective members, partners or shareholders pursuant to our sponsor's liability company agreement or other charter documents; (g) by virtue of the laws of the State of Delaware or our sponsor's limited liability company agreement upon dissolution of our sponsor; (h) in the event of our liquidation prior to our consummation of our initial business combination; (i) to a nominee or custodian of a person or entity to whom a transfer would be permissible under clauses (a) through (g); (j) to us for no value for cancellation in connection with the consummation of our initial business combination; or (k) in the event that, subsequent to our consummation of an initial business combination, we complete a liquidation, merger, share exchange or other similar transaction which results in all of our shareholders having the right to exchange their Class A ordinary shares for cash, securities or other property; provided, however, that in the case of clauses (a) through (g) and clause (i) these permitted transferees must enter into a written agreement agreeing to be bound by these transfer restrictions and the other restrictions contained in the letter agreements.

Subject Securities	Expiration Date	Natural Persons and Entities Subject to Restrictions	Exceptions to Transfer Restrictions
Private warrants (including the underlying securities)	30 days after the completion of our initial business combination	X3 Acquisition Management LLC Andrew J. Redleaf Kenneth J. Weiller Toby Maitland Hudson Chris Bemis William N. Goetzmann David H. Lui Nicholas H. Smith Jeffrey H. von Gillern	Same as above.
Any units, warrants, ordinary shares or any other securities convertible into, or exercisable or exchangeable for, any units, ordinary shares, founder shares or warrants	180 days	X3 Acquisition Management LLC Andrew J. Redleaf Kenneth J. Weiller Toby Maitland Hudson Chris Bemis William N. Goetzmann David H. Lui Nicholas H. Smith Jeffrey H. von Gillern	The 180-day lock-up period is pursuant to the underwriting agreement and can be waived with the prior written consent of Stifel. See “ <i>Underwriting — Lock-up.</i> ” Our sponsor, officers and directors are also subject to separate transfer restrictions on their founder shares and private warrants pursuant to the letter agreement described in the immediately preceding paragraphs.

Up to 750,000 of the founder shares will be surrendered for no consideration depending on the extent to which the underwriters’ over-allotment option is exercised. In addition, in order to facilitate our initial business combination or for any other reason determined by our sponsor in its sole discretion, our sponsor may surrender or forfeit, transfer or exchange our founder shares, private warrants or any of our other securities, including for no consideration, as well as subject any such securities to earn-outs or other restrictions, or otherwise amend the terms of any such securities or enter into any other arrangements with respect to any such securities.

Competitive Strengths

Alternative Path to Becoming Public

We believe our structure will make us an attractive business combination partner to prospective target businesses that desire to become a publicly listed company. A merger with us will offer a target business an alternative process to a public listing rather than the traditional initial public offering process. We believe that target businesses may favor this alternative, which we believe is less expensive, while offering greater certainty of execution than the traditional initial public offering. Furthermore, once a proposed business combination is approved by our shareholders and the transaction is consummated, the target business will have effectively become public, whereas an initial public offering is always subject to the underwriters’ ability to complete the offering, as well as general market conditions that could prevent the offering from occurring. Once public, we believe the target business would have greater access to capital and additional means of creating management incentives that are better aligned with shareholders’ interests than it would as a private company. A public company can offer further benefits by augmenting a company’s profile among potential new customers and vendors and aid in attracting talented management. With public company corporate governance standards, a target business may become attractive to the public investors.

Strong and Stable Financial Position with Flexibility.

With funds available for a business combination initially in the amount of \$195,000,000 after payment of \$5,000,000 of deferred underwriting fees (or \$224,250,000 assuming no redemptions and after payment of \$5,750,000 of deferred underwriting fees if the underwriters' over-allotment option is exercised in full), we offer a target business a variety of options such as providing the owners of a target business with shares in a public company and a public means to sell such shares, providing capital for the potential growth and expansion of its operations or strengthening its balance sheet by reducing its debt ratio. Because we are able to consummate our initial business combination using our cash, debt or equity securities, or a combination of the foregoing, we have the flexibility to use the most efficient combination that will allow us to tailor the consideration to be paid to the target business to fit its needs and desires. However, since we have no specific business combination under consideration, we have not taken any steps to secure third party financing and there can be no assurance that it will be available to us.

Acquisition Process

In evaluating a prospective target business, we expect to conduct a due diligence review which may encompass, among other things, meetings with incumbent management and employees, document reviews, interviews of customers and suppliers, inspection of facilities, as applicable, as well as a review of financial, operational, legal and other information about the target and its industry which will be made available to us. If we determine to move forward with a particular target, we will proceed to structure and negotiate the terms of the business combination transaction.

The time required to select and evaluate a target business and to structure and complete our initial business combination, and the costs associated with this process, are not currently ascertainable with any degree of certainty. Any costs incurred with respect to the identification and evaluation of, and negotiation with, a prospective target business with which our initial business combination is not ultimately completed will result in our incurring losses and will reduce the funds available for us to use to complete another business combination.

Initial Business Combination

Nasdaq rules require that we must complete one or more business combinations having an aggregate fair market value of at least 80% of the value of the assets held in the trust account (excluding the deferred underwriting commissions and taxes payable on the interest earned on the trust account) at the time of the agreement to enter into the initial business combination. Our board of directors will make the determination as to the fair market value of our initial business combination. If our board of directors is not able to independently determine the fair market value of our initial business combination, we will obtain an opinion from an independent investment banking firm or another independent entity that commonly renders valuation opinions with respect to the satisfaction of such criteria. While we consider it likely that our board of directors will be able to make an independent determination of the fair market value of our initial business combination, it may be unable to do so if it is less familiar or experienced with the business of a particular target or if there is a significant amount of uncertainty as to the value of the target's assets or prospects. Additionally, pursuant to Nasdaq rules, any initial business combination must be approved by a majority of our independent directors.

We anticipate structuring our initial business combination so that the post-transaction company in which our public shareholders own shares will own or acquire 100% of the issued and outstanding equity interests or assets of the target business or businesses. We may, however, structure our initial business combination such that the post-transaction company owns or acquires less than 100% of such interests or assets of the target business in order to meet certain objectives of the target management team or shareholders or for other reasons, but we will only complete such business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act of 1940, as amended, or the Investment Company Act. Even if the post-transaction company owns or acquires 50% or more of the voting securities of the target, our shareholders prior to the business combination may collectively own a minority interest in the post-transaction company, depending on valuations ascribed to the target and us in the business combination. For example, we could pursue a transaction in which we issue a substantial number of new shares in exchange for all of the outstanding capital stock, shares or other equity interests of a target. In this case, we would acquire a 100% controlling interest in the target. However, as a result of the issuance of a substantial number of new shares, our shareholders immediately prior to our initial business combination could own less than a majority of our issued and outstanding shares subsequent to our initial business combination. If less than 100% of the equity interests or assets of a target business or businesses are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or acquired is what will be taken into account for purposes of the 80% of net assets test described above. If the business combination involves more than one target business, the aggregate value of all of the target businesses, will be taken into account for purposes of the 80% fair market value test.

We are not prohibited from pursuing an initial business combination with a company that is affiliated with our sponsor, officers or directors or completing the business combination through a joint venture or other form of shared ownership with our sponsor, officers or directors. In the event we seek to complete our initial business combination with a company that is affiliated (as defined in our amended and restated memorandum and articles of association) with our sponsor (including its members), officers or directors, we, or a committee of independent directors, will obtain an opinion from an independent investment banking firm or another independent entity that commonly renders valuation opinions, stating that the consideration to be paid by us in such an initial business combination is fair to our company from a financial point of view. We are not required to obtain such an opinion in any other context.

Members of our management team and our independent directors will directly or indirectly own founder shares and/or private warrants following this offering and, accordingly, may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination. Further, each of our officers and directors may have a conflict of interest with respect to evaluating a particular business combination if the retention or resignation of any such officers and directors was included by a target business as a condition to any agreement with respect to our initial business combination.

Each of our officers and directors presently has, and any of them in the future may have additional, fiduciary, contractual or other obligations or duties to one or more other entities pursuant to which such officer or director is or may be required to present a business combination opportunity to such entities. Accordingly, if any of our officers or directors becomes aware of a business combination opportunity which is suitable for an entity to which he or she has then current fiduciary or contractual obligations, he or she may be required to honor his or her fiduciary or contractual obligations to present such business combination opportunity to such other entity. Our amended and restated memorandum and articles of association provide that, to the fullest extent permitted by law: (i) no individual serving as a director or an officer, among other persons, shall have any duty, except and to the extent expressly assumed by contract, to refrain from engaging directly or indirectly in the same or similar business activities or lines of business as us, and (ii) we renounce any interest or expectancy in, or in being offered an opportunity to participate in, any potential transaction or matter which (a) may be a corporate opportunity for any director or officer, on the one hand, and us, on the other or (b) the presentation of which would breach an existing legal obligation of a director or officer to any other entity. As a result, the fiduciary duties or contractual obligations of our officers or directors could materially affect our ability to complete our initial business combination.

In addition, our sponsor and our officers and directors may sponsor or form other special purpose acquisition companies similar to ours or may pursue other business or investment ventures during the period in which we are seeking an initial business combination. As a result, our sponsor, officers and directors could have conflicts of interest in determining whether to present business combination opportunities to us or to any other special purpose acquisition company with which they may become involved. Any such companies, businesses or investments may present additional conflicts of interest in pursuing an initial business combination target, which could materially affect our ability to complete our initial business combination. The other entities to which our officers and directors currently owe fiduciary duties or contractual obligations are not themselves in the business of engaging in business combinations. In order to minimize potential conflicts of interest which may arise from multiple affiliations with SPACs, unless a business combination opportunity is expressly offered to us or to one of our directors or officers solely in his or her capacity as our director and/or officer and such opportunity is one we are permitted to undertake and would otherwise be reasonable for us to pursue, subject to their other legal obligations, we expect that our officers and directors who are also officers and/or directors of other SPACs will present suitable target businesses to us and the other applicable SPACs based on which SPAC went public first and taking into account any contractual restrictions applicable to each such SPAC and other reasonable considerations (including but not limited to the relative sizes of the SPACs and the amount in trust compared to the sizes of the targets, the need or desire for additional financings, the amount of time required to complete a business combination and the relevant experience of the directors and officers involved with a particular blank check company).

On or prior to the date of this prospectus, we have filed a Registration Statement on Form 8-A with the SEC to voluntarily register our securities under Section 12 of the Securities Exchange Act of 1934, as amended, or the Exchange Act. As a result, we are subject to the rules and regulations promulgated under the Exchange Act. We have no current intention of filing a Form 15 to suspend our reporting or other obligations under the Exchange Act prior or subsequent to the consummation of our initial business combination.

Sourcing of Potential Business Combination Targets

We believe our management team's significant operating and transaction experience and relationships will provide us with a substantial number of potential initial business combination targets. Over the course of their careers, the members of our management team and our advisor have developed a broad network of contacts and corporate relationships around the world. This network has grown through the activities of our management team and advisor sourcing, acquiring and financing businesses, the reputation of our management team for integrity and fair dealing with sellers, financing sources and target management teams and the experience of our management team in executing transactions under varying economic and financial market conditions.

This network has provided our management team with a flow of referrals that has resulted in numerous transactions which were proprietary or where a limited group of investors were invited to participate in the sale process. We believe that the network of contacts and relationships of our management team will provide us important sources of investment opportunities. In addition, we anticipate that target business combination candidates will be brought to our attention from various unaffiliated sources, including investment market participants, private equity funds and large business enterprises seeking to divest non-core assets or divisions.

We have not contacted any of the prospective target businesses that our management team in their prior SPACs had considered and rejected as target businesses to acquire. However, we may contact such targets subsequent to the closing of this offering if we become aware that such targets are interested in a potential initial business combination with us and such transaction would be attractive to our shareholders. Accordingly, there is no current basis for investors in this offering to evaluate the possible merits or risks of the target business with which we may ultimately complete our initial business combination.

We are not prohibited from pursuing an initial business combination with a company that is affiliated with our sponsor, officers or directors or completing the business combination through a joint venture or other form of shared ownership with our sponsor, officers or directors. In the event we seek to complete our initial business combination with a company that is affiliated (as defined in our amended and restated memorandum and articles of association) with our sponsor (including its members), officers or directors, we, or a committee of independent directors, will obtain an opinion from an independent investment banking firm or another independent entity that commonly renders valuation opinions, stating that the consideration to be paid by us in such an initial business combination is fair to our company from a financial point of view. We are not required to obtain such an opinion in any other context.

Members of our management team and our independent directors will directly or indirectly own founder shares and/or private warrants following this offering and, accordingly, may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination. Further, each of our officers and directors may have a conflict of interest with respect to evaluating a particular business combination if the retention or resignation of any such officers and directors was included by a target business as a condition to any agreement with respect to our initial business combination.

Each of our officers and directors presently has, and any of them in the future may have additional, fiduciary, contractual or other obligations or duties to one or more other entities pursuant to which such officer or director is or will be required to present a business combination opportunity to such entities. Accordingly, if any of our officers or directors becomes aware of a business combination opportunity which is suitable for an entity to which he or she has then current fiduciary or contractual obligations, he or she may be required to honor his or her fiduciary or contractual obligations to present such business combination opportunity to such other entity. Our amended and restated memorandum and articles of association provide that, to the fullest extent permitted by law: (i) no individual serving as a director or an officer, among other persons, shall have any duty, except and to the extent expressly assumed by contract, to refrain from engaging directly or indirectly in the same or similar business activities or lines of business as us, and (ii) we renounce any interest or expectancy in, or in being offered an opportunity to participate in, any potential transaction or matter which (a) may be a corporate opportunity for any director or officer, on the one hand, and us, on the other or (b) the presentation of which would breach an existing legal obligation of a director or officer to any other entity. As a result, the fiduciary duties or contractual obligations of our officers or directors could materially affect our ability to complete our initial business combination.

In addition, our sponsor and our officers and directors may sponsor or form other special purpose acquisition companies similar to ours or may pursue other business or investment ventures during the period in which we are seeking an initial business combination. As a result, our sponsor, officers and directors could have conflicts of interest in determining whether to present business combination opportunities to us or to any other special purpose acquisition company with which they may become involved. Any such companies, businesses or investments may present additional conflicts of interest in pursuing an initial business combination target, which could materially affect our ability to complete our initial business combination. The other entities to which our officers and directors currently owe fiduciary duties or contractual obligations are not themselves in the business of engaging in business combinations. In order to minimize potential conflicts of interest which may arise from multiple affiliations with SPACs, unless a business combination opportunity is expressly offered to us or to one of our directors or officers solely in his or her capacity as our director and/or officer and such opportunity is one we are permitted to undertake and would otherwise be reasonable for us to pursue, subject to their other legal obligations, we expect that our officers and directors who are also officers and/or directors of other SPACs will present suitable target businesses to us and the other applicable SPACs based on which SPAC went public first and taking into account any contractual restrictions applicable to each such SPAC and other reasonable considerations (including but not limited to the relative sizes of the SPACs and the amount in trust compared to the sizes of the targets, the need or desire for additional financings, the amount of time required to complete a business combination and the relevant experience of the directors and officers involved with a particular blank check company).

On or prior to the date of this prospectus, we have filed a Registration Statement on Form 8-A with the SEC to voluntarily register our securities under Section 12 of the Securities Exchange Act of 1934, as amended, or the Exchange Act. As a result, we are subject to the rules and regulations promulgated under the Exchange Act. We have no current intention of filing a Form 15 to suspend our reporting or other obligations under the Exchange Act prior or subsequent to the consummation of our initial business combination.

Status as a Public Company

We believe our structure will make us an attractive business combination partner to target businesses. As an existing public company, we offer a target business an alternative to the traditional initial public offering through a merger or other business combination with us. In a business combination transaction with us, the owners of the target business may, for example, exchange their shares of stock or shares in the target business for our Class A ordinary shares (or shares of a new holding company) or for a combination of our Class A ordinary shares and cash, allowing us to tailor the consideration to the specific needs of the sellers. We believe target businesses will find this method a more expeditious and cost effective method to becoming a public company than the typical initial public offering. The typical initial public offering process takes a significantly longer period of time than the typical business combination transaction process, and there are significant expenses and market and other uncertainties in the initial public offering process, including underwriting discounts and commissions, marketing and road show efforts that may not be present to the same extent in connection with a business combination with us.

Furthermore, once a proposed initial business combination is completed, the target business will have effectively become public, whereas an initial public offering is always subject to the underwriters' ability to complete the offering, as well as general market conditions, which could delay or prevent the offering from occurring or could have negative valuation consequences. Following an initial business combination, we believe the target business would then have greater access to capital, an additional means of providing management incentives consistent with shareholders' interests and the ability to use its shares as currency for acquisitions. Being a public company can offer further benefits by augmenting a company's profile among potential new customers and vendors and aid in attracting talented employees.

While we believe that our structure and our management team's backgrounds will make us an attractive business partner, some potential target businesses may view our status as a blank check company, such as our lack of an operating history and our ability to seek shareholder approval of any proposed initial business combination, negatively.

We are an "emerging growth company," as defined in the JOBS Act. We will remain an emerging growth company until the earlier of (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of this offering, (b) in which we have total annual gross revenue of at least \$1.235 billion, or (c) in which we are deemed to be a large accelerated filer, which means the market value of our Class A ordinary shares that is held by non-affiliates exceeds \$700 million as of the prior June 30, and (2) the date on which we have issued more than \$1.0 billion in non-convertible debt securities during the prior three-year period.

Additionally, we are a “smaller reporting company” as defined in Item 10(f)(1) of Regulation S-K. Smaller reporting companies may take advantage of certain reduced disclosure obligations, including, among other things, providing only two years of audited financial statements. We will remain a smaller reporting company until the last day of the fiscal year in which (1) the market value of our ordinary shares held by non-affiliates is equal to or exceeds \$250 million as of the prior June 30, or (2) our annual revenues equaled or exceeded \$100 million during such completed fiscal year and the market value of our ordinary shares held by non-affiliates is equal to or exceeds \$700 million as of the prior June 30th.

In addition, after completion of this offering and prior to the consummation of a business combination, only holders of our Class B ordinary shares will have the right to vote on the appointment or removal of directors. As a result, Nasdaq will consider us to be a “controlled company” within the meaning of Nasdaq corporate governance standards. Under Nasdaq corporate governance standards, a company of which more than 50% of the voting power for the appointment of directors is held by an individual, group or another company is a “controlled company” and may elect not to comply with certain corporate governance requirements. We currently do not intend to rely on the “controlled company” exemption, but may do so in the future. Accordingly, if we choose to do so, you will not have the same protections afforded to shareholders of companies that are subject to all of the Nasdaq corporate governance requirements.

Financial Position

With funds available for a business combination initially in the amount of \$195,000,000 after payment of \$5,000,000 of deferred underwriting fees (or \$224,250,000 assuming no redemptions and after payment of \$5,750,000 of deferred underwriting fees if the underwriters’ over-allotment option is exercised in full), we offer a target business a variety of options, such as creating a liquidity event for its owners, providing capital for the potential growth and expansion of its operations or strengthening its balance sheet by reducing its debt ratio. Because we are able to complete our initial business combination using our cash, debt or equity securities, or a combination of the foregoing, we have the flexibility to use the most efficient combination that will allow us to tailor the consideration to be paid to the target business to fit its needs and desires. However, we have not taken any steps to secure third party financing and there can be no assurance it will be available to us.

EFFECTING OUR INITIAL BUSINESS COMBINATION

General

We are not presently engaged in, and we will not engage in, any operations for an indefinite period of time following this offering. We intend to effectuate our initial business combination using cash from the proceeds of this offering and the private placement of the private warrants, the proceeds of the sale of our shares in connection with our initial business combination (including pursuant to forward purchase agreements or backstop agreements we may enter into following the consummation of this offering or otherwise), shares issued to the owners of the target, debt issued to bank or other lenders or the owners of the target, other securities issuances, or a combination of the foregoing. We may seek to complete our initial business combination with a company or business that may be financially unstable or in its early stages of development or growth, which would subject us to the numerous risks inherent in such companies and businesses.

If our initial business combination is paid for using equity or debt securities, or not all of the funds released from the trust account are used for payment of the consideration in connection with our initial business combination or used for redemptions of our Class A ordinary shares, we may use the balance of the cash released to us from the trust account following the closing for general corporate purposes, including for maintenance or expansion of operations of the post-transaction company, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, to fund the purchase of other companies, or for working capital.

We have not selected any business combination target and we have not, nor has anyone on our behalf, engaged in any substantive discussions, directly or indirectly, with any business combination target. We may pursue an initial business combination in any business or industry. Accordingly, there is no current basis for investors in this offering to evaluate the possible merits or risks of the target business with which we may ultimately complete our initial business combination. Although our management will assess the risks inherent in a particular target business with which we may combine, we cannot assure you that this assessment will result in our identifying all risks that a target business may encounter. Furthermore, some of those risks may be outside of our control, meaning that we can do nothing to control or reduce the chances that those risks will adversely affect a target business.

We may seek to raise additional funds through a private offering of debt or equity securities in connection with the completion of our initial business combination and we may effectuate our initial business combination using the proceeds of such offering rather than using the amounts held in the trust account. In addition, we intend to target businesses with enterprise values that are greater than we could acquire with the net proceeds of this offering and the sale of the private warrants, and, as a result, if the cash portion of the purchase price exceeds the amount available from the trust account, net of amounts needed to satisfy any redemptions by public shareholders, we may be required to seek additional financing to complete such proposed initial business combination. Subject to compliance with applicable securities laws, we would expect to complete such financing only simultaneously with the completion of our initial business combination. In the case of an initial business combination funded with assets other than the trust account assets, our proxy materials or tender offer documents disclosing the initial business combination would disclose the terms of the financing and, only if required by law, we would seek shareholder approval of such financing. There is no limitation on our ability to raise funds through the issuance of equity or equity-linked securities or through loans, advances or other indebtedness in connection with our initial business combination, including pursuant to forward purchase agreements or backstop agreements we may enter into following consummation of this offering. At this time, we are not a party to any arrangement or understanding with any third party with respect to raising any additional funds through the sale of securities or otherwise. None of our sponsors, officers, directors or shareholders is required to provide any financing to us in connection with or after our initial business combination.

Sources of Target Businesses

We anticipate that target business candidates will be brought to our attention from various unaffiliated sources, including investment bankers and private investment funds. Target businesses may be brought to our attention by such unaffiliated sources as a result of being solicited by us through calls or mailings. These sources may also introduce us to target businesses in which they think we may be interested on an unsolicited basis, since many of these sources will have read this prospectus and know what types of businesses we are targeting. Our officers and directors, as well as their affiliates, may also bring to our attention target business candidates of which they become aware through their business contacts as a result of formal or informal inquiries or discussions they may have, as well as attending trade shows or conventions. In addition, we expect to receive a number of proprietary deal flow opportunities that would not otherwise necessarily be available to us as a result of the track record and business relationships of our officers and directors. While we do not presently anticipate engaging the services of professional firms or other individuals that specialize in business acquisitions on any formal basis, we may engage these firms or other individuals in the future, in which event we may pay a finder's fee, consulting fee or other compensation to be determined in an arm's length negotiation based on the terms of the transaction.

Prior to or in connection with the completion of our initial business combination, there may be payment by the company to our sponsor, officers or directors, advisors, or our or their affiliates, of a finder's fee, advisory fee, consulting fee or success fee for any services they render in order to effectuate the completion of our initial business, which, if made prior to the completion of our initial business combination, will be paid from funds held outside the trust account.

We will engage a finder only to the extent our management determines that the use of a finder may bring opportunities to us that may not otherwise be available to us or if finders approach us on an unsolicited basis with a potential transaction that our management determines is in our best interest to pursue. Payment of a finder's fee is customarily tied to completion of a transaction, in which case any such fee will be paid out of the funds held in the trust account.

We are not prohibited from pursuing an initial business combination with a company that is affiliated with our sponsor, officers or directors or completing the business combination through a joint venture or other form of shared ownership with our sponsor, officers or directors. In the event we seek to complete our initial business combination with a company that is affiliated (as defined in our amended and restated memorandum and articles of association) with our sponsor (including its members), officers or directors, we, or a committee of independent directors, will obtain an opinion from an independent investment banking firm or another independent entity that commonly renders valuation opinions, stating that the consideration to be paid by us in such an initial business combination is fair to our company from a financial point of view. We are not required to obtain such an opinion in any other context.

Evaluation of a Target Business and Structuring of Our Initial Business Combination

In evaluating a prospective target business, we expect to conduct a due diligence review which may encompass, among other things, meetings with incumbent management and employees, document reviews, interviews of customers and suppliers, inspection of facilities, as applicable, as well as a review of financial, operational, legal and other information which will be made available to us. If we determine to move forward with a particular target, we will proceed to structure and negotiate the terms of the business combination transaction.

The time required to select and evaluate a target business and to structure and complete our initial business combination, and the costs associated with this process, are not currently ascertainable with any degree of certainty. Any costs incurred with respect to the identification and evaluation of, and negotiation with, a prospective target business with which our initial business combination is not ultimately completed will result in our incurring losses and will reduce the funds we can use to complete another business combination.

Lack of Business Diversification

For an indefinite period of time after the completion of our initial business combination, the prospects for our success may depend entirely on the future performance of a single business. Unlike other entities that have the resources to complete business combinations with multiple entities in one or several industries, it is probable that we will not have the resources to diversify our operations and mitigate the risks of being in a single line of business. By completing our initial business combination with only a single entity, our lack of diversification may:

- subject us to negative economic, competitive and regulatory developments, any or all of which may have a substantial adverse impact on the particular industry in which we operate after our initial business combination, and
- cause us to depend on the marketing and sale of a single product or limited number of products or services.

Limited Ability to Evaluate the Target's Management Team

Although we intend to closely scrutinize the management of a prospective target business when evaluating the desirability of effecting our initial business combination with that business, our assessment of the target business's management may not prove to be correct. In addition, the future management may not have the necessary skills, qualifications or abilities to manage a public company. Furthermore, the future role of members of our management team, if any, in the target business cannot presently be stated with any certainty. The determination as to whether any of the members of our management team will remain with the combined company will be made at the time of our initial business combination. While it is possible that one or more of our directors will remain associated in some capacity with us following our initial business combination, it is unlikely that any of them will devote their full efforts to our affairs subsequent to our initial business combination. Moreover, we cannot assure you that members of our management team will have significant experience or knowledge relating to the operations of the particular target business.

We cannot assure you that any of our key personnel will remain in senior management or advisory positions with the combined company. The determination as to whether any of our key personnel will remain with the combined company will be made at the time of our initial business combination.

Following a business combination, we may seek to recruit additional managers to supplement the incumbent management of the target business. We cannot assure you that we will have the ability to recruit additional managers, or that additional managers will have the requisite skills, knowledge or experience necessary to enhance the incumbent management.

Shareholders May Not Have the Ability to Approve our Initial Business Combination

We may conduct redemptions without a shareholder vote pursuant to the tender offer rules of the SEC subject to the provisions of our amended and restated memorandum and articles of association. However, we will seek shareholder approval if it is required by law or applicable stock exchange rule, or we may decide to seek shareholder approval for business or other reasons.

Under Nasdaq's listing rules, shareholder approval would be required for our initial business combination if, for example:

- We issue ordinary shares that will be equal to or in excess of 20% of the number of our ordinary shares then outstanding (other than in a public offering);
- Any of our directors, officers or substantial shareholders (as defined by Nasdaq rules) has a 5% or greater interest earned on the trust account (or such persons collectively have a 10% or greater interest), directly or indirectly, in the target business or assets to be acquired or otherwise and the present or potential issuance of ordinary shares could result in an increase in outstanding ordinary shares or voting power of 5% or more; or
- The issuance or potential issuance of ordinary shares will result in our undergoing a change of control.

The decision as to whether we will seek shareholder approval of a proposed business combination in those instances in which shareholder approval is not required by applicable law or stock exchange listing requirements will be made by us, solely in our discretion, and will be based on business and legal reasons, which include a variety of factors, including, but not limited to: (i) the timing of the transaction, including in the event we determine shareholder approval would require additional time and there is either not enough time to seek shareholder approval or doing so would place the company at a disadvantage in the transaction or result in other additional burdens on the company; (ii) the expected cost of holding a shareholder vote; (iii) the risk that the shareholders would fail to approve the proposed business combination; (iv) other time and budget constraints of the company; and (v) additional legal complexities of a proposed business combination that would be time-consuming and burdensome to present to shareholders.

Permitted Purchases of Our Securities

If we seek shareholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our sponsor, initial shareholders, directors, officers, advisor and their affiliates may purchase public shares or warrants in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination, although they are under no obligation or duty to do so. Such a purchase may include a contractual acknowledgment that such shareholder, although still the record holder of our shares is no longer the beneficial owner thereof and therefore agrees not to exercise its redemption rights. In the event that our sponsor, initial shareholders, directors, officers, advisor and their affiliates purchase shares in privately negotiated transactions from public shareholders who have already elected to exercise their redemption rights, such selling shareholders would be required to revoke their prior elections to redeem their shares. It is intended that, if Rule 10b-18 would apply to purchases by sponsor, initial shareholders, directors, officers, advisor and their affiliates, then such purchases will comply with Rule 10b-18 under the Exchange Act, to the extent it applies, which provides a safe harbor for purchases made under certain conditions, including with respect to timing, pricing and volume of purchases.

Additionally, at any time at or prior to our initial business combination, subject to applicable securities laws (including with respect to material nonpublic information), our sponsor, initial shareholders, directors, officers, advisor and their affiliates may enter into transactions with investors and others to provide them with incentives to acquire public shares, vote their public shares in favor of our initial business combination or not redeem their public shares. However, they have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions. None of the funds in the trust account will be used to purchase public shares or warrants in such transactions.

The purpose of any such transactions could be to (1) increase the likelihood of obtaining shareholder approval of the business combination, (2) reduce the number of public warrants outstanding and/or increase the likelihood of approval on any matters submitted to the public warrant holders for approval in connection with our initial business combination or (3) satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of our initial business combination, where it appears that such requirement would otherwise not be met. Any such purchases of our securities may result in the completion of our initial business combination that may not otherwise have been possible. To the extent such securities are purchased, such public securities will be not be voted as required by Tender Offers and Schedules Compliance and Disclosure Interpretations Question 166.01 promulgated by the SEC.

In addition, if such purchases are made, the public “float” of our securities may be reduced and the number of beneficial holders of our securities may be reduced, which may make it difficult to maintain or obtain the quotation, listing or trading of our securities on a national securities exchange.

Our sponsor, initial shareholders, directors, officers, advisor and their affiliates anticipate that they may identify the shareholders with whom our sponsor, initial shareholders, directors, officers, advisor and their affiliates may pursue privately negotiated transactions by either the shareholders contacting us directly or by our receipt of redemption requests submitted by shareholders (in the case of Class A ordinary shares) following our mailing of proxy materials in connection with our initial business combination. To the extent that our sponsor, initial shareholders, directors, officers, advisor and their affiliates enter into a private transaction, they would identify and contact only potential selling or redeeming shareholders who have expressed their election to redeem their shares for a pro rata share of the trust account or vote against our initial business combination, whether or not such shareholder has already submitted a proxy with respect to our initial business combination but only if such shares have not already been voted at the general meeting related to our initial business combination. Our sponsor, initial shareholders, directors, officers, advisor and their affiliates will select which shareholders to purchase shares from based on the negotiated price and number of shares and any other factors that they may deem relevant, and will be restricted from purchasing shares if such purchases do not comply with Regulation M under the Exchange Act and the other federal securities laws.

Our sponsor, initial shareholders, directors, officers, advisor and their affiliates will be restricted from making purchases of shares if the purchases would violate Section 9(a)(2) or Rule 10b-5 of the Exchange Act. Any such purchases will be reported pursuant to Section 13 and Section 16 of the Exchange Act to the extent such purchasers are subject to such reporting requirements. Additionally, in the event our sponsor, initial shareholders, directors, officers, advisor and their affiliates were to purchase public shares or warrants from public shareholders, such purchases would be structured in compliance with the requirements of Rule 14e-5 under the Exchange Act including, in pertinent part, through adherence to the following:

- our registration statement/proxy statement filed for our business combination transaction would disclose the possibility that our sponsor, initial shareholders, directors, officers, advisor and their affiliates may purchase public shares or warrants from public shareholders outside the redemption process, along with the purpose of such purchases;
- if our sponsor, initial shareholders, directors, officers, advisor and their affiliates were to purchase public shares or warrants from public shareholders, they would do so at a price no higher than the price offered through our redemption process;
- our registration statement/proxy statement filed for our business combination transaction would include a representation that any of our securities purchased by our sponsor, initial shareholders, directors, officers, advisor and their affiliates would not be voted in favor of approving the business combination transaction;
- our sponsor, initial shareholders, directors, officers, advisor and their affiliates would not possess any redemption rights with respect to our securities or, if they do acquire and possess redemption rights, they would waive such rights; and
- we would disclose in a Form 8-K, before our security holder meeting to approve the business combination transaction, the following material items:
 - the amount of our securities purchased outside of the redemption offer by our sponsor, initial shareholders, directors, officers, advisor and their affiliates, along with the purchase price;
 - the purpose of the purchases by our sponsor, initial shareholders, directors, officers, advisor and their affiliates;
 - the impact, if any, of the purchases by our sponsor, initial shareholders, directors, officers, advisor and their affiliates on the likelihood that the business combination transaction will be approved;

- the identities of our security holders who sold to our sponsor, initial shareholders, directors, officers, advisor and their affiliates (if not purchased on the open market) or the nature of our security holders (e.g., 5% security holders) who sold to our sponsor, initial shareholders, directors, officers, advisor and their affiliates; and
- the number of our securities for which we have received redemption requests pursuant to our redemption offer.

See “Risk Factors — Risks Relating to Our Search for, and Consummation of or Inability to Consummate, a Business Combination — If we seek shareholder approval of our initial business combination, our sponsor, initial shareholders, directors, officers, advisor and their respective affiliates may elect to purchase shares or public warrants from public shareholders, which may influence a vote on a proposed business combination and reduce the public “float” of our Class A ordinary shares or public warrants.”

Redemption Rights for Public Shareholders upon Completion of Our Initial Business Combination

We will provide our public shareholders with the opportunity to redeem all or a portion of their Class A ordinary shares, regardless of whether they abstain, vote for, or vote against, our initial business combination, upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account calculated as of two business days prior to the consummation of the initial business combination, including interest earned on the funds held in the trust account (less taxes payable), divided by the number of then outstanding public shares, subject to the limitations and on the conditions described herein. The amount in the trust account is initially anticipated to be \$10.00 per public share. The per share amount we will distribute to investors who properly redeem their shares will not be reduced by the deferred underwriting commissions we will pay to the underwriters. Our sponsor, officers and directors have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to their founder shares and any public shares they may hold in connection with the completion of our initial business combination.

Our proposed initial business combination may impose a minimum cash requirement for (i) cash consideration to be paid to the target or its owners, (ii) cash for working capital or other general corporate purposes or (iii) the retention of cash to satisfy other conditions. In the event the aggregate cash consideration we would be required to pay for all Class A ordinary shares that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed initial business combination exceed the aggregate amount of cash available to us, we will not complete the initial business combination or redeem any shares, and all Class A ordinary shares submitted for redemption will be returned to the holders thereof. We may, however, raise funds through the issuance of equity-linked securities or through loans, advances or other indebtedness in connection with our initial business combination, including pursuant to forward purchase agreements or backstop arrangements we may enter into following consummation of this offering, in order to, among other reasons, satisfy such net tangible assets or minimum cash requirements.

