Prospectus Supplement

(To Prospectus dated December 3, 2025)

8,988,764 Shares

**Ingram Micro Holding Corporation
Common Stock**

The selling stockholder identified in this prospectus supplement, Ingram Holdco, LLC (the “selling stockholder”), an investment vehicle of certain private investment funds sponsored and ultimately controlled by Platinum Equity, LLC (together with its affiliated investment vehicles, “Platinum”) is offering, shares of common stock, par value \$0.01 per share (the “Common Stock”) of Ingram Micro Holding Corporation.

Subject to certain conditions, we intend to repurchase directly from the selling stockholder an aggregate number of shares of Common Stock equal to \$75 million as part of our Stock Repurchase Program (as defined herein) for a price per share equal to the price per share at which the underwriters have agreed to purchase shares of Common Stock from the selling stockholder in this offering (the “Stock Repurchase”). The underwriters will not receive any compensation for the shares of Common Stock being purchased by us pursuant to the Stock Repurchase. The completion of the Stock Repurchase is expected to occur concurrently with, and is subject to the completion of, the closing of this offering. This offering is not conditioned upon the completion of the Stock Repurchase, and we cannot provide any assurance that the Stock Repurchase will occur on the terms and timeline as contemplated herein, or at all. The description and the other information included in this prospectus supplement regarding the Stock Repurchase is included solely for informational purposes, and nothing in this prospectus supplement shall constitute an offer to sell, or the solicitation of an offer to purchase or repurchase by us of, any shares of our Common Stock. See “Prospectus Supplement Summary—Recent Developments—Concurrent Stock Repurchase.”

Our Common Stock is listed on the New York Stock Exchange (the “NYSE”) under the symbol “INGM.” On March 4, 2026, the last sale price of our Common Stock as reported on the NYSE was \$26.29 per share.

After the completion of this offering, without giving effect to the Stock Repurchase, Platinum will continue to beneficially own 85.9% of the voting power of all of our outstanding shares of Common Stock (or 85.3% of the voting power of all of our outstanding shares of Common Stock if the underwriters exercise in full their option to purchase additional shares of Common Stock as described herein). After the completion of this offering and taking into account the Stock Repurchase, Platinum will continue to beneficially own 85.7% of the voting power of all of our outstanding shares of Common Stock (or 85.1% of the voting power of all of our outstanding shares of Common Stock if the underwriters exercise in full their option to purchase additional shares of Common Stock as described herein). In each case, as a result, we will continue to be a “controlled company” within the meaning of the corporate governance rules of the NYSE.

We are not selling any shares of Common Stock in this offering, and we will not receive any proceeds from the sale of the shares of Common Stock by the selling stockholder. See “Use of Proceeds.” We will bear all of the offering expenses other than the underwriting discounts and commissions.

Neither the Securities and Exchange Commission (“SEC”) nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus supplement or any accompanying prospectus. Any representation to the contrary is a criminal offense.

Recent Developments

Concurrent Stock Repurchase

On March 2, 2026, the Company announced that the board of directors had approved a share repurchase plan (the “Stock Repurchase Program”) whereby, from time to time, the Company may repurchase up to \$100 million of Common Stock in connection with one or more secondary public offerings by the selling stockholder, when an independent committee of the board of directors deems such repurchases are appropriate. Such repurchase authority expires on January 28, 2027.

In connection with a privately negotiated transaction, we have agreed to repurchase directly from the selling stockholder an aggregate number of shares of Common Stock equal to \$75 million as part of our Stock Repurchase Program for a price per share equal to the price per share at which the underwriters have agreed to purchase shares of Common Stock from the selling stockholder. Once consummated, the Stock Repurchase will reduce the remaining amount available for purchase under the Stock Repurchase Program. The completion of the Stock Repurchase is subject to certain conditions, including the closing of this offering, and is expected to occur concurrently with the

closing of this offering. This offering is not conditioned upon the completion of the Stock Repurchase, and we cannot provide any assurance that the Stock Repurchase will occur on the terms and timeline as contemplated herein, or at all. Nothing in this prospectus supplement and/or the accompanying prospectus,

S-8

individually or taken in the aggregate, shall constitute an offer to sell, or the solicitation of an offer to purchase or repurchase by us of any shares of our Common Stock.

The terms and conditions of the Stock Repurchase will be reviewed and approved by a special transaction committee of our board of directors, which is comprised solely of disinterested independent directors. We expect to fund the Stock Repurchase with cash on hand. Any shares of our Common Stock that we repurchase in the Stock Repurchase will be held as treasury stock by the Company, and will be considered issued but not outstanding shares of our Common Stock.

Recent Dividend Declaration

On March 2, 2026, the Company announced that the board of directors had declared a cash dividend of \$0.082 per share of Common Stock, payable on March 24, 2026, to stockholders of record as of March 10, 2026. We pay, and intend to continue to pay, quarterly dividends subject to capital availability and periodic determinations made by our board of directors that cash dividends are in the best interests of our stockholders.

Settlement of shares of Common Stock purchased in this offering will occur prior to the above-referenced record date for this dividend and, as a result, purchasers in this offering who are holders of record at the close of business on March 10, 2026 will be entitled to receive this dividend and will be responsible for any related tax obligation. See “Dividend Policy” in this prospectus supplement and “Description of Capital Stock” in the accompanying prospectus for further information.

In each case, as a result, we will continue to be a “controlled company” under the NYSE corporate governance standards. Our stockholders will not have the same protections afforded to stockholders of other companies that are subject to such requirements.”

Recent dividend declaration and Dividend policy On March 2, 2026, the Company announced that the board of directors had declared a cash dividend of \$0.082 per share of Common Stock, payable on March 24, 2026, to stockholders of record as of March 10, 2026.

Settlement of shares of Common Stock purchased in this offering will occur prior to the above-referenced record date for this dividend and, as a result, purchasers in this offering who are holders of record at the close of business on March 10, 2026 will be entitled to receive this dividend and will be responsible for any related tax obligation. See “Description of Capital Stock” in the accompanying prospectus for further information.

We pay, and intend to continue to pay, quarterly dividends subject to capital availability and periodic determinations made by our board of directors that cash dividends are in the best interests of our stockholders. Although we anticipate continuing to pay such quarterly cash dividend on our Common Stock, we have no obligation to pay any dividend, and our board of directors may decide to change the dividend policy at any time without notice to the stockholders. Any decision to declare and pay dividends in the future will be, subject to our compliance with applicable law, made at the sole discretion of our board of directors and will depend on, among other things, general and economic conditions, our financial condition and results of operations, our available cash and current and anticipated cash needs, capital requirements, contractual and tax implications on the payment of dividends by us to our stockholders or by our subsidiaries to us, including restrictions and subject to the covenants under our Credit Facilities, the Indenture governing the 2029 Notes and any other future indebtedness or preferred securities we may incur or issue, and such other factors as our board of directors may deem relevant. Many of these factors are beyond our control and a change in any of these factors could adversely impact our ability to continue paying regular dividends. See “Dividend Policy” in this prospectus supplement and “Description of Capital Stock” in the accompanying prospectus for further information.

RISK FACTORS

An investment in our Common Stock involves risk. You should carefully consider the following risks described below, the other information included in or incorporated herein by reference in this prospectus supplement, including, without limitation, the factors set forth in the sections entitled “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and the audited consolidated financial statements and related notes, each in our 2025 Form 10-K incorporated by reference herein. Any of the following risks could materially and adversely affect our business, results of operations, financial condition, cash flows or growth prospects. The selected risks described below and incorporated by reference herein, however, are not the only risks facing us. Additional risks and uncertainties not currently known to us or those we currently view to be immaterial may also materially and adversely affect our business, results of operations, financial condition or growth prospects. In such a case, the trading price of our Common Stock could decline, and you may lose all or part of your investment.

This prospectus supplement also contains forward-looking statements that involve risks and uncertainties. See “Cautionary Note Regarding Forward-Looking Statements.” The Company’s actual results could differ materially and adversely from those anticipated in these forward-looking statements as a result of certain factors.

Risks Related to this Offering and Ownership of Our Common Stock

Our stock price may change significantly following this offering, and stockholders may not be able to resell shares of our Common Stock at or above the price paid or at all and could lose all or part of their investment as a result.

The price of our Common Stock has been and may continue to be volatile, and stockholders may not be able to resell their shares at or above the public offering price due to a number of factors such as those listed in “—Risks Related to Our Business and Our Industry” in the section entitled Item 1A. “Risk Factors” in our 2025 Form 10-K, which is incorporated by reference herein and the following:

- results of operations that vary from the expectations of securities analysts and investors;
- results of operations that vary from those of our competitors compared to market expectations;
- changes in expectations as to our future financial performance, including financial estimates and investment recommendations by securities analysts and investors;
- changes in market valuations of, or earnings and other announcements by, companies in our industry;
- declines in the market prices of stocks generally, particularly those of information technology companies;
- departures of key management personnel or members of our board of directors;
- strategic actions by us or our competitors;
- announcements by us, our competitors or our vendors of significant contracts, price reductions, new products or technologies, acquisitions, joint marketing relationships, joint ventures, other strategic relationships or capital commitments;
- changes in preference of our customers;
- changes in general economic or market conditions or trends in our industry or the economy as a whole and, in particular, in the consumer spending environment;
- changes in business or regulatory conditions which adversely affect our industry or us;
- future issuances, exchanges or sales, or expected issuances, exchanges or sales of our Common Stock or other securities;

- investor perceptions of or the investment opportunity associated with our Common Stock relative to other investment alternatives;
- investors' responses to press releases or other public announcements by us or third parties, including our filings with the SEC;
- adverse resolutions relating to new or pending litigation or governmental investigations;
- guidance, if any, that we provide to the public, any changes in this guidance or our failure to meet this guidance;
- limited liquidity of our stock, including the potential impact of a small public float;
- the development and sustainability of an active trading market for our stock;
- changes in accounting principles; and
- other events or factors, including those resulting from informational technology system failures and disruptions, natural disasters, war, acts of terrorism or responses to these events.

Furthermore, the stock market may experience extreme volatility that, in some cases, may be unrelated or disproportionate to the operating performance of particular companies. Broader market volatility, especially in the technology sector, may also adversely affect our stock price, regardless of our actual performance. Additionally, low public float or trading volume could amplify price fluctuations. Stockholders may not be able to sell their shares at or above the price paid and could lose all or part of their investment. Periods of volatility may also increase the risk of securities litigation, which could be costly and distract management from our operations.

Future offerings of debt or equity securities by us may have a material adverse effect on the market price of our Common Stock.

In the future, we may attempt to obtain financing or to further increase our capital resources by issuing additional shares of our Common Stock or by offering debt or other equity securities, including senior or subordinated notes, debt securities convertible into equity or shares of preferred stock. Any future debt financing could involve restrictive covenants relating to our capital-raising activities and other financial and operational matters, which might make it more difficult for us to obtain additional capital and to pursue business opportunities, including potential acquisitions. Moreover, if we issue debt securities, the debt holders would have rights to make claims on our assets senior to the rights of our holders of our Common Stock. The issuance of additional shares of our Common Stock or other equity securities or securities convertible into equity may dilute the economic and voting rights of our existing stockholders or reduce the market price of our Common Stock or both. Debt securities convertible into equity could be subject to adjustments in the conversion ratio pursuant to which certain events may increase the number of equity securities issuable upon conversion. Preferred stock, if issued, could have a preference with respect to liquidating distributions or a preference with respect to dividend payments that could limit our ability to pay dividends to the holders of our Common Stock. Our decision to issue securities in any future offering will depend on market conditions and other factors beyond our control, which may have a material adverse effect on the amount, timing, or nature of our future offerings. Thus, holders of our Common Stock bear the risk that our future offerings may reduce the market price of our Common Stock and dilute their stockholdings in us.

After the completion of this offering, without giving effect to the Stock Repurchase, we will continue to be a "controlled company" within the meaning of the NYSE rules and, as a result, we qualify for, and intend to rely on, exemptions from certain corporate governance requirements. Our stockholders will not have the same protections afforded to stockholders of other companies that are subject to such requirements.

After the completion of this offering, without giving effect to the Stock Repurchase, Platinum will continue to hold more than a majority of the voting power of our outstanding Common Stock entitled to vote generally in the election of directors. As a result, we will continue to be a "controlled company" within the meaning of the corporate governance standards of the NYSE, and have elected, in accordance with applicable NYSE exemptions, not to comply with certain corporate governance requirements.

Following this offering, we intend to continue to utilize some or all of these exemptions. For example, we do not have a majority of independent directors, our compensation and nominating and corporate governance committees are not composed entirely of independent directors and we may not perform annual performance evaluations with respect to such committees. The independence standards are intended to ensure that directors who meet those standards are free of any conflicting interest that could influence their actions as directors. Accordingly, our stockholders will not have the same protections afforded to stockholders of companies that are subject to all of the corporate governance requirements of the NYSE. In the event that we cease to be a “controlled company,” we will be required to comply with the above referenced requirements within one year.

After the completion of this offering and taking into account the Stock Repurchase, Platinum will continue to control approximately 85.7% of the voting power of our outstanding Common Stock (or 85.1% of the voting power of all of our outstanding shares of Common Stock if the underwriters exercise in full their option to purchase additional shares of Common Stock as described herein) from the selling stockholder, and thus, in each case, hold more than a majority of the voting power of our outstanding Common Stock.

Platinum controls us, and its interests may conflict, or be inconsistent, with ours interests or the interests of other stockholders.

After the completion of this offering of 8,988,764 shares of Common Stock by the selling stockholder, without giving effect to the Stock Repurchase, Platinum will continue to control approximately 85.9% of the voting power of our outstanding Common Stock (or 85.3% of the voting power of all of our outstanding shares of Common Stock if the underwriters exercise in full their option to purchase additional shares of Common Stock), and thus, in each case, hold more than a majority of the voting power of our outstanding Common Stock entitled to vote generally in the election of directors. Platinum is able to control the election and removal of our directors and thereby control our policies and operations, including the appointment of management, future issuances of our Common Stock or other securities, payment of dividends, if any, on our Common Stock, the incurrence or modification of indebtedness by us, amendment of our amended and restated certificate of incorporation and amended and restated bylaws and the entering into of extraordinary transactions. Their interests may not in all cases be aligned with the interests of our other stockholders. This concentration of voting control could deprive stockholders of an opportunity to receive a premium for their shares of Common Stock as part of a sale of our company and ultimately might affect the market price of our Common Stock. This concentration of ownership may also adversely affect our share price.

Moreover, in accordance with our amended and restated certificate of incorporation and the Investor Rights Agreement, Platinum has the right to nominate for election to our board of directors a number of individuals designated by Platinum constituting a majority thereof for so long as it beneficially owns at least 50% of the voting power of all shares of our outstanding stock entitled to vote generally in the election of our directors. See the section entitled “Certain Relationships and Related Party Transactions” in our 2025 Proxy Statement which is incorporated herein by reference and “Description of Capital Stock” in the accompanying prospectus for further information. Even if Platinum ceases to own shares of our stock representing a majority of the total voting power, for so long as Platinum continues to own a significant percentage of our stock, it will still be able to significantly influence or effectively control the composition of our board of directors and the approval of actions requiring stockholder approval through its voting power. Accordingly, for such period of time, Platinum will have significant influence with respect to our management, business plans and policies, including the appointment and removal of our officers.