Manner of Conducting Redemptions

We will provide our public shareholders with the opportunity to redeem all or a portion of their Class A ordinary shares upon the completion of our initial business combination either (i) in connection with a general meeting called to approve the business combination or (ii) without a shareholder vote by means of a tender offer. The decision as to whether we will seek shareholder approval of a proposed business combination or conduct a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors such as the timing of the transaction and whether the terms of the transaction would require us to seek shareholder approval under applicable law or stock exchange listing requirement or whether we were deemed to be a foreign private issuer (which would require a tender offer rather than seeking shareholder approval under SEC rules), as described above under the heading “—*Shareholders May Not Have the Ability to Approve Our Initial Business Combination.*” Asset acquisitions and share purchases would not typically require shareholder approval while direct mergers with our company (other than with a 90% subsidiary of ours) and any transactions where we issue more than 20% of our issued and outstanding ordinary shares or seek to amend our amended and restated memorandum and articles of association would require shareholder approval. So long as we obtain and maintain a listing for our securities on Nasdaq, we will be required to comply with Nasdaq’s shareholder approval rules.

The requirement that we provide our public shareholders with the opportunity to redeem their public shares by one of the two methods listed above are contained in provisions of our amended and restated memorandum and articles of association and will apply whether or not we maintain our registration under the Exchange Act or our listing on Nasdaq. Such provisions may be amended if approved by a special resolution, which requires the affirmative vote of at least two-thirds of the company’s shareholders as, being entitled to do so, attend and vote (whether in person or by proxy) at a general meeting of the company of which notice specifying the intention to propose the resolution as a special resolution has been duly given, or a unanimous written resolution of all of the company’s shareholders entitled to vote on such matter.

If we provide our public shareholders with the opportunity to redeem their public shares in connection with a general meeting, we will, pursuant to our amended and restated memorandum and articles of association:

- conduct the redemptions in conjunction with a proxy solicitation pursuant to Regulation 14A of the Exchange Act, which regulates the solicitation of proxies, and not pursuant to the tender offer rules, and
- file proxy materials with the SEC.

In the event that we seek shareholder approval of our initial business combination, we will distribute proxy materials and, in connection therewith, provide our public shareholders with the redemption rights described above upon completion of the initial business combination.

If we seek shareholder approval, we will complete our initial business combination only if we receive an ordinary resolution under Cayman Islands law and our amended and restated memorandum and articles of association, which requires the affirmative vote of a majority of the company's shareholders as, being entitled to do so, attend and vote (whether in person or by proxy) at a general meeting of the company. A quorum for such meeting will be present if the holders of at least one-third of issued and outstanding shares entitled to vote at the meeting are represented in person or by proxy. Our sponsor, officers and directors will count toward this quorum and, pursuant to the letter agreement, our sponsor, officers and directors have agreed to vote their founder shares and any public shares purchased during or after this offering (including in open market and privately-negotiated transactions), (except that any public shares such parties may purchase in compliance with the requirements of Rule 14e-5 under the Exchange Act would not be voted in favor of approving the business combination transaction). For purposes of seeking approval of an ordinary resolution, non-votes will have no effect on the approval of our initial business combination once a quorum is obtained. As a result, in addition to our founder shares, we would need 7,500,001 public shares, or 37.5% of the 20,000,000 public shares sold in this offering, to be voted in favor of an initial business combination in order to have our initial business combination approved, assuming all outstanding shares are voted, the over-allotment option is not exercised and the parties to the letter agreement do not acquire any Class A ordinary shares. Assuming that only the holders of one-third of our issued and outstanding ordinary shares, representing a quorum under our amended and restated memorandum and articles of association vote their shares at a general meeting of the company, we will not need any public shares in addition to our founder shares to be voted in favor of an initial business combination in order to approve an initial business combination. However, if our initial business combination is structured as a statutory merger or consolidation of the company with another company under Cayman Islands law, the approval of our initial business combination will require a special resolution, which requires the affirmative vote of at least two-thirds of the company's shareholders as, being entitled to do so, attend and vote (whether in person or by proxy) at a general meeting of the company of which notice specifying the intention to propose the resolution as a special resolution has been duly given, or a unanimous written resolution of all of the company's shareholders entitled to vote on such matter. In addition, prior to the closing of our initial business combination, only holders of our Class B ordinary shares (i) will have the right to appoint and remove directors prior to the completion of our initial business combination and (ii) will be entitled to vote on continuing our company in a jurisdiction outside the Cayman Islands (including any special resolution required to amend our constitutional documents or to adopt new constitutional documents, in each case, as a result of our approving a transfer by way of continuation in a jurisdiction outside the Cayman Islands). These quorum and voting thresholds, and the voting agreement of our sponsor, officers and directors, may make it more likely that we will consummate our initial business combination. Each public shareholder may elect to redeem their public shares irrespective of whether they vote for or against the proposed transaction, or whether they do not vote or abstain from voting on the proposed transaction, or whether they were a public shareholder on the record date for the general meeting held to approve the proposed transaction.

If a shareholder vote is not required and we do not decide to hold a shareholder vote for business or other legal reasons, we will:

- conduct the redemptions pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, which regulate issuer tender offers, and
- file tender offer documents with the SEC prior to completing our initial business combination which contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under Regulation 14A of the Exchange Act, which regulates the solicitation of proxies.

In the event we conduct redemptions pursuant to the tender offer rules, our offer to redeem will remain open for at least 20 business days, in accordance with Rule 14e-1(a) under the Exchange Act, and we will not be permitted to complete our initial business combination until the expiration of the tender offer period. In addition, the tender offer will be conditioned on public shareholders not tendering more than the number of public shares we are permitted to redeem. If public shareholders tender more shares than we have offered to purchase, we will withdraw the tender offer and not complete the initial business combination.

Upon the public announcement of our initial business combination, if we elect to conduct redemption pursuant to the tender offer rules, we or our sponsor will terminate any plan established in accordance with Rule 10b5-1 to purchase our Class A ordinary shares in the open market, in order to comply with Rule 14e-5 under the Exchange Act.

We intend to require our public shareholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in “street name,” to, at the holder’s option, either deliver their share certificates (if any) to our transfer agent or deliver their shares to our transfer agent electronically using the Depository Trust Company’s DWAC (Deposit/Withdrawal At Custodian) system, prior to the date set forth in the proxy materials or tender offer documents, as applicable. In the case of proxy materials, this date may be up to two business days prior to the scheduled vote on the proposal to approve the initial business combination. In addition, if we conduct redemptions in connection with a shareholder vote, we intend to require a public shareholder seeking redemption of its public shares to also submit a written request for redemption to our transfer agent two business days prior to the scheduled vote in which the name of the beneficial owner of such shares is included. The proxy materials or tender offer documents, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will indicate whether we are requiring public shareholders to satisfy such delivery requirements. We believe that this will allow our transfer agent to efficiently process any redemptions without the need for further communication or action from the redeeming public shareholders, which could delay redemptions and result in additional administrative cost. If the proposed initial business combination is not approved and we continue to search for a target company, we will promptly return any certificates or shares delivered by public shareholders who elected to redeem their shares.

Our proposed initial business combination may impose a minimum cash requirement for (i) cash consideration to be paid to the target or its owners, (ii) cash for working capital or other general corporate purposes or (iii) the retention of cash to satisfy other conditions. In the event the aggregate cash consideration we would be required to pay for all Class A ordinary shares that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed initial business combination exceed the aggregate amount of cash available to us, we will not complete the initial business combination or redeem any shares, and all Class A ordinary shares submitted for redemption will be returned to the holders thereof. We may, however, raise funds through the issuance of equity or equity-linked securities or through loans, advances or other indebtedness in connection with our initial business combination, including pursuant to forward purchase agreements or backstop arrangements we may enter into following consummation of this offering, in order to, among other reasons, satisfy such net tangible assets or minimum cash requirements.

Limitation on Redemption Upon Completion of Our Initial Business Combination If We Seek Shareholder Approval

If we seek shareholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated memorandum and articles of association provide that a public shareholder, together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from seeking redemption rights with respect to Excess Shares without our prior consent. We believe this restriction will discourage shareholders from accumulating large blocks of shares, and subsequent attempts by such holders to use their ability to exercise their redemption rights against a proposed business combination as a means to force us or our management to purchase their shares at a significant premium to the then-current market price or on other undesirable terms. Absent this provision, a public shareholder holding more than an aggregate of 15% of the shares sold in this offering could threaten to exercise its redemption rights if such holder’s shares are not purchased by us, our sponsor or our management at a premium to the then-current market price or on other undesirable terms. By limiting our shareholders’ ability to redeem no more than 15% of the shares sold in this offering without our prior consent, we believe we will limit the ability of a small group of shareholders to unreasonably attempt to block our ability to complete our initial business combination, particularly in connection with a business combination with a target that requires as a closing condition that we have a minimum net worth or a certain amount of cash.

However, we would not be restricting our shareholders’ ability to vote all of their shares (including Excess Shares) for or against our initial business combination.

Delivering Share Certificates (if any) in Connection with the Exercise of Redemption Rights

As described above, we intend to require our public shareholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in “street name,” to, at the holder’s option, either deliver their share certificates (if any) to our transfer agent or deliver their shares to our transfer agent electronically using the Depository Trust Company’s DWAC (Deposit/Withdrawal At Custodian) system, prior to the date set forth in the proxy materials or tender offer documents, as applicable. In the case of proxy materials, this date may be up to two business days prior to the scheduled vote on the proposal to approve the initial business combination. In addition, if we conduct redemptions in connection with a shareholder vote, we intend to require a public shareholder seeking redemption of its public shares to also submit a written request for redemption to our transfer agent two business days prior to the scheduled vote in which the name of the beneficial owner of such shares is included. The proxy materials or tender offer documents, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will indicate whether we are requiring public shareholders to satisfy such delivery requirements. Accordingly, a public shareholder would have up to two business days prior to the scheduled vote on the initial business combination if we distribute proxy materials, or from the time we send out our tender offer materials until the close of the tender offer period, as applicable, to submit or tender its shares if it wishes to seek to exercise its redemption rights. In the event that a shareholder fails to comply with these or any other procedures disclosed in the proxy or tender offer materials, as applicable, its shares may not be redeemed. Given the relatively short exercise period, it is advisable for shareholders to use electronic delivery of their public shares.

There is a nominal cost associated with the above-referenced process and the act of certificating the shares or delivering them through the DWAC system. The transfer agent will typically charge the broker submitting or tendering shares a fee of approximately \$100 and it would be up to the broker whether or not to pass this cost on to the redeeming holder. However, this fee would be incurred regardless of whether or not we require holders seeking to exercise redemption rights to submit or tender their shares. The need to deliver shares is a requirement of exercising redemption rights regardless of the timing of when such delivery must be effectuated.

Any request to redeem such shares, once made, may be withdrawn at any time up to the date set forth in the proxy materials or tender offer documents, as applicable. Furthermore, if a holder of a public share delivered its certificate in connection with an election of redemption rights and subsequently decides prior to the applicable date not to elect to exercise such rights, such holder may simply request that the transfer agent return the certificate (physically or electronically). It is anticipated that the funds to be distributed to holders of our public shares electing to redeem their shares will be distributed promptly after the completion of our initial business combination.

If our initial business combination is not approved or completed for any reason, then our public shareholders who elected to exercise their redemption rights would not be entitled to redeem their shares for the applicable pro rata share of the trust account. In such case, we will promptly return any certificates delivered by public holders who elected to redeem their shares.

If our initial proposed business combination is not completed, we may continue to try to complete a business combination with a different target until the end of the completion window.

Redemption of Public Shares and Liquidation if No Initial Business Combination

Our amended and restated memorandum and articles of association provide that we will have only the duration of the completion window to complete our initial business combination. If we have not completed our initial business combination within such time period, we will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter (and subject to lawfully available funds therefor), redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account (which interest shall be net of taxes and less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then-outstanding public shares, which redemption will completely extinguish public shareholders’ rights as shareholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining shareholders and our board of directors, liquidate and dissolve, subject in each case to our obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to our warrants, which will expire worthless if we fail to complete our initial business combination within the completion window.

Our sponsor, officers and directors have entered into a letter agreement with us, pursuant to which they have waived their rights to liquidating distributions from the trust account with respect to any founder shares held by them if we fail to complete our initial business combination within the completion window, although they will be entitled to liquidating distributions from assets outside the trust account. However, if our sponsor or management team acquire public shares in or after this offering, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to complete our initial business combination within the allotted completion window.

Our sponsor, officers and directors have agreed, pursuant to a written agreement with us, that they will not propose any amendment to our amended and restated memorandum and articles of association (A) to modify the substance or timing of our obligation to allow redemption in connection with our initial business combination or to redeem 100% of our public shares if we do not complete our initial business combination within the completion window or (B) with respect to any other material provisions relating to shareholders' rights or pre-initial business combination activity, in each case unless we provide our public shareholders with the opportunity to redeem their public shares upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account (less taxes payable), divided by the number of then outstanding public shares.

We expect that all costs and expenses associated with implementing our plan of dissolution, as well as payments to any creditors, will be funded from amounts remaining out of the approximately \$1,250,000 of proceeds held outside the trust account, although we cannot assure you that there will be sufficient funds for such purpose. However, if those funds are not sufficient to cover the costs and expenses associated with implementing our plan of dissolution, to the extent that there is any interest accrued in the trust account not required to pay taxes on interest income earned on the trust account balance, we may request the trustee to release to us an additional amount of up to \$100,000 of such accrued interest to pay those costs and expenses.

If we were to expend all of the net proceeds of this offering and the sale of the private warrants, other than the proceeds deposited in the trust account, and without taking into account interest, if any, earned on the trust account, the per-share redemption amount received by shareholders upon our dissolution would be approximately \$10.00. The proceeds deposited in the trust account could, however, become subject to the claims of our creditors which would have higher priority than the claims of our public shareholders. We cannot assure you that the actual per-share redemption amount received by shareholders will not be substantially less than \$10.00. While we intend to pay such amounts, if any, we cannot assure you that we will have funds sufficient to pay or provide for all creditors' claims.

Although we will seek to have all vendors, service providers, prospective target businesses and other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account for the benefit of our public shareholders, there is no guarantee that they will execute such agreements or even if they execute such agreements that they would be prevented from bringing claims against the trust account including but not limited to fraudulent inducement, breach of fiduciary responsibility or other similar claims, as well as claims challenging the enforceability of the waiver, in each case in order to gain an advantage with respect to a claim against our assets, including the funds held in the trust account. If any third party refuses to execute an agreement waiving such claims to the monies held in the trust account, our management will consider whether competitive alternatives are reasonably available to us and will only enter into an agreement with such third party if management believes that such third party's engagement would be in the best interests of the company under the circumstances. Examples of possible instances where we may engage a third party that refuses to execute a waiver include the engagement of a third party consultant whose particular expertise or skills are believed by management to be significantly superior to those of other consultants that would agree to execute a waiver or in cases where management is unable to find a service provider willing to execute a waiver. WithumSmith+Brown, PC, our independent registered public accounting firm, and the underwriters of this offering will not execute agreements with us waiving such claims to the monies held in the trust account. In addition, there is no guarantee that such entities will agree to waive any claims they may have in the future as a result of, or arising out of, any negotiations, contracts or agreements with us and will not seek recourse against the trust account for any reason. In order to protect the amounts held in the trust account, our sponsor has agreed that it will be liable to us if and to the extent any claims by a third party for services rendered or products sold to us (except for the Company's independent auditors), or a prospective target business with which we have entered into a written letter of intent, confidentiality or other similar agreement or business combination agreement, reduce the amount of funds in the trust account to below the lesser of (i) \$10.00 per public share and (ii) the actual amount per public share held in the trust account as of the date of the liquidation of the trust account, if less than \$10.00 per share due to reductions in the value of the trust assets, less taxes paid or payable and up to \$100,000 to pay dissolution expenses, provided that such liability will not apply to any claims by a third party or prospective target business who executed a waiver of any and all rights to the monies held in the trust account (whether or not such waiver is enforceable) nor will it apply to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. However, we have not asked our sponsor to reserve for such indemnification obligations, nor have we independently verified whether our sponsor has sufficient funds to satisfy its indemnity obligations and we believe that our sponsor's only assets are securities of our company. Therefore, we cannot assure you that our sponsor would be able to satisfy those obligations. As a result, if any such claims were successfully made against the trust account, the funds available for our initial business combination and redemptions could be reduced to less than \$10.00 per public share. In such event, we may not be able to complete our initial business combination, and you would receive such lesser amount per share in connection with any redemption of your public shares. None of our officers or directors will indemnify us for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

In the event that the proceeds in the trust account are reduced below the lesser of (i) \$10.00 per public share and (ii) the actual amount per public share held in the trust account as of the date of the liquidation of the trust account if less than \$10.00 per share due to reductions in the value of the trust assets, in each case less taxes payable, and our sponsor asserts that it is unable to satisfy its indemnification obligations or that it has no indemnification obligations related to a particular claim, our independent directors would determine whether to take legal action against our sponsor to enforce its indemnification obligations. While we currently expect that our independent directors would take legal action on our behalf against our sponsor to enforce its indemnification obligations to us, it is possible that our independent directors in exercising their business judgment may choose not to do so in any particular instance if, for example, the cost of such legal action is deemed by the independent directors to be too high relative to the amount recoverable or if the independent directors determine that a favorable outcome is not likely. Accordingly, we cannot assure you that due to claims of creditors the actual value of the per-share redemption price will not be less than \$10.00 per share.

We will seek to reduce the possibility that our sponsor will have to indemnify the trust account due to claims of creditors by endeavoring to have all vendors, service providers, prospective target businesses or other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to monies held in the trust account. Our sponsor will also not be liable as to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. We will have access to up to approximately \$1,250,000 from the proceeds of this offering with which to pay any such potential claims (including costs and expenses incurred in connection with our liquidation, currently estimated to be no more than approximately \$100,000). In the event that we liquidate and it is subsequently determined that the reserve for claims and liabilities is insufficient, shareholders who received funds from our trust account could be liable for claims made by creditors. In the event that our offering expenses exceed our estimate of \$750,000, we may fund such excess with funds from the funds not to be held in the trust account. In such case, the amount of funds we intend to be held outside the trust account would decrease by a corresponding amount. Conversely, in the event that the offering expenses are less than our estimate of \$750,000, the amount of funds we intend to be held outside the trust account would increase by a corresponding amount.

If we file a bankruptcy or insolvency petition or an involuntary bankruptcy or insolvency petition is filed against us that is not dismissed, the proceeds held in the trust account could be subject to applicable bankruptcy or insolvency law, and may be included in our bankruptcy estate and subject to the claims of third parties with priority over the claims of our shareholders. To the extent any bankruptcy claims deplete the trust account, we cannot assure you we will be able to return \$10.00 per share to our public shareholders. Additionally, if we file a bankruptcy or insolvency petition or an involuntary bankruptcy or insolvency petition is filed against us that is not dismissed, any distributions received by shareholders could be viewed under applicable debtor/creditor and/or bankruptcy/insolvency laws as either a “preferential transfer” or a “fraudulent conveyance, preference or disposition.” As a result, a liquidator or bankruptcy or other court could seek to recover some or all amounts received by our shareholders. Furthermore, our board of directors may be viewed as having breached its fiduciary duty to us or our creditors and/or may have acted in bad faith, and thereby exposing itself and our company to claims of punitive damages, by paying public shareholders from the trust account prior to addressing the claims of creditors. We cannot assure you that claims will not be brought against us for these reasons.

Our public shareholders will be entitled to receive funds from the trust account only (i) in the event of the redemption of our public shares if we do not complete our initial business combination within the completion window, (ii) in connection with a shareholder vote to amend our amended and restated memorandum and articles of association (A) to modify the substance or timing of our obligation to allow redemption in connection with our initial business combination or to redeem 100% of our public shares if we do not complete our initial business combination within the completion window or (B) with respect to any other material provisions relating to shareholders’ rights or pre-initial business combination activity or (iii) if they redeem their respective shares for cash upon the completion of our initial business combination, subject to applicable law and any limitations (including but not limited to cash requirements) created by the terms of the proposed business combination. In no other circumstances will a shareholder have any right or interest of any kind to or in the trust account. In the event we seek shareholder approval in connection with our initial business combination, a shareholder’s voting in connection with the business combination alone will not result in a shareholder’s redeeming its shares to us for an applicable pro rata share of the trust account. Such shareholder must have also exercised its redemption rights described above. These provisions of our amended and restated memorandum and articles of association, like all provisions of our amended and restated memorandum and articles of association, may be amended with a shareholder vote.

Comparison of Redemption or Purchase Prices in Connection with Our Initial Business Combination and if We Fail to Complete Our Initial Business Combination.

The following table compares the redemptions and other permitted purchases of public shares that may take place in connection with the completion of our initial business combination and if we are unable to complete our initial business combination within the completion window.

	Redemptions in Connection with Our Initial Business Combination	Other Permitted Purchases of Public Shares by Our Affiliates	Redemptions if we fail to Complete an Initial Business Combination
Calculation of redemption price	Redemptions at the time of our initial business combination may be made pursuant to a tender offer or in connection with a shareholder vote. The redemption price will be the same whether we conduct redemptions pursuant to a tender offer or in connection with a shareholder vote. In either case, our public shareholders may redeem their public shares for cash equal to the aggregate amount then on deposit in the trust account calculated as of two business days prior to the consummation of the initial business combination (which is initially anticipated to be \$10.00 per share), including interest earned on the funds held in the trust account (less taxes payable), divided by the number of then outstanding public shares, subject to the limitation that no redemptions will take place if all of the redemptions would cause to be unable to satisfy any limitations (including but not limited to cash requirements) agreed to in connection with the negotiation of terms of a proposed business combination.	If we seek shareholder approval of our initial business combination, our sponsor, initial shareholders, directors, officers, advisor or their respective affiliates may purchase shares or warrants in privately negotiated transactions or in the open market either prior to or following completion of our initial business combination. If our sponsor, initial shareholders, directors, officers, advisor or their respective affiliates were to purchase shares or warrants from public shareholders, they would do so at a price no higher than the price offered through our redemption process. If they engage in such transactions, they will not make any such purchases when they are in possession of any material nonpublic information not disclosed to the seller or if such purchases are prohibited by Regulation M under the Exchange Act. We do not currently anticipate that such purchases, if any, would constitute a tender offer subject to the tender offer rules under the Exchange Act or a going-private transaction subject to the going-private rules under the Exchange Act; however, if the purchasers determine at the time of any such purchases that the purchases are subject to such rules, the purchasers will comply with such rules.	If we are unable to complete our initial business combination within the completion window, we will redeem all public shares at a per-share price, payable in cash, equal to the aggregate amount, then on deposit in the trust account (which is initially anticipated to be \$10.00 per share), including interest earned on the funds held in the trust account and not previously released to us (less taxes payable and up to \$100,000 of interest to pay dissolution expenses) divided by the number of then outstanding public shares.

Impact to remaining shareholders

The redemptions in connection with our initial business combination will reduce the book value per share for our remaining shareholders, who will bear the burden of the deferred underwriting commissions and interest withdrawn in order to pay our taxes (to the extent not paid from amounts accrued as interest on the funds held in the trust account).

If the permitted purchases described above are made, there would be no impact to our remaining shareholders because the purchase price would not be paid by us.

The redemption of our public shares if we fail to complete our initial business combination will reduce the book value per share for the shares held by our initial shareholders, who will be our only remaining shareholders after such redemptions.

Comparison of This Offering to Those of Blank Check Companies Subject to Rule 419

The following table compares the terms of this offering to the terms of an offering by a blank check company subject to the provisions of Rule 419. This comparison assumes that the gross proceeds, underwriting commissions and underwriting expenses of our offering would be identical to those of an offering undertaken by a company subject to Rule 419, and that the underwriters will not exercise their over-allotment option. None of the provisions of Rule 419 apply to our offering.

	<u>Terms of Our Offering</u>	<u>Terms Under a Rule 419 Offering</u>
Escrow of offering proceeds	\$200,000,000 of the net proceeds of this offering and the sale of the private warrants will be deposited into a trust account located in the United States with Continental Stock Transfer & Trust Company acting as trustee.	Approximately \$172,800,000 of the offering proceeds, representing the gross proceeds of this offering, would be required to be deposited into either an escrow account with an insured depository institution or in a separate bank account established by a broker-dealer in which the broker-dealer acts as trustee for persons having the beneficial interests in the account.
Investment of net proceeds	\$200,000,000 of the net proceeds of this offering and the sale of the private warrants held in trust will initially be invested only in U.S. government treasury obligations with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations; the holding of these assets in this form is intended to be temporary and for the sole purpose of facilitating the intended business combination. To mitigate the risk that we might be deemed to be an investment company for purposes of the Investment Company Act, which risk increases the longer that we hold investments in the trust account, we may, at any time (based on our management team's ongoing assessment of all factors related to our potential status under the Investment Company Act) instruct the trustee to liquidate the investments held in the trust account and instead to hold the funds in the trust account in cash or in an interest bearing demand deposit account at a bank.	Proceeds could be invested only in specified securities such as a money market fund meeting conditions of the Investment Company Act or in securities that are direct obligations of, or obligations guaranteed as to principal or interest by, the United States.

Receipt of interest on escrowed funds

Interest on proceeds from the trust account to be paid to shareholders is reduced by (i) any taxes paid or payable and (ii) in the event of our liquidation for failure to complete our initial business combination within the allotted time, up to \$100,000 of net interest that may be released to us should we have no or insufficient working capital to fund the costs and expenses of our dissolution and liquidation.

Interest on funds in escrow account would be held for the sole benefit of investors, unless and only after the funds held in escrow were released to us in connection with our completion of a business combination.

Limitation on fair value or net assets of target business

Nasdaq rules require that we must complete one or more business combinations having an aggregate fair market value of at least 80% of our assets held in the trust account (excluding the deferred underwriting commissions and taxes payable on the income earned on the trust account) at the time of the agreement to enter into the initial business combination.

The fair value or net assets of a target business must represent at least 80% of the maximum offering proceeds.

Trading of securities issued

The units are expected to begin trading on or promptly after the date of this prospectus. The Class A ordinary shares and warrants comprising the units will begin separate trading on the 52nd day following the date of this prospectus unless Stifel informs us of its decision to allow earlier separate trading, subject to our having filed the Current Report on Form 8-K described below and having issued a press release announcing when such separate trading will begin. We will file the Current Report on Form 8-K promptly after the closing of this offering, which closing is anticipated to take place three business days from the date of this prospectus. If the over-allotment option is exercised following the initial filing of such Current Report on Form 8-K, a second or amended Current Report on Form 8-K will be filed to provide updated information to reflect the exercise of the over-allotment option.

No trading of the units or the underlying Class A ordinary shares and warrants would be permitted until the completion of a business combination. During this period, the securities would be held in the escrow or trust account.

Exercise of the warrants

The warrants cannot be exercised until 30 days after the completion of our initial business combination.

The warrants could be exercised prior to the completion of a business combination, but securities received and cash paid in connection with the exercise would be deposited in the escrow or trust account.

Election to remain an investor

We will provide our public shareholders with the opportunity to redeem their public shares, regardless of whether they abstain, vote for, or vote against, our initial business combination, for cash at a per share price equal to the aggregate amount then on deposit in the trust account calculated as of two business days prior to the consummation of our initial business combination, including interest earned on the funds held in the trust account (less taxes payable), divided by the number of then outstanding public shares, upon the completion of our initial business combination, subject to the limitations and on the conditions described herein. We may not be required by law to hold a shareholder vote. If we are not required by law and do not otherwise decide to hold a shareholder vote, we will, pursuant to our amended and restated memorandum and articles of association, conduct the redemptions pursuant to the tender offer rules of the SEC and file tender offer documents with the SEC which will contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under the SEC's proxy rules. If, however, we hold a shareholder vote, we will, like many blank check companies, offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. If we seek shareholder approval, we will complete our initial business combination only if we receive an ordinary resolution under Cayman Islands law and our amended and restated memorandum and articles of association, which requires the affirmative vote of a majority of the company's shareholders as, being entitled to do so, attend and vote (whether in person or by proxy) at a general meeting of the company. However, if our initial business combination is structured as a statutory merger or consolidation of the company with another company under Cayman Islands law, the approval of our initial business combination will require a special resolution, which requires the affirmative vote of at least two-thirds of the company's shareholders as, being entitled to do so, attend and vote (whether in person or by proxy) at a general meeting of the company of which notice specifying the intention to propose the resolution as a special resolution has been duly given, or a unanimous written resolution of all of the company's shareholders entitled to vote on such matter. Additionally, each public shareholder may elect to redeem their public shares irrespective of whether they vote for or against the proposed transaction, or whether they do not vote or abstain from voting on the proposed transaction, or whether they were a public shareholder on the record date for the general meeting held to approve the proposed transaction.

A prospectus containing information pertaining to the business combination required by the SEC would be sent to each investor. Each investor would be given the opportunity to notify the company in writing, within a period of no less than 20 business days and no more than 45 business days from the effective date of a post-effective amendment to the company's registration statement, to decide if he, she or it elects to remain a shareholder of the company or require the return of his, her or its investment. If the company has not received the notification by the end of the 45 business day, funds and interest or dividends, if any, held in the trust or escrow account are automatically returned to the shareholder. Unless a sufficient number of investors elect to remain investors, all funds on deposit in the escrow account must be returned to all of the investors and none of the securities are issued.

Business combination deadline

If we have not completed our initial business combination within the completion window, we will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter (and subject to lawfully available funds therefor), redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account (which interest shall be net of taxes and less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then-outstanding public shares, which redemption will completely extinguish public shareholders' rights as shareholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining shareholders and our board of directors, liquidate and dissolve, subject in each case to our obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law.

If an acquisition has not been completed within 18 months after the effective date of the company's registration statement, funds held in the trust or escrow account are returned to investors.

Release of funds

Except for the withdrawal of interest to pay our taxes, if any, none of the funds held in trust will be released from the trust account until the earliest of (i) the completion of our initial business combination, (ii) the redemption of our public shares if we are unable to complete our initial business combination within the completion window, or (iii) the redemption of our public shares properly submitted in connection with a shareholder vote to approve an amendment to our amended and restated memorandum and articles of association (A) to modify the substance or timing of our obligation to allow redemption in connection with our initial business combination or to redeem 100% of our public shares if we have not consummated an initial business combination within the completion window or (B) with respect to any other material provisions relating to shareholders' rights or pre-initial business combination activity, subject to applicable law.

The proceeds held in the escrow account are not released until the earlier of the completion of a business combination or the failure to effect a business combination within the allotted time.

Delivering share certificates (if any) in connection with the exercise of redemption rights

We intend to require our public shareholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in "street name," to, at the holder's option, either deliver their share certificates (if any) to our transfer agent or deliver their shares to our transfer agent electronically using the Depository Trust Company's DWAC (Deposit/Withdrawal At Custodian) system, prior to the date set forth in the proxy materials or tender offer documents, as applicable. In the case of proxy materials, this date may be up to two business days prior to the scheduled vote on the proposal to approve the initial business combination. In addition, if we conduct redemptions in connection with a shareholder vote, we intend to require a public shareholder seeking redemption of its public shares to also submit a written request for redemption to our transfer agent two business days prior to the scheduled vote in which the name of the beneficial owner of such shares is included. The proxy materials or tender offer documents, as applicable, that we will furnish to

Many blank check companies provide that a shareholder can vote against a proposed business combination and check a box on the proxy card indicating that such shareholder is seeking to exercise its redemption rights. After the business combination is approved, the company would contact such shareholder to arrange for delivery of its share certificates to verify ownership.

holders of our public shares in connection with our initial business combination will indicate whether we are requiring public shareholders to satisfy such delivery requirements. Accordingly, a public shareholder would have up to two business days prior to the scheduled vote on the initial business combination if we distribute proxy materials, or from the time we send out our tender offer materials until the close of the tender offer period, as applicable, to submit or tender its shares if it wishes to seek to exercise its redemption rights.

Limitation on redemption rights of shareholders holding more than 15% of the shares sold in this offering if we hold a shareholder vote

If we seek shareholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated memorandum and articles of association provide that a public shareholder, together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from seeking redemption rights with respect to Excess Shares without our prior consent. However, we would not restrict our shareholders’ ability to vote all of their shares (including Excess Shares) for or against our initial business combination.

Many blank check companies provide no restrictions on the ability of shareholders to redeem shares based on the number of shares held by such shareholders in connection with an initial business combination.

Competition

In identifying, evaluating and selecting a target business for our initial business combination, we may encounter competition from other entities having a business objective similar to ours, including other special purpose acquisition companies, private equity groups and leveraged buyout funds, public companies and operating businesses seeking strategic acquisitions. Many of these entities are well-established and have extensive experience identifying and effecting business combinations directly or through affiliates. Moreover, many of these competitors possess financial, technical, human and other resources that are similar to or greater than us. Our ability to acquire larger target businesses will be limited by our available financial resources. This inherent limitation gives others an advantage in pursuing the acquisition of a target business. Furthermore, our obligation to pay cash in connection with the exercise of redemption rights by our public shareholders may reduce the resources available to us for our initial business combination and our issued and outstanding warrants, and the future dilution they potentially represent, may not be viewed favorably by certain target businesses. Either or both of these factors may place us at a competitive disadvantage in successfully negotiating an initial business combination.

Facilities

We currently utilize office space at 3033 Excelsior Blvd, Suite 343, Minneapolis, MN 55416, provided by an affiliate of our sponsor. We will reimburse our sponsor or an affiliate thereof in an amount equal to \$10,000 per month for office space, utilities and secretarial and administrative support made available to us. Upon completion of our initial business combination or our liquidation, we will cease paying these monthly fees. We consider our current office space adequate for our current operations.

Employees

We currently have four officers: Andrew J. Redleaf, Kenneth J. Weiller, Chris Bemis and Toby Maitland Hudson. These individuals are not obligated to devote any specific number of hours to our matters, but they intend to devote as much of their time as they deem necessary to our affairs until we have completed our initial business combination. The amount of time they will devote in any time period will vary based on whether a target business has been selected for our initial business combination and the stage of the business combination process we are in. We do not intend to have any full-time employees prior to the completion of our initial business combination.

Periodic Reporting and Financial Information

We have registered our units, Class A ordinary shares and warrants under the Exchange Act and have reporting obligations, including the requirement that we file annual, quarterly and current reports with the SEC. In accordance with the requirements of the Exchange Act, our annual reports will contain financial statements audited and reported on by our independent registered public accountants.

We will provide shareholders with audited financial statements of the prospective target business as part of the proxy solicitation materials or tender offer documents sent to shareholders to assist them in assessing the target business. In all likelihood, these financial statements will need to be prepared in accordance with, or reconciled to, GAAP or IFRS, depending on the circumstances, and the historical financial statements may be required to be audited in accordance with the standards of the PCAOB. These financial statement requirements may limit the pool of potential target businesses we may conduct an initial business combination with because some targets may be unable to provide such statements in time for us to disclose such statements in accordance with federal proxy rules and complete our initial business combination within the prescribed time frame. We cannot assure you that any particular target business identified by us as a potential business combination candidate will have financial statements prepared in accordance with the requirements outlined above, or that the potential target business will be able to prepare its financial statements in accordance with the requirements outlined above. To the extent that these requirements cannot be met, we may not be able to acquire the proposed target business. While this may limit the pool of potential business combination candidates, we do not believe that this limitation will be material.

We will be required to evaluate our internal control procedures for the fiscal year ending December 31, 2027 as required by the Sarbanes-Oxley Act. Only in the event we are deemed to be a large accelerated filer or an accelerated filer, and no longer qualify as an emerging growth company, will we be required to have our internal control procedures audited. A target business may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding adequacy of their internal controls. The development of the internal controls of any such entity to achieve compliance with the Sarbanes-Oxley Act may increase the time and costs necessary to complete any such business combination.

On or prior to the date of this prospectus, we have filed a Registration Statement on Form 8-A with the SEC to voluntarily register our securities under Section 12 of the Exchange Act. As a result, we are subject to the rules and regulations promulgated under the Exchange Act. We have no current intention of filing a Form 15 to suspend our reporting or other obligations under the Exchange Act prior or subsequent to the consummation of our initial business combination.

We are a Cayman Islands exempted company. Exempted companies are Cayman Islands companies conducting business mainly outside the Cayman Islands and, as such, are exempted from complying with certain provisions of the Companies Act. As an exempted company, we have applied for and received a tax exemption undertaking from the Cayman Islands government that, in accordance with Section 6 of the Tax Concessions Act (As Revised) of the Cayman Islands, for a period of 30 years from the date of the undertaking (being September 25, 2025), no law which is enacted in the Cayman Islands imposing any tax to be levied on profits, income, gains or appreciations will apply to us or our operations and, in addition, that no tax to be levied on profits, income, gains or appreciations or which is in the nature of estate duty or inheritance tax will be payable (i) on or in respect of our shares, debentures or other obligations or (ii) by way of the withholding in whole or in part of a payment of dividends or other distribution of income or capital by us to our shareholders or a payment of principal or interest or other sums due under a debenture or other obligation of us. We are an “emerging growth company,” as defined in Section 2(a) of the Securities Act, as modified by the JOBS Act. As such, we are eligible to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not “emerging growth companies” including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a non-binding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved. If some investors find our securities less attractive as a result, there may be a less active trading market for our securities and the prices of our securities may be more volatile.

In addition, Section 107 of the JOBS Act also provides that an “emerging growth company” can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. In other words, an “emerging growth company” can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We intend to take advantage of the benefits of this extended transition period.

We will remain an emerging growth company until the earlier of (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of this offering, (b) in which we have total annual gross revenue of at least \$1.235 billion, or (c) in which we are deemed to be a large accelerated filer, which means the market value of our Class A ordinary shares that are held by non-affiliates exceeds \$700 million as of the prior June 30, and (2) the date on which we have issued more than \$1.0 billion in non-convertible debt during the prior three-year period.

Additionally, we are a “smaller reporting company” as defined in Item 10(f)(1) of Regulation S-K. Smaller reporting companies may take advantage of certain reduced disclosure obligations, including, among other things, providing only two years of audited financial statements. We will remain a smaller reporting company until the last day of the fiscal year in which (1) the market value of our Class A ordinary shares held by non-affiliates equals or exceeds \$250 million as of the end of that year’s second fiscal quarter, or (2) our annual revenues equaled or exceeded \$100 million during such completed fiscal year and the market value of our Class A ordinary shares held by non-affiliates exceeds \$700 million as of the end of that year’s second fiscal quarter.

Legal Proceedings

There is no material litigation, arbitration or governmental proceeding currently pending against us or any members of our management team in their capacities as such.

MANAGEMENT

Officers and Directors

Our officers and directors are as follows:

Name	Age	Position
Andrew J. Redleaf	68	Chairman and Chief Executive Officer
Kenneth J. Weiller	68	Chief Operating Officer and Chief Financial Officer
Chris Bemis	46	Executive Vice President, Secretary and Director
Toby Maitland Hudson	49	Head of Capital Markets and Director
William N. Goetzmann	69	Independent Director
David H. Lui	64	Independent Director
Nicholas H. Smith	50	Independent Director
Jeffrey H. von Gillern	59	Independent Director

Andrew J. Redleaf is Chairman and Chief Executive Officer of the Company. Mr. Redleaf's career spans several decades from his early work pioneering the use of quantitative methodologies to trade options. He focused his attention on the applied understanding of pricing between markets rather than in isolation to identify opportunities in market structure and behavioral eccentricities, which has become the cornerstone of his investment philosophy. Mr. Redleaf has served as Founder and Head of Portfolio Allocation and Strategy of X Cubed Capital Management LLC since 2021. He has launched funds including Deephaven Market Neutral Fund, which grew to \$300 million under management, and Whitebox Advisors, which grew to become a \$5.5-billion fund with offices in Minneapolis, Austin, London and Sydney. Mr. Redleaf is an active investor in private companies. He is the controlling shareholder of Park Financial Group, a bank holding company. During his ten-year tenure as principal owner, Park State Bank has consistently been a top performing community bank across multiple categories including return on equity and efficiency ratio. Assets have grown from \$30 million to \$1.4 billion. Mr. Redleaf earned a Master's degree in mathematics from Yale University.

Kenneth J. Weiller is Chief Operating Officer and Chief Financial Officer of the Company. Mr. Weiller has worked in the hedge fund industry for over 25 years. He has served as Chief Operating Officer of X Cubed Capital Management LLC since 2022. He was a consultant at CoinFund Management LLC from March 2021 to November 2021. From November 2019 to May 2020, Mr. Weiller was Partner and COO at Econometrics Capital Management LLC, where he was responsible for setting up the fund and all non-investment functions. Other experience includes: COO roles at Westfield Investment and EVA Capital, where he also served as CCO; COO roles at Claren Road Asset Management and Saba Capital Management, where he also served as the Risk Manager during the firm's first two years of operation; and SAC Capital, where over his six years there he served as the Director of Risk Management, Director of Operations and Director of Trading Administration. Mr. Weiller began his career at the Federal Reserve Bank of New York and worked in Treasury and Risk at both Citicorp and Bankers Trust. Mr. Weiller earned his PhD in Economics at Harvard University, an MA in Economics at Tufts University, and a Bachelor's in Economics at St. Lawrence University.

Chris Bemis, PhD is Executive Vice President, Secretary and a director of the Company. Mr. Bemis has served as Co-Founder and Managing Partner of X Cubed Capital Management LLC since 2021. Mr. Bemis focuses on alpha-driven portfolio construction across various asset classes. He joined X Cubed after serving as head of Whitebox Advisors' quant group. Mr. Bemis' work has yielded several systematic credit strategies, most recently in corporate credit. Mr. Bemis earned his PhD in applied mathematics from the University of Minnesota, where his thesis involved modelling and optimization for portfolios of risky assets. Mr. Bemis remains as affiliated faculty in their math finance program.

Toby Maitland Hudson is Head of Capital Markets and a director of the Company. A former attorney, Mr. Hudson's expertise spans origination, structuring and trading in the corporate, structured and direct lending markets. Throughout his 25-year career, he has synthesized quantitative and qualitative analysis to identify the optimal part of the capital structure in which to invest. His experience encompasses corporate bonds, credit derivatives, ABS, RMBS, CMBS, CLO and equities. Mr. Hudson joined X Cubed Capital Management LLC in 2021 from Pinelands Capital Management (now a division of Millennium Management) where he was a senior member of a business focused on IG corporate and mortgage credit from 2017 to 2021. Prior to Millennium, Mr. Hudson led the CRE/CMBS business at Saba Capital, managing investments in commercial mortgage conduits, mezzanine loans, and related derivatives. His prior experience includes roles senior PM/Managing Director roles in mortgage exotics at JPMorgan and mortgage credit trading at Bear Stearns. Mr. Hudson holds a Bachelor of Laws (LLB) in English and French Law from King's College London and the Universite Paris I (Pantheon Sorbonne).

William N. Goetzmann serves as a member of our board of directors. Mr. Goetzmann is the Edwin J. Beinecke Professor of Finance and Management Studies and faculty director of the International Center for Finance at the Yale School of Management and faculty director of its Executive MBA program in Asset Management. Mr. Goetzmann is widely recognized for his research in the field of investments and is currently the Executive Editor of the *Financial Analysts Journal*, the leading journal for the practice of investment management. His professional experience includes eight years on the board of the investment company Commonfund, current service on the board of the Jeffrey Company, and past consultation with the Norwegian Pension Fund Global. Mr. Goetzmann has written and co-authored a number of books, including *Modern Portfolio Theory and Investment Analysis* (Wiley, 2014) and *Money Changes Everything: How Finance Made Civilization Possible* (Princeton, 2016). He is a recognized academic expert in the field of investment management and alternative asset classes and the recipient of the James R. Vertin Award from the CFA Institute Research Foundation "for a body of research notable for its relevance and enduring value to investment professionals." Mr. Goetzmann holds a PhD in Operations Research from Yale University and an MBA from Yale School of Management.

David H. Lui serves as a member of our board of directors. Mr. Lui's lifelong professional focus has been the creation of processes in the financial services industry which mirror the ethical needs of the industry's clientele. He has been Chief Compliance Officer for some of America's largest investment advisers, including Charles Schwab Investment Management, Franklin Templeton Advisers, U.S. Bancorp Asset Management and a \$100 billion subsidiary of Wells Fargo. He was named a Principal of that Wells Fargo subsidiary and was responsible for the oversight of the negotiation of \$80 billion of investment contracts. By virtue of these relationships, Mr. Lui has held positions as an officer of the board of some of the largest mutual funds in the United States. During the financial crisis, Mr. Lui was Chair of the National Society of Compliance Professionals, the industry trade group covering Securities Compliance for U.S. investment advisers. As Chair during that troubled time, he was responsible for the creation of numerous industry regulatory liaisons with the Office of Compliance, Inspections and Examinations of the U.S. Securities and Exchange Commission, and the House Financial Services Committee. After completing his role as Chair, Mr. Lui partnered with the former Chief Counsel of the Office of Compliance Inspections and Examinations at the Securities and Exchange Commission to write the nation's leading treatise on Securities Compliance—a two Volume, 1,600-page work called *Modern Compliance: Best Practices in Securities and Finance*. That work is in use at many institutions in the United States, and is the most widely distributed work on securities compliance in the nation. Mr. Lui is a graduate of Brown University in Providence, Rhode Island with Honors in History and received his Juris Doctor degree from the University of California, Hastings College of the Law. He is an attorney admitted to practice in Minnesota and California. He is a frequent speaker at national conferences related to Securities Compliance.

Nicholas H. Smith serves as a member of our board of directors. Mr. Smith is the Founder and CEO of Rice Park Capital Management LP, an alternative investment firm focused on mortgage finance and structured credit. He has nearly 25 years of experience across capital markets, mortgage credit, structured products, operating companies and Fintech. Before founding Rice Park in 2019, Mr. Smith was CEO and Chief Investment Officer of Blackstone's (NYSE: BX) private residential mortgage REIT, Podium Mortgage Capital, from 2017 to 2018 and Co-Founder and CIO of Finance of America Companies (NYSE: FOA) from 2015 to 2017. From 2012 to 2015, Mr. Smith was Managing Director and Head of Residential Mortgage Investment Business of Pine River Capital Management. He previously served as Managing Director at Two Harbors Investment Corp. (NYSE: TWO), where he led the firm's MSR and whole loan investment platform and held senior investment and corporate development roles at Green Tree Investment Management and GMAC ResCap. Mr. Smith studied economics as an undergraduate at the University of Minnesota and pursued graduate studies at Northeastern University and the University of London in quantitative finance. He is a member of the CFA Institute and CFA Society of Minnesota. Mr. Smith has served on a variety of public, private, and philanthropic boards. He currently serves on the advisory boards of Capacity and First American Financial (NYSE: FAF).

Jeffrey H. von Gillern serves as a member of our board of directors. Mr. von Gillern is the former Vice Chairman of Technology and Operations Services at U.S. Bancorp, a position he held from 2010 until his retirement in 2023. As a member of the Managing Committee, he reported directly to the Chairman and CEO, overseeing a significant annual investment portfolio and leading a global team of approximately 25,000 staff. He joined U.S. Bancorp in 2001 as Executive Vice President and served as Chief Information Officer from 2007 to 2010, where he led major technology upgrades, supported numerous bank acquisitions, and directed complex portfolio conversions. Prior to U.S. Bancorp, Mr. von Gillern served as CIO of IronPlanet, an early online marketplace for used heavy equipment, from 2000 to 2001. Before that, he spent 12 years at Visa International, where he was Senior Vice President of Processing Services. Mr. von Gillern currently serves on the Board of Directors of NCR Atleos (since 2023) and is Treasurer and a Board Director for Children's Hospital of Minnesota (since 2022). His prior board roles include Lead Director of ViewPointe LLC (2010–2015), Board Director of Syncada LLC (2010–2014), and Chair of the Board of Governors for the Children's Theatre Company in Minneapolis (2014–2017). Mr. von Gillern earned a Bachelor of Science in Business from the University of Arizona and also studied at the University of London.

Past performance of any member of our management team or our advisor or any of their respective affiliates is not a guarantee either (i) of success with respect to any business combination we may consummate or (ii) that we will be able to identify a suitable candidate for our initial business combination. You should not rely on the historical performance record of our management team or their affiliates as indicative of our future performance. Our officers and directors may have conflicts of interest with other entities to which they owe fiduciary or contractual obligations with respect to initial business combination opportunities. For a list of our officers and directors and entities for which a conflict of interest may or does exist between such persons and us, as well as the priority and preference that such entity has with respect to performance of obligations and presentation of business opportunities to us, please refer to the table and subsequent explanatory paragraph under “*Management — Conflicts of Interest.*”

Number and Terms of Office of Officers and Directors

Our board of directors consists of seven (7) members and is divided into three classes with only one class of directors being appointed in each year, and with each class (except for those directors appointed prior to our first annual general meeting) serving a three-year term. Prior to the closing of our initial business combination, only holders of our Class B ordinary shares will be entitled to vote on the appointment and removal of directors or continuing the company in a jurisdiction outside the Cayman Islands (including any special resolution required to amend our constitutional documents or to adopt new constitutional documents, in each case, as a result of our approving a transfer by way of continuation in a jurisdiction outside the Cayman Islands). Holders of our public shares will not be entitled to vote on such matters during such time. The provisions of our amended and restated memorandum and articles of association relating to these rights of holders of Class B ordinary shares may be amended by a special resolution passed by the affirmative vote of the holders representing at least 90% of the issued Class B ordinary shares. In accordance with Nasdaq corporate governance requirements, we are not required to hold an annual general meeting until one year after our first fiscal year end following our listing on Nasdaq. The term of office of the first class of directors, which consists of Chris Bemis and Jeffrey H. von Gillern, will expire at our first annual general meeting. The term of office of the second class of directors, which consists of Toby Maitland Hudson and Nicholas H. Smith, will expire at the second annual general meeting. The term of office of the third class of directors, which consists of Andrew Redleaf, William N. Goetzman and David H. Lui, will expire at the third annual general meeting.

Our officers are appointed by the board of directors and serve at the discretion of the board of directors, rather than for specific terms of office. Our board of directors is authorized to appoint officers as it deems appropriate pursuant to our amended and restated memorandum and articles of association.

Director Independence

Nasdaq rules require that a majority of our board of directors be independent within one year of our initial public offering. An “independent director” is defined generally as a person who, in the opinion of the company’s board of directors, has no material relationship with the listed company (either directly or as a partner, shareholder or officer of an organization that has a relationship with the company). We have four “independent directors” as defined in Nasdaq rules and applicable SEC rules. Our board of directors has determined that William N. Goetzmann, David H. Lui, Nicholas H. Smith and Jeffrey H. von Gillern are “independent directors” as defined in Nasdaq listing standards and applicable SEC rules. Our independent directors will have regularly scheduled meetings at which only independent directors are present.

Executive Officer and Director Compensation

We are not prohibited from paying any fees (including advisory fees), reimbursements or cash payments to our sponsor, officers or directors, or our or their affiliates, for services rendered to us prior to or in connection with the completion of our initial business combination, including the following payments, all of which, if made prior to the completion of our initial business combination, will be paid from funds held outside the trust account:

- Repayment of up to an aggregate of \$400,000 in loans made to us by our sponsor to cover offering-related and organizational expenses;
- Reimbursement for office space, utilities and secretarial and administrative support made available to us by our sponsor or an affiliate thereof, in an amount equal to \$10,000 per month;
- Payment of consulting, success or finder fees to our sponsor, officers or directors, advisors, or our or their affiliates in connection with the consummation of our initial business combination;
- We may engage our sponsor or an affiliate of our sponsor as an advisor or otherwise in connection with our initial business combination and certain other transactions and pay such person or entity a salary or fee in an amount that constitutes a market standard for comparable transactions;
- Reimbursement for any out-of-pocket expenses related to identifying, investigating, negotiating and completing an initial business combination; and
- Repayment of loans which may be made by our sponsor or an affiliate of our sponsor or certain of our officers and directors to finance transaction costs in connection with an intended initial business combination. Up to \$1,500,000 of such loans may be convertible into warrants of the post-business combination entity at a price of \$1.00 per warrant at the option of the applicable lender. Such warrants would be identical to the private warrants. Except for the foregoing, the terms of such loans, if any, have not been determined and no written agreements exist with respect to such loans.

In addition to the foregoing, our officers and directors will receive indirect interests in the founder shares held by the sponsor as compensation for their services as officers and directors of the Company. Our Chairman and Chief Executive Officer, Andrew J. Redleaf, will receive an indirect interest in up to 3,913,000 founder shares through membership interests in our sponsor, our Chief Operating Officer and Chief Financial Officer, Kenneth J. Weiller, will receive an indirect interest in up to 335,400 founder shares through membership interests in our sponsor, our Executive Vice President and Secretary, Chris Bemis, will receive an indirect interest in up to 335,400 founder shares through membership interests in our sponsor, and our Head of Capital Markets, Toby Maitland Hudson, will receive an indirect interest in up to 838,500 founder shares through membership interests in our sponsor. In addition, our independent directors will receive for their services as a director an indirect interest in the founder shares through membership interests in our sponsor. William N. Goetzmann, David H. Lui, Nicholas H. Smith and Jeffry H. von Gillern will each receive an indirect interest in 40,000 founder shares through membership interests in our sponsor.

After the completion of our initial business combination, directors or members of our management team who remain with us may be paid consulting or management fees from the combined company. All of these fees will be fully disclosed to shareholders, to the extent then known, in the proxy solicitation materials or tender offer materials furnished to our shareholders in connection with a proposed initial business combination. We have not established any limit on the amount of such fees that may be paid by the combined company to our directors or members of management. It is unlikely the amount of such compensation will be known at the time of the proposed initial business combination, because the directors of the post-combination business will be responsible for determining executive officer and director compensation.

Any compensation to be paid to our executive officers by the Company will be determined, or recommended to the board of directors for determination, either by a compensation committee constituted solely by independent directors or by a majority of the independent directors on our board of directors.

We do not intend to take any action to ensure that members of our management team maintain their positions with us after the consummation of our initial business combination, although it is possible that some or all of our officers and directors may negotiate employment or consulting arrangements to remain with us after our initial business combination. The existence or terms of any such employment or consulting arrangements to retain their positions with us may influence our management's motivation in identifying or selecting a target business but we do not believe that the ability of our management to remain with us after the consummation of our initial business combination will be a determining factor in our decision to proceed with any potential business combination. We are not party to any agreements with our officers and directors that provide for benefits upon termination of employment.

Committees of the Board of Directors

Our board of directors has established two standing committees: an audit committee and a compensation committee. Subject to phase-in rules, the rules of Nasdaq and Rule 10A-3 of the Exchange Act require that the audit committee of a listed company be comprised solely of independent directors. Each committee operates under a charter that has been approved by our board and has the composition and responsibilities described below.

Audit Committee

Our board of directors has established an audit committee of the board of directors. David H. Lui, Jeffrey H. von Giller and Nicholas H. Smith serve as the members of our audit committee. Under the Nasdaq listing standards and applicable SEC rules, we are required to have three members of the audit committee, all of whom must be independent. David H. Lui, Jeffrey H. von Giller and Nicholas H. Smith are each independent.

Mr. Lui serves as the chairman of the audit committee. Each member of the audit committee is financially literate and our board of directors has determined that Mr. Lui qualifies as an "audit committee financial expert" as defined in applicable SEC rules.

We have adopted an audit committee charter, which details the principal functions of the audit committee, including:

- assisting board oversight of (1) the integrity of our financial statements, (2) our compliance with legal and regulatory requirements, (3) our independent registered public accounting firm's qualifications and independence, and (4) the performance of our internal audit function and independent registered public accounting firm; the appointment, compensation, retention, replacement, and oversight of the work of the independent auditors and any other independent registered public accounting firm engaged by us;
- pre-approving all audit and non-audit services to be provided by the independent registered public accounting firm or any other registered public accounting firm engaged by us, and establishing pre-approval policies and procedures; reviewing and discussing with the independent registered public accounting firm all relationships the independent registered public accounting firm have with us in order to evaluate their continued independence;
- setting clear policies for audit partner rotation in compliance with applicable laws and regulations; obtaining and reviewing a report, at least annually, from the independent registered public accounting firm describing (1) the independent registered public accounting firm's internal quality-control procedures and (2) any material issues raised by the most recent internal quality-control review, or peer review, of the independent registered public accounting firm, or by any inquiry or investigation by governmental or professional authorities, within the preceding five years respecting one or more independent audits carried out by the firm and any steps taken to deal with such issues;
- meeting to review and discuss our annual audited financial statements and quarterly financial statements with management and the independent registered public accounting firm, including reviewing our specific disclosures under "Management's Discussion and Analysis of Financial Condition and Results of Operations"; reviewing and approving any related party transaction required to be disclosed pursuant to Item 404 of Regulation S-K promulgated by the SEC prior to us entering into such transaction; and
- reviewing with management, the independent registered public accounting firm, and our legal advisors, as appropriate, any legal, regulatory or compliance matters, including any correspondence with regulators or government agencies and any employee complaints or published reports that raise material issues regarding our financial statements or accounting policies and any significant changes in accounting standards or rules promulgated by the Financial Accounting Standards Board, the SEC or other regulatory authorities.

Compensation Committee

Our board of directors has established a compensation committee of our board of directors. The members of our compensation committee are William N. Goetzman, Jeffrey H. von Gillern and Nicholas H. Smith. Mr. Goetzman serves as chair of the compensation committee. Under the Nasdaq listing standards and applicable SEC rules, we are required to have a compensation committee of at least two members, all of whom must be independent. William N. Goetzman, Jeffrey H. von Gillern and Nicholas H. Smith are each independent. We have adopted a compensation committee charter, which details the principal functions of the compensation committee, including:

- reviewing and approving on an annual basis the corporate goals and objectives relevant to our chief executive officer's compensation, evaluating our chief executive officer's performance in light of such goals and objectives and determining and approving the remuneration (if any) of our chief executive officer based on such evaluation;
- reviewing and making recommendations to our board of directors with respect to the compensation, and any incentive compensation and equity based plans that are subject to board approval of all of our other officers;
- reviewing our executive compensation policies and plans;
- implementing and administering our incentive compensation equity-based remuneration plans;
- assisting management in complying with our proxy statement and annual report disclosure requirements;
- approving all special perquisites, special cash payments and other special compensation and benefit arrangements for our executive officers and employees;
- producing a report on executive compensation to be included in our annual proxy statement; and
- reviewing, evaluating and recommending changes, if appropriate, to the remuneration for directors.

The charter also provides that the compensation committee may, in its sole discretion, retain or obtain the advice of a compensation consultant, legal counsel or other adviser and will be directly responsible for the appointment, compensation and oversight of the work of any such adviser. However, before engaging or receiving advice from a compensation consultant, external legal counsel or any other adviser, the compensation committee will consider the independence of each such adviser, including the factors required by Nasdaq and the SEC.

Director Nominations

We do not have a standing nominating committee though we intend to form a corporate governance and nominating committee as and when required to do so by law or Nasdaq rules. In accordance with Rule 5605(e)(2) of the Nasdaq rules, a majority of the independent directors may recommend a director nominee for selection by our board of directors. Our board of directors believes that the independent directors can satisfactorily carry out the responsibility of properly selecting or approving director nominees without the formation of a standing nominating committee. The directors who will participate in the consideration and recommendation of director nominees are William N. Goetzmann, David H. Lui, Nicholas H. Smith and Jeffry H. von Gillern. In accordance with Rule 5605(e)(1)(A) of the Nasdaq rules, all such directors are independent. As there is no standing nominating committee, we do not have a nominating committee charter in place.

The board of directors will also consider director candidates recommended for nomination by our shareholders during such times as they are seeking proposed nominees to stand for appointment at the next annual general meeting (or, if applicable, an extraordinary general meeting). Our shareholders that wish to nominate a director for appointment to our board of directors should follow the procedures set forth in our amended and restated memorandum and articles of association.

We have not formally established any specific, minimum qualifications that must be met or skills that are necessary for directors to possess. In general, in identifying and evaluating nominees for director, our board of directors considers educational background, diversity of professional experience, knowledge of our business, integrity, professional reputation, independence, wisdom, and the ability to represent the best interests of our shareholders. Prior to our initial business combination, holders of our public shares will not have the right to recommend director candidates for nomination to our board of directors.

Compensation Committee Interlocks and Insider Participation

None of our executive officers currently serves, in the past year has served, as a member of the compensation committee of any entity that has one or more executive officers serving on our board of directors.

Clawback Policy

We have adopted a compensation recovery policy that is compliant with Nasdaq listing rules as required by the Dodd-Frank Act.

Code of Ethics

We have adopted a Code of Ethics applicable to our directors, officers and employees. We have filed a copy of our Code of Ethics as an exhibit to the registration statement of which this prospectus is a part. You are able to review this document by accessing our public filings at the SEC's website at www.sec.gov. In addition, a copy of the Code of Ethics and the charters of the committees of our board of directors will be provided without charge upon request from us. See *"Where You Can Find Additional Information."* If we make any amendments to our Code of Ethics other than technical, administrative or other non-substantive amendments, or grant any waiver, including any implicit waiver, from a provision of the Code of Ethics applicable to our principal executive officer, principal financial officer, principal accounting officer or controller or persons performing similar functions requiring disclosure under applicable SEC or Nasdaq rules, we will disclose the nature of such amendment or waiver on our website. The information included on our website is not incorporated by reference into this prospectus or in any other report or document we file with the SEC, and any references to our website are intended to be inactive textual references only.

Conflicts of Interest

Under Cayman Islands law, directors and officers owe the following fiduciary duties: duty to act in good faith in what the director or officer believes to be in the best interests of the company as a whole;

- duty to exercise powers for the purposes for which those powers were conferred and not for a collateral purpose;
- duty to not improperly fetter the exercise of future discretion;
- duty to exercise authority for the purpose for which it is conferred and a duty to exercise powers fairly as between different sections of shareholders;
- duty not to put themselves in a position in which there is a conflict between their duty to the company and their personal interests; and
- duty to exercise independent judgment.

In addition to the above, directors also owe a duty of care which is not fiduciary in nature. This duty has been defined as a requirement to act as a reasonably diligent person having both the general knowledge, skill and experience that may reasonably be expected of a person carrying out the same functions as are carried out by that director in relation to the company and the general knowledge, skill and experience of that director.

Below is a table summarizing the entities to which our executive officers and directors currently have fiduciary duties or contractual obligations:

Individual	Entity	Entity's Business	Affiliation
Andrew J. Redleaf	X Cubed Capital Management LLC	hedge fund	Founder, Head of Portfolio Allocation and Strategy
Kenneth J. Weiller	Park Financial Group X Cubed Capital Management LLC	a bank holding company hedge fund	Controlling Shareholder Partner, Chief Operating Officer
Chris Bemis	X Cubed Capital Management LLC	hedge fund	Co-Founder, Managing Partner
Toby Maitland Hudson	University of Minnesota	university	Affiliated Faculty
William N. Goetzmann	X Cubed Capital Management Yale School of Management	hedge fund university	Partner, Head of Markets and Trading Professor of Finance and Management Studies
Nicholas H. Smith	Jeffrey Company	private investment company	Director
Jeffrey H. von Gillern	Rice Park Capital	investment firm	Founder and CEO
	NCR Atleos	financial services	Board Director
	Children's Hospital of Minnesota	hospital	Treasurer and Board Director

As set out above, directors have a duty not to put themselves in a position of conflict and this includes a duty not to engage in self-dealing, or to otherwise benefit as a result of their position at the expense of the company. However, in some instances what would otherwise be a breach of this duty can be forgiven and/or authorized in advance by the shareholders provided that there is full disclosure by the directors. This can be done by way of permission granted in the memorandum and articles of association or alternatively by shareholder approval at general meetings. Each of our officers and directors presently has, and any of them in the future may have additional, fiduciary, contractual or other obligations or duties to one or more other entities pursuant to which such officer or director is or will be required to present a business combination opportunity to such entities. Accordingly, if any of our officers or directors becomes aware of a business combination opportunity which is suitable for an entity to which he or she has then current fiduciary or contractual obligations, he or she may be required to honor his or her fiduciary or contractual obligations to present such business combination opportunity to such other entity. Our amended and restated memorandum and articles of association provide that, to the fullest extent permitted by law: (i) no individual serving as a director or an officer, among other persons, shall have any duty, except and to the extent expressly assumed by contract, to refrain from engaging directly or indirectly in the same or similar business activities or lines of business as us, and (ii) we renounce any interest or expectancy in, or in being offered an opportunity to participate in, any potential transaction or matter which (a) may be a corporate opportunity for any director or officer, on the one hand, and us, on the other or (b) the presentation of which would breach an existing legal obligation of a director or officer to any other entity. As a result, the fiduciary duties or contractual obligations of our officers or directors could materially affect our ability to complete our initial business combination.

In addition, our sponsor and our officers and directors may sponsor or form other special purpose acquisition companies similar to ours or may pursue other business or investment ventures during the period in which we are seeking an initial business combination. As a result, our sponsor, officers and directors could have conflicts of interest in determining whether to present business combination opportunities to us or to any other special purpose acquisition company with which they may become involved. Any such companies, businesses or investments may present additional conflicts of interest in pursuing an initial business combination target, which could materially affect our ability to complete our initial business combination. The other entities to which our officers and directors currently owe fiduciary duties or contractual obligations are not themselves in the business of engaging in business combinations. In order to minimize potential conflicts of interest which may arise from multiple affiliations with SPACs, unless a business combination opportunity is expressly offered to us or to one of our directors or officers solely in his or her capacity as our director and/or officer and such opportunity is one we are permitted to undertake and would otherwise be reasonable for us to pursue, subject to their other legal obligations, we expect that our officers and directors who are also officers and/or directors of other SPACs will present suitable target businesses to us and the other applicable SPACs based on which SPAC went public first and taking into account any contractual restrictions applicable to each such SPAC and other reasonable considerations (including but not limited to the relative sizes of the SPACs and the amount in trust compared to the sizes of the targets, the need or desire for additional financings, the amount of time required to complete a business combination and the relevant experience of the directors and officers involved with a particular blank check company).

Potential investors should also be aware of the following other potential conflicts of interest:

- Our officers and directors are not required to, and will not, commit their full time to our affairs, which may result in a conflict of interest in allocating their time between our operations and our search for a business combination and their other businesses. We do not intend to have any full-time employees prior to the completion of our initial business combination. Each of our officers is engaged in several other business endeavors for which he may be entitled to substantial compensation, and our officers are not obligated to contribute any specific number of hours per week to our affairs.
- Our initial shareholders purchased founder shares prior to the date of this prospectus and will purchase private warrants in a transaction that will close simultaneously with the closing of this offering. Our sponsor, officers and directors have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to their founder shares and public shares in connection with the completion of our initial business combination. Additionally, our sponsor, officers and directors have agreed to waive their rights to liquidating distributions from the trust account with respect to their founder shares if we fail to complete our initial business combination within the prescribed time frame, although they will be entitled to liquidating distributions from assets outside the trust account. If we do not complete our initial business combination within the prescribed time frame, the private warrants will expire worthless. Furthermore, our sponsor, officers and directors have agreed not to transfer, assign or sell any of their founder shares and any Class A ordinary shares issuable upon conversion thereof until the earlier to occur of: (i) 180 days after the completion of our initial business combination or (ii) the date following the completion of our initial business combination on which we complete a liquidation, merger, share exchange or other similar transaction that results in all of our shareholders having the right to exchange their ordinary shares for cash, securities or other property. The private warrants (including the underlying securities) will not be transferable until 30 days following the completion of our initial business combination. Because each of our officers and directors own ordinary shares or warrants directly or indirectly, they may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination.
- our sponsor and members of our management team will directly or indirectly own our securities following this offering, and accordingly, they may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination. Upon the closing of this offering, our sponsor will have invested in us an aggregate of \$5,025,000, comprised of the \$25,000 purchase price for the founder shares (or approximately \$0.004 per share) and the \$5,000,000 purchase price for the private warrants (or \$1.00 per warrant), which may be exercised on a cashless basis. Accordingly, our management team, which owns interests in our sponsor, may be more willing to pursue a business combination with a riskier or less-established target business than would be the case if our sponsor had paid the same per share price for the founder shares as our public shareholders paid for their public shares and if our sponsor were required to pay cash to exercise the private warrants.
- certain members of our management team may receive compensation upon consummation of our initial business combination, and accordingly, they may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination as such compensation will not be received unless we consummate such business combination.
- Our officers and directors may have a conflict of interest with respect to evaluating a particular business combination if the retention or resignation of any such officers and directors was included by a target business as a condition to any agreement with respect to our initial business combination.

- In the event our sponsor or members of our management team provide loans to us to finance transaction costs and/or incur expenses on our behalf in connection with an initial business combination, such persons may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination as such loans may not be repaid and/or such expenses may not be reimbursed unless we consummate such business combination.
- Similarly, if we agree to pay our sponsor, officers or directors, advisors, or our or their affiliates a finder's fee, advisory fee, consulting fee or success fee in order to effectuate the completion of our initial business combination, such persons may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination as any such fee may not be paid unless we consummate such business combination.
- We are not prohibited from pursuing an initial business combination with a company that is affiliated with our sponsor, officers or directors or completing the business combination through a joint venture or other form of shared ownership with our sponsor, officers or directors; accordingly, such affiliated person(s) may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination as such affiliated person(s) would have interests different from our public shareholders and would likely not receive any financial benefit unless we consummated such business combination.

We are not prohibited from pursuing an initial business combination with a company that is affiliated with our sponsor, officers or directors or completing the business combination through a joint venture or other form of shared ownership with our sponsor, officers or directors. In the event we seek to complete our initial business combination with a company that is affiliated (as defined in our amended and restated memorandum and articles of association) with our sponsor (including its members), officers or directors, we, or a committee of independent directors, will obtain an opinion from an independent investment banking firm or another independent entity that commonly renders valuation opinions, stating that the consideration to be paid by us in such an initial business combination is fair to our company from a financial point of view. We are not required to obtain such an opinion in any other context.

Prior to or in connection with the completion of our initial business combination, there may be payment by the company to our sponsor, officers or directors, advisors, or our or their affiliates, of a finder's fee, advisory fee, consulting fee or success fee for any services they render in order to effectuate the completion of our initial business, which, if made prior to the completion of our initial business combination, will be paid from funds held outside the trust account.

We cannot assure you that any of the above-mentioned conflicts will be resolved in our favor.

In the event that we submit our initial business combination to our public shareholders for a vote, our sponsor, officers and directors have agreed to vote their founder shares, and they and the other members of our management team have agreed to vote their founder shares and any shares purchased during or after the offering in favor of our initial business combination, aside from shares they may purchase in compliance with the requirements of Rule 14e-5 under the Exchange Act, which would not be voted in favor of approving the business combination transaction.