Platinum is in the business of making investments in companies and may from time to time acquire and hold interests in businesses that compete directly or indirectly with us or whose interests are otherwise not aligned with ours. Our amended and restated certificate of incorporation provides that neither Platinum nor any of its affiliates or any director who is not employed by us or his or her affiliates has any duty to refrain from engaging, directly or indirectly, in the same business activities or similar business activities or lines of business in which we operate. Platinum and its affiliates also may pursue acquisition opportunities that may be complementary to our business and, as a result, those acquisition opportunities may not be available to us.

If we or our selling stockholder sell additional shares of our Common Stock after this offering or are perceived by the public markets as intending to sell them, including pursuant to exceptions in contractual lock-up agreements, or the expiration of the Lock-Up Period, and the anticipation of such events, the market price of our Common Stock could decline.

The sale of substantial amounts of shares of our Common Stock in the public market, or the perception that such sales could occur, could harm the prevailing market price of shares of our Common Stock. These sales, or the possibility that these sales may occur, also might make it more difficult for us to sell shares of our Common Stock in the future at a time and at a price that we deem appropriate. Upon completion of this offering, without giving effect to the Stock Repurchase, we will have 235,074,694 shares of our Common Stock outstanding. All of the shares of our Common Stock sold in this offering will be freely tradable without restriction or further registration under the Securities Act of 1933, as amended (the “Securities Act”), by persons other than our “affiliates,” as that term is defined under Rule 144 of the Securities Act (“Rule 144”).

We, all of our directors, executive officers, the selling stockholder and Imola JV Holdings L.P., which is the sole member of the selling stockholder, have entered into lock-up agreements with the underwriters, pursuant to which, all such parties have agreed, subject to certain exceptions, not to sell, dispose of or hedge any shares of our Common Stock or securities convertible into or exchangeable for shares of our Common Stock for a period commencing on the date of this prospectus supplement and ending immediately after close of the Trading Day (as defined below) that is 60 days from the date of this prospectus supplement (or if such 60th day is not a day on which the NYSE is open for the buying and selling of securities (any such day, a “Trading Day”), immediately after the close of the last Trading Day immediately preceding such 60th day (the “Lock-Up Period”), except with the prior written consent of any two of Morgan Stanley & Co. LLC, Goldman Sachs & Co. LLC and J.P. Morgan Securities LLC on behalf of the underwriters. See “Underwriting—No Sale of Similar Securities.” There are no contractually specified conditions for the waiver of lock-up restrictions and any waiver is at the discretion of the representatives. When determining whether or not to release shares from these lock-up agreements, the representatives may consider, among other factors, the reasons given by us or the securityholder, as applicable, for requesting the release, the number of shares for which the release is being requested, and market conditions at such time. As a result of the foregoing, a substantial portion of our outstanding Common Stock is subject to a lock-up agreement during the Lock-Up Period.

Upon the expiration of the lock-up agreements at the end of the Lock-Up Period, as described above, all of such shares will be eligible for resale in the public market, subject in the case of shares held by our affiliates, to volume, manner of sale and other limitations under Rule 144. We expect that Platinum will continue to be considered an affiliate following the expiration of the Lock-Up Period based on its expected shares of ownership and its board nomination rights. Certain other of our stockholders may also be considered affiliates at that time. However, subject to the expiration or waiver of the Lock-Up Period, certain of the holders of these shares of Common Stock will have the right, subject to certain exceptions and conditions, to require us to register their shares of Common Stock under the Securities Act, and they will have the right to participate in future registrations of securities by us. Registration of any of these outstanding shares of Common Stock would result in such shares becoming freely tradable without compliance with Rule 144 upon effectiveness of the registration statement. As restrictions on resale end, the market price of our stock could decline if the holders of currently restricted shares sell them or are perceived by the market as intending to sell them.

Any investors who purchase shares of Common Stock in this offering will be entitled to receive the dividend payment that was recently announced by the Company. In addition, we may change our dividend policy at any time, and, in the event we determine not to pay any cash dividends on our Common Stock in the future, stockholders may not receive any return on investment unless they sell their Common Stock for a price greater than that which they paid for it.

On March 2, 2026, the Company announced that the board of directors declared the cash dividend on our Common Stock of \$0.082 per share of Common Stock, payable on March 24, 2026, to stockholders of record as of March 10, 2026. Settlement of shares of Common Stock purchased in this offering will occur prior to the above-referenced record date for this dividend and, as a result, purchasers in this offering who are holders of record at the

close of business on March 10, 2026 will be entitled to receive this dividend and will be responsible for any related tax obligation. See “Description of Capital Stock” in the accompanying prospectus.

We pay, and intend to continue to pay, quarterly dividends subject to capital availability and periodic determinations made by our board of directors that cash dividends are in the best interests of our stockholders. Although we anticipate continuing to pay such quarterly cash dividend on our Common Stock, we have no obligation to pay any dividend, and our board of directors may decide to change the dividend policy at any time without notice to the stockholders. Any decision to declare and pay dividends in the future will be, subject to our compliance with applicable law, made at the sole discretion of our board of directors and will depend on, among other things, general and economic conditions, our financial condition and results of operations, our available cash and current and anticipated cash needs, capital requirements, contractual and tax implications on the payment of dividends by us to our stockholders or by our subsidiaries to us, including restrictions and subject to the covenants under our Credit Facilities, the Indenture and any other future indebtedness or preferred securities we may incur or issue, and such other factors as our board of directors may deem relevant. See “Dividend Policy” in the prospectus supplement and Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our 2025 Form 10-K, which is incorporated herein by reference. Future dividends may also be affected by factors that our board of directors deems relevant, including our potential future capital requirements for investments, legal risks, changes in federal and state income tax laws or corporate laws and contractual restrictions such as financial or operating covenants in our debt arrangements. As a result, there can be no assurance that we will pay any future dividends, and it is possible that we may need to reduce or eliminate the payment of dividends on our Common Stock in the future. If we decide to not pay future dividends, then stockholders may not receive any return on an investment in our Common Stock unless they sell our Common Stock for a price greater than the purchase price, which may not occur.

If securities or industry analysts do not publish research or reports about our business or if they downgrade our stock or our sector, our stock price and trading volume could decline.

The trading market for our Common Stock will rely in part on the research and reports that industry or financial analysts publish about us or our business. We do not control these analysts. Furthermore, if one or more of the analysts who do cover us downgrade our stock or our industry, or the stock of any of our competitors, or publish inaccurate or unfavorable research about our business, the price of our stock could decline. If one or more of these analysts stop covering us or fail to publish reports on us regularly, we could lose visibility in the market, which in turn could cause our stock price or trading volume to decline.

USE OF PROCEEDS

All shares of our Common Stock offered by this prospectus supplement will be sold by the selling stockholder, and the selling stockholder will receive all of the net proceeds from the sale of the shares offered hereby. We will not receive any proceeds from this offering, including pursuant to any exercise by the underwriters of their option to purchase additional shares of our Common Stock from the selling stockholder as described herein.

Pursuant to the Investor Rights Agreement, we will pay all expenses in connection with the offering of the shares of our Common Stock to be offered by the selling stockholder under this prospectus supplement, except that the selling stockholder will pay any underwriting discounts and selling commissions incurred by them in connection with such sales. See “Underwriting.”

DIVIDEND POLICY

On March 2, 2026, the Company announced that the board of directors had declared a cash dividend of \$0.082 per share of Common Stock, payable on March 24, 2026, to stockholders of record as of March 10, 2026. We pay, and intend to continue to pay, quarterly dividends subject to capital availability and periodic determinations made by our board of directors that cash dividends are in the best interests of our stockholders. The declaration, amount and payment of any future dividends on our Common Stock will be, subject to compliance with applicable law, at the sole discretion of our board of directors. Our board of directors may take into account, among other things, general and economic conditions, our financial condition and results of operations, our available cash and current and anticipated cash needs, capital requirements, contractual and tax implications on the payment of dividends by us to our stockholders or by our subsidiaries to us, including restrictions under our Credit Facilities, the Indenture governing the 2029 Notes and other indebtedness or preferred securities we may incur or issue and such other factors as our board of directors may deem relevant. If we elect to pay such dividends in the future, we may reduce or discontinue entirely the payment of such dividends at any time.

Ingram Micro Holding Corporation is a holding company with no material assets other than indirect ownership of the stock of Ingram Micro Inc., and its operations are conducted through its wholly owned subsidiaries. Our operating subsidiaries are currently subject to certain restrictions and covenants under the Credit Agreements and the Indenture. Our ability to pay cash dividends will depend on the payment of distributions by our current and future subsidiaries, including Ingram Micro Inc., and such distributions may be restricted as a result of contractual agreements, including any future agreements governing their indebtedness. These restrictions and covenants may restrict the ability of those entities to make distributions to Ingram Micro Holding Corporation. See “Risk Factors—Risks Related to Ownership of Our Common Stock—We may change our dividend policy at any time, and, if we determine not to pay any cash dividends on our Common Stock in the future, stockholders may not receive any return on investment unless they sell their Common Stock for a price greater than that which they paid for it” in our 2025 Form 10-K. Any additional financing arrangement we enter into in the future may include restrictive covenants that limit our subsidiaries’ ability to pay dividends to us. In addition, Delaware law may impose requirements that may restrict our ability to pay dividends to holders of our Common Stock.

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES TO NON-U.S. HOLDERS

The following discussion is a summary of the material U.S. federal income tax consequences to Non-U.S. Holders (as defined below) of the purchase, ownership and disposition of our Common Stock issued or sold pursuant to this offering, but does not purport to be a complete analysis of all potential U.S. federal income tax effects.

The effects of U.S. federal tax laws other than U.S. federal income tax laws, such as estate and gift tax laws, and any applicable state, local or non-U.S. tax laws are not discussed. There may be adverse U.S. federal estate tax consequences to a Non-U.S. Holder of our Common Stock, and Non-U.S. Holders should consult their tax advisors regarding the application of U.S. federal estate tax laws to their particular situation.

This discussion is based on the Code, Treasury Regulations promulgated thereunder, judicial decisions and published rulings and administrative pronouncements of the U.S. Internal Revenue Service (the "IRS") in each case in effect as of the date hereof. These authorities may change or be subject to differing interpretations. Any such change or differing interpretation may be applied retroactively in a manner that could adversely affect a Non-U.S. Holder. We have not sought and will not seek any rulings from the IRS regarding the matters discussed below. There can be no assurance the IRS or a court will not take a contrary position to that discussed below regarding the tax consequences of the purchase, ownership and disposition of our Common Stock.

This discussion is limited to Non-U.S. Holders that hold our Common Stock as a "capital asset" within the meaning of Section 1221 of the Code (generally, property held for investment). This discussion does not address all U.S. federal income tax consequences relevant to a Non-U.S. Holder's particular circumstances, including the impact of the Medicare contribution tax on net investment income or any alternative minimum taxes. In addition, it does not address consequences relevant to Non-U.S. Holders subject to special rules, including, without limitation:

- U.S. expatriates and former citizens or long-term residents of the United States;
- persons holding our Common Stock as part of a hedge, straddle or other risk reduction strategy or as part of a conversion transaction or other integrated investment;
- banks, insurance companies and other financial institutions;
- brokers, dealers or traders in securities;
- "controlled foreign corporations," "passive foreign investment companies," and corporations that accumulate earnings to avoid U.S. federal income tax;
- partnerships or other entities or arrangements treated as partnerships for U.S. federal income tax purposes (and investors therein);
- tax-exempt entities or governmental entities;
- persons deemed to sell our Common Stock under the constructive sale provisions of the Code;
- persons who hold or receive our Common Stock pursuant to the exercise of any employee stock option or otherwise as compensation;
- tax-qualified retirement plans;
- "qualified foreign pension funds" as defined in Section 897(1)(2) of the Code and entities all of the interests of which are held by qualified foreign pension funds; and
- persons subject to special tax accounting rules as a result of any item of gross income with respect to our Common Stock being taken into account in an applicable financial statement.

If an entity or arrangement treated as a partnership for U.S. federal income tax purposes holds our Common Stock, the tax treatment of a partner in the partnership will depend on the status of the partner, the activities of the partnership and certain determinations made at the partner level. Accordingly, partnerships considering an

S-22

investment in our Common Stock and the partners in such partnerships should consult their tax advisors regarding the U.S. federal income tax consequences to them.

THIS DISCUSSION IS FOR INFORMATIONAL PURPOSES ONLY AND IS NOT TAX ADVICE. INVESTORS SHOULD CONSULT THEIR TAX ADVISORS WITH RESPECT TO THE APPLICATION OF THE U.S. FEDERAL INCOME TAX LAWS TO THEIR PARTICULAR SITUATIONS AS WELL AS ANY TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF OUR COMMON STOCK ARISING UNDER THE OTHER U.S. FEDERAL TAX LAWS (INCLUDING ESTATE OR GIFT TAX LAWS) OR UNDER THE LAWS OF ANY STATE, LOCAL OR NON-U.S. TAXING JURISDICTION OR UNDER ANY APPLICABLE TAX TREATY.

Definition of a Non-U.S. Holder

For purposes of this discussion, a “Non-U.S. Holder” is a beneficial owner of our Common Stock that is neither a “U.S. person” nor an entity or arrangement treated as a partnership for U.S. federal income tax purposes. For purposes of this discussion, a U.S. person is any person that, for U.S. federal income tax purposes, is or is treated as any of the following:

- an individual who is a citizen or resident of the United States;
- a corporation created or organized under the laws of the United States, any state thereof or the District of Columbia;
- an estate, the income of which is subject to U.S. federal income tax regardless of its source; or
- a trust that (1) is subject to the primary supervision of a U.S. court and all substantial decisions of which are subject to the control of one or more “United States persons” (within the meaning of Section 7701(a)(30) of the Code) or (2) has a valid election in effect to be treated as a United States person for U.S. federal income tax purposes.

Distributions on Common Stock

If we make distributions of cash or property on our Common Stock, such distributions will generally constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. Amounts not treated as dividends for U.S. federal income tax purposes because distributed amounts exceed our current and accumulated earnings and profits will constitute a return of capital and will first be applied against and reduce a Non-U.S. Holder’s adjusted tax basis in its Common Stock (determined separately for each share), but not below zero. Any remaining excess (determined separately for each share) will be treated as capital gain and will be treated as described below under “—Sale or Other Taxable Disposition.” See “Dividend Policy” for more information on our current plans with respect to making distributions on our Common Stock.