Limitation on Liability and Indemnification of Officers and Directors

Cayman Islands law does not limit the extent to which a company's memorandum and articles of association may provide for indemnification of officers and directors, except to the extent any such provision may be held by the Cayman Islands courts to be contrary to public policy, such as to provide indemnification against willful default, willful neglect, actual fraud or the consequences of committing a crime. Our amended and restated memorandum and articles of association provide that our officers and directors will be indemnified by us to the fullest extent permitted by law, as it now exists or may in the future be amended, including for any liability incurred in their capacities as such, except through their own actual fraud, willful default or willful neglect. We may purchase a policy of directors' and officers' liability insurance that insures our officers and directors against the cost of defense, settlement or payment of a judgment in some circumstances and insures us against our obligations to indemnify our officers and directors. In addition, Andrew J. Redleaf, our Chairman and Chief Executive Officer, has agreed to indemnify our officers and directors for any liability incurred in their capacities as such, except, among other things, through their own lack of good faith, unauthorized settlements or willful misconduct.

Our officers and directors have agreed, and any persons who may become officers or directors prior to the initial business combination will agree, to waive any right, title, interest or claim of any kind in or to any monies in the trust account, and to waive any right, title, interest or claim of any kind they may have in the future as a result of, or arising out of, any services provided to us and will not seek recourse against the trust account for any reason whatsoever. Accordingly, any indemnification provided will only be able to be satisfied by us if (i) we have sufficient funds outside of the trust account or (ii) we consummate an initial business combination.

Our indemnification obligations may discourage shareholders from bringing a lawsuit against our officers or directors for breach of their fiduciary duty. These provisions also may have the effect of reducing the likelihood of derivative litigation against our officers and directors, even though such an action, if successful, might otherwise benefit us and our shareholders. Furthermore, a shareholder's investment may be adversely affected to the extent we pay the costs of settlement and damage awards against our officers and directors pursuant to these indemnification provisions.

We believe that these provisions and the indemnity agreements are necessary to attract and retain talented and experienced officers and directors.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers or persons controlling us pursuant to the foregoing provisions, we have been informed that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

PRINCIPAL SHAREHOLDERS

The following table sets forth information regarding the beneficial ownership of our ordinary shares as of the date of this prospectus, and as adjusted to reflect the sale of our Class A ordinary shares included in the units offered by this prospectus, and assuming no purchase of units in this offering, by:

- each person known by us to be the beneficial owner of more than 5% of our issued and outstanding ordinary shares;
- each of our officers and directors; and
- all our officers and directors as a group.

Unless otherwise indicated, we believe that all persons named in the table have sole voting and investment power with respect to all of our ordinary shares beneficially owned by them. The following table does not reflect record or beneficial ownership of the private warrants as these warrants are not exercisable within 60 days of the date of this prospectus.

On August 18, 2025, the Company issued to our sponsor 5,750,000 Class B ordinary shares for an aggregate purchase price of \$25,000, or \$0.004 per share, up to 750,000 of which are subject to forfeiture by the holders thereof depending on the extent to which the underwriters' over-allotment option is exercised.

Prior to the initial investment in the company of \$25,000 by the sponsor, the company had no assets, tangible or intangible. The purchase price of the founder shares was determined by dividing the amount of cash contributed to the company by the number of founder shares issued. The number of founder shares outstanding was determined based on the expectation that the total size of this offering would be a maximum of 23,000,000 units if the underwriters' over-allotment option is exercised in full, and therefore that such founder shares would represent approximately 20% of the outstanding shares after this offering. Up to 750,000 of the founder shares will be surrendered for no consideration depending on the extent to which the underwriters' over-allotment option is exercised. The post-offering percentages in the following table assume that the underwriters do not exercise their over-allotment option, that 750,000 founder shares have been surrendered to us for no consideration, and that there are 25,000,000 ordinary shares issued and outstanding after this offering.

Name and Address of Beneficial Owner ⁽¹⁾	Number of Class A Ordinary Shares	Approximate Percentage of Outstanding Class A Ordinary Shares		Number of Class B Ordinary Shares	Approximate Percentage of Outstanding Class B Ordinary Shares	
	Beneficially Owned	Before Offering	After Offering	Beneficially Owned	Before Offering	After Offering

* Less than one percent.

(1) Unless otherwise noted, the business address of each of the following is c/o X3 Acquisition Corp. Ltd., 3033 Excelsior Blvd, Suite 343, Minneapolis, MN 55416.

- (2) Interests shown consist solely of founder shares, classified as Class B ordinary shares. Such shares will automatically convert into Class A ordinary shares concurrently with or immediately following the consummation of our initial business combination or earlier at the option of the holder on a one-for-one basis, subject to adjustment, as described in the section entitled “*Description of Securities*.”
- (3) X3 Acquisition Management LLC, our sponsor, is the record holder of such shares. X Cubed Capital Management LLC is the sole member of X3 Acquisition Management LLC. X Cubed Capital Management LLC is controlled by Andrew J. Redleaf, who holds voting and investment discretion with respect to the ordinary shares held of record by the sponsor. Mr. Redleaf disclaims any beneficial ownership of the securities held by X3 Acquisition Management LLC other than to the extent of any pecuniary interest he may individually have therein, directly or indirectly.
- (4) Excludes up to 750,000 founder shares that will be surrendered for no consideration depending on the extent to which the underwriters’ over-allotment option is exercised.

Immediately after this offering, our initial shareholders (assuming they do not purchase any units in this offering) will beneficially own approximately 20% of the then issued and outstanding ordinary shares. Prior to the closing of our initial business combination, only holders of our Class B ordinary shares will be entitled to vote on the appointment and removal of directors or continuing the company in a jurisdiction outside the Cayman Islands (including any special resolution required to amend our constitutional documents or to adopt new constitutional documents, in each case, as a result of our approving a transfer by way of continuation in a jurisdiction outside the Cayman Islands). Because of this ownership block, our initial shareholders may be able to effectively influence the outcome of all other matters requiring approval by our shareholders, including the appointment and removal of directors or continuing the company in a jurisdiction outside the Cayman Islands (including any special resolution required to amend our constitutional documents or to adopt new constitutional documents, in each case, as a result of our approving a transfer by way of continuation in a jurisdiction outside the Cayman Islands), and approval of significant corporate transactions including our initial business combination.

Our sponsor has committed, pursuant to written agreements, to purchase an aggregate of 5,000,000 private warrants (\$5,450,000 if the underwriters’ over-allotment option is exercised in full), each exercisable to purchase one Class A ordinary share at \$11.50 per share, at a price of \$1.00 per warrant, or \$5,000,000 in the aggregate (\$5,450,000 if the underwriters’ over-allotment option is exercised in full), in a private placement that will occur simultaneously with the closing of this offering.

The private warrants will be identical to the public warrants sold as part of the units in this offering except that, so long as they are held by our sponsor or its permitted transferees, the private warrants (including the underlying securities) (i) may not, subject to certain limited exceptions, be transferred, assigned or sold by the holders until 30 days after the completion of our initial business combination and (ii) will be entitled to registration rights. A portion of the purchase price of the private warrants will be added to the proceeds from this offering to be held in the trust account such that at the time of closing of this offering \$200,000,000 (or \$230,000,000 if the underwriters exercise their over-allotment option in full) will be held in the trust account. If we do not complete our initial business combination within the completion window, the private warrants will expire worthless. The private warrants are subject to the transfer restrictions described below.

X3 Acquisition Management LLC, our sponsor, and our officers and directors are deemed to be our “promoters” as such term is defined under the federal securities laws.

Restrictions on Transfers of Founder Shares and Private Warrants

The founder shares and private warrants and any securities issued upon conversion thereof (including any securities underlying those securities) are each subject to transfer restrictions pursuant to lock-up provisions in the agreements entered into by our sponsor and management team. Those lock-up provisions provide that such securities are not transferable or saleable (i) in the case of the founder shares, until the earlier of (A) 180 days after the completion of our initial business combination and (B) the date following the completion of our initial business combination on which we complete a liquidation, merger, share exchange or other similar transaction that results in all of our shareholders having the right to exchange their Class A ordinary shares for cash, securities or other property and (ii) in the case of the private warrants (including the underlying securities), until 30 days after the completion of our initial business combination except in each case (a) to our or the underwriters' officers, directors, advisors or consultants, any affiliate or family member of any of our or the underwriters' officers, directors, advisors or consultants, any members or partners of the sponsor or their affiliates and funds and accounts advised by such members or partners, any affiliates of the sponsor, or any employees of such affiliates; (b) in the case of an individual, as a gift to such person's immediate family or to a trust, the beneficiary of which is a member of such person's immediate family, an affiliate of such person or to a charitable organization; (c) in the case of an individual, by virtue of laws of descent and distribution upon death of such person; (d) in the case of an individual, pursuant to a qualified domestic relations order; (e) by private sales or transfers made in connection with any forward purchase agreement or similar arrangement, in connection with an extension of the completion window or in connection with the consummation of a business combination at prices no greater than the price at which the shares or warrants were originally purchased; (f) pro rata distributions from our sponsor or the underwriters to its respective members, partners or shareholders pursuant to our sponsor's or the underwriters' limited liability company agreement or other charter documents; (g) by virtue of the laws of the State of Delaware or our sponsor's limited liability company agreement upon dissolution of our sponsor or upon dissolution of the underwriters; (h) in the event of our liquidation prior to our consummation of our initial business combination; (i) to a nominee or custodian of a person or entity to whom a transfer would be permissible under clauses (a) through (g); (j) to us for no value for cancellation in connection with the consummation of our initial business combination; or (k) in the event that, subsequent to our consummation of an initial business combination, we complete a liquidation, merger, share exchange or other similar transaction which results in all of our shareholders having the right to exchange their Class A ordinary shares for cash, securities or other property; provided, however, that in the case of clauses (a) through (g) and clause (i) these permitted transferees must enter into a written agreement agreeing to be bound by these transfer restrictions and the other restrictions contained in the letter agreements.

Registration Rights

The holders of the (i) founder shares, which were issued in a private placement prior to the closing of this offering, (ii) private warrants (including the underlying securities), which will be issued in a private placement simultaneously with the closing of this offering and (iii) warrants (including the underlying securities) that may be issued upon conversion of working capital loans have registration rights that require us to register a sale of any of our securities held by them and any other securities of the company acquired by them prior to the consummation of our initial business combination pursuant to a registration rights agreement signed on the effective date of this offering.

Pursuant to the registration rights agreement and assuming the underwriters exercise their over-allotment option in full and \$1,500,000 of working capital loans are converted into private warrants, we will be obligated to register up to 12,700,000 Class A ordinary shares. The number of Class A ordinary shares includes (i) 5,750,000 Class A ordinary shares to be issued upon conversion of the founder shares, (ii) 5,450,000 Class A ordinary shares underlying the private warrants, and (iii) up to 1,500,000 Class A ordinary shares underlying the working capital warrants. In addition, we will also be obligated to register up to 6,950,000 warrants, consisting of (i) 5,450,000 private warrants and (ii) up to 1,500,000 working capital warrants.

The holders of these securities are entitled to make up to three demands, excluding short form demands, that we register such securities. In addition, the holders have certain "piggy-back" registration rights with respect to registration statements filed subsequent to our completion of our initial business combination. We will bear the expenses incurred in connection with the filing of any such registration statements.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

On August 18, 2025, the Company issued to our sponsor 5,750,000 Class B ordinary shares for an aggregate purchase price of \$25,000, or \$0.004 per share, up to 750,000 of which are subject to forfeiture by the holders thereof depending on the extent to which the underwriters' over-allotment option is exercised.

The number of founder shares outstanding was determined based on the expectation that the total size of this offering would be a maximum of 23,000,000 units if the underwriters' over-allotment option is exercised in full, and therefore that such founder shares would represent approximately 20% of the outstanding shares after this offering. Up to 750,000 of the founder shares will be surrendered for no consideration depending on the extent to which the underwriters' over-allotment option is exercised.

Our sponsor has committed, pursuant to written agreements, to purchase an aggregate of 5,000,000 private warrants (\$450,000 if the underwriters' over-allotment option is exercised in full), each exercisable to purchase one Class A ordinary share at \$11.50 per share, at a price of \$1.00 per warrant, or \$5,000,000 in the aggregate (\$4,500,000 if the underwriters' over-allotment option is exercised in full), in a private placement that will close simultaneously with the closing of this offering. The private warrants will be identical to the public warrants sold as part of the units in this offering except that, so long as they are held by our sponsor or its permitted transferees, the private warrants (including the underlying securities) (i) may not, subject to certain limited exceptions, be transferred, assigned or sold by the holders until 30 days after the completion of our initial business combination, and (ii) will be entitled to registration rights.

Prior to or in connection with the completion of our initial business combination, there may be payment by the company to our sponsor, officers or directors, advisors, or our or their affiliates, of a finder's fee, advisory fee, consulting fee or success fee for any services they render in order to effectuate the completion of our initial business, which, if made prior to the completion of our initial business combination, will be paid from funds held outside the trust account.

We will reimburse our sponsor or an affiliate thereof in an amount equal to \$10,000 per month for office space, utilities and secretarial and administrative support made available to us. Upon completion of our initial business combination or our liquidation, we will cease paying these monthly fees.

Prior to the closing of this offering, our sponsor may loan us funds in an aggregate amount of up to \$400,000 to be used for a portion of the expenses of this offering. These loans would be non-interest bearing, unsecured and are due at the earlier of November 1, 2026, the date on which the closing of this offering occurs or the date on which we determine not to conduct an initial public offering.

In addition, in order to finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required on a non-interest basis. If we complete an initial business combination, we would repay such loaned amounts. In the event that the initial business combination does not close, we may use amounts held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used for such repayment. Up to \$1,500,000 of such loans may be convertible into warrants of the post business combination entity at a price of \$1.00 per warrant at the option of the applicable lender. Such warrants would be identical to the private warrants. Except as set forth above, the terms of such loans, if any, have not been determined and no written agreements exist with respect to such loans. Prior to the completion of our initial business combination, we do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

We have until the date that is 24 months from the closing of this offering (as may be extended by shareholder approval to amend our amended and restated memorandum and articles of association to extend the date by which we must consummate our initial business combination) or until such earlier liquidation date as our board of directors may approve, to consummate our initial business combination. If we anticipate that we may be unable to consummate our initial business combination within such 24-month period, we may seek shareholder approval to amend our amended and restated memorandum and articles of association to extend the date by which we must consummate our initial business combination. There are no limitations on the number of times we may seek shareholder approval for an extension or the length of time of any such extension. However, if we seek shareholder approval for an extension, holders of public shares will be offered an opportunity to redeem their shares at a per share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned thereon (less taxes payable), divided by the number of then issued and outstanding public shares, subject to applicable law.

Any of the foregoing payments to our sponsor, repayments of loans from our sponsor or repayments of working capital loans prior to our initial business combination will be made using funds held outside the trust account.

After our initial business combination, members of our management team who remain with us may be paid consulting, management or other fees from the combined company with any and all amounts being fully disclosed to our shareholders, to the extent then known, in the proxy solicitation or tender offer materials, as applicable, furnished to our shareholders. It is unlikely the amount of such compensation will be known at the time of distribution of such tender offer materials or at the time of a general meeting held to consider our initial business combination, as applicable, as it will be up to the directors of the post-combination business to determine executive and director compensation.

We have entered into a registration rights agreement with respect to the founder shares and private warrants, which is described under the heading “Principal Shareholders — Registration Rights.”

Policy for Approval of Related Party Transactions

The audit committee of our board of directors has adopted a policy setting forth the policies and procedures for its review and approval or ratification of “related party transactions.” A “related party transaction” is any consummated or proposed transaction or series of transactions: (i) in which the company was or is to be a participant; (ii) the amount of which exceeds (or is reasonably expected to exceed) the lesser of \$120,000 or 1% of the average of the company’s total assets at year-end for the prior two completed fiscal years in the aggregate over the duration of the transaction (without regard to profit or loss); and (iii) in which a “related party” had, has or will have a direct or indirect material interest. “Related parties” under this policy will include: (i) our directors, nominees for director or officers or any person who has served in such roles since the beginning of the most recent fiscal year, even if he or she does not currently serve in that role; (ii) any record or beneficial owner of more than 5% of any class of our voting securities; (iii) any immediate family member of any of the foregoing if the foregoing person is a natural person; and (iv) any other person who maybe a “related person” pursuant to Item 404 of Regulation S-K under the Exchange Act. Pursuant to the policy, the audit committee will consider (i) the relevant facts and circumstances of each related party transaction, including if the transaction is on terms comparable to those that could be obtained in arm’s-length dealings with an unrelated third party, (ii) the extent of the related party’s interest in the transaction, (iii) whether the transaction contravenes our code of ethics or other policies, (iv) whether the audit committee believes the relationship underlying the transaction to be in the best interests of the company and its shareholders and (v) if the related party is a director or an immediate family member of a director, the effect that the transaction may have on a director’s status as an independent member of the board and on his or her eligibility to serve on the board’s committees. Management will present to the audit committee each proposed related party transaction, including all relevant facts and circumstances relating thereto. Under the policy, we may consummate related party transactions only if our audit committee approves or ratifies the transaction in accordance with the guidelines set forth in the policy. The policy will not permit any director or officer to participate in the discussion of, or decision concerning, a related person transaction in which he or she is the related party.

We are not prohibited from paying any fees (including advisory fees), reimbursements or cash payments to our sponsor, officers or directors, or our or their affiliates, for services rendered to us prior to or in connection with the completion of our initial business combination, including the following payments, all of which, if made prior to the completion of our initial business combination, will be paid from funds held outside the trust account:

- Repayment of up to an aggregate of \$400,000 in loans made to us by our sponsor to cover offering-related and organizational expenses;
- Reimbursement for office space, utilities and secretarial and administrative support made available to us by our sponsor or an affiliate thereof, in an amount equal to \$10,000 per month;
- Payment of consulting, success or finder fees to our sponsor, officers or directors, advisors, or our or their affiliates in connection with the consummation of our initial business combination;
- We may engage our sponsor or an affiliate of our sponsor as an advisor or otherwise in connection with our initial business combination and certain other transactions and pay such person or entity a salary or fee in an amount that constitutes a market standard for comparable transactions;
- Reimbursement for any out-of-pocket expenses related to identifying, investigating, negotiating and completing an initial business combination; and
- Repayment of loans which may be made by our sponsor or an affiliate of our sponsor or certain of our officers and directors to finance transaction costs in connection with an intended initial business combination. Up to \$1,500,000 of such loans may be convertible into warrants of the post-business combination entity at a price of \$1.00 per warrant at the option of the applicable lender. Such warrants would be identical to the private warrants. Except for the foregoing, the terms of such loans, if any, have not been determined and no written agreements exist with respect to such loans.

DESCRIPTION OF SECURITIES

We are a Cayman Islands exempted company and our affairs are governed by our amended and restated memorandum and articles of association, the Companies Act and the common law of the Cayman Islands. Pursuant to our amended and restated memorandum and articles of association, we are authorized to issue 500,000,000 Class A ordinary shares, \$0.0001 par value each, 50,000,000 Class B ordinary shares, \$0.0001 par value each as well as 5,000,000 preference shares, \$0.0001 par value each. The following description summarizes certain terms of our shares as set out more particularly in our amended and restated memorandum and articles of association. Because it is only a summary, it may not contain all the information that is important to you.

Units

Each unit has an offering price of \$10.00 and consists of one Class A ordinary share and one-half of one warrant. Each whole warrant entitles the holder thereof to purchase one Class A ordinary share at a price of \$11.50 per share, subject to adjustment as described in this prospectus. Pursuant to the warrant agreement, a warrant holder may exercise its warrants only for a whole number of the company's Class A ordinary shares. This means only a whole warrant may be exercised at any given time by a warrant holder. For example, if a warrant holder holds one-half of one warrant to purchase a Class A ordinary share, such warrant will not be exercisable. If a warrant holder holds two halves of one warrant, such whole warrant will be exercisable for one Class A ordinary share at a price of \$11.50 per share. The Class A ordinary shares and warrants comprising the units are expected to begin separate trading on the 52nd day following the date of this prospectus unless Stifel informs us of its decision to allow earlier separate trading, subject to our having filed the Current Report on Form 8-K described below and having issued a press release announcing when such separate trading will begin. Once the Class A ordinary shares and warrants commence separate trading, holders will have the option to continue to hold units or separate their units into the component securities. Holders will need to have their brokers contact our transfer agent in order to separate the units into Class A ordinary shares and warrants. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. Accordingly, unless you purchase at least two units, you will not be able to receive or trade a whole warrant.

In no event will the Class A ordinary shares and warrants be traded separately until we have filed with the SEC a Current Report on Form 8-K which includes an audited balance sheet reflecting our receipt of the gross proceeds of this offering. We will file a Current Report on Form 8-K which includes this audited balance sheet upon the completion of this offering. If the over-allotment option is exercised following the initial filing of such Current Report on Form 8-K, a second or amended Current Report on Form 8-K will be filed to provide updated information to reflect the exercise of the over-allotment option.

Ordinary Shares

Prior to the date of this prospectus, there were 5,750,000 Class B ordinary shares outstanding, all of which were held of record by our initial shareholders, so that our initial shareholders (assuming our initial shareholders do not purchase any units in this offering) will own approximately 20% of our issued and outstanding shares after this offering. Up to 750,000 of the founder shares will be surrendered for no consideration depending on the extent to which the underwriters' over-allotment option is exercised. Upon the closing of this offering, 25,000,000 of our ordinary shares will be issued and outstanding (assuming no exercise of the underwriters' over-allotment option and the corresponding surrender for no consideration of 750,000 founder shares) comprising:

- 20,000,000 Class A ordinary shares underlying public units issued as part of this offering; and
- 5,000,000 Class B ordinary shares held by our initial shareholders.

Ordinary shareholders of record are entitled to one vote for each share held on all matters to be voted on by shareholders. However, only holders of Class B ordinary shares will have the right to (i) appoint and remove directors in any election held prior to the completion of our initial business combination, meaning that holders of Class A ordinary shares will not have the right to appoint any directors until after the completion of our initial business combination and (ii) continue the company in a jurisdiction outside the Cayman Islands (including any special resolution required to amend our constitutional documents or to adopt new constitutional documents, in each case, as a result of our approving a transfer by way of continuation in a jurisdiction outside the Cayman Islands). The provisions of our amended and restated memorandum and articles of association governing these matters prior to our initial business combination may only be amended by a special resolution passed by the affirmative vote of the holders representing at least 90% of the issued Class B ordinary shares. On any other matter submitted to a vote of our shareholders prior to or in connection with the completion of our initial business combination, holders of Class A ordinary shares and holders of Class B ordinary shares will vote together as a single class on all matters submitted to a vote of our shareholders except as required by law. Unless otherwise specified in our amended and restated memorandum and articles of association, or as required by applicable provisions of the Companies Act or applicable stock exchange rules, the affirmative vote of a majority of our ordinary shares that are represented in person or by proxy and are voted is required to approve any such matter voted on by our shareholders. Approval of certain actions will require a special resolution under Cayman Islands law, which (except as outlined above) requires the affirmative vote of at least two-thirds of the shareholders who, being entitled to do so, attend and vote (whether in person or by proxy) at a general meeting, and approving a statutory merger or consolidation with another company. Our board of directors is divided into three classes, each of which will generally serve for a term of three years with only one class of directors being appointed in each year. There is no cumulative voting with respect to the appointment of directors, with the result that the holders of more than 50% of the shares entitled to vote and voted for the appointment of directors can appoint all of the directors. Our shareholders are entitled to receive ratable dividends when, as and if declared by the board of directors out of funds legally available therefor.

Because our amended and restated memorandum and articles of association authorize the issuance of up to 500,000,000 Class A ordinary shares, if we were to enter into a business combination, we may (depending on the terms of such a business combination) be required to increase the number of Class A ordinary shares which we are authorized to issue at the same time as our shareholders vote on the business combination to the extent we seek shareholder approval in connection with our initial business combination. Our board of directors is divided into three classes with only one class of directors being appointed in each year and each class (except for those directors appointed prior to our first annual general meeting) serving a three-year term.

In accordance with Nasdaq corporate governance requirements, we are not required to hold an annual general meeting until one year after our first fiscal year end following our listing on Nasdaq. There is no requirement under the Companies Act for us to hold annual or general meetings or appoint directors other than to ensure that the company has at least one director at all times. We may not hold an annual general meeting to appoint new directors prior to the consummation of our initial business combination.

We will provide our public shareholders with the opportunity to redeem all or a portion of their public shares, regardless of whether they abstain, vote for, or vote against, our initial business combination, upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account calculated as of two business days prior to the consummation of our initial business combination, including interest earned on the funds held in the trust account (less taxes payable), divided by the number of then outstanding public shares, subject to the limitations and on the conditions described herein. The amount in the trust account is initially anticipated to be \$10.00 per public share. The per share amount we will distribute to investors who properly redeem their shares will not be reduced by the deferred underwriting commissions we will pay to the underwriters. Our sponsor, officers and directors have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to their founder shares and public shares in connection with the completion of our initial business combination. Unlike many special purpose acquisition companies that hold shareholder votes and conduct proxy solicitations in conjunction with their initial business combinations and provide for related redemptions of public shares for cash upon completion of such initial business combinations even when a vote is not required by law, if a shareholder vote is not required by law and we do not decide to hold a shareholder vote for business or other legal reasons, we will, pursuant to our amended and restated memorandum and articles of association, conduct the redemptions pursuant to the tender offer rules of the SEC, and file tender offer documents with the SEC prior to completing our initial business combination. Our amended and restated memorandum and articles of association require these tender offer documents to contain substantially the same financial and other information about our initial business combination and the redemption rights as is required under the SEC's proxy rules. If, however, a shareholder approval of the transaction is required by law, or we decide to obtain shareholder approval for business or other reasons, we will, like many special purpose acquisition companies, offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. If we seek shareholder approval, we will complete our initial business combination only if we receive an ordinary resolution under Cayman Islands law and our amended and restated memorandum and articles of association, which requires the affirmative vote of a majority of the company's shareholders as, being entitled to do so, attend and vote (whether in person or by proxy) at a general meeting of the company. However, if our initial business combination is structured as a statutory merger or consolidation of the company with another company under Cayman Islands law, the approval of our initial business combination will require a special resolution, which requires the affirmative vote of at least two-thirds of the company's shareholders as, being entitled to do so, attend and vote (whether in person or by proxy) at a general meeting of the Company. However, the participation of our sponsor, officers, directors, advisor or our or their affiliates in privately-negotiated transactions (as described in this prospectus), if any, could result in the approval of our initial business combination even if a majority of our public shareholders vote, or indicate their intention to vote, against such initial business combination. For purposes of seeking approval of an ordinary resolution, non-votes will have no effect on the approval of our initial business combination once a quorum is obtained. Our amended and restated memorandum and articles of association require that at least five clear days' notice will be given of any general meeting.

If we seek shareholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated memorandum and articles of association provide that a public shareholder, together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from redeeming its shares with respect to Excess Shares without our prior consent. However, we would not be restricting our shareholders’ ability to vote all of their shares (including Excess Shares) for or against our initial business combination. Our shareholders’ inability to redeem the Excess Shares will reduce their influence over our ability to complete our initial business combination, and such shareholders could suffer a material loss in their investment if they sell such Excess Shares on the open market. Additionally, such shareholders will not receive redemption distributions with respect to the Excess Shares if we complete our initial business combination. And, as a result, such shareholders will continue to hold that number of shares exceeding 15% and, in order to dispose such shares would be required to sell their shares in open market transactions, potentially at a loss.

If we seek shareholder approval in connection with our initial business combination, our sponsor, officers and directors have agreed to vote their founder shares and any public shares purchased during or after this offering (including in open market and privately-negotiated transactions) in favor of our initial business combination (except that any public shares such parties may purchase in compliance with the requirements of Rule 14e-5 under the Exchange Act would not be voted in favor of approving the business combination transaction). As a result, in addition to our founder shares, we would need 7,500,001 public shares, or 37.5% of the 20,000,000 public shares sold in this offering, to be voted in favor of an initial business combination in order to have our initial business combination approved, assuming all outstanding shares are voted, the over-allotment option is not exercised and the parties to the letter agreement do not acquire any Class A ordinary shares. Assuming that only the holders of one-third of our issued and outstanding ordinary shares, representing a quorum under our amended and restated memorandum and articles of association vote their shares at a general meeting of the company, we will not need any public shares in addition to our founder shares to be voted in favor of an initial business combination in order to approve an initial business combination. Additionally, each public shareholder may elect to redeem their public shares irrespective of whether they vote for or against the proposed transaction, or whether they do not vote or abstain from voting on the proposed transaction, or whether they were a public shareholder on the record date for the general meeting held to approve the proposed transaction.

Pursuant to our amended and restated memorandum and articles of association, if we have not completed our initial business combination within the completion window, we will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter (and subject to lawfully available funds therefor), redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account (which interest shall be net of taxes and less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then-outstanding public shares, which redemption will completely extinguish public shareholders’ rights as shareholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining shareholders and our board of directors, liquidate and dissolve, subject in each case to our obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law. Our sponsor, officers and directors have entered into a letter agreement with us, pursuant to which they have agreed to waive their rights to liquidating distributions from the trust account with respect to their founder shares if we fail to complete our initial business combination within the completion window. However, if our sponsor or management team acquire public shares in or after this offering, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to complete our initial business combination within the prescribed time period.

In the event of a liquidation, dissolution or winding up of the company after a business combination, our shareholders are entitled to share ratably in all assets remaining available for distribution to them after payment of liabilities and after provision is made for each class of shares, if any, having preference over the ordinary shares. Our shareholders have no preemptive or other subscription rights. There are no sinking fund provisions applicable to the ordinary shares, except that we will provide our public shareholders with the opportunity to redeem their public shares for cash at a per share price equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account (less taxes payable), divided by the number of then outstanding public shares, upon the completion of our initial business combination, subject to the limitations and on the conditions described herein.

Founder Shares

The founder shares are designated as Class B ordinary shares and, except as described below, are identical to the Class A ordinary shares included in the units being sold in this offering, and holders of founder shares have the same shareholder rights as public shareholders, except that (i) the founder shares are subject to certain transfer restrictions, as described in more detail below, (ii) the founder shares are entitled to registration rights, (iii) our sponsor, officers and directors have entered into a letter agreement with us, pursuant to which they have agreed to (A) waive their redemption rights with respect to their founder shares and public shares in connection with the completion of our initial business combination, (B) waive their redemption rights with respect to their founder shares and public shares in connection with a shareholder vote to approve an amendment to our amended and restated memorandum and articles of association (a) to modify the substance or timing of our obligation to allow redemption in connection with our initial business combination or to redeem 100% of our public shares if we have not consummated an initial business combination within the completion window or (b) with respect to any other material provisions relating to shareholders’ rights or pre-initial business combination activity, (C) waive their rights to liquidating distributions from the trust account with respect to their founder shares if we fail to complete our initial business combination within the completion window, although they will be entitled to liquidating distributions from the trust account with respect to any public shares they hold if we fail to complete our initial business combination within such time period and to liquidating distributions from assets outside the trust account and (D) vote any founder shares held by them and any public shares purchased during or after this offering (including in open market and privately-negotiated transactions) in favor of our initial business combination (except that any public shares such parties may purchase in compliance with the requirements of Rule 14e-5 under the Exchange Act would not be voted in favor of approving the business combination transaction), (iv) the founder shares are automatically convertible into Class A ordinary shares concurrently with or immediately following the consummation of our initial business combination or earlier at the option of the holder on a one-for-one basis, subject to adjustment as described herein and in our amended and restated memorandum and articles of association, and (v) prior to the closing of our initial business combination, only holders of our Class B ordinary shares will be entitled to vote on the appointment and removal of directors or continuing the company in a jurisdiction outside the Cayman Islands (including any special resolution required to amend our constitutional documents or to adopt new constitutional documents, in each case, as a result of our approving a transfer by way of continuation in a jurisdiction outside the Cayman Islands).

The founder shares will automatically convert into Class A ordinary shares concurrently with or immediately following the consummation of our initial business combination or earlier at the option of the holder on a one-for-one basis, subject to adjustment for share sub-divisions, share capitalizations, reorganizations, recapitalizations and the like, and subject to further adjustment as provided herein. In the case that additional Class A ordinary shares, or any other equity-linked securities, are issued or deemed issued in excess of the amounts sold in this offering and related to or in connection with the closing of the initial business combination, the ratio at which Class B ordinary shares convert into Class A ordinary shares will be adjusted (unless the holders of a majority of the outstanding Class B ordinary shares agree to waive such adjustment with respect to any such issuance or deemed issuance) so that the number of Class A ordinary shares issuable upon conversion of all Class B ordinary shares will equal, in the aggregate, approximately 20% of the sum of (i) the total number of all Class A ordinary shares outstanding upon the completion of this offering (including any Class A ordinary shares issued pursuant to the underwriters' over-allotment option), plus (ii) all Class A ordinary shares and equity-linked securities issued or deemed issued, in connection with the closing of the initial business combination (excluding any shares or equity-linked securities issued, or to be issued, to any seller in the initial business combination and any private warrants issued to our sponsor or any of its affiliates or to our officers or directors upon conversion of working capital loans) minus (iii) any redemptions of Class A ordinary shares by public shareholders in connection with an initial business combination; provided that such conversion of founder shares will never occur on a less than one-for-one basis.

With certain limited exceptions, the founder shares are not transferable, assignable or saleable (except to our officers and directors and other persons or entities affiliated with our sponsor, each of whom will be subject to the same transfer restrictions) until the earlier of (A) 180 days after the completion of our initial business combination and (B) the date following the completion of our initial business combination on which we complete a liquidation, merger, share exchange or other similar transaction that results in all of our shareholders having the right to exchange their Class A ordinary shares for cash, securities or other property. Up to 750,000 founder shares will be surrendered to us for no consideration depending on the exercise of the over-allotment option.

Except in certain limited circumstances, no member of the sponsor may transfer all or any portion of its membership interests in the sponsor. For more information, see "*Principal Shareholders — Restrictions on Transfers of Founder Shares and Private Warrants.*"

Register of Members

Under Cayman Islands law, we must keep a register of members and there will be entered therein:

- the names and addresses of the members, a statement of the shares held by each member, and of the amount paid or agreed to be considered as paid, on the shares of each member;
- whether voting rights attach to the shares in issue;
- distinguishes each share by its number (to the extent the share has a number);
- confirms the number and category of shares held by each member;
- the date on which the name of any person was entered on the register as a member; and
- the date on which any person ceased to be a member.

Under Cayman Islands law, the register of members of our company is prima facie evidence of the matters set out therein (i.e. the register of members will raise a presumption of fact on the matters referred to above unless rebutted) and a member registered in the register of members will be deemed as a matter of Cayman Islands law to have legal title to the shares as set against its name in the register of members. Upon the closing of this public offering, the register of members will be immediately updated to reflect the issue of shares by us. Once our register of members has been updated, the shareholders recorded in the register of members will be deemed to have legal title to the shares set against their name. However, there are certain limited circumstances where an application may be made to a Cayman Islands court for a determination on whether the register of members reflects the correct legal position. Further, the Cayman Islands court has the power to order that the register of members maintained by a company should be rectified where it considers that the register of members does not reflect the correct legal position. If an application for an order for rectification of the register of members were made in respect of our ordinary shares, then the validity of such shares may be subject to re-examination by a Cayman Islands court.

Preference Shares

Our amended and restated memorandum and articles of association authorize 5,000,000 preference shares and provide that preference shares may be issued from time to time in one or more series or classes. Our board of directors is authorized to fix the voting rights, if any, designations, powers, preferences, the relative, participating, optional or other special rights and any qualifications, limitations and restrictions thereof, applicable to the shares of each series or class. Our board of directors will be able to, without shareholder approval, issue preference shares with voting and other rights that could adversely affect the voting power and other rights of the holders of the ordinary shares and could have anti-takeover effects. The ability of our board of directors to issue preference shares without shareholder approval could have the effect of delaying, deferring, preventing a change of control of us or the removal of existing management, restricting dividends in respect of the ordinary shares, diluting the voting power of the ordinary shares or providing that holders of preference shares have the right to vote on matters as a class or impairing the liquidation rights of the ordinary shares. We have no preference shares issued and outstanding at the date hereof. Although we do not currently intend to issue any preference shares, we cannot assure you that we will not do so in the future. No preference shares are being issued or registered in this offering.

Warrants

Public Warrants

Each whole warrant entitles the registered holder to purchase one Class A ordinary share at a price of \$11.50 per share, subject to adjustment as discussed below, at any time commencing 30 days after the completion of our initial business combination, provided that we have an effective registration statement under the Securities Act covering the Class A ordinary shares issuable upon exercise of the warrants and a current prospectus relating to them is available (or we permit holders to exercise their warrants on a cashless basis under the circumstances specified in the warrant agreement) and such shares are registered, qualified or exempt from registration under the securities, or blue sky, laws of the state of residence of the holder. Pursuant to the warrant agreement, a warrant holder may exercise its warrants only for a whole number of Class A ordinary shares. This means only a whole warrant may be exercised at a given time by a warrant holder. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. Accordingly, unless you purchase at least two units, you will not be able to receive or trade a whole warrant. The warrants will expire five years after the completion of our initial business combination, at 5:00 p.m., New York City time, or earlier upon redemption or liquidation.

We will not be obligated to deliver any Class A ordinary shares pursuant to the exercise of a warrant and will have no obligation to settle such warrant exercise unless a registration statement under the Securities Act with respect to the Class A ordinary shares underlying the warrants is then effective and a prospectus relating thereto is current, subject to our satisfying our obligations described below with respect to registration. No warrant will be exercisable and we will not be obligated to issue a Class A ordinary share upon exercise of a warrant unless the Class A ordinary share issuable upon such warrant exercise has been registered, qualified or deemed to be exempt under the securities laws of the state of residence of the registered holder of the warrants. In the event that the conditions in the two immediately preceding sentences are not satisfied with respect to a warrant, the holder of such warrant will not be entitled to exercise such warrant and such warrant will have no value and expire worthless. In no event will we be required to net cash settle any warrant. In the event that a registration statement is not effective for the exercised warrants, the purchaser of a unit containing such warrant will have paid the full purchase price for the unit solely for the Class A ordinary share underlying such unit.

We have registered the Class A ordinary shares issuable upon exercise of the warrants in the registration statement of which this prospectus forms a part because the warrants will become exercisable 30 days after the completion of our initial business combination, which may be within one year of this offering. However, because the warrants will be exercisable until their expiration date of up to five years after the completion of our initial business combination, in order to comply with the requirements of Section 10(a)(3) of the Securities Act following the consummation of our initial business combination, under the terms of the warrant agreement, we have agreed that, as soon as practicable, but in no event later than 20 business days, after the closing of our initial business combination, we will use our commercially reasonable efforts to file with the SEC a new registration statement covering the registration under the Securities Act of the Class A ordinary shares issuable upon exercise of the warrants and thereafter will use our commercially reasonable efforts to cause the same to become effective within 60 business days following our initial business combination and to maintain a current prospectus relating to the Class A ordinary shares issuable upon exercise of the warrants until the expiration of the warrants in accordance with the provisions of the warrant agreement. If a registration statement covering the Class A ordinary shares issuable upon exercise of the warrants is not effective by the sixty-first (61st) business day after the closing of our initial business combination, warrant holders may, until such time as there is an effective registration statement and during any period when we will have failed to maintain an effective registration statement, exercise warrants on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act or another exemption. Notwithstanding the above, if our Class A ordinary shares are at the time of any exercise of a warrant not listed on a national securities exchange such that they satisfy the definition of a “covered security” under Section 18(b)(1) of the Securities Act, we may, at our option, require holders of public warrants who exercise their warrants to do so on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act and, in the event we so elect, we will not be required to file or maintain in effect a registration statement.

Redemption of warrants when the price per Class A ordinary share equals or exceeds \$18.00. Once the warrants become exercisable, we may redeem the outstanding warrants:

- in whole and not in part;
- at a price of \$0.01 per warrant; upon a minimum of 30 days’ prior written notice of redemption (the “30-day redemption period”); and
- if, and only if, the closing price of the Class A ordinary shares equals or exceeds \$18.00 per share (as adjusted for adjustments to the number of shares issuable upon exercise or the exercise price of a warrant as described under the heading “— Redemption Procedures — Anti-dilution Adjustments”) for any 20 trading days within a 30-trading day period commencing once the warrants become exercisable and ending three business days before we send the notice of redemption to the warrant holders.

We will not redeem the warrants as described above unless a registration statement under the Securities Act covering the issuance of the Class A Ordinary Shares issuable upon exercise of the warrants is then effective and a current prospectus relating to those Class A Ordinary Shares is available throughout the measurement period. If and when the warrants become redeemable by us, we may not exercise our redemption right if the issuance of Ordinary Shares upon exercise of the warrants is not exempt from registration or qualification under applicable state blue sky laws or we are unable to effect such registration or qualification. We will use our best efforts to register or qualify such Ordinary Shares under the blue sky laws of the state of residence in those states in which the warrants were offered by us in this offering. We have established the last of the redemption criterion discussed above to prevent a redemption call unless there is at the time of the call a significant premium to the warrant exercise price. If the foregoing conditions are satisfied and we issue a notice of redemption of the warrants, each warrant holder will be entitled to exercise his, her or its warrant prior to the scheduled redemption date. However, the price of the Class A ordinary shares may fall below the \$18.00 redemption trigger price (as adjusted for share sub-divisions, share capitalizations, reorganizations, recapitalizations and the like) as well as the \$11.50 warrant exercise price after the redemption notice is issued.

Redemption procedures.

A holder of a warrant may notify us in writing in the event it elects to be subject to a requirement that such holder will not have the right to exercise such warrant, to the extent that after giving effect to such exercise, such person (together with such person’s affiliates), to the warrant agent’s actual knowledge, would beneficially own in excess of 4.9% or 9.8% (as specified by the holder) of the Class A ordinary shares outstanding immediately after giving effect to such exercise.

Anti-dilution Adjustments. If the number of outstanding Class A ordinary shares is increased by a share capitalization payable in Class A ordinary shares, or by a sub-division of ordinary shares or other similar event, then, on the effective date of such share capitalization, sub-division or similar event, the number of Class A ordinary shares issuable on exercise of each warrant will be increased in proportion to such increase in the outstanding ordinary shares. A rights offering made to all or substantially all holders of ordinary shares entitling holders to purchase Class A ordinary shares at a price less than the fair market value will be deemed a share capitalization of a number of Class A ordinary shares equal to the product of (i) the number of Class A ordinary shares actually sold in such rights offering (or issuable under any other equity securities sold in such rights offering that are convertible into or exercisable for Class A ordinary shares) and (ii) the quotient of (x) the price per Class A ordinary share paid in such rights offering and (y) the fair market value. For these purposes (i) if the rights offering is for securities convertible into or exercisable for Class A ordinary shares, in determining the price payable for Class A ordinary shares, there will be taken into account any consideration received for such rights, as well as any additional amount payable upon exercise or conversion and (ii) fair market value means the volume weighted average price of Class A ordinary shares as reported during the ten (10) trading day period ending on the trading day prior to the first date on which the Class A ordinary shares trade on the applicable exchange or in the applicable market, regular way, without the right to receive such rights.

In addition, if we, at any time while the warrants are outstanding and unexpired, pay a dividend or make a distribution in cash, securities or other assets to all or substantially all the holders of Class A ordinary shares on account of such Class A ordinary shares (or other securities into which the warrants are convertible), other than (a) as described above, (b) certain ordinary cash dividends, (c) to satisfy the redemption rights of the holders of Class A ordinary shares in connection with a proposed initial business combination, or (d) in connection with the redemption of our public shares upon our failure to complete our initial business combination, then the warrant exercise price will be decreased, effective immediately after the effective date of such event, by the amount of cash and/or the fair market value of any securities or other assets paid on each Class A ordinary share in respect of such event.

If the number of outstanding Class A ordinary shares is decreased by a consolidation, combination, reverse share sub-division or reclassification of Class A ordinary shares or other similar event, then, on the effective date of such consolidation, combination, reverse share sub-division, reclassification or similar event, the number of Class A ordinary shares issuable on exercise of each warrant will be decreased in proportion to such decrease in outstanding Class A ordinary shares.

Whenever the number of Class A ordinary shares purchasable upon the exercise of the warrants is adjusted, as described above, the warrant exercise price will be adjusted by multiplying the warrant exercise price immediately prior to such adjustment by a fraction (x) the numerator of which will be the number of Class A ordinary shares purchasable upon the exercise of the warrants immediately prior to such adjustment, and (y) the denominator of which will be the number of Class A ordinary shares so purchasable immediately thereafter.

In addition, if (x) we issue additional Class A ordinary shares or equity-linked securities for capital raising purposes in connection with the closing of our initial business combination at a Newly Issued Price of less than \$9.20 per Class A ordinary share, (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds (including from such issuances and this offering), and interest thereon, available for the funding of our initial business combination on the date of the consummation of our initial business combination (net of redemptions), and (z) the Market Value of our Class A ordinary shares is below \$9.20 per share, then the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, and the \$18.00 per share redemption trigger prices described above under “*Description of Securities — Warrants — Public Warrants — Redemption of warrants when the price per Class A ordinary share equals or exceeds \$18.00*” will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the Newly Issued Price.

In case of any reclassification or reorganization of the outstanding Class A ordinary shares (other than those described above or that solely affects the par value of such Class A ordinary shares), or in the case of any merger or consolidation of us with or into another corporation (other than a consolidation or merger in which we are the continuing corporation and that does not result in any reclassification or reorganization of our issued and outstanding Class A ordinary shares), or in the case of any sale or conveyance to another corporation or entity of the assets or other property of us as an entirety or substantially as an entirety in connection with which we are dissolved, the holders of the warrants will thereafter have the right to purchase and receive, upon the basis and upon the terms and conditions specified in the warrants and in lieu of the Class A ordinary shares immediately theretofore purchasable and receivable upon the exercise of the rights represented thereby, the kind and amount of Class A ordinary shares or other securities or property (including cash) receivable upon such reclassification, reorganization, merger or consolidation, or upon a dissolution following any such sale or transfer, that the holder of the warrants would have received if such holder had exercised their warrants immediately prior to such event (the “Alternative Issuance”). If less than 70% of the consideration receivable by the holders of Class A ordinary shares in such a transaction is payable in the form of securities in the successor entity that are listed for trading on a national securities exchange or quoted in an established over-the-counter market, or are to be so listed for trading or quoted immediately following such event, and if the registered holder of the warrant properly exercises the warrant within thirty days following public disclosure of such transaction, the warrant exercise price will be reduced as specified in the warrant agreement based on the Black-Scholes Warrant Value (as defined in the warrant agreement) of the warrant. The purpose of such exercise price reduction is to provide additional value to holders of the warrants when an extraordinary transaction occurs during the exercise period of the warrants pursuant to which the holders of the warrants otherwise do not receive the full potential value of the warrants.

The warrants will be issued in registered form under a warrant agreement between Continental Stock Transfer & Trust Company, as warrant agent, and us. The warrant agreement provides that the terms of the warrants may be amended without the consent of any holder for the purpose of (i) curing any ambiguity or to correct any defective provision or mistake, including to conform the provisions of the warrant agreement to the description of the terms of the warrants and the warrant agreement set forth in this prospectus, (ii) adjusting the provisions relating to cash dividends on ordinary shares as contemplated by and in accordance with the warrant agreement, (iii) adding or changing any provisions with respect to matters or questions arising under the warrant agreement as the parties to the warrant agreement may deem necessary or desirable and that the parties deem to not adversely affect the rights of the registered holders of the warrants or (iv) to provide for the delivery of the Alternative Issuance. All other modifications or amendments require the vote or written consent of the holders of at least 50% of the then-outstanding public warrants, except that amending our warrant agreement will require a vote of holders of at least 50% of the private warrants and working capital warrants (including, for the avoidance of doubt, the forfeiture or cancellation of any private warrants or working capital warrants) solely with respect to any amendment to the terms of the private warrants or working capital warrants (including the vote or written consent of Stifel with respect to the private warrants).

You should review a copy of the warrant agreement, which was filed as an exhibit to the registration statement of which this prospectus is a part, for a complete description of the terms and conditions applicable to the warrants.

The warrants may be exercised upon surrender of the warrant certificate on or prior to the expiration date at the offices of the warrant agent, with the exercise form on the reverse side of the warrant certificate completed and executed as indicated, accompanied by full payment of the exercise price (or on a cashless basis, if applicable), by certified or official bank check payable to us, for the number of warrants being exercised. The warrant holders do not have the rights or privileges of holders of ordinary shares and any voting rights until they exercise their warrants and receive Class A ordinary shares. After the issuance of Class A ordinary shares upon exercise of the warrants, each holder will be entitled to one vote for each share held of record on all matters to be voted on by shareholders.

We have agreed that, subject to applicable law, any action, proceeding or claim against us arising out of or relating in any way to the warrant agreement will be brought and enforced in the courts of the State of New York located in the County of New York or the United States District Court for the Southern District of New York, and we irrevocably submit to such jurisdiction, which jurisdiction will be the exclusive forum for any such action, proceeding or claim. See *“Risk Factors — Risks Relating to Our Securities — Our warrant agreement designates the courts of the State of New York or the United States District Court for the Southern District of New York as the sole and exclusive forum for certain types of actions and proceedings that may be initiated by holders of our warrants, which could limit the ability of warrant holders to obtain a favorable judicial forum for disputes with our company.”* This provision applies to claims under the Securities Act but does not apply to claims under the Exchange Act or any claim for which the federal district courts of the United States of America are the sole and exclusive forum.

Private Warrants

The private warrants and working capital warrants are identical to the public warrants sold as part of the units in this offering except that, so long as they are held by our sponsor or its permitted transferees, the private warrants and working capital warrants (i) may not (including the Class A ordinary shares issuable upon exercise of these warrants), subject to certain limited exceptions, be transferred, assigned or sold by the holders until 30 days after the completion of our initial business combination and (ii) will be entitled to registration rights. Amending our warrant agreement will require a vote of holders of at least 50% of the private warrants or working capital warrants (including, for the avoidance of doubt, the forfeiture or cancellation of any private warrants or working capital warrants) solely with respect to any amendment to the terms of the private warrants or working capital warrants (including the vote or written consent of Stifel with respect to the private warrants). All other modifications or amendments require the vote or written consent of the holders of at least 50% of the then-outstanding public warrants.

Dividends

We have not paid any cash dividends on our ordinary shares to date and do not intend to pay cash dividends prior to the completion of our initial business combination. A Cayman Islands company may pay a dividend on its shares out of either profit, retained earnings and/or the share premium account, provided that in no circumstances may a dividend be paid if following such payment the company would be unable to pay its debts as they fall due in the ordinary course of business. Subject to applicable law, the payment of cash dividends following completion of our initial business combination will be within the discretion of our board of directors at such time and will be dependent upon our revenues and earnings, if any, capital requirements and general financial condition at such time. There is no certainty we will be in a position to, or decide to, pay cash dividends after completing any business combination. Further, if we incur any indebtedness in connection with our initial business combination, our ability to declare dividends following completion of our initial business combination may be limited by restrictive covenants we may agree to in connection therewith.

Our Transfer Agent and Warrant Agent

The transfer agent for our Class A ordinary shares and warrant agent for our warrants is Continental Stock Transfer & Trust Company. We have agreed to indemnify Continental Stock Transfer & Trust Company in its roles as transfer agent and warrant agent, its agents and each of its shareholders, directors, officers and employees against all claims and losses that may arise out of acts performed or omitted for its activities in that capacity, except for any liability due to any gross negligence or intentional misconduct of the indemnified person or entity. Continental Stock Transfer & Trust Company has agreed that it has no right of set-off or any right, title, interest or claim of any kind to, or to any monies in, the trust account, and has irrevocably waived any right, title, interest or claim of any kind to, or to any monies in, the trust account that it may have now or in the future. Accordingly, any indemnification provided will only be able to be satisfied, or a claim will only be able to be pursued, solely against us and our assets outside the trust account and not against the any monies in the trust account or interest earned thereon.

Certain Differences in Corporate Law

Cayman Islands companies are governed by the Companies Act. The Companies Act is modeled on English law but does not follow recent English law statutory enactments, and differs from laws applicable to United States corporations and their shareholders. Set forth below is a summary of the material differences between the provisions of the Companies Act applicable to us and the laws applicable to companies incorporated in the United States and their shareholders.

Mergers and Similar Arrangements. In certain circumstances, the Companies Act allows for mergers or consolidations between two Cayman Islands companies, or between a Cayman Islands company and a company incorporated in another jurisdiction (provided that is facilitated by the laws of that other jurisdiction) so as to form a single surviving company.

Where the merger or consolidation is between two Cayman Islands companies, the directors of each company must approve a written plan of merger or consolidation containing certain prescribed information. That plan or merger or consolidation must then be authorized by either (i) a special resolution of the shareholders of each company; and (ii) such other authorization, if any, as may be specified in such constituent company's articles of association. No shareholder resolution is required for a merger between a parent company (i.e., a company that holds issued shares that together represent 90% of the votes at a general meeting of the subsidiary company) and its subsidiary company, provided a copy of the plan of merger is given to every member of each subsidiary company to be merged unless that member agrees otherwise. The consent of each holder of a fixed or floating security interest of a constituent company must be obtained, unless the court waives such requirement. The directors of each company are required to provide a declaration of the assets and liabilities of the company made up to the latest practicable date before the making of the declaration, and are further required to make a declaration to the effect that: (i) the company is able to pay its debts as they fall due and that the merger or consolidation is bona fide and not intended to defraud unsecured creditors of the company; (ii) no petition or other similar proceeding has been filed and remains outstanding and that no order has been made or resolution adopted to wind up the company in any jurisdiction; (iii) no receiver, trustee, administrator or other similar person has been appointed in any jurisdiction and is acting in respect of the company, its affairs or its property or any part thereof; (iv) no scheme, order, compromise or other similar arrangement has been entered into or made in any jurisdiction whereby the rights of creditors of the company are and continue to be suspended or restricted; (v) in the case of constituent company that is not a surviving company, the constituent company has retired from any fiduciary office held or will do so immediately prior to the merger or consolidation; and (vi) where relevant, the company has complied with any applicable requirements under Cayman Islands regulatory laws. If the Cayman Islands' Registrar of Companies is satisfied that the requirements of the Companies Act (which includes certain other formalities) have been complied with, the Cayman Islands' Registrar of Companies will register the plan of merger or consolidation.

Where the merger or consolidation involves a foreign company, the procedure is similar, save that with respect to the foreign company, the directors of the Cayman Islands company are also required to make a declaration to the effect that, having made due enquiry, they are of the opinion that certain requirements have been met, including the following requirements: (i) that the merger or consolidation is permitted or not prohibited by the constitutional documents of the foreign company and by the laws of the jurisdiction in which the foreign company is incorporated, and that those laws and any requirements of those constitutional documents have been or will be complied with; (ii) that no petition or other similar proceeding has been filed and remains outstanding or order made or resolution adopted to wind up or liquidate the foreign company in any applicable jurisdictions; (iii) that no receiver, trustee, administrator or other similar person has been appointed in any jurisdiction and is acting in respect of the foreign company, its affairs or its property or any part thereof; (iv) that no scheme, order, compromise or other similar arrangement has been entered into or made in any jurisdiction whereby the rights of creditors of the foreign company are and continue to be suspended or restricted; and (v) there is no other reason why it would be against the public interest to permit the merger or consolidation.

Where the surviving company is the Cayman Islands exempted company, the directors of the Cayman Islands exempted company are further required to make a declaration to the effect that, having made due enquiry, they are of the opinion that the following requirements have been met: (i) that the foreign company is able to pay its debts as they fall due and that the merger or consolidation is bona fide and not intended to defraud unsecured creditors of the foreign company; (ii) that in respect of the transfer of any security interest granted by the foreign company to the surviving or consolidated company (A) consent or approval to the transfer has been obtained, released or waived; (B) the transfer is permitted by and has been approved in accordance with the constitutional documents of the foreign company; and (C) the laws of the jurisdiction of the foreign company with respect to the transfer have been or will be complied with; and (iii) that the foreign company will, upon the merger or consolidation becoming effective, cease to be incorporated, registered or exist under the laws of the relevant foreign jurisdiction.

The Companies Act provides for a right of dissenting shareholders to be paid the fair value of their shares upon their dissenting to the merger or consolidation in certain circumstances if they follow a prescribed procedure. In essence, where such rights apply, that procedure is as follows: (i) the shareholder must give his written objection to the merger or consolidation to the constituent company before the vote on the merger or consolidation, including a statement that the shareholder proposes to demand payment for their shares if the merger or consolidation is authorized by the vote; (ii) within 20 days following the date on which the merger or consolidation is authorized by the shareholders, the constituent company must give written notice to each shareholder who made a written objection; (iii) a shareholder must within 20 days following receipt of such notice from the constituent company, give the constituent company a written notice of his intention to dissent including, among other details, a demand for payment of the fair value of their shares; (iv) within seven days following the date of the expiration of the period set out in paragraph (ii) above or seven days following the date on which the plan of merger or consolidation is filed, whichever is later, the constituent company, the surviving company or the consolidated company must make a written offer to each dissenting shareholder to purchase their shares at a price that the company determines is the fair value and if the company and the shareholder agree the price within 30 days following the date on which the offer was made, the company must pay the shareholder such amount; and (v) if the company and the shareholder fail to agree on a price within such 30 day period, within 20 days following the date on which such 30 day period expires, the company must (and any dissenting shareholder may) file a petition with the Grand Court of the Cayman Islands to determine the fair value of all dissenting shares and such petition must be accompanied by a list of the names and addresses of the dissenting shareholders with whom agreements as to the fair value of their shares have not been reached by the company. At the hearing of that petition, the court has the power to determine the fair value of the shares together with a fair rate of interest, if any, to be paid by the company upon the amount determined to be the fair value. Any dissenting shareholder whose name appears on the list filed by the company may participate fully in all proceedings until the determination of fair value is reached. A shareholder who dissents must do so in respect of all shares that that person holds in the constituent company. Upon the giving of a notice of dissent under paragraph (iii) above, the shareholder to whom the notice relates shall cease to have any of the rights of a shareholder except the right to be paid the fair value of that person's shares and certain rights specified in the Companies Act. These rights of a dissenting shareholder are not available in certain circumstances, for example, to dissenting shareholders holding shares of any class in respect of which an open market exists on a recognized stock exchange or recognized interdealer quotation system at the relevant date, where the consideration for such shares to be contributed are shares of any company listed on a national securities exchange or shares of the surviving or consolidated company.

Moreover, Cayman Islands law has separate statutory provisions that facilitate the reconstruction or amalgamation of companies in certain circumstances, commonly referred to in the Cayman Islands as a “scheme of arrangement,” which may be tantamount to a merger. Schemes of arrangement will generally be more suited for complex mergers or other transactions involving widely held companies. In the event that a merger was sought pursuant to a scheme of arrangement (the procedures for which are more rigorous and take longer to complete than the procedures typically required to consummate a merger in the United States), the arrangement in question must be approved (i) in relation to a compromise or arrangement between a company and its creditors or any class of them, a majority in number of such creditors or class of creditors with whom the arrangement is to be made and who must in addition represent 75% in value of such creditors or class of creditors, as the case may be, that are present and voting either in person or by proxy at a meeting summoned for that purpose; and (ii) in relation to a compromise or arrangement between a company and its shareholders or any class of them, shareholders who represent 75% in value of the company’s shareholders or class of shareholders, as the case may be, that are present and voting either in person or by proxy at a meeting summoned for that purpose. The convening of the meetings and subsequently the terms of the arrangement must be sanctioned by the Grand Court of the Cayman Islands. While a dissenting shareholder would have the right to express to the court the view that the transaction should not be approved, the court can be expected to approve the arrangement if it satisfies itself that:

- we are not proposing to act illegally or beyond the scope of our corporate authority and the statutory provisions as to majority vote have been complied with;
- the shareholders have been fairly represented at the meeting in question;
- the arrangement is such as a businessman would reasonably approve; and
- the arrangement is not one that would more properly be sanctioned under some other provision of the Companies Act or that would amount to a “fraud on the minority.”

If a scheme of arrangement or takeover offer (as described below) is approved, any dissenting shareholder would have no rights comparable to dissenters’ rights or appraisal rights (providing rights to receive payment in cash for the judicially determined value of the shares), which would otherwise ordinarily be available to dissenting shareholders of United States corporations.

Squeeze-out Provisions. When a takeover offer is made and accepted by holders of 90% in value of the shares to whom the offer relates within four months, the offeror may, within a two-month period after the expiration of the initial four-month period, require the holders of the remaining shares to transfer such shares on the terms of the offer. An objection can be made to the Grand Court of the Cayman Islands, but this is unlikely to succeed unless there is evidence of fraud, bad faith, collusion or inequitable treatment of the shareholders.

Further, transactions similar to a merger, reconstruction and/or an amalgamation may in some circumstances be achieved through means other than these statutory provisions, such as a share capital exchange, asset acquisition or control, or through contractual arrangements of an operating business.

Shareholders’ Suits. Maples and Calder (Cayman) LLP, our Cayman Islands legal counsel, is not aware of any reported class action having been brought in a Cayman Islands court. Derivative actions have been brought in the Cayman Islands courts, and the Cayman Islands courts have confirmed the availability of such actions. In most cases, we will be the proper plaintiff in any claim based on a breach of duty owed to us, and a claim against (for example) our officers or directors usually may not be brought by a shareholder. However, based both on Cayman Islands authorities and on English authorities, which would in all likelihood be of persuasive authority and be applied by a court in the Cayman Islands, exceptions to the foregoing principle apply in circumstances in which:

- a company is acting, or proposing to act, illegally or beyond the scope of its authority;
- the act complained of, although not beyond the scope of the authority, could be effected if duly authorized by more than the number of votes which have actually been obtained; or
- those who control the company are perpetrating a “fraud on the minority.”

A shareholder may have a direct right of action against us where the individual rights of that shareholder have been infringed or are about to be infringed.

Enforcement of Civil Liabilities. The Cayman Islands has a different body of securities laws as compared to the United States and provides less protection to investors. Additionally, Cayman Islands companies may not have standing to sue before the Federal courts of the United States.

We have been advised by Maples and Calder (Cayman) LLP, our Cayman Islands legal counsel, that the courts of the Cayman Islands are unlikely (i) to recognize or enforce against us judgments of courts of the United States predicated upon the civil liability provisions of the federal securities laws of the United States or any state; and (ii) in original actions brought in the Cayman Islands, to impose liabilities against us predicated upon the civil liability provisions of the federal securities laws of the United States or any state, so far as the liabilities imposed by those provisions are penal in nature. In those circumstances, although there is no statutory enforcement in the Cayman Islands of judgments obtained in the United States, the courts of the Cayman Islands will recognize and enforce a foreign money judgment of a foreign court of competent jurisdiction without retrial on the merits based on the principle that a judgment of a competent foreign court imposes upon the judgment debtor an obligation to pay the sum for which judgment has been given provided certain conditions are met. For a foreign judgment to be enforced in the Cayman Islands, such judgment must be final and conclusive and for a liquidated sum, and must not be in respect of taxes or a fine or penalty, inconsistent with a Cayman Islands judgment in respect of the same matter, impeachable on the grounds of fraud or obtained in a manner, and or be of a kind the enforcement of which is, contrary to natural justice or the public policy of the Cayman Islands (awards of punitive or multiple damages may well be held to be contrary to public policy). A Cayman Islands Court may stay enforcement proceedings if concurrent proceedings are being brought elsewhere.

Special Considerations for Exempted Companies. We are an exempted company with limited liability under the Companies Act. The Companies Act distinguishes between ordinary resident companies and exempted companies. Any company that is registered in the Cayman Islands but conducts business mainly outside of the Cayman Islands may apply to be registered as an exempted company. The requirements for an exempted company are essentially the same as for an ordinary company except for the exemptions and privileges listed below:

- annual reporting requirements are minimal and consist mainly of a statement that the company has conducted its operations mainly outside of the Cayman Islands and has complied with the provisions of the Companies Act;
- an exempted company's register of members is not open to inspection and can be kept outside of the Cayman Islands;
- an exempted company does not have to hold an annual general meeting;
- an exempted company may issue shares with no nominal or par value;
- an exempted company may obtain an undertaking against the imposition of any future taxation (such undertakings are usually given for 30 years in the first instance); and
- an exempted company may register by way of continuation in another jurisdiction and be deregistered in the Cayman Islands;

"Limited liability" means that the liability of each shareholder is limited to the amount unpaid by the shareholder on the shares of the company (except in exceptional circumstances, such as involving fraud, the establishment of an agency relationship or an illegal or improper purpose or other circumstance in which a court may be prepared to pierce or lift the corporate veil).

Our Amended and Restated Memorandum and Articles of Association

Our amended and restated memorandum and articles of association contain certain requirements and restrictions relating to this offering that apply to us until the completion of our initial business combination. These provisions cannot be amended without a special resolution under Cayman Islands law. As a matter of Cayman Islands law, a special resolution is a resolution that has been approved by either (i) the affirmative vote of at least two-thirds (or any higher threshold specified in a company's articles of association) of a company's shareholders as, being entitled to do so, attend and vote (whether in person or by proxy) at a general meeting for which notice specifying the intention to propose the resolution as a special resolution has been given; or (ii) if so authorized by a company's articles of association, has been approved by a unanimous written resolution of all of the company's shareholders who are entitled to vote on such matter. The provisions regulating the appointment and removal of directors and continuing the company in a jurisdiction outside the Cayman Islands may only be amended by a special resolution passed by the affirmative vote of the holders representing at least 90% of the issued Class B ordinary shares. Other than as described above, our amended and restated memorandum and articles of association provide that special resolutions must be approved either by at least two-thirds of the company's shareholders as, being entitled to do so, attend and vote (whether in person or by proxy) at a general meeting for which notice specifying the intention to propose the resolution as a special resolution has been given (i.e., the lowest threshold permissible under Cayman Islands law), or by a unanimous written resolution of all of our shareholders.

Our initial shareholders, who will (assuming they do not purchase any units in this offering) collectively own approximately 20% of our ordinary shares upon the closing of this offering, will participate in any vote to amend our amended and restated memorandum and articles of association and will have the discretion to vote in any manner they choose. Specifically, our amended and restated memorandum and articles of association provides, among other things, that:

- If we have not completed our initial business combination within the completion window, we will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter (and subject to lawfully available funds therefor), redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account (which interest shall be net of taxes and less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then-outstanding public shares, which redemption will completely extinguish public shareholders' rights as shareholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining shareholders and our board of directors, liquidate and dissolve, subject in each case to our obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law;
- Prior to our initial business combination, we may not, except in connection with the conversion of Class B ordinary shares into Class A ordinary shares where the holders of such shares have waived any rights to receive funds from the trust account, issue additional shares that would entitle the holders thereof to (i) receive funds from the trust account or (ii) vote as a class with public shares on any initial business combination;
- If a shareholder vote on our initial business combination is not required by law and we do not decide to hold a shareholder vote for business or other reasons, we will offer to redeem our public shares pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, and will file tender offer documents with the SEC prior to completing our initial business combination which contain substantially the same financial and other information about our initial business combination and the redemption rights as is required under Regulation 14A of the Exchange Act;
- Nasdaq rules require that we must complete one or more business combinations having an aggregate fair market value of at least 80% of the value of the assets held in the trust account (excluding the deferred underwriting commissions and taxes payable on the interest earned on the trust account) at the time of the agreement to enter into the initial business combination.

- If our shareholders approve an amendment to our amended and restated memorandum and articles of association not for the purposes of approving, or in conjunction with the consummation of, an initial business combination (i) to modify the substance or timing of our obligation to allow redemption in connection with an initial business combination or to redeem 100% of our public shares if we do not complete an initial business combination within the completion window or (ii) with respect to any other material provision relating to the rights of holders of our Class A ordinary shares or pre-initial business combination activity, we will provide our public shareholders with the opportunity to redeem all or a portion of their Class A ordinary shares upon such approval at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account (which interest shall be net of taxes payable), divided by the number of then-outstanding public shares;
- We will not effectuate our initial business combination solely with another blank check company or a similar company with nominal operations; and
- Only holders of our Class B ordinary shares have the right to vote on appointing or removing directors or continuing our company in a jurisdiction outside the Cayman Islands (as further described herein), prior to the consummation of our initial business combination.

Our amended and restated memorandum and articles of association provide that unless we consent in writing to the selection of an alternative forum, the courts of the Cayman Islands shall have exclusive jurisdiction over any claim or dispute arising out of or in connection with our amended and restated memorandum and articles of association or otherwise related in any way to each shareholder's shareholding in us, including but not limited to (i) any derivative action or proceeding brought on our behalf, (ii) any action asserting a claim of breach of any fiduciary or other duty owed by any of our current or former directors, officers or other employees to us or our shareholders, (iii) any action asserting a claim arising pursuant to any provision of the Companies Act or our amended and restated memorandum and articles of association, or (iv) any action asserting a claim against us governed by the internal affairs doctrine (as such concept is recognized under the laws of the United States of America) and that each shareholder irrevocably submits to the exclusive jurisdiction of the courts of the Cayman Islands over all such claims or disputes. Our amended and restated memorandum and articles of association also provide that, without prejudice to any other rights or remedies that we may have, each of our shareholders acknowledges that damages alone would not be an adequate remedy for any breach of the selection of the courts of the Cayman Islands as exclusive forum and that accordingly we shall be entitled, without proof of special damages, to the remedies of injunction, specific performance or other equitable relief for any threatened or actual breach of the selection of the courts of the Cayman Islands as exclusive forum. The forum selection provision in our amended and restated memorandum and articles of association will not apply to actions or suits brought to enforce any liability or duty created by the Securities Act, Exchange Act or any claim for which the federal district courts of the United States of America are, as a matter of the laws of the United States of America, the sole and exclusive forum for determination of such a claim.

Anti-Money Laundering, Counter Terrorist Financing, Prevention of Proliferation Financing and Financial Sanctions Compliance — Cayman Islands

If any person in the Cayman Islands knows or suspects, or has reasonable grounds for knowing or suspecting, that another person is engaged in criminal conduct, is involved with terrorism or terrorist financing and property and the information for that knowledge or suspicion came to their attention in the course of business in the regulated sector or other trade, profession, business or employment, the person will be required to report such knowledge or suspicion to (i) the Financial Reporting Authority of the Cayman Islands, pursuant to the Proceeds of Crime Act (As Revised) of the Cayman Islands if the disclosure relates to criminal conduct or money laundering, or (ii) a police officer of the rank of constable or higher, or the Financial Reporting Authority, pursuant to the Terrorism Act (As Revised) of the Cayman Islands, if the disclosure relates to involvement with terrorism or terrorist financing and property. Such a report shall not be treated as a breach of confidence or of any restriction upon the disclosure of information imposed by any enactment or otherwise. We reserve the right to refuse to make any payment to a shareholder if our directors or officers suspect or are advised that the payment to such shareholder might result in a breach of applicable anti-money laundering, counter-terrorist financing, prevention of proliferation financing and financial sanctions or other laws or regulations by any person in any relevant jurisdiction, or if such refusal is considered necessary or appropriate to ensure our compliance with any such laws or regulations in any applicable jurisdiction.