Subject to the discussion below regarding backup withholding and FATCA (as defined below), dividends paid to a Non-U.S. Holder that are not effectively connected with the Non-U.S. Holder’s conduct of a trade or business within the United States will be subject to U.S. federal withholding tax at a rate of 30% of the gross amount of the dividends (or such lower rate specified by an applicable income tax treaty, provided the Non-U.S. Holder furnishes a valid IRS Form W-8BEN or W-8BEN-E (or other applicable documentation) certifying qualification for the lower treaty rate). A Non-U.S. Holder that does not timely furnish the required documentation, but that qualifies for a reduced treaty rate, may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS. Non-U.S. Holders should consult their tax advisors regarding any entitlement to benefits under any applicable income tax treaty.

Unless an applicable income tax treaty provides otherwise, if dividends paid to a Non-U.S. Holder are effectively connected with the Non-U.S. Holder’s conduct of a trade or business within the United States, the Non-U.S. Holder will be exempt from the U.S. federal withholding tax described above. To claim the exemption, the Non-U.S. Holder generally must furnish to the applicable withholding agent a valid IRS Form W-8ECI, certifying

that the dividends are effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States.

Unless an applicable income tax treaty provides otherwise, any such effectively connected dividends generally will be subject to U.S. federal income tax on a net income basis at the regular rates generally applicable to a U.S. person. A Non-U.S. Holder that is a corporation also may be subject to a branch profits tax at a rate of 30% (or such lower rate specified by an applicable income tax treaty) on such Non-U.S. Holder's effectively connected earnings and profits, as adjusted for certain items. Non-U.S. Holders should consult their tax advisors regarding any applicable tax treaties that may provide for different rules.

Sale or Other Taxable Disposition

A Non-U.S. Holder will not be subject to U.S. federal income tax on any gain recognized upon the sale or other taxable disposition of a share of our Common Stock unless:

- the gain is effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States;
- the Non-U.S. Holder is a nonresident alien individual present in the United States for 183 days or more during the taxable year of the disposition and certain other requirements are met; or
- our Common Stock constitutes a U.S. real property interest by reason of our status as a U.S. real property holding corporation ("USRPHC") for U.S. federal income tax purposes at any time during the shorter of (i) the five-year period preceding the date of the disposition and (ii) the Non-U.S. Holder's holding period with respect to the share of our Common Stock that is disposed (the "Applicable USRPHC Period").

Unless an applicable income tax treaty provides otherwise, any gain described in the first bullet point above generally will be subject to U.S. federal income tax on a net income basis at the regular rates generally applicable to a U.S. person. A Non-U.S. Holder that is a corporation also may be subject to a branch profits tax at a rate of 30% (or such lower rate specified by an applicable income tax treaty) on such Non-U.S. Holder's effectively connected earnings and profits, as adjusted for certain items.

A Non-U.S. Holder described in the second bullet point above will be subject to U.S. federal income tax at a rate of 30% (or such lower rate specified by an applicable income tax treaty) on any gain recognized upon the sale or other taxable disposition of our Common Stock, which may be offset by certain U.S. source capital losses of the Non-U.S. Holder, if any (even though the individual is not considered a resident of the United States), provided the Non-U.S. Holder has timely filed U.S. federal income tax returns with respect to such losses.

With respect to the third bullet point above, we believe we currently are not, and do not anticipate becoming, a USRPHC. Because the determination of whether we are a USRPHC depends, however, on the fair market value of our U.S. real property interests relative to the fair market value of our non-U.S. real property interests and our other business assets, there can be no assurance that we currently are not a USRPHC or will not become one in the future. Even if we are or were to become a USRPHC, any gain recognized from the sale or other taxable disposition of our Common Stock by a Non-U.S. Holder will not be subject to U.S. federal income tax if our Common Stock is "regularly traded," as defined by applicable Treasury Regulations, on an established securities market, and such Non-U.S. Holder owned, actually and constructively, no more than 5% of our Common Stock throughout the Applicable USRPHC Period.

Non-U.S. Holders should consult their tax advisors regarding potentially applicable income tax treaties that may provide for different rules.

Information Reporting and Backup Withholding

Payments of dividends on our Common Stock to a Non-U.S. Holder will not be subject to backup withholding (currently at 24%) if either the holder certifies its non-U.S. status, such as by furnishing a valid IRS Form W-8BEN, W-8BEN-E or W-8ECI, or the holder otherwise establishes an exemption. However, information returns are required to be filed with the IRS in connection with any distributions on our Common Stock paid to the Non-U.S.

Holder, regardless of whether such distributions constitute dividends or whether any tax was actually withheld. In addition, proceeds of the sale or other taxable disposition of our Common Stock within the United States or conducted through certain brokers that are U.S. persons or have a specified relationship with the United States generally will be subject to backup withholding or information reporting unless the applicable withholding agent receives the certification described above or the holder otherwise establishes an exemption. Proceeds of a disposition of our Common Stock conducted through a non-U.S. office of a non-U.S. broker that does not have a specified relationship with the United States generally will not be subject to backup withholding or information reporting.

Copies of information returns that are filed with the IRS may also be made available under the provisions of an applicable treaty or agreement to the tax authorities of the country in which the Non-U.S. Holder resides or is established.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against a Non-U.S. Holder's U.S. federal income tax liability, if any, provided the required information is timely furnished to the IRS.

Additional Withholding Tax on Payments Made to Foreign Accounts

Withholding taxes may be imposed under Sections 1471 to 1474 of the Code (such Sections commonly referred to as the Foreign Account Tax Compliance Act ("FATCA")) on certain types of payments made to non-U.S. financial institutions and certain other non-U.S. entities (whether such institutions or entities are beneficial owners or intermediaries). Specifically, a 30% withholding tax may be imposed on dividends on, or (subject to the proposed Treasury Regulations discussed below) gross proceeds from the sale or other disposition of, our Common Stock paid to a "foreign financial institution" or a "non-financial foreign entity" (each as defined in the Code), unless (1) the foreign financial institution undertakes certain diligence and reporting obligations, (2) the non-financial foreign entity either certifies it does not have any "substantial U.S. owners" (as defined in the Code) or furnishes identifying information regarding each substantial U.S. owner or (3) the foreign financial institution or non-financial foreign entity otherwise qualifies for an exemption from these rules. If the payee is a foreign financial institution and is subject to the diligence and reporting requirements in (1) above, it must enter into an agreement with the U.S. Department of the Treasury requiring, among other things, that it undertake to identify accounts held by certain "specified United States persons" or "United States owned foreign entities" (each as defined in the Code), annually report certain information about such accounts and withhold 30% on certain payments to noncompliant foreign financial institutions and certain other account holders. Foreign financial institutions located in jurisdictions that have an intergovernmental agreement with the United States governing FATCA may be subject to different rules.

Under the applicable Treasury Regulations and administrative guidance, withholding under FATCA generally applies to payments of dividends on our Common Stock. While withholding under FATCA also would have applied to payments of gross proceeds from the sale or other disposition of our Common Stock, proposed Treasury Regulations eliminate FATCA withholding on payments of gross proceeds entirely. Taxpayers generally may rely on these proposed Treasury Regulations until final Treasury Regulations are issued.

Prospective investors should consult their tax advisors regarding the potential application of withholding under FATCA to their investment in our Common Stock.

The underwriters have committed to take and pay for all of the shares being offered by the selling stockholder, if any are taken, other than the shares covered by the option described below unless and until this option is exercised in the sole discretion of the underwriters. The underwriting agreement also provides that if an underwriter defaults, the purchase commitments of non-defaulting underwriters may also be increased or the offering may be terminated.

Subject to certain conditions, we have agreed to repurchase directly from the selling stockholder an aggregate number of shares of Common Stock equal to \$75 million as part of the Stock Repurchase Program for a price per share equal to the price per share at which the underwriters have agreed to purchase shares of Common Stock from the selling stockholder. The completion of the Stock Repurchase is expected to occur concurrently with the closing of this offering. This offering is not conditioned upon the completion of the Stock Repurchase, and we cannot provide any assurance that the Stock Repurchase will occur on the terms and timeline as contemplated herein, or at all. The description and the other information included in this prospectus supplement regarding the Stock Repurchase is included solely for informational purposes, and nothing in this prospectus supplement shall constitute an offer to sell, or the solicitation of an offer to purchase or repurchase by us of any shares of our Common Stock. See “Prospectus Supplement Summary—Recent Developments—Concurrent Stock Repurchase.”

The underwriters are offering the shares of Common Stock, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the shares of Common Stock, and other conditions contained in the underwriting agreement, such as the receipt by the underwriters of officer’s certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part. The underwriters may offer and sell shares through certain of their affiliates or other registered broker-dealers or selling agents.

S-26

In addition, in the underwriting agreement, we and the selling stockholder have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, or contribute to payments that the underwriter may be required to make in respect of those liabilities.

Options to Purchase Additional Shares

The underwriters have an option to buy up to an additional 1,348,314 shares from the selling stockholder made in connection with the offering of the shares of Common Stock offered by this prospectus supplement. The underwriters may exercise that option for 30 days following the date of this prospectus supplement. If any shares are purchased pursuant to this option, the underwriters will severally purchase shares in approximately the same proportion as set forth in the table above.

Commissions and Discounts

The representatives have advised us and the selling stockholder that the underwriters propose initially to offer the shares to the public at the public offering price set forth on the cover page of this prospectus supplement and to dealers at that price less a concession not in excess of \$21.36 per share. After the initial offering, the public offering price, concession or any other term of the offering may be changed.

The following table shows the per share and total public offering price, total underwriting discounts and commissions to be paid to the underwriters by the selling stockholder and proceeds before expenses to the selling stockholder. Such amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase up to 1,348,314 additional shares of Common Stock from the selling stockholder as described herein. The shares of Common Stock that we intend to repurchase from the selling stockholder pursuant to the Stock Repurchase will be repurchased at a price per share equal to the price per share to be paid by the underwriters to the selling stockholder and are excluded from the calculation of the Total column.

	Per Share	Total	
		Without option to purchase additional shares exercise	With full option to purchase additional shares exercise
Public Offering Price	\$ 22.25	\$ 199,999,999.00	\$ 229,999,985.50

The expenses of the offering, not including the underwriting discounts and commissions, are estimated at approximately \$1.8 million and are payable by us. We have agreed to reimburse the underwriters for certain expenses. The underwriters have agreed to reimburse the selling stockholder for certain expenses in connection with the offering in an aggregate amount of \$1.0 million.

No Sales of Similar Securities

We have agreed with the underwriters from the date of this prospectus supplement through the Lock-Up Period, not to (1) offer, pledge (other than with respect to the shares of Common Stock pledged by Ingram Holdco, LLC prior to the date hereof), sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, lend, or otherwise transfer or dispose of, directly or indirectly, any shares of our Common Stock or any securities convertible into or exercisable or exchangeable for our Common Stock, (2) enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of our Common Stock, whether any such transaction described in clause (1) or (2) above is to be settled by delivery of our Common Stock or such other securities, in cash or otherwise or (3) file any registration statement with the SEC relating to the offering of any shares of our Common Stock or any securities convertible into or exercisable or exchangeable for our Common Stock, unless we obtain the prior written consent of any two of Morgan Stanley & Co. LLC, Goldman Sachs & Co. LLC and J.P. Morgan Securities LLC on behalf of the underwriters.

The foregoing restrictions shall not apply to (A) the shares of our Common Stock contemplated by this prospectus supplement, (B) the issuance by us of shares of our Common Stock, upon the exercise of an option or warrant, vesting or settlement of restricted stock or RSU or the conversion of a security outstanding on the date hereof; provided that we shall cause each recipient, on or prior to the issuance, exercise, vesting or settlement of any such grants or shares of Common Stock, to sign and deliver a lock-up agreement for the balance of the Lock-Up Period, (C) certain grants of stock options, stock awards, restricted stock, RSUs or other equity awards and the issuance of Common Stock or securities convertible into or exercisable for Common Stock (whether upon the exercise of stock options or otherwise) to our employees, officers, directors, advisors or consultants pursuant to the terms of a plan in effect on the date hereof; provided that we shall cause each recipient, on or prior to the issuance of any such grants or shares of Common Stock, to sign and deliver a lock-up agreement for the balance of the Lock-Up Period, (D) facilitating the establishment of a trading plan on behalf of any of our shareholders, officers or directors pursuant to Rule 10b5-1 under the Exchange Act for the transfer of shares of Common Stock; provided that (i) such plan does not provide for the transfer of Common Stock during the Lock-Up Period and (ii) to the extent a public announcement or filing under the Exchange Act, if any, is required of or voluntarily made by or on our behalf regarding the establishment of such plan, such announcement or filing shall include a statement to the effect that no transfer of Common Stock may be made under such plan during the Lock-Up Period, (E) the filing of any registration statement on Form S-8 relating to certain securities (i) granted or to be granted pursuant to any plan in effect on the date hereof or (ii) otherwise eligible to be included on a registration statement on Form S-8, (F) the offer or issuance or agreement to issue by us of our Common Stock or securities convertible into, exercisable for or which are otherwise exchangeable for or represent the right to receive Common Stock in connection with an acquisition, merger, joint venture, strategic alliance, commercial or other collaborative relationship or the acquisition or license by us or any of our subsidiaries of the securities, business, property or other assets of another person or entity or pursuant to any employee benefit plan as assumed by us in connection with any such acquisition or transaction; provided that (i) the aggregate number of shares of Common Stock, securities convertible into, exercisable for or which are otherwise exchangeable for or represent the right to receive Common Stock that we may sell or issue or agree to sell or issue pursuant to this clause (F) shall not exceed 10.0% of the total number of shares of Common Stock outstanding immediately following the issuance of the shares to be issued under this prospectus supplement, and (ii) we shall cause each recipient of such shares, on or prior to the issuance of any such shares of Common Stock, to sign and deliver a lock-up agreement for the balance of the Lock-Up Period or (G) the Stock Repurchase pursuant to the Stock Repurchase Program.

Additionally, all of our directors, executive officers and the selling stockholder have entered into lock-up agreements with the underwriters, pursuant to which the parties have agreed that, without the prior written consent of any two of Morgan Stanley & Co. LLC, Goldman Sachs & Co. LLC and J.P. Morgan Securities LLC on behalf of the underwriters, they will not, during the Lock-Up Period, (1) offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, lend, or otherwise transfer or dispose of, directly or indirectly, any shares of our Common Stock beneficially owned by the signatory that are convertible into or exercisable or exchangeable for Common Stock (such shares of Common Stock, options, rights, warrants or other securities, collectively, "Lock-Up Securities") or (2) enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of the Common Stock, whether any such transaction described in clause (1) or (2) above is to be settled by delivery of Common Stock or such other securities, in cash or otherwise. The foregoing restrictions will not apply to (A) transactions relating to Lock-Up Securities acquired in open market transactions after the completion of this offering; provided that no filing under Section 16(a) of the Exchange Act shall be required or shall be voluntarily made in connection with subsequent sales of Common Stock or other securities acquired in such open market transactions, (B) transfers of Lock-Up Securities (i) as a bona fide gift, (ii) to any member of the signatory's immediate family or to any trust for the direct or indirect benefit of the signatory or the immediate family of the signatory, (iii) upon death or by will, testamentary document or intestate succession to the legal representative, heir, beneficiary or a member of the immediate family of the signatory, (iv) by operation of law, pursuant to a qualified domestic order or in connection with a divorce settlement or (v) to a nominee or custodian of a person or entity to whom a disposition or transfer would be permissible under clauses (i) through (iv); provided that (a) each donee or transferee shall sign and deliver a lock-up agreement for the balance of the Lock-Up Period and (b) (1) if any filing under Section 16(a) of the Exchange Act, or other public filing or disclosure, is legally required, such filing or disclosure shall clearly indicate in the footnotes thereto that the filing relates to circumstances described in this

clause, and (2) no other public announcement or filing shall be voluntarily made during the Lock-Up Period, (C) distributions, transfers or dispositions of Lock-Up Securities (i) to limited partners, general partners, members, stockholders or holders of similar equity interests of the signatory, or (ii) to another corporation, partnership, limited liability company, trust or other business entity that is an affiliate (as defined in Rule 405 promulgated under the Securities Act) of the signatory, or to any investment fund or other entity controlling, controlled by, managing or managed by or under common control or common investment management with the signatory or affiliates of the signatory; provided that in the case of any distribution, transfer or disposition pursuant to this clause, (a) each donee or transferee shall sign and deliver a lock-up agreement for the balance of the Lock-Up Period and (b) (1) if any filing under Section 16(a) of the Exchange Act, or other public filing or disclosure, is legally required, such filing or disclosure shall clearly indicate in the footnotes thereto that the filing relates to circumstances described in this clause, and (2) no other public announcement or filing shall be voluntarily made during the Lock-Up Period, (D) establishing of a trading plan on behalf of any of our shareholders, officers or directors pursuant to Rule 10b5-1 under the Exchange Act for the transfer of shares of Common Stock; provided that (i) such plan does not provide for the transfer of Common Stock during the Lock-Up Period and (ii) to the extent a public announcement or filing under the Exchange Act, if any, is required of or voluntarily made by or on behalf of the signatory or us regarding the establishment of such plan, such announcement or filing shall include a statement to the effect that no transfer of Common Stock may be made under such plan during the Lock-Up Period, (E) transfers or sales to us from an employee in connection with the repurchase of Lock-Up Securities in connection with the termination of the signatory's employment with us pursuant to contractual agreements with us that provide us with a right to purchase such shares; provided that (1) any filing required to be made during the Lock-Up Period pursuant to Section 16(a) of the Exchange Act or Item 703 of Regulation S-K shall clearly indicate in the footnotes thereto that such transfer is being made pursuant to the circumstances described in this clause, and (2) no other public announcement or filing shall be voluntarily made during the Lock-Up Period, (F) (i) the receipt by the signatory from us of Lock-Up Securities upon the exercise, vesting or settlement of options, RSUs or other equity awards granted under a stock incentive plan or other equity award plan, which plan is established prior to the date of this prospectus supplement and is described in the prospectus relating to the shares included in the registration statement immediately prior to the time the underwriting agreement is executed and this prospectus supplement, or warrants to purchase shares of Common Stock, insofar as such options, RSUs or warrants are outstanding as of the date of this prospectus supplement and are disclosed in this prospectus supplement or (ii) the transfer of shares of Lock-Up Securities to us upon a vesting or settlement event of our RSUs or Lock-Up Securities or upon the exercise of options to purchase our securities on a "cashless" or "net exercise" basis to the extent permitted by the instruments representing such options (and any transfer to us necessary in respect of such amount needed for the payment of taxes, including estimated taxes and withholding tax and remittance obligations, due as a result of such vesting, settlement or exercise whether by means of a "net settlement" or otherwise) so long as such vesting, settlement, "cashless" exercise or "net exercise" is effected solely by the surrender of outstanding options (or the Common Stock issuable upon the exercise thereof) or shares of Common Stock to us and our cancellation of all or a portion thereof to pay the exercise price and/or withholding tax and remittance obligations in connection with the vesting, settlement or exercise of the RSU, option or other equity award; provided that (a) the Lock-Up Securities that are so received upon such vesting, settlement or exercise of the RSU, option, warrants or other equity awards will be subject to the terms of this agreement for the duration of the Lock-Up Period and (b) to the extent any filing by, or on behalf of, any party (donor, donee, transferor or transferee) shall be required to be made with respect to such receipt or such transfer pursuant to Section 16(a) of the Exchange Act, such filing shall clearly indicate in the footnotes thereto that such receipt or transfer is being made pursuant to the circumstances described in this clause, (G) transfers of shares of Lock-Up Securities pursuant to a bona fide third-party tender offer, merger, consolidation or other similar transaction involving certain change of control events that are open to all holders of our capital stock and have been approved by our board of directors (including, without limitation, entering into any lock-up, voting or similar agreement pursuant to which the signatory may agree to transfer, sell, tender or otherwise dispose of the signatory's securities in connection with any such transaction, or vote securities in favor of any such transaction); provided that in the event that such third-party tender offer, merger, consolidation or other such similar transaction is not completed, the Lock-Up Securities owned by the signatory shall remain subject to the restrictions contained in the lock-up agreement for the duration of the Lock-Up Period, (H) bona fide sales of the Common Stock by the selling stockholder to the Company pursuant to, and in accordance with, the Stock Repurchase by the Company and (I) the pledge of Common Stock made by the selling stockholder pursuant to the Margin Loan; provided that (1) any filing required to be made during the Lock-Up Period pursuant to Section 16(a) or 13 of the Exchange Act or Item 703 of

Regulation S-K shall clearly indicate in the footnotes thereto that such transfer is being made pursuant to the circumstances described in this clause, and (2) no other public announcement or filing shall be voluntarily made during the Lock-Up Period (in each case, subject to certain filing and lock-up travel requirements as further described in the applicable lock-up agreements).

Listing

Our Common Stock is listed on the NYSE under the symbol “INGM”.

Price Stabilization and Short Positions

Until the distribution of the shares is completed, SEC rules may limit underwriters and selling group members from bidding for and purchasing our Common Stock. However, the representatives may engage in transactions that stabilize the price of the Common Stock, such as bids or purchases to peg, fix or maintain that price.

In connection with the offering, the underwriters may purchase and sell shares of Common Stock in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in the offering, and a short position represents the amount of such sales that have not been covered by subsequent purchases. A “covered short position” is a short position that is not greater than the amount of additional shares for which the underwriters’ option described above may be exercised. The underwriters may cover any covered short position by either exercising their option to purchase additional shares or purchasing shares in the open market. In determining the source of shares to cover the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase additional shares pursuant to the option described above. “Naked” short sales are any short sales that create a short position greater than the amount of additional shares for which the option described above may be exercised. The underwriters must cover any such naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of our Common Stock in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchases of Common Stock made by the underwriters in the open market prior to the completion of the offering. Purchases to cover a short position and stabilizing transactions, as well as other purchases by the underwriters for their own accounts, may have the effect of preventing or delaying a decline in the market price of our Common Stock, and together with the imposition of the penalty bid, may stabilize, maintain or otherwise affect the market price of our Common Stock. As a result, the price of our Common Stock may be higher than the price that otherwise might exist in the open market. The underwriters are not required to engage in these activities and may end any of these activities at any time. These transactions may be effected on Nasdaq, the NYSE, in the over-the-counter market or otherwise.

Neither we, the selling stockholder nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of our Common Stock. In addition, neither we, the selling stockholder nor any of the underwriters make any representation that the representatives will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

Electronic Distribution

In connection with the offering, certain of the underwriters or securities dealers may distribute this prospectus supplement and the accompanying prospectus by electronic means, such as e-mail.

Other Relationships

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include sales and trading, commercial and investment banking, advisory, investment management, investment research, principal investment, hedging, market making, brokerage and other financial and non-financial activities and services. Certain of the underwriters and their respective affiliates have provided, and may in the future provide, a variety of these services to the issuer, the selling stockholder and to persons and entities

with relationships with the issuer or the selling stockholder, for which they received or will receive customary fees and expenses.

In addition, in the ordinary course of their various business activities, the underwriters and their respective affiliates, officers, directors and associates may purchase, sell or hold a broad array of investments and actively traded securities, derivatives, loans, commodities, currencies, credit default swaps and other financial instruments for their own account and for the accounts of their consumers, and such investment and trading activities may involve or relate to assets, securities and/or instruments of the issuer (directly, as collateral securing other obligations or otherwise) and/or persons and entities with relationships with the issuer. If the underwriters or their affiliates have a lending relationship with us, certain of those underwriters or their affiliates may hedge their credit exposure to us consistent with their customary risk management policies. Typically, the underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities or the securities of our affiliates, including potentially the shares of Common Stock offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the shares of Common Stock offered hereby. The underwriters and their respective affiliates may also communicate independent investment recommendations, market color or trading ideas and/or publish or express independent research views in respect of such assets, securities or instruments and may at any time hold, or recommend to clients that they should acquire, long and/or short positions in such assets, securities and instruments.

Some of the underwriters and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us or our affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions.

EXPERTS

The financial statements and management's assessment of the effectiveness of internal control over financial reporting (which is included in Management's Report on Internal Control over Financial Reporting) incorporated in this prospectus supplement by reference to the Annual Report on Form 10-K for the year ended December 27, 2025 have been so incorporated in reliance on the report (which contains an adverse opinion on the effectiveness of the Company's internal control over financial reporting) of PricewaterhouseCoopers LLP ("PwC"), an independent registered public accounting firm, given on the authority of said firm as experts in auditing and accounting.

PwC identified non-audit services impacting the period from January 2023 to August 2024. A member firm of PricewaterhouseCoopers International Limited ("PwC Member Firm") and an unrelated third party jointly provided services, which included management functions at an immaterial branch of a wholly owned subsidiary of an entity under common control with the Company. These services were permissible under the applicable independence standards at the time the services were rendered but are inconsistent with SEC and Public Company Accounting Oversight Board (United States) independence rules. The services included remitting payments and filing documents with non-tax authorities on behalf of the branch.

PwC provided an overview of the facts and circumstances surrounding the non-audit services to the Audit Committee and the management team of the Company, including the entity involved, the nature of the non-audit services, the period over which they were provided, an approximation of the fees related to the non-audit services and other relevant factors.

The non-audit services were provided to an affiliate of the Company and not to the Company itself. None of the PwC Member Firm's service engagement team members that performed the non-audit services have been or are members of the Company's PwC audit engagement team. The non-audit services did not place PwC in a position of auditing its own work, did not result in PwC performing any decision-making or supervisory functions for the Company, and did not place PwC in a position of being an advocate for the Company. The fees received in connection with the non-audit services were approximately \$5,500 and are immaterial to PwC, the PwC Member Firm and the entity to which the non-audit services were provided.

Considering the facts presented, the Audit Committee of the Company and PwC have concluded (i) that the non-audit services noted above did not and would not impair PwC application of objective and impartial judgment on any matter encompassed within PwC's audit of the financial statements as of and for the years ended December 28, 2024, and December 30, 2023, and (ii) that no reasonable investor would conclude otherwise.

Risk factors

“INGM.”

You should read the “[Risk Factors](#)” section of this prospectus, together with all of the other information included or incorporated by reference in this prospectus, for a discussion of factors to consider carefully before deciding to invest in shares of our Common Stock.

RISK FACTORS

Investing in our Common Stock involves a high degree of risk. Prior to an investment decision, you should carefully read this prospectus, all applicable prospectus supplements, any related free writing prospectus, all documents that are incorporated by reference and the documents referred to under the heading “Where You Can Find More Information.” You should also consider the risks, uncertainties and assumptions discussed under the caption “Risk Factors” included in our 2024 Form 10-K and our Quarterly Reports on Form 10-Q and are incorporated by reference into this prospectus, and which may be amended, supplemented or superseded from time to time by other reports we file with the SEC in the future. Any of the risks incorporated by reference and any of the following risks included herein could materially and adversely affect our business, results of operations, financial condition, cash flows or growth prospects. The risks described below and incorporated by reference herein, however, are not the only risks facing us. Additional risks and uncertainties not currently known to us or those we currently view to be immaterial may also materially and adversely affect our business, results of operations, financial condition or growth prospects. In such a case, the trading price of our Common Stock could decline, and you may lose all or part of your investment.

This prospectus also contains forward-looking statements that involve risks and uncertainties. See “Cautionary Note Regarding Forward-Looking Statements.” The Company’s actual results could differ materially and adversely from those anticipated in these forward-looking statements as a result of certain factors.

Risks Related to this Offering and Ownership of Our Common Stock

Future offerings of debt or equity securities by us may have a material adverse effect on the market price of our Common Stock.

In the future, we may attempt to obtain financing or to further increase our capital resources by issuing additional shares of our Common Stock or by offering debt or other equity securities, including senior or subordinated notes, debt securities convertible into equity or shares of preferred stock. Any future debt financing could involve restrictive covenants relating to our capital-raising activities and other financial and operational matters, which might make it more difficult for us to obtain additional capital and to pursue business opportunities, including potential acquisitions. Moreover, if we issue debt securities, the debt holders would have rights to make claims on our assets senior to the rights of our holders of our Common Stock. The issuance of additional shares of our Common Stock or other equity securities or securities convertible into equity may dilute the economic and voting rights of our existing stockholders or reduce the market price of our Common Stock or both. Debt securities convertible into equity could be subject to adjustments in the conversion ratio pursuant to which certain events may increase the number of equity securities issuable upon conversion. Preferred stock, if issued, could have a preference with respect to liquidating distributions or a preference with respect to dividend payments that could limit our ability to pay dividends to the holders of our Common Stock. Our decision to issue securities in any future offering will depend on market conditions and other factors beyond our control, which may have a material adverse effect on the amount, timing, or nature of our future offerings. Thus, holders of our Common Stock bear the risk that our future offerings may reduce the market price of our Common Stock and dilute their stockholdings in us.

We will continue to be a “controlled company” within the meaning of the NYSE rules and, as a result, we qualify for, and intend to rely on, exemptions from certain corporate governance requirements. Our stockholders will not have the same protections afforded to stockholders of other companies that are subject to such requirements.

After the completion of this offering, Platinum will continue to hold more than a majority of the voting power of our outstanding Common Stock entitled to vote generally in the election of directors. As a result, we will continue to be a “controlled company” within the meaning of the corporate governance standards of the NYSE, and have elected, in accordance with applicable NYSE exemptions, not to comply with certain corporate governance requirements, including the requirements that within one year of the date of the listing of our Common Stock:

- a majority of the members of our board of directors are “independent directors” as defined under the rules of the NYSE;

- our board of directors has a compensation committee that is composed entirely of independent directors with a written charter addressing the committee's purpose and responsibilities;
- our director nominations be made, or recommended to the full board of directors, by our independent directors or by a nominations committee that is composed entirely of independent directors and that we adopt a written charter or board resolution addressing the nominations process; and
- we complete an annual performance evaluation of our compensation and nominating and corporate governance committees.