Should a shareholder or its duly authorized delegates or agents be, or become (or is believed by the company or its affiliates (“Agents”) to be or become) at any time while it owns or holds an interest in the company, (a) an individual or entity named on any sanctions list maintained by the United Kingdom (including as extended to the Cayman Islands by Orders in Council) or the Cayman Islands or any similar list maintained under applicable law or is otherwise subject to applicable sanctions in the Cayman Islands (a “Sanctions Subject”) or (b) an entity owned or controlled directly or indirectly by a Sanctions Subject, as determined by the company in its sole discretion, then (i) the company or its Agents may immediately and without notice to the shareholder cease any further dealings with the shareholder or freeze any dealings with the interests or accounts of the shareholder (e.g., by prohibiting payments by or to the shareholder or restricting or suspending dealings with the interests or accounts) or freeze the assets of the company (including interests or accounts of other shareholders who are not Sanctions Subjects), until the relevant person ceases to be a Sanctions Subject or a license is obtained under applicable law to continue such dealings (a “Sanctioned Persons Event”), (ii) the company and its Agents may be required to report such action or failure to comply with information requests and to disclose the shareholder’s identity (and/or the identity of the shareholder’s beneficial owners and control persons) to the Cayman Islands Monetary Authority, the Cayman Islands Financial Reporting Authority, or other applicable governmental or regulatory authorities (without notifying the Subscriber that such information has been so provided) and (iii) the company and its Agents have no liability whatsoever for any liabilities, costs, expenses, damages and/or losses (including but not limited to any direct, indirect or consequential losses, loss of profit, loss of revenue, loss of reputation and all interest, penalties and legal costs and all other professional costs and expenses) incurred by the shareholder as a result of a Sanctioned Persons Event.

Economic Substance — Cayman Islands

The Cayman Islands, together with several other non-European Union jurisdictions, have introduced legislation aimed at addressing concerns raised by the Council of the European Union and the OECD as to offshore structures engaged in certain activities which attract profits without real economic activity. The International Tax Co-operation (Economic Substance) Act (As Revised) (the “Substance Act”) came into force in the Cayman Islands in January 2019, introducing certain economic substance requirements for in-scope Cayman Islands entities which are engaged in certain geographically mobile business activities (“relevant activities”). As we are a Cayman Islands exempted company, compliance obligations include filing annual notifications, in which need to state whether we are carrying out any relevant activities and if so, whether we have satisfied economic substance tests to the extent required under the Substance Act. It is anticipated that our Company will not be engaging in any “relevant activities” prior to the consummation of our initial business combination and will therefore not be required need to meet the economic substance requirements tests or will otherwise be subject to more limited substance requirements. Failure to satisfy applicable requirements may subject us to penalties under the Substance Act.

Data Protection — Cayman Islands

We have certain duties under the Data Protection Act (As Revised) of the Cayman Islands, as amended from time to time and any regulations, codes of practice, or orders promulgated pursuant thereto (the “DPL”).

Privacy Notice

Introduction

This privacy notice puts our shareholders on notice that through your investment in the company you will provide us with certain personal information which constitutes personal data within the meaning of the DPL (“personal data”). In the following discussion, the “company” refers to us and our affiliates and/or delegates, except where the context requires otherwise.

We are committed to processing personal data in accordance with the DPL. In our use of personal data, we will be characterized under the DPL as a “data controller,” whilst certain of our service providers, affiliates, and delegates may act as “data processors” under the DPL. These service providers may process personal data for their own lawful purposes in connection with services provided to us. For the purposes of this Privacy Notice, “you” or “your” shall mean the subscriber and shall also include any individual connected to the subscriber.

By virtue of your investment in the company, we and certain of our service providers may collect, record, store, transfer, and otherwise process personal data by which individuals may be directly or indirectly identified. We may combine personal data that you provide to use with personal data that we collect from, or about you. This may include personal data collected in an online or offline context including from credit reference agencies and other available public databases or data sources, such as news outlines, websites and other media sources and international sanctions lists.

Your personal data will be processed fairly and for lawful purposes, including (a) where the processing is necessary for us to perform a contract to which you are a party or for taking pre-contractual steps at your request, (b) where the processing is necessary for compliance with any legal, tax, or regulatory obligation to which we are subject, (c) where the processing is for the purposes of legitimate interests pursued by us or by a service provider to whom the data are disclosed, or (d) where you otherwise consent to the processing of personal data for any other specific purpose. As a data controller, we will only use your personal data for the purposes for which we collected it. If we need to use your personal data for an unrelated purpose, we will contact you.

We anticipate that we will share your personal data with our service providers for the purposes set out in this privacy notice. We may also share relevant personal data where it is lawful to do so and necessary to comply with our contractual obligations or your instructions or where it is necessary or desirable to do so in connection with any regulatory reporting obligations. In exceptional circumstances, we will share your personal data with regulatory, prosecuting, and other governmental agencies or departments, and parties to litigation (whether pending or threatened), in any country or territory including to any other person where we have a public or legal duty to do so (e.g. to assist with detecting and preventing fraud, tax evasion, and financial crime or compliance with a court order).

Your personal data shall not be held by the company for longer than necessary with regard to the purposes of the data processing.

We will not sell your personal data. Any transfer of personal data outside of the Cayman Islands shall be in accordance with the requirements of the DPL. Where necessary, we will ensure that separate and appropriate legal agreements are put in place with the recipient of that data.

We will only transfer personal data in accordance with the requirements of the DPL, and will apply appropriate technical and organizational information security measures designed to protect against unauthorized or unlawful processing of the personal data and against the accidental loss, destruction, or damage to the personal data.

Investor Data

We will collect, use, disclose, retain and secure personal data to the extent reasonably required only and within the parameters that could be reasonably expected during the normal course of business. We will only process, disclose, transfer or retain personal data to the extent legitimately required to conduct our activities of on an ongoing basis or to comply with legal and regulatory obligations to which we are subject. We will only transfer personal data in accordance with the requirements of the DPL, and will apply appropriate technical and organizational information security measures designed to protect against unauthorized or unlawful processing of the personal data and against the accidental loss, destruction or damage to the personal data.

In our use of this personal data, we will be characterized as a “data controller” for the purposes of the DPL, while our affiliates and service providers who may receive this personal data from us in the conduct of our activities may either act as our “data processors” for the purposes of the DPL or may process personal information for their own lawful purposes in connection with services provided to us.

We may also obtain personal data from other public sources. Personal data includes, without limitation, the following information relating to a shareholder and/or any individuals connected with a shareholder as an investor: name, residential address, email address, contact details, corporate contact information, signature, nationality, place of birth, date of birth, tax identification, credit history, correspondence records, passport number, bank account details, source of funds details and details relating to the shareholder’s investment activity.

Who this Affects

If you are a natural person, this will affect you directly. If you are a corporate investor (including, for these purposes, legal arrangements such as trusts or exempted limited partnerships) that provides us with personal data on individuals connected to you for any reason in relation to your investment in the company, this will be relevant for those individuals and you should transmit the content of this Privacy Notice to such individuals or otherwise advise them of its content.

How the Company May Use a Shareholder’s Personal Data

The company, as the data controller, may collect, store and use personal data for lawful purposes, including, in particular:

- where this is necessary for the performance of our rights and obligations under any purchase agreements;
- where this is necessary for compliance with a legal and regulatory obligation to which we are subject (such as compliance with anti-money laundering, counter terrorist financing, prevention of proliferation financing, financial sanctions and FATCA/CRS requirements); and/or
- where this is necessary for the purposes of our legitimate interests and such interests are not overridden by your interests, fundamental rights or freedoms.

Should we wish to use personal data for other specific purposes (including, if applicable, any purpose that requires your consent), we will contact you.

Why We May Transfer Your Personal Data

In certain circumstances we may be legally obliged to share personal data and other information with respect to your shareholding with the relevant regulatory authorities such as the Cayman Islands Monetary Authority or the Tax Information Authority. They, in turn, may exchange this information with foreign authorities, including tax authorities.

We anticipate disclosing personal data to persons who provide services to us and their respective affiliates (which may include certain entities located outside the United States, the Cayman Islands or the European Economic Area), who will process your personal data on our behalf.

The Data Protection Measures We Take

Any transfer of personal data by us or our duly authorized affiliates and/or delegates outside of the Cayman Islands shall be in accordance with the requirements of the DPL.

We and our duly authorized affiliates and/or delegates shall apply appropriate technical and organizational information security measures designed to protect against unauthorized or unlawful processing of personal data, and against accidental loss or destruction of, or damage to, personal data.

We shall notify you of any personal data breach that is reasonably likely to result in a risk to your interests, fundamental rights or freedoms or those data subjects to whom the relevant personal data relates.

Rights of Individual Data Subjects

Individual data subjects have certain data protection rights, including the right to:

- be informed about the purposes for which your personal data are processed;
- access your personal data;
- stop direct marketing;
- restrict the processing of your personal data;
- have incomplete or inaccurate personal data corrected;
- ask us to stop processing your personal data;
- be informed of a personal data breach (unless the breach is unlikely to be prejudicial to you);
- complain to the Office of the Ombudsman of the Cayman Islands; and
- require us to delete your personal data in some limited circumstances.

If you consider that your personal data has not been handled correctly, or you are not satisfied with our responses to any requests you have made regarding the use of your personal data, you have the right to complain to the Cayman Islands' Ombudsman. The Ombudsman can be contacted by email at info@ombudsman.ky or by accessing their website here: ombudsman.ky.

Certain Anti-Takeover Provisions of Our Amended and Restated Memorandum and Articles of Association

Our amended and restated memorandum and articles of association provide that our board of directors is classified into three classes of directors. In addition, prior to the closing of our initial business combination, only holders of our Class B ordinary shares will have the right to appoint and remove directors prior to the completion of our initial business combination. As a result, in most circumstances, a person can gain control of our board only by successfully engaging in a proxy contest at two or more annual general meetings and obtaining the support of our sponsor.

Our authorized but unissued ordinary shares and preference shares are available for future issuances without shareholder approval and could be utilized for a variety of corporate purposes, including future offerings to raise additional capital, acquisitions and employee benefit plans. The existence of authorized but unissued and unreserved ordinary shares and preference shares could render more difficult or discourage an attempt to obtain control of us by means of a proxy contest, tender offer, merger or otherwise.

Extraordinary General Meetings

Our amended and restated memorandum and articles of association provide that extraordinary general meetings may be called only by a majority vote of our board of directors, by our Chief Executive Officer or by our Chairman.

Advance Notice Requirements for Shareholder Proposals and Director Nominations

Our amended and restated memorandum and articles of association provide that shareholders seeking to bring business before our annual general meeting, or to nominate candidates for appointment as directors at our annual general meeting must provide timely notice of their intent in writing. To be timely, a shareholder's notice will need to be received by the company secretary at our principal executive offices not later than the close of business on the 90th day nor earlier than the close of business on the 150th day prior to the anniversary date of the immediately preceding annual general meeting. Pursuant to Rule 14a-8 under the Exchange Act, proposals seeking inclusion in our annual proxy statement must comply with the notice periods contained therein. Our amended and restated memorandum and articles of association also specify certain requirements as to the form and content of a shareholders' meeting. These provisions may preclude our shareholders from bringing matters before our annual general meeting or from making nominations for directors at our annual general meeting. Our amended and restated memorandum and articles of association allow the chairman of the meeting at a meeting of the shareholders to adopt rules and regulations for the conduct of meetings which may have the effect of precluding the conduct of certain business at a meeting if the rules and regulations are not followed. These provisions may also defer, delay or discourage a potential acquirer from conducting a solicitation of proxies to elect the acquirer's own slate of directors or otherwise attempting to influence or obtain control of us.

Written Resolutions

Subsequent to the consummation of the offering, any action required or permitted to be taken by our shareholders may be effected by a duly called annual general meeting or extraordinary general meeting or by written resolution passed in accordance with the Companies Act.

Classified Board of Directors

Our board of directors is divided into three classes, Class I, Class II and Class III, with members of each class serving staggered three-year terms. Our amended and restated memorandum and articles of association provide that the authorized number of directors may be changed only by resolution of the board of directors. Subject to the terms of any preference shares, any or all of the directors may be removed from office at any time by an ordinary resolution, which requires the affirmative vote of a majority of the shareholders as, being entitled to do so, attend and vote (whether in person or by proxy) at a general meeting of the company. Prior to the consummation of an initial business combination, only holders of our Class B ordinary shares will have the right to vote on the appointment and removal of directors. Our board of directors may, by a vote of a majority of our directors then in office, appoint any person to be a director, either to fill a vacancy or as an additional director.

Securities Eligible for Future Sale

Immediately after this offering we will have 25,000,000 (or 28,750,000 if the underwriters' over-allotment option is exercised in full) ordinary shares outstanding. Of these shares, the Class A ordinary shares sold in this offering (20,000,000 Class A ordinary shares if the underwriters' over-allotment option is not exercised and 23,000,000 shares if the underwriters' over-allotment option is exercised in full) will be freely tradable without restriction or further registration under the Securities Act, except for any Class A ordinary shares purchased by one of our affiliates within the meaning of Rule 144 under the Securities Act. All of the outstanding founder shares (5,000,000 founder shares if the underwriters' over-allotment option is not exercised and 5,750,000 founder shares if the underwriters' over-allotment option is exercised in full) and all of the outstanding 5,000,000 private warrants (5,450,000 private warrants if the underwriters' over-allotment option is exercised in full) will be restricted securities under Rule 144, in that they were issued in private transactions not involving a public offering.

Rule 144

Pursuant to Rule 144, a person who has beneficially owned restricted shares or warrants for at least six months would be entitled to sell their securities provided that (i) such person is not deemed to have been one of our affiliates at the time of, or at any time during the three months preceding, a sale and (ii) we are subject to the Exchange Act periodic reporting requirements for at least three months before the sale and have filed all required reports under Section 13 or 15(d) of the Exchange Act during the 12 months (or such shorter period as we were required to file reports) preceding the sale.

Persons who have beneficially owned restricted shares or warrants for at least six months but who are our affiliates at the time of, or at any time during the three months preceding, a sale, would be subject to additional restrictions, by which such person would be entitled to sell within any three-month period only a number of securities that does not exceed the greater of:

- 1% of the total number of Class A ordinary shares then outstanding, which will equal 200,000 shares immediately after this offering (or 230,000 shares if the underwriters exercise in full their over-allotment option); or
- the average weekly reported trading volume of the Class A ordinary shares during the four calendar weeks preceding the filing of a notice on Form 144 with respect to the sale.

Sales by our affiliates under Rule 144 are also limited by manner of sale provisions and notice requirements and to the availability of current public information about us.

Restrictions on the Use of Rule 144 by Shell Companies or Former Shell Companies

Rule 144 is not available for the resale of securities initially issued by shell companies (other than business combination related shell companies) or issuers that have been at any time previously a shell company. However, Rule 144 also includes an important exception to this prohibition if the following conditions are met:

- the issuer of the securities that was formerly a shell company has ceased to be a shell company;
- the issuer of the securities is subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act;
- the issuer of the securities has filed all Exchange Act reports and material required to be filed, as applicable, during the preceding 12 months (or such shorter period that the issuer was required to file such reports and materials), other than Current Reports on Form 8-K; and
- at least one year has elapsed from the time that the issuer filed current Form 10 type information with the SEC reflecting its status as an entity that is not a shell company.

As a result, our initial shareholders will be able to sell their founder shares and private warrants, as applicable, pursuant to Rule 144 without registration one year after we have completed our initial business combination.

Registration Rights

The holders of the (i) founder shares, which were issued in a private placement prior to the closing of this offering, (ii) private warrants (including the underlying securities), which will be issued in a private placement simultaneously with the closing of this offering and (iii) warrants (including the underlying securities) that may be issued upon conversion of working capital loans have registration rights that require us to register a sale of any of our securities held by them and any other securities of the company acquired by them prior to the consummation of our initial business combination pursuant to a registration rights agreement signed on the effective date of this offering. Pursuant to the registration rights agreement and assuming the underwriters exercise their over-allotment option in full and \$1,500,000 of working capital loans are converted into private warrants, we will be obligated to register up to 12,700,000 Class A ordinary shares. The number of Class A ordinary shares includes (i) 5,750,000 Class A ordinary shares to be issued upon conversion of the founder shares, (ii) 5,450,000 Class A ordinary shares underlying the private warrants, and (iii) up to 1,500,000 Class A ordinary shares underlying the working capital warrants. In addition, we will also be obligated to register up to 6,950,000 warrants, consisting of (i) 5,450,000 private warrants and (ii) up to 1,500,000 working capital warrants. The holders of these securities are entitled to make up to three demands, excluding short form demands, that we register such securities. In addition, the holders have certain “piggy-back” registration rights with respect to registration statements filed subsequent to our completion of our initial business combination. We will bear the expenses incurred in connection with the filing of any such registration statements.

Listing of Securities

We have been approved to list our units on Nasdaq under the symbol “XCBEU” commencing promptly after the date of this prospectus. Once the securities comprising the units begin separate trading, we expect that the Class A ordinary shares and warrants will be listed on Nasdaq under the symbols “XCBE” and “XCBEW,” respectively.

TAXATION

Cayman Islands Taxation

The following is a discussion on certain Cayman Islands income tax consequences of an investment in our securities. The discussion is a general summary of present law, which is subject to prospective and retroactive change. It is not intended as tax advice, does not consider any investor's particular circumstances, and does not consider tax consequences other than those arising under Cayman Islands law.

Under Existing Cayman Islands Laws

The Cayman Islands currently levies no taxes on individuals or corporations based upon profits, income, gains, or appreciation and there is no taxation in the nature of inheritance tax, gift tax or estate duty. There are no other taxes likely to be material to us levied by the Government of the Cayman Islands except for stamp duties which may be applicable on instruments executed in, or, after execution, brought within the jurisdiction of the Cayman Islands. No stamp duty is payable in the Cayman Islands on the issue of shares by, or any transfers of shares of, Cayman Islands companies (except those which hold interests in land in the Cayman Islands). There are no exchange control regulations or currency restrictions in the Cayman Islands.

Payments of dividends and capital in respect of our securities will not be subject to taxation in the Cayman Islands and no withholding will be required on the payment of a dividend or capital to any holder of the securities nor will gains derived from the disposal of the securities be subject to Cayman Islands income or corporate tax.

No stamp duty is payable in respect of the issue of the warrants, the units or the Class A ordinary shares. An instrument of transfer in respect of a warrant, a unit or a Class A ordinary share is stampable if executed in or brought into the Cayman Islands.

The Company has been incorporated under the laws of the Cayman Islands as an exempted company with limited liability and, as such, has applied for and received an undertaking from the Government of the Cayman Islands in a form substantially similar to the following on September 25, 2025:

“The Tax Concessions Law Undertaking as to Tax Concessions

In accordance with the Tax Concessions Law, the following undertaking is hereby given to X3 Acquisition Corp. Ltd. “the Company”

1. That no law which is hereafter enacted in the Islands imposing any tax to be levied on profits, income, gains or appreciations shall apply to the Company or its operations; and
2. In addition, that no tax to be levied on profits, income, gains or appreciations or which is in the nature of estate duty or inheritance tax shall be payable
 - 2.1 on or in respect of the shares, debentures or other obligations of the Company; or
 - 2.2 by way of the withholding in whole or in part of any relevant payment as defined in the Tax Concessions Law.

These concessions shall be for a period of THIRTY years from the 25th day of September 2025.”

Material United States Federal Income Tax Considerations

The following discussion summarizes certain material United States federal income tax considerations generally applicable to the acquisition, ownership and disposition of our units (each consisting of one Class A ordinary share and one-half of one redeemable warrant) that are purchased in this offering, which we refer to collectively as our securities, by U.S. Holders (as defined below) and Non-U.S. Holders (as defined below).

Because the components of a unit are generally separable at the option of the holder, the holder of a unit generally should be treated, for United States federal income tax purposes, as the owner of the underlying Class A ordinary share or warrant components of the unit. As a result, the discussion below with respect to holders of Class A ordinary shares and warrants should also apply to holders of units (as the deemed owners of the underlying Class A ordinary shares and warrants that constitute the units).

This discussion is limited to certain United States federal income tax considerations to beneficial owners of our securities who are initial purchasers of a unit pursuant to this offering and hold the unit and each component of the unit as a capital asset under the Code. This discussion assumes that the Class A ordinary shares and one-half of one redeemable warrant will trade separately and that any distributions made (or deemed made) by us on our Class A ordinary shares and any consideration received (or deemed received) by a holder in consideration for the sale or other disposition of our securities will be in U.S. dollars. This discussion is a summary only and does not consider all aspects of United States federal income taxation that may be relevant to the acquisition, ownership and disposition of a unit by a prospective investor in light of its particular circumstances, including:

- our founders, the sponsor, officers or directors;
- banks, financial institutions or financial services entities;
- broker-dealers;
- taxpayers that are subject to the mark-to-market tax accounting rules;
- S Corporations;
- tax-exempt entities;
- individual retirement accounts or other tax deferred accounts;
- governments or agencies or instrumentalities thereof;
- insurance companies;
- regulated investment companies;
- real estate investment trusts;
- expatriates or former long-term residents of the United States;
- persons that actually or constructively own five percent or more of our voting shares or five percent or more of the total value of our shares;
- persons that acquired our securities pursuant to an exercise of employee share options, in connection with employee share incentive plans or otherwise as compensation or in connection with services;
- persons that hold our securities as part of a straddle, constructive sale, hedging, conversion or other integrated or similar transaction;
- persons required to accelerate the recognition of any item of gross income with respect to Class A ordinary shares or warrants as a result of such income being recognized on an applicable financial statement;
- U.S. Holders whose functional currency is not the U.S. dollar;
- controlled foreign corporations; or
- passive foreign investment companies.

Moreover, the discussion below is based upon the provisions of the Code, the Treasury regulations promulgated thereunder and administrative and judicial interpretations thereof, all as of the date hereof, and such provisions may be repealed, revoked, modified or subject to differing interpretations, possibly on a retroactive basis, so as to result in United States federal income tax consequences different from those discussed below. Furthermore, this discussion does not address any aspect of United States federal non-income tax laws, such as alternative minimum gift, estate or Medicare contribution tax laws, or state, local or non-U.S. tax laws.

We have not sought, and will not seek, a ruling from the IRS as to any United States federal income tax consequence described herein. The IRS may disagree with the discussion herein, and its determination may be upheld by a court. Moreover, there can be no assurance that future legislation, regulations, administrative rulings or court decisions will not change the accuracy of the statements in this discussion.

As used herein, the term “U.S. Holder” means a beneficial owner of units, Class A ordinary shares or warrants who or that is, for United States federal income tax purposes:

- an individual citizen or resident of the United States;
- a corporation (or other entity treated as a corporation for United States federal income tax purposes) that is created or organized (or treated as created or organized) in or under the laws of the United States, any state thereof or the District of Columbia;
- an estate the income of which is subject to United States federal income taxation regardless of its source; or
- a trust if (A) a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (B) it has in effect a valid election to be treated as a U.S. person.

This discussion does not consider the tax treatment of entities or arrangements treated as partnerships or other pass-through entities or persons who hold our securities through such entities or arrangements. If a partnership (or other entity or arrangement classified as a partnership for United States federal income tax purposes) is the beneficial owner of our securities, the United States federal income tax treatment of a partner in the partnership generally will depend on the status of the partner, the activities of the partnership and certain determinations made at the partner level. Partnerships holding our securities and partners in such partnerships are urged to consult their own tax advisors.

THIS DISCUSSION IS ONLY A SUMMARY OF CERTAIN UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS ASSOCIATED WITH THE ACQUISITION, OWNERSHIP AND DISPOSITION OF OUR SECURITIES. THE UNITED STATES FEDERAL INCOME TAX TREATMENT OF THE PROSPECTIVE INVESTOR IN OUR SECURITIES MAY BE AFFECTED BY MATTERS NOT DISCUSSED HEREIN AND DEPENDS IN SOME INSTANCES ON DETERMINATION OF FACT AND INTERPRETATIONS OF COMPLEX PROVISIONS OF UNITED STATES FEDERAL INCOME TAX LAW FOR WHICH NO CLEAR PRECEDENT OR AUTHORITY MAY BE AVAILABLE. EACH PROSPECTIVE INVESTOR IN OUR SECURITIES IS URGED TO CONSULT ITS OWN TAX ADVISOR WITH RESPECT TO THE PARTICULAR TAX CONSEQUENCES TO SUCH INVESTOR OF THE ACQUISITION, OWNERSHIP AND DISPOSITION OF OUR SECURITIES, INCLUDING THE APPLICABILITY AND EFFECT OF ANY UNITED STATES FEDERAL NON-INCOME, STATE AND LOCAL AND NON-U.S. TAX LAWS AS WELL AS UNDER ANY APPLICABLE TAX TREATY.

Allocation of Purchase Price and Characterization of a Unit

No statutory, administrative or judicial authority directly addresses the treatment of a unit or instruments similar to a unit for United States federal income tax purposes, and therefore, that treatment is not entirely clear. The acquisition of a unit should be treated for United States federal income tax purposes as the acquisition of one Class A ordinary share and one-half of one redeemable warrant, a whole one of which is exercisable to acquire one Class A ordinary share, subject to adjustment as described in this prospectus. We intend to treat the acquisition of a unit in this manner and, by purchasing a unit, you must adopt such treatment for United States federal income tax purposes. For United States federal income and other applicable tax purposes, each holder of a unit must allocate the purchase price paid by such holder for such unit between the one Class A ordinary share and the one-half of one redeemable warrant based on the relative fair market value of each at the time of issuance. Under United States federal income tax law, each investor must make its own determination of such value based on all the facts and circumstances. Therefore, we strongly urge each investor to consult its tax advisor regarding the determination of value for these purposes. The price allocated to each Class A ordinary share and one-half of one redeemable warrant should be the shareholder's tax basis in such share or warrant. Any disposition of a unit should be treated for United States federal income tax purposes as a disposition of the Class A ordinary share or one-half of one redeemable warrant comprising the unit, and the amount realized on the disposition should be allocated between the Class A ordinary share or one-half of one redeemable warrant based on their relative fair market values at the time of disposition (as determined by each such holder based on all the facts and circumstances).

The foregoing treatment of the units, Class A ordinary shares and warrants and a holder's purchase price allocation are not binding on the IRS or the courts. Because there are no authorities that directly address instruments that are similar to the units, no assurance can be given that the IRS or the courts will agree with the characterization described above or the discussion below. If the IRS or a court were to determine that, contrary to the characterization described above, a unit is a single instrument for United States federal income tax purposes, the tax consequences to an investor could be materially different than those described below. Accordingly, each prospective investor is urged to consult its tax advisors regarding the tax consequences of an investment in a unit (including alternative characterizations of a unit). The balance of this discussion assumes that the characterization of the units (and the components thereof) and any allocation of purchase price of a unit as described above is respected for United States federal income tax purposes.

U.S. Holders

Taxation of Distributions

Subject to the PFIC rules discussed below, a U.S. Holder generally will be required to include in gross income, in accordance with such U.S. Holder's method of accounting for United States federal income tax purposes, as dividends the amount of any distribution of cash or other property paid on our Class A ordinary shares to the extent the distribution is paid out of our current or accumulated earnings and profits (as determined under United States federal income tax principles). Subject to the PFIC rules discussed below, distributions in excess of such earnings and profits generally will be applied against and reduce the U.S. Holder's basis in its Class A ordinary shares (but not below zero) and, to the extent in excess of such basis, will be treated as gain from the sale or exchange of such Class A ordinary shares. In the event that we do not maintain calculations of our earnings and profits under United States federal income tax principles, a U.S. Holder should expect that all distributions will be reported as dividends for United States federal income tax purposes.

Dividends paid by us out of our current or accumulated earnings and profits as described above generally will be taxable to a corporate U.S. Holder at regular rates and will not be eligible for the dividends-received deduction generally allowed to domestic corporations in respect of dividends received from other domestic corporations. With respect to non-corporate U.S. Holders, under tax laws currently in effect and subject to certain exceptions (including, but not limited to, dividends treated as investment income for purposes of investment interest deduction limitations), dividends generally will be treated as "qualified dividend income" and taxed at the lower applicable long-term capital gains rate (see "*Gain or Loss on Sale, Taxable Exchange or Other Taxable Disposition of Class A Ordinary Shares and Warrants*" below) only if our Class A ordinary shares are readily tradable on an established securities market in the United States, the Company is not treated as a PFIC at the time the dividend was paid or in the preceding year and certain other requirements are met (including with respect to holding period). It is unclear, however, whether certain redemption rights described in this prospectus may suspend the running of the applicable holding period for this purpose. U.S. Holders should consult their tax advisors regarding the availability of such lower rate for any dividends paid with respect to our Class A ordinary shares.

Gain or Loss on Sale, Taxable Exchange or Other Taxable Disposition of Class A Ordinary Shares and Warrants

Subject to the PFIC rules discussed below, a U.S. Holder generally will recognize capital gain or loss on the sale or other taxable disposition of our Class A ordinary shares or warrants (including on our dissolution and liquidation if we do not consummate an initial business combination within the required time period). Any such capital gain or loss generally will be long-term capital gain or loss if the U.S. Holder's holding period for such Class A ordinary shares or warrants exceeds one year. It is unclear, however, whether certain redemption rights described in this prospectus may suspend the running of the applicable holding period for this purpose. If the running of the holding period is suspended, then non-corporate U.S. Holders may not be able to satisfy the one-year holding period requirement for long-term capital gain treatment, in which case any gain on a sale or taxable disposition of our Class A ordinary shares or warrants would be subject to short-term capital gain treatment and would be taxed at ordinary income rates.

The amount of gain or loss recognized on a sale or other taxable disposition generally will be equal to the difference between (i) the amount of cash and the fair market value of any property received in such disposition (or, if the Class A ordinary shares or warrants are held as part of units at the time of the disposition, the portion of the amount realized on such disposition that is allocated to the Class A ordinary shares or warrants based upon the then fair market values of the Class A ordinary shares and warrants included in the units) and (ii) the U.S. Holder's adjusted tax basis in its Class A ordinary shares or warrants so disposed of. A U.S. Holder's adjusted tax basis in its Class A ordinary shares or warrants generally will equal the U.S. Holder's acquisition cost (that is, the portion of the purchase price of a unit allocated to a Class A ordinary share or one-half of one warrant, as described above under "*Allocation of Purchase Price and Characterization of a Unit*") reduced, in the case of a Class A ordinary share by any prior distributions treated as a return of capital. Long-term capital gain realized by a non-corporate U.S. Holder is currently eligible to be taxed at reduced rates. See "*Exercise, Lapse or Redemption of a Warrant*" below for a discussion regarding a U.S. Holder's basis in a Class A ordinary share acquired pursuant to the exercise of a warrant. The deduction of capital losses is subject to certain limitations. U.S. Holders who recognize losses with respect to a disposition of our securities should consult their own tax advisors regarding the tax treatment of such losses.

Redemption of Class A Ordinary Shares

Subject to the PFIC rules discussed below, in the event that a U.S. Holder's Class A ordinary shares are redeemed pursuant to the redemption provisions described in this prospectus under "*Description of Securities — Ordinary Shares*" or if we purchase a U.S. Holder's Class A ordinary shares in an open market transaction, the treatment of the transaction for United States federal income tax purposes will depend on whether the redemption or purchase by us qualifies as a sale or exchange of the Class A ordinary shares under Section 302 of the Code. If the redemption or purchase by us qualifies as a sale or exchange of Class A ordinary shares, the U.S. Holder will be treated as described under "*Gain or Loss on Sale, Taxable Exchange or Other Taxable Disposition of Class A Ordinary Shares and Warrants*" above. If the redemption or purchase by us does not qualify as a sale of Class A ordinary shares, the U.S. Holder will be treated as receiving a corporate distribution with the tax consequences described above under "*Taxation of Distributions*." Whether a redemption or purchase by us qualifies for treatment as a sale or exchange will depend largely on the total number of our shares treated as held by the U.S. Holder (including any Class A ordinary shares constructively owned by the U.S. Holder described in the following paragraph) relative to all of our shares issued and outstanding both before and after such redemption or purchase. The redemption or purchase by us of Class A ordinary shares generally will be treated as a sale or exchange of the Class A ordinary shares (rather than as a corporate distribution) if such redemption or purchase by us (i) is "substantially disproportionate" with respect to the U.S. Holder, (ii) results in a "complete termination" of the U.S. Holder's interest in us or (iii) is "not essentially equivalent to a dividend" with respect to the U.S. Holder. These tests are explained more fully below.

In determining whether any of the foregoing tests are satisfied, a U.S. Holder takes into account not only our shares actually owned by the U.S. Holder, but also our shares that are constructively owned by such holder. A U.S. Holder may constructively own, in addition to shares owned directly, shares owned by certain related individuals and entities in which the U.S. Holder has an interest or that have an interest in such U.S. Holder, as well as any shares the U.S. Holder has a right to acquire by exercise of an option, which would generally include Class A ordinary shares which could be acquired pursuant to the exercise of the warrants. In order to meet the substantially disproportionate test, the percentage of our issued and outstanding voting shares actually and constructively owned by the U.S. Holder immediately following the redemption or purchase by us of Class A ordinary shares must, among other requirements, be less than 80 percent of the percentage of our issued and outstanding voting shares actually and constructively owned by the U.S. Holder immediately before the redemption or purchase by us. Prior to our initial business combination, the Class A ordinary shares may not be treated as voting shares for this purpose and, consequently, this substantially disproportionate test may not be applicable. There will be a complete termination of a U.S. Holder's interest if either (i) all of our shares actually and constructively owned by the U.S. Holder are redeemed or (ii) all of our shares actually owned by the U.S. Holder are redeemed and the U.S. Holder is eligible to waive, and effectively waives in accordance with specific rules, the attribution of shares owned by certain family members and the U.S. Holder does not constructively own any other of our shares and otherwise complies with specific conditions. Whether the redemption or purchase by us of the Class A ordinary shares will not be essentially equivalent to a dividend if such redemption or purchase by us results in a "meaningful reduction" of the U.S. Holder's proportionate interest in us. Whether the redemption or purchase by us will result in a meaningful reduction in a U.S. Holder's proportionate interest in us generally will depend on the particular facts and circumstances applicable to such holder. However, the IRS has indicated in a published ruling that even a small reduction in the proportionate interest of a small minority shareholder in a publicly held corporation who exercises no control over corporate affairs may constitute such a "meaningful reduction." A U.S. Holder should consult its own tax advisors as to the tax consequences of a redemption or purchase by us of any Class A ordinary shares.

If none of the foregoing tests are satisfied, then the redemption or purchase by us of any Class A ordinary shares will be treated as a corporate distribution and the tax effects will be as described under “— *Taxation of Distributions*” above. After the application of those rules, any remaining tax basis of the U.S. Holder in the redeemed Class A ordinary shares will be added to the U.S. Holder’s adjusted tax basis in its remaining shares. If there are no remaining shares, a U.S. Holder is urged to consult its tax advisor as to the allocation of any remaining tax basis. U.S. Holders who actually or constructively own five percent (5%) (or, if the Class A ordinary shares are not then publicly traded, one percent (1%)) or more of the Class A ordinary shares (by vote or value) may be subject to special reporting requirements with respect to a redemption of Class A ordinary shares, and such holders are urged to consult with their own tax advisers with respect to their reporting requirements.

Exercise, Lapse or Redemption of a Warrant

Subject to the PFIC rules discussed below and except as discussed below with respect to the cashless exercise of a warrant, a U.S. Holder generally will not recognize gain or loss upon the acquisition of a Class A ordinary share on the exercise of a warrant for cash. A U.S. Holder’s tax basis in a Class A ordinary share received upon exercise of the warrant generally will equal the sum of the U.S. Holder’s initial investment in the warrant (that is, the portion of the U.S. Holder’s purchase price for the units that is allocated to the warrant, as described above under “— *Allocation of Purchase Price and Characterization of a Unit*”) and the exercise price. It is unclear whether a U.S. Holder’s holding period for the Class A ordinary share will commence on the date of exercise of the warrant or the day following the date of exercise of the warrant; in either case, the holding period will not include the period during which the U.S. Holder held the warrant. If a warrant is allowed to lapse unexercised, a U.S. Holder generally will recognize a capital loss equal to such holder’s tax basis in the warrant.