Following this offering, we intend to continue to utilize some or all of these exemptions. For example, we do not have a majority of independent directors, our compensation and nominating and corporate governance committees are not composed entirely of independent directors and we may not perform annual performance evaluations with respect to such committees. The independence standards are intended to ensure that directors who meet those standards are free of any conflicting interest that could influence their actions as directors. Accordingly, our stockholders will not have the same protections afforded to stockholders of companies that are subject to all of the corporate governance requirements of the NYSE. In the event that we cease to be a "controlled company," we will be required to comply with the above referenced requirements within one year.

In addition, in response to the adoption of Rule 10C-1 under the Exchange Act, by the SEC, the national securities exchanges (including the NYSE) adopted amendments to their existing listing standards to comply with provisions of Rule 10C-1, which require, among other things, that:

- compensation committees be composed of fully independent directors, as determined pursuant to new and existing independence requirements;
- compensation committees be explicitly charged with hiring and overseeing compensation consultants, legal counsel and other committee advisers; and
- compensation committees be required to consider, when engaging compensation consultants, legal counsel or other advisers, certain independence factors, including factors that examine the relationship between the consultant or adviser's employer and us.

As a "controlled company," we are not subject to these compensation committee independence requirements.

Platinum controls us, and its interests may conflict with ours or other stockholders' in the future.

After the completion of this offering, assuming an offering of 25,500,000 shares of Common Stock by one or both of the selling stockholders, Platinum will continue to control approximately 78.9% of the voting power of our outstanding Common Stock, and thus, in each case, hold more than a majority of the voting power of our outstanding Common Stock entitled to vote generally in the election of directors. Platinum is able to control the election and removal of our directors and thereby control our policies and operations, including the appointment of management, future issuances of our Common Stock or other securities, payment of dividends, if any, on our Common Stock, the incurrence or modification of indebtedness by us, amendment of our amended and restated certificate of incorporation and amended and restated bylaws and the entering into of extraordinary transactions, and their interests may not in all cases be aligned with the interests of our other stockholders. This concentration of voting control could deprive stockholders of an opportunity to receive a premium for their shares of Common Stock as part of a sale of our company and ultimately might affect the market price of our Common Stock. This concentration of ownership may also adversely affect our share price.

Moreover, in accordance with our amended and restated certificate of incorporation and the Investor Rights Agreement we entered into in connection with our initial public offering (the “Investor Rights Agreement”), Platinum has the right to nominate for election to our board of directors a number of individuals designated by Platinum constituting a majority thereof for so long as it beneficially owns at least 50% of the voting power of all shares of our outstanding stock entitled to vote generally in the election of our directors. See Item 13. “Certain Relationships and Related Transactions, and Director Independence” in our 2024 Form 10-K, which is incorporated herein by reference, and “Description of Capital Stock” in this prospectus. In the event that Platinum ceases to own shares of our stock representing a majority of the total voting power, for so long as Platinum continues to own a significant percentage of our stock, it will still be able to significantly influence or effectively control the composition of our board of directors and the approval of actions requiring stockholder approval through its voting power. Accordingly, for such period of time, Platinum will have significant influence with respect to our management, business plans and policies, including the appointment and removal of our officers.

Platinum is in the business of making investments in companies and may from time to time acquire and hold interests in businesses that compete directly or indirectly with us or whose interests are otherwise not aligned with ours. Our amended and restated certificate of incorporation provides that neither Platinum nor any of its affiliates or any director who is not employed by us or his or her affiliates has any duty to refrain from engaging, directly or indirectly, in the same business activities or similar business activities or lines of business in which we operate. Platinum and its affiliates also may pursue acquisition opportunities that may be complementary to our business and, as a result, those acquisition opportunities may not be available to us.

Anti-takeover provisions in our organizational documents and Delaware law provisions could delay or prevent a change of control.

Certain provisions of our amended and restated certificate of incorporation and amended and restated bylaws may have an anti-takeover effect and may delay, defer or prevent a merger, acquisition, tender offer, takeover attempt or other change of control transaction that a stockholder might consider in its best interest, including those attempts that might result in a premium over the market price for the shares held by our stockholders.

Among other things, these provisions:

- grant Platinum the right to nominate for election to our board of directors no fewer than that number of directors that would constitute: (a) a majority of the total number of directors so long as the selling stockholders and Platinum collectively beneficially own at least 50% of the then-outstanding capital stock of the Company; (b) 40% of the total number of directors so long as the selling stockholders and Platinum collectively beneficially own at least 40% but less than 50% of the then-outstanding capital stock of the Company; (c) 30% of the total number of directors so long as the selling stockholders and Platinum collectively beneficially own at least 30% but less than 40% of the then-outstanding capital stock of the Company; (d) 20% of the total number of directors so long as the selling stockholders and Platinum collectively beneficially own at least 20% but less than 30% of the then-outstanding capital stock of the Company; and (e) 10% of the total number of directors so long as the selling stockholders and Platinum collectively beneficially own at least 5% but less than 20% of the then-outstanding capital stock of the Company;
- permit our board of directors to establish the number of directors and fill vacancies and newly created directorships, subject to the rights granted to Platinum pursuant to our amended and restated certificate of incorporation and the Investor Rights Agreement;
- establish a classified board of directors, as a result of which our board of directors is divided into three classes, with each class serving for staggered three-year terms;
- provide for the removal of directors only for cause and only upon the affirmative vote of the holders of at least 66 and 2/3% of the shares of Common Stock entitled to vote generally in the election of directors if Platinum and its affiliates cease to beneficially own at least 50% of shares of Common Stock entitled to vote generally in the election of directors;

- provide that at all meetings of our board of directors prior to the date when Platinum ceases to beneficially own at least 30% of the total voting power of all then-outstanding shares of our stock entitled to vote generally in the election of directors, a quorum for the transaction of business shall include at least one director nominated by Platinum;
- provide for the ability of our board of directors to issue one or more series of preferred stock, including “blank check” preferred stock;
- designate Delaware as the sole forum for certain litigation against us;
- provide for advance notice requirements for nominations of directors by stockholders and for stockholders to include matters to be considered at our annual stockholder meetings;
- provide certain limitations on convening special stockholder meetings in the event Platinum beneficially owns less than 50% of the voting power of all outstanding shares of our stock entitled to vote generally in the election of directors;
- prohibit cumulative voting in the election of directors;
- provide that actions by our stockholders be taken only at an annual or special meeting of our stockholders, and not by written consent, in the event Platinum beneficially owns less than 50% of the voting power of all outstanding shares of our stock entitled to vote generally in the election of directors;
- provide (i) that the board of directors is expressly authorized to alter or repeal our amended and restated bylaws and (ii) that our stockholders may only amend our amended and restated bylaws with the approval of 66 and 2/3% or more of all of the outstanding shares of our stock entitled to vote, in the event Platinum beneficially owns less than 50% of the total voting power of all then-outstanding shares of our stock entitled to vote generally in the election of directors; and
- provide that certain provisions of our amended and restated certificate of incorporation may be amended only by the affirmative vote of the holders of at least 66 and 2/3% in voting power of the outstanding shares of our stock entitled to vote, in the event Platinum beneficially owns less than 50% of the total voting power of all then-outstanding shares of our stock entitled to vote generally in the election of directors; provided, however, that any such alteration or amendment which would adversely affect the rights of Platinum shall require the prior written consent of Platinum.

Any provision of our amended and restated certificate of incorporation, amended and restated bylaws or Delaware law that has the effect of delaying, preventing or deterring a change in control could limit the opportunity for our stockholders to receive a premium for their shares of our Common Stock and could also affect the price that some investors are willing to pay for our Common Stock. In addition, our stockholders may be limited in their ability to obtain a premium for their shares. See “Description of Capital Stock.”

Because our executive officers hold, or in the future may hold, long-term incentive awards that will vest upon a change of control, these officers may have interests in us that conflict with those of our stockholders.

Our executive officers hold, or in the future may hold, long-term incentive awards that would automatically vest upon a change of control. As a result, these officers may view certain change of control transactions more favorably than other stockholders due to the vesting opportunities available to them and, as a result, may have an economic incentive to support a transaction that may not be viewed as favorable by other stockholders.

As a publicly traded company, we are required to design and maintain adequate internal control over financial reporting. Failure to comply with requirements to design, implement and maintain effective internal control over financial reporting and/or failure to effectively remediate material weaknesses could have a material adverse effect on our business and the price of our Common Stock, and could result in our financial statements becoming unreliable.

As a privately held company prior to our initial public offering (“IPO”), we were not required to evaluate the effectiveness of our internal control over financial reporting in a manner that meets the standards of publicly traded companies required by the rules and regulations of the SEC regarding compliance with Section 404 of the Sarbanes-Oxley Act of 2002 (“Section 404” and the “Sarbanes-Oxley Act,” respectively). As a publicly traded company, we are now subject to the rules and regulations established from time to time by the SEC and the NYSE. These rules and regulations require, among other things, that we establish and periodically evaluate the design and operating effectiveness of our internal control over financial reporting.

Reporting obligations as a publicly traded company place a considerable strain on our financial and management systems, processes and controls, as well as on our personnel for the foreseeable future. In addition, as a publicly traded company, we are required to document and test our internal control over financial reporting pursuant to the rules and regulations of the SEC so that our management can report as to the effectiveness of our internal control over financial reporting. Testing and maintaining internal controls may divert our management’s attention from other matters that are important to the operation of our business. In addition, when our independent registered public accounting firm is required to undertake an assessment of our internal control over financial reporting, the cost of our compliance with the rules and regulations of the SEC over Section 404 will correspondingly increase. Our compliance with applicable provisions of Section 404 requires that we incur substantial accounting expense and expend significant management time on compliance-related issues as we implement additional corporate governance practices and comply with reporting requirements.

Section 404(a) requires that, beginning with our second annual report filed on Form 10-K following our initial public offering, management assess and report annually on the effectiveness of our internal control over financial reporting and disclose any material weaknesses in our internal control over financial reporting. Section 404(b) requires our independent registered public accounting firm to issue a report that attests to the effectiveness of our internal control over financial reporting as of the end of the fiscal year. We expect our first Section 404(a) assessment will take place for our annual report for the year ending December 27, 2025. We are in the process of evaluating our internal controls to allow management to report on the effectiveness of our internal control over financial reporting. Upon completion of this process, we may identify control deficiencies of varying degrees of severity under applicable SEC rules and regulations that require remediation. As a publicly traded company, we are required to report, among other things, control deficiencies that constitute a “material weakness” and changes in internal control over financial reporting that, or that are reasonably likely to, materially affect internal control over financial reporting. A “material weakness” is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis. To comply with the requirements of being a publicly traded company, we have undertaken various actions, and may need to take additional actions, such as implementing and enhancing our internal controls and procedures and hiring additional accounting or internal audit staff. Further, because there are inherent limitations in all control systems, even our remediated and effective internal control over financial reporting may not prevent or detect all material misstatements. Additionally, any projection or the result of any evaluation of effectiveness of these measures in future periods remain subject to the risk that our internal control over financial reporting may become inadequate because of changes in our business condition, changes in accounting rules and regulations, or to the degree our compliance with our internal policies or procedures may deteriorate. If we fail to timely design and maintain the effectiveness of our internal control over financial reporting, we may not be able to produce reliable financial reports and will be less able to detect and prevent material misstatements due to error or fraud. Additionally, as described in the risk factor directly below, we have identified material weaknesses in our internal control over financial reporting. As we have become subject to Section 404, we may identify additional material weaknesses.

We have identified material weaknesses in our internal control over financial reporting, which have resulted in restatements and revisions of certain of our consolidated financial statements, which has created additional risks and uncertainties that may have a material adverse effect on our business, financial position and results of operations. If we are unable to remediate these material weaknesses, or if we identify additional material weaknesses in the future or otherwise fail to design and maintain effective internal control over financial reporting, we may not be able to accurately or timely report our financial condition or results of operations, which may adversely affect investor confidence and the price of our Common Stock, or impair our ability to comply with applicable laws and regulations.

During the course of preparing to become a publicly traded company, we identified a material weakness consisting of not designing and maintaining an effective risk assessment process at a precise enough level to identify risks of material misstatement in the consolidated financial statements related to evolving and growing areas of the business. This material weakness contributed to an additional material weakness around the design and maintenance of effective controls over the identification of and accounting for multi-period software license agreements.

These material weaknesses resulted in immaterial misstatements to the interim and annual consolidated financial statements between 2021 and 2023 and the revision of the 2022 annual consolidated financial statements (balance sheet and the statement of cash flows) and 2023 interim condensed consolidated financial statements (balance sheet and the statement of cash flows) and the restatement of certain interim and annual consolidated financial statements between 2020 and 2023, as a result of errors in the consolidated balance sheets and consolidated statements of cash flows.

Additionally, these material weaknesses could result in further misstatements of the aforementioned accounts and disclosures that would result in a material misstatement to the annual or interim consolidated financial statements that would not be prevented or detected. As a result of these material weaknesses and errors, we have become subject to a number of additional risks and uncertainties and unanticipated costs for accounting, legal and other fees and expenses. We may become subject to legal proceedings as a result of the material weaknesses and errors, which could result in reputational harm, the loss of key employees, additional defense and other costs. Any of the foregoing impacts, individually or in the aggregate, may have a material adverse effect on our business, financial position and results of operations.

We are taking a number of steps to remediate these material weaknesses and to strengthen our internal control over financial reporting. These remediation measures are ongoing, and include strengthening the regional controllership function, revising policies and procedures and implementing additional training to support an effective risk assessment process over evolving and growing areas of the business. The implementation of these remediation measures is in progress and will require validation and testing of design and operating effectiveness of internal controls over multiple financial reporting cycles. Implementing the necessary changes to internal controls may involve substantial costs and divert our management's attention from other matters that are important to the operation of our business. At this time, we cannot provide an estimate of costs expected to be incurred in connection with implementing our remediation plan; however, the remediation measures will be time consuming, will result in us incurring significant costs, and will place significant demands on our financial and operational resources.

While we expect to remediate the material weaknesses, we cannot assure investors that these measures will significantly improve or remediate the material weaknesses described above or that we will be able to do so in a timely manner. If the steps we take do not remediate these material weaknesses, or future material weaknesses, in a timely manner, if we identify additional material weaknesses in our internal control over financial reporting, if we are unable to comply with the requirements of the rules and regulations of the SEC over Section 404 in a timely manner, if we are unable to assert that our internal control over financial reporting is effective, that may result in a material misstatement of our annual or interim financial statements that would not be prevented or detected on a timely basis, which, in turn, could jeopardize our ability to comply with our reporting obligations, including those under the Indenture and Credit Agreements which may give rise to a default thereunder, restrict our access to the capital markets, cause investors to lose confidence in the accuracy, completeness or reliability of our financial reports and adversely impact the price of our Common Stock. As a result of such failures, we could also become subject to investigations or sanctions by the NYSE, the SEC, or other regulatory authorities, and become subject to litigation from investors and stockholders, which could harm our reputation, financial condition or divert financial and management resources from our core business, and would have a material adverse effect on our business, financial condition and results of operations.

Our stock price may change significantly following this offering, and stockholders may not be able to resell shares of our Common Stock at or above the price paid or at all and could lose all or part of their investment as a result.

The price of our Common Stock has been and may continue to be volatile, and stockholders may not be able to resell their shares at or above the public offering price due to a number of factors such as those listed in “Risks Related to Our Business and Our Industry” in the section entitled Item 1A. “Risk Factors” in both our 2024 Form 10-K and our 2025 Q3 10-Q, which are incorporated by reference herein and the following:

- results of operations that vary from the expectations of securities analysts and investors;
- results of operations that vary from those of our competitors compared to market expectations;
- changes in expectations as to our future financial performance, including financial estimates and investment recommendations by securities analysts and investors;
- changes in market valuations of, or earnings and other announcements by, companies in our industry;
- declines in the market prices of stocks generally, particularly those of information technology companies;
- departures of key management personnel or members of our board of directors;
- strategic actions by us or our competitors;
- announcements by us, our competitors or our vendors of significant contracts, price reductions, new products or technologies, acquisitions, joint marketing relationships, joint ventures, other strategic relationships or capital commitments;
- changes in preference of our customers;
- changes in general economic or market conditions or trends in our industry or the economy as a whole and, in particular, in the consumer spending environment;
- changes in business or regulatory conditions which adversely affect our industry or us;
- future issuances, exchanges or sales, or expected issuances, exchanges or sales of our Common Stock or other securities;
- investor perceptions of or the investment opportunity associated with our Common Stock relative to other investment alternatives;

- investors' responses to press releases or other public announcements by us or third parties, including our filings with the SEC;
- adverse resolutions relating to new or pending litigation or governmental investigations;
- guidance, if any, that we provide to the public, any changes in this guidance or our failure to meet this guidance;
- limited liquidity of our stock, including the potential impact of a small public float;
- the development and sustainability of an active trading market for our stock;
- changes in accounting principles; and
- other events or factors, including those resulting from informational technology system failures and disruptions, natural disasters, war, acts of terrorism or responses to these events.

Furthermore, the stock market may experience extreme volatility that, in some cases, may be unrelated or disproportionate to the operating performance of particular companies. Broader market volatility, especially in the technology sector, may also adversely affect our stock price, regardless of our actual performance. Additionally, low public float or trading volume could amplify price fluctuations. Stockholders may not be able to sell their shares at or above the price paid and could lose all or part of their investment. Periods of volatility may also increase the risk of securities litigation, which could be costly and distract management from our operations.

Any investors who purchase shares of Common Stock in this offering will not be entitled to receive the dividend payment that was recently announced by the Company. In addition, we may change our dividend policy at any time, and, in the event we determine not to pay any cash dividends on our Common Stock in the future, stockholders may not receive any return on investment unless they sell their Common Stock for a price greater than that which they paid for it.

On October 30, 2025, the Company announced that the board of directors had declared a cash dividend of \$0.08 per share of Common Stock. The dividend is payable on November 24, 2025, to stockholders of record as of November 10, 2025. Because the shares of Common Stock sold as part of this offering will not be delivered until after the above-referenced record date, any such investors that purchase shares of our Common Stock pursuant to this offering will not be entitled to receive the dividend payment associated with this record date. See "Description of Capital Stock" in this prospectus.

We pay, and intend to continue to pay, quarterly dividends subject to capital availability and periodic determinations made by our board of directors that cash dividends are in the best interests of our stockholders. Although we anticipate continuing to pay such quarterly cash dividend on our Common Stock, we have no obligation to pay any dividend, and our board of directors may decide to change the dividend policy at any time without notice to the stockholders. Any decision to declare and pay dividends in the future will be, subject to our compliance with applicable law, made at the sole discretion of our board of directors and will depend on, among other things, general and economic conditions, our financial condition and results of operations, our available cash and current and anticipated cash needs, capital requirements, contractual and tax implications on the payment of dividends by us to our stockholders or by our subsidiaries to us, including restrictions and subject to the covenants under our Credit Facilities, the Indenture and any other future indebtedness or preferred securities we may incur or issue, and such other factors as our board of directors may deem relevant. See “Dividend Policy” in this prospectus and Item 7. “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our 2024 Form 10-K, which is incorporated by reference herein. Future dividends may also be affected by factors that our board of directors deems relevant, including our potential future capital requirements for investments, legal risks, changes in federal and state income tax laws or corporate laws and contractual restrictions such as financial or operating covenants in our debt arrangements. As a result, there can be no assurance that we will pay any future dividends, and it is possible that we may need to reduce or eliminate the payment of dividends on our Common Stock in the future. If we decide to not pay future dividends, then stockholders may not receive any return on an investment in our Common Stock unless they sell our Common Stock for a price greater than the purchase price, which may not occur.

If securities or industry analysts do not publish research or reports about our business or if they downgrade our stock or our sector, our stock price and trading volume could decline.

The trading market for our Common Stock will rely in part on the research and reports that industry or financial analysts publish about us or our business. We do not control these analysts. Furthermore, if one or more of the analysts who do cover us downgrade our stock or our industry, or the stock of any of our competitors, or publish inaccurate or unfavorable research about our business, the price of our stock could decline. If one or more of these analysts stop covering us or fail to publish reports on us regularly, we could lose visibility in the market, which in turn could cause our stock price or trading volume to decline.

We have incurred and will continue to incur significantly increased costs and are subject to additional regulations and requirements as a result of becoming a publicly traded company, and our management will be required to devote substantial time to new compliance matters, which could lower our profits or make it more difficult to run our business.

As a result of recently becoming a publicly traded company, we have incurred and will continue to incur significant legal, regulatory, finance, accounting, investor relations and other expenses that we did not previously incur as a privately held company, including costs associated with applicable reporting requirements. As a result of having publicly traded Common Stock, we are also required to comply with, and incur costs associated with such compliance with, the Sarbanes-Oxley Act, the Dodd-Frank Wall Street Reform and Consumer Protection Act and the Public Company Accounting Oversight Board, as well as rules and regulations implemented by the SEC and the NYSE. The expenses incurred by public companies generally for reporting and corporate governance purposes have been increasing. We expect these rules and regulations to continue to increase our legal and financial compliance costs and to make some activities more time-consuming and costly. We anticipate that these costs will materially increase our general and administrative expenses. Our management will need to devote a substantial amount of time to ensure that we comply with all of these requirements, including expanded corporate governance standards, diverting the attention of management away from revenue-producing activities.

In addition, these laws and regulations also could make it more difficult or costly for us to obtain certain types of insurance, including director and officer liability insurance, and we may be forced to accept reduced policy limits and coverage or incur substantially higher costs to obtain the same or similar coverage. These laws and regulations could also make it more difficult for us to attract and retain qualified persons to serve on our board of directors, our board committees or as our executive officers. Furthermore, if we are unable to satisfy our obligations as a publicly traded company, we could be subject to delisting of our Common Stock, fines, sanctions and other regulatory action and potentially civil litigation.

Our board of directors is authorized to issue and designate shares of our preferred stock in additional series without stockholder approval.

Our amended and restated certificate of incorporation authorizes our board of directors, without the approval of our stockholders, to issue 100,000,000 shares of our preferred stock, subject to limitations prescribed by applicable law, rules and regulations and the provisions of our amended and restated certificate of incorporation, as shares of preferred stock in series, to establish from time to time the number of shares to be included in each such series and to fix the designation, powers, preferences and rights of the shares of each such series and the qualifications, limitations or restrictions thereof. The powers, preferences and rights of these additional series of preferred stock may be senior to or on parity with our Common Stock, which may reduce its value. Similarly, the repurchase or redemption rights or liquidation preferences we might assign to holders of preferred securities could affect the residual value of the Common Stock.

Claims for indemnification by our directors, officers or Platinum Advisors may reduce our available funds to satisfy successful third-party claims against us and may reduce the amount of money available to us.

Our amended and restated certificate of incorporation and amended and restated bylaws provide that we will indemnify our directors and officers, in each case to the fullest extent permitted by the Delaware General Corporation Law (the “DGCL”).

In addition, as permitted by Section 145 of the DGCL, our amended and restated bylaws and our indemnification agreements with our directors and officers provide that:

- we will indemnify our directors and officers for serving us in those capacities or for serving other business enterprises at our request, to the fullest extent permitted by the DGCL, which provides that a corporation may indemnify such person if such person acted in good faith and in a manner such person reasonably believed to be in, or not opposed to, our best interests and, with respect to any criminal proceeding, had no reasonable cause to believe such person’s conduct was unlawful;
- we may, in our discretion, indemnify associates and agents in those circumstances where indemnification is permitted by applicable law;
- we are required to advance expenses, as incurred, to our directors and officers in connection with defending a proceeding, except that such directors or officers shall undertake to repay such advances if it is ultimately determined that any such person is not entitled to indemnification;
- we are not obligated pursuant to our amended and restated bylaws to indemnify a person with respect to proceedings initiated by that person against us or our other indemnitees, except with respect to proceedings authorized by our board of directors or brought to enforce a right to indemnification;
- the rights conferred in our amended and restated bylaws are not exclusive, and we are authorized to enter into indemnification agreements with our directors, officers, associates and agents and to obtain insurance to indemnify such persons; and
- we may not retroactively amend our amended and restated bylaws provisions to reduce our indemnification obligations to directors, officers, associates and agents.

In addition, the Investor Rights Agreement provides that if we retain Platinum Equity Advisors, LLC, an entity affiliated with Platinum (“Platinum Advisors”), to provide corporate and advisory services to us, then we will reimburse Platinum Advisors for all third-party costs incurred in rendering such services and indemnify Platinum Advisors and its officers, directors, managers, employees, affiliates, agents and other representatives, to the fullest extent permitted by law, against all liabilities, costs and expenses incurred in connection with such services other than if and to the extent that such liabilities, costs and expenses arise as a result of the gross negligence, bad faith, fraud or willful misconduct of Platinum Advisors. See the section entitled Item 13. “Certain Relationships and Related Transactions, and Director Independence” in our 2024 Form 10-K, which is incorporated herein by reference.

Our amended and restated certificate of incorporation contains exclusive forum provisions for certain stockholder litigation matters, which could limit our stockholders’ ability to obtain a favorable judicial forum for disputes with us or our directors, officers, associates or stockholders.

Our amended and restated certificate of incorporation provides, subject to limited exceptions, that unless we consent to the selection of an alternative forum, the Court of Chancery of the State of Delaware shall, to the fullest extent permitted by law, be the sole and exclusive forum for (1) any derivative action or proceeding brought on our behalf, (2) any action asserting a claim of breach of any fiduciary duty owed by, or other wrongdoing by, any of our current or former directors, officers or other associates to us or our stockholders, creditors or other constituents, or a claim of aiding and abetting any such breach of fiduciary duty, (3) any action asserting a claim against us or any of our directors, officers or employees arising pursuant to any provision of the DGCL or our amended and restated certificate of incorporation or our amended and restated bylaws, (4) any action to interpret, apply, enforce or determine the validity of the amended and restated certificate of incorporation, (5) any other action asserting a claim that is governed by the internal affairs doctrine of the State of Delaware or (6) any other action asserting an “internal corporate claim,” as defined in Section 115 of the DGCL. As described below, this provision does not apply to suits brought to enforce any duty or liability created by the Securities Act or Exchange Act, or rules and regulations thereunder.

To the extent that any such claims may be based upon federal law claims, Section 27 of the Exchange Act creates exclusive federal jurisdiction over all suits brought to enforce any duty or liability created by the Exchange Act or the rules and regulations thereunder. Neither the exclusive forum provision nor the federal forum provision of our amended and restated certificate of incorporation applies to suits brought to enforce any duty or liability created by the Exchange Act. Accordingly, actions by our stockholders to enforce any duty or liability created by the Exchange Act or the rules and regulations thereunder must be brought in federal court.

Section 22 of the Securities Act creates concurrent jurisdiction for federal and state courts over all suits brought to enforce any duty or liability created by the Securities Act or the rules and regulations thereunder. However, our amended and restated certificate of incorporation contains a federal forum provision which provides that unless we consent in writing to the selection of an alternative forum, the federal district courts of the United States of America will be the exclusive forum for the resolution of any complaint asserting a cause of action arising under the Securities Act. Our decision to adopt such a federal forum provision followed a decision by the Supreme Court of the State of Delaware holding that such provisions are facially valid under the DGCL. While there can be no assurances that federal or state courts will follow the holding of the Delaware Supreme Court or determine that our federal forum provision should be enforced in a particular case, application of our federal forum provision means that suits brought by our stockholders to enforce any duty or liability created by the Securities Act must be brought in federal court and cannot be brought in state court.

Any person or entity purchasing or otherwise acquiring any interest in shares of our capital stock shall be deemed to have had notice of and consented to the forum provisions in our amended and restated certificate of incorporation, including the federal forum provision. Additionally, our stockholders cannot waive compliance with the federal securities laws and rules and regulations thereunder. This choice of forum provision may limit a stockholder's ability to bring a claim in a judicial forum that it finds favorable for disputes with us or any of our directors, officers, other associates or stockholders which may discourage lawsuits with respect to such claims. Alternatively, if a court were to find the choice of forum provision contained in our amended and restated certificate of incorporation to be inapplicable or unenforceable in an action, we may incur additional costs associated with resolving such action in other jurisdictions, which could harm our business, operating results and financial condition.

If we or Platinum sell shares of our Common Stock or are perceived by the public markets as intending to sell them, the market price of our Common Stock could decline.

The sale of substantial amounts of shares of our Common Stock in the public market, or the perception that such sales could occur, could harm the prevailing market price of shares of our Common Stock. These sales, or the possibility that these sales may occur, also might make it more difficult for us to sell shares of our Common Stock in the future at a time and at a price that we deem appropriate. In addition, Platinum has pledged 191,326,531 shares of the Company's Common Stock, representing 81.4% of the Company's total outstanding shares of Common Stock, pursuant to a margin loan agreement, and any foreclosure upon those shares could result in sales of a substantial number of shares of our Common Stock in the public market, which could substantially decrease the market price of our Common Stock. As of November 6, 2025, we had a total of 235,072,655 shares of our Common Stock outstanding.

All of such shares are eligible for resale in the public market under Rule 144 of the Securities Act ("Rule 144"), subject in the case of shares held by our affiliates, to volume, manner of sale and other limitations under Rule 144.

In addition, Platinum has the right, subject to certain exceptions and conditions, to require us to register its shares of Common Stock under the Securities Act, and they will have the right to participate in future registrations of securities by us. Registration of any of these outstanding shares of Common Stock would result in such shares becoming freely tradable without compliance with Rule 144 upon effectiveness of the applicable registration statement. As restrictions on resale end or if Platinum exercises its registration rights with respect to our Common Stock, the market price of our Common Stock could decline if Platinum sells such shares or is perceived by the market as intending to sell them.