The tax consequences of a cashless exercise of a warrant are not clear under current law. Subject to the PFIC rules discussed below, a cashless exercise may not be taxable, either because the exercise is not a realization event or because the exercise is treated as a recapitalization for United States federal income tax purposes. In either situation, a U.S. Holder’s tax basis in the Class A ordinary shares received generally would equal the U.S. Holder’s tax basis in the warrants. If the cashless exercise was not a realization event, it is unclear whether a U.S. Holder’s holding period for the Class A ordinary share will commence on the date of exercise of the warrant or the day following the date of exercise of the warrant. If the cashless exercise were treated as a recapitalization, the holding period of the Class A ordinary shares would include the holding period of the warrants.

Although we expect any cashless exercise of warrants to be treated as a recapitalization for U.S. federal income purposes, it is also possible that a cashless exercise may be treated as a taxable exchange in which gain or loss would be recognized. In such event, a U.S. Holder may be deemed to have surrendered warrants with an aggregate value equal to the exercise price for the total number of warrants deemed exercised. Subject to the PFIC rules discussed below, the U.S. Holder would recognize capital gain or loss in an amount equal to the difference between the fair market value of the warrants deemed surrendered and the U.S. Holder’s tax basis in such warrants. In this case, a U.S. Holder’s tax basis in the Class A ordinary shares received would equal the sum of the U.S. Holder’s initial investment in the warrants deemed exercised (i.e., the portion of the U.S. Holder’s purchase price for the units that is allocated to such warrants, as described above under “— *Allocation of Purchase Price and Characterization of a Unit*”) and the exercise price of such warrants. It is unclear whether a U.S. Holder’s holding period for the Class A ordinary shares would commence on the date of exercise of the warrant or the day following the date of exercise of the warrant.

Due to the absence of authority on the United States federal income tax treatment of a cashless exercise, there can be no assurance which, if any, of the alternative tax consequences and holding periods described above would be adopted by the IRS or a court of law. Accordingly, U.S. Holders should consult their tax advisors regarding the tax consequences of a cashless exercise.

Subject to the PFIC rules described below, if we redeem warrants for cash pursuant to the redemption provisions described in the section of this prospectus entitled “*Description of Securities — Warrants*” or if we purchase warrants in an open market transaction, such redemption or purchase generally will be treated as a taxable disposition to the U.S. Holder, taxed as described above under “— *Gain or Loss on Sale, Taxable Exchange or Other Taxable Disposition of Class A Ordinary Shares and Warrants*.”

Possible Constructive Distributions

The terms of each warrant provide for an adjustment to the number of Class A ordinary shares for which the warrant may be exercised or to the exercise price of the warrant in certain events, as discussed in the section of this prospectus captioned “*Description of Securities — Warrants*.” An adjustment which has the effect of preventing dilution generally is not taxable. The U.S. Holders of the warrants would, however, be treated as receiving a constructive distribution from us if, for example, the adjustment increases such U.S. Holders’ proportionate interest in our assets or earnings and profits (e.g., through an increase in the number of Class A ordinary shares that would be obtained upon exercise or through a decrease in the exercise price of the warrant) as a result of a distribution of cash or other property such as other securities to the holders of our Class A ordinary shares which is taxable to the U.S. Holders of such Class A ordinary shares as described under “— *Taxation of Distributions*” above. Such constructive distribution would be subject to tax as described under that section in the same manner as if the U.S. Holders of the warrants received a cash distribution from us equal to the fair market value of the increase in the interest. For certain information reporting purposes, we are required to determine the date and amount of any such constructive distributions. Proposed Treasury regulations, which we may rely on prior to the issuance of final regulations, specify how the date and amount of constructive distributions are determined.

Passive Foreign Investment Company Rules

A non-U.S. corporation will be classified as a PFIC for United States federal income tax purposes if either (i) at least 75% of its gross income in a taxable year, including its pro rata share of the gross income of any corporation in which it is considered to own at least 20% of the shares by value, is passive income or (ii) at least 50% of its assets in a taxable year (ordinarily determined based on fair market value and averaged quarterly over the year), including its pro rata share of the assets of any corporation in which it is considered to own at least 20% of the shares by value, are held for the production of, or produce, passive income. Passive income generally includes dividends, interest, rents and royalties (other than rents or royalties derived from the active conduct of a trade or business) and gains from the disposition of assets giving rise to passive income.

Because we are a blank check company, with no current active operating business, we believe that it is likely that we will meet the PFIC asset or income test for our current taxable year. However, pursuant to a startup exception, a corporation will not be a PFIC for the first taxable year the corporation has gross income (the “startup year”), if (i) no predecessor of the corporation was a PFIC; (ii) the corporation satisfies the IRS that it will not be a PFIC for either of the first two taxable years following the startup year; and (iii) the corporation is not in fact a PFIC for either of those years. The applicability of the startup exception to us will not be known until after the close of our current taxable year and, perhaps, until the end of our two taxable years following our startup year (within the meaning of the startup exception). Further, after the acquisition of a company or assets in a business combination, we may still meet one of the PFIC tests depending on the timing of the acquisition and the amount of our passive income and assets as well as the passive income and assets of the acquired business. If the company that we acquire in a business combination is a PFIC (or we do not complete a business acquisition by the end of the first taxable year after the taxable year of our formation), then we will likely not qualify for the startup exception and will be a PFIC for our current taxable year. Our actual PFIC status for our current taxable year or any subsequent taxable year will not be determinable until after the end of such taxable year (and, in the case of the startup exception to our current taxable year, perhaps not until after the end of our two taxable years following our startup year). Accordingly, there can be no assurance with respect to our status as a PFIC for our current taxable year or any future taxable year. In addition, our U.S. counsel expresses no opinion with respect to our PFIC status for any taxable year.

Although our PFIC status is determined annually, an initial determination that our company is a PFIC will generally apply for subsequent years to a U.S. Holder who held (or is deemed to have held) Class A ordinary shares or warrants while we were a PFIC, whether or not we meet the test for PFIC status in those subsequent years. If we are determined to be a PFIC and, in the case of our Class A ordinary shares, the U.S. Holder did not make either a mark-to-market election, a timely qualified electing fund (“QEF”) election for our first taxable year as a PFIC in which the U.S. Holder held (or was deemed to hold) Class A ordinary shares, or a QEF election together with a purging election, each as described below, such U.S. Holder generally will be subject to special rules with respect to (i) any gain recognized by the U.S. Holder on the sale or other disposition of its Class A ordinary shares or warrants and (ii) any “excess distribution” made to the U.S. Holder (generally, any distributions to such U.S. Holder during a taxable year of the U.S. Holder that are greater than 125% of the average annual distributions received by such U.S. Holder in respect of the Class A ordinary shares during the three preceding taxable years of such U.S. Holder or, if shorter, such U.S. Holder’s holding period for the Class A ordinary shares).

Under these rules:

- the U.S. Holder's gain or excess distribution will be allocated ratably over the U.S. Holder's holding period for the Class A ordinary shares or warrants;
- the amount allocated to the U.S. Holder's taxable year in which the U.S. Holder recognized the gain or received the excess distribution, or to the period in the U.S. Holder's holding period before the first day of our first taxable year in which we are a PFIC, will be taxed as ordinary income;
- the amount allocated to other taxable years (or portions thereof) of the U.S. Holder and included in its holding period will be taxed at the highest tax rate in effect for that year and applicable to the U.S. Holder; and
- an additional amount equal to the interest charge generally applicable to underpayments of tax will be imposed on the U.S. Holder with respect to the tax attributable to each such other taxable year of the U.S. Holder.

In general, if we are determined to be a PFIC, a U.S. Holder may be able to avoid certain PFIC tax consequences described above in respect to our Class A ordinary shares (but not our warrants) by making and maintaining a timely and valid QEF election (if eligible to do so) to include in income its pro rata share of our net capital gains (as long-term capital gain) and other earnings and profits (as ordinary income), on a current basis, in each case whether or not distributed, in the taxable year of the U.S. Holder in which or with which our taxable year ends. A U.S. Holder generally may make a separate election to defer the payment of taxes on undistributed income inclusions under the QEF rules, but if deferred, any such taxes will be subject to an interest charge.

It is not entirely clear how various aspects of the PFIC rules apply to the warrants. However, a U.S. Holder may not make a QEF election with respect to its warrants to acquire our Class A ordinary shares. As a result, if a U.S. Holder sells or otherwise disposes of such warrants (other than upon exercise of such warrants for cash) and we were a PFIC at any time during the U.S. Holder's holding period of such warrants, any gain recognized generally will be treated as an excess distribution, taxed as described above. If a U.S. Holder that exercises such warrants properly makes and maintains a QEF election with respect to the newly acquired Class A ordinary shares (or has previously made a QEF election with respect to our Class A ordinary shares), the QEF election will apply to the newly acquired Class A ordinary shares. Notwithstanding any such QEF election, the adverse tax consequences relating to PFIC shares, adjusted to take into account the current income inclusions resulting from the QEF election, will continue to apply with respect to such newly acquired Class A ordinary shares (which generally will be deemed to have a holding period for purposes of the PFIC rules that includes the period the U.S. Holder held the warrants), unless the U.S. Holder makes a purging election under the PFIC rules. Under one type of purging election, the U.S. Holder will be deemed to have sold such shares at their fair market value and any gain recognized on such deemed sale will be treated as an excess distribution, as described above. Under another type of purging election, an electing U.S. Holder will be treated as having received as an excess distribution its ratable share of our earnings and profits determined for U.S. federal income tax purposes. In order for a U.S. Holder to make the second election, we must also be a "controlled foreign corporation" as defined in the Code, and there are no assurances that we will so qualify. As a result of either purging election, the U.S. Holder will generally have additional basis (to the extent of the excess distribution resulting from the purging election) and, solely for purposes of the PFIC rules, a new holding period in the Class A ordinary shares acquired upon the exercise of the warrants. U.S. Holders are urged to consult their tax advisors as to the applicability of the rules governing purging elections to their particular circumstances.

The QEF election is made on a shareholder-by-shareholder basis and, once made, can be revoked only with the consent of the IRS. A U.S. Holder generally makes a QEF election by attaching a completed IRS Form 8621 (Information Return by a Shareholder of a Passive Foreign Investment Company or Qualified Electing Fund), including the information provided in a PFIC annual information statement, to a timely filed United States federal income tax return for the tax year to which the election relates. Retroactive QEF elections generally may be made only by filing a protective statement with such return and if certain other conditions are met or with the consent of the IRS. U.S. Holders should consult their tax advisors regarding the availability and tax consequences of a retroactive QEF election under their particular circumstances.

In order to comply with the requirements of a QEF election, a U.S. Holder must receive a PFIC annual information statement from us. If we determine we are a PFIC for any taxable year, upon written request, we will endeavor to provide to a U.S. Holder such information as the IRS may require, including a PFIC annual information statement, in order to enable the U.S. Holder to make and maintain a QEF election, but there is no assurance that we will timely provide such required information. There is also no assurance that we will have timely knowledge of our status as a PFIC in the future or of the required information to be provided.

If a U.S. Holder has made a QEF election with respect to our Class A ordinary shares, and the excess distribution rules discussed above do not apply to such shares (because of a timely QEF election for our first taxable year as a PFIC in which the U.S. Holder holds (or is deemed to hold) such shares or a purge of the PFIC taint pursuant to a purging election, as described above), any gain recognized on the sale of our Class A ordinary shares generally will be taxable as capital gain and no additional interest charge will be imposed under the PFIC rules. As discussed above, if we are a PFIC for any taxable year, a U.S. Holder of our Class A ordinary shares that has made a QEF election will be currently taxed on its pro rata share of our earnings and profits, whether or not distributed for such year. A subsequent distribution of such earnings and profits that were previously included in income generally should not be taxable when distributed to such U.S. Holder. The tax basis of a U.S. Holder's shares in a QEF will be increased by amounts that are included in income, and decreased by amounts distributed but not taxed as dividends, under the above rules. In addition, if we are not a PFIC for any taxable year, such U.S. Holder will not be subject to the QEF inclusion regime with respect to our Class A ordinary shares for such a taxable year.

Alternatively, if a U.S. Holder, at the close of its taxable year, owns shares in a PFIC that are treated as marketable stock, the U.S. Holder may make a mark-to-market election with respect to such shares for such taxable year. If the U.S. Holder makes a valid mark-to-market election for the first taxable year of the U.S. Holder in which the U.S. Holder holds (or is deemed to hold) Class A ordinary shares in us and for which we are determined to be a PFIC, such U.S. Holder generally will not be subject to the PFIC rules described above in respect of its Class A ordinary shares. Instead, in general, the U.S. Holder will include for each of its taxable years as ordinary income the excess, if any, of the fair market value of its Class A ordinary shares at the end of such year over its adjusted basis in its Class A ordinary shares. These amounts of ordinary income would not be eligible for the favorable tax rates applicable to qualified dividend income or long-term capital gains. The U.S. Holder also will recognize an ordinary loss in respect of the excess, if any, of its adjusted basis of its Class A ordinary shares over the fair market value of its Class A ordinary shares at the end of its taxable year (but only to the extent of the net amount of previously included income as a result of the mark-to-market election). The U.S. Holder's basis in its Class A ordinary shares will be adjusted to reflect any such income or loss amounts, and any further gain recognized on a sale or other taxable disposition of its Class A ordinary shares will be treated as ordinary income. Currently, a mark-to-market election may not be made with respect to warrants.

The mark-to-market election is available only for "marketable stock," generally, stock that is regularly traded on a national securities exchange that is registered with the Securities and Exchange Commission, including Nasdaq (on which we intend to list the Class A ordinary shares), or on a foreign exchange or market that the IRS determines has rules sufficient to ensure that the market price represents a legitimate and sound fair market value. If made, a mark-to-market election would be effective for the taxable year for which the election was made and for all subsequent taxable years unless the Class A ordinary shares ceased to qualify as "marketable stock" for purposes of the PFIC rules or the IRS consented to the revocation of the election. U.S. Holders are urged to consult their own tax advisors regarding the availability and tax consequences of a mark-to-market election in respect to our Class A ordinary shares under their particular circumstances.

If we are a PFIC and, at any time, have a foreign subsidiary that is classified as a PFIC, U.S. Holders generally would be deemed to own a portion of the shares of such lower-tier PFIC, and generally could incur liability for the deferred tax and interest charge described above if we receive a distribution from, or dispose of all or part of our interest in, the lower-tier PFIC or the U.S. Holders otherwise were deemed to have disposed of an interest in the lower-tier PFIC. Upon written request we will endeavor to cause any lower-tier PFIC to provide to a U.S. Holder the information that may be required to make or maintain a QEF election with respect to the lower-tier PFIC. There can be no assurance that we will have timely knowledge of the status of any such lower-tier PFIC. In addition, we may not hold a controlling interest in any such lower-tier PFIC and thus there can be no assurance we will be able to cause the lower-tier PFIC to provide such required information. A mark-to-market election generally would not be available with respect to such lower-tier PFIC. U.S. Holders are urged to consult their tax advisors regarding the tax issues raised by lower-tier PFICs.

A U.S. Holder that owns (or is deemed to own) shares in a PFIC during any taxable year of the U.S. Holder, may have to file an IRS Form 8621 (whether or not a QEF or mark-to-market election is made) and such other information as may be required by the Treasury. Failure to do so, if required, will extend the statute of limitations until such required information is furnished to the IRS.

The rules dealing with PFICs and with the QEF and mark-to-market elections are very complex and are affected by various factors in addition to those described above. Accordingly, U.S. Holders of our Class A ordinary shares or warrants should consult their own tax advisors concerning the application of the PFIC rules to our securities under their particular circumstances.

Tax Reporting

Certain U.S. Holders may be required to file an IRS Form 926 (Return by a U.S. Transferor of Property to a Foreign Corporation) to report a transfer of property (including cash) to us. Substantial penalties may be imposed on a U.S. Holder that fails to comply with this reporting requirement, and the period of limitations on assessment and collection of U.S. federal income taxes will be extended in the event of a failure to comply. Furthermore, certain U.S. Holders who are individuals and certain entities will be required to report information with respect to such U.S. Holder's investment in "specified foreign financial assets" on IRS Form 8938 (Statement of Specified Foreign Financial Assets), subject to certain exceptions. Specified foreign financial assets generally include any financial account maintained with a non-U.S. financial institution and should also include the Class A ordinary shares and warrants if they are not held in an account maintained with a U.S. financial institution. Persons who are required to report specified foreign financial assets and fail to do so may be subject to substantial penalties, and the period of limitations on assessment and collection of U.S. federal income taxes will generally be extended in the event of a failure to comply. Potential investors are urged to consult their tax advisors regarding the foreign financial asset and other reporting obligations and their application to an investment in our Class A ordinary shares and warrants.

Non-U.S. Holders

This section applies to you if you are a "Non-U.S. Holder." As used herein, the term "Non-U.S. Holder" means a beneficial owner of our units, Class A ordinary shares or warrants (other than a partnership or other entity or arrangement treated as a partnership for U.S. federal income tax purposes) who or that is for United States federal income tax purposes:

- a non-resident alien individual (other than certain former citizens and residents of the United States subject to U.S. tax as expatriates);
- a foreign corporation; or
- an estate or trust that is not a U.S. Holder;

but generally does not include an individual who is present in the United States for 183 days or more in the taxable year of disposition. If you are such an individual, you should consult your tax advisor regarding the United States federal income tax consequences of the sale or other disposition of our securities.

Dividends (including constructive distributions treated as dividends) paid or deemed paid to a Non-U.S. Holder in respect of our Class A ordinary shares generally will not be subject to United States federal income tax, unless the dividends are effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States (and, if required by an applicable income tax treaty, are attributable to a permanent establishment or fixed base that such Non-U.S. Holder maintains in the United States). If the dividend, despite being paid by a foreign corporation, is deemed to be U.S. source under the Code and Treasury regulations promulgated thereunder, then withholding at a 30% rate applies, unless such tax rate is lowered by an applicable income tax treaty. In addition, a Non-U.S. Holder generally will not be subject to United States federal income tax on any gain attributable to a sale or other taxable disposition of our Class A ordinary shares or warrants unless such gain is effectively connected with its conduct of a trade or business in the United States (and, if required by an applicable income tax treaty, is attributable to a permanent establishment or fixed base that such holder maintains in the United States).

Dividends (including constructive distributions treated as dividends) and gains that are effectively connected with the Non-U.S. Holder's conduct of a trade or business in the United States (and, if required by an applicable income tax treaty, are attributable to a permanent establishment or fixed base in the United States) generally will be subject to United States federal income tax at the same regular United States federal income tax rates applicable to a comparable U.S. Holder and, in the case of a Non-U.S. Holder that is a corporation for United States federal income tax purposes, also may be subject to an additional branch profits tax at a 30% rate or a lower applicable tax treaty rate.

The characterization for United States federal income tax purposes of the redemption or purchase by us of a Non-U.S. Holder's Class A ordinary shares will generally correspond to the U.S. federal income tax characterization of such a redemption or purchase by us of a U.S. Holder's Class A ordinary shares, as described under "*U.S. Holders — Redemption of Class A Ordinary Shares*" above, and the consequences of the redemption or purchase by us to the Non-U.S. Holder will be as described in the paragraphs above under the heading "*Non-U.S. Holders*" based on such characterization. The United States federal income tax treatment of a Non-U.S. Holder's exercise of a warrant, or the lapse of a warrant held by a Non-U.S. Holder, generally will correspond to the United States federal income tax treatment of the exercise or lapse of a warrant by a U.S. Holder, as described under "*U.S. Holders — Exercise or Lapse of a Warrant*," above, although to the extent a cashless exercise results in a taxable exchange, the consequences would be similar to those described in the preceding paragraphs above for a Non-U.S. Holder's gain on the sale or other disposition of our Class A ordinary shares and warrants.

Information Reporting and Backup Withholding

Dividend payments with respect to our Class A ordinary shares and proceeds from the sale, exchange, redemption or other taxable disposition of our Class A ordinary shares may be subject to information reporting to the IRS and possible United States backup withholding. Backup withholding will not apply, however, to a U.S. Holder who furnishes a correct taxpayer identification number and makes other required certifications, or who is otherwise exempt from backup withholding and establishes such exempt status. U.S. Holders who are required to establish their exempt status may be required to provide such certification on IRS Form W-9. A Non-U.S. Holder generally will eliminate the requirement for information reporting and backup withholding by providing certification of its foreign status, under penalties of perjury, on a duly executed applicable IRS Form W-8 or by otherwise establishing an exemption.

Backup withholding is not an additional tax. Amounts withheld as backup withholding may be credited against a holder's United States federal income tax liability, and a holder generally may obtain a refund of any excess amounts withheld under the backup withholding rules by timely filing the appropriate claim for refund with the IRS and furnishing any required information. Holders are urged to consult their own tax advisors regarding the application of backup withholding and the availability of and procedure for obtaining an exemption from backup withholding in their particular circumstances.

The U.S. federal income tax discussion set forth above is included for general information only and may not be applicable depending upon a holder's particular situation. Holders are urged to consult their tax advisors with respect to the tax consequences to them of the acquisition, ownership and disposition of our Class A ordinary shares and warrants, including the tax consequences under U.S. federal, state and local, estate, non-U.S. and other tax laws and tax treaties and the possible effects of changes in U.S. or other tax laws.

UNDERWRITING

Subject to the terms and conditions of the underwriting agreement, Stifel has agreed to purchase from us, and we have agreed to sell to Stifel, all of the units being sold in this offering at the public offering price less the underwriting discounts and commissions set forth on the cover page of this prospectus.

The underwriting agreement provides that, following the completion of this offering, the obligations of the underwriters with respect to this offering will be deemed satisfied and the underwriters are not bound by any commitment or obligation to offer or sell to the public any securities of the Company or any business combination transaction counterparty or otherwise solicit holders of securities of the Company or any business combination transaction counterparty to approve the business transaction.

The underwriting agreement provides that the underwriters are obligated to purchase all the units in the offering if any are purchased, other than those units covered by the over-allotment option described below.

The underwriters have advised us that, following the completion of this offering, they currently intend to make a market in the units as permitted by applicable laws and regulations. However, the underwriters are not obligated to do so, and the underwriters may discontinue any market-making activities at any time without notice in their sole discretion. Accordingly, no assurance can be given as to the liquidity of the trading market for the units, that you will be able to sell any of the units held by you at a particular time or that the prices that you receive when you sell will be favorable.

We have granted to the underwriters a 45-day option to purchase up to 3,000,000 additional units at the initial public offering price, less the underwriting discounts and commissions.

The underwriters propose to offer the units initially at the public offering price on the cover page of this prospectus and to selling group members at that price less a selling concession of \$ per unit. After the initial public offering, the underwriters may change the public offering price and concession and discount to broker/dealers. The offering of the units by the underwriters are subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part.

The following table summarizes the compensation and estimated expenses we will pay.

	Per Unit	Total
Public offering price	\$ 10.00	\$ 200,000,000
Underwriting discounts and commissions ⁽¹⁾	\$ 0.40	\$ 8,000,000
Proceeds, before expenses, to us	\$ 9.60	\$ 192,000,000

- (1) Includes \$0.15 per unit, or \$3,000,000 in the aggregate (or \$3,450,000 in the aggregate if the underwriters' over-allotment option is exercised in full), payable to the underwriters upon the closing of this offering. Also includes \$0.25 per unit, or up to \$5,000,000 in the aggregate (or \$5,750,000 in the aggregate if the underwriters' over-allotment option is exercised in full), payable to the underwriters based on the total amount of funds remaining in the trust account after redemptions of public shares; provided that the underwriters have agreed to waive their rights to the deferred underwriting commissions if the trust account is less than \$70 million on the closing date of the initial business combination.

We estimate that our out-of-pocket expenses for this offering will be approximately \$750,000. We have agreed to reimburse the underwriters for certain of their out-of-pocket expenses for this offering up to an aggregate reimbursement allowance of \$50,000, including, but not limited to, the FINRA-related fees and expenses of the underwriters' legal counsel in an amount not to exceed \$15,000, and the cost of background searches of our officers and directors in an amount not to exceed \$32,000 in the aggregate (up to \$4,000 per U.S. person and \$5,000 per non-U.S. person). See the section of this prospectus entitled "Use of Proceeds" for more information.

The representative has informed us that the underwriters do not intend to make sales to discretionary accounts.

We, our sponsor and our officers and directors have agreed that, for a period of 180 days from the date of this prospectus, we and they will not, without the prior written consent of Stifel, offer, sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, any units, warrants, ordinary shares or any other securities convertible into, or exercisable, or exchangeable for, ordinary shares subject to certain exceptions; provided, however, we may (1) issue and sell the private warrants; (2) issue and sell the additional units to cover our underwriters' over-allotment option (if any); (3) register with the SEC pursuant to an agreement entered into concurrently with the issuance and sale of the securities in this offering, the resale of the private warrants and the founder shares; and (4) issue securities in connection with our initial business combination. However, the foregoing shall not apply to the forfeiture of any founder shares pursuant to their terms or any transfer of founder shares to any current or future independent director of the company (as long as such current or future independent director is subject to the terms of the letter agreement, filed herewith, at the time of such transfer; and as long as, to the extent any Section 16 reporting obligation is triggered as a result of such transfer, any related Section 16 filing includes a practical explanation as to the nature of the transfer). Stifel in its sole discretion may release any of the securities subject to these lock-up agreements at any time without notice.

Our initial shareholders have agreed not to transfer, assign or sell any of their founder shares until the earlier of (i) 180 days following the consummation of our initial business combination; or (ii) subsequent to the consummation of our initial business combination, the date on which we consummate a transaction which results in all of our shareholders having the right to exchange their shares for cash, securities, or other property subject to certain limited exceptions (including as described herein under "*Principal Shareholders — Restrictions on Transfers of Founder Shares and Private Warrants*").

Our sponsor, our initial shareholders and our officers and directors have agreed not to transfer, assign or sell any of the private warrants or their underlying securities until 30 days after the date we complete our initial business combination (except with respect to permitted transferees as described in this prospectus under "*Principal Shareholders — Restrictions on Transfers of Founder Shares and Private Warrants*").

We have agreed to indemnify the underwriters against certain liabilities under the Securities Act, or contribute to payments that the underwriters may be required to make in that respect.

We have granted Stifel (on a non-exclusive basis) a right of first refusal to act as our book-running underwriter, placement agent, arranger, financial advisor, structuring agent, capital markets advisor, or any other similar capacity, on Stifel's customary terms, commencing after 60 days from the closing date (unless such arrangement would not be defined by FINRA as underwriters' compensation) in the event we pursue (i) our initial business combination, or (ii) any registered, underwritten public offering of equity or debt securities, any private placement of equity or debt securities, or any other financing or capital raising transaction relating to any initial business combination. The right of first refusal shall terminate upon the earlier of (x) the consummation of our initial business combination and (y) 24 months following the closing date of this offering (or such longer period of time if our shareholders approve an extension of the duration of our company following the closing date). In accordance with FINRA Rule 5110(g)(6), such right of first refusal shall not have a duration of more than three years from the commencement of sales of this offering. Any underwriters' provision of any such additional services in connection with our initial business combination will require our separate engagement of such underwriters in connection with our initial business combination and the entry into a related written engagement agreement between such underwriters and us setting forth the terms and conditions of the additional services to be provided by such underwriters to us.

We have been approved to list our units on Nasdaq under the symbol "XCBEU" and, once the Class A ordinary shares and warrants begin separate trading, we expect to have our Class A ordinary shares and warrants listed on Nasdaq under the symbols "XCBE" and "XCBEW," respectively.

Prior to this offering, there has been no public market for our securities.

The determination of our per unit offering price was more arbitrary than would typically be the case if we were an operating company. Among the factors considered in determining the initial public offering price were the history and prospects of companies whose principal business is the acquisition of other companies, prior offerings of those companies, our management, our capital structure and currently prevailing general conditions in equity securities markets, including current market valuations of publicly traded companies considered comparable to our company. We cannot assure you, however, that the price at which the units, Class A ordinary shares or warrants will sell in the public market after this offering will not be lower than the initial public offering price or that an active trading market in our units, Class A ordinary shares or warrants will develop and continue after this offering.

If we do not complete our initial business combination within the completion window we and the underwriters have agreed that: (1) the underwriters will forfeit any rights or claims to their deferred underwriting discounts and commissions, including any accrued interest thereon, then in the trust account; and (2) that the deferred underwriters' discounts and commissions will be distributed on a pro rata basis, together with any accrued interest thereon (which interest shall be net of taxes payable) to the public shareholders.

In connection with this offering, the underwriters may engage in stabilizing transactions, over-allotment transactions, syndicate covering transactions and penalty bids in accordance with Regulation M under the Exchange Act.

- Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.
- Over-allotment involves sales by the underwriters of units in excess of the number of units the underwriters are obligated to purchase, which creates a syndicate short position. The short position may be either a covered short position or a naked short position. In a covered short position, the number of units over-allotted by the underwriters are not greater than the number of units that they may purchase in the over-allotment option. In a naked short position, the number of units involved is greater than the number of units in the over-allotment option. The underwriters may close out any covered short position by either exercising their over-allotment option and/or purchasing units in the open market.
- Syndicate covering transactions involve purchases of the units in the open market after the distribution has been completed in order to cover syndicate short positions. In determining the source of units to close out the short position, the underwriters will consider, among other things, the price of units available for purchase in the open market as compared to the price at which they may purchase units through the over-allotment option. If the underwriters sells more units than could be covered by the over-allotment option, a naked short position, the position can only be closed out by buying units in the open market. A naked short position is more likely to be created if the underwriters are concerned that there could be downward pressure on the price of the units in the open market after pricing that could adversely affect investors who purchase in this offering.
- Penalty bids permit the representative to reclaim a selling concession from a syndicate member when the units originally sold by the syndicate member are purchased in a stabilizing or syndicate covering transaction to cover syndicate short positions.

These stabilizing transactions, syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of our units or preventing or retarding a decline in the market price of the units. As a result, the price of our units may be higher than the price that might otherwise exist in the open market. These transactions may be effected on Nasdaq or otherwise and, if commenced, may be discontinued at any time.

Except as specifically set forth with respect to the right of first refusal, we are not under any contractual obligation to engage the underwriters to provide any services for us after this offering, and have no present intent to do so. However, the underwriters may introduce us to potential target businesses or assist us in raising additional capital in the future. If the underwriters provide services to us after this offering, we may pay the underwriters fair and reasonable fees that would be determined at that time in an arm's length negotiation; provided that no agreement will be entered into with the underwriters and no fees for such services will be paid to the underwriters prior to the date that is 60 days from the date of this prospectus, unless FINRA determines that such payment would not be deemed underwriters' compensation in connection with this offering. In addition, we may pay the underwriters of this offering or any entity with which they are affiliated a finder's fee or other compensation for services rendered to us in connection with the completion of a business combination.

The underwriters and their affiliates are full service financial institutions engaged in various activities, which may include sales and trading, commercial and investment banking, advisory, investment management, investment research, principal investment, hedging, market making, brokerage and other financial and non-financial activities and services. The underwriters and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us or our affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions.

In addition, in the ordinary course of their business activities, the underwriters and their affiliates, officers, directors and employees may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

A prospectus in electronic format may be made available on the web sites maintained by the underwriters, or selling group members, if any, participating in this offering and the underwriters participating in this offering may distribute prospectuses electronically. The representative may agree to allocate a number of units to the underwriters and selling group members for sale to their online brokerage account holders. Internet distributions will be allocated by the underwriters and selling group members that will make internet distributions on the same basis as other allocations.

The units are offered for sale in those jurisdictions in the United States, Europe, Asia and elsewhere where it is lawful to make such offers.

The underwriters have represented and agreed that they have not offered, sold or delivered and will not offer, sell or deliver any of the units directly or indirectly, or distribute this prospectus or any other offering material relating to the units, in or from any jurisdiction except under circumstances that will result in compliance with the applicable laws and regulations thereof and that will not impose any obligations or other duties on us except as set forth in the underwriting agreement.

Notice to Canadian Residents

Resale Restrictions

The distribution of units in Canada is being made on a private placement basis exempt from the requirement that we prepare and file a prospectus with the securities regulatory authorities in each province where trades of these securities are made. Any resale of the units in Canada must be made under applicable securities laws which may vary depending on the relevant jurisdiction, and which may require resales to be made under available statutory exemptions or under a discretionary exemption granted by the applicable Canadian securities regulatory authority. Purchasers are advised to seek legal advice prior to any resale of the securities.

Representations of Canadian Purchasers

By purchasing units in Canada and accepting delivery of a purchase confirmation, a purchaser is representing to us and the dealer from whom the purchase confirmation is received that:

- the purchaser is entitled under applicable provincial securities laws to purchase the units without the benefit of a prospectus qualified under those securities laws as it is an “accredited investor” as defined under National Instrument 45-106 — Prospectus Exemptions or Section 73.3 of the Securities Act (Ontario), as applicable;
- the purchaser is a “permitted client” as defined in National Instrument 31-103 — Registration Requirements, Exemptions and Ongoing Registrant Obligations;
- where required by law, the purchaser is purchasing as principal and not as agent; and
- the purchaser has reviewed the text above under Resale Restrictions.

Conflicts of Interest

Canadian purchasers are hereby notified that Stifel is relying on the exemption set out in section 3A.3 or 3A.4, if applicable, of National Instrument 33-105 — Underwriting Conflicts from having to provide certain conflict of interest disclosure in this document.

Statutory Rights of Action

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if the prospectus (including any amendment thereto) such as this document contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory. The purchaser of these securities in Canada should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for particulars of these rights or consult with a legal advisor.

Enforcement of Legal Rights

All of our directors and officers as well as the experts named herein may be located outside of Canada and, as a result, it may not be possible for Canadian purchasers to effect service of process within Canada upon us or those persons. All or a substantial portion of our assets and the assets of those persons may be located outside of Canada and, as a result, it may not be possible to satisfy a judgment against us or those persons in Canada or to enforce a judgment obtained in Canadian courts against us or those persons outside of Canada.

Taxation and Eligibility for Investment

Canadian purchasers of units should consult their own legal and tax advisors with respect to the tax consequences of an investment in the units in their particular circumstances and about the eligibility of the units for investment by the purchaser under relevant Canadian legislation.

Notice to Investors in the European Economic Area

In relation to each Member State of the European Economic Area (each, a "Member State"), each underwriter represents and agrees that it has not made and will not make an offer of units to the public in that Member State except that it may make an offer of units to the public in that Member State at any time,

- to legal entities which are qualified investors as defined in the Prospectus Regulation;
- to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Regulation) subject to obtaining the prior consent of the representative for any such offer; or
- in any other circumstances which do not require the publication by the issuer of a prospectus pursuant to Article 1(4) of the Prospectus Regulation, provided that no such offer of units shall require the company or the underwriters to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

For the purposes of this provision, the expression an "offer of units to the public" in relation to any units in any Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the units to be offered so as to enable an investor to decide to purchase or subscribe the units, and the expression Prospectus Regulation means Regulation (EU) 2017/1129 (as amended or superseded).

Notice to Residents of Hong Kong

The underwriters and their affiliates have not (1) offered or sold, and will not offer or sell, in Hong Kong, by means of any document, our units other than (A) to “professional investors” as defined in the Securities and Futures Ordinance (Cap.571) of Hong Kong and any rules made under that Ordinance or (B) in other circumstances which do not result in the document being a “prospectus” as defined in the Companies Ordinance (Cap. 32 of Hong Kong) or which do not constitute an offer to the public within the meaning of that Ordinance or (2) issued or had in its possession for the purposes of issue, and will not issue or have in its possession for the purposes of issue, whether in Hong Kong or elsewhere any advertisement, invitation or document relating to our units which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to our securities which are or are intended to be disposed of only to persons outside Hong Kong or only to “professional investors” as defined in the Securities and Futures Ordinance and any rules made under that Ordinance. The contents of this document have not been reviewed by any regulatory authority in Hong Kong. You are advised to exercise caution in relation to the offer. If you are in any doubt about any of the contents of this document, you should obtain independent professional advice.