USE OF PROCEEDS

All shares of our Common Stock offered by this prospectus will be sold by one or both of the selling stockholders, and such selling stockholder or stockholders will receive all of the net proceeds from the sale or other dispositions of the shares covered hereby.

We will pay all expenses in connection with the sale or other disposition of the shares of our Common Stock to be offered by any of the selling stockholders under this prospectus, except that the selling stockholders will pay any underwriting discounts and selling commissions incurred by the selling stockholders in connection with such sales.

DIVIDEND POLICY

On October 30, 2025, the Company announced that the board of directors had declared a cash dividend of \$0.08 per share of Common Stock. The dividend is payable on November 24, 2025, to stockholders of record as of November 10, 2025.

We pay, and intend to continue to pay, quarterly dividends subject to capital availability and periodic determinations made by our board of directors that cash dividends are in the best interests of our stockholders. The declaration, amount and payment of any future dividends on our Common Stock will be, subject to compliance with applicable law, at the sole discretion of our board of directors. Our board of directors may take into account, among other things, general and economic conditions, our financial condition and results of operations, our available cash and current and anticipated cash needs, capital requirements, contractual and tax implications on the payment of dividends by us to our stockholders or by our subsidiaries to us, including restrictions under our Credit Facilities, the Indenture governing the 2029 Notes and other indebtedness or preferred securities we may incur or issue and such other factors as our board of directors may deem relevant. If we elect to pay such dividends in the future, we may reduce or discontinue entirely the payment of such dividends at any time.

Ingram Micro Holding Corporation is a holding company with no material assets other than indirect ownership of the stock of Ingram Micro Inc., and its operations are conducted through its wholly owned subsidiaries. Our operating subsidiaries are currently subject to certain restrictions and covenants under the Credit Agreements and the Indenture. Our ability to pay cash dividends will depend on the payment of distributions by our current and future subsidiaries, including Ingram Micro Inc., and such distributions may be restricted as a result of contractual agreements, including any future agreements governing their indebtedness. These restrictions and covenants may restrict the ability of those entities to make distributions to Ingram Micro Holding Corporation. See the sections entitled Item 1A. "Risk Factors" and Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our 2024 Form 10-K and the section entitled Item 1A. "Risk Factors" in our 2025 Q3 10-Q, which are incorporated by reference herein. Any additional financing arrangement we enter into in the future may include restrictive covenants that limit our subsidiaries' ability to pay dividends to us. In addition, Delaware law may impose requirements that may restrict our ability to pay dividends to holders of our Common Stock.

Our Relationship with Our Sponsor

Founded in 1995 by Tom Gores, Platinum is a global investment firm with \$50+ billion of assets under management and a portfolio of approximately 60 operating companies that serve customers around the world. Platinum specializes in mergers, acquisitions and operations—a trademarked strategy it calls M&A&O®—acquiring and operating companies in a broad range of business markets, including manufacturing, distribution, transportation and logistics, equipment rental, metals services, media and entertainment, technology, telecommunications and other industries. Over the past 30+ years, Platinum has completed more than 500 acquisitions.

Investment vehicles of certain private investment funds sponsored and ultimately controlled by Platinum are the selling stockholders.

Pursuant to our amended and restated certificate of incorporation and the Investor Rights Agreement we entered into in connection with the IPO, the selling stockholders have the right to nominate for election to our board of directors, individuals designated by Platinum in accordance with the respective provisions set forth in our amended and restated certificate of incorporation and the Investor Rights Agreement. Pursuant to our amended and restated certificate of incorporation and the Investor Rights Agreement, Platinum retains the right to nominate for election to our board of directors a majority of our directors for so long as it beneficially owns at least 50% of the voting power of all shares of our outstanding stock entitled to vote generally in the election of our directors. See Item 13. “Certain Relationships and Related Transactions, and Director Independence” in our 2024 Form 10-K, which is incorporated herein by reference, and “Description of Capital Stock” included in this prospectus.

DESCRIPTION OF CAPITAL STOCK

The following summary describes our capital stock and our amended and restated certificate of incorporation, amended and restated bylaws and Investor Rights Agreement to which we and Platinum are party. Because the following is only a summary, it does not contain all of the information that may be important to you. For a complete description, you should refer to our amended and restated certificate of incorporation, amended and restated bylaws and the Investor Rights Agreement, copies of which are incorporated by reference as exhibits to the registration statement of which this prospectus is part, and to the applicable provisions of the DGCL.

Authorized Capital Stock

Our purpose is to engage in any lawful act or activity for which corporations may now or hereafter be organized under the DGCL. Our authorized capital stock consists of 2,000,000,000 shares of Common Stock, par value \$0.01 per share, and 100,000,000 shares of undesignated Preferred Stock, par value \$0.01 per share.

Common Stock

Voting Rights

Holders of our Common Stock are entitled to one vote for each share held on all matters submitted to a vote of stockholders and do not have cumulative voting rights. An election of directors by our stockholders shall be determined by a plurality of the votes cast by the stockholders entitled to vote on the election.

Dividend Rights

Holders of our Common Stock are entitled to receive proportionately any dividends as may be declared by our board of directors, subject to any preferential dividend rights of any series of Preferred Stock that we may designate and issue in the future.

Liquidation Rights

In the event of our liquidation, dissolution or winding-up, the holders of Common Stock are entitled to receive proportionately our net assets available for distribution to stockholders after the payment in full of all debts and other liabilities and subject to the prior rights of any outstanding Preferred Stock.

Rights and Preferences

Holders of Common Stock have no preemptive, subscription, redemption or conversion rights. There are no sinking funds provisions applicable to our Common Stock. The rights, preferences and privileges of holders of Common Stock are subject to and may be adversely affected by the rights of the holders of shares of any series of Preferred Stock that we may designate and issue in the future.

Fully Paid and Nonassessable

All of our outstanding shares of Common Stock are fully paid and nonassessable.

Preferred Stock

We do not currently have any Preferred Stock outstanding. However, our amended and restated certificate of incorporation authorizes our board of directors to establish one or more series of Preferred Stock (including convertible Preferred Stock). Unless required by law or by the NYSE, the authorized shares of Preferred Stock are available for issuance without further action by you. Our board of directors will be able to determine, with respect to any series of Preferred Stock, the terms and rights of that series, including:

- the designation of the series;

- the number of shares of the series, which our board of directors may, except where otherwise provided in the Preferred Stock designation, increase (but not above the total number of authorized shares of the class) or decrease (but not below the number of shares then-outstanding);
- whether dividends, if any, will be cumulative or non-cumulative and the dividend rate of the series;
- the dates at which dividends, if any, will be payable;
- the redemption rights and price or prices, if any, for shares of the series;
- the terms and amounts of any sinking funds provided for the purchase or redemption of shares of the series;
- the amounts payable on shares of the series in the event of any voluntary or involuntary liquidation, dissolution or winding-up of the affairs of the Company;
- whether the shares of the series will be convertible into shares of any other class or series, or any other security, of the Company or any other corporation and, if so, the specification of the other class or series or other security, the conversion price or prices or rate or rates, any rate adjustments, the date or dates as of which the shares will be convertible and all other terms and conditions upon which the conversion may be made;
- restrictions on the issuance of shares of the same series or of any other class or series; and
- the voting rights, if any, of the holders of the series.

We are able to issue a series of Preferred Stock that could, depending on the terms of the series, impede or discourage an acquisition attempt or other transaction that some, or a majority, of the holders of our Common Stock might believe to be in their best interests or in which the holders of our Common Stock might receive a premium for their Common Stock over the market price of the Common Stock. In addition, the issuance of Preferred Stock may adversely affect the holders of our Common Stock by restricting dividends on the Common Stock, diluting the voting power of the Common Stock or subordinating the liquidation rights of the Common Stock. As a result of these or other factors, the issuance of Preferred Stock may have an adverse impact on the market price of our Common Stock.

Dividends

Declaration and payment of any dividend is subject to the discretion of our board of directors. The time and amount of dividends depends upon, among other things, general and economic conditions, our financial condition and results of operations, our available cash and current and anticipated cash needs, capital requirements, contractual and tax implications on the payment of dividends by us to our stockholders or by our subsidiaries to us, including restrictions and subject to the covenants under our Credit Facilities, the Indenture and any other future indebtedness or preferred securities we may incur or issue, and such other factors as our board of directors may deem relevant. Our ability to pay dividends is limited by covenants in our existing indebtedness and may be limited by the agreements governing other indebtedness that we or our subsidiaries incur in the future. See “Dividend Policy” in this prospectus and Item 7. “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our 2024 Form 10-K and Quarterly Reports which are incorporated by reference herein. In addition, because we are a holding company and have no direct operations, we are only able to pay dividends from funds we receive from our subsidiaries.

Nomination Rights of Platinum

Our amended and restated certificate of incorporation and the Investor Rights Agreement grant the selling stockholders the right to nominate for election to our board of directors no fewer than that number of directors that would constitute: (i) a majority of the total number of directors so long as Platinum collectively beneficially own at least 50% of the then-outstanding capital stock of the Company; (ii) 40% of the total number of directors so long as Platinum collectively beneficially own at least 40% but less than 50% of the then-outstanding capital stock of the Company; (iii) 30% of the total number of directors so long as Platinum collectively beneficially own at least 30% but less than 40% of the then-outstanding capital stock of the Company; (iv) 20% of the total number of directors so long as Platinum collectively beneficially own at least 20% but less than 30% of the then-outstanding capital stock of the Company; and (v) 10% of the total number of directors so long as Platinum collectively beneficially own at least 5% but less than 20% of the then-outstanding capital stock of the Company. For purposes of calculating the number of directors that the selling stockholders will be entitled to nominate pursuant to the formula outlined above, any fractional amounts shall automatically be rounded up to the nearest whole number. Unless otherwise agreed by the selling stockholders, for so long as Platinum retains the right to nominate a person to our board of directors, each committee of the board of directors will include at least one of the director candidates designated by Platinum, except to the extent such membership would violate applicable securities laws or stock exchange or stock market rules or where the sole purpose of such committee is to address actual or potential conflicts of interest between us and Platinum.

Registration Rights

The following description of the terms of the Investor Rights Agreement is intended as a summary only and is qualified in its entirety by reference to the Investor Rights Agreement filed as an exhibit to the registration statement of which this prospectus is a part.

Demand and Short-Form Registration Rights

The selling stockholders may request that we register their registrable securities on one or more occasions in the future, which registrations may be “shelf registrations.”

Piggyback Registration Rights

At any time that we propose to register any of our securities under the Securities Act (other than a registration relating to employee benefit plans, or solely relating to shares to be sold under Rule 145 or a similar provision under the Securities Act), the selling stockholders will be entitled to certain “piggyback” registration rights allowing them to include their registrable securities in such registration.

Expenses of Registration, Restriction and Indemnification

We will pay all registration expenses, including the legal fees of counsel selected by Platinum, under the Investor Rights Agreement. The demand and piggyback registration rights are subject to customary restrictions such as limitations on the number of shares to be included in the underwritten offering imposed by the managing underwriter. The Investor Rights Agreement also contains customary indemnification and contribution provisions.

Anti-Takeover Effects of Our Amended and Restated Certificate of Incorporation and Bylaws and Provisions of Delaware Law

General

Our amended and restated certificate of incorporation, amended and restated bylaws and the DGCL, which are summarized in the following paragraphs, contain provisions that are intended to enhance the likelihood of continuity and stability in the composition of our board of directors. These provisions are intended to avoid costly takeover battles, reduce our vulnerability to a hostile change of control and enhance the ability of our board of directors to maximize stockholder value in connection with any unsolicited offer to acquire us. However, these provisions may have an anti-takeover effect and may delay, deter or prevent a merger or acquisition of the Company by means of a tender offer, a proxy contest or other takeover attempt that a stockholder might consider is in its best interest, including those attempts that might result in a premium over the prevailing market price for the shares of Common Stock held by stockholders.

Classified Board

Our amended and restated certificate of incorporation provides that our board of directors is divided into three classes of directors, with the classes to be as nearly equal in number as possible and with the directors serving three-year terms. As a result, approximately one-third of our board of directors are elected each year. The classification of directors has the effect of making it more difficult for stockholders to change the composition of our board of directors. Our amended and restated certificate of incorporation and amended and restated bylaws provide that the number of directors is fixed from time to time exclusively pursuant to a resolution adopted by the board of directors, provided that, in the event that the number of directors nominated by the selling stockholders is less than the number that the selling stockholders are entitled to nominate under our amended and restated certificate of incorporation or the Investor Rights Agreement and there are no vacancies on our board of directors, then, upon our receipt of a written request of Platinum, the size of our board shall be increased automatically such that Platinum shall have the right, at any time, to nominate any such additional nominees under our amended and restated certificate of incorporation.

No Cumulative Voting

Under Delaware law, the right to vote cumulatively does not exist unless the certificate of incorporation specifically authorizes cumulative voting. Our amended and restated certificate of incorporation does not authorize cumulative voting. Therefore, stockholders holding a majority in voting power of the shares of our stock entitled to vote generally in the election of directors will be able to elect all of our directors.

Removal of Directors; Vacancies

Under the DGCL, unless otherwise provided in our certificate of incorporation, directors serving on a classified board may be removed by the stockholders only for cause. Our amended and restated certificate of incorporation provides that directors may be removed with or without cause upon the affirmative vote of a majority in voting power of all outstanding shares of stock entitled to vote thereon, voting together as a single class; provided, however, that from and after the time Platinum and its affiliates cease to beneficially own, in the aggregate, at least a majority of the voting power of our outstanding Common Stock, directors may only be removed for cause, and only by the affirmative vote of holders of at least 66 and 2/3% in voting power of all the then-outstanding shares of stock of the Company entitled to vote thereon, voting together as a single class. Subject to the rights granted to Platinum under our amended and restated certificate of incorporation and the Investor Rights Agreement, any vacancy on our board of directors, including a vacancy resulting from an enlargement of our board of directors, may be filled only by vote of a majority of our directors then in office. In the event that (i) a vacancy is created at any time by the death, resignation, removal (with or without cause) or by any other cause of the selling stockholders' nominee and (ii) the number of directors nominated by the selling stockholders is less than the number that the selling stockholders are entitled to nominate under our amended and restated certificate of incorporation and the Investor Rights Agreement, then such vacancy may be filled only by the selling stockholders unless otherwise agreed by Platinum.

Advance Notice for Raising Business or Making Nominations at Meetings

Our amended and restated bylaws establish advance notice procedures with respect to stockholder proposals and the nomination of candidates for election as directors, other than nominations made by or at the direction of the board of directors or a committee of the board of directors. In order for any matter to be “properly brought” before a meeting, a stockholder will have to comply with advance notice requirements and provide us with certain information. Generally, to be timely, a stockholder’s notice must be received at our principal executive offices not less than 90 days nor more than 120 days prior to the first anniversary date of the immediately preceding annual meeting of stockholders. Our amended and restated bylaws also specify requirements as to the form and content of a stockholder’s notice. Our amended and restated bylaws allow the chairperson of the meeting at a meeting of the stockholders to adopt rules and regulations for the conduct of meetings which may have the effect of precluding the conduct of certain business at a meeting if the rules and regulations are not followed. These notice requirements do not limit Platinum or its affiliates’ rights under our amended and restated certificate of incorporation or the Investor Rights Agreement. These provisions and Delaware law may defer, delay or discourage a potential acquirer from conducting a solicitation of proxies to elect the acquirer’s own slate of directors or otherwise attempting to influence or obtain control of the Company.

Actions by Written Consent; Special Meetings of Stockholders

Pursuant to Section 228 of the DGCL, any action required to be taken at any annual or special meeting of the stockholders may be taken without a meeting, without prior notice and without a vote if a consent or consents in writing, setting forth the action to be so taken, is signed by the holders of outstanding stock having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares of our stock entitled to vote thereon were present and voted, unless our amended and restated certificate of incorporation provides otherwise. Our amended and restated certificate of incorporation precludes stockholder action by written consent once Platinum and its affiliates beneficially own, in the aggregate, less than a majority of the voting power of all outstanding shares of our Common Stock.

Our amended and restated certificate of incorporation also provides that special meetings of our stockholders may be called at any time only by or at the direction of the board of directors or the chairperson of the board of directors; provided, however, that Platinum and its affiliates are permitted to call special meetings of our stockholders for so long as they hold, in the aggregate, at least a majority of the voting power of all outstanding shares of our Common Stock. Our amended and restated bylaws prohibit the conduct of any business at a special meeting other than as specified in the notice for such meeting. These provisions may have the effect of deferring, delaying or discouraging hostile takeovers or changes in control or management of the Company.

Amended and Restated Certificate of Incorporation and Bylaws

The DGCL provides generally that the affirmative vote of a majority of the outstanding shares entitled to vote thereon, voting together as a single class, is required to amend a corporation’s certificate of incorporation, unless the certificate of incorporation requires a greater percentage.

Our amended and restated certificate of incorporation provides that once Platinum and its affiliates beneficially own, in the aggregate, less than 50% of the voting power of all outstanding shares of stock entitled to vote generally in the election of directors, the following provisions in our amended and restated certificate of incorporation may be amended, altered, repealed or rescinded only by the affirmative vote of the holders of at least 66 and 2/3% in the voting power of all outstanding shares of stock entitled to vote generally in the election of directors, voting together as a single class:

- the provision requiring a 66 and 2/3% supermajority vote for stockholders to amend our amended and restated bylaws;
- the provisions providing for a classified board of directors (the election and term of our directors);
- the provisions regarding resignation and removal of directors;

- the provisions regarding entering into business combinations with interested stockholders;
- the provisions regarding stockholder action by written consent;
- the provisions regarding calling special meetings of stockholders;
- the provisions regarding filling vacancies on our board of directors and newly created directorships;
- the provisions eliminating monetary damages for breaches of fiduciary duty by a director;
- the provisions regarding competition and corporate opportunities; and
- the amendment provision requiring that the above provisions may be amended only with a 66 and 2/3% supermajority vote.

In addition, our amended and restated certificate of incorporation may not be amended, altered or repealed without the prior written consent of Platinum if such amendment, alteration or repeal would adversely affect the rights of Platinum under our amended and restated certificate of incorporation.

The combination of the classification of our board of directors, the lack of cumulative voting and the supermajority voting requirements make it more difficult for our existing stockholders to replace our board of directors, as well as for another party to obtain control of us by replacing our board of directors. Because our board of directors has the power to retain and discharge our officers, these provisions could also make it more difficult for existing stockholders or another party to effect a change in management.

Dissenters' Rights of Appraisal and Payment

Under the DGCL, with certain exceptions, our stockholders will have appraisal rights in connection with a merger or consolidation of us. Pursuant to the DGCL, stockholders who properly request and perfect appraisal rights in connection with such merger or consolidation will have the right to receive payment of the fair value of their shares as determined by the Delaware Court of Chancery.

Stockholders' Derivative Actions

Under the DGCL, any of our stockholders may bring an action in our name to procure a judgment in our favor, also known as a derivative action, provided that the stockholder bringing the action is a holder of our shares at the time of the transaction to which the action relates or such stockholder's stock thereafter devolved by operation of law.

Exclusive Jurisdiction of Certain Actions

Our amended and restated certificate of incorporation provides, subject to limited exceptions, that unless we consent to the selection of an alternative forum, the Court of Chancery of the State of Delaware is, to the fullest extent permitted by law, the sole and exclusive forum for any (i) derivative action or proceeding brought on behalf of the Company, (ii) action asserting a claim of breach of any fiduciary duty owed by, or other wrongdoing by, any director, officer or other employee of the Company to the Company or our stockholders, creditors or other constituents, or a claim of aiding and abetting any such breach of fiduciary duty, (iii) action asserting a claim against the Company or any director, officer or other employee of the Company arising pursuant to any provision of the DGCL or our amended and restated certificate of incorporation or our amended and restated bylaws, (iv) action to interpret, apply, enforce or determine the validity of the amended and restated certificate of incorporation, (v) action asserting a claim against the Company or any director, officer or other employee of the Company governed by the internal affairs doctrine or (vi) any other action asserting an “internal corporate claim,” as that term is defined in Section 115 of the DGCL; provided that, for the avoidance of doubt, the exclusive forum provision will not apply to suits brought to enforce any liability or duty created by the Securities Act, the Exchange Act, or any other claim for which the federal courts have exclusive jurisdiction. Our amended and restated certificate of incorporation also provides that, unless we consent in writing to the selection of an alternative forum, the U.S. federal district courts will be the exclusive forum for the resolution of any actions or proceedings asserting claims arising under the Securities Act. However, Section 22 of the Securities Act creates concurrent jurisdiction for federal and state courts over all suits brought to enforce a duty or liability created by the Securities Act or the rules and regulations thereunder. While the Delaware Supreme Court has upheld the validity of similar provisions under the DGCL, there is uncertainty as to whether a court in another state would enforce such a forum selection provision. Our exclusive forum provision does not relieve us of our duties to comply with the federal securities laws and the rules and regulations thereunder, and our stockholders are not deemed to have waived our compliance with these laws, rules and regulations. Any person or entity purchasing or otherwise acquiring any interest in shares of capital stock of the Company will be deemed to have received notice of and consented to the forum provisions in our amended and restated certificate of incorporation. For more information on the risks associated with our choice of forum provision, see “Risk Factors—Risks Related to this Offering and Ownership of Our Common Stock—Our amended and restated certificate of incorporation contains exclusive forum provisions for certain stockholder litigation matters, which could limit our stockholders’ ability to obtain a favorable judicial forum for disputes with us or our directors, officers, associates or stockholders.” in our 2024 Form 10-K which is incorporated by reference.

Business Combinations

We are not subject to the provisions of Section 203 of the DGCL. In general, Section 203 prohibits a publicly held Delaware corporation from engaging in a “business combination” with an “interested stockholder” for a three-year period following the time that the person becomes an interested stockholder, unless the business combination is approved in a prescribed manner. A “business combination” includes, among other things, a merger, asset or stock sale or other transaction resulting in a financial benefit to the interested stockholder. An “interested stockholder” is a person who, together with affiliates and associates, owns, or did own within three years prior to the determination of interested stockholder status, 15% or more of the corporation’s voting stock.

Under Section 203, a business combination between a corporation and an interested stockholder is prohibited unless it satisfies one of the following conditions:

- before the stockholder became an interested stockholder, our board of directors approved either the business combination or the transaction that resulted in the stockholder becoming an interested stockholder;
- upon consummation of the transaction that resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of our voting stock outstanding at the time the transaction commenced, excluding certain shares; or
- at or after the time that the stockholder became an interested stockholder, the business combination was approved by our board of directors and by the affirmative vote of holders of at least two-thirds of our outstanding voting stock that was not owned by the interested stockholder.

A Delaware corporation may “opt out” of these provisions with an express provision in its original certificate of incorporation or an express provision in its certificate of incorporation or bylaws resulting from a stockholders’ amendment approved by at least a majority of the outstanding voting shares.

We opt out of Section 203; however, our certificate of incorporation contains similar provisions providing that we may not engage in certain “business combinations” with any “interested stockholder” for a three-year period following the time that the stockholder became an interested stockholder, unless:

- prior to such time, our board of directors approved either the business combination or the transaction which resulted in the stockholder becoming an interested stockholder;
- upon consummation of the transaction that resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of our voting stock outstanding at the time the transaction commenced, excluding certain shares; or
- at or subsequent to that time, the business combination was approved by our board of directors and by the affirmative vote of holders of at least 66 and 2/3% of our outstanding voting stock that was not owned by the interested stockholder.

Under certain circumstances, this provision will make it more difficult for a person who would be an “interested stockholder” to effect various business combinations with the Company for a three-year period. This provision may encourage companies interested in acquiring the Company to negotiate in advance with our board of directors because the stockholder approval requirement would be avoided if our board approves either the business combination or the transaction which results in the stockholder becoming an interested stockholder. These provisions also may have the effect of preventing changes in our board of directors and may make it more difficult to accomplish transactions which stockholders may otherwise deem to be in their best interests.

Our amended and restated certificate of incorporation provides that Platinum and its affiliates, any of their respective direct or indirect transferees and any group as to which such persons are a party, do not constitute “interested stockholders” for purposes of this provision.

Limitations on Liability of Directors and Indemnification of Directors and Officers

The DGCL authorizes corporations to limit or eliminate the personal liability of directors or certain officers to the corporation and their stockholders for monetary damages for breaches of directors’ or officers’ fiduciary duties, subject to certain exceptions. Our amended and restated certificate of incorporation includes a provision that eliminates the personal liability of directors and certain officers for monetary damages for any breach of fiduciary duty as a director or officer, except to the extent such liability or limitation thereof is not permitted under the DGCL. The effect of these provisions is to eliminate (1) our rights, and the rights of our stockholders, through stockholders’ derivative suits on our behalf, to recover monetary damages from a director for breach of fiduciary duty as a director and (2) our rights to recover monetary damages from certain officers for breach of fiduciary duty as an officer. However, exculpation does not apply to (1) a director or officer for any breach of the director’s or officer’s duty of loyalty to the corporation or its stockholders, (2) a director or officer for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (3) a director or officer for any transaction from which the director or officer derived an improper personal benefit, (4) a director under Section 174 of the DGCL (regarding, among other things, the payment of unlawful dividends or unlawful stock purchases or redemptions) or (5) an officer in any action by or in the right of the corporation.

Our amended and restated bylaws provide that we must indemnify and advance expenses to our directors and officers to the fullest extent authorized by the DGCL. We also are expressly authorized to carry directors’ and officers’ liability insurance providing indemnification for our directors, officers and certain associates for some liabilities. We believe that these indemnification and advancement provisions and insurance are useful to attract and retain qualified directors and executive officers.

The limitation of liability, indemnification and advancement provisions in our amended and restated certificate of incorporation and amended and restated bylaws may discourage stockholders from bringing a lawsuit against directors for breach of their fiduciary duty. These provisions may also have the effect of reducing the likelihood of derivative litigation against directors and officers, even though such an action, if successful, might otherwise benefit us and our stockholders. In addition, your investment may be adversely affected to the extent we pay the costs of settlement and damage awards against directors and officers pursuant to these indemnification provisions.

There is currently no pending material litigation or proceeding involving any of our directors, officers or associates for which indemnification is sought.

Corporate Opportunity

Delaware law permits corporations to adopt provisions renouncing any expectancy in or right to be offered an opportunity to participate in certain transactions or matters that may be investment, corporate or business opportunities and that are presented to a corporation or its officers, directors or stockholders. Our amended and restated certificate of incorporation, to the maximum extent permitted from time to time by Delaware law, renounces any interest or expectancy that we have in, or right to be offered an opportunity to participate in, specified business opportunities that are from time to time presented to our officers, directors or stockholders or their respective affiliates, other than those officers, directors, stockholders or affiliates who are our or our subsidiaries' associates. Our amended and restated certificate of incorporation provides that, to the fullest extent permitted by law, Platinum or any of its affiliates or any director who is not employed by us (including any non-employee director who serves as one of our officers in both his or her director and officer capacities) or his or her affiliates will not have any duty to refrain from (i) engaging in a corporate opportunity in the same or similar lines of business in which we or our affiliates now engage or propose to engage or (ii) otherwise competing with us or our affiliates. In addition, to the fullest extent permitted by law, in the event that Platinum or any of its affiliates or any non-employee director acquires knowledge of a potential transaction or other business opportunity which may be a corporate opportunity for itself or himself or its or his affiliates or for us or our affiliates, such person will have no duty to communicate or offer such transaction or business opportunity to us or any of our affiliates and they may take any such opportunity for themselves or offer it to another person or entity. Our amended and restated certificate of incorporation does not renounce our interest in any business opportunity that is expressly offered to a non-employee director solely in his or her capacity as a director or officer of the Company. To the fullest extent permitted by law, no business opportunity will be deemed to be a potential corporate opportunity for us unless we would be permitted to undertake the opportunity under our amended and restated certificate of incorporation, we have sufficient financial resources to undertake the opportunity and the opportunity would be in line with our business.

EXPERTS

The financial statements incorporated in this prospectus by reference to the Annual Report on Form 10-K for the year ended December 28, 2024 have been so incorporated in reliance on the report of PricewaterhouseCoopers LLP (“PwC”), an independent registered public accounting firm, given on the authority of said firm as experts in auditing and accounting.

PwC identified non-audit services impacting the period from January 2023 to August 2024. A member firm of PricewaterhouseCoopers International Limited (“PwC Member Firm”) and an unrelated third party jointly provided services, which included management functions at an immaterial branch of a wholly owned subsidiary of an entity under common control with the Company. These services were permissible under the applicable independence standards at the time the services were rendered but are inconsistent with SEC and Public Company Accounting Oversight Board (United States) independence rules. The services included remitting payments and filing documents with non-tax authorities on behalf of the branch.

PwC provided an overview of the facts and circumstances surrounding the non-audit services to the Audit Committee and the management team of the Company, including the entity involved, the nature of the non-audit services, the period over which they were provided, an approximation of the fees related to the non-audit services and other relevant factors.

The non-audit services were provided to an affiliate of the Company and not to the Company itself. None of the PwC Member Firm’s service engagement team members that performed the non-audit services have been or are members of the Company’s PwC audit engagement team. The non-audit services did not place PwC in a position of auditing its own work, did not result in PwC performing any decision-making or supervisory functions for the Company, and did not place PwC in a position of being an advocate for the Company. The fees received in connection with the non-audit services were approximately \$5,500 and are immaterial to PwC, the PwC Member Firm and the entity to which the non-audit services were provided.

Considering the facts presented, the Audit Committee of the Company and PwC have concluded (i) that the non-audit services noted above did not and would not impair PwC’s application of objective and impartial judgment on any matter encompassed within PwC’s audit of the financial statements as of and for the years ended December 28, 2024, and December 30, 2023, and (ii) that no reasonable investor would conclude otherwise.