Notice to Residents of Japan

The underwriters will not offer or sell any of our units directly or indirectly in Japan or to, or for the benefit of any Japanese person or to others, for re-offering or re-sale directly or indirectly in Japan or to any Japanese person, except in each case pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the Securities and Exchange Law of Japan and any other applicable laws and regulations of Japan. For purposes of this paragraph, “Japanese person” means any person resident in Japan, including any corporation or other entity organized under the laws of Japan.

Notice to Residents of Singapore

This prospectus or any other offering material relating to our units has not been and will not be registered as a prospectus with the Monetary Authority of Singapore, and the units will be offered in Singapore pursuant to exemptions under Section 274 and Section 275 of the Securities and Futures Act, Chapter 289 of Singapore (the “Securities and Futures Act”). Accordingly our units may not be offered or sold, or be the subject of an invitation for subscription or purchase, nor may this prospectus or any other offering material relating to our units be circulated or distributed, whether directly or indirectly, to the public or any member of the public in Singapore other than (a) to an institutional investor or other person specified in Section 274 of the Securities and Futures Act, (b) to a sophisticated investor, and in accordance with the conditions specified in Section 275 of the Securities and Futures Act or (c) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the Securities and Futures Act.

Notification under Section 309B(1)(c) of the Securities and Futures Act: Solely for the purposes of its obligations pursuant to sections 309B(1)(a) and 309B(1)(c) of the Securities and Futures Act and the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore (the “CMP Regulations 2018”), the Issuer has determined, and hereby notifies all relevant persons (as defined in Section 309A of the SFA) that the Units are (A) prescribed capital markets products (as defined in the CMP Regulations 2018) and (B) Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

Notice to Investors in the United Kingdom

Each underwriter represents and agrees that it has not made and will not make an offer of units to the public in the United Kingdom, except that it may make an offer of units to the public in the United Kingdom at any time:

- to any legal entity which is a qualified investor as defined in Article 2 of the UK Prospectus Regulation;
- to fewer than 150 natural or legal persons (other than qualified investors as defined in the UK Prospectus Regulation) in the United Kingdom subject to obtaining the prior consent of the representative for any such offer; or
- at any time in any other circumstances falling within section 86 of the FSMA, provided that no such offer of units shall require the company or the underwriters to publish a prospectus pursuant to section 85 of the FSMA or supplement a prospectus pursuant to the UK Prospectus Regulation.

For the purposes of this provision, the expression an offer of units to the public in relation to any units means the communication in any form and by any means of sufficient information on the terms of the offer and the units to be offered so as to enable an investor to decide to purchase or subscribe for the units.

The underwriters represent, warrant and agree as follows:

- it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of section 21 of FSMA) in circumstances in which section 21(1) of FSMA does not apply to the company; and
- it has complied with, and will comply with all applicable provisions of FSMA with respect to anything done by it in relation to the units in, from or otherwise involving the United Kingdom.

Notice to Residents of France

The units are being issued and sold outside the Republic of France and that, in connection with their initial distribution, it has not offered or sold and will not offer or sell, directly or indirectly, any units to the public in the Republic of France, and that it has not distributed and will not distribute or cause to be distributed to the public in the Republic of France this prospectus or any other offering material relating to the units, and that such offers, sales and distributions have been and will be made in the Republic of France only to qualified investors (investisseurs qualifiés) in accordance with Article L.411-2 of the Monetary and Financial Code and décret no. 98-880 dated October 1, 1998.

Notice to Prospective Investors in the Cayman Islands

No offer or invitation, whether directly or indirectly, may be made to the public in the Cayman Islands to subscribe for our securities.

LEGAL MATTERS

Loeb & Loeb LLP, New York, New York, is acting as counsel in connection with the registration of our securities under the Securities Act, and as such, has passed upon the validity of the securities offered in this prospectus with respect to units and warrants. Maples and Calder (Cayman) LLP, has passed upon the validity of the securities offered in this prospectus with respect to the ordinary shares and matters of Cayman Islands law. In connection with this offering, DLA Piper LLP (US), New York, New York, is acting as counsel to the underwriters.

EXPERTS

The financial statements of X3 Acquisition Corp. Ltd. as of August 19, 2025, and for the period from July 31, 2025 (inception) through August 19, 2025, appearing in this prospectus have been audited by WithumSmith+Brown, PC, independent registered public accounting firm, as set forth in their report thereon, appearing elsewhere in this prospectus, and are included in reliance upon such report given on the authority of such firm as experts in accounting and auditing.

WHERE YOU CAN FIND ADDITIONAL INFORMATION

We have filed with the SEC a registration statement on Form S-1 under the Securities Act with respect to the securities we are offering by this prospectus. This prospectus does not contain all of the information included in the registration statement. For further information about us and our securities, you should refer to the registration statement and the exhibits and schedules filed with the registration statement. Whenever we make reference in this prospectus to any of our contracts, agreements or other documents, the references are materially complete but may not include a description of all aspects of such contracts, agreements or other documents, and you should refer to the exhibits attached to the registration statement for copies of the actual contract, agreement or other document.

We are subject to the information requirements of the Exchange Act and will file annual, quarterly and current event reports, proxy statements and other information with the SEC. You can read our SEC filings, including the registration statement, over the Internet at the SEC's website at www.sec.gov.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholder and the Board of Directors of
X3 Acquisition Corp. Ltd.:

Opinion on the Financial Statements

We have audited the accompanying balance sheet of X3 Acquisition Corp. Ltd. (the “Company”) as of August 19, 2025, and the related statements of operations, changes in shareholder’s equity, and cash flows for the period from July 31, 2025 (inception) through August 19, 2025, and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of August 19, 2025, and the results of its operations and its cash flows for the period from July 31, 2025 (inception) through August 19, 2025, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on the Company’s financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (the “PCAOB”) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audit, we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

/s/ WithumSmith+Brown, PC

We have served as the Company’s auditor since 2025.

New York, New York

X3 ACQUISITION CORP. LTD.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2025

Note 1 — Organization and Business Operations

X3 Acquisition Corp. Ltd. (the “Company”) is a blank check company incorporated as a Cayman Islands exempted company on July 31, 2025. The Company was incorporated for the purpose of effecting a merger, amalgamation, share exchange, asset acquisition, share purchase, reorganization or similar Business Combination with one or more businesses (the “Business Combination”). The Company has not selected any specific Business Combination target and the Company has not, nor has anyone on its behalf, engaged in any substantive discussions, directly or indirectly, with any Business Combination target with respect to an initial Business Combination with the Company.

As of September 30, 2025, the Company had not commenced any operations. All activity for the period from July 31, 2025 (inception) through September 30, 2025 relates to the Company’s formation and the Proposed Public Offering (as defined below). The Company will not generate any operating revenues until after the completion of its initial Business Combination, at the earliest. The Company will generate non-operating income in the form of interest income from the proceeds derived from the Proposed Public Offering. The Company has selected December 31 as its fiscal year end.

The Company’s sponsor is X3 Acquisition Management LLC (the “Sponsor”). The Company’s ability to commence operations is contingent upon obtaining adequate financial resources through a Proposed Public Offering of 20,000,000 units at \$10.00 per unit (the “Units”) (or 23,000,000 Units if the underwriters’ over-allotment option is exercised in full), which is discussed in Note 3 (the “Proposed Public Offering”), and the sale of an aggregate of 5,000,000 private placement warrants to the Sponsor (the “Private Placement Warrants”) (or 5,450,000 Private Placement Warrants if the underwriters’ over-allotment option is exercised in full), at a price of \$1.00 per warrant, or \$5,000,000 in the aggregate (or \$5,450,000 if the underwriters’ over-allotment option is exercised in full), in a private placement that will close simultaneously with the Proposed Public Offering. Each Unit consists of one Class A ordinary share and one-half of one redeemable warrant. Each whole warrant entitles the holder to purchase one Class A ordinary share at a price of \$11.50 per share, subject to adjustment. The Company’s management has broad discretion with respect to the specific application of the net proceeds of the Proposed Public Offering and the sale of the Private Placement Warrants, although substantially all of the net proceeds are intended to be generally applied toward consummating a Business Combination (less deferred underwriting commissions).

The Company’s Business Combination must be with one or more target businesses that together have a fair market value equal to at least 80% of the net balance in the Trust Account (as defined below) (excluding the amount of deferred underwriting commissions held and taxes payable on the interest earned on the Trust Account) at the time of the signing an agreement to enter into a Business Combination. However, the Company will only complete a Business Combination if the post-Business Combination company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act of 1940, as amended (the “Investment Company Act”). There is no assurance that the Company will be able to successfully effect a Business Combination.

Upon the closing of the Proposed Public Offering, management has agreed that an aggregate of \$10.00 per Unit sold in the Proposed Public Offering will be held in a trust account (the “Trust Account”) and may only be invested in U.S. government treasury obligations with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act, which invest only in direct U.S. government treasury obligations; the holding of these assets in this form is intended to be temporary and for the sole purpose of facilitating the intended Business Combination. To mitigate the risk that the Company might be deemed to be an investment company for purposes of the Investment Company Act, which risk increases the longer that the Company holds investments in the Trust Account, the Company may, at any time (based on management team’s ongoing assessment of all factors related to the potential status under the Investment Company Act), instruct the trustee to liquidate the investments held in the Trust Account and instead to hold the funds in the Trust Account in cash or in an interest bearing demand deposit account at a bank. Except with respect to interest earned on the funds held in the Trust Account that may be released to the Company to pay its taxes, if any, the proceeds from the Proposed Public Offering and the sale of the Private Placement Warrants will not be released from the Trust Account until the earliest of (i) the completion of the Company’s initial Business Combination, (ii) the redemption of the Company’s public shares if the Company is unable to complete the initial Business Combination within 24 months from the closing of the Proposed Public Offering or by such earlier liquidation date as our board of directors may approve or such other time period in which the Company must complete an initial Business Combination pursuant to an amendment to its amended and restated memorandum and articles of association (the “Completion Window”), subject to applicable law, or (iii) the redemption of the Company’s public shares properly submitted in connection with a shareholder vote to amend the Company’s amended and restated memorandum and articles of association to (A) modify the substance or timing of the Company’s obligation to allow redemption in connection with the initial Business Combination or to redeem 100% of the Company’s public shares if the Company has not consummated an initial Business Combination within the Completion Window or (B) with respect to any other material provisions relating to shareholders’ rights or pre-initial Business Combination activity. The proceeds deposited in the Trust Account could become subject to the claims of the Company’s creditors, if any, which could have priority over the claims of the Company’s public shareholders.

X3 ACQUISITION CORP. LTD.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2025

The Company will provide the Company's public shareholders with the opportunity to redeem all or a portion of their public shares upon the completion of the initial Business Combination either (i) in connection with a general meeting called to approve the initial Business Combination or (ii) without a shareholder vote by means of a tender offer. The decision as to whether the Company will seek shareholder approval of a proposed initial Business Combination or conduct a tender offer will be made by the Company, solely in its discretion. The public shareholders will be entitled to redeem their shares at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account calculated as of two business days prior to the consummation of the initial Business Combination, including interest earned on the funds held in the Trust Account (less taxes payable), divided by the number of then outstanding public shares, subject to the limitations. The amount in the Trust Account is initially anticipated to be \$10.00 per public share.

The ordinary shares subject to redemption will be recorded at a redemption value and classified as temporary equity upon the completion of the Proposed Public Offering, in accordance with Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC") Topic 480 "Distinguishing Liabilities from Equity."

The Company will have only the duration of the Completion Window to complete the initial Business Combination. However, if the Company is unable to complete its initial Business Combination within the Completion Window, the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter (and subject to lawfully available funds therefor), redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest earned on the funds held in the Trust Account (which interest shall be net of taxes, if any, and less up to \$100,000 of interest to pay liquidation and dissolution expenses), divided by the number of then-outstanding public shares, which redemption will completely extinguish public shareholders' rights as shareholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the remaining shareholders and the board of directors, liquidate and dissolve, subject in each case to the Company's obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to the Company's warrants, which will expire worthless if the Company fails to complete the initial Business Combination within the Completion Window.

The Sponsor, officers and directors have entered into a letter agreement with the Company, pursuant to which they have agreed to (i) waive their redemption rights with respect to their founder shares and public shares in connection with the completion of the initial Business Combination; (ii) waive their redemption rights with respect to their founder shares and public shares in connection with a shareholder vote to approve an amendment to the Company's amended and restated memorandum and articles of association (A) to modify the substance or timing of the Company's obligation to allow redemption in connection with the initial Business Combination or to redeem 100% of the public shares if the Company has not consummated an initial Business Combination within the Completion Window or (B) with respect to any other material provisions relating to shareholders' rights or pre-initial Business Combination activity; (iii) waive their rights to liquidating distributions from the Trust Account with respect to their founder shares if the Company fails to complete the initial Business Combination within the Completion Window, although they will be entitled to liquidating distributions from the Trust Account with respect to any public shares they hold if the Company fails to complete the initial Business Combination within the Completion Window and to liquidating distributions from assets outside the Trust Account; and (iv) vote any founder shares held by them and any public shares purchased during or after the Proposed Public Offering (including in open market and privately negotiated transactions) in favor of the initial Business Combination.

X3 ACQUISITION CORP. LTD.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2025

The Sponsor has agreed that it will be liable to the Company if and to the extent any claims by a third party for services rendered or products sold to the Company, or a prospective target business with which the Company has entered into a written letter of intent, confidentiality or other similar agreement or Business Combination agreement, reduce the amount of funds in the Trust Account to below the lesser of (i) \$10.00 per public share and (ii) the actual amount per public share held in the Trust Account as of the date of the liquidation of the Trust Account, if less than \$10.00 per share due to reductions in the value of the trust assets, less taxes payable and up to \$100,000 to pay dissolution expenses, provided that such liability will not apply to any claims by a third party or prospective target business who executed a waiver of any and all rights to the monies held in the Trust Account (whether or not such waiver is enforceable) nor will it apply to any claims under the Company's indemnity of the underwriters of the Proposed Public Offering against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the "Securities Act"). However, the Company has not asked the Sponsor to reserve for such indemnification obligations, nor has the Company independently verified whether the Sponsor has sufficient funds to satisfy its indemnity obligations and the Company believes that the Sponsor's only assets are securities of the Company. Therefore, the Company cannot assure that the Sponsor would be able to satisfy those obligations.

Note 2 — Significant Accounting Policies

Basis of Presentation

The accompanying financial statements are presented in conformity with accounting principles generally accepted in the United States of America ("US GAAP") and pursuant to the rules and regulations of the U.S. Securities and Exchange Commission (the "SEC").

Liquidity and Capital Resources

The Company does not have sufficient liquidity to meet its anticipated obligations over the next year from the date of issuance of these financial statements. In connection with the Company's assessment of going concern considerations in accordance with Accounting Standards Codification ("ASC") 205-40, "Presentation of Financial Statements- Going Concern," management has determined that the Company has access to funds from the Sponsor, and the Sponsor has the financial ability to provide such funds, that are sufficient to fund the working capital needs of the Company until the earlier of the consummation of the Proposed Public Offering or in excess of one year from the date of issuance of these financial statements, which includes \$400,000 in the form of a promissory note from the Sponsor payable on the earlier of November 1, 2026, the date on which the Company consummates the Proposed Public Offering, or the date on which the Company determines not to proceed with the Proposed Public Offering.

Emerging Growth Company Status

The Company is an "emerging growth company," as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012 (the "JOBS Act"), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that an emerging growth company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company's financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

X3 ACQUISITION CORP. LTD.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2025

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of expenses during the reporting period. Actual results could differ from those estimates.

Deferred Offering Costs

The Company complies with the requirements of the ASC 340-10-S99 and SEC Staff Accounting Bulletin Topic 5A, “Expenses of Offering.” Deferred offering costs consist principally of professional and registration fees that are related to the Proposed Public Offering. FASB ASC 470-20, “Debt with Conversion and Other Options,” addresses the allocation of proceeds from the issuance of convertible debt into its equity and debt components. The Company applies this guidance to allocate Proposed Public Offering proceeds from the Units between Class A ordinary shares and warrants, using the residual method by allocating Proposed Public Offering proceeds first to assigned value of the warrants and then to the Class A ordinary shares. Offering costs allocated to the Class A ordinary shares will be charged to temporary equity and offering costs allocated to the Public and Private Placement Warrants will be charged to shareholder’s equity as Public and Private Placement Warrants after management’s evaluation will be accounted for under equity treatment. Should the Proposed Public Offering prove to be unsuccessful, these deferred costs, as well as additional expenses to be incurred, will be charged to operations.

Fair Value of Financial Instruments

The fair value of the Company’s assets and liabilities, which qualify as financial instruments under FASB ASC 820, “Fair Value Measurements and Disclosures,” approximates the carrying amounts represented in the balance sheet, primarily due to their short-term nature.

Net Loss Per Class B Ordinary Share

Net loss per Class B ordinary share is computed by dividing net loss by the weighted average number of Class B ordinary shares outstanding during the period, excluding Class B ordinary shares subject to forfeiture. Weighted average shares were reduced for the effect of an aggregate of 750,000 Class B ordinary shares that are subject to forfeiture if the over-allotment option is not exercised by the underwriters (see Note 7). As of September 30, 2025 (unaudited) and August 19, 2025, the Company did not have any dilutive securities and other contracts that could, potentially, be exercised or converted into ordinary shares and then share in the earnings of the Company. As a result, diluted loss per Class B ordinary share is the same as basic loss per Class B ordinary share for the period presented.

Income Taxes

The Company accounts for income taxes under ASC Topic 740, “Income Taxes,” which requires an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed for differences between the financial statement and tax bases of assets and liabilities that will result in future taxable or deductible amounts, based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

ASC Topic 740 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more likely than not to be sustained upon examination by taxing authorities. The Company’s management determined that the Cayman Islands is the Company’s major tax jurisdiction. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. As of September 30, 2025 (unaudited) and August 19, 2025, there were no unrecognized tax benefits and no amounts accrued for interest and penalties. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position.

X3 ACQUISITION CORP. LTD.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2025

The Company is considered to be an exempted Cayman Islands company with no connection to any other taxable jurisdiction and is presently not subject to income taxes or income tax filing requirements in the Cayman Islands or the United States. As such, the Company's tax provision was zero for the periods presented.

Derivative Financial Instruments

The Company evaluates its financial instruments to determine if such instruments are derivatives or contain features that qualify as embedded derivatives in accordance with ASC Topic 815, "Derivatives and Hedging". For derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value on the grant date and is then re-valued at each reporting date, with changes in the fair value reported in the statements of operations. The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is evaluated at the end of each reporting period. Derivative liabilities are classified in the balance sheet as current or non-current based on whether or not net cash settlement or conversion of the instrument could be required within 12 months of the balance sheet date. The underwriters' over-allotment option is deemed to be a freestanding financial instrument indexed on the contingently redeemable shares and will be accounted for as a liability pursuant to ASC 480 if not fully exercised at the time of the Proposed Public Offering.

Warrant Instruments

The Company will account for the Public and Private Placement Warrants to be issued in connection with the Proposed Public Offering and the private placement in accordance with the guidance contained in FASB ASC Topic 815, "Derivatives and Hedging". Accordingly, the Company evaluated and will classify the warrant instruments under equity treatment at their assigned values. There are no Public or Private Warrants currently outstanding as of September 30, 2025 (unaudited) or August 19, 2025.

Recent Accounting Pronouncements

Management does not believe that any other recently issued, but not effective, accounting standards, if currently adopted, would have a material effect on the Company's financial statements.

Note 3 — Proposed Public Offering

In the Proposed Public Offering, the Company will offer for sale up to 20,000,000 Units (or 23,000,000 Units if the underwriters' over-allotment option is exercised in full) at a purchase price of \$10.00 per Unit. Each Unit that the Company is offering has a price of \$10.00 and consists of one Class A ordinary share and one-half of one redeemable warrant. Each whole warrant will entitle the holder to purchase one Class A ordinary share at a price of \$11.50 per share, subject to adjustment. Each warrant will become exercisable 30 days after the completion of the initial Business Combination and will expire five years after the completion of the initial Business Combination, or earlier upon redemption or liquidation.

Warrants

No warrants are currently outstanding. Each whole warrant entitles the holder to purchase one Class A ordinary share at a price of \$11.50 per share, subject to adjustment. The warrants cannot be exercised until 30 days after the completion of the initial Business Combination, and will expire at 5:00 p.m., New York City time, five years after the completion of the initial Business Combination or earlier upon redemption or liquidation.

The Company will not be obligated to deliver any Class A ordinary shares pursuant to the exercise of a warrant and will have no obligation to settle such warrant exercise unless a registration statement under the Securities Act with respect to the Class A ordinary shares underlying the warrants is then effective and a prospectus relating thereto is current. No warrant will be exercisable and the Company will not be obligated to issue a Class A ordinary share upon exercise of a warrant unless the Class A ordinary share issuable upon such warrant exercise has been registered, qualified or deemed to be exempt under the securities laws of the state of residence of the registered holder of the warrants. In the event that the conditions in the two immediately preceding sentences are not satisfied with respect to a warrant, the holder of such warrant will not be entitled to exercise such warrant and such warrant may have no value and expire worthless. In no event will the Company be required to net cash settle any warrant. In the event that a registration statement is not effective for the exercised warrants, the purchaser of a unit containing such warrant will have paid the full purchase price for the unit solely for the Class A ordinary share underlying such unit.

X3 ACQUISITION CORP. LTD.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2025

Under the terms of the warrant agreement, the Company has agreed that, as soon as practicable, but in no event later than 20 business days, after the closing of its Business Combination, it will use commercially reasonable efforts to file with the SEC a post-effective amendment to the registration statement for the Proposed Public Offering or a new registration statement covering the registration under the Securities Act of the Class A ordinary shares issuable upon exercise of the warrants and thereafter will use its commercially reasonable efforts to cause the same to become effective within 60 business days following the Company's initial Business Combination and to maintain a current prospectus relating to the Class A ordinary shares issuable upon exercise of the warrants until the expiration of the warrants in accordance with the provisions of the warrant agreement. If a registration statement covering the Class A ordinary shares issuable upon exercise of the warrants is not effective by the sixty-first (61st) business day after the closing of the initial Business Combination, warrant holders may, until such time as there is an effective registration statement and during any period when the Company will have failed to maintain an effective registration statement, exercise warrants on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act or another exemption. Notwithstanding the above, if the Class A ordinary shares are at the time of any exercise of a warrant not listed on a national securities exchange such that they satisfy the definition of a "covered security" under Section 18(b)(1) of the Securities Act, the Company may, at its option, require holders of public warrants who exercise their warrants to do so on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act and, in the event the Company so elects, the Company will not be required to file or maintain in effect a registration statement.

If the holders exercise their public warrants on a cashless basis, they would pay the warrant exercise price by surrendering the warrants for that number of Class A ordinary shares equal to the quotient obtained by dividing (x) the product of the number of Class A ordinary shares underlying the warrants, multiplied by the excess of the "fair market value" of the Class A ordinary shares over the exercise price of the warrants by (y) the fair market value. The "fair market value" is the average reported closing price of the Class A ordinary shares for the 10 trading days ending on the third trading day prior to the date on which the notice of exercise is received by the warrant agent or on which the notice of redemption is sent to the holders of warrants, as applicable.

Redemption of Warrants When the Price per Class A Ordinary Share Equals or Exceeds \$18.00

The Company may redeem the outstanding warrants:

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon a minimum of 30 days' prior written notice of redemption (the "30-day redemption period"); and
- if, and only if, the last reported sale price (the "closing price") of the Class A ordinary shares equals or exceeds \$18.00 per share for any 20 trading days within a 30-trading day period commencing once the warrants become exercisable and ending on the third trading day prior to the date on which the Company sends to the notice of redemption to the warrant holders.

Additionally, if the number of outstanding Class A ordinary shares is increased by a share capitalization payable in Class A ordinary shares, or by a subdivision of ordinary shares or other similar event, then, on the effective date of such share capitalization, subdivision, reorganizations, recapitalizations or similar event, the number of Class A ordinary shares issuable on exercise of each warrant will be increased in proportion to such increase in the outstanding ordinary shares. A rights offering made to all or substantially all holders of ordinary shares entitling holders to purchase Class A ordinary shares at a price less than the fair market value will be deemed a share capitalization of a number of Class A ordinary shares equal to the product of (i) the number of Class A ordinary shares actually sold in such rights offering (or issuable under any other equity securities sold in such rights offering that are convertible into or exercisable for Class A ordinary shares) and (ii) the quotient of (x) the price per class A ordinary share paid in such rights offering and (y) the fair market value. For these purposes (i) if the rights offering is for securities convertible into or exercisable for Class A ordinary shares, in determining the price payable for Class A ordinary shares, there will be taken into account any consideration received for such rights, as well as any additional amount payable upon exercise or conversion and (ii) fair market value means the volume weighted average price of Class A ordinary shares as reported during the ten (10) trading day period ending on the trading day prior to the first date on which the Class A ordinary shares trade on the applicable exchange or in the applicable market, regular way, without the right to receive such rights.

X3 ACQUISITION CORP. LTD.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2025

Note 4 — Private Placement

The Sponsor has committed to purchase an aggregate of 5,000,000 Private Placement Warrants (or 5,450,000 Private Placement Warrants if the underwriters' over-allotment option is exercised in full), at a price of \$1.00 per warrant, or \$5,000,000 in the aggregate (or \$5,450,000 if the underwriters' over-allotment option is exercised in full), in a private placement that will close simultaneously with the closing of the Proposed Public Offering. Each whole warrant entitles the registered holder to purchase one Class A ordinary share at a price of \$11.50 per share, subject to adjustment.

The Private Placement Warrants will be identical to the Public Warrants sold as part of the Units in the Proposed Public Offering except that, so long as they are held by the Sponsor, or their permitted transferees, the Private Placement Warrants (i) may not (including the Class A ordinary shares issuable upon exercise of these Private Placement Warrants), subject to certain limited exceptions, be transferred, assigned or sold by the holders until 30 days after the completion of the initial Business Combination and (ii) will be entitled to registration rights.

Note 5 — Related Party Transactions

Founder Shares

On August 18, 2025, the Company issued 5,750,000 founders shares to the Sponsor in exchange for a capital contribution of \$25,000, or approximately \$0.004 per share, to cover certain of the Company's expenses. Up to 750,000 of the founder shares may be surrendered by the Sponsor for no consideration depending on the extent to which the underwriters' over-allotment is exercised.

With certain limited exceptions, the Company's initial shareholders have agreed not to transfer, assign or sell any of their founder shares and any Class A ordinary shares issued upon conversion thereof until the earlier to occur of (i) 180 days after the completion of the initial Business Combination or (ii) the date on which the Company completes a liquidation, merger, share exchange or other similar transaction after the initial Business Combination that results in all of the Company's shareholders having the right to exchange their Class A ordinary shares for cash, securities or other property. Any permitted transferees will be subject to the same restrictions and other agreements of the Company's initial shareholders with respect to any founder shares.

Promissory Note — Related Party

On August 5, 2025, the Sponsor has agreed to loan the Company an aggregate of up to \$400,000 to be used for a portion of the expenses of the Proposed Public Offering. The loan is non-interest bearing, unsecured and due at the earlier of November 1, 2026, the date on which the Company consummates the Proposed Public Offering, or the date on which the Company determines not to proceed with the Proposed Public Offering. The loan will be repaid out of the \$750,000 of offering proceeds that has been allocated to the payment of offering expenses. As of September 30, 2025 (unaudited) and August 19, 2025, the Company had borrowed \$172,019 and \$45,820, respectively, under the promissory note.

Related Party Loans

In order to finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor or certain of the Company's officers and directors may, but are not obligated to, loan the Company funds as may be required (the "Working Capital Loans"). If the Company completes a Business Combination, the Company would repay the Working Capital Loans. In the event that a Business Combination does not close, the Company may use amounts held outside the Trust Account to repay the Working Capital Loans but no proceeds from the Trust Account would be used to repay the Working Capital Loans. Up to \$1,500,000 of such Working Capital Loans may be convertible into private placement warrants of the post Business Combination entity at a price of \$1.00 per warrant at the option of the lender. The warrants would be identical to the Private Placement Warrants. As of September 30, 2025 (unaudited) and August 19, 2025, no such Working Capital Loans were outstanding.

X3 ACQUISITION CORP. LTD.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2025

Administrative Services Agreement

Upon the consummation of the Proposed Public Offering, the Company will enter into an agreement with the Sponsor or an affiliate to pay an aggregate of \$10,000 per month for office space, utilities and secretarial and administrative support.

Note 6 — Commitments and Contingencies

Risks and Uncertainties

The Company's ability to complete an initial Business Combination may be adversely affected by various factors, many of which are beyond the Company's control. The Company's ability to consummate an initial Business Combination could be impacted by, among other things, changes in laws or regulations, downturns in the financial markets or in economic conditions, inflation, fluctuations in interest rates, increases in tariffs, supply chain disruptions, declines in consumer confidence and spending, public health considerations, and geopolitical instability, such as the military conflicts in Ukraine and the Middle East. The Company cannot at this time predict the likelihood of one or more of the above events, their duration or magnitude or the extent to which they may negatively impact the Company's ability to complete an initial Business Combination.

Registration Rights

The holders of the founder shares, the Private Placement Warrants and the Class A ordinary shares underlying such Private Placement Warrants and warrants that may be issued upon conversion of the Working Capital Loans will have registration rights to require the Company to register a sale of any of the Company's securities held by them and any other securities of the Company acquired by them prior to the consummation of the initial Business Combination pursuant to a registration rights agreement to be signed prior to or on the effective date of the Proposed Public Offering. The holders of these securities are entitled to make up to three demands, excluding short form demands, that the Company registers such securities. In addition, the holders have certain piggyback registration rights with respect to registration statements filed subsequent to the completion of the initial Business Combination. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

Underwriters' Agreement

The underwriters have a 45-day option from the date of the Proposed Public Offering to purchase up to an additional 3,000,000 units to cover over-allotments, if any.

The underwriters will be entitled to a cash underwriting discount of 1.50% of the gross proceeds of the Proposed Public Offering, or \$3,000,000 (or up to \$3,450,000 if the underwriters' over-allotment is exercised in full), payable upon the closing of the Proposed Public Offering. Additionally, the underwriters will be entitled to a deferred underwriting discount of 2.50% of the gross proceeds of the Proposed Public Offering, or \$5,000,000 (or up to \$5,750,000 if the underwriters' over-allotment is exercised in full), payable to the underwriters based on the total amount of funds remaining in the Trust Account after redemptions of public shares; provided that the underwriters have agreed to waive their rights to the deferred underwriting commissions if the Trust Account is less than \$70 million on the closing date of the initial Business Combination.

Note 7 — Shareholder's Equity (Deficit)

Preference Shares — The Company is authorized to issue a total of 5,000,000 preference shares at par value of \$0.0001 each. As of September 30, 2025 (unaudited) and August 19, 2025, there were no preference shares issued or outstanding.

Class A Ordinary Shares — The Company is authorized to issue a total of 500,000,000 Class A ordinary shares at par value of \$0.0001 each. As of September 30, 2025 (unaudited) and August 19, 2025, there were no Class A ordinary shares issued or outstanding.

Class B Ordinary Shares — The Company is authorized to issue a total of 50,000,000 Class B ordinary shares at par value of \$0.0001 each. On August 19, 2025, the Company issued 5,750,000 Class B ordinary shares to the Sponsor for \$25,000, or approximately \$0.004 per share. As of September 30, 2025 (unaudited) and August 19, 2025, there were 5,750,000 Class B ordinary shares issued and outstanding. The founder shares include an aggregate of up to 750,000 shares subject to forfeiture if the over-allotment option is not exercised by the underwriters in full.

X3 ACQUISITION CORP. LTD.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2025

The founder shares will automatically convert into Class A ordinary shares concurrently with or immediately following the consummation of the initial Business Combination or earlier at the option of the holder on a one-for-one basis, subject to adjustment for share subdivisions, share capitalizations, reorganizations, recapitalizations and the like, and subject to further adjustment as provided herein. In the case that additional Class A ordinary shares, or any other equity-linked securities, are issued or deemed issued in excess of the amounts sold in the Proposed Public Offering and related to or in connection with the closing of the initial Business Combination, the ratio at which Class B ordinary shares convert into Class A ordinary shares will be adjusted (unless the holders of a majority of the outstanding Class B ordinary shares agree to waive such adjustment with respect to any such issuance or deemed issuance) so that the number of Class A ordinary shares issuable upon conversion of all Class B ordinary shares will equal, in the aggregate, approximately 20% of the sum of (i) the total number of all Class A ordinary shares outstanding upon the completion of the Proposed Public Offering (including any Class A ordinary shares issued pursuant to the underwriters' over-allotment option), plus (ii) all Class A ordinary shares and equity-linked securities issued or deemed issued, in connection with the closing of the initial Business Combination (excluding any shares or equity-linked securities issued, or to be issued, to any seller in the initial Business Combination and any Private Placement Warrants issued to the Sponsor or any of its affiliates or to the officers or directors upon conversion of working capital loans) minus (iii) any redemptions of Class A ordinary shares by public shareholders in connection with an initial Business Combination; provided that such conversion of founder shares will never occur on a less than one-for-one basis.

Holders of record of the Company's Class A ordinary shares and Class B ordinary shares are entitled to one vote for each share held on all matters to be voted on by shareholders.

Note 8 — Segment Information

ASC Topic 280, "Segment Reporting," establishes standards for companies to report in their financial statement information about operating segments, products, services, geographic areas, and major customers. Operating segments are defined as components of an enterprise that engage in business activities from which it may recognize revenues and incur expenses, and for which separate financial information is available that is regularly evaluated by the Company's chief operating decision maker ("CODM"), or group, in deciding how to allocate resources and assess performance.

The Company's CODM has been identified as the Chief Financial Officer, who reviews the operating results for the Company as a whole to make decisions about allocating resources and assessing financial performance. Accordingly, management has determined that the Company only has one reportable segment.

The CODM assesses performance for the single segment and decides how to allocate resources based on net income or loss that also is reported on the statements of operations as net income or loss. The measure of segment assets is reported on the balance sheet as total assets. When evaluating the Company's performance and making key decisions regarding resource allocation the CODM reviews several key metrics, which include the following:

	For the Period from July 31, 2025 (Inception) Through September 30, 2025 (Unaudited)	For the Period From July 31, 2025 (Inception) Through August 19, 2025
Formation, general and administrative costs	\$ 38,820	\$ 18,420

Formation, general and administrative costs are reviewed and monitored by the CODM to manage and forecast cash to ensure enough capital is available to complete a Business Combination or similar transaction within the Completion Window. The CODM also reviews formation, general and administrative costs to manage, maintain and enforce all contractual agreements to ensure costs are aligned with all agreements and budget. Formation, general and administrative costs, as reported on the statements of operations, are the significant segment expenses provided to the CODM on a regular basis.

The accounting policies used to measure the profit and loss of the segment are the same as those described in the summary of significant accounting policies.

Note 9 — Subsequent Events

The Company evaluated subsequent events and transactions that occurred after the balance sheet date through September 16, 2025, the date that the financial statements were issued. Based upon this review, the Company did not identify any subsequent events that would have required adjustment or disclosure in the financial statements.
